The Perak Government Gazette.

PUBLISHED BY AUTHORITY.

No. 1.] TAIPING, FRIDAY, JANUARY 4, 1901. [Vol. XIV.

FEDERAL.

R.-G.O. CIRCULAR No. 16.—1900.

AUTHORITY GIVEN TO PRIVATE OR SEMI-OFFICIAL PUBLICATIONS COMPILED BY PERMISSION FROM OFFICIAL RECORDS.

The following Colonial Office Circular Letter is published for general information, and the Acting Resident-General directs that the general principle therein laid down shall govern the practice in the Federated Malay States :—

(Circular.)

DOWNING STREET, 31st October, 1900.

SIR,

I have the honour to inform you that the question as to the extent to which official sanction should be given to private or semi-official publications compiled by permission from official records has recently been under my consideration, and that, in communication with the Secretary of State for Foreign Affairs and the Lords Commissioners of Her Majesty's Treasury, it has been thought desirable to lay down as a general principle that official sanction should be limited to publications which a Government Department issues in its own name, and should be disclaimed expressly on the face of all private or semi-official publications, permitted to be compiled by individuals in whole or in part from official records and information.

I have to request that this general principle may govern the practice in the Colony under your Administration.

I have the honour to be,

Sir,

Your most obedient humble Servant,

J. CHAMBERLAIN.

By Command,

OLIVER MARKS,

Ag. Secretary to Resident-General, F.M.S.

RESIDENT-GENERAL'S OFFICE,

SELANGOR, 18th December, 1900.

THE following Notifications are, by Command of the Acting Resident, published for general information.

A. R. VENNING,
Secretary to Government.

APPOINTMENTS.

No. 1.—Mr. Lionel Paterson to be an Assistant Engineer, Federated Malay States Railways, with effect from the 15th November, 1900.

Mr. Paterson reported his arrival on the 17th December, 1900.

No. 2.—Mr. Samuel Arthur Carter to be an Assistant Engineer, Federated Malay States Railways, with effect from the 15th November, 1900.

Mr. Carter reported his arrival on the 17th December, 1900.

No. 3.—Mr. John Huw Williams to be an Assistant Engineer, Federated Malay States Railways, with effect from the 15th November, 1900.

Mr. Williams reported his arrival on the 17th December, 1900.

No. 4.—Mr. Frederick Street, 1st Grade Station Master, Perak State Railways, to be Traffic Inspector, Perak State Railways, with effect from the 1st January, 1901.

No. 5.—Mr. Aloysius Hermenejild do Rozario Fonseca to be a Cadet, with effect from the 15th November, 1900.

Mr. Fonseca reported his arrival on the 29th December, 1900.

No. 6.—Mr. Paul August Felix David, Passed Cadet, to be Assistant District Magistrate and Treasurer, Kuala Kangsar, with effect from the 22nd December, 1900.

No. 7.—Mr. John Stanislaus Woulfe, Chief Postmaster, to act as Financial Assistant, Batang Padang, with effect from the 1st January, 1901.

No. 8.—Mr. Forbes Brown to be a Settlement Officer, with effect from the 7th December, 1900.

LEAVE.

No. 9.—Mr. Henry George Bagnall Vane, State Auditor, reported his return from leave of absence and resumed duties on the 29th December, 1900.

RESIGNATIONS.

No. 10.—The resignation of Mr. James Charles Winterscale, Financial Clerk, Public Works Department, has been accepted, with effect from the 1st January, 1901.

No. 11.—The resignation of Mr. Frederick Onslow Brooke Dennys, Inspector of Mines, Batang Padang, has been accepted, with effect from the 1st January, 1901.

PUBLIC HOLIDAY.

No. 12.—It is hereby notified that Tuesday, the 22nd January (Hari Raia), will be observed as a public holiday throughout the State.

2nd January, 1901.

LICENSED PETITION WRITER.

No. 13.—Krishnasamy has been granted a licence as a Petition Writer for the District of Batang Padang, for six months, from the 4th December, 1900.

14th December, 1900.

3rd January, 1901.

NOTICE UNDER SECTION 16 OF THE MINING
ENACTMENT, NO. 5 OF 1899.

FORFEITURE OF MINING LEASE.

No. 15.—Whereas the Lessee of the land described in the schedule hereto has failed to fulfil the conditions on which the lease for the said land has been granted to him.

And whereas the said Lessee, having been served with a notice in accordance with Section 15 of the Mining Enactment, 1899, has failed to show cause, to the satisfaction of the Resident, why the said lease should not be forfeited.

In accordance with Section 16 of the above Enactment, notice is hereby given that the said lease has been forfeited and that the land comprised therein has been reverted to and vested in the Ruler of the State.

SCHEDULE.

District—Kuala Kangsar. *Mukim*—Kota Lama Kiri. *Lot No.*—4. *Area*—55 acres, 2 roods, 36 poles. *Nature of Title*—Alluvial Mining Lease. *Title No.*—58. *Lessee*—I Tou.

Dated at Taiping, this 29th day of December, 1900.

2nd January, 1901.

R. S. F. WALKER,
Acting British Resident.

NOTIFICATION UNDER SECTION 6 OF THE
LAND ENACTMENT, 1897.

RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 902.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims that parcel of land situated at Selebin, described in the schedule hereto, and delineated upon Revenue Survey Plan No. 7,824, deposited in the office of the District Surveyor, at Batu Gajah, to be a reserve for the purpose of disposal of night-soil, to be maintained by the Kinta Sanitary Board.

SCHEDULE.

District—Kinta. *Mukim*—Ulu Kinta. *Plan No.*—7,824. *Lot No.*—2,729. *Area*—6 acres, 3 roods and 27 poles. *Boundaries*—North, Plan Nos. 293, 6,647 and Bridle-path; East, Road and State Land; South, Road, Bridle-path and Plan No. 7,823; West, Bridle-path and Plan No. 967.

This Notification is made under Section 6 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 19th day of December, 1900.

A. R. VENNING,
Secretary to Government.

NOTIFICATION UNDER SECTION 72 OF THE
LAND ENACTMENT, 1897.

ACQUISITION OF LAND FOR PUBLIC PURPOSES.

No. 903.—Whereas it appears to the Acting Resident that the land described below, situated at Ulu Bernam, in the mukim of Ulu Bernam, in the District of Batang Padang, is likely to be required for the public purpose of making a railway.

It is hereby notified that the Assistant Engineer, Tanjong Malim, and any officers or workmen duly employed under him, are authorised to enter upon and survey and take levels of the above mentioned land proposed to be taken, and to mark such levels and boundaries by placing marks and cutting trenches, and where otherwise the survey cannot be completed, the levels taken, or the boundaries or line of the work marked, to cut down and clear away any standing crop, fence or jungle.

SCHEDULE.

Nature of Title—Application. *Title No.*—749. *Survey No.*—192. *Name of Applicant*—Wong Ah See. *Area*—4 acres, 2 roods, 28 poles. *Mukim*—Ulu Bernam.

This Notification is made under Section 72 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 11th day of December, 1900.

A. R. VENNING,
Secretary to Government.

DECLARATION UNDER SECTION 75 OF THE
LAND ENACTMENT, 1897.

ACQUISITION OF LAND FOR PUBLIC PURPOSES.

No. 904.—It is hereby notified that whereas the whole or certain portions of those lands in the mukim of Ulu Kinta, in the District of Kinta, set forth and described in the schedule hereto, are required for the public purpose of a Railway Siding, it is the intention of the Government to take possession of the same under Part VII of the Land Enactment, No. 17 of 1897, after the publication of this notice in the *Gazette*.

Plans of the lands described below, shewing the portions to be resumed, may be seen at the Land Office, Batu Gajah, during the usual hours, on application to the Collector of Land Revenue.

SCHEDULE.

Mukim.	Situation.	Plan No.	Area.	TITLE.		Owner or Claimant.	Extent of resumption.

LAND OFFICE NOTICES.

LARUT LAND OFFICE.

No. 911.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Haji Muhammad bin Abdullah of Trong, for a new document of title for land situated at Sungei Lidin, in the mukim of Tupai, on the ground that Haji Muhammad bin Abdullah is the registered owner thereof, and that the original Permit to clear, No. 211 of 1887, has been destroyed:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application the new document of title applied for will, subject to the provisions of the said Section 13, be granted.

21st December, 1900.

No. 785.—Whereas there is reason to believe that the persons enumerated in the Schedule hereto have severally failed to fulfil the labour conditions of the Leases herein shewn, as held by each of them respectively, in consequence whereof the said Leases have become liable to forfeiture, now with the approval of the Acting Resident, I hereby notify each of the said persons that if within three months from the date of publication of this notice in the *Gazette*, the labour forces on the said lands be not severally increased, so as to substantially comply with the conditions of the said Titles respectively the lands, or a portion of them, according to circumstances, will be resumed in the absence of good cause shewn to the contrary.

Dated this 9th day of November, 1900.

SCHEDULE.

Lessee.	No. of Lease.	Date of Lease.	Situation.	Area.			Boundaries.
				A.	R.	P.	
Chia Chin Yong ...	156	24/4/90	Kamunting	5	0	20	North by Lot No. 96; East by Lot Nos. 91 and 98; South by Lot No. 99; West by Lot No. 95.
Chow Leng ...	184	25/6/90	Do.	5	0	01	North by Lot No. 97; East by old workings; South by State land West by old workings.

No. 695.—To the Landholders named in Schedule hereto :

Take notice that whereas you have abandoned the lands referred to in schedule hereto in the district of Larut, and have failed to pay the rent due thereon for more than three consecutive years, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment and under the terms and conditions on which they were allotted to you, and that unless within three months of the date of this notice you shew, to the satisfaction of the Resident, that you have not abandoned the said lands, or repair your default in respect thereof, they will at the expiration of that time be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 12th day of October, 1900

SCHEDULE.

E. S. HOSE,
Acting Collector of Land Revenue.

MATANG LAND OFFICE.

No. 25.—Application having been made to the Collector of Land Revenue, at Matang, by Chuah Liew of Selinsing, for an extract from the Mukim Register for land held under Mukim Register No. 57, situated at Selinsing, in the district of Matang, on the ground that Chuah Liew is the registered owner thereof and that the original Extract from the Mukim Register No. 57, has been lost:

4th January, 1901.

No. 696.—Application having been made to the Collector of Land Revenue, Matang, by Dowd bin Muhammad Alli of Simpang, for a new document of title for land situated at Simpang, in the District of Matang, on the ground that Dowd bin Muhammad Alli is the registered owner thereof and that the original Agreement for Agricultural Lease No. 607, has been lost:

No. 697.—Application having been made to the Collector of Land Revenue, Matang, by Muhammad bin Kusin of Kota Stia, for new documents of title for lands situated at Simpang, in the District of Matang, on the ground that Muhammad bin Kusin is the registered owner thereof and that the original Agreements for Agricultural Leases Nos. 665 and 668, have been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue, for refusing these applications the new titles applied for will, subject to the provisions of the said Section 13, be granted.

12th October, 1900.

R. CLAYTON,
Acting Collector of Land Revenue.

KUALA KANGSAR.

No. 735.—To the Landholders named in the Schedule hereto :

Take notice that whereas you have abandoned the lands described hereunder in the mukims of Kampong Buaia, Kota Lama Kanan, Kota Lama Kiri, Blanja and Laiang-Laiang, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such lands or unless you enter or re-enter into occupation of such land by making a *bonâ fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 26th day of October, 1900.

No. 822.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Anjang Omar bin Pandak Serain of Kampong Buaia, for a new document of title for land situated in the mukim of Kampong Buaia, on the ground that he is the registered owner thereof, and that the original Permit No. 4,915 of 1886, whereby the land was demised to him, has been lost

No. 823.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Lam bin Syed Omar of Chigar Gala, for a new document of title for land situated in the mukim of Kampong Buaia, on the ground that he is the registered owner thereof, and that the original Permit No. 501 of 1892, whereby the land was demised to him, has been lost :

No. 824.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Samat bin Alang Gendek of Saiong, for a new document of title for land situated in the mukim of Saiong, on the ground that he is the registered owner thereof, and that the original Permit No. 5836 of 1886, whereby the land was demised to him, has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

23rd November, 1900.

F. ROBERTSON,
Acting Collector of Land Revenue.

UPPER PERAK LAND OFFICE.

No. 736.—Application having been made to the Collector of Land Revenue at Janing by L. V. Helms of Lenggong, for new Extracts from the Mukim Register for building lots situated at Lenggong, in the mukim of Lenggong, on the ground that L. V. Helms is the registered owner thereof, and that the original Extract Nos. 627, 628, 629 and 630 have been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the Extracts from the Mukim Register applied for will, subject to the provisions of the said Section 13, be granted.

26th October, 1900.

H. BERKELEY,
Collector of Land Revenue.

KRIAN LAND OFFICE.

No. 850.—Application having been made to the Collector of Land Revenue, Krian, by Sahat bin Alang of Tanjong Piandang, for a new document of title for land held under Permit No. 402, and situated in the mukim of Tanjong Piandang, on the ground that Sahat bin Alang is the registered owner thereof, and that the original Permit has been lost :

No. 851.—Application having been made to the Collector of Land Revenue, Krian, by Raiapen, son of Sourimuttu, of Bagan Serai, for a new document of title for land held under Permit No. 549, and situated in the mukim of Bagan Serai, on the ground that Raiapen, son of Sourimuttu, is the registered owner thereof, and that the original Permit has been lost :

No. 852.—Application having been made to the Collector of Land Revenue, Krian, by Mat Asin bin Ngah of Bagan Serai, for a new document of title for land held under Agreement for a Lease No. 6,351, and situated in the mukim of Bagan Serai, on the ground that Mat Asin bin Ngah is the registered owner thereof, and that the original Agreement for a Lease has been lost :

No. 853.—Application having been made to the Collector of Land Revenue, Krian, by Kassim bin Abdulrani of Sungei Kota, for new documents of titles for lands held under Agreement for a Lease No. 5,611 and Mukim Extract No. 55, and situated in the mukim of Bagan Serai, on the ground that Kassim bin Abdulrani is the registered owner of Agreement for a Lease No. 5,611, and Haji Hamid the registered owner of Mukim Extract No. 55, and that the original Agreement for a Lease and Mukim Extract have been lost :

No. 854.—Application having been made to the Collector of Land Revenue, Krian, by Kee Queh Kang, Low Chap Cheah and Kassim bin Che Amin, attorney for Kee Ah Lee, attorneys of Kee Ah Aye, for a new document of title for land held under Agreement for a Lease No. 6,774, and situated in the mukim of Parit Buntar, on the ground that Kee Ah Aye is the registered owner thereof, and that the original Agreement for a Lease has been lost :

No. 855.—Application having been made to the Collector of Land Revenue, at Krian, by Kapang bin Jang Wallah of Bagan Serai, for an extract from the Mukim Register for a piece of land situated at Bagan Serai, in the mukim of Bagan Serai, on the ground that Kapang bin Jang Wallah is the registered owner thereof, and that the original Permit No. 881 has been lost :

No. 856.—Application having been made to the Collector of Land Revenue, at Krian, by Ramasamy Padiache, son of Perumal Padiache, of Simpang Lima, Parit Buntar, for an extract from the Mukim Register for a piece of land situated at Simpang Lima, in the mukim of Parit Buntar, on the ground that Ramasamy Padiache, son of Perumal Padiache, is the registered owner thereof, and that the original Agreement for a Lease No. 5,429 has been lost :

No. 857.—Application having been made to the Collector of Land Revenue, at Krian, by Ismail bin Muhammad Noor of Penang, for an extract from the Mukim Register for a piece of land situated at Kuala Kurau, in the mukim of Kuala Kurau, on the ground that Ismail bin Muhammad Noor is the registered owner thereof, and that the original Permit No. 137 has been lost :

No. 858.—Application having been made to the Collector of Land Revenue, at Krian, by Teh Ah Hye of Bagan Serai, for an extract from the Mukim Register for a piece of land situated at Bagan Serai, in the mukim of Bagan Serai, on the ground that Teh Ah Hye is the registered owner thereof, and that the original extract from the Mukim Register, Entry No. 594, has been lost :

No. 859.—Application having been made to the Collector of Land Revenue, at Krian, by Dotalip bin Mat of Bayar Lapar, Penang, for an extract from the Mukim Register for a piece of land situated at Tanjong Piandang, in the mukim of Tanjong Piandang, on the ground that Dotalip bin Mat is the registered owner thereof, and that the original Agreement for a Lease No. 4,502 has been lost :

No. 860.—Application having been made to the Collector of Land Revenue, at Krian, by Teoh Ah Ngoh of Bagan Serai, for an extract from the Mukim Register for a piece of land situated at Bagan Serai, in the mukim of Bagan Serai, on the ground that Teoh Ah Ngoh is the registered owner thereof, and that the original extract from the Mukim Register, Entry No. 3,283, has been lost :

No. 861.—Application having been made to the Collector of Land Revenue, at Krian, by Dollah bin Awang of Bagan Serai, for an extract from the Mukim Register for a piece of land situated at Bagan Serai, in the mukim of Bagan Serai, on the ground that Dollah bin Awang is the registered owner thereof, and that the original extract from the Mukim Register, Entry No. 3,282, has been lost :

No. 862.—Application having been made to the Collector of Land Revenue, at Krian, by Che binti Muhammad of Tali Ayer, Parit Buntar, for an extract from the Mukim Register for a piece of land situated at Tali Ayer, in the mukim of Parit Buntar, on the ground that Che binti Muhammad is the registered owner thereof, and that the original extract from the Mukim Register, Entry No. 1,345, has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications the extracts from the Mukim Registers applied for will, subject to the provisions of the said Section 13, be granted.

7th December, 1900.

No. 699.—To the person named in the Schedule hereto :

Take notice that whereas you have abandoned the land described hereunder, in the mukim of Bagan Serai, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bonâ fide* commencement to cultivate it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 12th day of October, 1900.

SCHEDULE.

Name of Lessee—Rejub. *Title No.*—Mukim Register No. 804. *Lot No.*—657. *Area*—5 acres, 2 roods, 12 poles. *Annual Rent*—82 30 cents. *Arrears*—86 90 cents. *Mukim*—Bagan Serai.

No. 745.—To the Landholders named in Schedule hereto :

Take notice that whereas you have abandoned the lands referred to in schedule hereto, in the district of Krian, and have failed to pay the rent due thereon for more than three consecutive years, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment and under the terms and conditions on which they were allotted to you, and that unless within three months of the date of this notice you shew, to the satisfaction of the Resident, that you have not abandoned the said lands, or repair your default in respect thereof, they will at the expiration of that time be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 26th day of October, 1900.

SCHEDULE.

List of Holdings in the District of Krian held under Titles other than Leases and Entries in the Mukim Register in arrears for three years and upwards.

F. A. S. McCLELLAND,
Acting Collector of Land Revenue.

KINTA LAND OFFICE.

No. 26.—It is hereby notified that Ahmad bin Sabtu, or other persons claiming any interest in Plan No. 1,690, comprising 29 poles of land in the mukim of Ulu Kinta, is hereby required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, there to establish his claim, in default whereof such land will be deemed to be State land and will be dealt with accordingly.

4th January, 1901.

NOTICES UNDER SECTION 11 OF THE LAND ENACTMENT, 1897.

No. 27.—It is hereby notified that Busuk Uso, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 724, of the Kinta District, now surveyed as Plan No. 1,689, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$8.91, being cost of survey of the said land:

No. 28.—It is hereby notified that Aman bin Girun, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 723, of the Kinta District, now surveyed as Plan No. 1,687, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$12.04, being cost of survey of the said land:

Failure to comply with the terms of these notices will render the said Agreements for Agricultural Leases liable to cancellation.

4th January, 1901.

NOTICE TO TAKE OUT LEASE.

No. 871.—To Floriano Fernandez:

Take notice that you are hereby commanded and required to attend, either personally or by your duly appointed agent, at the Land Office at Batu Gajah, within three months from the date of publication of this notice, and accept Mining Lease, Plan No. 5,377, which has

been prepared in pursuance of your Application No. 82/1895. In default of your so attending you will be liable to the penalties provided by Section 105 of the "Mining Enactment, 1899," and your application will be liable to cancellation, and the said lease will be returned to the Resident for cancellation.

Dated at the Land Office at Batu Gajah this 7th day of December, 1900.

NOTICE OF FORFEITURE OF TITLE FOR DEFAULT IN RESPECT OF CONDITIONS.

No. 872.—To Che Taun bin Hoosain:

Take notice that whereas you have for six years failed to pay the rent reserved by agreement for Agricultural Lease No. 3,086, registered in your name and more particularly described in the schedule hereto, it is the intention of the Government to cancel the said title in default of good cause shewn to the contrary within three months from the date of publication of this notice.

SCHEDULE.

Title—Agreement for Agricultural Lease No. 3,086. *Owner*—Che Taun bin Hoosain. *Mukim*—Sungei Trap. *Locality*—Near bridle-path, from Batu Gajah to Gopeng. *Area*—1 acre and 13 poles.

7th December, 1900.

No. 29. —Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Sung Yen of Ipoh, for a new Mining Lease of land situated at Ulu Johar, of the Kinta District, on the ground that the said Sung Yen is the registered owner thereof, and that the Original Mining Lease No. 1,776 has been destroyed by fire:

No. 30. —Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin of Kwala Dipang, for a title for land situated at Kwala Dipang, of the Kinta District, on the ground that the said Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin are the registered owners thereof, and that the Original Agreement for Agricultural Lease No. 1,993 has been lost:

4th January, 1901.

No. 788.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Ngah Muhammad Sin bin Tandil Leman, administrator for the estate of the late Tandil Leman bin Pandak Umar, for two new titles for land situated at Ulu Kinta of the Kinta district, on the ground that the said Tandil Leman bin Pandak Umar is the registered owner thereof, and that the original Agreement for Agricultural Leases Nos. 91 and 62 have been lost:

No. 789.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Ng Hoi, for a new title for land situated at Ulu Kinta of the Kinta district, on the ground that the said Ng Hoi is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 412 has been lost:

No. 790.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Kulop Itam bin Wahaby, for a new title for land situated at Ulu Kinta mukim of the Kinta district, on the ground that Itam Matyasin bin Bilal Makti is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 883 has been lost:

In accordance with the provisions of Section 33 (*d*) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Government Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections be granted.

9th November, 1900.

FEDERAL.

APPOINTMENT.

Mr. C. W. H. Cochrane, Perak Cadet, has been attached to the Resident-General's Office, with effect from the 10th December, 1900.

LEAVE.

The leave of absence granted to Mr. L. Jackson, q.c., Judicial Commissioner, Federated Malay States, has been further extended by the Secretary of State, with half salary, for fourteen days, from the 16th January, 1901.

Mr. F. Duberly, Acting Commissioner of Lands and Mines, Federated Malay States, reported his return from leave of absence and resumed the duties of his appointment on 1st January, 1901.

R.-G.O. CIRCULAR No. 18.—1900.

**FEDERATED MALAY STATES OFFICERS AT
PRESENT ENTITLED TO DRAW PENSION AT THE RATE OF
4s. TO THE DOLLAR.**

It is hereby notified, with the approval of the Secretary of State, contained in Colonial Office Despatches, Native States, Nos. 96 of 26th March, 1900, and 316 of 24th October, 1900, that the Officers whose names are included in the subjoined list, are entitled to draw pension at the rate of 4s. to the dollar:—

Ag. Secretary to Resident-General, F.M.S.

R.-G.O. CIRCULAR No. 19.—1900.

FEDERATED MALAY STATES OFFICERS AT PRESENT ENTITLED TO COUNT THE VALUE OF THE GOVERNMENT QUARTERS THEY OCCUPY FOR PENSION PURPOSES.

It is hereby notified, with the approval of the Secretary of State, contained in Colonial Office Despatches, Native States, Nos. 96 of 26th March, 1900, and 316 of 24th October, 1900, that the Officers, whose names are included in the subjoined list, may count for Pension Purposes the value of the Government Quarters they occupy, on the following conditions:—

(i). The Officers opposite whose names the letter (a) appears are *liable* to lose the privilege whenever it may be decided that they should do so, on their emoluments being raised, irrespective of the amount of the increase.

(ii). All the other Officers remaining on the list as finally approved now, will only lose the privilege when they receive a single increase amounting to at least one-sixth of the salary entered on the list (*vide* paragraph 8 of the Secretary of State's Despatch No. 96 of 26th March, 1900).

(iii). Mr. D. G. Campbell, District Officer, Ulu Selangor, is allowed to retain the privilege so long as he is a District Officer (*vide* Secretary of State's Despatch No. 300 of 28th July, 1896).

(iv). Under no circumstances will the privilege be extended to any Officer in the Service of the Federated Malay States whose name is not included in the subjoined list:—

No. 44.—The under-mentioned General Orders are hereby amended as follows :—

General Order No. 48. In 4th line after the words "British India" insert the words "Ceylon, Mauritius."

General Order No. 128 (ii). In 4th line after the word "Currency" insert the words "British India, Ceylon, Mauritius, Netherlands India and Japan."

17th January, 1901.

APPOINTMENT UNDER THE MINING ENACTMENT, 1899.

No. 45.—In pursuance of the powers vested in him by Section 81 (i) of the Mining Enactment, 1899, the Acting Resident has been pleased to appoint the following officer to carry out the provisions of this Enactment as hereinafter set forth :—

ASSISTANT OVERSEER.

Fateh Singh, *vice* Labh Singh, with effect from the 1st January, 1901.
14th January, 1901.

FEDERATED MALAY STATES.

STATE OF PERAK.

LIGHTS AND REGISTRATION OF SMALL SHIPPING ENACTMENT, 1899.

No. 46.—Rules under Section 27 of the above mentioned Enactment, made by the Acting Resident, with the approval of the Acting Resident-General, on the 8th day of January, 1901, and published in the *Gazette* of the 18th day of January, 1901 :—

The following rules have been made by the Acting Resident, with the approval of the Acting Resident-General, under Section 27 of Enactment No. 21 of 1899, in substitution for the rules published in the *Gazette* of the 20th day of July, 1900, and shall have effect from the date of their publication in the *Gazette*.

RULES FOR BOATS.

1. Every boat, plying for hire, or used as a cargo or fishing boat at any port, shall be registered and licensed as a passenger, cargo or fishing boat, as the case may be, in the manner hereinafter provided.

2. When any person desires his boat to be licensed, such boat shall be brought to such place as the Port Officer shall direct, and every boat, for which a licence is to be extended, shall also be brought there before the end of March in each year, to have a number issued for it and marked on it in such a manner as the Port Officer shall direct.

3. The Port Officer may, when he considers any boat unseaworthy or dangerous, cancel or suspend the licence of such boat, and such boat shall not ply for hire until the licence shall have been renewed, or the suspension removed by the Port Officer.

4. No boat other than those of the Port and Health Officers shall go alongside any vessel in the harbour until she is properly moored, except for the purpose of taking a line to the shore, and masters of vessels shall not allow boatmen to fasten on to the vessel before she comes to an anchorage.

5. No boat other than those of the Port and Health Officers shall make fast to, or go alongside, any vessel in a port, except for the purpose of taking a line to the shore, and no boatman, passenger, or other person shall board the same until such vessel shall have been inspected and passed by the Health Officer of the port.

6. It shall be the duty of the owner or headman of every licensed boat to keep the registered number of his boat, at all times, clean, clear and legible.

7. Every owner or headman of a licensed passenger boat shall, at all times when the boat is conveying passengers, have on board the full complement of crew as stated in his licence.

8. No licensed passenger boat shall carry more passengers than the number stated in the licence for such boat.

9. No boat shall be left at any landing place without a responsible man in charge.

10. No boat shall, after discharging its passengers or cargo, remain at the steps or alongside any of the jetties or landing places, or alongside

a vessel in such manner as to obstruct such jetties or landing places or the ladder of such vessel.

11. The headman in charge of every licensed passenger boat is prohibited from carrying any article other than the passengers' personal luggage when he has passengers on board.

12. The owner or headman of every boat shall report to the Port Officer any accident to the passengers or crew of his boat; and shall take to the nearest Police Station or Customs Office every article left behind by any passenger.

13. Every passenger boat, when plying for hire or conveying passengers by night within the limits of the port, shall have ready at hand a lantern shewing a white light, which shall be exhibited in sufficient time to prevent a collision.

14. Any grievance or dispute that any passenger or boatman may have is to be referred to the Port Officer, or to a Magistrate, who will decide every such matter.

15. A table of fares, both for time and distance, which may be charged for the hire of passenger boats within port limits, shall be prepared by the Port Officer, and after being approved by the Resident, shall be exhibited in a conspicuous place or places near all frequented landing places. No person may charge any higher fares for the hire of passenger boats within port limits than are so authorised.

16. When any person desires to transfer his licensed boat, such boat shall be brought to such place as the Port Officer may direct to have such transfer registered.

17. All boats carrying cargo of any description to any vessel in harbour shall be examined by the port authorities after loading such cargo, and before proceeding alongside such vessel.

18. All boats, carrying cargo of any description from any vessel in harbour, shall be examined by the port authorities before landing such cargo or proceeding outside the limits of the port.

19. No person shall make fast any boat or raft to any buoy, beacon or other sea mark belonging to Government.

20. Cargo boats, when anchored among shipping at night, must show a white light, six feet above the rail, of sufficient intensity to be visible at a distance of at least one mile.

21. No fishing boat shall carry any passenger or cargo, unless separately registered as a cargo or passenger boat, as the case may be.

NOTIFICATION UNDER SECTION 6 OF THE LAND ENACTMENT, 1897.

RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 47.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims that parcel of land situated at Pusing, described in the schedule hereto, and delineated upon Revenue Survey Plan No. 7,649, deposited in the office of the District

Surveyor, Kinta, to be a reserve for the purpose of a Market, to be maintained by the Kinta Sanitary Board.

SANITARY BOARDS.

ALTERATION OF BOUNDARIES, KINTA.

No. 48.—With reference to Notification No. 284, published in the *Gazette* of May 20th, 1898, the boundaries of the village of Gopeng therein described are hereby cancelled and the Acting Resident has been pleased to approve of the following boundaries in lieu thereof.

GOPENG.

From the Government kerosine oil store on the main trunk road to Dipang, a straight line in a north-easterly direction to a post fixed on the site of the old brick kiln; thence northward, a straight line to the Dam at the mouth of the Ulu Gopeng valley; thence westward, a straight line to the junction of the road from the Changkat with the main trunk road; thence a straight line in a south-westerly direction to the west corner of the Gopeng Gymkhana Club premises; and thence a straight line to the starting point at the Government kerosine oil store.

16th January, 1901.

TENDERS.

SUPPLY OF LATERITE AT BIDOR.

No. 49.—Tenders are invited for the supply of laterite from the new Quarry at Bidor.

Tenders must state the price for 4-inch metal and 2-inch metal; 6,000 cubic yards will be required during the year.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Supply of Laterite at Bidor," and will be received at his Office up to noon of 1st February, 1901.

Specifications can be seen at the District Engineer's Office in Tapah.

14th January, 1901.

BUILDINGS, KINTA.

No. 50.—Tenders are invited for the construction of the following buildings for the Public Works Department in Kinta:—

(1) A Hospital cattle shed at Batu Gajah; (2) Ten rooms for Attendants Quarters at the Gopeng Hospital; (3) One double set of Quarters for Dressers at the Gopeng Hospital; (4) A Laundry at the Gopeng Hospital; (5) Three Rooms for Attendants Quarters, with tiled roof, at the Kampar Hospital; (6) A Police Pound at Pusing Bharu; (7) Two Additional Dhobi-houses at Ipoh; (8) Three Public Works Overseers' Quarters, near Gopeng, Siputeh and Kuala Dipang.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Buildings, Kinta," and will be received at his Office not later than noon on Monday, the 28th January, 1901.

Plans and specifications can be seen at the Deputy State Engineer's Office in Batu Gajah.

17th January, 1901.

BUILDINGS, KRIAN.

No. 51.—Tenders are invited for the construction of the following buildings in the Krian District:—

(1) School-houses and Teachers' Quarters, Bagan Serai, Alor Pongsu, Teluk Medan, Sungei Star and Simpang Ampat; (2) Diarrhoea Ward (30 patients) with Latrine and covered-way at Parit Buntar; (3) Small Ward for Malays and Sikhs, with Latrines and Bath-room (10 patients) at Parit Buntar; (4) Small Ward for Clerks in Government Service, with Latrines and Bath-room (4 patients) at Parit Buntar; (5) Quarters for Hospital Clerk and Storekeeper at Parit Buntar; (6) A General Ward (40 patients) with Latrine and covered-way at Bagan Serai; (7) Isolation Ward at Bagan Serai; (8) New Dresser's Quarters at Bagan Serai; (9) Coolie Lines at Bagan Serai, Parit Buntar and Kuala Kurau; (10) Sheds for bullocks at Parit Buntar and Bagan Serai; (11) Coolie Lines for Watchmen, etc., at Water-works; (12) New Custom House, Sungei Siakap, with Weighing Shed; (13) Balies for Penghulus of Mukims, Parit Buntar, Kampong Kedah, Briah, Bagan Teang and Orang Dagang; (14) Twelve Galvanized tanks for Floating Jetty, Kuala Kurau.

Sealed tenders, marked on the outside "Tender for Construction of Buildings in the Krian District," will be received at the office of the Secretary to Government, Taiping, not later than noon of 1st February, 1901.

Plans and specifications can be seen at the District Engineer's office in Parit Buntar, Krian.

17th January, 1901.

EXTENSION OF THE RESIDENT ENGINEER FOR RAILWAYS OFFICE, TAIPING.

No. 18.—Tenders are invited for the enlargement of the Resident Engineer for Railways Office, Taiping.

Sealed tenders, marked on the outside "Tender for Enlargement of Resident Engineer for Railways' Office," should be addressed to the Secretary to Government, and will be received not later than noon on the 4th February, 1901.

Tenders must state the time required and the security offered for the completion of the work. Plans may be seen and further particulars obtained at the Office of the Resident Engineer for Railways, Taiping.

2nd January, 1901

CLERKS' QUARTERS, IPOH.

No. 19.—Tenders are invited for the erection of railway clerks' quarters at Ipoh.

Sealed tenders, marked on the outside "Tender for Railway Clerks, Quarters, Ipoh," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 4th February, 1901.

Tenders must state the time required and the security offered for the completion of the work. Plans may be seen and further particulars obtained at the offices of the Resident Engineer for Railways, Taiping, and the District Railway Engineer, Ipoh.

2nd January, 1901.

STAFF QUARTERS, IPOH.

No. 20.—Tenders are invited for the erection of four sets of railway staff quarters at Ipoh.

Sealed tenders, marked on the outside "Tender for Railway Staff Quarters, Ipoh," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 5th February, 1901.

Tenders must state the time required and the security offered for the completion of the work. Plans may be seen and further particulars obtained at the offices of the Resident Engineer for Railways, Taiping, and the District Railway Engineer, Ipoh.

2nd January, 1901.

STAFF QUARTERS, TELUK ANSON.

No. 21.—Separate tenders are invited for the erection of three sets of railway staff quarters at Teluk Anson.

Sealed tenders, marked on the outside "Tenders for Railway Staff Quarters, Teluk Anson," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 5th February, 1901.

Tenders must state the time required and the security offered for the completion of the work. Plans may be seen and further particulars obtained at the Offices of the Resident Engineer for Railways, Taiping, and the District Railway Engineer, Ipoh.

2nd January, 1901.

Government does not bind itself to accept the lowest or any other tender.

POLICE NOTICE.

No. 53.—The public are informed that a fresh registration of fire arms and dogs should be effected after the 31st December, 1900, at the under mentioned Police Stations :

Taiping, Parit Buntar, Matang, Kuala Kangsar, Ipoh, Batu Gajah, Papan, Gopeng, Tapah, Teluk Anson and Selama.

20th December, 1900.

LAND OFFICE NOTICES.

LARUT LAND OFFICE.

No. 911.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Haji Muhammad bin Abdullah of Trong, for a new document of title for land situated at Sungei Lidin, in the mukim of Tupai, on the ground that Haji Muhammad bin Abdullah is the registered owner thereof, and that the original Permit to clear, No. 211 of 1887, has been destroyed :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application the new document of title applied for will, subject to the provisions of the said Section 13, be granted.

21st December, 1900.

No. 785.—Whereas there is reason to believe that the persons enumerated in the Schedule hereto have severally failed to fulfil the labour conditions of the Leases herein shewn, as held by each of them respectively, in consequence whereof the said Leases have become liable to forfeiture, now with the approval of the Acting Resident, I hereby notify each of the said persons that if within three months from the date of publication of this notice in the *Gazette*, the labour forces on the said lands be not severally increased, so as to substantially comply with the conditions of the said Titles respectively the lands, or a portion of them, according to circumstances, will be resumed in the absence of good cause shewn to the contrary.

Dated this 9th day of November, 1900.

E. S. HOSE,

Acting Collector of Land Revenue.

MATANG LAND OFFICE.

No. 25.—Application having been made to the Collector of Land Revenue, at Matang, by Chuah Liew of Selinsing, for an extract from the Mukim Register for land held under Mukim Register No. 57, situated at Selinsing, in the district of Matang, on the ground that Chuah Liew is the registered owner thereof and that the original Extract from the Mukim Register No. 57, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue, for refusing these applications the new titles applied for will, subject to the provisions of the said Section 13, be granted.

4th January, 1901.

R. CLAYTON,

Acting Collector of Land Revenue.

KUALA KANGSAR.

No. 54.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Rastam bin Muhammad of Saiong, for a new document of title for land described in Extract No. 530, and situated in the mukim of Saiong, on the ground that Si Abul bin Muhammad is the registered owner thereof, and that the original Extract No. 530, whereby the land was demised to Si Abul bin Muhammad, has been lost:

No. 55.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Ma' Ali bin Kulup Ahmad of Yalang, for a new document of title for land described in Permit No. 388 of 1887, and situated in the mukim of Saiong, on the ground that he is the registered owner thereof, and that the original Permit No. 388 of 1887, whereby the land was demised to him, has been lost:

No. 56.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Mabob bin Anjang Ayan of Kota Lama Kanan, for a new document of title for land described in Permit No. 279 of 1890, and situated in the mukim of Kota Lama Kanan, on the ground that Muhammad Amin bin Anjang Ayan is the registered owner thereof, and that the original Permit No. 279 of 1890, whereby the land was demised to Muhammad Amin bin Anjang Ayan, has been lost:

18th January, 1901.

No. 822.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Anjang Omar bin Pandak Serain of Kampong Buaia, for a new document of title for land situated in the mukim of Kampong Buaia, on the ground that he is the registered owner thereof, and that the original Permit No. 4,915 of 1886, whereby the land was demised to him, has been lost

No. 823.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Lam bin Syed Omar of Chigar Gala, for a new document of title for land

situated in the mukim of Kampong Buai, on the ground that he is the registered owner thereof, and that the original Permit No. 501 of 1892, whereby the land was demised to him, has been lost :

No. 824.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Samat bin Alang Gendek of Saiong, for a new document of title for land situated in the mukim of Saiong, on the ground that he is the registered owner thereof, and that the original Permit No. 5,836 of 1886, whereby the land was demised to him, has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

23rd November, 1900.

No. 735.—To the Landholders named in the Schedule hereto :

Take notice that whereas you have abandoned the lands described hereunder in the mukims of Kampong Buai, Kota Lama Kanan, Kota Lama Kiri, Blanja and Laiang-Laiang, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such lands or unless you enter or re-enter into occupation of such land by making a *bond fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 26th day of October, 1900.

F. ROBERTSON,
Acting Collector of Land Revenue.

UPPER PERAK LAND OFFICE.

No. 736.—Application having been made to the Collector of Land Revenue at Janing by L. V. Helms of Lenggong, for new Extracts from the Mukim Register for building lots situated at Lenggong, in the mukim of Lenggong, on the ground that L. V. Helms is the registered owner thereof, and that the original Extract Nos. 627, 628, 629 and 630 have been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the Extracts from the Mukim Register applied for will, subject to the provisions of the said Section 13, be granted.

26th October, 1900.

H. BERKELEY,
Collector of Land Revenue.

KINTA LAND OFFICE.

No. 26.—It is hereby notified that Ahmad bin Sabtu, or other persons claiming any interest in Plan No. 1,690, comprising 29 poles of land in the mukim of Ulu Kinta, is hereby required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, there to establish his claim, in default whereof such land will be deemed to be State land and will be dealt with accordingly.

4th January, 1901.

NOTICES UNDER SECTION 11 OF THE LAND ENACTMENT, 1897.

No. 27.—It is hereby notified that Busuk Uso, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 724, of the Kinta District, now surveyed as Plan No. 1,689, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$8.91, being cost of survey of the said land:

No. 28.—It is hereby notified that Aman bin Girun, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 723, of the Kinta District, now surveyed as Plan No. 1,687, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$12.04, being cost of survey of the said land:

Failure to comply with the terms of these notices will render the said Agreements for Agricultural Leases liable to cancellation.

4th January, 1901.

NOTICE TO TAKE OUT LEASE.

No. 871.—To Floriano Fernandez :

Take notice that you are hereby commanded and required to attend, either personally or by your duly appointed agent, at the Land Office at Batu Gajah, within three months from the date of publication of this notice, and accept Mining Lease, Plan No. 5,377, which has been prepared in pursuance of your Application No. 82/1895. In default of your so attending you will be liable to the penalties provided by Section 105 of the "Mining Enactment, 1899," and your application will be liable to cancellation, and the said lease will be returned to the Resident for cancellation.

Dated at the Land Office at Batu Gajah this 7th day of December, 1900.

NOTICE OF FORFEITURE OF TITLE FOR DEFAULT IN RESPECT OF CONDITIONS.

No. 872.—To Che Taun bin Hoosain :

Take notice that whereas you have for six years failed to pay the rent reserved by agreement for Agricultural Lease No. 3,086, registered in your name and more particularly described in the schedule hereto, it is the intention of the Government to cancel the said title in default of good cause shewn to the contrary within three months from the date of publication of this notice.

SCHEDULE.

Title—Agreement for Agricultural Lease No. 3,086. *Owner*—Che Taun bin Hoosain. *Mukim*—Sungei Trap. *Locality*—Near bridle-path, from Batu Gajah to Gopeng. *Area*—1 acre and 13 poles.

7th December, 1900.

No. 29.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Sung Yen of Ipoh, for a new Mining Lease of land situated at Ulu Johar, of the Kinta District, on the ground that the said Sung Yen is the registered owner thereof, and that the Original Mining Lease No. 1,776 has been destroyed by fire :

No. 30.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin of Kwala Dipang, for a title for land situated at Kwala Dipang, of the Kinta District, on the ground that the said Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin are the registered owners thereof, and that the Original Agreement for Agricultural Lease No. 1,993 has been lost :

4th January, 1901.

No. 788.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Ngah Muhammad Sin bin Tandil Leman, administrator for the estate of the late Tandil Leman bin Pandak Umar, for two new titles for land situated at Ulu Kinta of the Kinta district, on the ground that the said Tandil Leman bin Pandak Umar is the registered owner thereof, and that the original Agreement for Agricultural Leases Nos. 91 and 62 have been lost :

No. 789.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Ng Hoi, for a new title for land situated at Ulu Kinta of the Kinta district, on the ground that the said Ng Hoi is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 412 has been lost :

No. 790.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Kulop Itam bin Wahaby, for a new title for land situated at Ulu Kinta mukim of the Kinta district, on the ground that Itam Matyasin bin Bilal Makti is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 883 has been lost :

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Government Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections be granted.

9th November, 1900.

No. 868.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Moh Tamat bin Muhammad Said, Ahmad bin Taib, attorney for Aiyah bin Mamat, Indut bin Tambah, Haji Muhammad Aris bin Majit and Kuah Gek, administratrix for the estate of the late Wee Li Tuan, for a mining lease of land situated at Kampar, of the Kinta district, on the ground that the said Moh Tamat bin Muhammad Said, Aiyah bin Mamat, Indut bin Tambah, Haji Muhammad Aris bin Majit and Wee Li Tuan, are the registered owners thereof, and that the original agreement for Mining Lease No. 861, has been lost :

No. 869.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Haji Talib bin Haji Ibrahim, administrator of the estate for the late Haji Ibrahim, for a mining lease of land situated at Ipoh, of the Kinta district, on the ground that the said Haji Ibrahim bin Ngah Suni is the registered owner thereof, and that the original agreement for Mining Lease No. 540, has been lost :

No. 870.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by A. Grant Mackie for the issue to Siti Trikah binti Saripada of two new titles to land situated at Batu Gajah, of the Kinta district, on the ground that the said Siti Trikah bin Saripada is the registered owner thereof, and that the original agreements for Town Leases Nos. 431 and 432, have been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the above mentioned titles will be cancelled, and the new titles applied for will, subject to the provisions of the said Section 13, be granted.

F. BELFIELD,

7th December, 1900.

Collector of Land Revenue.

No. 786.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Loh Nam of Lahat, for two Mining Leases of land situated at Menglembu of the Kinta district, on the ground that the said Loh Nam is the registered owner thereof, and that the original agreement for Mining Leases Nos. 593 and 594, have been lost :

No. 787.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Milam binti Wahab of Kampar, for a Mining Lease of land situated in the Kampar mukim, of the Kinta district, on the ground that the said Milam binti Wahab is the registered owner thereof, and that the original agreement for Mining Lease No. 296 has been lost :

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections, be granted.

J. C. SUGARS,

9th November, 1900.

Acting Collector of Land Revenue.

REGISTRATION OFFICE NOTICES.

UNDER SECTION 81 OF THE REGISTRATION OF TITLES ENACTMENT, 1897.

No. 917.—Whereas declaration has been made by Wong Ah Mong of Parit Buntar, of loss of title, to wit:—

Certificate of Title—No. 83 in the Register of Titles, North, Vol. I, Folio 98. *Situation*—Mukim of Parit Buntar, in the District of Krian. *Lot No.*—108.

Notice is hereby given that provisional Certificate of Title will issue in respect of the above on the expiration of one month from the date of publication hereof in the absence of proper cause shewn by that time to the contrary.

21st December, 1900. E. S. HOSE,
Acting Registrar of Titles, North.

No. 57.—Application having been made to the Registrar of Titles, South, at Batu Gajah, by Li Si of Ipoh, for a provisional Certificate of title for land situated at Tambun, of the Kinta district, on the ground that the said Li Si is the registered owner thereof, and that the original Agricultural Lease No. 2,363 has been lost:

18th January, 1901.

No. 918.—Application having been made to the Registrar of Titles, South, at Batu Gajah, by Muhammad Sah bin Siak Samat, Administrator of the estate of the late Naimah binti Nga Mandala, and Pandak Ahkat bin Kobat, attorney for Tohlin bin Kulop, for a provisional certificate of title of land situated at Ipoh, of the Kinta district, on the ground that the said Naimah binti Nga Mandala and Tohlin bin Kulop are the registered owners thereof, and that the original Agricultural Lease No. 1,791 has been lost:

Notice is hereby given that provisional Certificates of Title will issue in respect of the above on the expiration of one month from the date of publication hereof in the absence of proper cause shewn by that time to the contrary.

21st December, 1900. F. BELFIELD,
Registrar of Titles, South.

NOTICES UNDER SUCCESSION DUTIES AMENDMENT ORDER IN COUNCIL, NO. 3 OF 1893.

KRIAN.

No. 33.—Application having been made to the undersigned by Ujie bin Ngah, for an order declaring the applicant to be entitled to a piece of land described in Mukim Register No. 527, situated at Sungei Kota, in the mukim of Bagan Tiang, in the district of Krian, and registered in the name of Esah, female, deceased, on the ground that the applicant is the grandson of the said deceased and that there is no other claimant:

No. 34.—Application having been made to the undersigned by Sengoda Kavendan, for an order declaring the applicant to be entitled to a piece of land described in Agreement for Agricultural Lease No. 7,956, situated in the mukim of Parit Buntar, district of Krian, and registered in the name of Palani Kavendan, deceased, on the ground that the applicant is the younger brother of the said deceased and that there is no other claimant:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, as amended by Order in Council No. 12 of 1894, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the undersigned, for refusing the above applications, the orders applied for will be granted and the titles transferred to the names of the respective claimants.

4th January, 1901.

A. T. DEW,
District Magistrate.

UPPER PERAK.

No. 912.—Application having been made to the undersigned, by Timah binti Lamah, for an order declaring the applicant to be entitled to a piece of land described in Temelong Mukim Extract No. 7, and registered in the name of Long Muntra binti Toh Amoh, deceased, on the ground that the applicant is the mother of the said deceased:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, as amended by Order in Council No. 12 of 1894, notice is hereby given that unless within one month from the date of publication of this notice in the *Gazette*, good cause be shewn to the undersigned for refusing the above application, the order applied for will be granted and the title transferred to the name of the claimant.

21st December, 1900.

H. BERKELEY,
Collector of Land Revenue.

SELAMA.

No. 913.—Application having been made to the undersigned, by Mat Lateh bin Mat Sah, for an order declaring the applicant to be entitled to a piece of land, described in Ijok Agreement for Lease No. 382, situated in the mukim of Ijok, district of Selama, and registered in the name of Mat Sah bin Sahat, deceased, on the ground that the applicant is the son of the said deceased, and that there is no other claimant:

No. 914.—Application having been made to the undersigned, by Siti Sara binti Haji Din, for an order declaring the applicant to be entitled to a piece of land, described in Ijok Agreement for Lease No. 244, situated in the mukim of Ijok, district of Selama, and registered in the name of Haji Din bin Haji Che Man, deceased, on the ground that the applicant is the daughter of the said deceased, and that there is no other claimant:

No. 915.—Application having been made to the undersigned, by Sahat bin Saman, for an order declaring the applicant to be entitled to two pieces of land, described in Ulu Selama Agreement for Lease Nos. 390 and 391, situated in the mukim of Ulu Selama, district of Selama, and registered in the name of Saman bin Dahakim, deceased, on the ground that the applicant is the son of the said deceased, and that there is no other claimant:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, as amended by Order in Council No. 12 of 1894, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the undersigned for refusing the above applications, the orders applied for will be granted and the titles transferred to the names of the respective claimants.

21st December, 1900.

RAJA CHULAN,
Assistant District Magistrate, Selama.

P. D. DONALD,
for Resident Engineer for Railways.

Taiping, 15th January, 1901.

EXPERIMENTAL PLANTATIONS.

REPORT BY SUPERINTENDENT.

KUALA LUMPUR, 12th December, 1900.

SIR,—I have the honour to submit a Report of my visit to Penang, Province Wellesley and Perak.

Acting on instructions received from the Acting Resident-General, W. H. Treacher, Esq., c.m.g., I left Kuala Lumpur on 25th October with the object of visiting the Botanic Gardens in Penang and the estates of Perak and Province Wellesley, with a view of obtaining a knowledge of the country and the requirements of the planters, and, at the same time, selecting a suitable place as head-quarters for the Experimental Plantations which Government are about to establish.

2. In Penang I met Mr. Curtis, the Superintendent of the Botanical Gardens, and with him visited the Gardens, where rubber-tapping was in progress. Although the trees here are not growing under the conditions generally recommended for *Hevea braziliensis* (Para rubber)—being planted on a dry, sandy bank—it is interesting to note that the returns are very favourable; the average annual yield for the last three years amounting to rather more than 1lb. of dried rubber. It appears, therefore, that not only does *Hevea* thrive under varied conditions, but that it gives a fair return, which statement does not apply to *Ficus elastica*, the "Gutta rambong" of commerce.

3. I also visited the vegetable gardens on Penang Hill.

4. I proceeded to Taiping, visiting the Museum and the principal estates in the neighbourhood. Also the Larut Hill Gardens.

5. From here I journeyed to Kuala Kangsar, and, accompanied by Mr. Derry, inspected the Para trees recently tapped by him, and other economic plants growing in the Government grounds. The average yield per tree was 1½lb. of dry rubber, the trees ranging from six to thirteen years of age. As this Officer points out, "the tappings were not exhaustive," and it is probable that more might have been extracted without impairing the health of the trees. What this amount is has yet to be determined, neither Mr. Curtis nor Mr. Derry having attempted to decide the question.

6. Kuala Kangsar having been suggested as a suitable place for head-quarters, I made the visit here a special feature of my tour. After duly considering the matter, however, I must say that I fail to see that this district offers any special advantages over other places I have visited. I am of opinion that Kuala Lumpur, or its immediate neighbourhood, would be more suitable, seeing that it is much more central.

7. From Kuala Kangsar I proceeded to Sungai Siput, and, after visiting the Kamuning Estate, went on to Ipoh, where I had the benefit of an interview with the Acting British Resident, Colonel Walker, c.m.g., who advised me to go to Batu Gajah to see the estates in the vicinity and the Government Plantations at Parit. This I accordingly did, and, accompanied by Mr. Cecil Wray, I also drove out to see the large rambong and Para trees.

In the limestone districts of Kinta rambong grows very luxuriantly; but, so far as I am aware, it does not occur naturally either in the marshy districts or along the coast.

8. On returning to Ipoh I had a further interview with Colonel Walker, and, acting on his advice, I retraced my steps to Taiping, with the object of visiting the Krian district and the Province Wellesley sugar estates. I might here remark that it is the opinion of Mr. Turner, the Manager of Calelonia Estate, that sugar might be successfully cultivated in some parts of the interior. This is somewhat important, in view of the fact that beet-root sugar cultivation is on the decline in Europe.

9. From Ipoh I proceeded to Telok Anson *via* Penang. Here Mr. Brewster kindly enabled me to visit the coconut estates on the Perak river and the rubber plantations at Setiawin, by placing the Government launch at my disposal.

10. At Setiawin there are a number of fine specimens of *Hevea* and *Ficus*, which would be suitable for experimental work.

In reference to *Ficus elastica*, I would like to point out that it has been proved in Bengal and elsewhere that "although it grows with undiminished rapidity and luxuriance in districts remote from the hills . . . it fails to produce caoutchouc." Dr. Morris also says that, in spite of the abundance of the tree under cultivation in the tropics of both the Old and the New World, it has nowhere proved so valuable for the production of rubber as in the mountainous parts of Assam.

11. It seems, therefore, that there is a possibility of this tree failing to come up to the expectations of the planters of this country, and I would advise Government to allow me to proceed to Setiawin, to experiment on these trees with a view to obtaining reliable data concerning their yield.

It would be necessary to rent a sufficient number of Ficus from the Penghulu. The Para trees are Government property.

12. I have refrained from commenting on the state of horticulture on the different estates I have visited, but have taken copious notes which will be of service to me in the future.

I returned to Kuala Lumpur on 9th December.

I have, etc.,

STANLEY ARDEN,

Superintendent of Experimental Plantations,

THE ACTING RESIDENT-GENERAL,
FEDERATED MALAY STATES.

The following has been supplied to Government by Mr. W. L. Braddon, F.R.C.S., State Surgeon, Negri Sembilan. The Summary has been prepared by Mr. Braddon.

THE NEW PROPHYLAXIS AGAINST MALARIA: AN ACCOUNT OF
EXPERIMENTS IN LATIUM.

BY PROFESSOR ANGELO CELLI.

(Specially translated for THE LANCET from the *Supplemento al Policlinico*, Anno VI., N. 51.)

The modern theory of the propagation of malaria by means of mosquitoes had scarcely been confirmed experimentally when, in my lectures in May and June of 1899 and shortly afterwards in book form,¹ I gave an exposition of the new epidemiology and the prophylaxis following from it. This, I pointed out, in order to be completely successful must be directed against (1) the causes bringing about infection, either by (a) destroying these (by disinfection of the blood of malarious persons and by the destruction of mosquitoes) or (b) by preventing their entrance into the human organism (by protection of dwelling-houses and of the exposed parts of the body); and (2) against the predisposing causes (organic, physical and social). In view of the arduous nature of any attempt to battle against the latter set of causes I endeavoured (even before the commencement of the malarial season of 1899) to put into practice those only of the prophylactic measures which have for their aim the suppression of the direct causes of the epidemic—that is to say, the causes bringing about infection. I was even then persuaded, and am now more than ever convinced, that a complete and certain prophylaxis by disinfection of the blood by means of quinine is practically impossible, although Koch, and latter Gosio, and at first Grassi also, believed in its efficacy. And I had likewise come to the conclusion, through my own and Casagrandi's researches,² that although the destruction of the mosquito in the aquatic and the aerial stages of its existence is in itself not a difficult thing, this is not practicable on a large scale, chiefly because there is not the same immediate material advantage in killing insects which are injurious to man that there is in destroying those which are injurious, for example, to the grape-vine.

My first prophylactic experiments of 1899 had consequently for their object the testing of the means best adapted to prevent the bites of mosquitoes and the resulting penetration of the malarial germ into our bodies. On one hand, I made experiments with various substances—such as ointments, soaps, and odours—calculated to drive away mosquitoes, and satisfied myself that they were of little use, even the best of them, as, for instance, those with turpentine for their basis, either because of their ephemeral effect, especially in the open air, or because of the negligence of those employing them. On the other hand, I adopted the method of mechanical protection of the houses and of the exposed parts of the body, not omitting at the same time the disinfection of the blood by an assiduous attention both to relapses and to primary fevers, and the destruction of any mosquitoes which might accidentally penetrate into the houses. It will be well to refer here once more to the experiment which I made in the æstivo-autumnal season of 1899 on the two railway lines, notoriously malarious, of Prenestina-Cervara and of Pontegalera. I shall therefore give a brief *résumé* of the official report dated December 13th of last year.³ On the first-mentioned of these two lines we selected for experiment the linemen's cottages numbered 4, 5, 6, 7, and 8, and on the second those numbered 19, 20, and 21. We covered the windows with frames of tulle,⁴ thus allowing air and light, but no mosquitoes to pass. At the top of the staircase a door with a similar frame was placed the better to protect the bedrooms. This door, as well as the outer ones, was made to close automatically so as not to demand too much of human apathy. The entrance door, as being more liable to injury, was furnished with wire gauze instead of muslin. We advised the inmates to sleep with the windows open so that the air, filtered as it were from insects, might pass in freely. For the protection of persons employed on night duty we used cowls like those of bee-keepers, provided with a circular mask of wire gauze and having attached to it below a veil tucked under the coat, at the ends of the sleeves of which very wide gloves of chamois skin were tightly sewn on. A vigilant outlook was daily kept for mosquitoes in order to find and eventually to capture them in the houses. Every family was provided with a powder for burning in case by any chance a mosquito should make its way in. The neighbouring linemen's cottages and the stations of Cervara and Pontegalera served as controls. On the Prenestina-Cervara line cottage No. 6 served the same purpose, the inmates being negligent and refractory and allowing mosquitoes to enter constantly. Some of the latter were found infected so that we were able to predict the epidemic which afterwards developed, attacking 12 out of the 14 inhabitants. Among the controls on the Cervara line 24 persons contracted malaria and at the station of Cervara, renowned for its malaria, all were attacked. In the control zone of Pontegalera, two persons, who had acquired immunity from having had the disease previously, escaped infection. On the other hand, in the linemen's cottages which were protected, out of 24 persons four were attacked, but these were on night duty and took no heed of our instructions. Three of them were ill for a long time, two from tertian, spring and autumn varieties, respectively, and one from quartan fever. In spite of quinine administered promptly and abundantly they relapsed several times and their blood contained a large number of gametes—that is to say, of those parasitic forms most dangerous for contagion. At the same time, their wives and children living in the protected houses along with them enjoyed immunity from the fever. The disease did not therefore spread through a whole household in the usual way, and for the first time since the construction of these lines of railway the families of the railway servants were able in highly malarious localities to pass the whole summer and autumn in the Campagna without contracting fever.⁵

⁴ These frames were never removed from the windows of the first floor of cottage No. 19 on the Pontegalera line and now, two years later, are still in excellent preservation. For those who cannot afford metallic frames the muslin ones may be recommended.

⁵ Vide Bollettino n. 3 della Società per gli Studi della Malaria. Sitting of February 5th, 1900.

The result of these experiments, which were the first of their kind in malarial districts, very greatly impressed Manson,⁶ who came to see my field of experiments at Cervara,⁷ and they induced the directorate of the Adriatic Railway Company to extend the system in Latium from Prenestina to Salone and on the Castelgiubileo line; and also into Southern Italy near the station of Ofantino in the Province of Foggia.⁸ The Southern Railways Company, in its turn, determined to extend the same experiments to the most malarious of the linemen's cottages on the lines of Terracina, Anzio and Pontegaleria, here in Latium, and to those near the station of Albanella in the province of Salerno. The conduct of the former of these two experiments was entrusted to me, the other, in Southern Italy, to Grassi, who was member of a consultative committee appointed for the purpose by the same railway company.⁹ In like manner the Sicilian railways have also extended to the sections of their lines lying in malarial zones the same system of prevention. I must, however, limit myself to an account of the results of the new prophylaxis as obtained in Latium, where, encouraged and taught by the experience of last year, I attempted to defend against malaria in the season which is now drawing to a close, not only the railway servants, but also the caretakers in the Campagna and the peasants. I shall now briefly recount what I did for each of these and the results which I obtained.

A.—PROTECTION OF THE RAILWAY SERVANTS.

The method employed was that of the previous year, with the difference that wire-gauze¹⁰ was everywhere substituted for the muslin, and that a large cage of wire-gauze was placed in front of the door so as to form a kind of porch or ante-chamber. This addition of a porch, first suggested by Dr. Blessich, is very useful in giving greater protection to the rooms on the ground floor and affording a shelter where in the summer the family can have the benefit of the open air without actually going outside. As a rule, the doors were made to close automatically, and to make sure that no mosquitoes entered by the chimneys the latter were also covered by gauze with a wider mesh. To render easier the discovery and destruction of any mosquitoes that might chance to enter, the walls of the rooms were whitewashed.

Large and repeated doses of quinine had been administered to any persons who had had relapses in the spring as well as to the very few patients with primary infections, the treatment being completed in all cases with arsenical and ferruginous preparations. No prophylactic medicine was given except to those on night duty on the Adriatic lines, whom I had not been able to induce the previous year to wear regularly at night time the special head-gear and gloves provided for the purpose. They were made to take euchinin in a daily dose of from 0.50 to 0.75 centigramme. On the Mediterranean lines we had not the same difficulty, because there mosquitoes and other insects are so numerous as to cause intolerable annoyance, apart from any danger of their conveying fever. The results which we obtained were briefly as follow:

1. Prenestina-Salone line. On this line we this year protected also the houses on the Cervara-Salone section which last year served us as controls. We were able, however, to use for this latter purpose the intermediate stations of Cervara and Salone as well as the section beyond from Salone to Lunghezza. Now in the zone which was protected out of 52 persons only two contracted fever—namely, a watchman on night duty attacked on June 15th (before the commencement of the prophylactic treatment of those engaged in this dangerous service) and a woman attacked on October 15th who had always shown herself refractory to our recommendations. The watchman, notwithstanding abundant and repeated doses of quinine, had had three relapses at long intervals; nevertheless, his malaria did not prove infectious to the other seven persons who lived in the same house. In the rest of the protected zone 50 persons (21 adults and 29 children) remained free from fever. On the other hand, in the zone of control, two out of three persons sickened at the station of Cervara, 16 out of 18 on the Salone-Lunghezza section, six out of 10 in the station of Salone—the four who escaped having been in the habit of frequently sleeping at Rome—and in the houses of the country people along the protected portion of the line and in the huts of Salone there were about 100 peasants, all of whom sickened. Also on the farms of Rustica, Cervelletta, Bocca di Leone, and Gotti-fredi all, or nearly all, took the fever. *Our protected zone thus remained almost free from malaria in the midst of a fever-stricken region, and in order to render healthy a district where during the preceding year everyone had had fever it sufficed to extend to it the new method of prophylaxis.*

2. Castelgiubileo line (from the seventh to the nineteenth kilometre inclusive). On this line the experiment succeeded in a degree highly convincing. Here there are two types of lineman's cottage—the new and the old; the latter from its peculiar construction does not lend itself to being protected and was therefore left to serve the purpose of control. This turned out to be a fortunate circumstance because the old and the new cottages as nearly as possible alternate with one another. Now in the protected houses out of 57 inhabitants not one took fever, while in the unprotected houses out of 51 inhabitants only seven escaped, and these were nearly all adults, immune in consequence of previous attacks. Among the children, on the other hand, only two out of 29 escaped infection in the unprotected huts, whilst of the 36 children in the protected houses not one was attacked. We also made two further control experiments. On August 23rd it became necessary, for reasons connected with the railway service, to transfer a family, consisting of a husband, wife and son, from cottage No. 17, where they had always enjoyed good health, to the next cottage, No. 16. About a month afterwards the wife and child were attacked by fever. On the other hand, a family consisting of husband, wife, and six children, all of them suffering from malaria, had been placed in cottage No. 17.

⁶ Brit. Med. Jour., February 10th, 1900.

⁷ A very pleasing sequel to this visit was the experiment of Dr. Sambon and Dr. Low, who, in order to obtain documentary evidence, as it were, of the efficacy of the new prophylaxis, came and passed the malarial season in the most deadly spot in Ostia in a hut protected against mosquitoes, and who, together with two other persons, have remained all the time in perfect health.

⁸ Dr. Martirano, who has carried out the prophylactic experiments at Ofantino on 28 persons, has not had a single case of primary malarial infection to report.

⁹ Professor Grassi published before the season had come to an end an anticipatory report, and this without any hint that others had been working before and were still at work for the railway company and for the Society for the Study of Malaria, by whom the funds were supplied.

¹⁰ The diameter of the mesh of the gauze should not be greater than two millimetres at most; this size prevents the entrance of any but a very small culex. To exclude all sizes of mosquitoes with certainty the mesh should have a diameter of only from 1 to 1.5 millimetres. A coat of varnish is applied to preserve the netting.

We at once put them upon a full and prolonged course of quinine followed by tonic treatment with arsenic and iron. Secure in their protected house from the baleful mosquito, this family has made an excellent recovery, although their convalescence and cure had to go on through the height of the malarial season. Only one of the children, in whom the relapses were more obstinate, still remains in somewhat poor condition. On this Castelgiubileo line the proof of the value of the new prophylaxis has thus been most decisive and eloquent. *Of a whole community of persons all subjected to the same conditions in other respects, those whom we defended against mosquitoes have remained free from fever, whilst those left unprotected have nearly all been attacked.* It is as if we had a book with its pages alternately white and black, the white pages corresponding to our protected houses and families, the black representing those left unprotected. No less decisive in their results were the experiments made on the other lines.

3. Pontegalera line. Here, in the section outside of the protected zone, in cottages Nos. 15 to 19 inclusive, out of 42 railway servants only three escaped the fever. In our protected zone, on the other hand, out of 36 persons only two contracted it, while in the section further on, from the twenty-seventh to the thirty-third kilometre, out of 10 persons only one remained unattacked. As further controls we had the station of Pontegalera, placed almost in the midst of our zone of experiment, where out of seven persons six were attacked; the first lineman's cottage on the Fiumicino railway, where all of the three inmates suffered; and some neighbouring country cottages in which at Chiesola 30 inmates out of 30 were attacked, at the hamlet of Pontegalera four out of four, and at a house placed almost midway between two of the protected railway cottages 12 persons out of 12.

4. The Anzio line. Here we selected for protection the two cottages most noted for malaria—namely, those at the twenty-fifth and thirty-second kilometre. Now in these two cottages, in each of which were four persons, all remained perfectly well, and four other persons who came from the Terracina line to live in them suffering severely from malaria recovered their health completely. On the other hand, in the cottages from the eighteenth to the twenty-third kilometre, out of 39 inmates 36 sickened with fever; in the cottages lying between the two protected ones nine out of nine; and in those beyond our No. 32 cottage eight out of 10. Among a squad of linemen numbering six there were four fever patients, the two who escaped belonging to the family protected by me at the twenty-fifth kilometre.

5. The Terracina line. In the railway cottages along this line, so terribly malarious, I had 30 persons protected between the station of Frasso and Terracina. Of these only two suffered from primary infections—namely, a lineman who by mistake went on night duty without his mosquito hood and a little girl who had had quartan fever. In two persons who had become malarial cachectics during the previous two years æstivo-autumnal attacks recurred with obstinacy up to the first few days of October, in spite of treatment. None of the others had malaria. On this line also I was able to establish a series of controls analogous to those I have described on the Castelgiubileo line by leaving here and there cottages unprotected. Of 37 persons inhabiting these latter 35 took fever.

To sum up, of 207 railway employes subjected to the new prophylaxis against malaria during the seasons 1899 and 1900 only 10 contracted fever, although they were living in the most unhealthy regions of Latium and in the midst of their fellows, all, or nearly all, of whom were stricken by the disease. Also, in houses defended against the invasion of mosquitoes malaria loses its contagiousness and no longer gives rise to the usual epidemic. Further, the treatment of, and convalescence from, malarial fever can be carried on in malarious localities in houses protected from the invasion of mosquitoes quite as well as in places where the air is good.

It is to be noted, in conclusion, that this favourable result was obtained with the utmost simplicity, all that was necessary being a little persuasion with a small present, and the supervision which I and two railway officials who assisted me, one on the Adriatic and the other on the Mediterranean railways, were able to exercise. A similar result could therefore be attained wherever and whenever desired, and I am able to say that these two railway companies propose to secure it on the largest possible scale.

B.—PROTECTION OF THE CARETAKERS IN THE CAMPAGNA.

Two Roman companies—namely, the Società dell' Acqua Marcia and the Società dell' Elettricità—have each a caretaker's house on the road from Rome to Tivoli, both situated in localities with a bad type of malaria which has hitherto attacked the families residing in them every year; or rather, I should say, the wives and the five children, for the husbands, owing to many years of past suffering from the disease, have become immune. This year for the first time the wives and children have escaped infection, and this immunity they owe to my having had their houses protected before the commencement of the malaria season in the same way as those of the railway people with wire-netting. As I had here to deal with persons of intelligence who could be trusted to carry out my instructions carefully I left this experiment to proceed, as it were, of its own accord. At the beginning of the season I went with the companies' engineers, first to order, and then to approve, the protective arrangements for the houses. I gave the requisite instructions (to remain indoors from an hour before sunset till an hour after sunrise and to kill any mosquitoes that might accidentally gain entrance) and after that I did not return. From the engineers, however, I have from time to time received news of the welfare of these people, together with thanks for the danger escaped. The same protection may thus be secured whenever they desire by all the caretakers of the communal, provincial, and Government roads, of monuments, and of the works for reclaiming waste lands in the many malarious districts of Italy.

C.—PROTECTION OF THE PEASANTS.

Malaria rages most of all among the field labourers, working as these do in the most dangerous hours of the evening and night at the most unhealthy time of year—namely, when the principal crops are reaped—living in habitations of a wretched or defective kind—or without any habitation whatever—and withal very insufficiently clad. Such conditions render it very difficult to carry out among these people the prophylactic measures which would be, and ought yet to become, of the greatest benefit to them socially. I wanted, notwithstanding this, to make the attempt. Accordingly, I protected in the usual way, with nets over the windows and doors, the hamlet on the farm of "Lé Castella," and about half of the hamlet of the "Cervelletta." Among the houses so protected on the latter farm was one with a terrible

reputation for the number of victims which malaria had yearly claimed from it, so much so that the proprietor wished to shut it up. Below this house, in which two families (six persons) were going to live, was another, a sort of tavern, which I also protected with the netting. And, finally, I determined to make the same experiment with that most primitive of all human habitations, the straw hut, closing thoroughly with straw all the holes in its sides, and with wire gauze the openings for allowing the smoke to escape; I placed at its entrance a big cage of the same material, furnished in its turn with two doors made to close automatically. I protected three huts in this way, two at the Cervelletta and one at the Castella.

It is more difficult to induce half-educated people to believe that malaria may be conveyed by the bites of mosquitoes than it is to convince the ignorant peasantry of the fact. On this account I met with much less difficulty from some of the more intelligent among the latter than I had expected in getting them to carry out the new prophylaxis, so as to insure success.

In the hamlet of the Castella the family of the manager and the medical man of the Red Cross Society escaped infection, notwithstanding that some stagnant water from a ditch, which was brought into the house in an old cask, might have developed many mosquitoes. So also the 17 Lombard peasants who slept in the protected part of the hamlet of Cervelletta were rewarded for the great care they took by only one of their number falling sick with malaria, a man who was in the habit of getting drunk from time to time and while in this helpless state of sleeping in the open air. In the part of this hamlet which served as control we had at the same time 10 cases of primary infection and several relapses from the previous year's epidemic. And the house so cursed with the disease in former years had no fresh cases in it. One family was, however, obliged to leave its protection in the early days of September, and now (between Oct. 15th and 17th) the two children have already contracted fever.

In the midst of the other straw huts all stricken with malaria, the protected hut at the Castella, with a family, consisting of father (a very industrious man), mother, and three children, remained, wonderful to relate, quite free from fever, as did also one of the protected huts at the Cervelletta with five inmates—father and mother and three children. In this latter hut we never found mosquitoes; a few which found their way as far as the outside cage were killed. On the other hand, in the third protected hut, notwithstanding all our warnings, we found mosquitoes in the cage every morning and also often inside the hut itself. Finding it impossible to induce this family, on account of their apathy or their ignorance, to take the necessary precautions, we removed the protection and three out of four of the inhabitants took fever. Thus, so long as the peasants were careful, they were able to defend themselves from malaria even in the most primitive of dwellings, the straw hut.

In order to protect from fever the nomadic rural population who come down to the Campagna at the season when the most dangerous kind of work is in progress, and who are easily infected on account of their sleeping in the open, the Caetani family are making a preliminary trial in the Pontine Marshes of a large hut constructed of wood and wire-gauze which can be taken to pieces and transported to wherever it is wanted.

Naturally, in order to make quite complete what we may call this mechanical prophylaxis for the peasantry it would be necessary to stop their work in the more dangerous hours. Besides this, one must not lose sight of the ideal kind of prophylaxis for people who work—namely, that of making them artificially immune against the disease. With this object in view I have made, and continue to make many experiments, especially with euehinin, and I propose shortly to give an account of the results obtained by this medicinal method of procuring immunity. For the present I wish to insist upon the fact that by means of the mechanical prophylaxis for malaria (protecting the houses and the uncovered parts of the body), a great step in advance has been made for practical purposes. Among railway employes, caretakers, and even the peasants of the malarious Campagna the lesson of the last two years has been so persuasive that all of those who have hitherto served as controls are anxious to be protected during the next fever season. Within no very distant date all houses in malarious localities will be defended against the entrance of insects; thus during the day there will be no inconvenience from flies and other insects of an unclean, troublesome, or injurious kind, and at night there will not be the annoyance and evil effects of mosquitoes. In all low-lying, warm, moist places, where myriads of insects of every species swarm, this mechanical means of defence against their invasions will become the best of the prophylactic rules for the prevention of malaria and other diseases.

SUMMARY OF PROPHYLAXIS RESULTS

FROM EXPERIMENTS UPON THE PREVENTION OF MALARIA BY PROTECTION FROM MOSQUITOES, CONDUCTED AMONG RAILWAY EMPLOYÉS IN LATIUM, DURING 1900.

FEDERAL NOTIFICATION.

The Acting Resident-General has received a telegram from His Honour the Acting High Commissioner, informing him, with the greatest regret, that Mr. Arthur Butler, British Resident, Pahang, died at Pekan on the evening of the 18th January, current, from Pneumonia.

His Honour's regret will be shared by all officers in the service of the Federated Malay States.

Mr. Butler had served in these States for 18 years and had proved himself a capable and zealous officer, a courteous, considerate and high principled Gentleman.

By Command,

OLIVER MARKS,

Acting Secretary to Resident-General,

Federated Malay States.

(Translation).

“On the 23rd January, at about 1 p.m., I received a telegram from the Acting Resident of Perak, stating that Her Most Gracious Majesty the Queen-Empress had died on the 22nd instant.

“On hearing this sad news I fell into the deepest sorrow, and I immediately ordered my State flag to be lowered to half-mast as a mark of my utmost sympathy for a Sovereign who was justice itself and than whom no one has ever been more befitted to govern her vast possessions.

“The deep sorrow I feel is not only felt by me, but by all the Rajahs, Chiefs and Muhammadans of this State, that such a successful reign should have terminated.

“It appears that her death took place exactly on the date of our “Hari Raya Raya” the biggest Malay Festival day, and I hope this betokens a future prosperity to the Royal Family, as well as to herself.

“Amidst this deep sorrow I ask God to pour down his blessing on the Prince of Wales, now King of England, and to grant him as long and prosperous a life as that of his mother and peace and prosperity to the countries under his rule.

“I ask that this expression of myself and the Members of the State Council may be conveyed to the Sovereign, through the Secretary of State for the Colonies.”

Chung Thye Plin then addressing the Council desired to convey, in the name of the Chinese Community in Perak, their deep sorrow at the loss the country had sustained by the death of Her Majesty the Queen-Empress, under whose reign the prosperity of the Chinese has been so amply assured.

The Council desires that its unanimous expression of deep sorrow for the loss the country has sustained, its respectful sympathy with His Majesty the King and the Royal Family, and its assurance of continued loyalty to the Sovereign, be conveyed to His Majesty through the Secretary of State.

The Council then adjourned.

RAJA MANSUR,
for Acting Clerk of Council.

THE following Notifications are, by Command of the Acting Resident, published for general information.

A. R. VENNING,
Secretary to Government.

APPOINTMENTS.

No. 60.—With reference to Notification No. 829, published in the *Gazette* of the 7th December, 1900, the Right Honourable the Secretary of State for the Colonies has been pleased to confirm the appointment of Mr. Thomas Gemmell as Divisional Engineer.

No. 61.—Subject to confirmation hereafter, Mr. John Francis Ward, Assistant Engineer, Lower Perak, to be Second Assistant Engineer, Headquarters Staff, with effect from the 12th December, 1900.

No. 62.—Mr. Lambert Bowen to be Temporary Engineer, Public Works Department, with effect from the 18th January, 1901.

No. 63.—Mr. John Shippen Willes, Settlement Officer, to be Inspector of Mines, Batang Padang, with effect from the 14th January, 1901.

No. 64.—Joseph Chong, Chief Clerk, Magistrate's Court, Larut, to be Financial Clerk, Public Works Department, with effect from the 15th January, 1901.

No. 65.—Tan Kok An, Clerk to District Magistrate, Krian, to be Chief Clerk, Magistrate's Court, Larut, with effect from the 15th January, 1901.

LEAVE.

No. 66.—The leave of absence granted to Mr. Arthur Bligh Stephens, Forest Officer, has been extended for six days, with half salary, from the 28th March, 1901.

GENERAL ORDER IN SUBSTITUTION FOR G. O. 51.

No. 67.—51. (i). Subject to the exceptions hereinafter provided Officers serving on Agreement, whose contracts contain no stipulations as to leave, and Officers paid out of Open Votes are not entitled to leave and will not be granted leave unless the most exceptional reasons are given to, and are approved by, the Resident-General.

(ii). Such leave will never be granted on full pay.

(iii). The period granted shall be added to the term of the agreement and an endorsement to that effect shall be made on the agreement and signed by the Officer applying for leave.

(iv). Any grant of half pay leave will be limited to four months.

(v). The rate at which half pay while on leave shall be drawn shall be fixed by Government, either at the current rate of exchange, or as provided by G. O. 59.

(vi). While in England, any such employé who has not been distinctly and definitely sent home to work shall, as a condition of receiving half pay, be liable to give the Consulting Engineers, or other Advisers of Government, the benefit of his assistance and advice without any further payment beyond out of pocket expenses.

(vii). In the event of leave to England being granted to an employé serving on agreement, the fact that he is so serving must be stated on his leave certificates.

EXCEPTIONS.

(viii). General Orders 52 and 53, except Sub-sections (ii) and (v) of the latter General Order, shall apply to Officers on agreement and to Officers paid from open votes.

(ix). An Officer serving under an agreement, the term of which has been extended, may, when he has served six years, be granted half pay leave on the conditions allowed for the time being to Officers on the Establishment, provided that the period of half pay leave shall be added to the term of the extended agreement and an endorsement to that effect be made on the agreement and signed by the Officer.

**EXEMPTION UNDER THE "SOCIETIES ENACTMENT,"
NO. 9 OF 1900.**

No. 68.—It is hereby notified that the temple "Tai Pak Kung Min" at Chemor is, by order of the Acting British Resident, under Section 2 Sub-section (c) of Enactment No. 9 of 1900, exempted from registration.

29th January, 1901.

RATE OF EXCHANGE.

No. 69.—The rate of exchange for the adjustment of accounts with the Crown Agents has been fixed at 2s. 1d. to the dollar for the first quarter of the current year.

26th January, 1901.

PUBLIC HOLIDAYS.

No. 70.—It is hereby notified that the following days will be observed as public holidays throughout the State:—Tuesday and Wednesday, the 19th and 20th February, on account of the Chinese New Year.

30th January, 1901.

CHINESE NEW YEAR—CRACKER FIRING.

No. 71.—It is hereby notified that during the Chinese New Year Festival crackers may be fired on the following days during the hours specified:—

Date of Chinese Moon.	Description.	Time.
<i>First and Last Days.</i>		
Evening of 12th Moon (18th Feb.)	1. Chinese New Year Evening	From 6 p.m. to 6 a.m.
1st day. (19th February) ...	2. " " Day ...	" 6 p.m. to 12 p.m.
2nd day. (20th ") ...	3. " " " ...	" 6 a.m. to 6 p.m.
7th day. (25th ") ...	4. Cantonese New Year Prayer Day ...	" 6 a.m. to 9 a.m.
Evening of 8th and morning of 9th day, (26th and 27th Feb.)	5. Hokien New Year Prayer Day ...	" 6 p.m. 26th to 6 a.m. 27th inst.
15th day. Cantonese and Hokien, (5th March) ...	6. Feast of Lanterns... ..	" 6 a.m. to 9 p.m.

The firing of bombs is strictly prohibited.

The privilege above set forth will be subject, in Taiping, to the following restrictions, viz:—

The firing of crackers is absolutely prohibited within the area contained between First Street and a straight line extending from Swettenham Road on the west, at the Railway Goods-shed, to Klian Pao corner on the north (excepting the Tam Kong temple grounds), Residency Road on the east and south, and from that along Kota Road to First Street.

23rd January, 1901.

NOTICE UNDER SECTION 16 (i) OF THE MINING ENACTMENT, 1899.

FORFEITURE OF MINING LEASES.

No. 72.—In accordance with Sections 15 and 16 of the Mining Enactment, 1899, and in pursuance of Notification No. 193, published in the *Gazette* of 30th March, 1900, the Leases described in the schedule hereto are hereby declared to be forfeited, the Lessees having failed to shew cause to the contrary.

Dated at Taiping, this 18th day of January, 1901.

This Notification is made under Section 6 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 10th day of January, 1901.

A. R. VENNING,
Secretary to Government

CIRCULAR DESPATCH FROM THE RIGHT HONOURABLE THE SECRETARY OF STATE FOR THE COLONIES AND ITS ENCLOSURE.

No. 76.—(*Circular.*)

DOWNING STREET, 17th November, 1900.

SIR,

I have the honour to transmit to you, with reference to previous correspondence, the accompanying copies of a Memorandum on measures to be taken for the prevention of Malaria, which has been drawn up by Sir MICHAEL FOSTER, K.C.B., F.R.S., and approved by LORD LISTER, President of the Royal Society.

2. I request that you will cause this Memorandum to be brought to the notice of such persons as you may think best.

I have, etc.,

THE OFFICER ADMINISTERING THE
GOVERNMENT OF THE STRAITS SETTLEMENTS.

J. CHAMBERLAIN.

MEASURES TO BE TAKEN FOR THE PREVENTION OF MALARIA, BY
SIR MICHAEL FOSTER, K.C.B., F.R.S., M.P., AND APPROVED BY LORD
LISTER, PRESIDENT OF THE ROYAL SOCIETY—28th JULY, 1900.

Malaria (ague, intermittent fever) is due to the presence in the blood (in the corpuscles of the blood) of a minute organism. An attack of the fever is coincident with, and due to an active phase of, this organism; it then multiplies in a remarkable manner. Between the attacks the organism is quiescent and dormant; it may remain so for a long time.

Recent researches have shewn that, at least in the vast majority of cases, probably in all cases, the organism is introduced into the blood, and thus the disease contracted, by the bite of a mosquito, generally, if not always, one species or other of the genus known as *anopheles*. The *anopheles* bites a malarious person, *i.e.*, a person whose blood contains the organism, and sucks up with the blood the organism. This organism develops and increases in the body of the *anopheles*, and there produces germs which pass into the salivary glands and proboscis of the insect. Hence when the mosquito bites another person, it introduces the organism into the blood of that person and so starts the disease.

Every individual *anopheles* is not necessarily infected with the organism, but in a district where malaria occurs, the probability is very great of any *anopheles* being so infected.

Hence malaria, in the vast majority of cases, probably all cases, may be prevented, by preventing oneself from being bitten by an infected *anopheles*.

Prevention may be secured—

1. By avoiding all bites of mosquitos.

(a). By living in rooms to which the entrance of mosquitos is completely shut off by thin meshed gauzes to windows, doors, etc.

(b). By sleeping under adequate mosquito curtains—the *anopheles* generally bites in the night or evening.

2. By avoiding sleeping or living near native huts in regions favourable for malaria. Although the natives become acclimatised to the disease as they grow up, and the adults do not suffer from malaria, the organism is very frequent in the blood of native children, and *anopheles* in or near native huts are very commonly infected. Hence anyone who sleeps in or even near native quarters runs the risk of being bitten by an infected *anopheles* and of catching malaria.

3. By preventing malarious persons from being bitten by mosquitos. A non-infected *anopheles* is harmless; it is only when it has fed on blood of a malarious person that it can propagate malaria.

The above are the most important means of prevention, but much may be done by diminishing the number of *anopheles*. These very frequently breed in small pools, and puddles of water on the ground—puddles mostly of a fairly permanent description, kept filled by the rain and not liable to scouring out during heavy showers. Hence, if these pools are filled up or otherwise abolished, the number of *anopheles* may be largely diminished, and the chance of infection correspondingly lessened.

The increase of *anopheles* is also diminished by pouring kerosene, etc., on their breeding pools.

These measures should not be neglected, but the most important steps are:—

1. To avoid sleeping or living near native huts or other haunts of malaria-infected *anopheles*.

2. To avoid being bitten by infected mosquitos, which is best effected by avoiding all mosquito bites.

UNCLAIMED DEPOSITS, KINTA DISTRICT.

No. 906.—Whereas the undermentioned deposits remain unclaimed in the Kinta Treasury:

TENDERS.

BUILDINGS, LARUT.

No. 78.—Tenders are invited for the construction of the following buildings:—

(1) School house and Teachers quarters, Taiping (Malay Girls); (2) School houses and Teachers quarters at Matang Glugor; (3) Contagious Diseases ward for ten Patients at Port Weld; (4) Police station and married quarters at Temerloh, for two single and three married men with cook and bath-rooms and latrine; (5) Quarters for one Surveyor, and (6) One Chief Draughtsman, Taiping.

These should be addressed to the Secretary to Government, sealed and marked on the outside "Tender for Buildings, Larut," and will be received at his office not later than noon on Wednesday, the 20th February, 1901.

Plans and specifications can be seen at the District Engineer's Office in Taiping.

30th January, 1901.

BUILDINGS, KUALA KANGSAR.

No. 79.—Tenders are invited for the construction of the following buildings in the Kuala Kangsar District, viz:—

(1) Quarters for Teachers at Kuala Kangsar, Kota Lama Kanan, and Chegar Galah; (2) School houses and Teachers quarters at Kati and Raban; (3). Police station and quarters for four men, with cook-house complete at Kati; (4) Police station and barrack for six men (Indian) with cookhouse at Salak.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Buildings, Kuala Kangsar," and will be received at his office not later than 12 noon on the 11th February, 1901.

Plans and specifications can be seen at the District Engineer's Office in Kuala Kangsar.

30th January, 1901.

OFFICES, KINTA GAOL.

No. 80.—Tenders are invited for the construction of an Administration Block in the Batu Gajah Gaol, to include all workmanship for its construction and completion and all necessary materials.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Offices, Kinta Gaol," and will be received at his office up to noon on Monday the 18th February, 1901.

Plans and specifications can be seen at the State Engineer's Office in Taiping, or at the Deputy State Engineer's Office in Batu Gajah.

31st January, 1901.

CELLS, KINTA GAOL.

No. 81.—Tenders are invited for the construction of a block of 156 cells in the Batu Gajah Gaol, to include all workmanship for its construction and completion and all necessary materials, except locks and such fittings or other articles as it has been considered best to order from England, of which particulars will be found with the plans and specifications referred to below.

Also alternative tenders for the supply of bricks, tiles, timber (sawn to the proper dimensions), limes, etc., to be delivered as required; for labour and workmanship only; and for the several descriptions of work necessary, including materials and workmanship, all in accordance with the schedules provided. Each item of this schedule will be considered a separate tender and the offers of different persons for the various items may be accepted, either jointly or severally, as is found desirable.

Sealed tenders, marked on the outside "Tender for Cells, Kinta Gaol," will be received at the office of the Secretary to Government, Taiping not later than noon on Monday, the 18th February, 1901.

Plans and specifications, with the schedule above referred to, can be seen at the State Engineer's Office in Taiping, or at the Deputy State Engineer's Office in Batu Gajah.

31st January, 1901.

HOUSES, KINTA.

No. 82.—Separate tenders are invited for the construction of a Second Class Officers' Ward in the Hospital at Batu Gajah, (there are alternative plans for this, each of which should be priced separately); Two Officers quarters (both on same plan) at Batu Gajah; Sanitary Inspector's quarters at Ipoh.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Houses, Kinta," and will be received at his office not later than noon on Monday, the 18th February, 1901.

Plans and specifications can be seen at the State Engineer's Office in Taiping, or at the Deputy State Engineer's Office in Batu Gajah.

31st January, 1901.

EXTENSION OF THE RESIDENT ENGINEER FOR RAILWAYS
OFFICE, TAIPING.

No. 18.—Tenders are invited for the enlargement of the Resident Engineer for Railways Office, Taiping.

Sealed tenders, marked on the outside "Tender for Enlargement of Resident Engineer for Railways' Office," should be addressed to the Secretary to Government, and will be received not later than noon on the 14th February, 1901.

Tenders must state the time required and the security offered for the completion of the work. Plans may be seen and further particulars obtained at the Office of the Resident Engineer for Railways, Taiping.

2nd January, 1901.

CLERKS' QUARTERS, IPOH.

No. 19.—Tenders are invited for the erection of railway clerks' quarters at Ipoh.

Sealed tenders, marked on the outside "Tender for Railway Clerks, Quarters, Ipoh," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 14th February, 1901.

Tenders must state the time required and the security offered for the completion of the work. Plans may be seen and further particulars obtained at the offices of the Resident Engineer for Railways, Taiping, and the District Railway Engineer, Ipoh.

2nd January, 1901.

STAFF QUARTERS, IPOH.

No. 20.—Tenders are invited for the erection of four sets of railway staff quarters at Ipoh.

Sealed tenders, marked on the outside "Tender for Railway Staff Quarters, Ipoh," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 15th February, 1901.

Tenders must state the time required and the security offered for the completion of the work. Plans may be seen and further particulars obtained at the offices of the Resident Engineer for Railways, Taiping, and the District Railway Engineer, Ipoh.

2nd January, 1901.

STAFF QUARTERS, TELUK ANSON.

No. 21.—Separate tenders are invited for the erection of three sets of railway staff quarters at Teluk Anson.

Sealed tenders, marked on the outside "Tenders for Railway Staff Quarters, Teluk Anson," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 15th February, 1901.

Tenders must state the time required and the security offered for the completion of the work. Plans may be seen and further particulars obtained at the Offices of the Resident Engineer for Railways, Taiping, and the District Railway Engineer, Ipoh.

2nd January, 1901.

Government does not bind itself to accept the lowest or any other tender.

LAND OFFICE NOTICES.

LARUT.

No. 911.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Haji Muhammad bin Abdullah of Trong, for a new document of title for land situated at Sungei Lidin, in the mukim of Tupai, on the ground that Haji Muhammad bin Abdullah is the registered owner thereof, and that the original Permit to clear, No. 211 of 1887, has been destroyed:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application the new document of title applied for will, subject to the provisions of the said Section 13, be granted.

21st December, 1900.

No. 785.—Whereas there is reason to believe that the persons enumerated in the Schedule hereto have severally failed to fulfil the labour conditions of the Leases herein shewn, as held by each of them respectively, in consequence whereof the said Leases have become liable to forfeiture, now with the approval of the Acting Resident, I hereby notify each of the said persons that if within three months from the date of publication of this notice in the *Gazette*, the labour forces on the said lands be not severally increased, so as to substantially comply with the conditions of the said Titles respectively the lands, or a portion of them, according to circumstances, will be resumed in the absence of good cause shewn to the contrary.

Dated this 9th day of November, 1900.

E. S. HOSE,

Acting Collector of Land Revenue.

MATANG.

No. 25.—Application having been made to the Collector of Land Revenue, at Matang, by Chuah Liew of Selinsing, for an extract from the Mukim Register for land held under Mukim Register No. 57, situated at Selinsing, in the district of Matang, on the ground that Chuah Liew is the registered owner thereof and that the original Extract from the Mukim Register No. 57, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue, for refusing these applications the new titles applied for will, subject to the provisions of the said Section 13, be granted.

R. CLAYTON,

Acting Collector of Land Revenue.

4th January, 1901

KUALA KANGSAR.

No. 83.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Raja Homza bin Rajah Ibrahim of Pachat in Senggang, for a new document of title for land situated in the mukim of Senggang, in the district of Kuala Kangsar, and described in Permit No. 79 of 1893, on the ground that Raja Hamza bin Raja Ibrahim is the registered owner thereof, and that the original Permit No. 79 of 1893, whereby the land was demised to him, has been lost :

No. 84.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Mastan of Penang (Applicant under Order in Council No. 3 of 1893) for a new document of title for land situated in the mukim of Lubok Merbau, in the district of Kuala Kangsar, and described in Permit No. 707 of 1891, on the ground that Muhammad Salleh is the registered owner thereof, and that the original Permit No. 707 of 1891, whereby the land was demised to Muhammad Salleh, has been lost :

No. 85.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Anjang Teksha binti Itam Tokoh of Chegar Galah, for new document of title for lands situated in the mukim of Chegar Galah, in the district of Kuala Kangsar, and described in Permit Nos. 3,198 of 1886 and 924 of 1890, on the ground that Anjang Teksah binti Itam Tokoh has become the purchaser at an auction sale, and that the said original permits are said to be with Itam Amin whose whereabouts are not known :

No. 86.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Tejah binti Lebai of Blanja, for a new document of title for land situated in the mukim of Blanja, in the district of Kuala Kangsar, described in Permit No. 6,821 of 1886, on the ground that Pandak Ribut is the registered owner thereof, and that the original Permit No. 6,821 of 1886, whereby the land was demised to him, has been lost :

31st January, 1901.

No. 54.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Rastam bin Muhammad of Saiong, for a new document of title for land described in Extract No. 530, and situated in the mukim of Saiong, on the ground that Si Abul bin Muhammad is the registered owner thereof, and that the original Extract No. 530, whereby the land was demised to Si Abul bin Muhammad, has been lost :

No. 55.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Ma' Ali bin Kulup Ahmad of Yalang, for a new document of title for land described in Permit No. 388 of 1887, and situated in the mukim of Saiong, on the ground that he is the registered owner thereof, and that the original Permit No. 388 of 1887, whereby the land was demised to him, has been lost :

No. 56.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Mabob bin Anjang Ayan of Kota Lama Kanan, for a new document of title for land described in Permit No. 279 of 1890, and situated in the mukim of Kota Lama Kanan, on the ground that Muhammad Amin bin Anjang Ayan is the registered owner thereof, and that the original Permit No. 279 of 1890, whereby the land was demised to Muhammad Amin bin Anjang Ayan, has been lost :

18th January, 1901.

No. 822.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Anjang Omar bin Pandak Serain of Kampong Buaia, for a new document of title for land situated in the mukim of Kampong Buaia, on the ground that he is the registered owner thereof, and that the original Permit No. 4,915 of 1886, whereby the land was demised to him, has been lost :

No. 823.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Lam bin Syed Omar of Chigar Gala, for a new document of title for land situated in the mukim of Kampong Buaia, on the ground that he is the registered owner thereof, and that the original Permit No. 501 of 1892, whereby the land was demised to him, has been lost :

No. 824.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Samat bin Alang Gendek of Saiong, for a new document of title for land situated in the mukim of Saiong, on the ground that he is the registered owner thereof, and that the original Permit No. 5,836 of 1886, whereby the land was demised to him, has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

23rd November, 1900.

F. ROBERTSON,
Acting Collector of Land Revenue.

UPPER PERAK.

No. 736.—Application having been made to the Collector of Land Revenue at Janing by L. V. Helms of Lenggong, for new Extracts from the Mukim Register for building lots situated at Lenggong, in the mukim of Lenggong, on the ground that L. V. Helms is the registered owner thereof, and that the original Extract Nos. 627, 628, 629 and 630 have been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the Extracts from the Mukim Register applied for will, subject to the provisions of the said Section 13, be granted.

26th October, 1900.

H. BERKELEY,
Collector of Land Revenue.

KINTA.

No. 26.—It is hereby notified that Ahmad bin Sabtu, or other persons claiming any interest in Plan No. 1,690, comprising 29 poles of land in the mukim of Ulu Kinta, is hereby required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, there to establish his claim, in default whereof such land will be deemed to be State land and will be dealt with accordingly.

4th January, 1901.

NOTICES UNDER SECTION 11 OF THE LAND ENACTMENT, 1897.

No. 27.—It is hereby notified that Busuk Uso, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 724, of the Kinta District, now surveyed as Plan No. 1,689, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$8.91, being cost of survey of the said land:

No. 28.—It is hereby notified that Aman bin Girun, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 723, of the Kinta District, now surveyed as Plan No. 1,687, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$12.04, being cost of survey of the said land:

Failure to comply with the terms of these notices will render the said Agreements for Agricultural Leases liable to cancellation.

4th January, 1901.

NOTICE TO TAKE OUT LEASE.

No. 871.—To Floriano Fernandez:

Take notice that you are hereby commanded and required to attend, either personally or by your duly appointed agent, at the Land Office at Batu Gajah, within three months from the date of publication of this notice, and accept Mining Lease, Plan No. 5,377, which has been prepared in pursuance of your Application No. 82/1895. In default of your so attending you will be liable to the penalties provided by Section 105 of the "Mining Enactment, 1899," and your application will be liable to cancellation, and the said lease will be returned to the Resident for cancellation.

Dated at the Land Office at Batu Gajah this 7th day of December, 1900.

NOTICE OF FORFEITURE OF TITLE FOR DEFAULT IN RESPECT OF CONDITIONS.

No. 872.—To Che Taun bin Hoosain:

Take notice that whereas you have for six years failed to pay the rent reserved by agreement for Agricultural Lease No. 3,086, registered in your name and more particularly described in the schedule hereto, it is the intention of the Government to cancel the said title in default of good cause shewn to the contrary within three months from the date of publication of this notice.

SCHEDULE.

Title—Agreement for Agricultural Lease No. 3,086. *Owner*—Che Taun bin Hoosain. *Mukim*—Sungei Trap. *Locality*—Near bridle-path, from Batu Gajah to Gopeng. *Area*—1 acre and 13 poles.

7th December, 1900.

No. 29.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Sung Yen of Ipoh, for a new Mining Lease of land situated at Ulu Johar, of the Kinta District, on the ground that the said Sung Yen is the registered owner thereof, and that the Original Mining Lease No. 1,776 has been destroyed by fire:

No. 30.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin of Kwala Dipang, for a title for land situated at Kwala Dipang, of the Kinta District, on the ground that the said Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin are the registered owners thereof, and that the Original Agreement for Agricultural Lease No. 1,993 has been lost:

Perak Government Gazette

EXTRAORDINARY.

PUBLISHED BY AUTHORITY.

No. 8.]

TAIPING, FRIDAY, FEB. 1, 1901.

[Vol. XIV.]

THE following Notification is, by Command of the Acting Resident, published for general information.

A. R. VENNING,

Secretary to Government.

No. 90.—The following Proclamation announcing the Accession to the Throne of His Majesty KING EDWARD THE SEVENTH, King of Great Britain and Ireland and Emperor of India, is copied from the *Straits Settlements Gazette*, dated January 26th, 1901 :—

PROCLAMATION.

“WHEREAS it hath pleased Almighty God to call to his Mercy our late Sovereign Lady Queen VICTORIA of Blessed and Glorious Memory by whose decease the Imperial Crown of the United Kingdom of Great Britain and Ireland and all other Her late Majesty’s dominions is solely and rightfully come to the High and Mighty PRINCE ALBERT EDWARD.

“ We, the Officer Administering the Government, the Bishop, the Chief Justice, the Officer Commanding the Troops, the Senior Naval Officer, the Members of the Executive and Legislative Councils, the Puisne Judge, the Members of the Municipal Council, of the Chamber of Commerce, of the Chinese Advisory Board, the Justices of the Peace and the leading Members of the various Communities assembled do therefore now hereby with one Voice and Consent of Tongue and of Heart publish and proclaim that the High and Mighty PRINCE ALBERT EDWARD is now by the death of our late Sovereign of happy and glorious memory become our only lawful and rightful Liege Lord EDWARD THE SEVENTH, by the Grace of God King of the United Kingdom of Great Britain and Ireland, Defender of the Faith, Emperor of India, Lord in and over the Straits Settlements with the dependencies thereof.

“ To whom We do acknowledge all Faith and constant Obedience with all Hearty and Humble Affection, beseeching God by whom Kings and Queens do reign to bless the Royal PRINCE EDWARD THE SEVENTH with long and happy years to reign over us.

“ Given at Singapore, this Twenty-eight day of January, in the Year of Our Lord One Thousand Nine Hundred and One.

GOD SAVE THE KING!”

A Royal Salute of twenty-one Guns will be fired from Fort Carnarvon, at noon the 4th February.

Flags will cease to be flown at half-mast, after sunset the 2nd February.

11th February, 1901.

No. 104.—THE FOLLOWING TELEGRAM HAS BEEN RECEIVED FROM THE RIGHT HONOURABLE THE SECRETARY OF STATE FOR THE COLONIES.

HIS MAJESTY Commands me to transmit the following Message to you for publication:—

“To My People beyond the Seas—

The countless messages of loyal sympathy which I have received from every part of my dominions over the seas testify to the universal grief in

which the whole Empire now mourns the loss of my beloved Mother. In the welfare and prosperity of Her subjects throughout Greater Britain the Queen ever evinced a heartfelt interest. She saw, with thankfulness, the steady progress which, under a wide extension of self government, they had made during Her Reign. She warmly appreciated their unfailing loyalty to Her throne and person and was proud to think of those who had so nobly fought and died for the Empire's cause in South Africa. I have already declared that it will be my constant endeavour to follow the great example which has been bequeathed to me. In these endeavours I shall have a confident trust in the devotion and sympathy of the people and of their several representative assemblies throughout my vast Colonial dominions. With such loyal support I will, with God's blessing, solemnly work for the promotion of the common welfare and security of the great Empire over which I have now been called to reign.

(Signed) EDWARD R. AND I."

WINDSOR CASTLE, 4th February, 1901.

TIMBER AND JUNGLE PRODUCE RULES

UNDER THE LAND ENACTMENT, 1897, SECTION 14 (viii), (x), (xii), (xiii).

No. 105.—The following Rules, which may be cited as the "Timber Rules, 1900," have been made by the British Resident, with the approval of the Resident-General, under the powers conferred upon him by the provisions of the Land Enactment, 1897, and are published for general information, in substitution for the Timber Rules, 1899, published in the *Gazette*, dated 22nd December, 1899:—

1. All existing Rules regarding the cutting, taking and removing of timber, firewood, charcoal and other jungle produce from State lands, or removing the same beyond the boundaries of alienated land, and the payment of duty therefor, shall be repealed, and the following Rules shall have effect from the first day of January, 1901. Repeal.

2. A Timber Roll shall be exhibited in every District Land Office and Collector's Office, and to any person applying for permission to cut or remove any kinds of timber or jungle produce from State land there may be issued a licence, in the form of Schedule A hereto, in which the following particulars shall be stated:— Timber Roll.

(i). The name, size and quantity of the timber or jungle produce to be cut or removed.

(ii). The locality from which it is to be taken.

(iii). The duration of time for which the licence shall remain in force.

(iv). The amount of the charges payable in respect of the produce to be removed under the licence.

3. All timber cut or removed under such licence shall be liable to a royalty of ten per cent of the value prescribed in the Timber Roll for each description of timber; and all jungle produce shall be liable to a royalty of ten per cent of the rates published periodically in the *Gazette*: excepting only— Charges thereunder.

(a). Timber under six inches in diameter and cut for the licensee's own use, in which case the charge made will be a royalty of five per cent; and

(b). Timber exempted from charge by Rules 24 and 25.

Measurement
of Timber.

4. All timber cut under licence shall be taken to a place specified on the licence to be measured, and may not be removed from such place unless accompanied by a removal pass or bearing the Government hammer mark.

Licences for
removal
from aliena-
ted land.

Exception.

5. Licences to remove timber or other jungle produce from land alienated under the Land Enactment, 1897, or the Mining Enactment, 1899, may be issued to the owner of such land; and the timber or other jungle produce removed therefrom shall be liable to the royalties prescribed in Rule 3. No timber or jungle produce shall be removed from land alienated as aforesaid except under such licence.

Passes.

6. Passes to cut and remove timber and jungle produce (in the form of Schedule B hereto) from State land may be issued to persons carrying on the trade of a charcoal burner, firewood cutter, or jungle produce collector; and no passes shall be issued for the taking of timber or jungle produce by any other persons or for any other purpose except with the express permission of the Resident. Such permission shall designate the district or sub-district in which such passes may be issued.

Charcoal.

7. No person shall cut for firewood, or for the manufacture of charcoal, on State land, any of the trees included by name in the Timber Roll.

Fees
thereunder.

8. The fees leviable for passes shall be as under:—

							Per man per monsem.

Passes free of charge will be issued to cooks and clerks in each *kongsi* when the number of employes renders the services of cook or clerk necessary in the opinion of the Collector. Free passes will also be granted to buffalo grass cutters when employed for grass cutting only.

Buffalo drivers engaged by *kongsis* for dragging out wood will be provided with a pass, for which a fee of \$1 will be charged.

Duration of
licences and
passes.

9. Licences and passes shall be issued for such periods as the applicants may require, provided that no such period shall exceed six months.

Time and
place of
payment of
fees.

10. All charges or fees for licences or passes shall be paid in advance, and before the issue of the licence or pass, at the District Land, Customs, or Collector's Office.

Licence or
pass to be for
specified
localities.

11. The rights conferred by any licence or pass may be exercised only in the localities set apart for the cutting or removal of timber or jungle produce, and in each case endorsed upon the licence or pass.

Licenses to
carry licence
or pass on
his person.

12. Every licence shall be kept upon the person of the licensee while at work, and where more than one licence is required by any one applicant there shall be issued a sub-licence, in the form of Schedule C hereto; and every servant or employe engaged in the cutting or removal of timber or jungle produce shall carry it on his person while at work, and at other times have it in his possession or at his work-shed or usual place of residence.

Sub-licence
or sub-pass.

13. Every person engaged in the cutting or removal of timber or jungle produce, unless working under a licence, shall have a pass at the rates prescribed by Rule 8; and such pass shall be kept upon the person of the individual named therein during working hours, and at other times at his work-shed or usual place of residence. Passes to be carried.

14. (i). The headman of every body of persons living or working together in any occupation having for its object the cutting or removal of timber or jungle produce from State land shall cause a working board, containing a full and correct list of all the persons so employed or engaged, to be exhibited in a conspicuous place in the main entrance to the house or work-shed, and every person whose name is contained in the said list shall be provided with a licence or pass. Working board.

(ii). If any person unprovided with a licence or pass be found in any such place under circumstances that appear to any Court before which he may be brought to raise reasonable presumption that he has been living and working with the inmates of such place, although his name has not been entered upon the working board, such Court may declare the onus of proving the contrary to lie with the accused, and failing such proof may convict him of an offence under Section 107 of the Land Enactment.

15. No timber shall be cut within any Government forest reserve without special authority in writing from the Forest Officer or his deputy, or within a distance of ten chains from the crest of any prominent hill; and no licence or pass shall authorise the lawful holder thereof to cut or work upon any but State lands. Government reserves.

16. No person shall burn or otherwise prepare charcoal within a distance of one mile from any point of a Government forest reserve.

17. No person shall cut down or destroy any mangrove or other tree growing in salt swamps being of a less diameter than three inches inside the bark at a height of three feet from the ground, except with the special permission in writing of the Collector. Mangrove.

18. No nipah palm shall under any circumstances be entirely stripped, but in every case there shall be left at least one leaf besides the centre shoot. Nipah.

19. No Getah Rambong (*Ficus elastica*) tree shall be cut down or destroyed for the purpose of extracting rubber therefrom, nor shall its aerial roots be in any way tapped or cut to within one foot of the ground. Rambong.

20. No rubber tree of any description having a diameter, at a height of four feet from the ground, of less than eight inches shall be cut down for the purpose of extracting rubber therefrom. Rubber.

21. No tree shall be cut down or destroyed for the purpose of extracting damar or wood-oil. Damar or Wood oil.

22. All timber and jungle produce collected under licence must be shewn to the nearest Collector or to an officer appointed by him in that behalf, and must, if it is to be exported from the State, whether collected under Licence or Pass, be accompanied, when it is removed, by a certificate from the Collector or a Customs Officer, in the form of Schedule D hereto. Such certificate shall in all cases be produced at the port of export. Certificate before export

23. Before any timber or jungle produce is taken out of the State an export duty of ten per cent shall be charged in addition to any charges or fees that have been paid for the licence or pass under which it was cut. Export duty

Privileges to
Malay
landholders.

24. Notwithstanding anything provided in the above Rules it shall be lawful for any Malay landholder, with the permission of the penghulu of his mukim, to cut and remove from State land, within limits prescribed by the Collector, any timber, atap or other jungle produce which may be necessary for the construction or repair of his own house, the fencing of his own land, the upkeep of his fishing stakes and landing place, for firewood to be consumed by himself, or of the construction or upkeep of any dam or water-wheel or any other work for the common benefit of the landholders of his mukim.

25. Miners shall be entitled to take from State land timber and firewood for *bonâ fide* use in their mines or for any engine, dam or water-course necessary thereto, provided that each man so employed holds a pass from the District Land Office. Such passes shall be issued free of charge to such number of men as the Warden of Mines may certify in respect of each mine and shall entitle the holders thereof to take woods comprised in Class II of the Timber Roll, but shall not entitle them to take woods comprised in Class I of the said Timber Roll.

26. In these Rules the word "Collector" means any Collector appointed under Section 15 of the Land Enactment, 1897.

TIMBER ROLL.

The following Timber Roll is substituted for that published under Notification No. 897, on 21st day of December, 1900.

DECLARATION UNDER SECTION 75 OF THE
LAND ENACTMENT, 1897.

ACQUISITION OF LAND FOR PUBLIC PURPOSES.

No. 106.—It is hereby notified that whereas the whole or certain portions of those lands in the township of Taiping, in the District of Larut, set forth and described in the schedule hereto, are required for the public purpose of a Latrine for the Public Offices, it is the intention of the Government to take possession of the same under Part VII of the Land Enactment, No. 17 of 1897, after the publication of this notice in the *Gazette*.

Plans of the lands described below, shewing the portions to be resumed, may be seen at the Land Office, Larut, during the usual hours, on application to the Collector of Land Revenue.

SCHEDULE.

Mukim.	Situation.	Lot No.	Area.	TITLE.		Owner or Claimant.	Extent of resumption.
				Nature.	No.		
Taiping	Kota Road	161	1,800 sq. ft.	Town Lease	156	Ng Bu Bi ...	The whole
"	"	162	" "	"	157	Yeap Tee Loon...	"

This Declaration is made under Section 75 of the Land Enactment, No. 17 of 1897, to all whom it may concern.

Dated at Taiping, this 7th day of February, 1901.

A. R. VENNING,
Secretary to Government.

NOTIFICATIONS UNDER SECTION 6 OF THE
LAND ENACTMENT, 1897.

RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 73.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims those parcels of land situated at Semat, described in the schedule hereto, and delineated upon Revenue Survey Plan No. 28/5, deposited in the office of the District Surveyor at Kuala Kangsar, to be a reserve for the purpose of a Malay School, to be maintained by the Inspector of Schools.

SCHEDULE.

District—Kuala Kangsar. *Mukim*—Senggang. *Plan No.*—42-12. *Lot Nos.*—450 and 451. *Area*—1 rood and 8 poles. *Boundaries*—North, by the Perak river; East, by Lot No. 452; South, by Bridle-path; West, by Lot No. 449.

This Notification is made under Section 6 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 17th day of January, 1901.

A. R. VENNING,
Secretary to Government.

No. 74.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims that parcel of land situated in the township of Parit Buntar, described in the schedule hereto, and delineated upon Revenue Survey Plan, deposited in the office of the District Surveyor, Parit Buntar, to be a reserve for the purpose of a place of Public Worship, to be maintained by the Assistant Kathi, Krian.

SCHEDULE.

District—Krian. *Mukim*—Parit Buntar. *Parts of Lot Nos.*—86 and 87. *Area*—1,820 square feet. *Boundaries*—North, Lot No. 85; East, Parts of Lot Nos. 86 and 87; South, Hospital Street; West, Lot No. 81.

This Notification is made under Section 6 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 30th day of January, 1901.

A. R. VENNING,
Secretary to Government.

No. 75.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims that parcel of land situated at Sungei Siakap, Kurau, described in the schedule hereto, and delineated upon Revenue Survey Plan No. 7-3, deposited in the office of the District Surveyor, Parit Buntar, to be a reserve for the purpose of a Malay Burial Ground, to be maintained by the Imam of Sungei Siakap Mosque and his successors in office.

SCHEDULE.

District—Krian. *Mukim*—Kurau. *Plan No.*—7-3. *Lot No.*—1,755. *Area*—8 acres, 3 roods, 5 poles. *Boundaries*—North, Lot Nos. 1,751, 1,753, 1,754 and 1,647; East, Lot Nos. 1,763 and 1,765; South, Lot No. 1,766; West, Lot Nos. 1,767, 1,756 and 1,757.

This Notification is made under Section 6 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 18th day of January, 1901.

A. R. VENNING,
Secretary to Government.

TENDERS.

REFUSE RICE, TAIPING PRISON.

No. 107.—Tenders are invited for the removal of refuse rice from the Central Prison, Larut, daily, morning and evening, for the period of one year from the 10th March, 1901.

Sealed tenders, marked on the outside "Tender for Refuse Rice, Central Prison," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon, the 27th February, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$5, otherwise it will not be considered. Should any person

decline to enter into a contract after his tender has been accepted, such deposit will be forfeited to the State. The deposits of unsuccessful tenderers will be returned.

Further information can be obtained at the Central Prison Office, Taiping.

11th February, 1901.

Government does not bind itself to accept the highest or any other tender.

ALTERATION OF DIVISIONAL ENGINEER'S QUARTERS, TAIPING.

No. 108.—Tenders are invited for the execution of alterations to the Divisional Engineer's Quarters, Taiping.

Sealed tenders, marked on the outside "Tender for Alteration of Divisional Engineer's Quarters, Taiping," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 6th March, 1901.

Plan and specification may be seen and further particulars obtained at the office of the Divisional Railway Engineer, Assam Kumbang Road, Taiping.

11th February, 1901.

COOLIE LINES, KOTA.

No. 109.—Tenders are invited for the construction of one set of permanent coolie lines, on Taiping to Kuala Kangsar Section, near Kota.

Sealed tenders, marked on the outside "Tender for Coolie Lines, Kota," should be addressed to the Secretary to Government and will be received not later than noon on the 5th March, 1901.

Tenders must state the time required for the completion of the work.

Plan may be seen and further particulars obtained at the office of the Resident Engineer for Railways, Taiping, or the Divisional Engineer, Taiping.

14th February, 1901.

REPAIRS TO HOSPITAL DRAINS, TELUK ANSON.

No. 110.—Tenders are invited for repairs and additions to brick drains in the hospital compound at Teluk Anson, tenders should state price per square foot for painting with Portland cement, and price per cubic yard for additional brick work required.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Repairs to Hospital Drains, Teluk Anson," and will be received at his Office up to Friday, the 1st March, 1901.

Plans and specifications can be seen, and all information obtained at the Assistant Engineer's Office in Teluk Anson.

11th February, 1901.

BRICK DRAINS, TELUK ANSON.

No. 111.—Tenders are invited for the construction of 1,600 lineal feet of brick drains in Teluk Anson, Lower Perak.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Brick Drains, Teluk Anson," and will be received at his Office up to Friday, 1st March, 1901.

Plans and specifications can be seen at the Assistant Engineer's Office in Teluk Anson.

11th February, 1901.

CONSTRUCTION OF BRIDLE-PATH, LOWER PERAK.

No. 112.—Tenders are invited for the construction of $7\frac{1}{2}$ miles of bridle-path, between Pasir Blanda and Likir, in the Lower Perak district.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Construction of Bridle Path, Lower Perak," and will be received at his Office up to Friday, the 1st March, 1901.

Plans and specifications can be seen at the Assistant Engineer's Office in Teluk Anson.

11th February, 1901.

METALLING MIDDLE SECTION, MAIN TRUNK ROAD.

No. 113.—Tenders are invited for the metalling of nine miles, more or less, of cart road, on the middle section of the main trunk road, between Trollah and Slim. Two miles of light tramway and twelve trucks will be lent by the Public Works Department, and fifteen pairs of bullocks, with carts, are purchasable on the spot.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Metalling, Middle Section, Main Trunk Road," and will be received at his Office up to noon, 1st March, 1901.

Plans and specifications can be seen at the State Engineer's Office in Taiping and the District Engineer's Office, Tapah.

11th February, 1901.

METALLING BATAK RABIT ROAD.

No. 114.—Tenders are invited for metalling the Batak Rabbit Road, $9\frac{1}{2}$ miles, in the Lower Perak District. Tenders should quote prices for the supply of metal only at certain points on the Perak River between Teluk Anson and Sungei Jenderata. Prices for $\frac{1}{4}$ inch and $1\frac{1}{2}$ inch metal should be given.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Metalling Batak Rabbit Road, and Supply of Metal," and will be received at his Office up to noon, 1st March, 1901.

Plans and specifications can be seen at the District Engineer's Office in Tapah, and Assistant Engineer's Office, Lower Perak, where full information can be obtained.

11th February, 1901.

CLUB HOUSE, KUALA KANGSAR.

No. 115.—Tenders are invited for the construction of a Club House, Kuala Kangsar.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Club House, Kuala Kangsar," and will be received at his Office up to noon, on the 1st March, 1901.

Plans and specifications can be seen at the District Engineer's Office in Kuala Kangsar.

14th February, 1901.

BUILDINGS, LARUT.

No. 78.—Tenders are invited for the construction of the following buildings:—

(1) School house and Teachers quarters, Taiping (Malay Girls); (2) School houses and Teachers quarters at Matang Glugor; (3) Contagious Diseases ward for ten Patients at Port Weld; (4) Police station and married quarters at Temerloh, for two single and three married men with cook and bath-rooms and latrine; (5) Quarters for one Surveyor, and (6) One Chief Draughtsman, Taiping.

These should be addressed to the Secretary to Government, sealed and marked on the outside "Tender for Buildings, Larut," and will be received at his office not later than noon on Wednesday, the 20th February, 1901.

Plans and specifications can be seen at the District Engineer's Office in Taiping.

30th January, 1901.

OFFICES, KINTA GAOL.

No. 80.—Tenders are invited for the construction of an Administration Block in the Batu Gajah Gaol, to include all workmanship for its construction and completion and all necessary materials.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Offices, Kinta Gaol," and will be received at his office up to noon on Monday the 18th February, 1901.

Plans and specifications can be seen at the State Engineer's Office in Taiping, or at the Deputy State Engineer's Office in Batu Gajah.

31st January, 1901.

CELLS, KINTA GAOL.

No. 81.—Tenders are invited for the construction of a block of 156 cells in the Batu Gajah Gaol, to include all workmanship for its construction and completion and all necessary materials, except locks and such fittings or other articles as it has been considered best to order from England, of which particulars will be found with the plans and specifications referred to below.

Also alternative tenders for the supply of bricks, tiles, timber (sawn to the proper dimensions), limes, etc., to be delivered as required; for labour

and workmanship only; and for the several descriptions of work necessary, including materials and workmanship, all in accordance with the schedules provided. Each item of this schedule will be considered a separate tender and the offers of different persons for the various items may be accepted, either jointly or severally, as is found desirable.

Sealed tenders, marked on the outside "Tender for Cells, Kinta Gaol," will be received at the office of the Secretary to Government, Taiping, not later than noon on Monday, the 18th February, 1901.

Plans and specifications, with the schedule above referred to, can be seen at the State Engineer's Office in Taiping, or at the Deputy State Engineer's Office in Batu Gajah.

31st January, 1901.

HOUSES, KINTA.

No. 82.—Separate tenders are invited for the construction of a Second Class Officers' Ward in the Hospital at Batu Gajah, (there are alternative plans for this, each of which should be priced separately); Two Officers quarters (both on same plan) at Batu Gajah; Sanitary Inspector's quarters at Ipoh.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Houses, Kinta," and will be received at his office not later than noon on Monday, the 18th February, 1901.

Plans and specifications can be seen at the State Engineer's Office in Taiping, or at the Deputy State Engineer's Office in Batu Gajah.

31st January, 1901.

Government does not bind itself to accept the lowest or any other tender.

TENDERS ACCEPTED.

No. 116.—The following tenders have been accepted by Government.

LAND OFFICE NOTICES.

LARUT.

No. 911.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Haji Muhammad bin Abdullah of Trong, for a new document of title for land situated at Sungei Lidin, in the mukim of Tupai, on the ground that Haji Muhammad bin Abdullah is the registered owner thereof, and that the original Permit to clear, No. 211 of 1887, has been destroyed:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application the new document of title applied for will, subject to the provisions of the said Section 13, be granted.

21st December, 1900.

E. S. HOSE,
Acting Collector of Land Revenue.

MATANG.

No. 25.—Application having been made to the Collector of Land Revenue, at Matang, by Chuah Liew of Selinsing, for an extract from the Mukim Register for land held under Mukim Register No. 57, situated at Selinsing, in the district of Matang, on the ground that Chuah Liew is the registered owner thereof and that the original Extract from the Mukim Register No. 57, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue, for refusing these applications the new titles applied for will, subject to the provisions of the said Section 13, be granted.

4th January, 1901

R. CLAYTON,
Acting Collector of Land Revenue.

KUALA KANGSAR.

No. 83.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Raja Homza bin Rajah Ibrahim of Pachat in Senggang, for a new document of title for land situated in the mukim of Senggang, in the district of Kuala Kangsar, and described in Permit No. 79 of 1893, on the ground that Raja Hamza bin Raja Ibrahim is the registered owner thereof, and that the original Permit No. 79 of 1893, whereby the land was demised to him, has been lost:

No. 84.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Mastan of Penang (Applicant under Order in Council No. 3 of 1893) for a new document of title for land situated in the mukim of Lubok Merbau, in the district of Kuala Kangsar, and described in Permit No. 707 of 1891, on the ground that Muhammad Salleh is the registered owner thereof, and that the original Permit No. 707 of 1891, whereby the land was demised to Muhammad Salleh, has been lost:

No. 85.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Anjang Teksha binti Itam Tokoh of Chegar Galah, for new document of title for lands situated in the mukim of Chegar Galah, in the district of Kuala Kangsar, and described in Permit Nos. 3,198 of 1886 and 924 of 1890, on the ground that Anjang Teksah binti Itam Tokoh has become the purchaser at an auction sale, and that the said original permits are said to be with Itam Amin whose whereabouts are not known:

No. 86.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Tejah binti Lebai of Blanja, for a new document of title for land situated in the mukim of Blanja, in the district of Kuala Kangsar, described in Permit No. 6,821 of 1886, on the ground that Pandak Ribut is the registered owner thereof, and that the original Permit No. 6,821 of 1886, whereby the land was demised to him, has been lost:

31st January, 1901.

No. 54.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Rastam bin Muhammad of Saiong, for a new document of title for land described in Extract No. 530, and situated in the mukim of Saiong, on the ground that Si Abul bin Muhammad is the registered owner thereof, and that the original Extract No. 530, whereby the land was demised to Si Abul bin Muhammad, has been lost:

No. 55.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Ma' Ali bin Kulup Ahmad of Yalang, for a new document of title for land described in Permit No. 388 of 1887, and situated in the mukim of Saiong, on the ground that he is the registered owner thereof, and that the original Permit No. 388 of 1887, whereby the land was demised to him, has been lost:

No. 56.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Mabob bin Anjang Ayan of Kota Lama Kanan, for a new document of title for land described in Permit No. 279 of 1890, and situated in the mukim of Kota Lama Kanan, on the ground that Muhammad Amin bin Anjang Ayan is the registered owner thereof, and that the original Permit No. 279 of 1890, whereby the land was demised to Muhammad Amin bin Anjang Ayan, has been lost:

18th January, 1901.

No. 822.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Anjang Omar bin Pandak Serain of Kampong Buaia, for a new document of title for land situated in the mukim of Kampong Buaia, on the ground that he is the registered owner thereof, and that the original Permit No. 4,915 of 1886, whereby the land was demised to him, has been lost

No. 823.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Lam bin Syed Omar of Chigar Gala, for a new document of title for land situated in the mukim of Kampong Buaia, on the ground that he is the registered owner thereof, and that the original Permit No. 501 of 1892, whereby the land was demised to him, has been lost:

No. 824.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Samat bin Alang Gendek of Saiong, for a new document of title for land situated in the mukim of Saiong, on the ground that he is the registered owner thereof, and that the original Permit No. 5,836 of 1886, whereby the land was demised to him, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

F. ROBERTSON,

23rd November, 1900.

Acting Collector of Land Revenue.

KINTA.

NOTICE OF FORFEITURE OF TITLE FOR DEFAULT IN RESPECT OF CONDITIONS.

No. 118.—To Bakar bin Ngah Ali and all persons interested in agreement for Mining Lease, Kinta, No. 467.

Take notice that whereas you have for nine years failed to pay the rent reserved by agreement for Mining Lease No. 467, registered in your name and more particularly described in the schedule hereto, it is the intention of the Government to cancel the said title in default of good cause shewn to the contrary within three months from the date of publication of this notice in the *Gazette*.

SCHEDULE.

Title—Agreement for Mining Lease No. 467. Owner—Bakar bin Ngah Ali. Mukim—Ulu Kinta. Locality—Anak Ayer Sampah. Area—5 acres.

15th February, 1901.

No. 872.—To Che Taun bin Hoosain:

Take notice that whereas you have for six years failed to pay the rent reserved by agreement for Agricultural Lease No. 3,086, registered in your name and more particularly described in the schedule hereto, it is the intention of the Government to cancel the said title in default of good cause shewn to the contrary within three months from the date of publication of this notice.

SCHEDULE.

Title—Agreement for Agricultural Lease No. 3,086. *Owner*—Che Taun bin Hoosain. *Mukim*—Sungei Trap. *Locality*—Near bridle-path, from Batu Gajah to Gopeng. *Area*—1 acre and 13 poles.

7th December, 1900.

NOTICES UNDER SECTION 11 OF THE LAND ENACTMENT, 1897.

No. 27.—It is hereby notified that Busuk Uso, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 724, of the Kinta District, now surveyed as Plan No. 1,689, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$8.91, being cost of survey of the said land:

No. 28.—It is hereby notified that Aman bin Girun, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 723, of the Kinta District, now surveyed as Plan No. 1,687, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$12.04, being cost of survey of the said land:

Failure to comply with the terms of these notices will render the said Agreements for Agricultural Leases liable to cancellation.

4th January, 1901.

NOTICE TO TAKE OUT LEASE.

No. 871.—To Floriano Fernandez:

Take notice that you are hereby commanded and required to attend, either personally or by your duly appointed agent, at the Land Office at Batu Gajah, within three months from the date of publication of this notice, and accept Mining Lease, Plan No. 5,377, which has been prepared in pursuance of your Application No. 82/1895. In default of your so attending you will be liable to the penalties provided by Section 105 of the "Mining Enactment, 1899," and your application will be liable to cancellation, and the said lease will be returned to the Resident for cancellation.

Dated at the Land Office at Batu Gajah this 7th day of December, 1900.

No. 26.—It is hereby notified that Ahmad bin Sabtu, or other persons claiming any interest in Plan No. 1,690, comprising 29 poles of land in the mukim of Ulu Kinta, is hereby required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, there to establish his claim, in default whereof such land will be deemed to be State land and will be dealt with accordingly.

4th January, 1901.

No. 29.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Sung Yen of Ipoh, for a new Mining Lease of land situated at Ulu Johar, of the Kinta District, on the ground that the said Sung Yen is the registered owner thereof, and that the Original Mining Lease No. 1,776 has been destroyed by fire:

No. 30.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin of Kwala Dipang, for a title for land situated at Kwala Dipang, of the Kinta District, on the ground that the said Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin are the registered owners thereof, and that the Original Agreement for Agricultural Lease No. 1,993 has been lost:

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Government Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections be granted.

4th January, 1901.

No. 868.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Moh Tamat bin Muhammad Said, Ahmad bin Taib, attorney for Aiyah bin Mamat, Indut bin Tambah, Haji Muhammad Aris bin Majit and Kuah Gek, administratrix for the estate of the late Wee Li Tuan, for a mining lease of land situated at Kampar, of the Kinta district, on the ground that the said Moh Tamat bin Muhammad Said, Aiyah bin Mamat, Indut bin Tambah, Haji Muhammad Aris bin Majit and Wee Li Tuan, are the registered owners thereof, and that the original agreement for Mining Lease No. 861, has been lost:

No. 869.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Haji Talib bin Haji Ibrahim, administrator of the estate for the late Haji Ibrahim, for a mining lease of land situated at Ipoh, of the Kinta district, on the ground that the said Haji Ibrahim bin Ngah Suni is the registered owner thereof, and that the original agreement for Mining Lease No. 540, has been lost:

No. 870.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by A. Grant Mackie for the issue to Siti Trikah binti Saripada of two new titles to land situated at Batu Gajah, of the Kinta district, on the ground that the said Siti Trikah bin Saripada is the registered owner thereof, and that the original agreements for Town Leases Nos. 431 and 432, have been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the above mentioned titles will be cancelled, and the new titles applied for will, subject to the provisions of the said Section 13, be granted.

7th December, 1900.

TAIPING, 15th January, 1901.

P. D. DONALD,
for Resident Engineer for Railways.

MINUTES OF THE PROCEEDINGS AT A MEETING OF MEMBERS OF THE
PAHANG CIVIL SERVICE, HELD AT THE CLUB-HOUSE, KUALA LIPIS,
AT 5 P.M. ON MONDAY, THE 21st OF JANUARY, 1901.

Present 34 Members of the Pahang Service, being all those now in Kuala Lipis.

Mr. Barnes takes the chair and reads to the meeting telegrams of sympathy sent by Officers in Raub.

Mr. Barnes proposes the following resolution :—

"That in the name of the whole Pahang Civil Service we desire to place on record an expression of our deep sorrow at the sad death of our late Resident, Mr. Arthur Butler.

We believe that in Mr. Butler the State has lost a Resident peculiarly fitted by special knowledge and untiring devotion to duty, for the difficult post he filled and it is with added sorrow that we think that his life has been cut short before he could see the fruits of the arduous work to which he sacrificed himself.

As fellow Civil servants who worked under him we feel that in Arthur Butler we have lost a chief whom we can never forget. In his strong sense of justice and absolute fairness we had entire confidence; his marked unselfishness and great goodness of heart endeared him to us all.

To Mr. Butler's Family we offer our respectful and deepest sympathy, judging, as we do, their loss by that which we have ourselves sustained."

Mr. Sumner, as the oldest Pahang Officer present, seconds the resolution, which is supported by Mr. Mills and by Mr. De Vos who speaks in the name of the Clerical branch of the service.

The resolution is passed unanimously.

Mr. Stafford moves and Dr. Gimlette seconds the two following resolutions :—

- (i). That the Chairman be requested to forward a copy of the resolution to Mr. Butler's Family.
- (ii). That the Chairman be requested to ask Mr. Butler's Family to allow the erection of a monument over his grave at the expense of his friends in the service.

The resolutions are passed unanimously.

The proceedings close with a vote of thanks to the chair, proposed by Mr. Stafford and seconded by Mr. De Vos.

(Signed) WARREN D. BARNES,
Chairman of the Meeting.

FEDERAL.

APPOINTMENT.

Captain J. C. Ravis, 4th Battalion, Yorkshire Regiment, has been appointed Wing Officer in the Malay States Guides, with effect from the 1st February, 1901, the day on which he arrived in Perak and assumed duties.

COUNCIL OF STATE, KUALA KANGSAR.

FRIDAY, 24TH JANUARY, 1901.

PRESENT :

HIS HIGHNESS IDRIS MERSID-EL-AÄZAM SHAH, K.C.M.G., Sultan of Perak,
President.

The Acting British Resident, COL. R. S. F. WALKER, C.M.G.

The Secretary to Government, A. R. VENNING, Esq.

His Highness Raja Muda, RAJA MUSA.

The Raja di Hilir, RAJA ABDUL JALIL.

The Orang Kaya Temenggong, WAN HASSAN.

The Orang Kaya Mentri, WAN MUHAMMAD ISA.

The Orang Kaya Kaya Laksamana, HUSSEIN.

The Orang Kaya Kaya Panglima Kinta, USUF.

The Datoh Muda, Abdul Wahab.

CHUNG THYE PHIN.

HIAH SWEE LEE.

ABSENT :

The Datoh Sri Adika Raja, WAN MUHAMMAD SALEH.

The Datoh Sri Maharaja Lela, ABUBAKAR.

LEONG FI.

The Council re-assembles at 11 a.m.

1. A letter is read from the Acting Resident-General stating that their Royal Highnesses the Duke and Duchess of York, may probably touch at Singapore on their way to the Australian Colonies. It is decided that an address of welcome from His Highness the Sultan in Council be presented either solely or in conjunction with the other States of the Federation.

2. The notes of evidence in the case of Thiagarayan, tried for murder and sentenced to death by the Acting Judicial Commissioner, are considered. After some discussion the Council confirms the sentence of death, and orders the execution to take place at the Central Prison, on Thursday, 28th February next.

3. The notes of evidence in the case of Pall Singh, also sentenced to death by the Acting Judicial Commissioner, are read together with a petition on his behalf from the Officers and men of the Malay States Guides. The Council commutes sentence of death to one of imprisonment for life.

4. An application for political pension from Anjang Abdullah, son of the late Datoh Sagor, is read, and consideration deferred until the next Meeting of Council.

5. The Council approves the appointment of Haji Ahmad Nasib bin Haji Muhammad Yasin as Assistant Penghulu, Bukit Gantang, on a salary of \$180 per annum, with effect from the 25th January, 1901.

6. A letter is read from the Acting Collector of Land Revenue, Larut, recommending the appointment of an Assistant Penghulu for the Mukim of Gunong Semangol. The Council, after due consideration, is of opinion that provision should be made at once for the appointment on \$180 per annum.

7. The Acting Resident lays on the table a letter from the District Magistrate, Kinta, reporting that Johani, Assistant Penghulu of Teja, has absented himself without leave since 29th December last, and forwarding certain recommendations to fill the post. The Council decides that this appointment should be offered to one Omar, a Clerk to the late Penghulu of Teja.

8. The following conversions of Agricultural to Mining Titles are approved by Council.

BOUNDARIES.

KUALA KANGSAR, SUNGEI SIPUT AND PADANG RENGAS.

No. 125.—In exercise of the powers conferred upon him by Section 10 of the Land Enactment, No. 17 of 1897, the Acting Resident has been pleased to define the boundaries of the township of Kuala Kangsar, and the villages of Sungei Siput and Padang Rengas, as follows:—

KUALA KANGSAR.

Description.—Commencing from the south-east stone of lot No. 391, the boundary runs along the southern boundary of lot No. 391; thence along Jalan Patani to its junction with Jalan Kampong Kling; thence in a westerly direction along Jalan Kampong Kling to its junction with Yeang Wah road; thence along Yeang Wah road in a southerly direction till it meets with Tickell road; thence in a south-westerly direction along Tickell Road to its junction with the Taiping—Kuala Kangsar main trunk road; thence in a south-easterly direction along the Taiping—Kuala Kangsar main trunk road to its junction with Jalan Hospital; thence in a south-westerly direction, along a cart track running through lot Nos. 104 and 103, to the Kangsar river; thence along the Kangsar river to its mouth; thence along the Perak river to the point of commencement.

SUNGEI SIPUT.

Description.—Commencing from the south-west stone of Sungei Siput lot No. 1, the boundary runs along the western boundary of the said lot No. 1, to its north-west stone; thence along the northern boundaries of Sungei Siput lots Nos. 1, 3 and 5; thence at an angle of 90 degrees to a point on the western boundary of Kamuning estate, 2 chains north of the boundary stone common to Sungei Siput lots Nos. 5 and 7; thence in a south-easterly direction to the north-west boundary stone of Agricultural lot No. 478; thence along the northern boundaries of Agricultural lots Nos. 478, 471 b, 471 a, 471 and 469, to the north-east stone of the said lot No. 469, at its junction with the western boundary of Mining lot

No. 114; thence along in a south-westerly direction to a boundary stone on the western boundary of the said Mining lot No. 114; thence in a south-easterly direction to another boundary stone on the western boundary of Mining lot No. 114; thence almost due south to another stone on the said western boundary of Mining lot No. 114, at its junction with the main trunk road between Kuala Kangsar and Ipoh; thence in a south-westerly direction across the said main trunk road; thence along the western boundary of the said lot No. 114 to a stone at its junction with the Railway reserve; thence along the northern boundary of the railway reserve, to its north-east boundary stone; thence in a south-westerly direction along the eastern boundary of the said Railway reserve, to its south-east stone; thence in a westerly direction along its southern boundary; thence in a northerly direction to a stone at the junction of the said Railway reserve with Agricultural lot No. 485; thence along the eastern boundary of the said lot No. 485 to a stone at its junction with the Kuala Kangsar—Ipoh main trunk road; thence across the road to the stone at the south-west corner of Sungei Siput lot No. 1.

PADANG RENGAS.

Description.—Commencing from the south-west stone of Padang Rengas lot No. 1, the boundary runs along the western boundary of lot No. 1 to its north-west stone; thence due east along the northern boundaries of Padang Rengas lots Nos. 1 to 50 to the north-west stone of Padang Rengas lot No. 50; thence south to the south-east stone of Padang Rengas lot No. 50; thence across the Taiping—Kuala Kangsar main trunk road to the north-east boundary stone of Padang Rengas lot No. 100; thence along the eastern boundary of Padang Rengas lot No. 100 to its south-east stone; thence 60 feet to a stone due south; thence in a due west direction along the northern boundaries of lots Nos. 131*a*, 130*a* and 129*a* to the north-west boundary stone of lot No. 129*a*; thence north-west at an angle of $310^{\circ} 55'$ to the south-west stone of Padang Rengas lot No. 71; thence due west along the southern boundaries of Padang Rengas lots Nos. 70 to 61 to the south-east stone of Padang Rengas lot No. 60; thence south-west at an angle of $230^{\circ} 57'$ to the north-east stone of lot No. 127*a*; thence to a stone distant 100 feet due west; thence due north to the north-west stone of Padang Rengas lot No. 51, and thence across the main trunk road to the south-west stone of Padang Rengas lot No. 1 (or point of commencement).

26th February, 1901.

NOTICE UNDER SECTION 16 (i) OF THE MINING ENACTMENT, 1899.

FORFEITURE OF MINING LEASES.

No. 126.—In accordance with Sections 15 and 16 of the Mining Enactment, 1899, and in pursuance of Notification No. 785, published in the *Gazette* of 9th November, 1900, the Leases described in the schedule hereto are hereby declared to be forfeited, the Lessees having failed to shew cause to the contrary.

R. S. F. WALKER,
Acting British Resident.

FEDERATED MALAY STATES.

STATE OF PERAK.

“REGISTRATION OF TITLES ENACTMENT, 1897.”

No. 127.—Under the provisions of Section 69, Sub-section (ii), Clause (c), the Acting Resident has been pleased to specially appoint every Collector of Land Revenue in the States of Selangor, Negri Sembilan and Pahang, to be a Qualified Witness for the purposes of the above-mentioned Enactment.

26th February, 1901.

AGREEMENT WITH THE BRITISH INDIA STEAM
NAVIGATION COMPANY, LIMITED, FOR A MAIL AND
COOLIE SERVICE VIA NEGAPATAM.

No. 128.—AN AGREEMENT, made the twenty-second day of January, 1901, between the GOVERNMENT OF THE STRAITS SETTLEMENTS (hereinafter called “the Government”) of the one part, and the BRITISH INDIA STEAM NAVIGATION COMPANY, LIMITED, (hereinafter called “the Company”) of the other part: Whereby it is agreed by and between the Government and the Company as follows:—

1. This agreement shall take the place of the following existing agreements between the Company and the Government and the Company and the Federated Malay States ;

- (a). The fortnightly mail service from Rangoon to Penang.
- (b). The carriage of Statute Immigrants from Negapatam to Penang.
- (c). The carriage of Coolies for the Government of the Federated Malay States.
- (d). The carriage of Coolies for the Johore Railways, etc.

It shall commence with the conveyance of the Outward P. & O. mail, due in Bombay on the 26th of January, 1901, and the first Homeward Mail to be carried under it shall leave Penang on Thursday the 31st of January, 1901. The date of the commencement of this agreement shall be deemed to be the 29th of January, the date on which the outward mail arriving at Bombay on the 26th of January is timed, under Table A annexed, to leave Negapatam.

2. On the conclusion of 12 months from the commencement of this agreement either party to it shall have the option, to give six months' notice of intention to terminate it, and on the expiration of the said period of six months the agreement shall, *ipso facto*, terminate. If no such notice is then given the contract will continue for 3 years.

3. During the continuance of this agreement the Company shall provide and maintain a fortnightly service of steamers between Madras, Negapatam, Penang and Singapore connecting with the Outward and Homeward Europe mails arriving at and leaving Bombay by the Peninsular and Oriental Steam Navigation Company's steamers in the alternate week to that in which the mail-steamers of that line run to China. The said service of the Company to be timed to leave and arrive at the different

ports as set out in Table A annexed to this agreement. Should an alteration in the Peninsular and Oriental Steam Navigation Company's Time Table render the maintenance of this service impossible with two steamers, the Company shall be at liberty to terminate this agreement unless a higher subsidy can be arranged.

4. The steamers of this service shall carry the mails from Negapatam to Penang and from Penang to Negapatam or at the Company's option to Madras (but always so that the mails are delivered in time to be despatched by the train carrying the Indian mails to Bombay), at a speed averaging not less than 10 nautical miles an hour. Should there be any default in the performance of this stipulation other than in consequence of *force majeure* the Company shall pay to the Government a penalty not exceeding four hundred dollars (\$400) in the event of the steamer from Penang not arriving at Negapatam or Madras in time to allow of the mails being despatched by the mail train to Bombay and on the outward trips of ten dollars (\$10) per hour for each hour by which the mails are delivered in Penang after their due time for any period less than twelve hours of delay and of \$10 per hour or of \$100 for each subsequent completed period of six hours in excess of twelve hours late delivery subject to a maximum penalty of \$400.

5. The steamers of this service shall be exempt as mail-steamers from the operation of the Sunday Labour Ordinance No. 6 of 1892.

6. So long as the Government can offer for conveyance in each Calendar month by the Company's steamers from India to the Straits not less than 1,200 coolies (inclusive of all Statute Immigrants, for whomsoever destined, as well as all immigrants with Government tickets, and also all those whose passages may be paid or assisted by Government, and this description shall include all such coolies engaged to labour in the Federated Malay States or Johore) the Company shall provide an extra service of steamers for the weeks alternate to those in which the aforementioned mail-contract steamers run.

7. If in any month the total number of such coolies be less than 1,200 the Company shall be at liberty to give notice to the Government that they intend to withdraw the extra steamers unless the Government guarantee the said full number of 1,200 in the following month, and if the Government shall fail to give the said guarantee within ten days of the giving of such notice by the Company, the Company shall be at liberty to withdraw the said extra steamers. If during the month that the extra steamer continues to run under the Government's guarantee there shall be less than 1,200 coolies, the Company may at the end of that month withdraw the extra steamer, unless the Government renews the guarantee for the following month, and so on from month to month.

Whenever the extra steamer has been withdrawn under this clause, it must be put on the line again as soon as the Government offers a guarantee, fifteen days' notice being given to the Company.

It must also be put on again, whenever the number of such coolies actually carried or offered for carriage in one calendar month amounts to 1,200.

8. The extra steamers of such additional service shall run as set out in Table B, the exemption from the provisions of the Sunday Labour Ordinance shall not apply to them and the Company is at liberty to vary

the] dates of [their departure and arrival so that the variation from table *B* do not exceed two days and the total time occupied in the voyage be not greater than that set out in the said table.

9. The Company's steamers shall leave Negapatam every Tuesday, those carrying the mails from Europe at 6 A.M. or so soon after as the mails are on board and the extra steamers (subject to the margin allowed by Clause 8) also on Tuesday at 6 P.M. The Superintendent of the Colonial Government Dépôt at Negapatam shall have the option of delaying a mail steamer for a period not exceeding twenty-four hours to wait for the mails or of expediting its departure by a period not exceeding twelve hours should the European mail arrive before the time fixed for the steamers sailing. The aforesaid hours may be altered hereafter by agreement between the contracting parties. Postponements of departure are to be made on written notice to be given at Negapatam.

10. All Government coolies shall be embarked on Monday afternoon when travelling by the mail-boats and in the forenoon of the day fixed for the departure of the steamer when travelling by the extra steamers.

11. During the continuance of this agreement the Government shall pay to the Company a subsidy at the rate of \$50,000 per annum, payable quarterly at the end of each quarter, and the Company shall convey all mails whether from Europe or elsewhere, free of bounty, and the Government Inspectors and Officers of the Indian Immigration Department, travelling on duty, free of charge upon all its steamers sailing under this agreement.

12. The Government will provide adequate quarantine facilities at Penang so that in case of any sickness among the passengers they may be landed at Penang without the Company's steamers being detained to the detriment of the regularity of the service.

13. The Government contracts during the continuance of this agreement to take annually ten thousand tickets for adults for coolies from Negapatam or Madras or the ports intermediate between the two, to Penang or Singapore, with usual reductions for minors and upon the usual conditions, the voyage to begin and end on board ship. Should notice under Clause 2 be given by the Government the number of tickets to be taken by the Government for the six months during which the agreement continues, shall be 5,000, but if the said notice be given by the Company this clause of the agreement lapses.

14. The passage-money payable for a ticket at the rate for an adult under the last preceding clause shall be as follows:—eleven rupees for a passage from Negapatam to Penang, thirteen rupees for a passage from Madras to Penang, sixteen rupees for a passage from Negapatam to Singapore, and eighteen rupees for a passage from Madras to Singapore. The above rates, to include food during the voyage, to be supplied by the Company. In the event of the rate for ordinary passengers falling as low as or below the rates mentioned in this clause (owing to any cause whatsoever) it is understood that the Government are to pay the rates above stated and that they are bound to send all coolies by the Company's contract steamers.

15. The Company shall supply tickets to the Government at the rates mentioned in the last preceding clause for the first ten thousand, and shall supply additional tickets at the following rates if required by the Government:—

For every ticket above ten thousand, but not exceeding fifteen thousand, one rupee in addition to the rate mentioned in Clause 14;

For every ticket in excess of fifteen thousand, but not exceeding twenty thousand, two rupees in addition to the rate mentioned in Clause 14;

For every ticket in excess of twenty thousand, three rupees in addition to the rate mentioned in Clause 14.

Provided always that in the event of the rate for ordinary passengers, owing to outside competition or for any other reason whatsoever, falling as low as or lower than the rates charged in Clause 14, no excess rate shall be charged to the Government by the Company whatever the total number of tickets taken and the Government undertakes on its part to send all Government coolies by the Company's steamers.

16. The passage-tickets shall be provided by the Company and supplied to the Superintendent of the Depôt and shall be paid for in cash on delivery of the tickets. The tickets shall be numbered consecutively and shall be in counterfoil.

17. The Superintendent of the Depôt shall not use more than 450 tickets for any one steamer unless he shall give the Company's Agent at Negapatam (or at any other port at which the coolies are shipped) at least three full days' notice of his intention to require a larger number which shall not exceed 600 in all or one-half of the total number of passengers (whichever be the greater) for which the steamer is licensed. Twenty-four hours before the time fixed for the departure of the steamer the Superintendent of the Depôt shall finally declare the number of tickets that he will require for that sailing and after such declaration no additional tickets can be claimed.

Passages so declared shall be paid for even if not used.

Time Table A.

Mail Steamers (Fortnightly).

Mail contract.	{	Leave Singapore, Tuesday evening
		Leave Penang, Thursday evening
		Arrive Madras, Wednesday morning
		Leave Madras, Thursday evening
		Leave Coast ports, Friday & Saturday

No. 135.—The following tender has been accepted by Government :—

Galvanized Tanks for Floating Jetty,	} Messrs. Allan & Irving, Penang.
Kuala Kurau	

27th February, 1901.

DEPARTMENTAL NOTICE.

SALE OF OLD BUILDING TIMBER AT TELUK ANSON.

No. 136.—There will be sold by public Auction, at 12.30 p.m. on Monday, 18th March, 1901, a quantity of old building Timber, now lying at the site of new Station, Teluk Anson, in lots to suit purchasers.

1st March, 1901.

LAND OFFICE NOTICES.

LARUT.

No. 911.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Haji Muhammad bin Abdullah of Trong, for a new document of title for land situated at Sungei Lidin, in the mukim of Tupai, on the ground that Haji Muhammad bin Abdullah is the registered owner thereof, and that the original Permit to clear, No. 211 of 1887, has been destroyed :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application the new document of title applied for will, subject to the provisions of the said Section 13, be granted.

21st December, 1900.

E. S. HOSE,
Acting Collector of Land Revenue.

MATANG.

No. 25.—Application having been made to the Collector of Land Revenue, at Matang, by Chuah Liew of Selinsing, for an extract from the Mukim Register for land held under Mukim Register No. 57, situated at Selinsing, in the district of Matang, on the ground that Chuah Liew is the registered owner thereof and that the original Extract from the Mukim Register No. 57, has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue, for refusing these applications the new titles applied for will, subject to the provisions of the said Section 13, be granted.

4th January, 1901

R. CLAYTON,
Acting Collector of Land Revenue.

KUALA KANGSAR.

No. 83.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Raja Homza bin Rajah Ibrahim of Pachat in Senggang, for a new document of title for land situated in the mukim of Senggang, in the district of Kuala Kangsar, and described in Permit No. 79 of 1893, on the ground that Raja Hamza bin Raja Ibrahim is the registered owner thereof, and that the original Permit No. 79 of 1893, whereby the land was demised to him, has been lost :

No. 84.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Mastan of Penang (Applicant under Order in Council No. 3 of 1893) for a new document of title for land situated in the mukim of Lubok Merbau, in the district of Kuala Kangsar, and described in Permit No. 707 of 1891, on the ground that Muhammad Salleh is the registered owner thereof, and that the original Permit No. 707 of 1891, whereby the land was demised to Muhammad Salleh, has been lost :

No. 85.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Anjang Teksha binti Itam Tokoh of Chegar Galah, for new document of title for lands situated in the mukim of Chegar Galah, in the district of Kuala Kangsar, and described in Permit Nos. 3,198 of 1886 and 924 of 1890, on the ground that Anjang Teksah binti Itam Tokoh has become the purchaser at an auction sale, and that the said original permits are said to be with Itam Amin whose whereabouts are not known :

No. 86.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Tejah binti Lebai of Blanja, for a new document of title for land situated in the mukim of Blanja, in the district of Kuala Kangsar, described in Permit No. 6,821 of 1886, on the ground that Pandak Ribut is the registered owner thereof, and that the original Permit No. 6,821 of 1886, whereby the land was demised to him, has been lost :

31st January, 1901.

No. 54.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Rastam bin Muhammad of Saiong, for a new document of title for land described in Extract No. 530, and situated in the mukim of Saiong, on the ground that Si Abul bin Muhammad is the registered owner thereof, and that the original Extract No. 530, whereby the land was demised to Si Abul bin Muhammad, has been lost :

No. 55.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Ma' Ali bin Kulup Ahmad of Yalang, for a new document of title for land described in Permit No. 388 of 1887, and situated in the mukim of Saiong, on the ground that he is the registered owner thereof, and that the original Permit No. 388 of 1887, whereby the land was demised to him, has been lost :

No. 56.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Mabob bin Anjang Ayan of Kota Lama Kanan, for a new document of title for land described in Permit No. 279 of 1890, and situated in the mukim of Kota Lama Kanan, on the ground that Muhammad Amin bin Anjang Ayan is the registered owner thereof, and that the original Permit No. 279 of 1890, whereby the land was demised to Muhammad Amin bin Anjang Ayan, has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

18th January, 1901.

F. ROBERTSON,
Acting Collector of Land Revenue.

KINTA.

NOTICE OF FORFEITURE OF TITLE FOR DEFAULT IN RESPECT OF CONDITIONS.

No. 118.—To Bakar bin Ngah Ali and all persons interested in agreement for Mining Lease, Kinta. No. 467.

Take notice that whereas you have for nine years failed to pay the rent reserved by agreement for Mining Lease No. 467, registered in your name and more particularly described in the schedule hereto, it is the intention of the Government to cancel the said title in default of good cause shewn to the contrary within three months from the date of publication of this notice in the *Gazette*.

SCHEDULE.

Title—Agreement for Mining Lease No. 467. *Owner*—Bakar bin Ngah Ali. *Mukim*—Ulu Kinta. *Locality*—Anak Ayer Sampah. *Area*—5 acres.

15th February, 1901.

No. 872.—To Che Taun bin Hoosain:

Take notice that whereas you have for six years failed to pay the rent reserved by agreement for Agricultural Lease No. 3,086, registered in your name and more particularly described in the schedule hereto, it is the intention of the Government to cancel the said title in default of good cause shewn to the contrary within three months from the date of publication of this notice.

SCHEDULE.

Title—Agreement for Agricultural Lease No. 3,086. *Owner*—Che Taun bin Hoosain. *Mukim*—Sungei Trap. *Locality*—Near bridle-path, from Batu Gajah to Gopeng. *Area*—1 acre and 13 poles.

7th December, 1900.

NOTICES UNDER SECTION 11 OF THE LAND ENACTMENT, 1897.

No. 27.—It is hereby notified that Busuk Uso, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 724, of the Kinta District, now surveyed as Plan No. 1,689, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$8.91, being cost of survey of the said land:

No. 28.—It is hereby notified that Aman bin Girun, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 723, of the Kinta District, now surveyed as Plan No. 1,687, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$12.04, being cost of survey of the said land:

Failure to comply with the terms of these notices will render the said Agreements for Agricultural Leases liable to cancellation.

4th January, 1901.

NOTICE TO TAKE OUT LEASE.

No. 871.—To Floriano Fernandez:

Take notice that you are hereby commanded and required to attend, either personally or by your duly appointed agent, at the Land Office at Batu Gajah, within three months from the date of publication of this notice, and accept Mining Lease, Plan No. 5,377, which has

been prepared in pursuance of your Application No. 82/1895. In default of your so attending you will be liable to the penalties provided by Section 105 of the "Mining Enactment, 1899," and your application will be liable to cancellation, and the said lease will be returned to the Resident for cancellation.

Dated at the Land Office at Batu Gajah this 7th day of December, 1900.

No. 26.—It is hereby notified that Ahmad bin Sabtu, or other persons claiming any interest in Plan No. 1,690, comprising 29 poles of land in the mukim of Ulu Kinta, is hereby required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, there to establish his claim, in default whereof such land will be deemed to be State land and will be dealt with accordingly.

4th January, 1901.

No. 29.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Sung Yen of Ipoh, for a new Mining Lease of land situated at Ulu Johar, of the Kinta District, on the ground that the said Sung Yen is the registered owner thereof, and that the Original Mining Lease No. 1,776 has been destroyed by fire:

No. 30.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin of Kwala Dipang, for a title for land situated at Kwala Dipang, of the Kinta District, on the ground that the said Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin are the registered owners thereof, and that the Original Agreement for Agricultural Lease No. 1,993 has been lost:

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Government Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections be granted.

4th January, 1901.

No. 868.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Moh Tamat bin Muhammad Said, Ahmad bin Taib, attorney for Aiyah bin Mamat, Indut bin Tambah, Haji Muhammad Aris bin Majit and Kuah Gek, administratrix for the estate of the late Wee Li Tuan, for a mining lease of land situated at Kampar, of the Kinta district, on the ground that the said Moh Tamat bin Muhammad Said, Aiyah bin Mamat, Indut bin Tambah, Haji Muhammad Aris bin Majit and Wee Li Tuan, are the registered owners thereof, and that the original agreement for Mining Lease No. 861, has been lost:

No. 869.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Haji Talib bin Haji Ibrahim, administrator of the estate for the late Haji Ibrahim, for a mining lease of land situated at Ipoh, of the Kinta district, on the ground that the said Haji Ibrahim bin Ngah Suni is the registered owner thereof, and that the original agreement for Mining Lease No. 540, has been lost:

No. 870.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by A. Grant Mackie for the issue to Siti Trikah binti Saripada of two new titles to land situated at Batu Gajah, of the Kinta district, on the ground that the said Siti Trikah bin Saripada is the registered owner thereof, and that the original agreements for Town Leases Nos. 431 and 432, have been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the above mentioned titles will be cancelled, and the new titles applied for will, subject to the provisions of the said Section 13, be granted.

7th December, 1900.

F. BELFIELD,
Collector of Land Revenue.

REPORT OF THE REGISTRAR OF COMPANIES FOR THE YEAR 1900.

During the year 1900 three Companies were registered in the Federated Malay States, as compared with one in 1899, and one in 1898.

2. The particulars of these Companies are as follows :—

(a). The Seremban Horse Coach Company, Limited, with a capital of \$2,500, divided into 25 shares of \$100 each, formed for the purpose of carrying mails and passengers.

(b). The Sempan Mining Company, Limited, with a capital of \$50,000, divided into 5,000 shares of \$10 each, formed for the purpose of acquiring certain tin mining rights in the Sempan watershed, Pahang, and for the purpose of developing and working the same.

(c). Chan Sow Lin and Company, Limited, with a capital of \$24,000, divided into 60 shares of \$400 each, formed for the purpose of carrying on the ordinary business of an Engineering firm in Kuala Lumpur.

3. The fees collected in the Registry during the year amount to \$152.50.

4. There have been no prosecutions for contravention of the provisions of the Enactment.

(Signed) M. H. WHITLEY,
Acting Registrar of Companies.

EXTRAORDINARY.

PUBLISHED BY AUTHORITY.

No. 12.] TAIPING, SATURDAY, MARCH 9, 1901. [VOL. XIV.

THE following Notification is, by Command of the Acting Resident,
published for general information.

A. R. VENNING,
Secretary to Government.

PROCLAMATION.

No. 140.—Whereas a Proclamation was issued on 21st day of February, 1901, under Notification No. 120, to the effect that a case of Bubonic Plague had occurred in the District of Kinta, and ordering that the provisions of the Venice Plague Convention should be enforced from that date, so far as they relate to the compulsory Medical inspection of all persons taking passage on board ship and the prohibition to embark of every person presenting symptoms of plague;

And whereas no further cases of Bubonic Plague have occurred since that date;

Now it is hereby ordered that the provisions of the Venice Plague Convention shall cease to be enforced from the date hereof.

LAW EXAMINATION.

No. 155.—An Examination in Law will be held in Taiping, on Wednesday, the 10th April, and the following days.

All officers who may wish to present themselves for examination should send in their names, through the Head of their Department, to the Secretary to Government, before the 27th March.

7th March, 1901.

MALAY EXAMINATION.

No. 156.—An Examination in Malay will be held in Taiping, on Monday and Tuesday, May 13th and 14th.

All officers who are in receipt of Munshi Allowances from Government, and others who may wish to present themselves for examination, should send in their names, through the Head of their Department, to the Secretary to Government, before the 1st May, stating the Standard in which they wish to be examined.

7th March, 1901.

EXEMPTION UNDER THE "SOCIETIES ENACTMENT,
NO. 9 OF 1900."

No. 157.—It is hereby notified that the Taiping Recreation Club is, by order of the Acting Resident, exempted from registration under Section 2, Sub-section (c), of the "Societies Enactment, 1900."

8th March, 1901.

FEDERATED MALAY STATES.

STATE OF PERAK.

LIGHTS AND REGISTRATION OF SMALL SHIPPING ENACTMENT, 1899.

No. 158.—Rules, under Section 27 of the above-mentioned Enactment, made by the Acting Resident, with the approval of the Acting Resident-General, on the 8th day of January, 1900, and published in the *Gazette* of the 15th day of March, 1901:—

The following Rules have been made by the Acting Resident, with the approval of the Acting Resident-General, under Section 27 of Enactment No. 21 of 1899, and shall have effect from the date of their publication in the *Gazette*.

RULES FOR BOATS.

1. Every boat, plying for hire, or used as a cargo or fishing boat at any port, shall be registered and licensed as a passenger, cargo or fishing boat, as the case may be, in the manner hereinafter provided.

2. When any person desires his boat to be licensed, such boat shall be brought to such place as the Port Officer shall direct, and every boat, for which a licence is to be extended, shall also be brought there before the end of March in each year, to have a number issued for it and marked on it in such a manner as the Port Officer shall direct.

3. The Port Officer may, when he considers any boat unseaworthy or dangerous, cancel or suspend the licence of such boat, and such boat shall not ply for hire until the licence shall have been renewed, or the suspension removed by the Port Officer.

4. No boat other than those of the Port and Health Officers shall go alongside any vessel in the harbour until she is properly moored, except for the purpose of taking a line to the shore, and masters of vessels shall not allow boatmen to fasten on to the vessel before she comes to an anchorage.

5. No boat other than those of the Port and Health Officers shall make fast to, or go alongside, any vessel in a port, except for the purpose of taking a line to the shore, and no boatman, passenger, or other person shall board the same until such vessel shall have been inspected and passed by the Health Officer of the port.

6. It shall be the duty of the owner or headman of every licensed boat to keep the registered number of his boat, at all times, clean, clear and legible.

7. Every owner or headman of a licensed passenger boat shall, at all times when the boat is conveying passengers, have on board the full complement of crew as stated in his licence.

8. No licensed passenger boat shall carry more passengers than the number stated in the licence for such boat.

9. No boat shall be left at any landing place without a responsible man in charge.

10. No boat shall, after discharging its passengers or cargo, remain at the steps or alongside any of the jetties or landing places, or alongside a vessel in such manner as to obstruct such jetties or landing places or the ladder of such vessel.

11. The headman in charge of every licensed passenger boat is prohibited from carrying any article other than the passengers' personal luggage when he has passengers on board.

12. The owner or headman of every boat shall report to the Port Officer any accident to the passengers or crew of his boat; and shall take to the nearest Police Station or Customs Office every article left behind by any passenger.

13. Every passenger boat, when plying for hire or conveying passengers by night within the limits of the port, shall have ready at hand a lantern shewing a white light, which shall be exhibited in sufficient time to prevent a collision.

14. Any grievance or dispute that any passenger or boatman may have is to be referred to the Port Officer, or to a Magistrate, who will decide every such matter.

15. A table of fares, both for time and distance, which may be charged for the hire of passenger boats within port limits, shall be prepared by the Port Officer, and after being approved by the Resident, shall be exhibited in a conspicuous place or places near all frequented landing places. No person may charge any higher fares for the hire of passenger boats within port limits than are so authorised.

16. When any person desires to transfer his licensed boat, such boat shall be brought to such place as the Port Officer may direct to have such transfer registered.

17. All boats, carrying cargo of any description to any vessel in harbour, shall be examined by the port authorities after loading such cargo, and before proceeding alongside such vessel.

18. All boats, carrying cargo of any description from any vessel in harbour, shall be examined by the port authorities before landing such cargo or proceeding outside the limits of the port.

19. No person shall make fast any boat or raft to any buoy, beacon or other sea-mark belonging to Government.

20. Cargo boats, when anchored among shipping at night, must show a white light, six feet above the rail, of sufficient intensity to be visible at a distance of at least one mile.

21. No fishing boat shall carry any passenger or cargo, unless separately registered as a cargo or passenger boat, as the case may be.

NOTIFICATIONS UNDER SECTION 6 OF THE LAND ENACTMENT, 1897.

LAND OFFICE NOTICES.

LABUT.

No. 911.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Haji Muhammad bin Abdullah of Trong, for a new document of title for land situated at Sungei Lidiu, in the mukim of Tupai, on the ground that Haji Muhammad bin Abdullah is the registered owner thereof, and that the original Permit to clear, No. 211 of 1887, has been destroyed:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application the new document of title applied for will, subject to the provisions of the said Section 13, be granted.

E. S. HOSE,

21st December, 1900.

Acting Collector of Land Revenue.

MATANG.

No. 25.—Application having been made to the Collector of Land Revenue, at Matang, by Chuah Liew of Selinsing, for an extract from the Mukim Register for land held under Mukim Register No. 57, situated at Selinsing, in the district of Matang, on the ground that Chuah Liew is the registered owner thereof and that the original Extract from the Mukim Register No. 57, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue, for refusing these applications the new titles applied for will, subject to the provisions of the said Section 13, be granted.

R. CLAYTON,

4th January, 1901

Acting Collector of Land Revenue.

KUALA KANGSAR.

No. 83.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Raja Homza bin Rajah Ibrahim of Pachat in Senggang, for a new document of title for land situated in the mukim of Senggang, in the district of Kuala Kangsar, and described in Permit No. 79 of 1893, on the ground that Raja Hamza bin Raja Ibrahim is the registered owner thereof, and that the original Permit No. 79 of 1893, whereby the land was demised to him, has been lost:

No. 84.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Mastan of Penang (Applicant under Order in Council No. 3 of 1893) for a new document of title for land situated in the mukim of Lubok Merbau, in the district of

Kuala Kangsar, and described in Permit No. 707 of 1891, on the ground that Muhammad Salleh is the registered owner thereof, and that the original Permit No. 707 of 1891, whereby the land was demised to Muhammad Salleh, has been lost:

No. 85.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Anjang Teksha binti Itam Tokoh of Chegar Galah, for new document of title for lands situated in the mukim of Chegar Galah, in the district of Kuala Kangsar, and described in Permit Nos. 3,198 of 1886 and 924 of 1890, on the ground that Anjang Teksah binti Itam Tokoh has become the purchaser at an auction sale, and that the said original permits are said to be with Itam Amin whose whereabouts are not known:

No. 86.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Tejah binti Lebai of Blanja, for a new document of title for land situated in the mukim of Blanja, in the district of Kuala Kangsar, described in Permit No. 6,821 of 1886, on the ground that Pandak Ribut is the registered owner thereof, and that the original Permit No. 6,821 of 1886, whereby the land was demised to him, has been lost:

31st January, 1901.

No. 54.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Rastam bin Muhammad of Saiong, for a new document of title for land described in Extract No. 530, and situated in the mukim of Saiong, on the ground that Si Abul bin Muhammad is the registered owner thereof, and that the original Extract No. 530, whereby the land was demised to Si Abul bin Muhammad, has been lost:

No. 55.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Ma' Ali bin Kulup Ahmad of Yalang, for a new document of title for land described in Permit No. 388 of 1887, and situated in the mukim of Saiong, on the ground that he is the registered owner thereof, and that the original Permit No. 388 of 1887, whereby the land was demised to him, has been lost:

No. 56.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Mabob bin Anjang Ayan of Kota Lama Kanan, for a new document of title for land described in Permit No. 279 of 1890, and situated in the mukim of Kota Lama Kanan, on the ground that Muhammad Amin bin Anjang Ayan is the registered owner thereof, and that the original Permit No. 279 of 1890, whereby the land was demised to Muhammad Amin bin Anjang Ayan, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

18th January, 1901.

F. ROBERTSON,
Acting Collector of Land Revenue.

KINTA.

No. 170.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Wooi Lim Seng, for two new titles to land situated at Menglembu, of the Kinta District, on the ground that the said Wooi Lim Seng is the registered owner thereof, and that the original agreement for Town Leases Nos. 911 and 918 have been lost:

No. 171.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Muhammad Yusuf Dato Panglima Kinta bin Dato Lasam, for the issue of a Mining Lease Plan No. 7,588, on the ground that the said Muhammad Yusuf Dato Panglima Kinta bin Dato Lasam, is the registered owner of Mining Certificate No. 34/1899 for Mining Lease Plan No. 7,588, and that the Original Mining Certificate No. 34/1899 has been lost:

15th March, 1901.

No. 29.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Sung Yen of Ipoh, for a new Mining Lease of land situated at Ulu Johar, of the Kinta District, on the ground that the said Sung Yen is the registered owner thereof, and that the Original Mining Lease No. 1,776 has been destroyed by fire:

No. 30.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin of Kwala Dipang, for a title for land situated at Kwala Dipang, of the Kinta District, on the ground

that the said Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin are the registered owners thereof, and that the Original Agreement for Agricultural Lease No. 1,993 has been lost :

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Government Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections be granted.

4th January, 1901.

No. 26.—It is hereby notified that Ahmad bin Sabtu, or other persons claiming any interest in Plan No. 1,690, comprising 29 poles of land in the mukim of Ulu Kinta, is hereby required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, there to establish his claim, in default whereof such land will be deemed to be State land and will be dealt with accordingly.

4th January, 1901.

NOTICES UNDER SECTION 11 OF THE LAND ENACTMENT, 1897.

No. 27.—It is hereby notified that Busuk Uso, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 724, of the Kinta District, now surveyed as Plan No. 1,689, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$8.91, being cost of survey of the said land :

No. 28.—It is hereby notified that Aman bin Girun, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 723, of the Kinta District, now surveyed as Plan No. 1,687, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$12.04, being cost of survey of the said land :

Failure to comply with the terms of these notices will render the said Agreements for Agricultural Leases liable to cancellation.

4th January, 1901.

NOTICE OF FORFEITURE OF TITLE FOR DEFAULT IN RESPECT OF CONDITIONS.

No. 118.—To Bakar bin Ngah Ali and all persons interested in agreement for Mining Lease, Kinta. No. 467.

Take notice that whereas you have for nine years failed to pay the rent reserved by agreement for Mining Lease No. 467, registered in your name and more particularly described in the schedule hereto, it is the intention of the Government to cancel the said title in default of good cause shewn to the contrary within three months from the date of publication of this notice in the *Gazette*.

INDIAN IMMIGRATION
TO THE
FEDERATED MALAY STATES.

RESOLUTIONS AND RECOMMENDATIONS

OF A

COMMISSION

APPOINTED BY THE

ACTING RESIDENT-GENERAL, F.M.S.

PUBLISHED BY AUTHORITY.

KUALA LUMPUR:

PRINTED AT THE SELANGOR GOVERNMENT PRINTING OFFICE.

1901.

R.-G. 4,978/1900.

RESIDENT-GENERAL'S OFFICE,
Selangor, 27th November, 1900.

SIR,

The question of the encouragement of the immigration into the Federated Malay States of Indian labourers is again engaging special attention.

A sum of \$9,600 is being placed on the Federal Estimates, 1901, "for the encouragement of Indian Immigration," the proposal being to appoint a European of standing to be Government Agent and Recruiter in India; negotiations are in progress with the British India Steam Navigation Company, Limited, for a weekly service from Negapatam, and it is in contemplation to appoint a Civil Servant who has resided in India, and passed the required examination in Tamil, to act as a Protector of Indian Immigrants for the States of Perak, Selangor and Negri Sembilan.

2. Mr. Fryer, Acting Resident Engineer for Railways, Selangor, has been successful in importing Indian labour and in working it to advantage. He is proceeding on leave about the 14th proximo. It is advisable to obtain his opinions and views on the subject in question and to have them thoroughly discussed and ventilated before he leaves. Mr. E. V. Carey has verbally expressed to me his readiness to take part in any discussion relative to Indian labour that may be initiated, and I shall be much indebted to you if you will be so good as to accept the Presidency of a small Committee which, I suggest, should be composed of the following members:—

OFFICIALS.

Mr. H. C. Belfield, Acting British Resident, Selangor (*President*).
Mr. C. E. Spooner, State Engineer, Selangor.
Mr. W. L. Braddon, F.R.C.S., State Surgeon, Negri Sembilan.
Mr. G. W. Fryer, Acting Resident Engineer for Railways, Selangor.

NON-OFFICIALS.

Mr. E. V. Carey, Chairman, United Planters' Association.
Mr. Tambusamy Pillai, Selangor.

You may have other names to suggest, but perhaps the smaller the number of the Committee the better. The Committee could invite others to appear before them and give information.

3. The subject of the Encouragement of Indian Immigration falls into two main divisions:—

- A. Recruiting in India and Shipment to the States.
- B. Treatment and Supervision in the States.

4. The proposed members of the Committee are so thoroughly conversant with all the points which are of importance that I desire to leave them a free hand as to items for discussion, but I may indicate very briefly a few points as to which I particularly desire their advice and opinion.

5. A. *Recruiting in India and Shipment to the States.*—In what way can the services of the proposed European Government Agent in India be utilised to the greatest advantage and what is the nature of the instructions that it would be advisable to give him on his appointment.

H. CONWAY BELFIELD, ESQ.,
Acting British Resident, Selangor.

6. B. *Treatment and Supervision in the States.*—

- (a) Reception and distribution, supervision by Sikh watchmen.
- (b) Payment and rate of wages, crimping, competition amongst employers of labour, supply of rations, truck system, supply of cooked rations as recommended by the Secretary of State on the suggestion of Mr. Braddon, State Surgeon, Negri Sembilan.
- (c) Housing, separation of sexes, care of children, treatment of orphans.
- (d) Religion, education, temples. I am informed there are a number of children over eight years of age, with no opportunities of education.
- (e) Safe custody of coolies' savings, jewellery, etc., Savings banks, remittances to India.
- (f) Health, sanitation of dwelling places, pure water, latrines, medical attendance, hospitals, dispensaries, mosquito nets, blankets, provision of cooked rations (see *b ante*), statistics of health and mortality for information of Government.
- (g) Employment of coolies in specially unhealthy localities.
- (h) Preservation of *caste*.
- (i) Duties of proposed Protector of Indians in Perak, Selangor and Negri Sembilan.

7. I may add that one of the objects the Government has in view is to encourage the growth of an Indian Tamil population in the States, as owners of land, cultivators of padi and other crops, cattle owners, artisans and mechanics. Sir Frank Swettenham recently offered free passages to 1,000 coolies with promise of land at cheap rates and the chances of employment on good wages, but not a single coolie has availed himself of the offer.

8. I shall be obliged if you will arrange with the gentlemen mentioned the date and place for the meetings, and later on I will cause any papers in this office that bear on the subject to be forwarded for your information and that of the Committee; but you have taken a keen interest in all matters pertaining to the Indian coolie question, and I doubt if my office contains much information that is not already in your possession.

9. I will communicate with the British Resident, Negri Sembilan, as to the appointment of Mr. Braddon on the Committee.

I have the honour to be,

Sir,

Your obedient servant,

W. H. TREACHER,

Acting Resident-General, F.M.S.

**RESOLUTIONS AND RECOMMENDATIONS OF A COMMISSION APPOINTED
TO CONSIDER THE QUESTION OF THE ENCOURAGEMENT OF INDIAN
IMMIGRATION TO THE FEDERATED MALAY STATES.**

The Commission, consisting of the following gentlemen—

H. C. Belfield, Esq., Acting British Resident, Selangor (*President*),
E. V. Carey, Esq., Chairman, United Planters' Association, F.M.S.,
C. E. Spooner, Esq., State Engineer, Selangor,
G. W. Fryer, Esq., Acting Resident Engineer for Railways, Selangor,
W. L. Braddon, Esq., State Surgeon, Negri Sembilan,
Mr. Tambusamy Pillai,

was originally convened to meet on the 7th December, but the first sitting was subsequently postponed till the 8th December, on which date the members of the Commission, as appointed by the Acting Resident-General, met in the Council Chamber, Kuala Lumpur.

1.—THE APPOINTMENT OF A RECRUITING AGENT IN INDIA.

The Commission embodied its views on this question in the following resolutions:—

“The Commission recommends the appointment of a European to supervise and assist recruiting on behalf of employers of Indian labour in the Federated Malay States. It is recognised that no European can be expected to conduct recruiting operations personally. It is considered desirable that that part of the work should be done by a carefully selected and organised staff of Tamil recruiters, probably of the kangani class, who should form part of the staff of the office; that every such native recruiter should, whenever possible, be well acquainted with at least one of the Federated Malay States, so as to be in a position to give information regarding the country and the prospects of labourers there, and to answer any questions put to him; that, where such can be conveniently arranged, these recruiters should be chosen with due regard to the districts and divisions of Southern India from which they come, and that it should, as a rule, be a general instruction to them that each man's work should lie in the district in which he or his relatives are personally known.

“Subject to the above requirements, the Commission is of opinion that it is inadvisable to tie the hands of our representative or to limit the exercise of his discretion by instructions of too explicit a nature. It is assumed that the gentleman who will be chosen to fill this post will be selected on account of his knowledge of the Tamil people and language and of the requirements of employers in the Federated Malay States, and it is preferable that he should be permitted to make use of that knowledge unimpeded by too strict an official control. It should, however, be understood that it will be the duty of the Agent to personally interview every coolie brought in for transmission, and to satisfy himself by individual interrogation that each man fully understands the purpose for which he is being recruited, and the nature of the work which is expected of him, and also to ensure that he has not been misled by inaccurate or extravagant description of the country to which he is to be taken.”

2.—MEDICAL EXAMINATION BEFORE SHIPMENT.

With respect to the propriety of causing the labourer to undergo a medical examination before shipment, it is pointed out by Mr. Tambusamy Pillai that insistence on such procedure will have the result of debarring a large number of coolies from accepting employment after they have been brought down to the port, because the coolies, who it is hoped will be recruited under the new system will be country people from the villages, who will be totally unaccustomed to undergoing any such ordeal and will avoid completion of their engagement rather than submit to it. He also points out that people of this description will almost invariably be found to be possessed of a higher standard of health and physical powers than those recruited in the neighbourhood of towns; that it will usually be possible for an officer so thoroughly versed in all that appertains to Tamils as the Agent should be to generally distinguish between coolies in a healthy condition and those who appear to be sickly, and that the medical examination should only be insisted on by him in cases in which he may entertain serious doubts of the health or physical capacity of the labourer. Mr. Tambusamy Pillai's suggestion is supported by Mr. Spooner, Mr. Carey and the Chairman.

On the other hand, Mr. Braddon and Mr. Fryer are of opinion that examination by a qualified medical practitioner should be a necessary condition precedent to the acceptance of any labourer by the Agent.

3.—SHIPMENT AND TREATMENT ON BOARD SHIP.

The following resolution was passed:—

“We are of opinion that a suitable site should, in the first instance, be arranged for the establishment of a convenient depôt for the reception of all coolies awaiting shipment; that, if possible, such depôt should be situated at some little distance beyond the town boundaries of the port: provided that it should at the same time be easy of access from the head-quarters of

the Agent. Such depôt should be under the constant superintendence of a native officer appointed by the Agent and directly responsible to him. Additionally, there should be an adequate staff of attendants and cooks, all of them attached to the establishment of the Agent's office, and the internal accommodation of the depôt should be so arranged as to provide distinct spaces for the use of different castes and for such separation of sexes as may be necessary. All rations and other requirements for use in the depôt should be provided on the requisition of the Agent. It is considered that separate accommodation should be provided for statute and free labourers, in order to minimise the possibility of discontent among the former class were they to compare the conditions of their employment with those of the free coolie.

"It is recommended that every shipment of coolies, whether free labourers or otherwise, be accompanied by a native inspector in the same manner as is now provided by law in the case of statute immigrants. The duties of such an inspector should be to see that the rations are regularly served and that their quantity and quality is all that is required; that a sufficient supply of water is at all times available, and that the coolies are housed in such a manner as the requirements of caste and health may demand. A cook, who should be provided with a separate galley and water supply, should be sent with every shipment. All such inspectors and cooks should be attached to the establishment of the Agent's office.

"All coolies shipped by the Agent should be received in Penang harbour by a local Agent appointed by the Government of the Federated Malay States to discharge this duty with respect to all immigrant labour intended for the States. He should receive the men from the ships, checking their names, numbers and other particulars with statements to be forwarded to him by the Agent. He should arrange with the officer in charge of the depôt for the reception of all such coolies who may have to await a local steamer in Penang, and should be authorised to settle with him all charges and disbursements on their account. It should be his duty to arrange for the passages of coolies to their ports of destination, to superintend their transfer from the depôt to the local vessel and to forward to the consignees full particulars regarding the coolies shipped and the time of their expected arrival at the port of destination. It should be incumbent upon the employer to arrange for the reception of his coolies at the port of destination by one of his own people, and the coolies should be transferred thence to their destination under his superintendence. In the case of statute immigrants, similar arrangements should be made by employers for receiving their coolies from the hands of the Immigration Agent."

4.—SIKH WATCHMEN AND RESTRICTIONS ON MOVEMENTS OF COOLIES.

The question of supervision by Sikh watchmen, which was raised by Mr. Carey in correspondence with the Resident-General, was discussed, and the following resolution was adopted:—

"It is ascertained that Sikhs are employed in connection with Indian immigrants only on the Seremban Extension Construction Works; that they are there employed only for the purpose of issuing the tickets which are distributed among the coolies under the present system of piece-work, and that they are not employed or permitted to control in any way the freedom of movement of the coolies whose coming and going is not interfered with either by day or by night. The opinion is expressed that the presence of these Sikhs is in no way detrimental to the labouring community."

5.—RATE AND PAYMENT OF WAGES.

The Commission arrived at the following decision:—

"It is considered that it is neither practicable nor advisable to attempt to regulate the rates of wages to be paid to coolies other than statute immigrants by any direction of Government. Such direction must obviously affect only those employers who are working for Government and could not have the effect of limiting the discretion of planters and others. It is anticipated that rates of wages must always vary in accordance with local conditions. That which may properly be considered a high rate in one place may be manifestly insufficient in another. It is represented that the one effective way in which to control labour rates is to increase the available supply of labour. Competition in this as in other instances will always bring down prices, and affords in itself a sufficient remedy for unreasonable rates without the necessity of attempting to formulate limits of payment.

"The principle of the monthly payment of wages to the free coolie serving on a parol agreement is recognised by the Straits Settlements Ordinance and is, in our opinion, the correct principle. It is understood that that principle will receive the recognition of the local law when the present Enactment is amended."

6.—CRIMPING AND COMPETITION AMONG EMPLOYERS OF LABOUR.

On this point the Commission recorded the following remarks:—

"The offence of crimping appears to be already sufficiently provided for, so far as statute immigrants are concerned, in proposed legislation, and our experience leads us to believe that it is seldom committed in respect of free labour. The best safeguard against the loss of free labour by such means is the mutual understanding of employers to pay equal rates of wages, to give equal advantages to their coolies and to refrain from engaging any labourer who cannot satisfactorily show that he has left his last place with the knowledge and consent of his master.

"The Commission observes that section 88 of the Straits Settlements Immigration Ordinance—the substance of which, it is understood, is shortly to be incorporated in an amended Enactment for the Federated Malay States—provides a penalty for hindrance or molestation of contract immigrants only, and that no such provision appears to have been made for dealing with persons who treat free immigrants in a similar manner.

"It is considered that an alteration, which will have the effect of extending to free coolies, working under agreements under section 34 of the Ordinance, similar protection to that accorded to contract immigrants by section 88, would be a most useful factor in the prevention of offences of this nature. The desired result could apparently be obtained by adding after the word 'contract,' in the 3rd line of section 88, the words 'or parol agreement'."

7.—RELIGION AND TEMPLES.

The opinion of the Commission was framed as follows:—

"The importance of these questions and their intimate relation to the well-being of any foreign community settling in this country is fully recognised, and it is agreed that any increase in the facilities offered for the observance of religious functions must benefit the cause of immigration, because natives will naturally prefer to proceed to a country where they have reason to believe that opportunities for observances exist in a form similar to that to which they have been accustomed in their native land. The question, however, is one of very wide scope, and this Commission does not feel justified in giving expression to detailed advice as to the manner in which such facilities should be provided. It will probably be well worth while to submit the question for the consideration of a selected number of the more influential members of the Tamil community, and to seek their opinion as to the manner in which and the extent to which existing facilities should be improved or enlarged before the Government commits itself to any definite undertaking or to any final promise."

8.—EDUCATION.

The following resolution was passed:—

"On the subject of education any suggestion would be premature. Apart from the question of providing educational facilities for an immigrant population which has already formed the subject of discussion upon official correspondence, it appears to us that the time has not yet arrived for taking action in this direction on behalf of the Tamil community. It is pointed out that, in most cases, when Tamil children arrive at an age at which education would be of benefit to them they are otherwise employed in assisting their parents in their daily duties. It also appears that the Tamil labouring population of the Federated Malay States cannot yet be described as settled. The labourers move about the country from place to place as opportunities for work present themselves. They are not restrained by any local tie and have no stake in the country which can ensure their permanent residence. Later on, if it be found that these people begin to settle upon the land, to form village communities and to occupy themselves in husbandry upon their own property, it will be time enough to consider the propriety of establishing educational facilities in such local centres as may give to them the best opportunity of acquiring proficiency in their own vernacular."

9.—SUPPLY OF COOKED RATIONS.

"(i.) Employers should provide to every coolie, free of charge, a bowl of hot rice "kanji" at the time of turning out in the morning.

"(ii.) Cooked rations should be supplied to all coolies whose health is below the normal standard and to all such other coolies as may express a wish to receive such food.

"It will probably be found convenient in practice to separate such weakly coolies from their companions and to place them together upon light work in the neighbourhood of the place at which their food is dispensed.

"It will be necessary that healthy coolies who desire to be provided with cooked rations should give a few days' notice to enable supplies to be provided. The cost of such cooked rations is a question which must necessarily vary according to locality and no good purpose would be effected by attempting here to suggest a table of charges."

10.—HOUSING AND SEPARATION OF SEXES.

The following resolution was framed:—

"All sleeping accommodation should be raised off the ground. Spaces should be partitioned off for the use of married couples. As much light and ventilation as possible should be introduced into the interior of every building. It is not considered that special precautions for the separation of the sexes are either necessary or advisable."

11.—CARE OF CHILDREN.

The Commission, after a short discussion, arrived at the following resolution:—

"It appears to be beyond doubt that the condition of the small children of Tamil coolies could be materially improved by some systematic attention. It is not practicable for the mother to look after more than one child while she is out at work. Therefore, in the absence of special arrangements, the elder children are usually without control. Employers might reasonably be required to provide accommodation for the reception of such children during the hours of their parents' absence, and to defray the cost of having them properly looked after."

12.—CARE OF ORPHANS.

Resolved:—

“The Commission are of opinion that the care of the orphan children of Indian immigrants should be a liability of the employer, and that it should be incumbent upon such employer to ascertain the wishes of the relatives of such orphan, if any such are resident in the State and their whereabouts are known, and to give effect to those wishes if they are right and reasonable.”

13.—COOLIES' SAVINGS, JEWELLERY, ETC.

On the representations of Messrs. Carey and Tambusamy Pillai, it was agreed that no action was necessary in order to ensure any better system of banking the money and property of immigrant labourers or of remitting the same elsewhere than at present exists. All business of this description is now satisfactorily undertaken by chetty firms or by the personal friends of the coolies and no additional facilities seem desired.

14.—SANITATION, LATRINES, ETC.

The following remarks were agreed upon as representing the views of the Commission on this subject:—

Questions relating to the sanitation of dwelling places are dealt with under Part VII. of the Labour Code, which, it is understood, will be incorporated in the new Immigration Enactment. Those provisions appear to give to the authorities plenary powers to enforce such improvements as may be necessary; and, having regard to the almost insurmountable difficulties which would be attendant upon any attempt to restrain the natural habits and inclination of the Tamil coolie, it does not appear to be feasible to require the employer to issue explicit directions upon the subject and to compel compliance. Probably the most that could be reasonably expected in any case would be that the employer should regularly take all preventive measures possible to minimise the risk of contamination or infection resulting from the promiscuous habits of the native inmates.

Mr. Braddon expresses the opinion that it should be obligatory upon every employer of labour to punish the inmates of coolie lines when the surroundings are found to be wilfully brought by them into an insanitary state; but to the other members of the Committee this proposal appears to be too drastic to be practicable, because it would probably cause a serious amount of discontent among the labourers.

15.—HOSPITALS AND MEDICAL ATTENDANCE.

The Commission adopted the following resolution:—

“Part VII. of the Labour Code again supplies all such directions as are in the opinion of the majority of the Commission sufficient for practical purposes. It is considered that the practice which now obtains is sufficient in all ordinary cases. Coolies when ill are either sent direct to the district hospital or are treated in special hospitals provided, in most cases, where a large labour force is gathered together. It is urged by Mr. Braddon that section 79 of the Labour Code is not sufficiently strong, and that in the interests of the coolies the discretion thereby vested in the British Resident should be removed and that it should be obligatory upon all such employers as are mentioned in that section to conform to the orders therein contained. This proposal, however, does not meet with support from the other members. It may be pointed out that an attempt was made in Perak in 1895 to bind the employers of labour by somewhat similar obligations and that it has now been reported that such directions are inconvenient and unnecessary. The Committee has reason to believe that most, if not all, of the employers of Indian labour in the Federated Malay States make a practice of availing themselves of the advantages offered by the Government district hospitals in cases of illness, and that they also keep within reach a supply of simple remedies for ordinary ailments. If Part VII. of the Labour Code is added to the new Immigration Enactment it does not appear imperative that further obligation should be laid upon the employers.”

16.—MOSQUITO NETS, ETC.

Mr. Braddon laid before the Commission an outline of the facts and arguments which have induced those members of the medical profession who have considered the subject to come to the conclusion that the bite of the infected mosquito is productive of malarial fever, and, after consideration of the information thus placed at its disposal, the Commission directed the following observation on the subject to be recorded:—

“It is admitted that malarial fever is a principal and serious cause of mortality and incapacity among Tamil coolies, and the Commission agree with Mr. Braddon in considering it most advisable that any reasonable precaution should be adopted which will have the effect of reducing the prevalence of that disease. Mr. Braddon does not consider that it would be reasonable to force the adoption of precautionary measures upon all employers in the first instance or until the result of the investigations of the medical profession have been demonstrated by local experiment; but he urges upon this meeting the importance of initiating such an experiment and of carefully recording the results obtained. The President, on behalf of the Government of Selangor, expresses his willingness to conduct such an experiment in connection with some of the coolies now at work on railway construction, and, if the Resident-General so approves, to devote a sum of money to this special purpose: provided that he is

supplied by Mr. Braddon with detailed directions as to the number and description of coolies upon whom the experiment should be tried, the rules to be adopted for observation by those coolies and their immediate superiors and a plan and specification of the building in which they are to be housed.* It is further considered that should such experiment be conducted to a successful issue at a cost reasonably within the capacity of all employers of Indian labour, it should be an instruction to such employers to adopt similar precautions for the benefit of their own coolies."

17.—CLOTHING AND BLANKETS.

After a brief discussion it was decided that the opinion of the Commission might be summed up as follows:—

"It is not necessary to provide new arrivals with clothing. We are informed that statute immigrants obtain such supply as is necessary before leaving India. Other coolies purchase what they require on arrival. We are of opinion that it is right that every coolie should be provided with some description of covering in addition to his personal clothing, the cost of which should be debited against him in his account; but we are not satisfied that a blanket is the most suitable article to supply, because experience shows that the Tamil prefers a cotton fabric and seldom if ever puts his blanket to its legitimate use. We think it preferable that the covering to be provided should, if possible, be of thick cotton of sufficient length to enable the coolie to wrap himself in it from head to foot."

18.—PRESERVATION OF CASTE.

Mr. Tambusamy Pillai having given a brief sketch of the nature and extent of the caste distinctions to which the Tamil was subject in his own country, Mr. Carey addressed the Commission, dwelling on the importance of the question as one of the factors of the problem on which the opinion of the Commission was invited, and pointing out the regrettable laxity into which the ordinary Indian immigrant was permitted to drift in the absence of any public spirit among the more influential members of the Tamil community similar to that which would restrain him in his own country. Mr. Tambusamy Pillai concurred generally in the views put forward by Mr. Carey and their representations were embodied in the following resolution:—

"The Commission thinks it right that the attention of employers should be carefully drawn to the importance of discriminating between the different castes of their labourers. It should be recognised that those of the higher and lower castes must not be expected to live together, and it should be the duty of the employer to arrange their accommodation, so far as is practicable, in accordance with their own request. Castes which are prohibited from associating in the same building, should also be invariably provided with separate cooking accommodation and water-supply.

"We desire to impress upon the Government our opinion that, as a general rule, caste obligations are less strictly observed in the Malay Peninsula than in India and Ceylon. We are inclined to believe that the value of the labourer to the country of his adoption is lessened by such relaxation of the standard of religion in which he has been brought up, and we conceive it to be of importance that an effort should be made to induce the more influential members of the Tamil community in the Federated Malay States to impress upon new-comers that it is highly desirable that their entry into a foreign country should not be made the occasion or the excuse for relaxation of that social discipline which is a necessary factor of daily life in their own country."

19.—EMPLOYMENT OF COOLIES IN SPECIALLY UNHEALTHY LOCALITIES.

It was agreed that the proposed incorporation of Part VII. of the Labour Code as above mentioned, together with the recommendations already made on the subjects of the prevention of malaria, the sanitation of dwelling places, and the supply of rations, clothing, and medical attendance, appeared to cover all that could for the present be said upon this subject.

20.—DUTIES OF PROPOSED PROTECTOR OF INDIANS.

The President proposed, and the Commission unanimously adopted, a resolution in the following terms:—

"We recognise that it will be for the benefit both of employers and labourers that the officer occupying the position of Superintendent of Immigrants should be invested with the fullest powers of investigating the condition of all coolies and their surroundings and of instituting remedial measures upon the spot, wherever possible, in order to save the annoyance and waste of time which is consequent on the removal of parties to a distant Court. The duties of the Superintendent are more clearly defined in the present Colonial Ordinance than has hitherto been the case, and when Part VII. of the Labour Code has been incorporated with that Ordinance for the purpose of a new Federated Malay States Enactment those powers will be still more widely extended. We do not therefore consider it necessary to make suggestions for further addition to the duties thereby imposed upon him, but we think it right to point out that it will save questions in the future if it is specifically stated that the powers and duties of such Superintendent are to be exercised as well on behalf of free coolies as of contract immigrants.

* *Vide* Appendix.

"There is another point which is worthy of attention. Mention has been made above of the difficulties which frequently arise from the necessity of taking to Court all questions in dispute on which the parties are unable to arrive at an agreement. Recognition has already been given in the Federated Malay States to the principle that it is good that the judicial officer should proceed to the place in which the dispute arises and thus obviate the necessity of compelling the parties to go after the judicial officer. This principle has been incorporated in the Mining Enactment, by which the Warden is specially empowered to hear complaints and decide cases on the spot, which procedure is frequently adopted in practice much to the advantage of all parties concerned. It will be of equal advantage to the employers of Indian labour and to their coolies if somewhat similar procedure is authorised by the new Immigration Enactment. The Superintendent, being invested with magisterial powers, should be authorised by law to hear all complaints, adjudicate all differences and, if necessary, inflict penalties, at the place at which the complaint or difference arises. He should keep books of record concerning all cases adjudicated or disputes settled by him in the same manner as is now done by the Warden of Mines, and in all cases, civil or criminal, decided by him a form of procedure for appeal to the Court of the Senior Magistrate should be provided.

"The Commission desires to represent very earnestly the grave importance of selecting for the appointment of Superintendent a gentleman of mature experience, possessed of a complete knowledge of the Tamil labourer, his nature, habits and language. If possible it would also be well that he should have had some personal experience of the relations existing between employers of Indian labour and their men as well as of magisterial work. The success or failure of the improvements now suggested for the benefit of the Indian labouring classes will inevitably be dependent to a great extent upon the experience which such an official can bring to bear upon his duties, and upon the tact and discretion with which he administers them. It would, in our opinion, be a serious mistake to imperil the efficacy of proposed ameliorative measures by entrusting the executive functions to any officer who would find it necessary to gather his experience at the expense of the parties for whose benefit his appointment exists. It would therefore be necessary to offer a rate of salary which would command the consideration of gentlemen who can bring to their new duties the practical knowledge above described."

21.—VOTE OF THANKS TO THE CHAIR.

The deliberations of the Commission having been thus brought to a close, Mr. Carey, speaking on behalf of the planting community in general as well as of the members of the Commission, proposed a vote of thanks to the President for the unvarying attention and consideration which he had accorded to the various suggestions of the members, which was unanimously passed. In thanking the Commission, the President stated that the Government of the Federated Malay States as well as employers of labour generally would owe them a debt of gratitude for the thoroughness with which they had devoted themselves to the questions submitted for their consideration; and, in declaring the meeting closed, expressed his conviction that it rarely fell to the lot of anyone to enjoy the privilege of presiding over a Commission so entirely at one on the main issues of the subject for the discussion of which it was convened.

APPENDIX.

MONOGRAPH BY W. L. BRADDON, ESQ., M.B., F.R.C.S.,
STATE SURGEON, NEGRI SEMBILAN.

EXPERIMENT FOR DEMONSTRATIONS OF THE PREVENTIBILITY OF MALARIA.

SUGGESTIONS FOR CONDITIONS UNDER WHICH EXPERIMENTAL PROTECTION OF COOLIES AGAINST MOSQUITOES SHOULD BE CARRIED OUT.

It is proposed to demonstrate the possibility of preventing coolies from getting malaria by protecting them from the bites of mosquitoes at night, by measures which may be simple and inexpensively put into practice.

2. This demonstration, it is suggested, may most effectively be made by comparing the health of two large gangs of coolies placed under conditions, arranged to be in all respects similar except in regard to the one essential, that of protection from mosquitoes, one gang being so protected at night-time, and the other not.

3. It is not proposed to employ any means of protection which may not be commonly applied, in practice, to all coolies, wherever housed, and at reasonable cost.

4. It is to be pointed out that experiment conducted on these lines will not result in any crucial demonstration of the credited view that the rigorous exclusion of all possibility of bites by mosquitoes will entirely prevent infection of individuals by malaria. It is to be expected that, under the conditions to be proposed, complete protection from mosquitoes' bites not being possible *some* new infections of malaria may occur and relapses of fever in persons in whom it may not have previously been detected may happen also. But it is submitted that if, as may be confidently expected, a very large difference be observed in the number of cases of fever occurring in the two gangs, the conclusion to be drawn will be a sound one, that the adoption of protection from the mosquito will prevent infection by malaria, in practice, and that the more complete that protection the more certain will be the prevention of malaria.

5. The conditions suggested for the experiment are more particularly detailed as follows:—

(i.) **SUBJECTS—**

A gang of not less than 200 coolies should be dealt with: half of whom to be housed in mosquito-proof lines, the other half not so.

(ii.) **SELECTION—**

There should be no selection other than to exclude individuals definitely malarious to begin with. For this purpose no coolies with (a) anæmia, (b) enlarged spleen, (c) pyrexia, or (d) parasites in the blood (to be sought for in doubtful cases) should be admitted in either gang.

(iii.) **HOUSING—**

The quarters occupied by both gangs should be as well ventilated, well drained, and commodious as possible, consistent with moderate outlay; but the lines occupied by one gang to be made as far as possible proof against the entrance of mosquitoes according to design submitted.

Bangsals which will house 25 coolies each would be of a convenient size to deal with, and offer more ready means of control for experiments.

(iv.) **LOCALITY—**

The quarters of both gangs should be placed in proximity, and the locality chosen one which has been proved by recent observation to be definitely malarious. In order, at the same time, to yield evidence as to the much-asserted influence of soil disturbance in producing malaria, it would be an additional gain to place the quarters in close proximity to some earth-work (such as a large cutting upon which the coolies are engaged).

(v.) **DISPOSITION OF QUARTERS—**

In order to remove further other possible objections as to the influence of *site*, the four protected blocks or bangsals should be disposed alternately with the unprotected ones.

(vi.) PERSONAL CONDITIONS—

As the object of the experiment is simply to ascertain what measure of immunity is to be gained by protection against mosquito bites in practice, no unusual restriction should be placed upon the habits of the coolies, other than such as might be adopted without trouble under any circumstances. The chief of these is to encourage the coolies under protection to become so far interested in the result as to expose themselves as little as possible to chances of bite and infection. For this purpose, while actual liberty of egress from their house need not be restricted, they should be persuaded to keep within doors as much as possible during the hours between sunset and sunrise; they should be instructed to spend as little time as possible outside their houses when it is necessary to leave them. A small bonus, say \$2 extra per mensem, might be offered to such of the coolies as would submit voluntarily to be locked in their bangsals during the night. It would lessen the expensiveness, and increase still further the usefulness of the experiment, if half of the protected coolies could be so restrained.

Such a comparison of the results obtained by complete and rigorous protection throughout the night as opposed to the more casual protection of coolies free to come and go, and protected only while actually within their lines, would give a gauge as to the necessity of making such restraint at any time a necessary part of the system of protection.

(vii.) SEASON AND PERIOD OF OBSERVATION—

The result of the experiment will be more useful the more extended the period over which observation is carried on and should embrace one of the seasonal epochs at which malaria is generally more prevalent—in my experience, about November or May. Six months would necessarily embrace such a season.

(viii.) RECORD OF RESULTS—

To draw the greatest scientific as well as practical advantage from the experiment, a medical officer or dresser trained in the microscopic detection and treatment of malaria should be placed in charge of the coolies and arrangements concerning them. He should keep a record of the health of both gangs. For this purpose a daily inspection of the force will suffice, all suspected cases of fever being carefully examined, and the presence or absence of malarial infection being determined by blood examination. The many unprotected coolies who may, by the conditions, be naturally expected to get malaria, must of course be treated efficaciously by quinine; for although this may detract from the fruitfulness of results from the experimental point of view, it would not be right to expose the labourer to unnecessary risks when dealing with a fever so often fatal as tropical malaria; while, in my experience, the cinchonisation of coolies in gangs is in practice never wholly efficacious in preventing the spread of the disease.

- (ix.) There might be added to the scope of the present demonstration, as an experiment in a disputed matter of very great and practical interest, a test of the value of quinine administered daily in small doses to the healthy, as a prophylactic against or means of preventing infection with malaria; one half of the unprotected gang of coolies might be so treated, 5 grains of quinine (in a capsule) being given to each coolie daily for three or six months, before proceeding to work, the subjects and results being carefully noted.

(x.) PRECAUTIONS—AMONG PROTECTED COOLIES:

When, as will probably happen in a few cases, infection does occur, these must, equally with unprotected coolies, be cured with quinine.

But they need not, if thoroughly treated, be separated from the rest, as the condition would not be suitable to insist upon in practice elsewhere.

- (xi.) A watchman will be necessary whose business it will be to see that through mischievousness, laziness, or other reasons, the doors of the protected houses (designed to be held fast by a spring) are not left open, and that holes giving possible entry to mosquitoes are not destructively made by coolies in their dwellings. He should also report, without otherwise interfering with, coolies who have slept away from their quarters. Endeavour should be made by the officer in charge to ascertain the place visited by each such coolie, exposure at which may have caused them to incur infection.

- (xii.) In those quarters of which the inmates may have agreed (for the small reward suggested) to be locked up nightly, certain sanitary and other arrangements will also be necessary. These should include the provision of a cask of drinking water with a tap, and 2 latrine or night-soil pails covered for each bangsal. The inmates should be locked in at sundown and liberated at sunrise.
- (xiii.) To facilitate the discovery of anopheles, which should be caught and killed in all the bangsals when found, the walls of the houses should be white-washed.

Perak Government Gazette.

PUBLISHED BY AUTHORITY.

No. 14.] TAIPING, FRIDAY, MARCH 29, 1901. [VOL. XIV.

FEDERAL.

—
APPOINTMENTS.

Mr. F. J. Weld, Secretary to the High Commissioner, to act as Secretary to the Resident-General.

Mr. C. W. H. Cochrane, Cadet, to act as Assistant Secretary to the Resident-General.

Mr. H. C. Sells, of the Straits Settlements Civil Service, to act as Secretary to the High Commissioner until the return from leave of Mr. L. E. P. Wolferstan, who will then relieve him.

The above appointments are with effect from the 17th March, 1901.

Mr. T. H. Kershaw, Legal Adviser, Federated Malay States, has been appointed to act as Attorney-General, Straits Settlements, *vice* the Hon'ble W. R. Collyer, who has been granted leave of absence with half salary for nine months, to be taken after three months' vacation leave, commencing on the 16th March, 1901.

Mr. A. T. D. Berrington, Senior Magistrate, Perak, to act as Legal Adviser, Federated Malay States, with effect from the 16th March, 1901.

LEAVE.

Mr. Oliver Marks, Assistant Secretary to the Resident-General, has been granted three months' vacation leave, from the 17th March, 1901, to be followed by nine months' leave on half salary.

CIRCULAR DESPATCH FROM THE RIGHT HON'BLE THE
SECRETARY OF STATE FOR THE COLONIES,
AND ITS ENCLOSURE.

(Circular.)

. DOWNING STREET, 30th February, 1901.

SIR,—With reference to my telegram of the 25th inst., in which I informed you that the order for general mourning for Her late Majesty, Queen Victoria, stated that all persons were expected to put themselves into deepest mourning from the 28th inst., I have now the honour to transmit to you a Supplement to the *London Gazette* containing a further Notice issued by the Earl Marshal intimating that after the 6th March next, it will not be desired or expected that the public should appear in deep mourning, but that half-mourning should be worn until the 17th April next.

I have, etc.,

THE OFFICER ADMINISTERING THE
GOVERNMENT OF THE STRAITS SETTLEMENTS.

J. CHAMBERLAIN.

THIRD SUPPLEMENT TO THE LONDON GAZETTE, FRIDAY, THE
25TH OF JANUARY.

Earl Marshal's Office, January 28th, 1901.

IN pursuance of the Order for a General Mourning for Her late Majesty Queen Victoria, of blessed memory, which was announced in a Supplement of the *Gazette* of the 24th instant.

These are to give notice, that after the 6th day of March next, it will not be desired or expected that the Public should appear in deep mourning, but that Half-Mourning should be worn until the 17th day of April next.

NORFOLK,
Earl Marshal.

DR. NOBEL'S BEQUEST.

The following Circular despatched from the Right Honorable the Secretary of State for the Colonies, relating to Dr. Nobel's Bequest, is published for general information:—

(Circular.)

DOWNING STREET, 11th January, 1901.

SIR,

I have the honour to acquaint you, for information of any persons who may be interested in the matter, that an official translation (in French) of the statutes and regulations with regard to the late Dr. Alfred Bernhard Nobel's Bequest, approved by His Majesty the King of Sweden and Norway, has now been published, and that the Chargé d'Affaires for Sweden and Norway at this Court has asked that as much publicity as possible may be given to the contents of the publication.

It is understood that the amount available under the Bequest for distribution annually in prizes to meritorious inventors and others is about £40,000; that it is divisible into five equal parts to be assigned (1) for the most important discovery in physical science, (2) for

the most important discovery or improvement in chemistry, (3) for the most important discovery in physiology or medicine, (4) for the most remarkable literary work and (5) for the greatest service in the cause of International peace: that the first distribution of prizes will take place on the 10th of December in this year; and that the competition is open to everyone without regard to nationality.

I have the honour to be,

Sir,

Your most obedient, humble Servant,

J. CHAMBERLAIN.

THE OFFICER ADMINISTERING THE
GOVERNMENT OF THE STRAITS SETTLEMENTS.

THE following Notifications are, by Command of the Acting Resident, published for general information.

A. R. VENNING.

Secretary to Government.

APPOINTMENT.

No. 184.—Lieutenant Alfred McDowell Graham to act as Superintendent of Prisons, in addition to his own duties, with effect from the 1st March, 1901.

No. 185.—Mr. Frank Mills, Assistant Engineer, Construction Branch, to be District Railway Engineer, Larut and Krian open line, subject to confirmation by the Secretary of State, with effect from the 12th February, 1901.

No. 186.—Mr. Samuel Kay Sibbald to be an Assistant Engineer, Public Works Department, with effect from the 21st February, 1901.

Mr. Sibbald reported his arrival on the 25th March, 1901.

No. 187.—Mr. Charles Edward Paterson to be a Bridge Erector, Perak State Railways, with effect from the 1st October, 1900.

No. 188.—Mr. Patrick McCarthy, Construction Storekeeper, Perak State Railways, to act as Storekeeper, Perak State Railways, with effect from the 9th April, 1901.

No. 189.—Mr. Roland Martin McKenzie, Registration Clerk, Land Office, Larut, to be Chief Clerk, Land Office, Batang Padang, with effect from the 1st March, 1901.

LEAVE.

No. 190.—Mr. William Willes Douglas, Deputy Commissioner of Police, reported his return from leave of absence and resumed duties on the 23rd March, 1901.

No. 191.—Mr. Robert Wood, Locomotive Driver, Perak State Railways, reported his return from leave on the 1st March, 1901, and resumed the duties of his appointment.

No. 192.—Mr. Francis William Douglas, Assistant District Magistrate, Tanjong Malim, has been granted three months' vacation leave, to be followed by nine months leave with half salary, with effect from the 12th April, 1901.

No. 193.—The leave of absence granted to Mr. Augustus Cyril Valpy, Supervisor, Perak State Railways, has been extended, with half salary, for 2 months, from the 19th February, 1901.

No. 194.—Mr. John White, Storekeeper, Perak State Railways, has been granted three month's vacation leave, to be followed by twelve months leave with half salary, with effect from the 9th April, 1901.

SERVICES DISPENSED WITH.

No. 195.—The services of Mr. Louis Keegel, Apothecary, have been dispensed with, with effect from the 19th March, 1901.

DISMISSAL.

No. 196.—Mr. Henry Burton Middleton, District Inspector, Province Wellesley Section, has been dismissed from the Public Service, with effect from the 3rd January, 1901.

No. 197.—Tarah Singh, Assistant Overseer of Mines, Kampar, has been dismissed from the Service, with effect from the 25th January, 1901.

APPOINTMENT UNDER THE MINING ENACTMENT, 1899.

No. 198.—In pursuance of the powers vested in him by Section 81 (i) of the Mining Enactment, 1899, the Acting Resident has been pleased to appoint the following officer to carry out the provisions of this Enactment, as hereinafter set forth :—

ASSISTANT OVERSEER.

Lall Singh, to be Assistant Overseer of Mines, Kampar, with effect from the 1st January, 1901.

25th March, 1901.

LICENSED AUCTIONEER.

No. 199.—Ibrahim Khan has been granted a licence as an Auctioneer, in the District of Larut, for one year, from the 27th March, 1901.

29th March, 1901.

EXEMPTION UNDER THE "SOCIETIES ENACTMENT, NO. 9 OF 1900."

No. 200.—It is hereby notified that the "Sri Peranakan Muda, S'tiawan, Football Club" is, by order of the Acting Resident, exempted from registration under Section 2, Sub-section (c), of the "Societies Enactment, 1900."

22nd March, 1901.

PASSES TO SAWYERS AND WOOD-CUTTERS.

No. 201.—In exercise of the powers vested in him by Rule 6 of the Timber Rules, 1900, made under the Land Enactment, 1897, the Acting Resident has been pleased to authorise the issue of \$3 passes to wood-cutters and sawyers, within the areas mentioned below, provided that the timber cut and removed under these passes is for use within those areas.

KUALA KANGSAR DISTRICT.

Mukims of Saiong; Senggang; Bota; Lambor Kiri; Lambor Kanan.

SELAMA DISTRICT.

All that portion lying to the North of the Ijok Bridge.

ULU PERAK.

The whole, with the exception of the Mukim of Lenggong.

LOWER PERAK DISTRICT.

The whole, with the exception of the Mukims of S'tiawan, Durien Sabatang and Changkat Jong.

27th March, 1901.

PENSIONS REGULATIONS.

No. 202.—The following schedule is, by order of the Acting Resident, substituted for the schedule of Pensionable offices, published in the *Gazette* of the 9th day of September, 1898, under Notification No. 559.

SCHEDULE B.

PENSIONABLE OFFICES.

(*Those printed in italics will not be pensionable on the appointment of a successor to the present holders of such offices.*)

RESIDENT :—

British Resident
Resident's Clerk
Type-writer
Malay Writer

SECRETARIAT :—

Secretary to Government
Assistant do.
Second Assistant do.
Office Assistant
Chief Clerk
First do.
Record Clerk
Second do.
Third do.
Fourth do.
Malay Writer
Cadets

CHINESE SECRETARIAT :—

Protector of Chinese
Opium Inspector

PRINTING OFFICE :—

Government Printer
Foreman
Chief Compositor
First Compositor
Compositors (two)
Machine Foreman
First Pressman
Chief Clerk
Second Clerk

LAND OFFICE :—

Larut—
Collector of Land Revenue

NOTIFICATION

UNDER ORDER IN COUNCIL NO. 2 OF 1896.

No. 203.—It is hereby notified that under the provisions of Order in Council No. 2 of 1896, intituled "Inventions Order in Council, 1896," the specification of Messrs. Fisher and Foster of their invention for Rock Drilling Machines, Power Hammers and like reciprocating tools, has been accepted. The petition and specification are open for inspection at the Perak Museum, Taiping.

The petition for a grant of exclusive privilege of this invention will be considered by H.H. the Sultan in Council, at Kuala Kangsar, at 11 a.m. on Saturday the 1st June, 1901, and any person interested in opposing the prayer of the petition may serve on the Secretary to Government a notice, on a paper bearing a stamp of the value of \$1, of his intention to oppose, and any person so serving a notice will be heard by H.H. the Sultan in Council in opposition to the prayer of the said petition at the place and time hereinbefore mentioned.

29th March, 1891.

NOTIFICATIONS UNDER SECTION 6 OF THE
 LAND ENACTMENT, 1897.

RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 204.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims that parcel of land

situated at Toh Alang Skah, described in the schedule hereto, and delineated upon Revenue Survey Plan No. 8,033, deposited in the office of the District Surveyor, Kinta, to be a reserve for the purpose of a Burial Ground for the Malay community of Kampar, to be maintained by Muhammad Said bin Aiat and Haji Abas bin Balok.

SCHEDULE.

District—Kinta. *Mukim*—Kampar. *Plan No.*—8,033. *Lot No.*—1,129. *Area*—5 acres and 29 poles. *Boundaries*—North by Plan Nos. 3,993, 3,988 and State Land; East by Plan No. 4,003 and State Land; South by Plan No. 3,988 and State Land; West by State Land.

This Notification is made under Section 6 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 20th day of March, 1901,

A. R. VENNING,
Secretary to Government

No. 205.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims that parcel of land situated at Pulo Pisang, described in the schedule hereto, and delineated upon Revenue Survey Plan No. 4,852, deposited in the office of the District Surveyor, Kinta, to be a reserve for the purpose of a public fishing ground to be maintained by the Penghulu of Kampar for the time being.

SCHEDULE.

District—Kinta. *Mukim*—Kampar. *Plan No.*—4,852. *Lot No.*—700. *Area*—15 acres and 16 poles. *Boundaries*—North by State Land and Lot No. 379; East by Lot No. 379 and State Land; South by Lot No. 699; West by Lot Nos. 701 and 691 and State Land.

This Notification is made under Section 6 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 25th day of March, 1901.

DEPARTMENTAL NOTICE.

RULES RESPECTING ISSUE OF FREE PASSES TO
SCHOOL CHILDREN.

No. 218.—Any child attending school may be granted a 3rd class free pass for that purpose by the Railway.

2. 1st and 2nd class free passes will only be issued to school children on the authority of the Resident, and children holding such free passes will only be allowed to travel in a carriage of the superior class after the requirements of paying passengers have been satisfied.

3. The free passes will only be available by certain trains, which will be notified by the Railway authorities to the Inspector of Schools.

4. The privilege will be forfeited by any child detected carrying anything except personal luggage in the train.

5. Books of passes will be issued to the Inspector of Schools who will issue them to the various Schoolmasters.

6. Each boy on leaving school will receive two single passes, one to take him home and the other to bring him back.

7. Free passes will not be issued to children residing in the portion of Colonial territory through which the Government Railway runs, except in the case of the children of employes on the Government Railway.

27th March, 1901.

LAND OFFICE NOTICES.

MATANG.

No. 25.—Application having been made to the Collector of Land Revenue, at Matang, by Chuah Liew of Selinsing, for an extract from the Mukim Register for land held under Mukim Register No. 57, situated at Selinsing, in the district of Matang, on the ground that Chuah Liew is the registered owner thereof and that the original Extract from the Mukim Register No. 57, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue, for refusing these applications the new titles applied for will, subject to the provisions of the said Section 13, be granted.

4th January, 1901

R. CLAYTON,
Acting Collector of Land Revenue.

KUALA KANGSAR.

No. 83.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Raja Homza bin Rajah Ibrahim of Pachat in Senggang, for a new document of title for land situated in the mukim of Senggang, in the district of Kuala Kangsar, and described in Permit No. 79 of 1893, on the ground that Raja Hamza bin Raja Ibrahim is the registered owner thereof, and that the original Permit No. 79 of 1893, whereby the land was demised to him, has been lost:

No. 84.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Mastan of Penang (Applicant under Order in Council No. 3 of 1893) for a new document of title for land situated in the mukim of Lubok Merbau, in the district of

Kuala Kangsar, and described in Permit No. 707 of 1891, on the ground that Muhammad Salleh is the registered owner thereof, and that the original Permit No. 707 of 1891, whereby the land was demised to Muhammad Salleh, has been lost :

No. 85.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Anjang Teksha binti Itam Tokoh of Chegar Galah, for new document of title for lands situated in the mukim of Chegar Galah, in the district of Kuala Kangsar, and described in Permit Nos. 3,198 of 1886 and 924 of 1890, on the ground that Anjang Teksa binti Itam Tokoh has become the purchaser at an auction sale, and that the said original permits are said to be with Itam Amin whose whereabouts are not known :

No. 86.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Tejah binti Lebai of Blanja, for a new document of title for land situated in the mukim of Blanja, in the district of Kuala Kangsar, described in Permit No. 6,821 of 1886, on the ground that Pandak Ribut is the registered owner thereof, and that the original Permit No. 6,821 of 1886, whereby the land was demised to him, has been lost :

31st January, 1901.

No. 54.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Rastam bin Muhammad of Saiong, for a new document of title for land described in Extract No. 530, and situated in the mukim of Saiong, on the ground that Si Abul bin Muhammad is the registered owner thereof, and that the original Extract No. 530, whereby the land was demised to Si Abul bin Muhammad, has been lost :

No. 55.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Ma' Ali bin Kulup Ahmad of Yalang, for a new document of title for land described in Permit No. 388 of 1887, and situated in the mukim of Saiong, on the ground that he is the registered owner thereof, and that the original Permit No. 388 of 1887, whereby the land was demised to him, has been lost :

No. 56.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Mabob bin Anjang Ayan of Kota Lama Kanan, for a new document of title for land described in Permit No. 279 of 1890, and situated in the mukim of Kota Lama Kanan, on the ground that Muhammad Amin bin Anjang Ayan is the registered owner thereof, and that the original Permit No. 279 of 1890, whereby the land was demised to Muhammad Amin bin Anjang Ayan, has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

18th January, 1901.

F. ROBERTSON,
Acting Collector of Land Revenue.

KINTA.

No. 170.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Wooi Lim Seng, for two new titles to land situated at Menglembu, of the Kinta District, on the ground that the said Wooi Lim Seng is the registered owner thereof, and that the original agreement for Town Leases Nos. 911 and 918 have been lost :

No. 171.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Muhammad Yusuf Datoh Panglima Kinta bin Datoh Lasam, for the issue of a Mining Lease Plan No. 7,588, on the ground that the said Muhammad Yusuf Datoh Panglima Kinta bin Datoh Lasam, is the registered owner of Mining Certificate No. 34/1899 for Mining Lease Plan No. 7,588, and that the Original Mining Certificate No. 34/1899 has been lost :

15th March, 1901.

No. 29.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Sung Yen of Ipoh, for a new Mining Lease of land situated at Ulu Johar, of the Kinta District, on the ground that the said Sung Yen is the registered owner thereof, and that the Original Mining Lease No. 1,776 has been destroyed by fire :

No. 30.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin of Kwala Dipang, for a title for land situated at Kwala Dipang, of the Kinta District, on the ground

that the said Uda Mat Noh bin Laiman and Haji Fatima binti Long Medin are the registered owners thereof, and that the Original Agreement for Agricultural Lease No. 1,993 has been lost :

In accordance with the provisions of Section 33 (*d*) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Government Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections be granted.

4th January, 1901.

No. 26.—It is hereby notified that Ahmad bin Sabtu, or other persons claiming any interest in Plan No. 1,690, comprising 29 poles of land in the mukim of Ulu Kinta, is hereby required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, there to establish his claim, in default whereof such land will be deemed to be State land and will be dealt with accordingly.

4th January, 1901.

NOTICES UNDER SECTION 11 OF THE LAND ENACTMENT, 1897.

No. 27.—It is hereby notified that Busuk Uso, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 724, of the Kinta District, now surveyed as Plan No. 1,689, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$8.91, being cost of survey of the said land :

No. 28.—It is hereby notified that Aman bin Girun, or any persons claiming under him to be entitled to the land described in Agreement for Agricultural Lease No. 723, of the Kinta District, now surveyed as Plan No. 1,687, in the mukim of Ulu Kinta, are required to attend at the Land Office, Batu Gajah, within three months from the date of this notice, and to deliver up the said Agreement in order that a grant may issue in exchange and to pay \$12.04, being cost of survey of the said land :

Failure to comply with the terms of these notices will render the said Agreements for Agricultural Leases liable to cancellation.

4th January, 1901.

NOTICE OF FORFEITURE OF TITLE FOR DEFAULT IN RESPECT OF CONDITIONS.

No. 118.—To Bakar bin Ngah Ali and all persons interested in agreement for Mining Lease, Kinta, No. 467.

Take notice that whereas you have for nine years failed to pay the rent reserved by agreement for Mining Lease No. 467, registered in your name and more particularly described in the schedule hereto, it is the intention of the Government to cancel the said title in default of good cause shewn to the contrary within three months from the date of publication of this notice in the *Gazette*.

SCHEDULE.

Title—Agreement for Mining Lease No. 467. Owner—Bakar bin Ngah Ali. Mukim—Ulu Kinta. Locality—Anak Ayer Sampah. Area—5 acres.

No. 174.—Application having been made to the Collector of Land Revenue, at Krian, by Wong Ah Wong of Parit Buntar, for a new document of title for a piece of land situated at Parit Buntar, in the mukim of Parit Buntar, on the ground that Wong Ah Wong is the registered owner thereof, and that the original Permit No. 179 has been lost:

No. 175.—Application having been made to the Collector of Land Revenue, at Krian, by Haji Mat Arsath bin Lebye Hamid of Matang Julutong, Bagan Serai, for a new document of title for a piece of land situated at Matang Julutong, in the mukim of Bagan Serai, on the ground that Haji Mat Arsath bin Lebye Hamid is the registered owner thereof, and that the original Permit No. 1,288 has been lost:

No. 176.—Application having been made to the Collector of Land Revenue, at Krian, by Muhammad Serah bin Aman of Bagan Serai, for a new document of title for a piece of land situated at Bagan Serai, in the mukim of Bagan Serai, on the ground that Muhammad Serah bin Aman is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 3,342 has been lost:

No. 177.—Application having been made to the Collector of Land Revenue, at Krian, by Kristna Punaken, son of Arunasalam, of Simpang Lima, Parit Buntar, for a new document of title for a piece of land situated at Simpang Lima, in the mukim of Parit Buntar, on the ground that Kristna Punaken, son of Arunasalam, is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 7,899 has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the new documents of titles applied for will, subject to the provisions of the said Section 13, be granted.

15th March, 1901.

F. A. S. McCLELLAND,
Acting Collector of Land Revenue.

LOWER PERAK.

No. 219.—Application having been made to the Collector of Land Revenue, at Teluk Anson, by Haji Nawawi bin Haji Abdulrahman, of Durien Sabatang, for three extracts from the register, situated at Bendang Siam, in the Durien Sabatang mukim of the Lower Perak district, on the ground that Haji Nawawi bin Haji Abdulrahman is the registered owner thereof and that the original Extracts No. 266, 539 and 540 have been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application the extracts from the register applied for will, subject to the provisions of the said Section 13, be granted.

29th March, 1901.

N. KENDALL.
Collector of Land Revenue.

UPPER PERAK.

No. 178.—Application having been made to the Collector of Land Revenue, at Upper Perak, by Kulup Jamaldin bin Haji Abdulla Yah of Lenggong, for a document of title for land situated at Ayer Rambutan, in the mukim of Lenggong, on the ground that the applicant is the registered owner thereof, and that the original Mukim Extract No. 684 has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application, the new document of title applied for will, subject to the provisions of the said Section 13, be granted.

15th March, 1901.

H. BERKELEY,
Collector of Land Revenue.

SELAMA.

No. 220.—To the Landholder named in the Schedule hereto :

Take notice that whereas you have abandoned the land described hereunder, in the mukim of Ulu Selama, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such land or unless you enter or re-enter into occupation of such land by making a *bond fide* commencement to cultivate it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 29th day of March, 1901.

SCHEDULE.

Mukim—Ulu Selama. *Nature of Title*—Agreement. *Title No.*—542. *Name of Holder*—Muhammad bin Muhammad. *Area*—8 acres, 1 rood and 5 poles. *Annual Rent*—\$5.10.

RAJA CHULAN,
Collector of Land Revenue.

NOTES.

MOSQUITOES AND MALARIA.*

In a great world-Empire like ours no medical question can be of more importance than the study of malaria. When we speak of one of our possessions as "unhealthy," it is in terms of malaria that we judge it. It has been said that half the mortality of the human race is due to malaria. No doubt this is an exaggeration, but there are vast tracts of our Empire in which something approaching to it is the sober truth. "Of all the diseases of our tropical possessions," says Dr. Willoughby Gardner in his interesting address to a branch of the British Medical Association, "by far the most important is malaria. It is the principal cause both of sickness and of death; it undermines the health of millions; it makes vast regions, which would otherwise be our richest possessions, almost uninhabitable. In India alone it kills every year some five million people—twice as many as cholera, small-pox, plague, and all other infectious diseases put together. In one year there we find seventy-five thousand of our soldiers, out of a total of one hundred and seventy thousand, admitted into hospital for malarial fever." The West Coast of Africa is far worse. Indeed, as one contemplates the gruesome charts which indicate the diseases of the world, one is almost tempted to agree with the writer in the *Quarterly* who says of the malarial germ that it has "played a greater part in human affairs than the greatest politician or general that ever lived." Fortunately there are signs that before the new century is very old we shall have a grip on this deadly little organism which will keep its ravages within the bounds of reason, even if they are not altogether stayed. No recent discovery—perhaps none since Lord Lister had the beneficent idea of antiseptic surgery—promises to be charged with greater hygienic possibilities than that on which Major Ross lately set the crowning pinnacle. It is the work of a number of men, among whom we are glad to be able to say that two Englishmen, Major Ross and Dr. Manson, have taken a conspicuous part. Everyone has a general idea of its significance, but its grandeur and simplicity are only fully apparent to such as take the trouble to master so able a history of its growth as is to be found in the full and learned work on *Malaria according to the New Researches*, now translated from the Italian of Professor Celli, who is the Director of the Roman Institute of Hygiene, and may thus be said to stand at the European head-quarters of the war with malaria in which the great final campaign is now being opened.

The deadly disease which the Romans christened malaria, from the general belief—not wholly erroneous, though disproved in the narrow sense—that it was conveyed by poisonous air, has been known from the beginning of history as one of the most constant scourges of humanity. Only within recent times have we banished ague or "chills and fever" from our own islands, where this form of malaria long flourished, and claimed Cromwell and the Scottish Solomon among its victims. The first step in dealing with it was the discovery, made in the dawn of sanitation, and familiar to the Romans, that marshes and deficient drainage had much to do with its origin. The intensive cultivation which led to the draining of the fens and the smaller marshes drove malaria from our island. The next step was the discovery that the bark of the Peruvian cinchona was an infallible specific

* (1) *Malaria according to the New Researches*. By Professor Angelo Celli. Translated by John Joseph Eyre. London: Longmans and Co. [10s. 6d.]—(2) *Malaria*. By H. Willoughby Gardner. Birmingham: Hall and English. [6d.]

for all forms of malaria. Perhaps the voyage of Columbus conferred no greater benefit upon suffering humanity than the discovery of this substance, and the quinine which is prepared from it. In the middle of the last century, when the germ-theory of disease was slowly dawning on students, Virchow and others noticed the peculiar black pigment which is always present in the blood-corpuscles of a sufferer from malaria. The next great step was taken in 1880 by Laveran, a French army-surgeon, then stationed in Algiers, who recognised the malaria germs in the blood of one of his patients. Study of these tiny organisms showed that they were not bacteria, but very elementary animals, whose attacks on the red corpuscles of the blood, in which they live and feed, are the actual cause of all the phenomena which constitute the varying types of malarial fever. Quinine, alone among drugs at present known to us, instantly kills the germs, and is thus a never-failing remedy. It remained to study the history of the malarial germs outside of the human system. How were they received into the body, and how could they be prevented from passing on to others? The full answer to this question, with its far-reaching consequences, has now, as we believe, been discovered. It had been suspected for ages that mosquitoes had some connection with the spread of malaria. Travellers knew by experience that the use of mosquito-curtains was a wise precaution against fever. In 1894 Dr. Patrick Manson, by a brilliant process of inductive reasoning, put forward the theory that the malarial germs were injected into the human blood by the bite of mosquitoes which had previously absorbed them with the blood of malarial patients. The first experimental proof of this theory was given by Major Ross's discovery of malarial germs in the body of a certain mosquito. We now know that the germ of human malaria is, like the tapeworm, an example of what is called "alternate generation." It cannot survive in man alone, nor in mosquitoes alone. For the complete cycle of its reproduction, it needs to move from one to the other and back again. It may, indeed, multiply exceedingly by asexual division in the human blood, but its life is limited to the life of its host—when he dies, the germs die too—they are incapable of separate existence, like bacteria, and cannot be handed on to other men. The mosquito here comes in. It bites a fevered man, and carries away a germ or two in the drop of blood on which it feeds. In its body the parasite has a true sexual reproduction. When the mosquito next bites a healthy man, it probably injects one or two germs into his blood, where they multiply asexually, and give him "a touch of fever." The whole arrangement is so ingenious and well balanced that it can hardly fail to provoke admiration in the eyes of those who live in a country where malaria does not exist.

Scientific interest, however, must yield to practical considerations, and the attempt to exterminate the malarial germ will be hampered by none of the sentimental considerations which have fought unavailingly for the great auk and the dodo and are struggling for the giraffe and the bison. The problem of extinguishing malaria is now before us as a practical one, though highly complex and difficult. There are clearly two ways of attacking it. The existence of men, malarial germs, and mosquitoes is alike essential to the perpetuation of malaria. To extinguish man is obviously out of the question, but if we can destroy either the germs or the particular mosquito—*Anopheles*—which acts as their temporary host and bridal chamber, we shall solve the problem. The actual extermination of the mosquitoes which convey malaria is a somewhat formidable undertaking, but an active crusade is already in progress which should at least diminish their numbers. Various schemes have been put forward, which are described in Professor Celli's book, and by means of which Major Ross thinks that it should be possible to stamp out *Anopheles* in the neighbourhood of all towns. It is not an enterprising insect, and does not fly far from its home, whence

comes the health of Italian villages built on the rocks that rise out of the most deadly plains. But on the whole there is more prospect of success in the task of destroying the malarial germ itself. This is made possible by the fact that this parasite cannot live outside one of its hosts, and if all connection between the two is cut off it must perish with the death of the last malarial patient—so far as we know at present, for it is not quite certain that the mosquito hypothesis covers the whole of the facts, though everything points in that direction. To that end means must be taken to prevent mosquitoes of the *Anopheles* family from biting men. Drs. Low and Sambon have shown this summer that it is possible to live with impunity in the most deadly regions of Italy, by taking precautions to ensure against the bites of *Anopheles*. As at present she—for it is the female that does nearly all the mischief—only bites at or after sunset, this is quite consistent with the carrying on of agriculture. It remains to be seen whether the mosquito, if it finds no one to bite at night, will have the intelligence to rearrange its hunting hours; we gather from some remarks of Professor Celli that he thinks such a thing possible. But the intelligence of man is greater than that of any conceivable mosquito, and it is quite within the bounds of expectation that, now that we know so much about the mechanism of malaria, its ravages will be greatly limited, if not abolished. In Italy, which is the European country most interested in the matter, serious steps are now being taken to bring this about. Professor Celli himself is urging the Government to undertake the provision of quinine at cost price, in order that the germ may be fought in man. The greater difficulty will, as he says, consist in persuading the peasants to take the precautions necessary to avoid the envenomed bites of *Anopheles*. The isolation of all malarial subjects, from whom the mosquito would otherwise obtain the germ to pass on to its next victim, is an expensive but a possible resource, analogous to the plan which has done so much to check the spread of rabies among dogs. It remains for our own Government to take up the campaign against malaria within our Empire. Nothing could be more urgent; no money could be spent with a better prospect of return in the life and health of our best men. And at the same time we hope to see adequate recognition of the work done by Major Ross and the other English officials who have shown us how to fight and destroy the most deadly and insidious of tropical foes.—*Spectator*, February 9th, 1901.

FEDERAL.

APPOINTMENT.

Mr. Walter Williams to be Foreman Platelayer, Federated Malay States Railways, with effect from the 14th February, 1901.

Mr. Williams reported his arrival on the 29th March, 1901.

WIDOWS AND ORPHANS PENSION FUND.

Under the provisions of Section II of the Widows and Orphans Pension Fund Order in Council, No. 7 of 1896, the Resident-General has been pleased to appoint the following public servants to be Directors of the Widows and Orphans Pension Fund for the year 1901:—

Mr. L. P. Ebdon, *Chairman*; Mr. A. Hale; Mr. A. M. Pountney; Mr. G. Koch; Mr. F. W. Talbot.

THE following Notifications are, by Command of the Acting Resident, published for general information.

A. R. VENNING,
Secretary to Government.

APPOINTMENT.

No. 222.—Mr. John Albert Arthur Toft to be a Settlement Officer, with effect from the 10th April, 1901.

LEAVE.

No. 223.—Mr. Arthur Bligh Stephens, Forest Officer, reported his return from leave of absence and resumed duties on the 5th April, 1901.

No. 224.—The leave granted to Mr. Carlo Ferdinando Bozzolo, District Magistrate, Upper Perak, has been further extended with half salary for two months, with effect from the 19th March, 1901.

No. 225.—Mr. Edward Henry Wallich, District Engineer, Larut and Matang, has been granted three months' vacation leave, to be followed by twelve months' leave on half salary, with effect from the 13th April, 1901.

DISMISSAL.

No. 226.—Mr. Alfred Fernandez, Driver, Kinta Valley Railway, has been dismissed from the service, with effect from the 8th February, 1901.

APPOINTMENT OF VISITOR, LUNATIC ASYLUM.

No. 227.—Under the powers invested in him by the provisions of Section 27 (if) of "The Lunacy Enactment," No. 12. of 1898, the Acting Resident has been pleased to appoint Mr. William George Maxwell to be a Visitor of the Lunatic Asylum, Taiping, *vice* Mr. Edward Shaw Hose.

4th April, 1901.

APPOINTMENT UNDER THE MINING ENACTMENT, 1899.

No. 228.—In pursuance of the powers vested in him by Section 81 (i) of the Mining Enactment, 1899, the Acting Resident has been pleased to appoint the following officer to carry out the provisions of this Enactment, as hereinafter set forth :—

ASSISTANT OVERSEER.

Iman Din, to be Assistant Overseer of Mines, Gopeng, with effect from the 1st March, 1901, *vice* Wazira, resigned.

4th April, 1901.

PERAK—SELANGOR BOUNDARY.

No. 229.—It is hereby notified that the boundary between the States of Perak and Selangor is the middle of the Bernam river as heretofore, and that the portion of land, about three acres in area, between the old course of the river and the new course thereof, near Tanjong Malim Railway Bridge, which was formerly Perak territory, is now Selangor territory.

3rd April, 1901.

ORDER MADE BY HIS HIGHNESS THE SULTAN UNDER THE "BANISHMENT ENACTMENT, 1899."

No. 230.—Whereas it appears to His Highness the Sultan that the removal from the State of the persons enumerated in the schedule hereto is necessary for the public safety and welfare ;

It is hereby ordered by His Highness the Sultan, with the advice and consent of the Acting Resident, that the persons so enumerated shall be, and they hereby are, banished from the State for the period of their natural lives.

3rd April, 1901.

NOTIFICATION
UNDER ORDER IN COUNCIL NO. 2 OF 1896.

No. 203.—It is hereby notified that under the provisions of Order in Council No. 2 of 1896, intituled "Inventions Order in Council, 1896," the specification of Messrs. Fisher and Foster of their invention for Rock Drilling Machines, Power Hammers and like reciprocating tools, has been accepted. The petition and specification are open for inspection at the Perak Museum, Taiping.

The petition for a grant of exclusive privilege of this invention will be considered by H.H. the Sultan in Council, at Kuala Kangsar, at 11 a.m. on Saturday the 1st June, 1901, and any person interested in opposing the prayer of the petition may serve on the Secretary to Government a notice, on a paper bearing a stamp of the value of \$1, of his intention to oppose, and any person so serving a notice will be heard by H.H. the Sultan in Council in opposition to the prayer of the said petition at the place and time hereinbefore mentioned.

29th March, 1891.

NOTIFICATIONS UNDER SECTION 6 OF THE
LAND ENACTMENT, 1897.

RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 232.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims those parcels of land situated at Ulu Bernam, described in the schedule hereto, and delineated upon Revenue Survey Plan Nos. 117-4, 117-8 and 118-9, deposited in the office of the Assistant District Magistrate, Tanjong Malim, to be a reserve for the purpose of Government buildings, to be maintained by the Chief Surveyor, Perak.

SCHEDULE.

District.	Mukim.	Plan No.	Area.	Boundaries.
			A. R. P.

SANITARY BOARDS.

LARUT.

APPOINTMENT OF CHAIRMAN.

No. 234.—With reference to Notification No. 329, published in the *Gazette* of 25th May, 1900, the Acting Resident has been pleased to appoint Mr. F. St. G. Caulfeild, State Engineer, to be Chairman of the Sanitary Board, Larut, *vice* Mr. E. H. Wallich, with effect from the 13th April, 1901.

10th April, 1901.

REGISTRATION OF JINRIKISHAS.

No. 235.—Notice is hereby given that the Registration of Jinrikishas in the districts of Larut, Kuala Kangsar and Matang, will commence on Wednesday, the 1st day of May, 1901, at the Sanitary Board Office, Taiping.

Registration hours will be from 10 a.m. to 4 p.m., except Saturdays, Sundays and public holidays.

The colour of the number plates for registered jinrikishas in the afore-named districts for period 1st May, 1901, to 31st August, 1901, will be brown figures on a white back ground.

29th March, 1901.

TENDERS.

STAFF QUARTERS, TAIPING.

No. 236.—Tenders are invited for the erection of one set of Railway staff quarters at Taiping.

Sealed tenders, marked on the outside "Railway Staff Quarters, Taiping," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 1st May, 1901.

Tenders must state the time required and the security offered for the completion of the work. Plan and specification may be seen and further particulars obtained at the office of the Resident Engineer for Railways, Taiping.

10th April, 1901.

BUILDINGS, LARUT.

No. 209.—Tenders are invited for the construction of the following buildings:—

(1) Quarantine Camp, Port Weld; (2) New Store Room, Larut Gaol.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Public Works Department Buildings," and will be received at his Office not later than noon on Monday, the 15th April, 1901.

Plans and specifications can be seen at the District Engineer's office in Taiping.

29th March, 1901.

STAFF QUARTERS, TAIPING.

No. 211.—Tenders are invited for the erection of two sets of staff quarters at Taiping.

Sealed tenders, marked on the outside "Tender for Railway Staff Quarters, Taiping," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 17th April, 1901.

Tenders must state the time required and the security offered for the completion of the work. Plan and specification may be seen and further particulars obtained at the office of the Resident Engineer for Railways, Taiping.

29th March, 1901.

BUILDINGS, KINTA.

No. 212.—Tenders are invited for the construction of the following buildings in the Kinta District:—

(1) A School at Batu Karang; (2) A Teacher's quarters at Batu Karang. For each of these alternative prices should be given, substituting 12-inch square hard wood tongkats for brick pillars, ataps with tindet for tiles and wooden for brick steps; (3) The removal and reconstruction on a new site of one Hospital Dresser's quarters, now standing near the Gaol wall, replacing the ataps by a tiled roof, removing all rotten woodwork, painting throughout and concreting the kitchen covered way, etc; (4) New quarters for the Assistant Magistrate at Gopeng, including painting throughout.

Sealed tenders, marked on the outside "Tender for Buildings, Kinta," will be received at the office of the Secretary to Government, Taiping, not later than noon on Tuesday, the 16th of April, 1901.

Plans and specifications can be seen at the Deputy State Engineer's office in Batu Gajah.

15th March, 1901.

STAFF QUARTERS, KAMPAR.

No. 214.—Tenders are invited for the erection of one set of railway staff quarters, Kampar.

Sealed tenders, marked on the outside "Tender for Railway Staff Quarters, Kampar," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 18th April, 1901.

Plans and specification may be seen, and further particulars obtained at the offices of the Resident Engineer for Railways, Taiping, and the District Railway Engineer, Ipoh.

26th March, 1901.

STAFF QUARTERS, TELUK ANSON.

No. 215.—Tenders are invited for the erection of one set of railway staff quarters at Teluk Anson.

Sealed tenders, marked on the outside "Tender for Railway Staff Quarters, Teluk Anson," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 18th April, 1901.

Plans and specification may be seen, and further particulars obtained at the offices of the Resident Engineer for Railways, Taiping, and the District Railway Engineer, Ipoh.

26th March, 1901.

DEVIATION OF ROAD, ULU SA'PETANG.

No. 216.—Tenders are invited for the deviation of Selama road at Ulu Sa'petang.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Deviation of Road at Ulu Sa'petang," and will be received at his Office up to noon on Monday, the 15th April, 1901.

Plans and specifications can be seen at the District Engineer's Office in Taiping.

29th March, 1901.

Government does not bind itself to accept the lowest or any other tender.

LAND OFFICE NOTICES.

KUALA KANGSAR.

No. 83.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Raja Homza bin Rajah Ibrahim of Pachat in Senggang, for a new document of title for land situated in the mukim of Senggang, in the district of Kuala Kangsar, and described in Permit No. 79 of 1893, on the ground that Raja Hamza bin Raja Ibrahim is the registered owner thereof, and that the original Permit No. 79 of 1893, whereby the land was demised to him, has been lost :

No. 84.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Mastan of Penang (Applicant under Order in Council No. 3 of 1893) for a new document of title for land situated in the mukim of Lubok Merbau, in the district of Kuala Kangsar, and described in Permit No. 707 of 1891, on the ground that Muhammad Salleh is the registered owner thereof, and that the original Permit No. 707 of 1891, whereby the land was demised to Muhammad Salleh, has been lost :

No. 85.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Anjang Teksha binti Itam Tokoh of Chegar Galah, for new document of title for lands situated in the mukim of Chegar Galah, in the district of Kuala Kangsar, and described in Permit Nos. 3,198 of 1886 and 924 of 1890, on the ground that Anjang Teksha binti Itam Tokoh has become the purchaser at an auction sale, and that the said original permits are said to be with Itam Amin whose whereabouts are not known :

No. 86.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Tejah binti Lebai of Blanja, for a new document of title for land situated in the mukim of Blanja, in the district of Kuala Kangsar, described in Permit No. 6,821 of 1886, on the ground that Pandak Ribut is the registered owner thereof, and that the original Permit No. 6,821 of 1886, whereby the land was demised to him, has been lost:

31st January, 1901.

No. 54.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Rastam bin Muhammad of Saiong, for a new document of title for land described in Extract No. 530, and situated in the mukim of Saiong, on the ground that Si Abul bin Muhammad is the registered owner thereof, and that the original Extract No. 530, whereby the land was demised to Si Abul bin Muhammad, has been lost:

No. 55.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Ma' Ali bin Kulup Ahmad of Yalang, for a new document of title for land described in Permit No. 388 of 1887, and situated in the mukim of Saiong, on the ground that he is the registered owner thereof, and that the original Permit No. 388 of 1887, whereby the land was demised to him, has been lost:

No. 56.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Mabob bin Anjang Ayan of Kota Lama Kanan, for a new document of title for land described in Permit No. 279 of 1890, and situated in the mukim of Kota Lama Kanan, on the ground that Muhammad Amin bin Anjang Ayan is the registered owner thereof, and that the original Permit No. 279 of 1890, whereby the land was demised to Muhammad Amin bin Anjang Ayan, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

18th January, 1901.

F. ROBERTSON,
Acting Collector of Land Revenue.

KINTA.

No. 170.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Wooi Lim Seng, for two new titles to land situated at Menglembu, of the Kinta District, on the ground that the said Wooi Lim Seng is the registered owner thereof, and that the original agreement for Town Leases Nos. 911 and 918 have been lost:

No. 171.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Muhammad Yusuf Dato Panglima Kinta bin Dato Lasam, for the issue of a Mining Lease Plan No. 7,588, on the ground that the said Muhammad Yusuf Dato Panglima Kinta bin Dato Lasam, is the registered owner of Mining Certificate No. 34/1899 for Mining Lease Plan No. 7,588, and that the Original Mining Certificate No. 34/1899 has been lost:

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Government Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections be granted.

15th March, 1901.

NOTICE OF FORFEITURE OF TITLE FOR DEFAULT IN RESPECT OF CONDITIONS.

No. 118.—To Bakar bin Ngah Ali and all persons interested in agreement for Mining Lease, Kinta, No. 467.

Take notice that whereas you have for nine years failed to pay the rent reserved by agreement for Mining Lease No. 467, registered in your name and more particularly described in the schedule hereto, it is the intention of the Government to cancel the said title in default of good cause shewn to the contrary within three months from the date of publication of this notice in the *Gazette*.

SCHEDULE.

Title—Agreement for Mining Lease No. 467. *Owner*—Bakar bin Ngah Ali. *Mukim*—Ulu Kinta. *Locality*—Anak Ayer Sampah. *Area*—5 acres.

15th February, 1901.

F. BELFIELD,
Collector of Land Revenue.

BATANG PADANG.

No. 238.—Application having been made to the Collector of Land Revenue, Batang Padang, by Ngui Hee Ngeong of Kampar, for a new document of title for land situated in the mukim of Chenderiang, in the district of Batang Padang, on the ground that Ngui Hee Ngeong is the registered owner thereof, and that the original Mining Lease No. 83, whereby the land was demised to her, has been lost :

In accordance with the provisions of Section 30 (*d*) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new title applied for will, subject to the provisions of the said sections, be granted.

12th April, 1901.

No. 172.—Application having been made to the Collector of Land Revenue, at Tapah, by Kasim bin Patan of Chenderiang, for a new document of title for land situated at Chenderiang, in the district of Batang Padang, on the ground that Kasim bin Patan is the registered owner thereof, and that the original Old Certificate No. 524, whereby the land was demised to him, has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application the new title applied for will, subject to the provisions of the said Section 13, be granted.

15th March, 1901.

R. CLAYTON,
Acting Collector of Land Revenue.

No. 87.—Application having been made to the Collector of Land Revenue, Batang Padang, at Tapah, by Muhammad Abun bin Kunda Dris of Tapah, for a new document of title for land situated at Chenderiang mukim, in the district of Batang Padang, on the ground that Muhammad Abun is the registered owner thereof, and that the original Old Certificate No. 684 has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new Title applied for will, subject to the provisions of the said Section 13, be granted.

1st February, 1901.

J. C. SUGARS,
Ag. Collector of Land Revenue.

Kampong Lenggong, in the mukim of Lenggong, on the ground that Sahat bin Said is the registered owner thereof and that the original Mukim Extract No. 7 has been lost:

12th April, 1901.

No. 178.—Application having been made to the Collector of Land Revenue, at Upper Perak, by Kulup Jamaldin bin Haji Abdulla Yah of Lenggong, for a document of title for land situated at Ayer Rambutan, in the mukim of Lenggong, on the ground that the applicant is the registered owner thereof, and that the original Mukim Extract No. 684 has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new document of title applied for will, subject to the provisions of the said Section 13, be granted.

15th March, 1901.

H. BERKELEY,
Collector of Land Revenue.

NOTICE UNDER SECTION 30 OF THE LAND ENACTMENT, 1897.

No. 242.—Notice is hereby given that Lim Tait of Sumpitan claims to be entitled to a piece of land at Sumpitan, measuring one acre, or thereabouts, and bounded as follows:—On the North by State Land, on the East by State Land, on the South by Lot No. 1,509, and on the West by the Cart Road; and has applied to me for an order declaring that he is so entitled.

Any person having any objection to make to such order must lodge such objection at the Land Office at Janing, on or before the 28th day of April, 1901. No objection will be received after that date.

27th March, 1901.

SELAMA.

No. 220.—To the Landholder named in the Schedule hereto:

Take notice that whereas you have abandoned the land described hereunder, in the mukim of Ulu Selama, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such land or unless you enter or re-enter into occupation of such land by making a *bond fide* commencement to cultivate it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 29th day of March, 1901.

SCHEDULE.

Mukim—Ulu Selama. Nature of Title—Agreement. Title No.—542. Name of Holder—Muhammad bin Muhammad. Area—8 acres, 1 rood and 5 poles. Annual Rent—\$5.10.

RAJA CHULAN,
Collector of Land Revenue.

REGISTRATION OFFICE NOTICES.

UNDER SECTION 81 OF THE REGISTRATION OF TITLES ENACTMENT, 1897.

No. 179.—Whereas declaration has been made by Tan Soh Lian of Taiping, of loss of titles, to wit:—

Lease for Agricultural Land—No. 1938.	Lot No.—46.)	All situate in the mukim of
" " " " 1941.	" 44.)	Pengkalan Aor, in the District
" " " " 1954.	" 71.)	of Larut.

Notice is hereby given that Certificates of Title will issue in respect of the above on the expiration of one month from the date of publication hereof in the absence of proper cause shewn by that time to the contrary.

15th March, 1901.

E. S. HOSE,
Acting Registrar of Titles, North.

No. 180.—Application having been made to the Registrar of Titles, South, at Batu Gajah, by Jemabang bin Jenaga of Siputeh, for four provisional Certificates of Titles for land situated at Siputeh, of the Kinta district, on the ground that the said Jemabang bin Jenaga is the registered owner thereof, and that the original Agricultural Leases Nos. 898 and 425 and Town Leases Nos. 1,120 and 1,635 have been lost:

Notice is hereby given that provisional Certificates of Titles will issue in respect of the above on the expiration of one month from the date of publication hereof in the absence of proper cause shewn by that time to the contrary.

15th March, 1901.

F. BELFIELD,
Registrar of Titles, South.

NOTICES UNDER SUCCESSION DUTIES AMENDMENT ORDER IN COUNCIL, NO. 3 OF 1893.

UPPER PERAK.

No. 181.—Application having been made to the undersigned, by Mat Noor bin Mat Driss of Kampong Che Eng, in mukim Temelong, for an order declaring the applicant to be entitled to two pieces of land, described in Temelong Mukim Register Nos. 202 and 495, and registered in the name of Mat Driss bin Sancee, deceased, on the ground that the applicant is the eldest son of the said deceased, and that there is no other claimant:

No. 182.—Application having been made to the undersigned by Abbas bin Kulop Sharit of Lenggong, for an order declaring the applicant to be entitled to a piece of land, described in Mining Lease No. 4, and registered in the names of the said Abbas bin Kulop Sharit and Kulop Mat Jasat bin Lamat, on the ground that the applicant was the partner of the said Kulop Mat Jasat bin Lamat, who has died intestate, and that there is no other claimant:

No. 183.—Application having been made to the undersigned by Timah binti Samoh of Lenggong, for an order declaring the applicant to be entitled to a piece of land, described in Lenggong Mukim Register No. 793, and registered in the name of Long Muntra, deceased, on the ground that the applicant is the mother of the deceased, and there is no other claimant:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, as amended by Order in Council No. 12 of 1894, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the undersigned for refusing the above applications the orders applied for will be granted, and the titles transferred to the names of the respective claimants.

15th March, 1901.

H. BERKELEY,
District Magistrate.

15th April, 1901.

BOUNDARIES.

PARIT BUNTAR, BAGAN SERAI, KUALA KURAU AND
SIMPANG LIMA.

No. 252.—In exercise of the powers conferred upon him by Section 10 of the Land Enactment, No. 17 of 1897, the Acting Resident has been pleased to define the boundaries of the township of Parit Buntar, and the villages of Bagan Serai, Kuala Kurau and Simpang Lima, as follows:—

PARIT BUNTAR.

Description.—Commencing at the junction of the Denison and Boundary roads the boundary follows the ditch on the north side of the latter road till it meets the Krian river; thence it runs, southward, along the west bank of the Krian river to the ditch at the north-east corner of lot No. 130; thence along the ditch forming the northern boundary of lots Nos. 130 and 131 to the junction of the ditch forming the eastern boundary of lot No. 129b; thence along the eastern boundary of lots Nos. 129b, 129a and 129; crossing the Denison road the boundary runs along the north of lot No. 129 and thence along the ditch forming the eastern boundary of the Railway reserve to the Boundary road and point of commencement.

BAGAN SERAI.

Description.—Commencing from the main trunk road, at the west corner of lot No. 899, the boundary follows the north of the said lot, and crossing the Selama road the south of lots Nos. 1,456, 1,455 and 1,447, as far as the Hospital road; thence it runs southwards along the said road to the main trunk road; thence westward along the main trunk road to lot No. 1,771; thence along the north of lots Nos. 1,771, 1,770, 1,759 and 1,758; thence along the western boundaries of lots Nos. 1,758, 1,761, 1,764 and 1,765 to the Kurau river; thence along the north bank of the Kurau river; thence along the eastern boundaries of lots Nos. 24, 24a and 23a to the main trunk road, the point of commencement.

KUALA KURAU.

Description.—Commencing on the Coast road the boundary runs along the ditch forming the southern boundary of lots Nos. 612, 1,744 and 1,745; thence along the Siakup to the Kurau river; thence along the north bank of the Kurau river to a point 7 chains west of the

jetty; thence 7 chains north-west to lot No. 1,858; thence $4\frac{1}{2}$ chains along the south-east boundary of lot No. 1,858; thence along the eastern boundary of lots Nos. 1,858 and 1,859; thence south of lot No. 1,851 to the point of commencement on the Coast road.

SIMPANG LIMA.

Description.—Commencing on the north side of the Canal road the boundary is the division between lots Nos. 177 and 178 as far as the main trunk road, crossing the said road it follows the southern boundary of lot No. 175; thence turning in a south-easterly direction it runs between lots Nos. 169 and 176, crossing the Canal road, it follows the east and southern boundary of lot No. 563 adjoining lot No. 564, crossing the main trunk road it follows the northern boundary of lot No. 710 and the north-eastern boundary of lot No. 709a, crossing the Jalan Bharu road, it follows the north-eastern boundary of lots Nos. 708, 707, 706 and 705; thence to the Canal road, the point of commencement.

10th April, 1901.

NOTIFICATION

UNDER ORDER IN COUNCIL NO. 2 OF 1896.

No. 203.—It is hereby notified that under the provisions of Order in Council No. 2 of 1896, intituled "Inventions Order in Council, 1896," the specification of Messrs. Fisher and Foster of their invention for Rock Drilling Machines, Power Hammers and like reciprocating tools, has been accepted. The petition and specification are open for inspection at the Perak Museum, Taiping.

The petition for a grant of exclusive privilege of this invention will be considered by H.H. the Sultan in Council, at Kuala Kangsar, at 11 a.m. on Saturday the 1st June, 1901, and any person interested in opposing the prayer of the petition may serve on the Secretary to Government a notice, on a paper bearing a stamp of the value of \$1, of his intention to oppose, and any person so serving a notice will be heard by H.H. the Sultan in Council in opposition to the prayer of the said petition at the place and time hereinbefore mentioned.

29th March, 1891.

NOTIFICATIONS UNDER SECTION 6 OF THE LAND ENACTMENT, 1897.

RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 233.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims that parcel of land situated at Tronoh, described in the schedule hereto, and delineated upon Revenue Survey Plan No. 7,634, deposited in the office of the District Surveyor, Kinta, to be a reserve for the purpose of a Chinese Cemetery, to be maintained by the Chang Yin Fah, on behalf of the Chinese Community of Tronoh.

TENDERS.

SUPPLY OF BEEF AND MUTTON, TAIPING.

No. 254.—Tenders are invited for the supply of Beef and Mutton, to be sold in the Taiping Market at prices quoted in the tender, by (a) joint, (b) weight.

(1) Monopoly of sale for (a) twelve months; (b) twenty-four months.

(2) Monopoly for the sale of (a) Indian (including Rangoon cattle and sheep); (b) Siamese and Malay Peninsula cattle and sheep.

Sealed tenders, marked on the outside "Tender for Meat Supply," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 31st May, 1901.

Each tender must be accompanied by a Treasury Receipt for a cash deposit of \$25, otherwise it will not be considered.

Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Beef to be supplied, at least, twice, and Mutton three times a week.

All cattle and sheep to be subject to inspection under the Sanitary Board Bye-laws.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

24th April, 1901.

Government does not bind itself to accept the highest or any other tender.

ROAD COOLIE LINES.

No. 255.—Tenders are invited for the construction of permanent coolie lines for road coolies, stating different prices for each room built, at Changkat Lara, Krian Road, Kuala Kangsar Road, Trong Road, Matang, Port Weld and Taiping.

These should be addressed to the Secretary to Government, sealed and marked on the outside "Tender for Road Coolie Lines," and will be received at his office up to noon on Thursday, the 2nd May, 1901.

Plans and specifications can be seen at the District Engineer's Office in Taiping.

26th April, 1901.

SANITARY BOARD COOLIE LINES.

No. 256.—Tenders are invited for the construction of permanent coolie lines for Sanitary Board Coolies, stating prices for each room built in Taiping.

These should be addressed to the Secretary to Government, sealed and marked on the outside "Tender for Sanitary Board Coolie Lines," and will be received at his office up to noon on Thursday, the 2nd May, 1901.

Plans and specifications can be seen at the District Engineer's Office in Taiping.

26th April, 1901.

RAILWAY STAFF QUARTERS, TAIPING.

No. 257.—Separate tenders are invited for the erection of five sets of railway staff quarters at Taiping.

Sealed tenders, marked on the outside "Tender for Railway Staff Quarters, Taiping," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 15th May, 1901.

Tenders must state the time required and the security offered for the completion of the work.

Plans may be seen and further particulars obtained at the office of the Resident Engineer for Railways, Taiping.

26th April, 1901.

RAILWAY STAFF QUARTERS, KUALA KANGSAR.

No. 258.—Separate tenders are invited for the erection of five sets of railway staff quarters at Kuala Kangsar.

Sealed tenders, marked on the outside "Tender for Railway Staff Quarters, Kuala Kangsar," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 15th May, 1901.

Tenders must state the time required and the security offered for the completion of the work.

Plans and specification may be seen, and further particulars obtained at the offices of the Resident Engineer for Railways, Taiping, and the District Railway Engineer, Ipoh.

26th April, 1901.

RAILWAY STAFF QUARTERS, TELUK ANSON.

No. 259.—Tenders are invited for the erection of one set of railway staff quarters at Teluk Anson.

Sealed tenders, marked on the outside "Tender for Railway Staff Quarters, Teluk Anson," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 2nd May, 1901.

C. R. HANSON,
Resident Engineer for Railways.

TAIPING, 19th April, 1901.

WIDOWS AND ORPHANS' FUND, F.M.S.

We have the honour to submit our report on the working of the Widows and Orphans' Pension Fund for the year ending 31st December, 1900.

2. POSITION OF THE FUND.—The amount to the credit of the Fund on the 31st December, 1900, was \$42,939.47, made up as follows:—

Receipts, 1900	...	...	...	...	...	...	...	\$17,640.62
Expenditure, 1900	...	...	...	...	...	...	...	2,271.42
Balance	...	...	...	...	...	...	...	15,369.20
Add Balance on 31st December, 1899	...	...	...	...	...	...	...	26,670.27
Total on 31st December, 1900	...	...	...	...	...	...	...	\$42,039.47

It should be mentioned that the Crown Agents' accounts from October and the amount for two months' pension to Mrs. Sears (in India) have not yet been brought to debit in the books of the Fund. This, if brought to account, would have reduced the balance by about \$600, but against this, the contributions for the four States of the Federation for December (about \$1,340) have not been brought to account.

3. The probable increment to the Fund for next year may roughly be put thus—

Receipts.				Expenditure.			
Contributions	...	...	\$16,500	Pensions	...	...	\$2,954
Interest	...	...	3,200	Working expenses (say)	...	...	400
Total	...	...	\$19,700	Total	...	...	\$3,354

i.e., a probable credit balance on the year's working of \$16,346.

4. CONTRIBUTORS.—On the 31st December, 1900, the number of contributors on the books of the Fund was 274 and on the 31st December, 1899, 231, being an increase of 43. Of the contributors three are pensioners, and two in the Service of the Government of Hongkong. The number of officers who joined the Fund in 1900 was 71.

The following number of contributors ceased to contribute during the year:—

By death	...	...	...	...	...	...	...	3
„ being found not entitled to contribute	...	...	...	...	...	...	...	9
„ retiring through ill-health	...	...	...	...	...	...	...	1
„ dismissal	...	...	...	...	...	...	...	3
„ resignation	...	...	...	...	...	...	...	12
Total	...	...	...	...	...	...	...	28

5. PENSIONS.—Three contributors died during the course of the year—viz., Joseph Laurence Greene, Head Master, Central School, Taiping, Perak, on 27th February; Alfred James Brigley, Trig. Surveyor, Perak, on 15th September; and George Eggleston Cromptey, Chief Clerk, Resident-General's Office, Kuala Lumpur, on 22nd December. Mr. Brigley was unmarried.

The pensions payable from the Fund on 31st December, 1900, are as follows:—

Mrs. Emily Sears	...	...	...	...	...	\$252.05 per annum
Mrs. Theodora Syers	...	...	...	...	...	747.60 „
Mrs. Charlotte Welch	...	...	...	...	...	518.25 „
Mrs. Frances Leach	...	...	...	...	...	167.58 „
Mrs. Charlotte Brewer	...	...	...	...	...	186.62 „
Mrs. May Gaynor	...	...	...	...	...	101.52 „
Mrs. Annie Ada Greene	...	...	...	...	...	115.57 „
Mrs. Mildred Cromptey	...	...	...	...	...	264.38 „
Total	...	...	...	...	...	\$2,353.57

6. MEETINGS.—Four meetings were held by the Directors during the year.

7. DIRECTORS.—The Board of Directors for the year consisted of the Commissioner of Police (Capt. H. L. Talbot), the Inspector of Schools, Federated Malay States (Mr. J. Driver), the Acting Secretary to Resident-General, Federated Malay States (Mr. Oliver Marks), the Warden of Mines, Selangor (Mr. C. E. M. Desborough), and the Chief Clerk, Treasury, Selangor (Mr. G. Koch).

During the latter part of the year, the Inspector of Schools, Federated Malay States, proceeded on long leave to England and was replaced on the Board by the Collector of Land Revenue and Registrar of Titles, Selangor (Mr. A. Hale).

The Warden of Mines, Selangor, also proceeded on leave to Europe and was unable to be present at the last meeting of the Directors.

8. GENERAL.—The revision of the Rules and Regulations of the Fund, which was begun at the close of last year, was completed and approved by the Acting Resident-General (W. H. Treacher, Esq., C.M.G.) on 24th July. These Rules have been printed and published in all the *Gazettes* of the Federated Malay States and distributed to the contributors of the Fund.

9. An audit of the accounts of the Fund from 1st January, 1899, to 31st July, 1900, was held in August by the Federal Accountant and Auditor, who reported that the books were in a satisfactory condition, being kept in accordance with the suggestions of the previous Auditors and made up to date. The Federal Auditor also recommended that the books of the Fund should be submitted for audit on the close of each half year.

10. Several individual cases have been dealt with and a complete record of the decisions arrived at in each instance will be found in the minutes of the meetings held during the year.

FEDERAL.

APPOINTMENTS.

The Acting Resident-General has been pleased to appoint Mr. D. G. Campbell to be Examiner in Malay for the Federated Malay States, *vice* Mr. E. S. Hose, absent on leave.

Mr. Henry George Richards to be an Assistant Engineer, Federated Malay States Railways, with effect from the 14th March, 1901.

Mr. Richards reported his arrival on the 20th April, 1901.

DESPATCH FROM HIS EXCELLENCY THE
HIGH COMMISSIONER.

The following letter from His Excellency the High Commissioner to the Resident-General, Federated Malay States, is published for general information.

(Copy.)

HIGH COMMISSIONER'S OFFICE,

SINGAPORE, 25th April, 1901.

SIR,

I have the honour to thank you for the assistance given in welcoming their Royal Highnesses to Singapore.

The Mounted escort, the Malay States Guides, the Band, and the beautiful offerings from the Federated Malay States, all added greatly to the interest and effect of the various ceremonies.

I was glad to be able to give the Sultans of all the Federated Malay States the distinguished honour of personal presentation to their Royal Highnesses and I trust you will convey to all of them my thanks for their attendance, accompanied by their chiefs, and such a brilliant assemblage of followers. Their Royal Highnesses were pleased to express their great pleasure in being thus able to make their personal acquaintance of the Rulers of the protected Malay States.

I have the honour to be,

Sir,

Your most obedient servant,

(Signed) FRANK SWETTENHAM.

THE RESIDENT-GENERAL,

FEDERATED MALAY STATES.

CIRCULAR DESPATCH FROM THE FOREIGN OFFICE.

(Copy.)

CIRCULAR.

TREATY.

FOREIGN OFFICE, 9th January, 1901.

SIR,

Questions have arisen with regard to the national status of natural born and naturalized citizens of the late South African Republic and of the late Orange Free State, who were not within the limits of those territories at the time of their respective annexations and incorporations in Her Majesty's Dominions. The present instructions are framed for your information and guidance in dealing with any claims to British Protection that may be advanced by persons in these categories and with applications for British passports.

By virtue of a Proclamation by the Field-Marshal Commanding-in-Chief Her Majesty's Forces in South Africa, dated the 24th May, and published on the 28th May, 1900, the territory, theretofore known as the Orange Free State, was annexed to, and made to form part of Her Majesty's Dominions, under the name of the Orange River Colony; and, by virtue of a further Proclamation, dated and published on the 1st September, 1900, the territory, theretofore known as the South African Republic, was annexed to, and made to form part of Her Majesty's Dominions, under the name of the Transvaal. These Proclamations were to come into force from the date of their publication, and came into force accordingly on the 28th May and the 1st September, respectively.

Her Majesty's Government are advised that the effect of these annexations is to confer the status of British subject upon such persons as were either (a) natural born, or (b) naturalized citizens of either of the Republics, and who were actually within the limits of the territories annexed at the time of the publication of the Proclamations.

Her Majesty's Government do not, however, claim to impose the status of British subject on persons belonging to either of the above-mentioned categories who were not within the limits of these territories at the time of annexation, unless they subsequently return thereto, or voluntarily claim the status of British subject, by virtue of the annexation.

In the case of persons who have become naturalized citizens of either of the late Republics, and who lay claim to British nationality on the ground above-mentioned, it will be necessary, before granting them British protection in their country of origin, to require them to adduce satisfactory evidence that they have divested themselves of their nationality of origin in accordance with the laws of that country. In the absence of such evidence, a person so situated will not be entitled to British protection when within its limits.

With regard to applications for passports, it has not yet been found possible to allow refugees to return to the territories which have been annexed, and for the present it rests entirely with the local military authorities to decide whether and when persons can be permitted to return to them.

In dealing with applications for passports made by persons of the category mentioned at the commencement of this despatch, for other purposes than that of proceeding to the territories now annexed, applicants should be required to sign a written declaration stating (1) that they ^{(a) were} _{(b) were not} in the annexed States at the time of their annexation to Her Majesty's Dominions, and (2) that theretofore they were Burghers, by birth or by naturalization, in these States which have since been annexed.

Persons falling within class (a) should be required to state also that they are consequently British subjects; while those falling within class (b) should, in addition, be required to state in writing that they desire to become, and in all respects to be treated as British subjects. They should further be required to give such information as will make it possible to test the accuracy of their statements should it be deemed expedient to do so. In cases that appear to you to be of a doubtful or suspicious character, you should report the circumstances to Her Majesty's Government in order that the necessary enquiries may be instituted before a passport is granted.

I am, etc.,

(Signed) F. H. VILLIERS.

HER MAJESTY'S CONSUL-GENERAL FOR BORNEO,
SINGAPORE.

THE following Notifications are, by Command of the Acting Resident, published for general information.

D. G. CAMPBELL,
Acting Secretary to Government.

APPOINTMENTS.

No. 280.—Mr. Cecil Pearse, Inspector of Mines, Kinta, to act as Warden of Mines, South, in addition to his own duties, with effect from the 22nd April, 1901, *vice* Mr. E. A. Irving transferred for service in Hongkong.

No. 281.—Mr. Edward Francis Palgrave to be a District Surgeon, with effect from the 28th March, 1901.

Mr. Palgrave reported his arrival on the 6th May, 1901.

LEAVE.

No. 282.—Mr. Charles Egerton Donaldson, Collector of Land Revenue, Matang, has been granted three months vacation leave, to be followed by nine months leave with half salary, with effect from the 7th May, 1901.

No. 283.—Mr. George Frederick Bird, District Engineer, Krian, has been granted two months' vacation leave, with effect from the 22nd April, 1901.

No. 284.—Mr. Alfred George Crane, Settlement Officer, has been granted two months and two days vacation leave, to be followed by twenty-eight days leave with half salary, with effect from the 27th April, 1901.

RULES FOR PADI PLANTING OPERATIONS FOR THE SEASON 1901-1902.

KUALA KANGSAR DISTRICT.

No. 285.—Nurseries are to be commenced within the period of fourteen days extending from 27th June (10th of Rabi-al-awal) to 11th July (24th of Rabi-al-awal).

Prior to the later date above mentioned the preparation of all *padi* fields by clearing and burning stubble, clearing water-courses, and strengthening all banks in the fields is to be begun; and these operations are to be continued systematically until their completion.

The planting out of *padi* plants from the nurseries is to be commenced not later than 21st August (6th of Jemad-al-awal) and completed by 21st September (7th of Jemad-al-achir).

It shall be lawful for the District Magistrate to alter at any time the dates on which any of the above mentioned operations shall take place, if, owing to drought or for other reasons, it is found expedient to do so,

provided that in this case due notice of such alteration shall be given to planters and others concerned.

Any person committing a breach of any of these rules shall be liable, on conviction before a Magistrate, to the penalty prescribed under Section 110 of the Land Enactment.

9th May, 1901.

RATE OF EXCHANGE.

No. 286.—The rate of exchange for the adjustment of accounts with the Crown Agents has been fixed at 2s. to the dollar for the second quarter of the current year.

3rd May, 1901.

NOTIFICATION

UNDER ORDER IN COUNCIL NO. 2 OF 1896.

No. 203.—It is hereby notified that under the provisions of Order in Council No. 2 of 1896, intituled "Inventions Order in Council, 1896," the specification of Messrs. Fisher and Foster of their invention for Rock Drilling Machines, Power Hammers and like reciprocating tools, has been accepted. The petition and specification are open for inspection at the Perak Museum, Taiping.

The petition for a grant of exclusive privilege of this invention will be considered by H.H. the Sultan in Council, at Kuala Kangsar, at 11 a.m. on Saturday the 1st June, 1901, and any person interested in opposing the prayer of the petition may serve on the Secretary to Government a notice, on a paper bearing a stamp of the value of \$1, of his intention to oppose, and any person so serving a notice will be heard by H.H. the Sultan in Council in opposition to the prayer of the said petition at the place and time hereinbefore mentioned.

29th March, 1891.

1st May, 1901.

BATANG PADANG.

REGISTRATION OF JINRIKISHAS.

No. 292.—Notice is hereby given that the Registration of all Jinrikishas in the Batang Padang district, for the second period of 1901, will commence on Wednesday the 15th day of May, 1901.

The number plates authorised have white letters and figures on a blue back ground. The figure 2 in white will be upon each plate to show that the Jinrikisha has been duly licensed for the second period.

10th May, 1901.

TENDERS.

RAILWAY CARRIAGE SHED, TAIPING.

No. 293.—Tenders are invited for the erection of a railway carriage shed at Taiping.

Sealed tenders, marked on the outside "Tender for Railway Carriage Shed, Taiping," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 31st May, 1901.

Tenders must state the time required and the security offered for the completion of the work.

Plans and specifications may be seen, and further particulars obtained at the office of the Resident Engineer for Railways, Taiping.

6th May, 1901.

GOODS SHED, TAIPING.

No. 294.—Tenders are invited for the erection of a goods shed at Taiping.

Sealed tenders, marked on the outside "Tender for Goods Shed, Taiping," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 31st May, 1901.

Tenders must state the time required and the security offered for the completion of the work.

Plan and specification may be seen, and further particulars obtained at the office of the Resident Engineer for Railways, Taiping.

6th May, 1901.

RAILWAY STAFF QUARTERS, TAIPING.

No. 257.—Separate tenders are invited for the erection of five sets of railway staff quarters at Taiping.

Sealed tenders, marked on the outside "Tender for Railway Staff Quarters, Taiping," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 15th May, 1901.

Tenders must state the time required and the security offered for the completion of the work.

Plans may be seen and further particulars obtained at the office of the Resident Engineer for Railways, Taiping.

26th April, 1901.

RAILWAY STAFF QUARTERS, KUALA KANGSAR.

No. 258.—Separate tenders are invited for the erection of five sets of railway staff quarters at Kuala Kangsar.

Sealed tenders, marked on the outside "Tender for Railway Staff Quarters, Kuala Kangsar," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 15th May, 1901.

Tenders must state the time required and the security offered for the completion of the work.

Plans and specification may be seen, and further particulars obtained at the offices of the Resident Engineer for Railways, Taiping, and the District Railway Engineer, Ipoh.

26th April, 1901.

BIKUM BRIDLE-PATH.

No. 261.—Tenders are invited for the construction of a bridle-path from the Main Trunk Road, near the Bikum Bridge, to the Kuala Bikum, a distance of about 6½ miles.

The tenders should also quote the price per foot run for squared timber bridging.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Bikum Bridle-path," and will be received at his Office up to noon on the 11th May, 1901.

Specifications can be seen at the District Engineer's Office in Tapah.

23rd April, 1901.

METALLING PLUS ROAD.

No. 262.—Tenders are invited for the metalling of the first three miles of the Plus Cart Road, commencing at its junction with the main trunk road near Sungei Siput. A roller will be supplied by the Public Works Department, and the tenders should state the name of the quarry from which the metal will be taken.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Metalling Plus Road," and will be received at his Office up to the 13th May, 1901.

Further information can be obtained at the District Engineer's Office in Kuala Kangsar and the State Engineer's Office, Taiping.

23rd April, 1901.

Government does not bind itself to accept the lowest or any other tender.

SUPPLY OF BEEF AND MUTTON, TAIPING.

No. 254.—Tenders are invited for the supply of Beef and Mutton, to be sold in the Taiping Market at prices quoted in the tender, by (a) joint, (b) weight.

(1) Monopoly of sale for (a) twelve months; (b) twenty-four months.

(2) Monopoly for the sale of (a) Indian (including Rangoon cattle and sheep); (b) Siamese and Malay Peninsula cattle and sheep.

Sealed tenders, marked on the outside "Tender for Meat Supply," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 31st May, 1901.

Each tender must be accompanied by a Treasury Receipt for a cash deposit of \$25, otherwise it will not be considered.

Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Beef to be supplied, at least, twice, and Mutton three times a week.

All cattle and sheep to be subject to inspection under the Sanitary Board Bye-laws.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

24th April, 1901.

Government does not bind itself to accept the highest or any other tender.

12th April, 1901.

No. 219.—Application having been made to the Collector of Land Revenue, at Teluk Anson, by Haji Nawawi bin Haji Abdulrahman, of Durien Sabatang, for three extracts from the register, situated at Bendang Siam, in the Durien Sabatang mukim of the Lower Perak district, on the ground that Haji Nawawi bin Haji Abdulrahman is the registered owner thereof and that the original Extracts No. 266, 539 and 540 have been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications the extracts from the register applied for will, subject to the provisions of the said Section 13, be granted.

N. KENDALL,

29th March, 1901.

Collector of Land Revenue.

UPPER PERAK.

No. 241.—Application having been made to the Collector of Land Revenue, at Upper Perak, by Sahat bin Said of Lenggong, for a new document of title for land situated at Kampong Lenggong, in the mukim of Lenggong, on the ground that Sahat bin Said is the registered owner thereof and that the original Mukim Extract No. 7 has been lost :

12th April, 1901.

No. 178.—Application having been made to the Collector of Land Revenue, at Upper Perak, by Kulup Jamaldin bin Haji Abdulla Yah of Lenggong, for a document of title for land situated at Ayer Rambutan, in the mukim of Lenggong, on the ground that the applicant is the registered owner thereof, and that the original Mukim Extract No. 684 has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new document of title applied for will, subject to the provisions of the said Section 13, be granted.

H. BERKELEY,

15th March, 1901.

Collector of Land Revenue.

SELAMA.

No. 220.—To the Landholder named in the Schedule hereto :

Take notice that whereas you have abandoned the land described hereunder, in the mukim of Ulu Selama, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such land or unless you enter or re-enter into occupation of such land by making a *bond fide* commencement to cultivate it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 29th day of March, 1901.

SCHEDULE.

Mukim—Ulu Selama. Nature of Title—Agreement. Title No.—542. Name of Holder—Muhammad bin Muhammad. Area—8 acres, 1 rood and 5 poles. Annual Rent—\$5.10.

RAJA CHULAN,

Collector of Land Revenue.

ADMINISTRATION NOTICES.

No. 302.—Notice is hereby given that an application has this day been made to the Court of First Class Magistrate, Kinta, holden at Batu Gajah, for letters of Administration to all and singular the goods and chattels, rights, credits and effects which were of Foo Yi Moey, late of Sungei Raia, in the district of Kinta, deceased, to be granted to Foo Kang Chong, on the ground that the applicant is the son of the said deceased:

No. 303.—Notice is hereby given that an application has this day been made to the Court of First Class Magistrate, Kinta, holden at Batu Gajah, for letters of Administration to all and singular the goods and chattels, rights, credits and effects which were of Haku, late of Pusing, in the district of Kinta, deceased, to be granted to Essar Singh, on the ground that the applicant is the elder brother of the said deceased:

Unless within one month from the date of publication of the above notices in the *Gazette* sufficient cause to the contrary be shewn to this Court, the letters applied for will be granted.

10th May, 1901.

CECIL WRAY,
District Magistrate, Kinta.

REGISTRATION OFFICE NOTICES.

UNDER SECTION 81 OF THE REGISTRATION OF TITLES ENACTMENT, 1897.

No. 269.—Application having been made to the Registrar of Titles, South, at Batu Gajah, by Muhammad Saleh bin Jaleh of Siputeh, for a provisional Certificate of Title for land situated at Blanja, of the Kinta district, on the ground that the said Muhammad Saleh bin Jaleh is the registered owner thereof, and that the original Agricultural Lease No. 757 has been lost:

Notice is hereby given that Certificates of Title will issue in respect of the above on the expiration of one month from the date of publication hereof in the absence of proper cause shewn by that time to the contrary.

26th April, 1901.

F. BELFIELD,
Registrar of Titles, South.

An Increase of ... 44,971 48

REPORT ON THE MALAY STATES GUIDES FOR THE YEAR 1900.*

COMMANDANT'S OFFICE, MALAY STATES GUIDES,
Taiping, 6th March, 1901.

I have the honour to forward my report on the Regiment under my command for 1900.

STRENGTH.

RETURN A.

2. On the last day of the year the Regiment was 2 Wing Officers, 2 Armourer-Apprentices and 14 Privates under strength. I have the same difficulty in obtaining apprentices; this is much to be regretted, and, until further inducements are held forth, I am afraid that there will be a deficiency.

RECRUITS.

RETURN B.

3. Three hundred and fifty-six natives of the Punjaub offered themselves for enlistment, as compared with 327 in 1899 and 248 in 1898. Two hundred and forty-eight were rejected by me for various reasons and seven medically unfit. Forty-seven had previously served in the Indian Army. With such competition, it is easy to maintain the already existing high standard.

DISCIPLINE.

RETURN C.

4. The discipline of the Regiment has been excellent, less crimes than in any previous year. By far the greater number of crimes were committed in Kuala Lumpur.

5. Total number of crimes 162, as compared with 216 in 1899 and 205 in 1898. This is a record for the Regiment.

6. One grave case in "E" Company: a murder in the Barrack Room. This case has not yet been disposed of.

7. I attach the usual statement, which contains many points of interest—

Nationality, Sikhs	...	...	...	...	...	531
" Pathans	...	...	...	...	...	35
" Punjaubi Mussulmans	...	...	...	...	...	49
Average age	...	...	...	...	26 years 8 months	
" service	...	...	...	...	4 " 4 "	
" height	...	...	...	...	5 feet 9½ inches	
Attending school	...	...	...	...	26	141
" (voluntary)	...	...	...	...	2	18
Married on strength	...	...	...	...	27	34

8. The new married quarters are now completed, but still the accommodation available is insufficient for the percentage allowed by Regulations.

ARTILLERY.

9. The establishment is complete. The gunners still maintain their high standard of efficiency. The annual gunnery course was carried out at the Dindings. The men exhibited the utmost keenness and the result exceeded all expectations, and reflects the greatest credit on Lieutenant and Quarter-master McKeon, who is responsible for the training of the gunners.

10. Of the 41 exercised, all qualified as marksmen. A separate report on this course has already been furnished.

MUSKETRY.

11. I attach the Annual Musketry Return D. One hundred and six men exercised in table "A" (recruits' course), 536 men in table "B" (trained soldiers' course). The figure of merit of the Regiment is $\frac{9.7}{5.0}$ ($\frac{\text{individual}}{\text{collective}}$ firing) as compared with $\frac{7}{4}$ of 1899. This shows a marked improvement on the year 1899. The result is most satisfactory, and shows the greatest interest taken by all ranks in this the most important of a soldier's duties.

* Returns not printed.

12. The figure of merit of the various Companies is as follows:—

	1900.	1899.
Guns	$\frac{97}{51}$	$\frac{91}{54}$
"A" Company	$\frac{96}{48}$	$\frac{101}{53}$
"B" "	$\frac{98}{45}$	$\frac{85}{36}$
"C" "	$\frac{97}{51}$	$\frac{91}{50}$
"D" "	$\frac{95}{48}$	$\frac{90}{39}$
"E" "	$\frac{95}{49}$	$\frac{85}{42}$

13. The best shot in the Regiment is Sergeant Gurdit Singh, with the splendid score of 155 out of a possible of 168.

14. It was impossible to carry out the battalion field firing, as there were no manoeuvres as in the previous year. At head-quarters, the Companies were exercised separately in field firing; it being quite out of the question to exercise them together, owing to want of a suitable range accommodation.

15. At Kuala Lumpur "C" and "E" Companies were exercised together. The results were satisfactory. The long range volleys were disappointing. The long range independent gave a larger percentage of hits.

16. The Umpire's report on all the field practices is attached.

17. The Gunners won the Warren Shield, open to all troops in the Straits Settlements. The shooting of the Company teams in this Competition stamps the shooting of the Regiment as of a very high order. A separate report on this subject has already been forwarded, and the Regiment has been complimented on their fine shooting by the Secretary of State for the Colonies.

18. The Rifle Ranges are in good order. New targets, with iron frames, are now being put up at Taiping; the old wooden frames being still utilised. This converts it from a 2-section to 4-section range.

ARMOURY.

19. The Armourer's report is attached and is another record of good work done. The subject of an Assistant Armourer has already been submitted. There are still two Armourer-Apprentices required. Until a further increase in pay is offered, I am afraid no candidates will be forthcoming.

20. I wish to testify to the excellent work done by Mr. Field and his staff.

CLOTHING DEPARTMENT.

21. Work was done to the value of 838,639.96. The Police Forces and Gaol Warders (with the exception of Selangor Warders) in the Federated Malay States are clothed by this department, which has apparently given satisfaction. All uniform should be fitted in the presence of an European officer, and not taken over until the clothing fits properly.

22. The clothing for the Guides has been well fitted, and I am quite satisfied with it.

23. Owing to the increased price of khaki, a new and cheaper pattern is being tried, which promises to be quite as suitable as the old pattern.

24. The new branch of the department, opened at Kuala Lumpur, has not been a success, owing to the unreliability and unsteadiness of the Assistant Master Tailor. He has been dismissed.

MEDICAL.

RETURN E.

25. I attach the Medical Officer's report. From this it will be seen that the health of the troops in Taiping has been very good.

26. There have been no outbreaks of an epidemic character.

27. The total number of admissions into hospital at Taiping were 504 as compared with 622 in 1899.

28. Daily average in hospital 7.15 with an average daily strength of 360. Percentage of sick per 1,000, 20.85. There were 4 deaths; percentage of deaths per 1,000 being 11.11, three of these being caused from remittent fever and the other death due to phthisis.

29. Thirteen men were discharged the service on medical grounds, chiefly on account of general debility following on chronic dyspepsia; only two were rendered inefficient by venereal disease. The percentage of venereal diseases to strength was 0.55. One man was sent away on sick leave, suffering from anæmia.

30. Three thousand and seven hundred out-patients were treated in the hospital as compared with 2,646 in 1899.

31. The Medical Officer and staff have performed their duties to my entire satisfaction.

32. At Kuala Lumpur, the health of the troops has been very satisfactory. Average daily sick in hospital 6.441 out of a daily average strength of 180.50. One death took place.

33. At Kuala Lipis the health was most unsatisfactory. It seems to have been a peculiarly unhealthy year at Kuala Lipis. The average daily strength was 56. Daily average sick in hospital 4.9. Number of sick per 1,000 of strength 87.50. One death occurred. Eight men were transferred on medical certificate.

The State Surgeon, Pahang, thinks that the unhealthiness is due to the drinking water; the rain water is run off the corrugated iron roofs into tanks and this has been used for drinking and washing. The State Surgeon is analyzing the water, but as yet has not made his report. River water is now used for all purposes.

SCHOOLS.

34. I attach a return (F) giving the daily average attendance—

				N.-C. Officers.		Privates.
Daily average attendance	...	...	...	3.45	...	55.61
„ voluntary class	...	...	...	3.59		

I should like to see a larger attendance at the voluntary class.

35. The half-yearly examinations gave satisfactory results.

FINANCE.

RETURN G.

36. The total expenditure under Personal Emoluments was \$158,631.88, a saving of \$10,428.12 on the Estimates, this being due to there being two Wing Officers under strength.

37. Under Other Charges, including supplementary votes, the amount expended was \$56,267.23, a saving of \$13,465.81; this is due to the Crown Agents not having executed the indents in full.

38. There has been a small saving on almost every vote.

39. The following Supplementary Estimates were granted:—

\$14,655.04	...	...	...	Stores, Arms, Ammunition, etc.,
1,000.00	...	...	...	Return Passages,
1,300.00	...	...	...	Recruiting.

OFFICERS.

40. The following movements took place amongst the officers:—

Major A. S. Vanrenen, Second in Command, returned from leave in England. Lieutenant P. L. Ingpen, Wing Officer, performed his duties in his absence and took over command of the detachment at Kuala Lumpur.

Colonel Walker was appointed to act as Resident, Perak, on 29th April. Major Vanrenen took over the duties of Acting Commandant on that day. Captain Ainslie, Acting as Second in Command and Lieutenant and Adjutant A. McD. Graham acting as Wing Commander, in addition to his duties.

Lieutenant C. H. Payne, Wing Officer, proceeded on leave to Europe on 24th March and was seconded for service with Gold Coast Constabulary on 25th July, 1900.

I regret to announce the deaths of Lieutenant C. H. Payne and Captain H. Galloway, Royal Lancaster Regiment, Wing Officers. Lieutenant Payne died in West Coast, Africa, when seconded for service with Gold Coast Constabulary; Captain Galloway died at Taiping on the 31st May. Both these officers performed their duties with zeal and energy, and their sudden death was a great loss to the Regiment.

Captain J. H. Davidson-Houston, Assistant Superintendent of Police, Penang, was seconded for service with Malay States Guides on 14th March, and resigned his appointment on 10th April.

Captain G. D. Baillie Hamilton, 7th Battalion Royal Fusiliers, was seconded for service with Malay States Guides on 23rd August.

Subadar-Major Bhola Singh, after over 23 years of faithful and exemplary service, retired on a well-earned pension. I regret to say he died soon after his return to India.

GENERAL.

41. Owing to the paucity of officers it was quite impossible to hold any manœuvres; and in some cases the field training could not be carried out.

42. Commissions, signed by His Honour the High Commissioner, were granted to Colonel Walker, Lieutenants Graham and Adam, Lieutenant and Quarter-master McKeon and Medical Officer Lieutenant Legge.

43. A scheme for Colonial rank was also approved of by the Secretary of State for the Colonies.

44. The Government Printer's account amounted to \$431.

A. S. VANRENEN, MAJOR,
Acting Commandant, M.S.G.

The
Perak Government Gazette.

PUBLISHED BY AUTHORITY.

No. 19.] TAIPING, FRIDAY, MAY 24, 1901. [VOL. XIV.

PUBLIC HOLIDAY.

No. 324.—Friday, the 24th May, "Victoria Day," will be observed as a Public Holiday throughout the State.

RULES FOR PADI PLANTING OPERATIONS FOR THE
SEASON 1901-1902.

LOWER PERAK DISTRICT.

No. 325.—The preparing of all fields, clearing of water-courses and drains and repairing the banks of each field, to be commenced not later than 21st June.

Nurseries to be commenced by 1st July and completed by 15th July.

The planting of *padi* to be commenced not later than 1st August and completed by 31st August.

It shall be lawful for the District Magistrate to alter the dates on which any of the above operations are to be carried out, if it is found expedient to do so owing to drought. Any such alteration shall be published in the *Gazette* and notice given locally.

Any person committing a breach of any of these rules shall be liable, on conviction before a Magistrate, to the penalty prescribed under Section 110 of the Land Enactment.

9th May, 1901.

UPPER PERAK DISTRICT.

No. 326.—All *padi* fields to be irrigated by 1st July, all nurseries to be commenced by the 1st July and completed by the 15th July.

The fields to be planted between 1st and 15th August.

It shall be lawful for the District Magistrate to alter these dates if it be found expedient to do so owing to drought. Any such alterations shall be published in the *Gazette* and notice given locally.

Any person committing a breach of any of these rules will be liable, on conviction before a Magistrate, to the penalty prescribed under Section 110 of the Land Enactment.

29th April, 1901.

FEDERATED MALAY STATES.

STATE OF PERAK.

MINING ENACTMENT, 1899.

No. 327.—Rule under Section 113 (i) of the above-mentioned Enactment, made by the Acting Resident, with the approval of the Resident-General, on the 18th day of April, 1901, and published in the *Gazette* on the 24th day of May, 1901.

Subject to any special instructions by the Resident, given with the sanction of the Resident-General, in exceptional cases the quit rent

payable under Section 12 (i) of the above Enactment shall, until further notice, be at the rate of \$1 per acre or part of an acre, and shall be payable in advance, without demand, on the 1st day of January in each year at the Land Office of the District in which the land is situated.

Rent on land alienated within the current year shall be payable at the above rate, in advance, on the day of alienation if alienated on or prior to the 30th day of September.

If alienated subsequent to the 30th day of September, rent shall be payable at the rate of 50 cents per acre for the current year.

GOVERNMENT OF PERAK.

SALE OF MINING LAND BY TENDER.

KINTA DISTRICT.

No. 328.—Tenders are invited for the right to mine the lands hereunder specified, situated in the district of Kinta:—

No. of Survey Plan.	Area.			Mukim.	Locality.	Annual Rent.
	A.	R.	P.			\$
3,613	16	1	9	Kampar	Talam	17
7,971	92	1	15	Teja	Kota Bahru	93
7,972	98	0	14	"	"	99
7,973	91	0	6	"	"	92

The titles will be Leases for 21 years under the Mining Enactment, No. 5 of 1899.

Rent will be payable from January 1st, 1902.

Tenders which must refer to each block separately, and must be accompanied by a deposit of 25 per cent of the amount tendered, should be addressed under sealed cover, marked "Tender for Mining Land," to the District Magistrate, Kinta, at Batu Gajah, so as to reach him on or before noon, on the 1st July, 1901.

Deposits will be returned if tenders are not accepted; successful tenderers will be required to complete purchase within 14 days.

Plans and results of boring may be seen, and all further particulars obtained at the Land Office, Batu Gajah.

The Government does not bind itself to accept the highest or any tender.

24th May, 1901.

NOTIFICATION

UNDER ORDER IN COUNCIL NO. 2 OF 1896.

No. 203.—It is hereby notified that under the provisions of Order in Council No. 2 of 1896, intituled "Inventions Order in Council, 1896," the specification of Messrs. Fisher and Foster of their invention for Rock

Drilling Machines, Power Hammers and like reciprocating tools, has been accepted. The petition and specification are open for inspection at the Perak Museum, Taiping.

The petition for a grant of exclusive privilege of this invention will be considered by H.H. the Sultan in Council, at Kuala Kangsar, at 11 a.m. on Saturday the 1st June, 1901, and any person interested in opposing the prayer of the petition may serve on the Secretary to Government a notice, on a paper bearing a stamp of the value of \$1, of his intention to oppose, and any person so serving a notice will be heard by H.H. the Sultan in Council in opposition to the prayer of the said petition at the place and time hereinbefore mentioned.

29th March, 1891.

NOTIFICATIONS UNDER SECTION 6 OF THE LAND ENACTMENT, 1897.

RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 329.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims that parcel of land situated at Sungei Kota Tali Ayer, described in the schedule hereto, and delineated upon Revenue Survey Plan No. 1-10, deposited in the office of the District Surveyor, Parit Buntar, to be a reserve for the purpose of a Mosque for the Malay Community, to be maintained by the Imam, Penghulu Masjid and Bilal, of the Sungei Kota Mosque.

TENDERS.

LATRINE, NEW PUBLIC OFFICES, TAIPING.

No. 333.—Tenders are invited for the construction of a Latrine for new Government offices, Taiping.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Latrine, New Public Offices, Taiping," and will be received at his Office up to noon on Monday, the 10th of June, 1901.

Plans and specifications can be seen at the District Engineer's Office in Taiping.

22nd May, 1901.

PORTLAND CEMENT, KRIAN.

No. 334.—Tenders are invited for the supply of 3,000 barrels of Portland Cement, for Krian Irrigation Works, to be delivered in four consignments (monthly) from the end of June onwards.

Sealed tenders, marked on the outside "Tender for Portland Cement, Krian Irrigation Works," will be received at the office of the Secretary to Government not later than 10th June, 1901.

Particulars and specification can be got on application to the Irrigation Engineer at Bagan Serai.

22nd May, 1901.

BUILDINGS, KINTA.

No. 335.—Tenders are invited for the construction of (1) A School house and Teacher's quarters at Kampar; (2) Addition of two Bed rooms, Ipoh Rest-house; (3) Addition of two Bed rooms, Kampar Rest-house; (4) Teacher's quarters for Batu Gajah School; (5) Mortuary, Gopeng Hospital; (6) Watchman's quarters, Gopeng Hospital; (7) An Officer's quarters at Batu Gajah.

Sealed tenders, marked on the outside "Tender for Buildings, Kinta," will be received at the office of the Secretary to Government, Taiping, not later than noon on Wednesday, the 5th June, 1901.

Plans and specifications can be seen at the Deputy State Engineer's office in Batu Gajah.

21st May, 1901.

QUARANTINE STATION BUILDINGS, LOWER PERAK.

No. 336.—Tenders are invited for the construction of a Quarantine Station for Cattle in the Lower Perak District.

Sealed tenders, marked on the outside "Tender for Quarantine Station Buildings, Lower Perak," will be received at the office of the Secretary to Government, Taiping, not later than the 15th June, 1901.

Plans and specifications can be seen at the Assistant Engineer's office in Teluk Anson.

21st May, 1901.

RAILWAY CARRIAGE SHED, TAIPING.

No. 293.—Tenders are invited for the erection of a railway carriage shed at Taiping.

Sealed tenders, marked on the outside "Tender for Railway Carriage Shed, Taiping," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 31st May, 1901.

Tenders must state the time required and the security offered for the completion of the work.

Plans and specifications may be seen, and further particulars obtained at the office of the Resident Engineer for Railways, Taiping.

6th May, 1901.

GOODS SHED, TAIPING.

No. 294.—Tenders are invited for the erection of a goods shed at Taiping.

Sealed tenders, marked on the outside "Tender for Goods Shed, Taiping," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 31st May, 1901.

Tenders must state the time required and the security offered for the completion of the work.

Plan and specification may be seen, and further particulars obtained at the office of the Resident Engineer for Railways, Taiping.

6th May, 1901.

Government does not bind itself to accept the lowest or any other tender.

SUPPLY OF BEEF AND MUTTON, TAIPING.

No. 254.—Tenders are invited for the supply of Beef and Mutton, to be sold in the Taiping Market at prices quoted in the tender, by (a) joint, (b) weight.

(1) Monopoly of sale for (a) twelve months; (b) twenty-four months.

(2) Monopoly for the sale of (a) Indian (including Rangoon cattle and sheep); (b) Siamese and Malay Peninsula cattle and sheep.

Sealed tenders, marked on the outside "Tender for Meat Supply," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 31st May, 1901.

Each tender must be accompanied by a Treasury Receipt for a cash deposit of \$25, otherwise it will not be considered.

Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Beef to be supplied, at least, twice, and Mutton three times a week.

All cattle and sheep to be subject to inspection under the Sanitary Board Bye-laws.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

24th April, 1901.

Government does not bind itself to accept the highest or any other tender.

LAND OFFICE NOTICES.

BATANG PADANG.

No. 339.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder, in the mukims of Batang Padang, Chantleriang, Bidor and Sungkai, in the district of Batang Padang, the said lands are liable to forfeiture under the provisions of Section 8 (b) of the Order in Council No. 6 of 1891, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Commissioner of Lands and Mines or the District Magistrate, that you have not abandoned such lands or unless you enter or re-enter into occupation of such lands by making a *bond fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 24th day of May, 1901.

SCHEDULE.

No. 238.—Application having been made to the Collector of Land Revenue, Batang Padang, by Ngui Hee Ngeong of Kampar, for a new document of title for land situated in the mukim of Chenderiang, in the district of Batang Padang, on the ground that Ngui Hee Ngeong is the registered owner thereof, and that the original Mining Lease No. 83, whereby the land was demised to her, has been lost:

In accordance with the provisions of Section 30 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new title applied for will, subject to the provisions of the said sections, be granted.

12th April, 1901.

No. 172.—Application having been made to the Collector of Land Revenue, at Tapah, by Kasim bin Patan of Chenderiang, for a new document of title for land situated at Chenderiang, in the district of Batang Padang, on the ground that Kasim bin Patan is the registered owner thereof, and that the original Old Certificate No. 524, whereby the land was demised to him, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application the new title applied for will, subject to the provisions of the said Section 13, be granted.

15th March, 1901.

R. CLAYTON,
Acting Collector of Land Revenue.

KRIAN.

NOTICE UNDER SECTION 28 OF THE LAND ENACTMENT, 1897.

No. 340.—To the Landholders named in the Schedule below:

Take notice that whereas you have abandoned the lands described hereunder in the mukim of Bagan Serai, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such lands, or unless you enter or re-enter into occupation of such lands by making a *bonâ fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 24th day of May, 1901.

1. Offices closing to the public at 4 p.m. will open out again at 5.50 p.m. for the receipt and delivery of any telegrams that may have been awaiting transmission at other offices, and for ten minutes only after 5.50 p.m. postmasters will be prepared to accept over the counter any telegrams that the public may wish to hand in.

2. The hours for the closing of mails will be notified locally by each Post Office.

3. No money order business will be transacted on Saturday, except in Taiping, between the hours of 9 a.m. and 11 a.m.

4. On Sundays and holidays, offices will only be opened from 8 to 10 a.m. and 4 to 5 p.m. for the acceptance over the counter and delivery of telegrams, sale of stamps and the delivery of any mails received. No other postal business will be transacted.

A mail will be despatched from Taiping for Penang on Sunday evening.

CONDITIONS OF WINDOW DELIVERY.

PRIVATE BOX HOLDERS.

1. Window Delivery Tickets are issued on the following conditions:—

(a). A Ticket entitles the holder to a delivery of correspondence over the counter to the bearer of the ticket at any time during the day while a Post Office is open for the transaction of postal business generally, but on Sundays and holidays only for the limited time of half an hour after the receipt of a mail.

(b). On arrival of a mail, the correspondence for all ticket-holders will have special attention, so that such correspondence may be delivered over the counter within as short a time after receipt of mails as possible.

(c). Holders of tickets must provide locked receptacles with duplicate keys, one of which will be kept in the Post Office; and the Post Office authorities will then see that the correspondence is duly placed in the receptacle, which will be locked and handed to the bearer. Bags with Yale locks may be obtained from the Taiping Post Office, Large \$5.15, Small \$3.60.

(d). In order to facilitate sorting in the Post Office ticket-holders are advised to request their correspondents to address all correspondence that may be required to be delivered through the medium of the box and ticket in accordance with the superscription on the ticket. No correspondence as a rule will be sorted into a box unless it bears an address in accordance with that given on the ticket. Articles addressed by means of a name and post town only will not be sorted into boxes (unless a special ticket and box is taken for that name) but will be sent out for delivery by postmen. Correspondence sorted into boxes will not on any account be delivered to postmen but will be kept till called for.

(e). After delivery of correspondence to the bearer of a ticket the responsibility of the Post Office ceases.

(f). The foregoing rules apply to ordinary correspondence only. Registered correspondence and parcels cannot be delivered at the same time as ordinary correspondence, and must be delivered to the addressees personally, as their receipts are required.

(g). The fee is \$6 per annum.

GENERAL WINDOW DELIVERY.

2. The following persons may have their correspondence delivered over the counter free of charge:—

(a). All Heads of Government Departments, by presentation of an official ticket, to be authorised by the Secretary to Government, under the conditions above stated.

(b). Persons residing outside the limit of delivery.

(c). Persons applying for letters addressed to the care of the Post Office, or for letters to be kept till called for, unless such persons reside within the limit of the delivery and make it a practice to have their letters so addressed; in which case the letters will be sent out for delivery.

3. No person residing within the limits of delivery, unless he rent a private box, can claim to have his correspondence delivered at the Post Office.

RATES FOR TELEGRAMS FROM PERAK.

To Penang, Province Wellesley, Malacca and the Federated Malay States:—

First seven words or under	...	...	...	...	...	...	...	21	cents

No. 356.—Mydin Abdul Cadir has been granted a Licence as an Auctioneer, in the District of Larut for one year, from the 1st June, 1901.

1st June, 1901.

EXEMPTION UNDER THE “SOCIETIES ENACTMENT, NO. 9 OF 1900.”

No. 357.—It is hereby notified that the “St. Joseph Chinese Benevolent Society” of Taiping, is, by order of the Acting Resident, exempted from registration under Section 2, Sub-section (c), of the Societies Enactment, 1900.

5th June, 1901.

CHINESE IMMIGRATION.

No. 358.—Information has been received that Chinese coolie immigration into the Colony, by vessels sailing from Hongkong after the 29th May, 1901, is prohibited.

7th May, 1901.

ALLOWANCES TO WITNESSES FOR THE PROSECUTION IN CRIMINAL CASES.

No. 359.—Notification No. 805, published in the *Gazette* of the 23rd November, 1900, is cancelled from this date and the following notification substituted therefor:—

It is hereby notified for general information that the following allowances, in addition to necessary actual travelling expenses, will be paid until further notice to Witnesses for the Prosecution in Criminal Cases conducted by the Police.

FOR EACH DAY OF NECESSARY ABSENCE FROM HOME.

	Per diem.
	\$ c.
1. Europeans, First Class, and Members of the State Council	3 00
2. Europeans, Second Class (includes all whose emoluments are less than \$2,400 per annum)	1 50
3. Eurasians and Asiatics, First Class	1 50
4. Eurasians and Asiatics, Second Class (includes all whose emoluments are less than \$900 per annum, but not less than \$180)	75
5. Asiatic labouring classes, domestic servants, Members of the Police Force below the rank of Sergeant, and all Asiatics other than those included in the above mentioned classes	30

NOTE.—All questions relating to the classification of witnesses will be decided by the Court before which such witnesses are required to attend.

5th June, 1901.

RULES FOR PADI PLANTING OPERATIONS FOR THE SEASON 1901-1902.

LARUT DISTRICT.

No. 360.—All *Padi* fields shall be cleared and irrigated, and banks and water-courses repaired in the month of June.

Nurseries of *padi brat* shall be prepared between the 15th and 30th June, and nurseries of *padi ringan* between the 15th and 30th July.

Planting of *padi brat* shall commence on 25th July, and shall be completed by 31st August; the planting of *padi ringan* shall commence on 25th August and shall be completed by 30th September.

It shall be lawful for the Collector of Land Revenue, Larut, to alter the dates on which any of the above operations are to be carried out, if it is found expedient to do so owing to drought. Any such alteration shall be published in the *Gazette* and notice given locally.

Any person committing a breach of any of these rules shall be liable, on conviction before a Magistrate, to the penalty prescribed under Section 110 of the Land Enactment.

31st May, 1901.

SELAMA DISTRICT.

No. 361.—Cleaning of all fields to be commenced on the 8th June, 1901, (20 Hari bulan Safar).

Nurseries to be commenced not later than the 24th June, 1901, (7 Hari bulan Rabi-al-awal) and completed by the 4th July, 1901, (17 Hari bulan Rabi-al-awal).

The planting of *padi* to be commenced not later than the 8th August, 1901, (22 Hari bulan Rabi-al-ahir) and completed by the 14th September, 1901, (30 Hari bulan Jemdir-al-awal).

It shall be lawful for the Assistant District Magistrate to alter at any time the dates on which any of the above operations shall take place, if, owing to drought or other causes, it is found expedient to do so, due notice being published in the *Gazette*, and notice given locally.

Any person committing a breach of any of these rules will be liable, on conviction before a Magistrate, to the penalty prescribed under Section 110 of the Land Enactment.

31st May, 1901.

FEDERATED MALAY STATES.

STATE OF PERAK.

CRIMINAL PROCEDURE CODE, 1900.

No. 362.—Notification No. 630, published in the *Gazette* of the 28th September, 1900, is cancelled from this date and the following notification substituted therefor.

Under the provisions of Section 209, sub-section (i), of the above mentioned Code, the Resident, with the approval of the Resident-General, has fixed the following remuneration to be paid from the public funds to every person, not being a Government officer, summoned to serve as an Assessor, and taking part as Assessor, in a trial held with the aid of Assessors :—

For every day, or part of a day, during which the person summoned sits as an Assessor, a fee of \$20.

In addition to the above fee the Government will pay the Assessor his actual travelling expenses, and an allowance of \$3 for each night's absence from home, to cover the expense of board and lodging. Persons summoned to serve, but not required by the Court to sit as Assessors, will receive their actual travelling expenses and the allowance of \$3 per night only. No claim by an Assessor will be paid until the same has been certified by the Registrar of the Court as reasonable and correct; where there is no Registrar the certificate can be signed by a Magistrate.

3rd June, 1901.

GOVERNMENT OF PERAK.

SALE OF MINING LAND BY TENDER.

KINTA DISTRICT.

No. 328.—Tenders are invited for the right to mine the lands hereunder specified, situated in the district of Kinta :—

No. of Survey Plan.	Area.	Mukim.	Locality.	Annual Rent.
	A. R. P.			\$
3,613	16 1 9	Kampar	Talam	17
7,971	92 1 15	Teja	Kota Bahru	93
7,972	98 0 14	"	"	99
7,973	91 0 6	"	"	92

The titles will be Leases for 21 years under the Mining Enactment, No. 5 of 1899.

Rent will be payable from January 1st, 1902.

Tenders which must refer to each block separately, and must be accompanied by a deposit of 25 per cent of the amount tendered, should be addressed under sealed cover, marked "Tender for Mining Land," to the District Magistrate, Kinta, at Batu Gajah, so as to reach him on or before noon, on the 1st July, 1901.

Deposits will be returned if tenders are not accepted; successful tenderers will be required to complete purchase within 14 days.

Plans and results of boring may be seen, and all further particulars obtained at the Land Office, Batu Gajah.

The Government does not bind itself to accept the highest or any tender.

24th May, 1901.

TENDERS.

EXTENSION, PARI ROAD.

No. 366.—Tenders are invited for the construction of four miles of metalled cart-road from end of existing Pari Road, near Ipoh, towards Jelapang and Meru.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Extension, Pari Road," and will be received at his Office up to noon on Monday the 24th June.

Plans and specifications can be seen at the Deputy State Engineer's Office in Batu Gajah.

5th June, 1901.

STATION BUILDINGS AND STAFF QUARTERS, SUNGKAI.

No. 367.—Separate tenders are invited for the erection of station building, staff quarters and coolie lines at Sungkai railway station.

Sealed tenders, marked on the outside "Station Buildings and Staff Quarters, Sungkai," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 28th June, 1901.

Tenders must state the time required and the security offered for the completion of the works.

Plans and specifications may be seen and further particulars obtained at the office of the Resident Engineer for Railways, Taiping, and the Assistant Railway Engineer, Bidor.

5th June, 1901.

CUSTOMS SHED, TANJONG MALIM.

No. 368.—Tenders are invited for the erection of a Customs Shed at Tanjong Malim railway station.

Sealed tenders, marked on the outside "Tender for Customs Shed, Tanjong Malim," should be addressed to the Secretary to Government, Taiping, and will be received not later than noon on the 28th June, 1901.

Tenders must state the time required and the security offered for the completion of the work.

Plan and specification may be seen and further particulars obtained at the office of the Resident Engineer for Railways, and the Assistant Railway Engineer, Tanjong Malim.

5th June, 1901.

LATRINE, NEW PUBLIC OFFICES, TAIPING.

No. 369.—Tenders are invited for the construction of a Latrine for new Government offices, Taiping.

These should be addressed to the Secretary to Government, sealed, and marked on the outside "Tender for Latrine, New Public Offices,

Taiping," and will be received at his Office up to noon on Monday, the 10th of June, 1901.

Plans and specifications can be seen at the District Engineer's Office in Taiping.

22nd May, 1901.

PORTLAND CEMENT, KRIAN.

No. 334.—Tenders are invited for the supply of 3,000 barrels of Portland Cement, for Krian Irrigation Works, to be delivered in four consignments (monthly) from the end of June onwards.

Sealed tenders, marked on the outside "Tender for Portland Cement, Krian Irrigation Works," will be received at the office of the Secretary to Government not later than 10th June, 1901.

Particulars and specification can be got on application to the Irrigation Engineer at Bagan Serai.

22nd May, 1901.

QUARANTINE STATION BUILDINGS, LOWER PERAK.

No. 336.—Tenders are invited for the construction of a Quarantine Station for Cattle in the Lower Perak District.

Sealed tenders, marked on the outside "Tender for Quarantine Station Buildings, Lower Perak," will be received at the office of the Secretary to Government, Taiping, not later than the 15th June, 1901.

Plans and specifications can be seen at the Assistant Engineer's office in Teluk Anson.

21st May, 1901.

Government does not bind itself to accept the lowest or any other tender.

TENDER ACCEPTED.

No. 369.—The following tender has been accepted by Government.

Railway Staff Quarters, Kampar Leong Chew.

27th April, 1901.

LAND OFFICE NOTICES.

UPPER PERAK.

No. 370.—Take notice that whereas you have abandoned the land described hereunder, in the mukim of Lenggong, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bonâ fide* commencement to build on it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

7th June, 1901.

No. 371.—Application having been made to the Collector of Land Revenue, at Janing, by Lebay Sahit bin Ali of Kampong Che Eng, for a new mukim extract for a piece of land situated at Sendalu, in the mukim of Temelong, on the ground that Lebay Sahit bin Ali is the registered owner thereof, and that the original Mukim extract has been lost:

7th June, 1901.

No. 241.—Application having been made to the Collector of Land Revenue, at Upper Perak, by Sahat bin Said of Lenggong, for a new document of title for land situated at Kampong Lenggong, in the mukim of Lenggong, on the ground that Sahat bin Said is the registered owner thereof and that the original Mukim Extract No. 7 has been lost:

12th April, 1901.

No. 178.—Application having been made to the Collector of Land Revenue, at Upper Perak, by Kulup Jamaldin bin Haji Abdulla Yah of Lenggong, for a document of title for land situated at Ayer Rambutan, in the mukim of Lenggong, on the ground that the applicant is the registered owner thereof, and that the original Mukim Extract No. 684 has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new document of title applied for will, subject to the provisions of the said Section 13, be granted.

15th March, 1901.

H. BERKELEY,
Collector of Land Revenue.

BATANG PADANG.

No. 339.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder, in the mukims of Batang Padang, Chandleriang, Bidor and Sungkai, in the district of Batang Padang, the said lands are liable to forfeiture under the provisions of Section 8 (b) of the Order in Council No. 6 of 1891, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Commissioner of Lands and Mines or the District Magistrate, that you have not abandoned such lands or unless you enter or re-enter into occupation of such lands by making a *bonâ fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 24th day of May, 1901.

No. 238.—Application having been made to the Collector of Land Revenue, Batang Padang, by Ngui Hee Ngeong of Kampar, for a new document of title for land situated in the mukim of Chenderiang, in the district of Batang Padang, on the ground that Ngui Hee Ngeong is the registered owner thereof, and that the original Mining Lease No. 83, whereby the land was demised to her, has been lost:

In accordance with the provisions of Section 30 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new title applied for will, subject to the provisions of the said sections, be granted.

12th April, 1901.

No. 172.—Application having been made to the Collector of Land Revenue, at Tapah, by Kasim bin Patan of Chenderiang, for a new document of title for land situated at Chenderiang, in the district of Batang Padang, on the ground that Kasim bin Patan is the registered owner thereof, and that the original Old Certificate No. 524, whereby the land was demised to him, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application the new title applied for will, subject to the provisions of the said Section 13, be granted.

15th March, 1901.

R. CLAYTON,
Acting Collector of Land Revenue.

KRIAN.

NOTICE UNDER SECTION 28 OF THE LAND ENACTMENT, 1897.

No. 340.—To the Landholders named in the Schedule below:

- Take notice that whereas you have abandoned the lands described hereunder in the mukim of Bagan Serai, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such lands, or unless you enter or re-enter into occupation of such lands by making a *bonâ fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 24th day of May, 1901.

F. BELFIELD,

16th May, 1901.

Collector of Land Revenue, Kinta.

No. 341.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Luk Weng Cheong of Kampar, for a new Mining Lease of land situated in the Kampar mukim, of the Kinta District, on the ground that the said Luk Weng Cheong is the registered owner thereof, and that the Original Mining Lease No. 671 has been lost:

No. 342.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Selaman bin Pandak Akat of Batu Gajah, for a Mining Lease of land

situated in the Sungei Trap mukim, of the Kinta District, on the ground that the said Selaman bin Pandak Akat is the registered owner thereof, and that the Original Agreement for Mining Lease No. 313 has been lost:

24th May, 1901.

No. 268.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Muhammad Yusuf Datoh Panglima Kinta bin Datoh Lasam, of Ipoh, for a new Mining Lease of land situated at Ipoh of the Kinta District, on the ground that the said Muhammad Yusuf Datoh Panglima Kinta bin Datoh Lasam is the registered owner thereof, and that the Original Mining Lease No. 855 has been lost:

26th April, 1901.

No. 170.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Wooi Lim Seng, for two new titles to land situated at Menglembu, of the Kinta District, on the ground that the said Wooi Lim Seng is the registered owner thereof, and that the original agreement for Town Leases Nos. 911 and 918 have been lost:

No. 171.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Muhammad Yusuf Datoh Panglima Kinta bin Datoh Lasam, for the issue of a Mining Lease Plan No. 7,588, on the ground that the said Muhammad Yusuf Datoh Panglima Kinta bin Datoh Lasam, is the registered owner of Mining Certificate No. 34/1899 for Mining Lease Plan No. 7,588, and that the Original Mining Certificate No. 34/1899 has been lost:

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Government Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections be granted.

15th March, 1901.

F. BELFIELD,
Collector of Land Revenue.

LOWER PERAK.

No. 374.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder, in the mukim of Teluk Bharu, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such lands, or unless you enter or re-enter into occupation of such lands by making a *bona fide* commencement to cultivate it, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 7th day of June, 1901.

SCHEDULE.

Mukim.	Nature of Title.	No.	Name of Holder.	Area.
				A. B. P.
Teluk Bharu.	Application ...	241	Haji Abdul Salam bin Haji Abdul Mutalip ...	18 2 00

No. 219.—Application having been made to the Collector of Land Revenue, at Teluk Anson, by Haji Nawawi bin Haji Abdulrahman, of Durien Sabatang, for three extracts from the register, situated at Bendang Siam, in the Durien Sabatang mukim of the Lower Perak district, on the ground that Haji Nawawi bin Haji Abdulrahman is the registered owner thereof and that the original Extracts No. 266, 539 and 540 have been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications the extracts from the register applied for will, subject to the provisions of the said Section 13, be granted.

29th March, 1901.

N. KENDALL,
Collector of Land Revenue.

SELAMA.

No. 220.—To the Landholder named in the Schedule hereto:

Take notice that whereas you have abandoned the land described hereunder, in the mukim of Ulu Selama, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such land or unless you enter or re-enter into occupation of such land by making a *bonâ fide* commencement to cultivate it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 29th day of March, 1901.

SCHEDULE.

Mukim—Ulu Selama. *Nature of Title*—Agreement. *Title No.*—542. *Name of Holder*—Muhammad bin Muhammad. *Area*—8 acres, 1 rood and 5 poles. *Annual Rent*—\$5.10.

RAJA CHULAN,
Collector of Land Revenue.

ADMINISTRATION NOTICES.

No. 302.—Notice is hereby given that an application has this day been made to the Court of First Class Magistrate, Kinta, holden at Batu Gajah, for letters of Administration to all and singular the goods and chattels, rights, credits and effects which were of Foo Yi Moey, late of Sungei Raia, in the district of Kinta, deceased, to be granted to Foo Kang Chong, on the ground that the applicant is the son of the said deceased:

No. 303.—Notice is hereby given that an application has this day been made to the Court of First Class Magistrate, Kinta, holden at Batu Gajah, for letters of Administration to all and singular the goods and chattels, rights, credits and effects which were of Haku, late of Pusing, in the district of Kinta, deceased, to be granted to Essar Singh, on the ground that the applicant is the elder brother of the said deceased:

Unless within one month from the date of publication of the above notices in the *Gazette* sufficient cause to the contrary be shewn to this Court, the letters applied for will be granted.

10th May, 1901.

CECIL WRAY,
District Magistrate, Kinta.

**NOTICES UNDER SUCCESSION DUTIES AMENDMENT
ORDER IN COUNCIL, NO. 3 OF 1893.**

KINTA.

No. 304.—Application having been made to the undersigned by Ngah Daiman bin Along Amat, for an order declaring the applicant to be entitled to a piece of land, described in Grant for Land No. 724, in the mukim of Ulu Kinta, district of Kinta, and registered in the name of Allang Impun, on the ground that the applicant is the grandson of the said deceased, and that there is no other claimant:

No. 305.—Application having been made to the undersigned by Limah binti Khatib Raman, for an order declaring the applicant to be entitled to four pieces of land, described in Agreement for Lease No. 31, half right in Agricultural Lease No. 2,404, half right in Agricultural Lease No. 1,074, and half right in Mining Lease No. 60, situated in the district of Kinta, and registered in the name of Latib bin Jamal, on the ground that the applicant is the nephew of the said deceased, and that there is no other claimant:

No. 306.—Application having been made to the undersigned by Rashed bin Mat Said, for an order declaring the applicant to be entitled to a piece of land, described in Agricultural Lease No. 2,001, situated in the mukim of Ulu Kinta, in the district of Kinta, and registered in the name of Sabtu bin Dagang, on the ground that the applicant is the nephew of the said deceased and that there is no other claimant:

No. 307.—Application having been made to the undersigned by Uda Mulik bin Itam Muhammad, for an order declaring the applicant to be entitled to a piece of land, described in application for Land No. 465/94, situated in the mukim of Ulu Kinta, in the district of Kinta, and registered in the name of Itam Ma Asin, on the ground that the applicant is the son of the said deceased and that there is no other claimant:

No. 308.—Application having been made to the undersigned by Alang Sabar bin Marimpun, for an order declaring the applicant to be entitled to a piece of land, described in Town Lease No. 57, situated in the mukim of Sungei Trap, in the district of Kinta, and registered in the name of Marimpun, on the ground that the applicant is the son of the said deceased and that there is no other claimant:

No. 309.—Application having been made to the undersigned by Long Fatimah binti Alang Tara, for an order declaring the applicant to be entitled to two pieces of land, described in Agreement for Mining Lease No. 373, and application for Agricultural Land No. 69/96, situated in the mukim of Sungei Raia, in the district of Kinta, and registered in the name of Alang Tara bin Kasa, on the ground that the applicant is the daughter of the said deceased and that there is no other claimant:

No. 310.—Application having been made to the undersigned by Haji Dollah bin Jah Bugis, for an order declaring the applicant to be entitled to three pieces of land, described in Agreement Agricultural Leases Nos. 1,623 and 1,641, and application No. 46/95, situated in mukim of Sungei Raia, in the district of Kinta, and registered in the name of Jab Bugis, on the ground that the applicant is the son of the said deceased and that there is no other claimant:

No. 311.—Application having been made to the undersigned by Wong Keow for an order declaring the applicant to be entitled to $\frac{1}{8}$ interest in a piece of land, described in Sub-lease No. 48 of 1885 (Agreement Mining Lease No. 60 of 1887), situated in Sungei Raia, in the district of Kinta, and registered in the name of Wong Sam Shin, deceased, on the ground that the applicant is the lawful wife of the said deceased and that there is no other claimant:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the undersigned for refusing the above applications, the orders applied for will be granted, and the titles transferred to the name of the claimants.

10th May, 1901.

CECIL WRAY,
District Magistrate, Kinta.

Total ...	188	39	112	339	176	64	112	352	27	7	...	34	31	2	2	35	760

* Against 318 in 1899, Perak.

" 232 " Selangor.

" 27 " Negri Sembilan.

" 31 " Pahang.

Total ... 608

7. It will be noted that the number of re-convictions has decreased in Perak and increased in Selangor. This I consider is due to the form of punishment in the Perak Gaol; the stone-breaking in isolation is a most distasteful and irksome form of labour, and I am convinced acts as a deterrent. In Selangor there is no stone-breaking; though very frequently advocated it has not been adopted.

CIVIL PRISONS.

8. The following return shews the number of prisoners who passed through the Civil Prison of the various States during 1900 :—

	Remaining, 1st January, 1900.	Admitted in 1900.	Total.	Discharged, etc., in 1900.	Remaining, 31st January, 1900.

* 9 females. † 7 females.

WORK.

PERAK.

9. *Taiping*.—There is practically no extra-mural work, except at the Quarries, which supply the necessary material for stone-breaking.

10. The prediction of the Inspector of Prisons in his last year's report, as regards the solitary stone-breaking sheds, has been fulfilled.

11. The various forms of intra-mural work are carried on in a most thorough manner at the Taiping Gaol.

12. New work-shops are included in the Estimates for 1901.

13. *Batu Gajah*.—There is not sufficient accommodation in this Gaol for the employment of all the prisoners on intra-mural work.

14. The intra-mural work consists of breaking fibre, and rattan work; the extra-mural, levelling, draining and cleaning Government Reserves.

15. The Revenue derived from the sale of industries, etc., in the Perak Gaols, amounted to \$11,974.61, this being an increase of \$1,974.61 on the Estimates. This is most satisfactory.

SELANGOR.

16. Both intra and extra-mural work are carried on in the Kuala Lumpur Gaol, the intra-mural work consisting of rattan, carpenter's, tailor's, mat and chick work.

17. Extra-mural work. Prisoners were employed on this until the end of November, when it was prohibited by the Medical authorities on account of a severe out-break of Beri-beri.

18. The work consisted of making and levelling the Police Parade ground, construction of new road and work on the Government Nursery.

19. The amount realized from Gaol manufactures, etc., was \$6,024.38, an excess of \$2,964.38 on the Estimates, a most satisfactory result.

NEGRI SEMBILAN.

20. Most of the work was extra-mural. Thirty prisoners daily were employed on the Rubber plantation, and about forty on the improvement of the Government Reserves.

21. The intra-mural work consisted of stone-breaking and rattan work.

22. The accommodation in this Gaol is very limited, and allows of few men being employed on intra-mural work.

23. The amount realized from the sale of Gaol manufactures, etc., was \$561.51, an excess of \$161.51 on the Estimates. The value of extra-mural work was \$3,368.55.

PAHANG.

24. All intra-mural work was stopped in Kuala Lipis Gaol, with the exception of dhobie and tailor's work. The extra-mural work consists of earthwork, jungle clearing, sweeping town, carrying water.

25. The following table gives the Revenue collected in 1900:—

Perak—	1900.		1900.		Against in 1899	
	\$	c.	\$	c.	\$	c.

Note.—Perak, 1900—Admitted, 1,212; treated, 1,377; deaths, 41; per-centage, 2·75.

PERAK.

28. *Taiping Gaol.*—The health in this Prison has been very good. There has been no epidemic of beri-beri; 37 beri-beri cases were treated, no deaths. Only two deaths took place, one of these being a prisoner who was found dead in his cell. The statistics speak for themselves.

29. *Batu Gajah.*—The daily average in Hospital is 26·68, being slightly lower than last year. The number of deaths is large, due to the large number of vagrants admitted, some dying within 24 hours of admission. One hundred and twenty-nine beri-beri cases were treated, of which 11 died. The health will be unsatisfactory as long as these broken down decrepit vagrants are admitted.

SELANGOR.

30. During the earlier part of the year, the health of the prisoners was good, but during the last three months there was a widespread outbreak of beri-beri. Fortunately the disease was of a mild type. There were no less than 180 cases of beri-beri, as against 81 of last year.

NEGRI SEMBILAN.

31. By far the most healthy of all the Gaols in the Federated Malay States, the daily average sick in Hospital being only 1·37. This Gaol is almost free from beri-beri, there being only five cases and one death.

PAHANG.

32. *Kuala Lipis.*—Health of the prisoners has been very good, only one death. There is a marked decrease in sickness there being only 60 admissions, against 107 of last year, this being due to stoppage of intra-mural work. Health of prisoners at Pekan was very good and no outbreak of beri-beri.

I consider the health of the prisoners throughout the Gaols of the Federated Malay States as good. The total number of deaths in all the Gaols from all causes was 76. The total number of beri-beri cases was 364, of which 19 proved fatal.

* One sudden death.
† Two sudden deaths.
‡ Two died in out-stations.

§ Per-centage for four deaths in Seremban Gaol only.
|| Four died in out-stations.
¶ Per-centage for three deaths in Seremban Gaol only.
** Sudden death—suicide by hanging.

33. The following is a return of Beri-beri cases for the last two years :—

		No. of cases.		No. of deaths.		No. of cases.		No. of deaths.	
		1899.		1899.		1900.		1900.

Selangor	...	...	3	...	3
Negri Sembilan	...	...	2	...	...
Pahang	...	...	4	...	1
Total		...	15	...	7

DISCIPLINE.

35. The discipline throughout all the Gaols has been most satisfactory.

36. The following return shows the number of cases brought before the Gaol Officials and Visiting Justices for breaches of Prison discipline for the last two years :—

Perak—		1899.		1900.	
Taiping	...	482	...	566	...
Batu Gajah	...	330	...	282	...
Krian, etc.	...	57	...	22	...
		...	...	869	870
Selangor	...	...	...	810	618
Negri Sembilan	...	...	...	93	93
Pahang	...	...	...	48	45
Total		...	1,820	...	1,626

37. The following is a further return shewing the number of Prison Offences under the various grades :—

		Perak.		Selangor.		N. Sembilan.		Pahang.	
		1899.	1900.	1899.	1900.	1899.	1900.	1899.	1900.
European and Eurasians	...	...	...	5	...	...	...	1	...
Upper grade	...	78	81	37	26	9	7	6	2
Middle grade	...	168	151	165	125	17	11	18	26
Lower grade	...	170	247	173	105	40	48	5	12
Short sentence and revenue grade	...	453	385	430	360	27	27	18	5
Safe custody	...	...	4	...	...	...	...	...	...
Females	...	...	2	...	2	...	...	...	...
Total		869	870	810	618	93	93	48	45

38. The following is a list of floggings for the last two years :—

Perak—		1899.		1900.	
Taiping	...	44	...	11	...
Batu Gajah	...	112	...	8	...
Krian, etc.	...	43	...	1	...
		...	...	199	20
Selangor	...	...	...	107	11
Negri Sembilan	...	...	...	19	1
Pahang	...	...	...	20	3
Total		...	345	...	35

39. The number of floggings shews a marked decrease; this is chiefly due to the Superintendent being unable to award this punishment. I would again point out the limited powers of the Superintendent, whose powers should be strengthened. Superintendents who know the character of most prisoners are far more fitted to deal with cases than Visiting Justices, who know nothing of the prisoners, and very frequently err on the side of leniency. The crank punishment should be adopted in all Gaols. It has hitherto been in Selangor. Cranks have arrived at Taiping Gaol. I have strongly advocated a new section being added to the "Prisons Enactment of 1899" authorizing this form of punishment.

40. The following is a return of escapes for the last two years:—

				1899.	1900.	1899.	1900.

						—	—
					Total	21	18
						—	—

STAFF.

41. I have every reason to be satisfied with the zeal and energy displayed by the staff, the Gaolers of Taiping and Kuala Lumpur giving particular satisfaction.

42. The European Warders have worked well and are deserving of much praise. Their conduct shews a great improvement.

43. The Native Warders continue to improve and there are fewer reports against them than in any previous year.

44. The following return shews the number of dismissals and reports against European and Native Warders for the last two years:—

				EUROPEANS.				NATIVES.			
				Dismissed.		Reported.		Dismissed.		Reported.	
				1899.	1900.	1899.	1900.	1899.	1900.	1899.	1900.

GENERAL.

48. The Visiting Justices have in many cases, at Batu Gajah and Seremban Gaols, not complied with Section 43 of the Prisons Enactment of 1899.

49. A new scheme was sanctioned by the Secretary of State for the Colonies, providing an increase of salary for European Warders, rising to a maximum of \$130 per mensem. This I consider satisfactory.

50. As regards Gaolers and Chief Warders, it is not satisfactory. There is absolutely no comparison between the duties and responsibilities of these officials and those of European Warders. I consider they should have a proportionate increase; Gaolers with a maximum of \$150 per mensem.

51. Colonel Frowd Walker, c.m.g., performed the duties of Inspector of Prisons, Federated Malay States, until the 29th July, on which day I took over the duties.

A. S. VANRENEN, MAJOR,
Acting Inspector of Prisons, F.M.S.

REPORT ON THE POLICE OF THE FEDERATED MALAY STATES FOR THE YEAR 1900.

STRENGTH.

1. On the 1st January the total strength present was—

Commr.	D. Coms.	A. Coms.	Inspectors.	Native Officers.	N. C. Officers and men.	Detectives.
1	...	3	...	1	...	21
...	...	...	...	...	...	...
...	...	...	...	3	...	1,877
...	...	...	...	...	...	84

On the 31st December the total was—

Commr.	D. Coms.	A. Coms.	Inspectors.	Native Officers.	N. C. Officers and men.	Detectives.
1	...	1	...	4	...	23
...	...	...	...	...	...	...
...	...	...	...	2	...	1,914
...	...	...	...	...	...	93

The above does not include orderlies not borne on the strength as police constables, but includes two Duffadars and 12 Sowars of the Perak Force stationed at Kuala Kangsar.

DISTRIBUTION.

2. Return A* shews the distribution (i.) on 31st December and (ii.) allowed by the Estimates. A comparison of (i.) and (ii.) will show that at the end of the year there were two Deputy Commissioners under strength (Messrs. Douglas and Wagner on leave), one Assistant Commissioner in excess (Mr. Whitley acting in addition to his own duties), five Inspectors under strength (four on leave and one vacancy), 76 native officers, non-commissioned officers and men under strength and an excess of six detectives. The distribution, with the exception of a few minor changes, was practically the same as in 1899.

Owing to the adjustment of the boundary between Perak and Rahman it was found necessary to send a few men to Gerik.

DISCIPLINE.

3. Return B* shews the offences against discipline committed by non-commissioned officers and men during the year. There is a decrease of about 20 per cent in the number of the reports as compared with 1899. In fact, I may say, that the discipline continues very satisfactory and there are but few serious offences reported against the men.

Perak.—In this force there has been an increase in the number of reports, "Disobedience of Orders" and "Irregularity on sentry," being principally responsible, 76 cases of absence without leave, 21 desertion and 56 asleep on duty are excessive in spite of the severe work the men are called on to perform. Twenty-two men were charged before a Magistrate.

Selangor.—The discipline has improved considerably. Twenty-one men were convicted before a Magistrate of various offences, the worst being four cases of theft, four of perjury and receiving illegal gratification.

Negri Sembilan.—The discipline here continues excellent. It was only found necessary to charge one man before a Magistrate.

Pahang.—There has been very little serious crime in this Force. Two cases of using criminal force and three of insubordination. The minor offences have decreased considerably.

ENLISTMENT.

4. Return C* gives the number of Indians and Malays who offered themselves for enlistment, shewing those rejected and engaged.

Perak.—Apparently but 38 Indians offered themselves for enlistment which, I should say, is the lowest number for possibly the last 20 years. This is probably because men arriving from India seek service in the Guides first.

A fair number of Malays offered themselves and the recruiting of Malays will probably improve everywhere owing to the non-pensionable allowance granted to them from 1st January, 1901.

* Not printed.

Selangor.—Large numbers, both of Indians and Malays, offered themselves, but most of the Malays and 50 per cent of the Indians were rejected as unsuitable. It is remarkable that of the 328 Malays in this Force but 12 own Selangor as their country.

During the month of July, 21 additional constables were taken on owing to the outbreak of hostilities in China. They were all discharged at the end of October.

Negri Sembilan.—Sufficient recruits of both nationalities offered themselves.

Pahang.—Difficulty was experienced in getting Malay recruits, but eventually 17 men were obtained through Perak, Mr. Douglas having engaged them. At one time the dearth of Malay recruits was so great that Mr. Sumner even tried Sakeis, but they proved a failure and eventually deserted. Mr. Sumner's remarks in his report on enlistment are very much to the point.

DISCHARGES, ETC.

5. Return *D** is a return of men who resigned, were dismissed, deserted, retired on pension and died during the year. The changes were about the same as in 1899.

MUSKETRY.

6. Return *E** is a return of musketry for the year shewing classification and per-centage of hits to rounds fired in collective practices, both for Indians and Malays.

Eight hundred and seven Indians fired the "individual" course with an average of 93·03. There were 202 marksmen. 746 men were exercised in collective practice and the per-centage was 52·39.

Perak has the best average in individual firing and Pahang the best per-centage in the collective practices. As the men in Pahang fired with the old snider, a per-centage of 58·24 hits to rounds is very good.

Eight hundred and twenty-one Malays fired the "individual" course. There were 67 marksmen and the average was 74·15. 693 Malays fired the collective practices with a per-centage of 37·12. Selangor shews best, both in individual and collective practices, and the improvement in the firing in that State is very marked. This is very satisfactory and shews that extra trouble has been taken.

The only State that shews a falling off is Negri Sembilan, but their returns for 1899 were extraordinarily good. Owing to want of European supervision, it was impossible to put all the men through musketry, except in Tampin and Kuala Pilah Districts. Mr. Hannay was the only officer available elsewhere and had far too much to do in other matters more purely police.

The fire discipline in Pahang and Negri Sembilan is excellent. I saw a squad of Malays fire volleys at Tampin and they were as steady as any squad of Europeans or Natives I have ever seen.

ADDITIONAL MUSKETRY COURSE.

7. Return *E** (i) shews the firing throughout the Federated Malay States in this course and includes men who made over 95 points and were permitted to shoot for a bonus. The results were fairly satisfactory and I agree with Mr. Sumner in considering this is a very useful practice for the men and improves their shooting.

In Negri Sembilan it was not possible to put all the men through the course.

ARMS.

8. The arms, etc., were looked after as well as possible. In Perak, Mr. Field gives as much attention to police arms as possible. In Selangor the Guides assist, and in Pahang the police Chinese Armourer does very well. In Negri Sembilan, however, the police Armourer spends most of his time looking after Sanitary Board requirements, such as cart numbers, dog numbers, etc., etc., the consequence being that the arms there require immediate attention. I have already written in on the subject. An Armourer's Department is wanted for the whole Federated Malay States, under Mr. Field, with a well paid and capable assistant.

HEALTH.

9. Return *F** is a return shewing number of admissions to hospital and deaths during the year. There were 17 deaths as compared with 13 last year.

* Not printed.

Selangor still appears to be the most unhealthy of the States, the health of the men not being good here. The returns for Pahang show considerable improvement on last year. In Batu Gajah, Perak, malarial fever was very prevalent.

BUILDINGS.

10. *Perak*.—New police stations were built in Chanderiang, Kurau, Tambun and Kuala Dipang. New married quarters were completed and occupied in Taiping. All police buildings in this State are in a very satisfactory condition.

Selangor.—I regret to state that owing to want of funds the Public Works Department were unable to keep the buildings in proper repair, the consequence being that almost everywhere police stations and barracks were in an unsatisfactory state.

Negri Sembilan.—The police buildings here are as a rule in fair order. It seems difficult, however, to get work done in this State as the following extract from Mr. Hannay's report will show.

New police buildings provided for in Estimates :—

Pertang, station and barracks...	...	...	...	Not started.
Parit Tinggi do.	...	...	...	Completed.
Kuala Gemas do.	...	...	...	Not started.
Mantin, new barracks and kitchen	...	...	...	Not completed.
Puntai do.	...	...	...	do.
Pergkalan Kempas, new barracks and kitchen	...	...	...	do.
Situl, new kitchens	...	...	...	do.
Broga do.	...	...	...	do.
Port Dickson, Sergeant-Major's quarters	...	...	...	Completed.
Seremban, latrines, wells and main drain	...	...	...	Not completed.
Tampin, additional barracks	...	...	...	do.

The above shews anything but a satisfactory state of affairs.

Pahang is as equally unsatisfactory as regards its buildings. New stations provided for Temerloh and Sungei Lembing, which are urgently needed, were not begun.

Much work is required on buildings in Lower Pahang district and pounds are required throughout the State. In Kuala Lipis excellent new barracks were built, capable of accommodating 36 men. The site was prepared by the police or it would possibly have come under the category of "not started."

CLOTHING.

11. The clothing was supplied by the Tailoring Department and Mr. Moss deserves great credit for the way the work is done considering the difficulties he has to contend with.

Negri Sembilan is the only State which had reason to complain of the clothing. The European Assistant to Mr. Moss took insufficient uniform with him when fitting in that State, the result being that several men were insufficiently supplied.

In my opinion, Chief Police Officers, as a rule, have only themselves to blame if the clothing supplied is not satisfactory.

DETECTIVES.

12. This branch proved generally as useless as in former years. I have written in several times regarding "Detectives." For a police force to be really effective the detective branch must be first class. Considering the pay offered it is a wonder that we have the few good men that we have. I don't know the figures but I should say that the "Secretary for Chinese Affairs" Department spends probably 10 times as much in one year on its detectives and in "secret service" money as the police. It is not encouraging for a police detective to have to do work for which a detective in another department would be much better paid.

Before this branch can be made effective, much higher pay must be promised all round and good results must be promptly rewarded. Secret service money should be considerably increased and Chief Police Officers given greater powers to dispose of it.

CRIME.

13. Return *G** is a comparative return of the cases reported and discovered during 1899 and 1900, giving the per-centage of discoveries. There were 4,871 more reports than in 1899 with 1,450 more discoveries. Since 1898 there has been an increase of 8,673 reports, which would appear serious, most of the cases, however, are due to criminal breach of contract. In fact, excepting in Negri Sembilan, there has been a general decrease in serious crime over 1899. A reference to return *H** which is a comparative return of serious crime reported and discovered in 1899 and 1900, will show this.

Perak.—In Perak there were 22 murders with 17 arrests, an increase of 4 over 1899. There was a large increase in gang robberies, 59 against 24 in 1899. The Kinta district is responsible for this. 27 persons were convicted of this offence, which is satisfactory. Many of these robbers behaved with great brutality to their victims, who seldom or ever offer any resistance, or assist the police in any way by giving them information that will lead to the arrest of the culprits.

On the 9th December a gang of 30 robbers attacked the farm at Sungei Siput, near Kuala Dipang; a Malay constable, 33 Jayah, who was the only policeman in the place, ran out and fetched his carbine, shot one dead and wounded two others, dispersing the crowd. This is an isolated instance of pluck on the part of a Malay, and the man deserves the greatest credit. It shews too that if any resistance is offered to these gangs of ruffians they are just as cowardly as their usual victims. With the exception of these murders and gang robberies there was comparatively little serious crime in this State.

Selangor.—The reports in Selangor show great improvement. There were, however, 20 murders and only 9 discoveries. This is anyhow better than 1899. The most satisfactory decrease is in gang robberies; in 1899 there were 74 with 18 discoveries, in 1900 there were only 30 reports and 9 discoveries. There has been a decrease in practically every other description of serious crime.

After the Chinese New Year this State was more or less free from serious crime, but there was a sudden outbreak towards the last quarter. The offenders met with such success, their victims and the native population proving so apathetic and indifferent that they apparently considered it was a profitable and safe way of making money and continued it.

Banishments under the "Banishment Enactment of 1899" are now being made wholesale owing to the activity of the Secretary for Chinese Affairs Department, and though there may be instances where persons having nothing to do with serious crime are removed from the country, yet I feel sure it will have an excellent effect on bad characters.

The police arrest a large proportion of the "suspected" persons.

Negri Sembilan.—There has been a large decrease in gang robberies with a corresponding increase in highway robberies. The police have done very creditably, as the returns of offences show, and as regards "serious crime" the condition of affairs may be said to be very satisfactory.

The Dato of Johol, a very old and inoffensive chief, was murdered by a Malay who was promptly arrested. He was judged to be "temporarily insane" and is now in confinement during the pleasure of His Highness the Yam Tuan.

Pahang.—There is a decrease of 13 per cent in serious crime over 1899. There were five murders, four arrested and the fifth, who is known, escaped over the border into Kelantan and should eventually be arrested. Considering the large area this small force has to supervise, the indifferent means of communication, and the fact that criminals can so easily get into Kelantan and Tringganu, where no assistance is rendered, the police deserve great credit for this state of affairs.

SECRET SOCIETIES.

14. These gave little or no trouble during the year.

EXPENDITURE.

15. Return *I** gives a comparative statement of the cost of the various Forces during 1899 and 1900. The total expenditure was \$530,562.88, being an excess of \$39,108.19 over 1899.

* Not printed.

REVENUE.

16. The revenue collected was—

	\$	c.
Perak	16,614	43
Selangor	11,243	78
Negri Sembilan	5,576	95
Pahang	6,163	34

BIRTHS AND DEATHS.

17. The births and deaths actually reported to the police were :—

	Births.		Deaths.	
	M.	F.	M.	F.
Perak	2,699	2,450	11,637	2,363
Selangor	870	766	6,546	1,094
Negri Sembilan	1,185	979	2,517	808
Pahang	141	157	1,164	184
	9,247		26,303	

an increase of 384 births and 9,741 deaths over 1899.

On January 1st, in Pahang, the Police handed over the Registration of Births and Deaths to the Medical Department.

REGISTRATION AND DESTRUCTION OF DOGS.

18. Return J* is a return of dogs registered and destroyed during the year. There was an outbreak of rabies in the Bentong District, Pahang. Owing to the prompt action of the police in shooting all rabid dogs and confining others for one month the disease died out and never spread to other districts.

FIRE BRIGADES.

19. Nearly all engines, etc., under charge of the Police, were in satisfactory order. There were 32 fires in Perak, the property destroyed being valued at \$22,196. In Negri Sembilan the village of Titi was completely destroyed early in the year, the value of property burnt being estimated at \$30,000. There was also a small fire at Mantin.

TELEPHONES.

20. Except in Perak, the state of the telephones cannot be said to be in satisfactory order. Telephones are wanted in Negri Sembilan and in the Ulu Pahang. Had the telephones between Cheras, Sungei Besi and Kajang been in proper order, the gang robbers who were responsible for the death of the Penghulu of the first named place might possibly have been brought to Justice.

INSPECTIONS.

21. I visited and inspected nearly all the principal, and a large number of minor, stations during the year. Much of my time that would otherwise have been spent in inspecting work was taken up by long enquiries and still longer reports on same.

GENERAL.

22. The Police have assisted the Chinese Protectorate in the "Protection of Women and Girls." This is a duty they should be relieved of.

Bicycles have proved most useful and much good work has been done by this means of getting about. The number should be considerably increased throughout the Federated Malay States.

One hundred and eighty-six cases of death amongst buffaloes from rinderpest were reported during the year in Pahang, but the Chief Police Officer considers that the disease has died out. Buffaloes are now being imported from the unprotected Native States.

* Not printed.

One hundred and thirty-two tahils of alluvial gold were voluntarily registered in the Police Office, Kuala Lipis, during the year. Mr. Sumner considers that all gold won by other than concession holders should always be registered to check gold thieves. The above 132 tahils was probably made into jewellery. By this means the gold could be exported free of duty. I agree with Mr. Sumner that a royalty should be paid on all gold won from the country in whatever way it is exported.

Mr. Sumner, whose report is most interesting, says that bands of Dyaks and Malays have crossed the boundary from the unprotected States for the purpose of working getah without a licence. He considers that much of this illicit work has taken place, and recommends the appointment of a forest officer with a suitable staff. The Police have done all they could to check it, but the friendly border land is so close and the jungle so dense that it is almost impossible to catch them.

OFFICERS, CHANGES, ETC.

23. Mr. Douglas proceeded on leave in October, Capt. Lyons, acting in Selangor, relieved him and Mr. Hatchell came to Selangor. There were many transfers amongst the Inspectors.

District Inspector Symes, after 17 years' excellent service, retired on a well earned pension. Inspector Watcham left the service and Inspector S. J. Thompson resigned. Inspector Akers services were dispensed with for absence without leave. The following went on leave during the year:—Chief Inspector Buswell, Inspectors Conway, Beck (invalided) and Stapleton. Chief Inspector Hennessy and Inspector Spinks returned from leave.

Mr. Whitley, of the Selangor service, acted, after Mr. Rowley's transfer to Kinta, as Assistant Commissioner, in addition to his other duties. He has spent most of his time in the conduct and prosecution of cases, which work has been excellently done.

During the whole year the efficiency of the Police everywhere has been hampered by an inadequacy of officers. Where it was possible to fill vacancies new and inexperienced men were only available.

Mr. Sumner, in particular, was short of officers, and for a considerable period, in addition to his own duties as Chief Police Officer, he had to do the work of two Inspectors, there being but one Inspector and he stationed at Pekan, out of an establishment of three.

Mr. Hannay, the Acting Chief Police Officer, Negri Sembilan, deserves credit for the way he has carried on his duties, having only one Inspector in the State to assist him.

H. L. TALBOT, CAPT.,
Commissioner of Police, F. M. S.

RULES FOR THE CLERICAL SERVICE,

FEDERATED MALAY STATES.

GRADES.

1. The Clerical Service shall be divided into two Grades—
SENIOR GRADE.....Salary \$600 or more;
JUNIOR GRADE.....Salary under \$600.

APPLICATIONS.

2. Applicants for employment must be over 16 and under 23 years of age; must possess a certificate of good conduct from the Head Master of their school; must show a school certificate of Standard VI. or VII. of one of the schools in the Straits Settlements or Federated Malay States, or if they have not been educated in the Colony, a certificate of equivalent value, or must pass the examination required by Schedule A hereto; and produce a satisfactory medical certificate. School certificates may, however, be dispensed with in special cases, where there are special qualifications, such as knowledge of languages.

JUNIOR GRADE.

3. The commencing salary of a Junior Grade Clerk will be \$300 and he will be on the Provisional and Temporary Establishment: his services may be dispensed with at any time before he is placed on the Fixed Establishment on receipt of one month's notice: he will, if his services are satisfactory, receive promotion and increase of pay according to seniority and merit until a maximum of \$540 is reached. On attaining that maximum rate of salary in the Junior Grade he will be required to pass a second examination (see Schedule B hereto) in order to qualify for the Senior Grade. A Junior Grade Clerk may, however, present himself for examination to pass into the Senior Grade after he has served for five years, although the maximum salary of \$540 has not been reached.

INABILITY TO PASS EXAMINATION FOR SENIOR GRADE.

4. If he fails to satisfy the Examiners he may be examined again at the expiration of six months, but all Clerks of the same grade who may be examined during that period will, if they pass the examination, have prior claims to promotion.

If he again fails to satisfy the Examiners his services will be dispensed with.*

SENIOR GRADE.

5. On passing the qualifying examination and being otherwise eligible, a Clerk will be at once placed upon the Fixed Establishment and his previous service, after 20 years of age, will be counted for pension. He may, however, be called on to pass a further medical examination.

PROMOTION.

6. He will be entitled to receive promotion and increase of salary according to merit and seniority until a maximum rate of \$1,200 per annum is reached; and he will be required to serve, on promotion, in any of the Federated States.

7. No promotion will be accorded to any Clerk who is not favourably reported upon by the Head of his Department.

* See also R.-G. O. Circular No. 10—1900.

INTER-STATE PROMOTION.

8. To equalise the chances of promotion to Clerks serving in the Senior Grade the Resident of a State in which any vacancy in the Clerical Service occurs, in any appointment the salary of which shall be \$900 and upwards, shall immediately upon the occurrence of the vacancy telegraph to the other Residents and to the Secretary to the Resident-General, who is in charge of the Federal Clerks' List, stating the vacant office, the salary attached thereto and the seniority of the next Clerk in his State who is eligible for promotion.

9. If there is no Clerk in another State with greater claims either by reason of pay, merit, or seniority, the Residents of the other States and the Secretary to the Resident-General need not reply, and, if no reply is received within seven days, the Resident of the State in which the vacancy exists will provisionally appoint the next Clerk eligible for promotion to the vacant office and report the case for the approval of the Resident-General.

10. If, on the other hand, there is in any other State or on the Federal Establishment a Clerk who has superior claims to the Clerk next eligible for promotion, the Resident of such other State or the Secretary to the Resident-General will telegraph the name of the Clerk he recommends and state his present pay and seniority.

11. If more than one reply is received from Residents of the other States, the Resident of the State in which the vacancy exists will forward a list of the names submitted to him, with a recommendation to the Resident-General for the promotion.

12. Should the Clerk selected fail to proceed to his new post when directed to do so, his appointment will be cancelled, the failure will be noted against him, and the Government will consider whether he can be retained in the service.

SENIORITY OF CLERKS FROM COLONIAL SERVICE.

13. In the case of Clerks promoted to the Service of the Federated Malay States from that of the Colony, seniority will date, if their service is continuous, from the date on which they first received \$600 on the Fixed Establishment; but if not continuous, from the date of their appointment to the Service of the Federated Malay States.

By command,

F. J. WELD,

RESIDENT-GENERAL'S OFFICE,
Kuala Lumpur, 25th May, 1901.

Ag. Secretary to the Resident-General, F.M.S.

* SCHEDULE A.

THE EXAMINATION OF CANDIDATES FOR CLERKSHIPS
IN THE GOVERNMENT SERVICE.

1. Entrance into the Federated Malay States Government Clerical Service may be obtained as stated in Rule 2, or by passing a satisfactory examination in the subjects given in para. 2.

The application must be in the form annexed, addressed either to the Secretary to Government at Taiping or Kuala Lumpur, or the Residents of Negri Sembilan or Pahang.

2. At convenient intervals, examinations will be held in the Secretary to Government's Office at Taiping and Kuala Lumpur and in the offices of the Residents at Seremban and Kuala Lipis to test the qualifications of approved applicants.

The subjects of examination will be as follows:—

- (a) Arithmetic;
- (b) Handwriting—copying neatly and legibly a draft letter;
- (c) English Composition—writing a clear and grammatical account of some recent local occurrence (or some simple essay) and writing a simple letter;
- (d) Dictation—writing down correctly ten lines from a book or newspaper read out once and then dictated slowly;
- (e) Conversation.

Marks in proportions decided on by the Examiners will be assigned to each subject, and unless a candidate obtains two-thirds of the maximum marks in each subject he will be disqualified.

A candidate will not be allowed to present himself more than twice for examination.

3. The names of the successful candidates will be recorded in the order arrived at in the examination, and vacancies in the Clerical Service will be filled up from those standing highest on the list.

4. Every clerk will, on first joining the Clerical Service, be on the footing of a probationer, and will not be confirmed unless a favourable report is received at the close of six months from the Head of the Department in which he is then serving as to the probability of the probationer becoming an intelligent clerk.

FORM OF APPLICATION.

Particulars to be filled in by Applicants.

- 1. Parents' names.
- 2. Place of abode.
- 3. Place of birth.
- 4. Date of birth.
- 5. Where educated.
- 6. Names of persons who can be referred to as to character.

SIR,—I have the honour to request that my name may be noted for employment as a clerk in the Government Service. I attach my school certificate and I am prepared to undergo the necessary examination.

I have correctly filled in the particulars above-mentioned.

I have the honour to be,

Sir,

Your obedient Servant,

(Signature) _____

SCHEDULE B.

**RULES FOR TESTING THE QUALIFICATIONS OF CLERKS BEFORE THEY
ARE PROMOTED TO THE GRADE OF \$600 PER ANNUM AND
CAN RECEIVE A CERTIFICATE AS SENIOR CLERK.**

(i.) A statement in the form attached should be furnished, showing the period and quality of his service in each Department. It should be signed by each Head of Department, and must be presented in person by the candidate for promotion to the Secretary to Government of Perak or Selangor or to the Resident of Negri Sembilan or Pahang.

(ii.) Each candidate must show that he has the means of reading books, such as access to some Library. He should be asked to state what books he has read, and be able to give some account of them.

(iii.) He may be required to show that he is fond of taking active exercise, and is of healthy habits.

(iv.) He must have a competent knowledge of the General Orders, must be able to correspond and to converse readily and sensibly on ordinary topics, and to explain such common foreign phrases as—*e.g.*, *viz.*, *prima facie*, *proximo*, *ultimo*, etc., etc.

(v.) He should prove himself quite competent in copying difficult handwritings, in proof-reading, in draft-writing, or (for Judicial clerkships) in taking down evidence correctly in Court, or (for Financial clerkships) in advanced arithmetic.

After qualifying, the Examiners should give the successful candidate for the grade of Senior Clerk a certificate stating the candidate's qualifications.

(on back)

Statement of services of candidate for grade of Senior Clerk, with reference to rule (i.)

Books read, etc., with reference to rule (ii.)

Examiners' opinion of his qualifications, with reference to rules (iii.) to (v.)

The
Perak Government Gazette.

PUBLISHED BY AUTHORITY.

FEDERAL.

APPOINTMENTS.

Mr. Francis St. George Caulfeild, State Engineer, Perak, has been appointed Director of Public Works, Federated Malay States, with effect from the 15th May, 1901.

Mr. Charles Edwin Spooner, State Engineer, Selangor, has been appointed General Manager, Railway Department, Federated Malay States, with effect from the 15th May, 1901.

COUNCIL OF STATE, KUALA KANGSAR.

MONDAY, 1st APRIL, 1901.

PRESENT :

HIS HIGHNESS IDRIS MERSID-EL-AAZAM SHAH, K.C.M.G., Sultan of Perak,
President.

The Acting British Resident, COL. R. S. F. WALKER, C.M.G.

The Secretary to Government, A. R. VENNING, Esq.

His Highness Raja Muda, RAJA MUSA.

The Raja di Hilir, RAJA ABDUL JALIL.

The Orang Kaya Mentri, WAN MUHAMMAD ISA.

The Orang Kaya Kaya Panglima Kinta, USUF.

The Orang Kaya Kaya Laksamana, HUSSEIN.

The Datoh Sri Maharaja Lela, ABUBAKAR.

CHUNG THYE PHIN.

LEONG FI.

HIAR SWEE LEE.

ABSENT :

The Orang Kaya Temenggong, WAN HASSAN.

The Datoh Sri Adika Raja, WAN MUHAMMAD SALEH.

The Datoh Muda, ABDUL WAHAB.

The Council meets at 11 a.m.

1. A draft Enactment to provide for the licensing of Ferry Boats is read and passed becoming Enactment No. 1 of 1901.

2. A draft Enactment to amend the law relating to the Registration of Births and Deaths is read and considered, and, after some discussion, the draft Enactment is passed becoming No. 2 of 1901.

3. The Acting Resident reads letters from His Excellency the Acting High Commissioner forwarding (i) copies of telegrams received from the Sultans of the Federated Malay States expressing their deep sorrow on hearing of the death of Her most Gracious Majesty the Queen; and (ii) copies of the minutes of a meeting of the Perak State Council, held at Kuala Kangsar, on the 24th January last.

4. The Council accepts the resignation of Mat Resat, Assistant Penghulu of Ulu Krian, and approves of the appointment of Sajak, as Assistant Penghulu, on \$10 a month, with effect from the 1st April, 1901.

5. The Acting Resident informs the Council that Omar, who has been offered the appointment of Assistant Penghulu, Teja, has declined to accept the post. The Council appoints Mat Asin to fill the vacancy, with effect from the 1st April, 1901.

6. The Acting Resident lays on the table a letter from Wan Abubakar, asking for a higher rate of pension than that provided by the Pension Regulations, His Highness the Sultan in Council recommends that in consideration of his long and valued services to the State, the pension of Wan Abubakar shall be at the rate of \$40 a month.

7. The Council recommends an increase of \$5 a month to the pension of Kulup Rian.

8. The Council recommends that the pension of Raja Ngah Halimah be increased by \$10 a month.

9. His Highness the Sultan in Council recommends a pension of \$10 a month to Raja Ngah Aminah, on her retirement from the post of Bentara Betina.

10. The Acting Resident reads a letter from the District Magistrate, Kuala Kangsar, with reference to the Penghulu and Assistant Penghulus of Kota Lama Kanan. The Council agrees to the retirement of Wan Hussein and Itam Mahun, on pension, to take effect from 1st January, 1902, and that Indut be appointed Penghulu on \$480 per annum, with an Assistant Penghulu, to be nominated later on, on a salary of \$240 per annum.

11. His Highness the Sultan informs the Council that he has committed for banishment from the State, for terms of one year and two years, respectively, two men named Ismail and Chu Leman, who had been tried by him under Muhammadan Law and found guilty of the crime of incest.

12. The Council approves of the following conversions of agricultural rights to mining rights.

Mukim.	Name.	Title.	Acres.	Premium per Acre.

* On the condition that the land be worked by dredging as described in his letter of 7th March, 1901.

1st April, 1901.

RAJA MANSUR,
for Clerk of Council.

No. 375.—The following Enactments were passed at a Meeting of the Council of State held on the 1st April, 1901.

FEDERATED MALAY STATES.

STATE OF PERAK.

ENACTMENT NO. 1 OF 1901.

An Enactment to provide for the licencing of Ferry Boats.

[1st April, 1901.]

COL. R. S. F. WALKER, C.M.G., *Acting British Resident.*

IT IS HEREBY enacted by His Highness the Sultan in Council as follows:—

1. This Enactment may be cited as “The Ferries Enactment, 1901,” and shall come into operation upon publication thereof in the *Gazette*. Short title and Commencement.

2. In this Enactment, unless a contrary intention appears from the context, the expression “ferry” means any passage to and fro between landing places on opposite banks or shores of a river or estuary which has been proclaimed to be a ferry under this Enactment by notice in the *Gazette* signed by the District Magistrate or District Magistrates of the District or Districts within which such landing places are included, and the expression “ferry boat” means any boat plying between such landing places. Interpretation.

3. From and after the coming into operation of this Enactment no boat shall ply for hire as a ferry boat upon any estuary or river Ferry boats to be licensed.

No. 1 OF 1901.

or convey for hire passengers, animals or goods across any river or estuary within one mile of a ferry across such river or estuary unless such boat shall be licensed thereto in the manner provided by this Enactment.

Power to
District Ma-
gistrate to
issue licences.

4. It shall be lawful for the District Magistrate of any district, or any other officer appointed in that behalf by the Resident, to issue a licence to ply as a ferry boat in respect of any boat which shall be of such size and build, and in such condition as to be, in his opinion, fit and proper to be used for such purpose.

Conditions of
licence.

5. Every such licence shall state the place at which such boat is licensed to ply for hire, but shall convey no monopoly in respect thereof. Such licence shall also state the nature of the traffic for which such boat is licensed, whether for passengers only, or for heavy traffic only, or for both, together with the maximum rate to be charged for passengers, animals and goods, respectively, and the maximum number of passengers or animals and weight or bulk of goods which may be carried at any one trip.

Fee.

6. There shall be payable in respect of every such licence a fee of \$5, and such licence shall remain in force for the period of twelve months from the date of issue, provided that it shall be lawful for the licensing officer to suspend or cancel the same, upon proof of the unfitness or unsoundness of the boat, or of the breach by the licensee of any of the conditions contained in his licence, or of any of the obligations imposed upon him by this Enactment.

Plates and
numbers to
be affixed to
boats.

7. There shall be affixed, in a conspicuous place upon the side of every licensed ferry boat, a tin plate of such size as the licensing officer may direct, bearing, in intelligible characters, the words "Licensed Ferry Boat," together with the number of passengers or animals or the weight or bulk of goods, as the case may be, which such boat is licensed to carry. There shall also be painted in a conspicuous position upon every licensed ferry boat a number corresponding with the number of the licence.

Boats to ply
at all hours.

8. It shall be incumbent upon the licensee of every ferry boat to have his boat ready to ply for hire at all hours, upon tender by a passenger of such rate of hire as may be stated in his licence.

Prohibition.

9. No licensed ferry boat, unless the licence contains a special permission to do so, shall carry any horses, cattle, ponies, pigs, sheep, or goats at the same time as ordinary passengers.

Penalty for
plying with
unlicensed
boat.

10. Any person who shall use for hire, as a ferry boat, or to convey for hire passengers, animals or goods across any river or estuary within one mile of a ferry across such river or estuary, any boat not duly licensed under this Enactment, or who shall use a boat licensed under this Enactment in any manner not authorised by the licence, shall be liable to a fine not exceeding \$25.

Penalty for
refusing to
convey
passengers,
etc.

11. The licensee of any licensed ferry boat, or his agent or servant in charge of the same, who shall, without reasonable excuse (the proof of which shall lie upon him), neglect or refuse to convey a passenger, or goods, or animals, as the case may be, upon tender of such rate of hire as is stated in his licence, or who shall charge or demand a higher rate than is stated in such licence, shall be liable to a fine not exceeding \$20.

FEDERATED MALAY STATES.

STATE OF PERAK.

ENACTMENT No. 2 OF 1901.

An Enactment to amend the Law with respect to the Registration of Births and Deaths.

[1st April, 1901.]

COL. R. S. F. WALKER. C.M.G., *Acting British Resident.*

IT IS HEREBY enacted by His Highness the Sultan in Council, as follows:—

1. This Enactment may be cited as "The Births and Deaths Registration Enactment, 1901," and shall come into force upon the publication thereof in the *Gazette*. Short title and commencement.

2. Upon the coming into force of this Enactment, the Enactment specified in the schedule hereto shall be repealed to the extent therein mentioned: provided that all appointments, orders and acts made and done thereunder, until the same shall have been lawfully revoked, altered or superseded, shall continue to be of the same force and effect as though the same had been done under the provisions of this Enactment. Repeal.

3. In this Enactment, unless the context otherwise requires— Interpretation.
Words referring to burial of bodies shall be held to include burning of bodies;

"House" includes a public institution;

"Public institution" includes prison, lock-up, lunatic asylum, hospital and any other public or charitable institution;

"Occupier" includes the keeper, master, matron, superintendent or other chief resident officer of every public institution, and where a house is let in separate apartments or lodgings includes any person residing in such house who is the person under whom such lodgings or separate apartments are immediately held or his agent;

"Qualified medical practitioner" means the holder of an European or of a British Indian or British Colonial degree, diploma or licence, entitling him to practise medicine or surgery, or the holder of a degree, diploma or licence in medicine or surgery of any Medical School in the United States of America, the degrees, diplomas and licenses whereof are, for the time being, recognised as registrable by the General Council of Medical Education and Registration of the United Kingdom.

4. It shall be lawful for the Resident to appoint a Registrar of Births and Deaths for the State, and a Deputy Registrar for each district, with such clerks and subordinate officers as may be necessary for performing the several duties prescribed by this Enactment, and to make such provision as may be necessary for the payment of their salaries. Appointment of officers.

5. The Registrar shall cause to be provided a sufficient number of Register Books for entries of all births and deaths, and shall from time to time, furnish to every Deputy Registrar such register-books as he Register-books.

No. 2 OF 1901.

may require. Such register-books shall be in such form as may, from time to time, be prescribed by rules made under this Enactment.

Information
as to births
and deaths.

6. (i). Every Deputy Registrar is required to inform himself carefully of every birth and death occurring in his district, and to register the same without delay in the proper book furnished to him for that purpose, numbering all registrations consecutively, from number one up to number 100,000, after which he shall commence a new series, which consecutive numeration shall be preserved in each district by all succeeding Deputy Registrars, and such registrations shall be in such forms as may, from time to time, be prescribed by rules made under this Enactment. In cases of death, the Deputy Registrar shall, if practicable, personally inspect the corpse and make enquiries among the persons present at the death.

(ii). Every Deputy Registrar shall forward to the Registrar weekly reports of all births and deaths registered in his district, setting forth, when possible, the name, age, sex, residence, nationality and occupation of each deceased person, period of continuous residence in the district and last place of residence before arrival in the district, as well as the duration of his illness, the date and cause of death, and the name and qualification of the medical man certifying the same.

Inspection of
and extracts
from Regis-
ters.

7. The district register-books shall, on payment of the prescribed fees, be open to inspection by any person on any day not being a Sunday or holiday, between the hours of ten in the forenoon and four in the afternoon; and the Registrar and every Deputy Registrar shall make and keep for reference in the prescribed form alphabetical indexes of the respective register-books of births and deaths kept by him, and shall, on payment of the prescribed fees, furnish to any person requiring the same a certified copy of any entry in any register-book in his charge, and every copy of any entry in any register-book certified under the hand of the Registrar or Deputy Registrar in charge of the same for the time being to be a true copy shall, subject to the limitation hereinafter provided, be *prima facie* evidence in all Courts and before all tribunals in the State, of the dates and facts contained or set forth in such copy.

Yearly
summary and
report.

8. The Registrar shall, within 30 days after the expiration of every year, compile a summary of the births and deaths of the past year, according to such forms as shall, from time to time, be approved by the Resident, and the Registrar shall also compile at the same time a general report on the increase or decrease of the population and on any special causes appearing to affect the same, as far as the same can be gathered from the Deputy Registrar's Returns; and all district register-books which shall be filled up shall thereafter be kept in the Registrar's office and custody to be handed down to succeeding Registrars in such manner as the Resident may direct.

Occupier and
relatives to
register
births and
deaths.

9. (i). In the case of every child born alive after the commencement of this Enactment, it shall be the duty of the father and mother of the child, and of the occupier of the house in which to his knowledge the child is born, and of each person present at the birth, and of the person having charge of the child, within fourteen days after such birth shall have taken place to furnish to the Deputy Registrar of the district, within which the birth shall have happened the particulars of the same in the prescribed form and to certify to the correctness of such information by signing his name in the proper columns of the form.

BIRTHS AND DEATHS REGISTRATION.

(ii). Whenever the name of a child is not settled and cannot be registered within 14 days of birth, the person whose duty it is to cause such birth to be registered shall, so soon thereafter as the name is settled and not later than seven years thereafter, register such name and certify to it in the prescribed form.

(iii). When a person dies in a house after the commencement of this Enactment, it shall be the duty of the occupier of the house in which to his knowledge the death took place, and of the nearest relatives of the deceased present at his death or in attendance during the last illness of the deceased, and of each person present at the death, and in default of the persons heretofore in this sub-section mentioned of each inmate of the house and of the person causing the body of the deceased person to be buried, within twelve hours after such death shall have taken place to furnish to the Deputy Registrar of the district wherein the death shall have happened the particulars of the same in the prescribed form and to certify to the correctness of such information by signing his name in the proper column of the form.

(iv). When a person dies in a place which is not a house, or a dead body is found elsewhere than in a house, it shall be the duty of every relative of such deceased person having knowledge of any of the particulars required to be registered concerning the death, and of every person present at the death, and of any person taking charge of the body, and of the person causing the body to be buried, to give to the Deputy Registrar, within twelve hours after the death or the finding, such information of the particulars required to be registered concerning the death as the informant possesses and to certify to the correctness of such information by signing his name in the proper column of the register-book.

Provided that in the event of the person whose duty it is to sign any certificate under this section being a woman and unable through illness or other cause to sign such certificate, it shall be lawful for her to authorise any male relative to sign it on her behalf.

10. Any person whose duty it shall be under this Enactment to furnish any particulars of any birth or death, and who shall, without reasonable cause, omit to do so within the time required by this Enactment, shall, on conviction thereof by a Magistrate, be liable to a fine not exceeding \$50, except in any case for which a smaller penalty is provided by this Enactment. Provided that it shall be lawful for the Deputy Registrar, upon payment by such person of the prescribed fee, to register the particulars within 42 days after any birth and within three days after any death; and provided, further, that, notwithstanding the neglect of any such person as aforesaid to give information respecting any birth within 42 days or any death within three days, it shall be the duty of the Deputy Registrar to procure by all means in his power the best and most accurate information respecting any birth or death which may have occurred within his district, and upon such information to make an entry of such birth or death in manner hereinafter mentioned, but not until after the expiration of the time last mentioned in each case. Every such entry shall be made in a book specially kept for late registration to be called the Post Registration Book, which shall be open to inspection in the same manner as the register-books mentioned in Section 7 hereof, and every Deputy Registrar shall, upon payment of the prescribed fees, furnish to any person requiring the same a certified

Penalties for not furnishing particulars.

No. 2 OF 1901.

copy of any entry therein. No copy of any entry in the Post Registration Book shall be receivable in evidence, as prescribed in Section 7 of this Enactment, unless the truth of the facts therein entered shall have been found by a Magistrate in a proceeding instituted before him under this section, and such Magistrate has certified his finding in the Post Registration Book. Such a proceeding may be instituted by any person claiming to have an interest in substantiating the record in the Post Registration Book, and shall be brought by way of information and summons to be served on the Deputy Registrar in charge of such Post Registration Book, calling upon him to show cause why a certified copy of such entry should not be entitled to be received in evidence in the same manner as certified copies from the register-books issued under Section 7 hereof.

Duties of
police officers
and peng-
hulus.

11. It shall be the duty of all police officers and penghulus to obtain information of every birth and death within their respective districts, and also respecting the father or mother of every child born in their district, and respecting the occupier of any house in their district in which any birth or death may happen, and to give notice thereof to the Deputy Registrar of the district, and every police officer or penghulu knowing such particulars and wilfully neglecting or omitting to give notice thereof to the Deputy Registrar, shall be liable, on conviction before a Magistrate, to a fine not exceeding \$25.

Duties of
medical
practitioners
as to certifi-
cate.

12. It shall be the duty of every qualified medical practitioner, upon the death of any person who has during his last illness been attended by such medical practitioner, to sign and deliver within twelve hours of the death to some person required by this Enactment to furnish particulars of the death or to the Deputy Registrar a certificate in the prescribed form, and such person shall, when furnishing particulars of the death, deliver such certificate to the Deputy Registrar, and the cause of death as stated in the certificate shall be entered in the register-book, together with the name of the certifying medical practitioner.

Duty of
Magistrate
holding an
enquiry.

13. When an enquiry is held into the death of any person, the Magistrate holding such enquiry shall, within twenty-four hours after the conclusion thereof, forward a certified copy of his finding to the Deputy Registrar, and the cause of death as stated in such finding shall be entered in the register-book.

When *post*
mortem
examination
is made.

14. When a qualified medical practitioner has made a *post mortem* examination of the body of any deceased person, such medical practitioner shall, within twenty-four hours after the conclusion of the examination, forward a certificate in the prescribed form to the Deputy Registrar and the cause of death as stated in such certificate shall be entered in the register-book.

Penalty.

15. Any person wilfully neglecting or omitting to comply with the provisions of Section 12, Section 13, or Section 14 shall be liable, on conviction by a Magistrate, to a fine not exceeding \$25.

Offences
triable
in Senior
Magistrate's
Court.

16. Every person who shall wilfully make or permit to be made, for the purposes of registration, any false statement, or shall wilfully or knowingly furnish or permit to be furnished any false information, touching any of the particulars hereby required to be made known, and every person who shall make or permit to be made any false entry in any register-book knowing the same to be false, or who shall wilfully

BIRTHS AND DEATHS REGISTRATION.

destroy or permit to be destroyed any entry in any register book, shall be guilty of an offence, and be liable, on conviction before the Senior Magistrate, to a fine not exceeding \$500, or to imprisonment of either description not exceeding twelve months, or to both.

17. Every person who shall wilfully or carelessly destroy, injure, mutilate, deface, or lose any register-book used for the purpose of this Enactment and every Deputy Registrar who shall refuse or omit without reasonable cause (the proof of which shall rest with the person accused) to register any birth or death within his district, of which he shall have notice or knowledge, or any Registrar or Deputy Registrar who shall carelessly or wilfully allow any register-book to be destroyed, injured, mutilated, defaced, or lost, whilst in his custody or keeping, shall be guilty of an offence and shall be liable, on conviction by a Magistrate, to a fine not exceeding \$100, or to imprisonment of either description not exceeding six months, or to both. Offences triable before a Magistrate.

18. No prosecution for any offence under this Enactment shall be instituted except by the authority of the Legal Adviser or the Registrar. Prosecutions.

19. Any error in any register-book or index may be corrected by the Registrar or a Deputy Registrar, provided that such correction be made without erasing the original entry and be authenticated by the signature of the officer making the same. Correction of errors.

20. (i). Subject to the provisions of this Enactment, the Resident may make rules in respect of all or any of the following matters:— Rules.

(a). The form of the register-books and indexes and the mode in which the same are to be kept;

(b). The forms of any certificates, notices or other documents required for carrying out the purposes of this Enactment;

(c). The fees to be taken under this Enactment;

(d). The making of searches and the giving of certified copies;

(e). The custody of the register-books, indexes and other documents connected with the business of registration;

(f). Any other matters as to which it may be expedient to make rules for carrying into effect the objects of this Enactment;

(ii). Such rules shall be published in the *Gazette* and shall thereupon be of the same force as if they had been enacted in this Enactment.

21. All fees taken under this Enactment shall be paid into the Treasury for the use of the State. Fees to be paid to Treasury.

THE SCHEDULE.

ENACTMENT REPEALED.

Number or date.	Short title or description.	Extent of repeal.
Order in Council of 22nd September, 1886	Registration of Births and Deaths Order in Council, 1886	The whole.

No. 2 OF 1901.

RULES, UNDER SECTION 20 OF THE BIRTHS AND DEATHS REGISTRATION ENACTMENT, 1901, MADE BY THE RESIDENT ON THE 2ND DAY OF APRIL, 1901, AND PUBLISHED IN THE *GAZETTE* ON THE 21ST DAY OF JUNE, 1901.

FORMS.

1. The following shall be in the forms given in the schedule to these rules:—

Register of Births, in Form *A*;

Register of Deaths, in Form *B*;

Index of Register of Births, in Form *C*;

Index of Register of Deaths, in Form *D*;

2. The weekly returns made by Deputy Registrars to the Registrar shall be in forms similar to Forms *A* and *B*, respectively.

3. Reports of births and deaths shall be in Forms *E* and *F*, respectively.

4. Reports for registering the name of a child subsequent to the registration of its birth shall be in Form *G*.

5. The medical certificate of the cause of death shall be in Form *H*; and forms of certificate of the cause of death after *post mortem* examination shall be in Form *I*.

6. Forms *H* and *I* shall not be used by Medical Officers in charge of, or attached to, hospitals or other public institutions. Such officers shall fill in and sign the form of report of death, *F*, when deaths are registered by them.

7. Every report of a birth and death (Forms *E* and *F*) shall be signed by the informant, and the register-book, at any place where any report of a birth or death is made verbally, shall be signed by the informant or person making such report.

8. Certified extracts from the registers shall be given on forms, giving particulars identical with the particulars shewn in the registers.

FEES.

9. The fees to be paid under this Enactment shall be—

	\$
For a certified extract from register or post registration book of a birth or death	1
For a search in register or post registration book of births or deaths	1
For late registration (under Section 10)	1

Springs and lies in approximately Lat. $4\ 3\frac{1}{4}$ N. and Long. $100\ 34\frac{1}{4}$ E. with the islet, 163 feet, (Pulau Payong) N. 53 W. 6 cables, and Pulau Rambia summit S. 50 W.

19th June, 1901.

HANOI EXHIBITION, 1902.

No. 390.—It is hereby notified that the regulations in connection with the Exhibition to be held at Hanoi, in 1902, can be seen in the Secretariat.

21st June, 1901.

RULES FOR PADI PLANTING OPERATIONS FOR THE SEASON 1901-1902.

KRIAN DISTRICT.

No. 391.—The preparing of all fields, clearing of water-courses and drains, repairing of banks of each field and the establishing of nurseries to be commenced on the 1st July.

The planting of *padi* to be commenced on the 10th August.

It shall be lawful for the District Magistrate to alter the dates on which any of the above operations are to be carried out, if it is found expedient to do so owing to drought. Any such alteration shall be published in the *Gazette*, and notice given locally.

Any person committing a breach of any of these rules shall be liable, on conviction before a Magistrate, to the penalty prescribed under Section 110 of the Land Enactment.

29th May, 1901.

MATANG DISTRICT.

No. 392.—The preparing and clearing of all fields, water-courses and drains, and repairing fences must be commenced by the 7th June and finished before the 30th August.

The nurseries must be planted between the 20th and 29th June, 1901.

The planting of *padi* to be commenced not later than the 3rd August and completed by the 28th August.

It shall be lawful for the District Magistrate to alter the dates on which any of the above operations are to be carried out, if it is found expedient to do so owing to drought. Any such alteration shall be published in the *Gazette*, and notice given locally.

Any person committing a breach of any of these rules shall be liable, on conviction before a Magistrate, to the penalty prescribed under Section 110 of the Land Enactment.

7th June, 1901.

FEDERATED MALAY STATES.

STATE OF PERAK.

THE JINRIKISHA ENACTMENT, 1900.

No. 393.—By-laws under Section 50 of the above Enactment, made by the Sanitary Boards of Larut, Matang, Kuala Kangsar, Kinta, Lower Perak, Batang Padang and Krian, with the approval of the Acting Resident, on the 12th day of June, 1901, and published in the *Gazette*, on the 21st day of June, 1901.

The following by-laws have been made by the above mentioned Sanitary Boards, with the approval of the Acting Resident, under Section 50 of Enactment No. 10 of 1900, and shall have effect from the date of publication in the *Gazette*.

BY-LAWS FOR JINRIKISHAS.

1. All jinrikisha pullers are to be licensed and registered.
2. The period for which licenses shall be issued is twelve months, to expire on December 31st of each year.
3. All persons applying for licenses as pullers shall be examined by an Officer appointed by the Board for that purpose, and it shall be competent for him to refuse to licence any person who he considers to be physically unfit for the work, or who has had his previous licence cancelled for any breach of this Enactment, or who is known to be a bad character.
4. Such badges are to be worn by ricksha pullers as may be prescribed by the Board. The said badges shall not be transferable and shall always be worn by the puller when plying for hire.
5. On the back of the licence and counterfoil the Board may direct that the impressions of the finger tips of the right hand of the puller be imprinted, and the puller shall be liable at any time to be asked to go to the Sanitary Officer or Officer of Police or by a passenger to be identified by means of the impressions of his finger tips.

6. The puller shall be liable to have the licence suspended or cancelled by the Registrar of Vehicles in the event of his committing any offence under Section 37 of this Enactment, and also in the event of his becoming, through sickness or otherwise, physically unfit for the work.

7. The fee to be paid for a puller's licence shall be \$1 for one year, or any part thereof, which fee will include the cost of badge.

8. No jinrikisha shall be licensed unless it complies with all the following conditions, viz:—

(a). The carriage shall be sound, clean and properly secured.

(b). The wheels shall be strong and sound so as to run true and without rattling or shaking and be protected by properly fitted wings.

(c). The springs shall be made of good metal, properly rivetted, and be free from rust.

(d). The iron supports at the back shall be properly curved and securely fixed at each side, strong, of sound metal, and free from rust, and shall project 2 feet 3 inches behind the axle.

(e). The shafts shall be of sound wood securely fixed, and furnished at the fore ends with ring shaped metal supports, and connected by a collision guard.

(f). The hood, apron and cushions shall be made and covered with leather, American cloth, or such other material as may be approved by the Registrar, of the one same colour, in good condition and clean.

(g). There must be four holes in the floor of the vehicle at least $\frac{3}{4}$ " in diameter, two in front and two behind for drainage, which must be kept always open.

9. No owner shall hire a jinrikisha to anyone except a licensed puller.

10. Whilst any licensed jinrikisha is being used or is plying for hire, with the hood down, the flap at the back of the hood must be rolled up or securely tied down, it must not be allowed to fly loose.

11. The following articles are forbidden to be carried in licensed jinrikishas:—

(a). Liquids of any kind in tubs, jars, or open vessels from which they may spill or slop over.

(b). Food for pigs or ducks, decayed rice, putrid fish or any decaying animal or vegetable matter from which offensive smells arise, or refuse of a wet or offensive kind.

(c). Dead animals, or any portion thereof (unless meant for human food, and then only in such a way as not to foul the jinrikisha), undried and uncleaned skins or hides.

(d). Live pigs, sheep or goats.

(e). Fish, blachan and poultry, unless so packed and secured as not to foul the jinrikisha.

(f). Farm and garden produce and other articles, if wet or dirty, and unless stowed in baskets or other packages so as not to foul the jinrikisha.

(g). Rough material, such as earth, sand, bricks, lime, coal, charcoal, unless dry and securely packed.

(h). Bulky or unwieldly articles of any kind, which project beyond the wheels of the vehicle or more than two feet beyond the body or hood of the jinrikisha.

(i). Any basket, pail, tub or other vessel, though empty, which is offensive from having been used for the conveyance of any bad smelling or offensive article.

(j). Corpses or any person suffering from a contagious or loathsome disease.

12. The Registrar may from time to time fix the maximum number of licensed jinrikishas, which shall at the same time use any public stand appointed by him. Any puller who shall station his jinrikisha at a public stand already occupied by the maximum number of licensed jinrikishas may be required by any police officer to quit such stand.

13. Pullers must observe the following rules:—

(a). They must travel on the left hand side of the road, but when overtaking another vehicle must pass on the right hand of such vehicle.

- (b). They must look ahead and observe where they are going.
- (c). They must proceed cautiously when nearing a crossing or going round a corner.
- (d). They must not stop in the centre of a street to take up or set down passengers or goods, nor for any other purpose, but must draw to the left side so as not to stop the traffic.
- (e). They must not turn round their jinrikishas in a road or street without stopping and making sure that they have room to turn without interfering with the traffic.
- (f). They must give way to carriage traffic, that is, they must get out of the way of a carriage which is overtaking them and let it pass ahead on the right hand side. They must not rush in front of horses, causing the coachman to pull up suddenly. At crossings pullers must wait their turn and cross behind, not in front of, carriages which are in motion.
- (g). When nearing a corner which they mean to turn, they must look over their shoulders and make sure that they have room to turn; they must not cross the road or street at a long slant till there is a clear space.
14. A puller plying for hire must not wander about the streets or roads, but must proceed to a public stand, not already used by the maximum number of licensed jinrikishas, and there station his jinrikisha.
15. When an engagement offers or there is a call for a jinrikisha, the puller at the end of the public stand nearest the applicant shall have the first chance. Pullers must not rush forward in a crowd, causing noise and confusion, but must wait till they are called for or signalled to.
16. After dark, a puller when stationed at a public stand or waiting elsewhere in the streets and roads, must keep the lamps of his jinrikisha properly fitted and lighted.
17. Pullers when waiting at public stands or elsewhere may sit on the foot board of their jinrikishas, but may not sit on the cushioned seats or use the cushions for lying or leaning on.
18. All property left in a licensed jinrikisha shall, if not claimed by the owner, be immediately deposited by the puller at the Registrar's Office; such property shall be returned to the person who shall prove to the Registrar that the same belonged to him, on payment of all expenses and of a reasonable gratuity to the puller as the Registrar shall award.
19. Pullers of jinrikishas must at all times be neatly and cleanly dressed. Torn or soiled garments will not be allowed. Hats, if worn, must be neat and clean.

GOVERNMENT OF PERAK.

SALE OF MINING LAND BY TENDER.

KINTA DISTRICT.

No. 328.—Tenders are invited for the right to mine the lands hereunder specified, situated in the district of Kinta:—

No. of Survey Plan.	Area.	Mukim.	Locality.	Annual Rent.
	A. B. P.			\$
3,613	16 1 9	Kampar	Talam	17
7,971	92 1 15	Teja	Kota Bahru	93
7,972	98 0 14	"	"	99
7,973	91 0 6	"	"	92

The titles will be Leases for 21 years under the Mining Enactment, No. 5 of 1899.

Rent will be payable from January 1st, 1902.

Tenders which must refer to each block separately, and must be accompanied by a deposit of 25 per cent of the amount tendered, should be addressed under sealed cover, marked "Tender for Mining Land," to the District Magistrate, Kinta, at Batu Gajah, so as to reach him on or before noon, on the 1st July, 1901.

Deposits will be returned if tenders are not accepted; successful tenderers will be required to complete purchase within 14 days.

Plans and results of boring may be seen, and all further particulars obtained at the Land Office, Batu Gajah.

The Government does not bind itself to accept the highest or any tender.

24th May, 1901.

FORFEITURE OF MINING TITLE.

No. 394.—In accordance with Sections 15 and 16 of the Mining Enactment, 1899, and in pursuance of Notification No. 118, published in the *Gazette* of 15th February, 1901, the Agreement for Mining Lease, described in the schedule hereto, is hereby declared to be forfeited, the owner having failed to show cause to the contrary.

SCHEDULE.

Title—Agreement for Mining Lease No. 467. *Owner*—Bakar bin Ngah Ali. *Mukim*—Ulu Kinta. *Locality*—Huak Ayer Sampoh. *Area*—5 acres.

Dated at Taiping, this 18th day of June, 1901.

R. S. F. WALKER, COLONEL,
Acting Resident.

CANCELLATION OF TITLES TO LAND.

No. 395.—It is hereby notified that Grants Nos. 6, 7, 8 and 9 in the district of Larut, more particularly described in the schedule hereto, are cancelled for non-fulfilment of conditions, the registered holders having failed to show cause to the contrary.

SCHEDULE.

This Notification is made under Section 6 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 3rd day of June, 1901.

D. G. CAMPBELL,
Acting Secretary to Resident.

NOTIFICATION UNDER SECTION 7 OF THE LAND ENACTMENT, 1897.

REVOCATION OF RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 397.—Whereas by Notification No. 623 published in the *Gazette*, dated the 9th October, 1896, the British Resident reserved a piece of land situated at Tupai, in the district of Taiping, for the free and exclusive use and occupation thereof by all denominations of the Tamil community of the district, for the sole purpose of conducting their religious ceremonies, and whereas the terms on which the said land was so reserved have not been

faithfully observed in respect of a certain portion of the same, which portion is described in the schedule hereto, and delineated upon Revenue Survey Plan No. 16-14, deposited in the office of the Superintendent of Revenue Surveys, the Acting Resident, in exercise of the powers vested in him by Section 7 of the Land Enactment, 1897, is hereby pleased to revoke the said reservation in respect of the portion so described.

SCHEDULE

District—Larut. Mukim—Kamunting. Plan No.—16-14. Lot No.—158. Area—1 acre and 32 poles. Boundaries—North, Lot No. 159; South, Forest Reserve; East, Lot No. 131; West, Waterfall Road.

This Notification is made under Section 7 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 10th day of June, 1901.

D. G. CAMPBELL,
Acting Secretary to Resident.

Sungkai.	Agricultural Application.									

No. 238.—Application having been made to the Collector of Land Revenue, Batang Padang, by Ngui Hee Ngeong of Kampar, for a new document of title for land situated in the mukim of Chenderiang, in the district of Batang Padang, on the ground that Ngui Hee Ngeong is the registered owner thereof, and that the original Mining Lease No. 83, whereby the land was demised to her, has been lost:

In accordance with the provisions of Section 30 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new title applied for will, subject to the provisions of the said sections, be granted.

R. CLAYTON,

Acting Collector of Land Revenue.

12th April, 1901.

KINTA.

No. 372.—AUCTION SALE OF MINING AND AGRICULTURAL LAND.—The undermentioned blocks of Mining and Agricultural Land, in the District of Kinta, will be offered for sale by public auction, at the Ipoh Court-house, at 11.30 a.m. on Tuesday, 2nd July, 1901.

The conditions of sale and other information can be obtained at the Land Office, Batu Gajah.

Subject to the general conditions of land sales contained in Notification No. 447 of the *Perak Government Gazette* of 1890.

F. BELFIELD,

7th June, 1901.

Collector of Land Revenue, Kinta.

No. 341.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Luk Weng Cheong of Kampar, for a new Mining Lease of land situated in the Kampar mukim, of the Kinta District, on the ground that the said Luk Wong Cheong is the registered owner thereof, and that the Original Mining Lease No. 671 has been lost:

No. 342.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Selaman bin Pandak Akat of Batu Gajah, for a Mining Lease of land situated in the Sungei Trap mukim, of the Kinta District, on the ground that the said Selaman bin Pandak Akat is the registered owner thereof, and that the Original Agreement for Mining Lease No. 313 has been lost:

24th May, 1901.

No. 268.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Muhammad Yusuf Datoh Panglima Kinta bin Datoh Lasam, of Ipoh, for a new Mining Lease of land situated at Ipoh of the Kinta District, on the ground that the said Muhammad Yusuf Datoh Panglima Kinta bin Datoh Lasam is the registered owner thereof, and that the Original Mining Lease No. 855 has been lost:

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Government Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections be granted.

F. BELFIELD,

26th April, 1901.

Collector of Land Revenue.

UPPER PERAK.

No. 370.—Take notice that whereas you have abandoned the land described hereunder, in the mukim of Lenggong, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned

such land, or unless you enter or re-enter into occupation of such land by making a *boni fide* commencement to build on it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

NOTE.—This service is under postal contract, fortnightly only, from Penang to Madras and Negapatam to Penang. Should the English mails for Penang have previously arrived the mail steamer will be despatched from Negapatam on Monday evening, or if the mails have not reached Negapatam by Tuesday morning steamer may be detained 24 hours. The dates in *bold type* represent optional sailings which may be discontinued in terms of arrangements with the Straits Government.

"The information given in this table is intended for the Company's use only, and the Company does not bind itself to maintain any of the services herein detailed or to carry passengers or cargo or to provide accommodation by any of its steamers or at the rates given in this table unless under a specific engagement made with passengers or shippers."

REPORT ON THE LAND DEPARTMENTS OF THE FEDERATED MALAY STATES FOR 1900.

FEDERAL.

It is with great regret that I have to commence this report, after much delay, with a statement that I am not yet in possession of returns from the Ulu Pahang district. This has necessitated my leaving out of account all sums collected in that district and, for the sake of comparison, the preparation of new returns for the previous year in which the Ulu Pahang collections have been eliminated. This has necessitated much additional labour.

2. With the exception of the revenue mentioned above the total collected by the Land Offices of the Federated Malay States was \$790,678, against \$694,182 collected in the previous year, and an estimate of \$659,905, being an actual increase in the revenue of \$96,496, and an excess over the estimate of \$130,773.

3. It should be borne in mind that the figures for the State of Perak do not include "licences" that is Forest Revenue, while the figures for the other States do include this heading of revenue, and this is important when comparing the revenue of the several States as given in Return B. The satisfactory nature of this return is borne out on further analysis, for it will be seen from the Return of Land and Mines rents that rents have risen from \$393,430 to \$434,678, shewing an increase of \$41,247, or over ten per cent.

4. The revenue, exclusive of licences, shews an increase of \$86,300 (Return C*); Negri Sembilan alone shewing a slight decrease which is easily accounted for and will be dealt with under the heading of that State.

5. Licences show steady increases in Selangor and Negri Sembilan but a falling off in Pahang, but the returns of this State are so vitiated by the absence of the returns for the Ulu Pahang district, they are not worth commenting upon.

The figures with which I am dealing for the year just closed are of course subject to audit.

6. The number of dealings in land were 11,102, on which stamps to the value of \$15,519 were used. I am glad to be able to report that a notable advance has been made in the smaller Land Offices in the manner in which registration work is carried out. It is a matter which, except in Perak, required and has received from me special attention, and I believe the principles are now fairly well understood.

7. Comparative returns of Land alienated in the Federated Malay States are attached but these show merely the lands which have been settled, and for which documents of title have been issued. I do not comment further upon this and the other returns of alienated land, because it appears to me that they are of little value from the manner in which they are compiled. I hope in future to be able to obtain returns which, while not purporting to be obtained on such definite information, will more nearly represent the actual amount of land in private occupation.

PERAK.

8. The land revenue collected by the State of Perak (always excluding Forest Revenue) was \$352,885, against \$311,322 in the previous year, being an increase of \$41,563.

All Districts participate in this general increase, except Larut and Kuala Kangsar. Kinta is notable for a large increase of over \$25,000. The decrease in Larut is more than accounted for by a falling off in Survey Fees due the Collector reports, to a decrease in the number of applications for mining land and a similar cause more than accounts for the small decrease of \$399 in Kuala Kangsar.

9. Turning to the comparative statement of Land and Mines rents there is a satisfactory increase of \$22,231, from \$216,268 to \$238,499. Larut does not reach the amount of its collections in the previous year by \$693 and Kuala Kangsar by \$165, but in the latter district there have been peculiar difficulties in the recovery of rents during 1900, amongst which may be mentioned an epidemic of small-pox which practically closed the mukim of Bhota for the 2nd quarter of the year, poor harvests, and the fact that owing to the death of the owner the rents on two estates were not paid and that another European estate is in default

* Not printed.

for a large sum. In Larut the decrease is accounted for by the clearing off of arrears which encumbered the rent rolls and swelled the receipts in former years, but are being gradually cleared away.

10. Registration work shows a large increase in the number and value of dealings in land which may generally be regarded as an indication of general prosperity in the State.

MINES.

11. The mining returns are of more than usual interest this year, containing, as they do, a complete refutation of the many allegations as to the exhaustion of the tin supply, of which the following is an example culled from one of the Cornish papers:—"The Malay Peninsula is the great tin-producing region of the world at the present day * * *. The output of Perak continues to decline and in 1899 was 4,985 metric tons less than it was in 1895, when it reached its zenith of 24,249 metric tons. The Resident-General ascribes the diminished output entirely to the want of labour, but this seems fanciful when we are also told that, although the output was reduced, the number of persons employed in the Malay States mines was 130,962, against 125,580, an increase of 5,382. If there is a labour difficulty there is evidently a tin difficulty also. The total Straits output was 38,353 tons, valued at £4,482,941." Attention was called in my last yearly report to the labour difficulty, but I mentioned that an influx of new labour had set in. For instance the mining population of the Kinta and Batang Padang Districts is now estimated at 59,728, against 50,176 in 1899. The result of this larger labour force is seen in an increased output of tin, of from 318,526 pikuls (18,960 tons) in 1899 to 355,589 pikuls (21,166 tons) in 1900, being the largest output since 1896, from which date the price (calculated on the average price for each month of the year) has steadily increased year by year, culminating in 1900 in an average price of \$74.15. The following is the return supplied to me by the Warden of Mines, Mr. Irving:—

Year.		Tons.		Pikuls.		Price.		Value.
						\$	c.	\$
1894	...	23,552	...	395,681	...	38	83	15,047,748
1895	...	23,866	...	400,956	...	35	05	14,853,507
1896	...	22,811	...	383,227	...	32	20	12,339,909
1897	...	20,949	...	351,945	...	36	09	12,701,695
1898	...	20,061	...	337,085	...	42	96	14,177,101
1899	...	18,960	...	318,526	...	72	52	23,099,306
1900	...	21,166	...	355,589	...	74	15	26,032,000

As the Warden very justly remarks:—"The great increase in the output, following on a great increase in the mining population, must, I think, give a quietus to the heresy rampant during the last few years, namely that the diminished output was due to a sudden exhaustion of the mines of the State, and not to a general stagnation of the mining industry following on several years of bad prices."

12. There have been numerous applications for land for hydraulic mining and there are at present nine or ten monitors at work as against five at the beginning of the year.

13. *Survey.*—I have not as yet received any returns from the Revenue Survey Office and have little to add to what I said last year. I am afraid, however, the work of this branch is outstripping that of settlement in some districts of the State, which will necessitate closer attention to the work of settlement in the future. The fact, however, that the survey have not been brought to an abrupt stoppage in the absence of due settlement is a proof that the native holdings are in a fairly satisfactory condition as regards boundaries and that much good work has been done in former days without a detailed survey of holdings.

DISTRICTS.

14. I will now only touch upon matters of general interest in the several districts. In Larut a concession of 400 acres for hydraulic mining has been granted during the year in Ulu Kurau, which probably marks a new departure in the district which has hitherto been somewhat neglected by European Miners.

15. In the Krian district there was a fair crop of *padi*, 8,763 koyans of which were exported. The export of sugar for the last three years was as under:—

Year.		Pikuls.		Value.
				\$
1898	...	274,720	...	1,201,812
1899	...	276,689	...	1,282,237
1900	...	278,156	...	1,315,974

16. The Assistant District Magistrate of Selama reports a marked revival as regards mining in his district, where a concession of 1,000 acres is in process of alienation for hydraulic mining under European management.

17. In the Matang district, which most nearly resembles Krian on a smaller scale, the *padi* harvest was comparatively poor. The following remarks of the Collector of Land Revenue, when speaking of the small number of applications for land in the Selinsing mukim, are of interest. He says on this point—"Selinsing shews up most unfavourably. Here only 133 acres were alienated as against 420 last year. This does not look at all well as it is the only irrigation area in the district, but, from what I can gather, the *padi* crop here steadily deteriorates year by year. It is here that nearly all the abandoned land is to be found and that the majority of rents on cancelled titles have to be written off."

It appears, however, that sugar planters are prepared to take up thousands of acres in the Selinsing division if the Government will grant the land for that purpose.

18. A large sugar factory of the latest type was opened on the Gedong Estate late in the year, where over a thousand acres are under cultivation. There is no doubt a great future before sugar in this district if difficulties be not thrown in the way of its cultivation.

19. The *padi* crop of the Kuala Kangsar district was also poor, but the fruit crop was exceedingly heavy. Some of the old mines, notably in the neighbourhood of Salak, were reopened, and have now a flourishing community around them.

20. The great and flourishing district of Kinta, which this year collected a Land Revenue (exclusive of Forest Licences) nearly on a par with the whole of the similar Revenue of the States of Negri Sembilan and Pahang combined, requires little further remark than what has already been said under the heading of Mines. From the point of view of Land Administration its present great prosperity must amongst other causes be ascribed to the very liberal lines upon which its early development was conducted and the encouragement then given to both European and Asiatic enterprise by the District Officials.

During the past year mining land in that district has been sold at auction for \$280 per acre, agricultural at \$100, and land within Town limits (at Ipoh) for \$500 per acre.

21. In addition to the land already taken up in the Lower Perak district for sugar and coconut plantations the Collector of Land Revenue reports numerous further applications for land for the latter cultivation in Mukims south of the River Perak.

SELANGOR.

22. The Land and Forest Revenue collected by the State of Selangor was \$256,018, against \$206,498 collected in the previous year, being an actual increase of \$49,525. All districts participate in this increase, with the exception of Kuala Langat, which is also the only district that does not show an increase in Land rent. The latter is explained by the reversion of a number of new native holdings to the State, while demarcation and survey account for the bulk of the decrease in general Land Revenue of the district. The total of the Land and Mines rents for the State amounted to \$115,676 in 1900, against \$102,360 in 1899, being an increase of \$13,316.

23. Licences show an increase of \$5,823, from \$35,181 to \$41,004.

24. Registration work shews an increase in both the number and the value of the dealings in land.

MINES.

25. I have received no report from this Department in Selangor. There appears to have been some criticism of the attitude of the Government towards the Mining industry in the State, I will, however, only here remark that I doubt whether there is at present a large enough and sufficiently trained staff at the disposal of the Warden to enable him to so closely supervise all mining operations as would warrant his interfering too minutely in the details of the practical working of the mines.

I hope it will be possible shortly to introduce a little more uniformity in the practice of the Mines Departments in the several States.

26. *Survey.*—The Revenue Survey Department appears to be doing excellent work under a competent staff. There are at present employed five District Surveyors, seven Assistant Surveyors and four Licensed Surveyors.

27. There is a difficulty in recruiting suitable men to fill subordinate positions, but it is hoped that a new scheme of salaries lately submitted to the Resident-General will, if sanctioned, be some inducement to suitable men to join the staff.

DISTRICTS.

28. The Collector of Klang reports high prices prevailing for land in the neighbourhood of Kuala Klang, on which he has reason to believe the present owners propose to erect permanent buildings, and although there is a tendency to surrender the unopened land on some European owned estates, agricultural land is still in request by both European and Native planters. Coconuts, rubber and coffee, being the principal products at present under cultivation.

29. As regards those districts in which mining is the principal industry, I have no detailed returns as to production during the year under review, but it appears the alienation of mining land was much restricted. As regards the mining neighbourhoods of Serendah Rasa and Rawang in the Ulu Selangor district, Rawang has made good progress and is flourishing.

30. In the Kuala Selangor district the District Officer reports very little *padi* cultivation during the last year, but a general increase in coconut planting.

31. In the Ulu Langat district, where the District Officer is of opinion that mining requires encouragement and but little profit has accrued to the industry, a premium of \$10 an acre has been imposed on mining land, producing a sum of \$10,811. The total premia for the three mining districts of Ulu Selangor, Kuala Lumpur and Ulu Langat amounted to \$51,317. I trust the Government are satisfied that they are well advised in depriving the mining industry of this sum which would otherwise be available for the development of new properties.

32. In the Kuala Langat district the agricultural products most in favour at present are coconuts, rubber and some pepper.

NEGRI SEMBILAN.

33. The total Land Revenue, including Forest "Licences" collected in these States, was \$125,169, against \$123,793 in the previous year, being an increase of \$1,375.

The Land and Mines rents increased from \$64,912 to \$70,259, an advance of \$5,349.

34. Taking, however, the whole of the collections and dividing them under the two heads of (i) Land Revenue, exclusive of "Licences," and (ii) Licences, it is apparent that the latter accounts for more than the whole of the resultant increase in the general revenue, the former heading shewing a decrease of \$3,992. For this result the decrease in premia of both Grants and Mining Leases, a fluctuating source of revenue, will more than account.

35. Registration work shews a falling off in both the number and value of the transactions.

MINES.

36. I have received no report from this Department. It is satisfactory that the issue of individual mining licences was restricted during the latter part of the year, but it is unfortunate that it appears to have been found necessary to close the Mines Application Book in Seremban owing to the block in the surveys of such lands. I have not so far been able to obtain any very satisfactory reason why more use has not been made of the Mining Certificate, the form of temporary title provided by the Mining Enactment in the case of inability to survey; of course there may be valid reason, but, I think, there is an undue prejudice against them which I ascribe in a great measure to:—

- (i). Their most unfortunate name. (ii). Their equally unfortunate form.

To the name we are tied by the Mining Enactment, but I do not think there need be any difficulty in abolishing the present form of counterfoil book and treating these important titles rationally by preparing them in duplicate upon forms of a respectable size, one copy of which would be retained in the usual manner to form the Register book. At present a small butt of a counterfoil book constitutes the register of these important properties.

37. *Surveys* — I have likewise received no report from this Department, but having lately dealt with the question of the congestion of the work in this branch, I need not now say anything further except that I am satisfied the Superintendent of Revenue Surveys is doing his best with the staff at his disposal and is turning out admirable work.

DISTRICTS.

38. In paragraph 7, I have given my reason for not dealing in a comprehensive manner with the figures regarding the area of alienated land. The area leased for mining in the

Seremban district has increased by 1,948 acres, notwithstanding resumptions to the extent of 524 acres.

39. In the Coast district, although there is an important increase in the Revenue under timber and firewood cutters licences and passes, the District Officer reports that there is still a large quantity of timber imported from Singapore.

40. The Jelebu *padi* crop fell far short of the average, due to the dry season, and there has not been much demand there for new agricultural land. Surveys have been confined to mining land for which 37 leases were issued.

41. Regarding the falling off in the amount of premia collected, the District Officer, Kuala Pilah, reports that during 1900 premia was charged at the rate of \$1 per acre throughout, whereas in 1899 a sum of \$10 per acre was collected on 167 acres.

42. It appears that the *padi* crop in many places in the Kuala Pilah district suffered considerably owing to the Government fixing the date for the commencement of *padi* planting too early and without due regard to local circumstances and the special conditions of the season.

43. In Tampin district three more Mukim Registers are reported as complete and the important neighbourhood of Rembau was taken in hand, where the native holdings probably number 10,000. Application for mining land have been received in both Rembau and Gemencheh and, while no risks should be run as regards any possible damage to the *padi* lands in the former, there is less danger of damage in the latter where the mines are developing.

44. The amount of Land Office work in several districts of the Negri Sembilan, which falls upon the District Officer and his staff, appears to me to be exceedingly heavy.

PAHANG.

45. I am only in a position to deal with the combined returns of three Districts in this State, *viz.*, Pekan, Kuantan and Temerloh. Their combined Revenue amounted to \$56,605, against \$52,571 in 1899, being an actual increase of \$4,033.

The Land and Mines Rent increased from \$9,888 to \$10,242.

46. The Return C*, Land revenue exclusive of "Licences," shews an increase of \$4,852 to \$48,520 from \$43,668 in the previous year, but I do not consider this return from the Pahang Offices correctly prepared because it includes the tithes on Forest produce. These it has been customary in other States to show under the head of "Licences."

47. Registration work shews an increase in both the number and the value of dealings in land.

48. Land Administration in Pahang is a matter which I am of opinion requires much further consideration, particularly in regard to the extent to which we are prepared to carry the detailed survey of native holdings. The circumstances are in every way so different to those that obtain in the more advanced States that the system found most suitable in the latter States are quite unfitted for Pahang.

MINES.

49. I have received no report or returns from this Department in Pahang.

50. *Survey.*—This Department has also omitted to send any report or returns.

DISTRICTS.

51. In the Pekan districts 3,000 acres of land on the coast have been alienated to a Syndicate (for planting coconuts I understand), of which about 500 acres have been cleared and are being fenced. A block of another 2,000 acres, alienated for tapioca cultivation, will probably revert to the Government, no work having been begun on the block.

52. In Kuantan the Pahang Corporation have made additions to their machinery, both at Sungei Lembing and Jeram Batang, but there is said to have been a difficulty in obtaining sufficient firewood to keep the battery at Jeram Lumpong running continuously. The Blat workings have so far proved poor, but the Blat Mining Syndicate are bringing in machinery for the purpose of developing their property.

* Not printed.

53. In the Temerloh district the French Mining Company were granted a license to prospect the Triang water-shed. The District Officer reports that for the fourth time in succession the padi crop proved a partial failure.

54. In none of the above districts has any systematic survey work yet been taken in hand, nor does the matter seem very pressing, except in the case of townships, etc., were it not that, under the present system, the issue of titles for native holdings is at a standstill.

GENERAL.

55. *Administration.*—Several Offices have suffered from the many changes it has been found necessary to make in the members of their staff, particularly in Perak. I am aware that in the service of rapidly developing countries such must always to some extent be the case, but, I think, that perhaps a little more consideration might be given to the Land Department which has an abnormal amount of work on hand at present in the settlement of native holdings and the compilation of Registers under the Land Enactment.

56. I would particularly urge that the staff of Settlement Officers should be kept up to its full force and restricted to its legitimate duties. I am not quite sure that the importance and responsible nature of the duties of a Settlement Officer, or the necessity of employing only suitable candidates, is always fully recognized, nor do I think the requisite standard has always been maintained.

57. *Settlement and Survey.*—As I said in my report last year our present aim must be to place every landholder in possession of a document of title with as little delay as possible, but without settlement nothing can be done in this direction. Constant changes in the staff also militate against any systematic work of this nature.

58. As regards the staff actually employed in the work of the Department, I think, a satisfactory year's work has been done by them under considerable difficulties.

TAIPING,
4th April, 1901.

F. DUBERLY,
Acting Commissioner of Land and Mines.

APPENDICES.

FEDERAL.

FEDERATED MALAY STATES.

REPORT ON EDUCATION, 1900.

I.—PERAK.

NUMBER OF SCHOOLS.

1. Six new schools were opened during the year bringing the total to 119, of which 15 are English, 1 Tamil and 103 Malay.

AVERAGE ENROLMENT AND ATTENDANCE.

2. The following is a comparative statement showing the enrolment and attendance for the last two years:—

	Number of schools.				Average enrolment.		Average attendance.	
	1899.		1900.		1899.	1900.	1899.	1900.
English and Tamil ...	(Boys 11)	... 15	(Boys 12)	... 16	1,076	1,071	805	870
	(Girls 4)		(Girls 4)					
Malay ...	(Boys 91)	... 98	(Boys 93)	... 103	3,750	3,558	2,649	2,504
	(Girls 7)		(Girls 10)					
Total	(Boys 102)	... 113	(Boys 105)	... 119	4,826	4,629	3,454	3,374
	(Girls 11)		(Girls 14)					

The attendance has increased from 71.5 per cent. in 1899 to 73 per cent., but it is not satisfactory that the enrolment at the Malay schools should have decreased from 4,041 in 1898 to 3,750 in 1899, and again to 3,558 in 1900. The chief decrease is in the Kinta and Tapah districts, and may be ascribed to the absence of an Assistant Inspector during the greater part of the year.

It is impossible for the Inspector single-handed to supervise 119 schools, and it is only effectual supervision that will prevent a decrease both in the enrolment and efficiency of the schools.

GIRLS' SCHOOLS.

3. There are 14 girls' schools, 3 of which are English, 1 Tamil and 10 Malay, with an average enrolment of 364 and an attendance of 301.

Of the number enrolled only 184 are supplied by the 10 Malay schools.

ENGLISH SCHOOLS.

4. Of the 15 schools, 10 are Government institutions and five are assisted by a grant-in-aid. Four schools only have European teachers.

CENTRAL SCHOOL, TAIPING.

5. Perhaps the most satisfactory feature in the year's work has been the improvement in the Central School. The average enrolment has increased from 222 in 1899 to 245 in 1900, and at the time of writing it is 310 with an average attendance for March, 1901, of 259. The average attendance has increased from under 88 per cent. in 1899 to over 91 per cent. in 1900. At the recent examination 90 per cent. of passes were obtained as against 74 per cent. in 1899. The accommodation at present is totally inadequate and the school has suffered much from continual changes in the staff, but I am confident that, under the present régime and with a suitable building, it will be a credit to Perak.

ANGLO-CHINESE SCHOOL, IPOH.

6. The progress of the Methodist Mission school at Ipoh continues to be most satisfactory. One boy passed the Cambridge Local Junior Examination. The enrolment has increased from 152 to 192, and new buildings are in course of erection.

GIRLS' SCHOOLS, TAIPING.

7. The two Mission girls' schools in Taiping have made excellent progress, the enrolment now reaches 130, which compares most favourably with the 30 girls attending the

Government school in 1898. The success of English schools started by private enterprise has been one of the most noticeable features of the education movement in Perak.

The Methodist Mission propose shortly to add accommodation for boarders at the Taiping school, and also to start another school at an elevation of 3,000 feet. I trust that the Government will give them every assistance in their undertaking.

ENGLISH SCHOOLS WITH NATIVE TEACHERS.

8. I regret that I am unable to report favourably on the other so-called English schools presided over by native teachers, though an exception may be made in the case of the Telok Anson school, which is under the care of the Methodist Mission. In the other schools it is not too much to say that when a boy has passed standard III. he has learnt all that the master can teach him. The reason appears to lie in the fact that it is impossible, at the salary offered, to get a native possessing a sufficient knowledge of English or experience in teaching. I have made arrangements, wherever possible, to send all boys who have passed standard III. to the Central School. The other English schools should be looked on as merely preparatory to the Central School, and as such they will serve their purpose.

GRANTS-IN-AID.

9. The grants-in-aid amounted to \$5,317 as against \$4,556 in 1899.

MALAY SCHOOLS.

10. One thousand two hundred and five Malays (of whom 48 were girls) were presented for examination and 91 per cent. of passes were obtained as against 83.2 per cent. in 1899.

This appears to be a most satisfactory result, but allowance must be made for the fact that the examination was held by a different Inspector who was possibly more lenient than his predecessor, and also that for the first time the new Education Code was brought into force, so that it is difficult to make a satisfactory comparison.

MALAY SCHOOLS, GIRLS.

11. Three new girls' schools have been opened during the year bringing the total to 10, but unfortunately the enrolment has not kept pace with this increase. In 1899 there were seven schools and an average of 22 scholars per school. There are now 10 schools with an average of 18.4. The percentage of attendance remains the same.

However, the result of the examination was most encouraging, as in seven of the eight schools examined 100 per cent. of passes were obtained. It should be remembered that almost all the girls were presented in the first two standards. Special attention has been paid to weaving, needlework, mat and basket making.

12. The following is a comparative statement for 1899 and 1900 :—

			Number of girls' schools.		Average enrolment.		Average attendance.		Percentage of passes.
1899	...	...	7	...	154	...	103	...	81.3
1900	...	...	10	...	184	...	147	...	96.1

MALAY TRAINING COLLEGE.

13. The Malay Training College, opened in June, 1898, was closed at the end of the year. It has turned out nine efficient teachers, who should prove most valuable. Special attention was paid to practical teaching, school management and technical education, such as carpentry and rattan work. The institution has cost altogether \$5,523.35, or \$552.33 per head for the two years' course. Its place has now been taken by the Malacca Training College, supported jointly by the Straits and F.M.S.

REVENUE AND EXPENDITURE.

14. The total expenditure for the year amounted to \$85,315 or 1.2 per cent. of the revenue, deducting from this the education revenue, \$2,086, the total cost to the State amounts to \$83,829.

COST PER HEAD.

15. During the year 7,200 boys passed through the various schools, giving a cost of \$11.59 per head. Of these 3,374 were in daily attendance, so that the cost of a year's schooling may be put down at \$24.68 per head.

II.—SELANGOR.

NUMBER OF SCHOOLS.

16. Two new Malay schools (one for boys and one for girls) were opened, but as two Malay girls' schools were closed for lack of pupils, the number of schools still remains at 41.

AVERAGE ENROLMENT AND ATTENDANCE.

17. The following is a comparative statement showing the enrolment and attendance for the last two years:—

		Number of schools.		Average enrolment.		Average attendance.	
		1899.	1900.	1899.	1900.	1899.	1900.
Government schools	Malay ...	Boys 31 } Girls 3 } 34	Boys 32 } Girls 2 } 34	1,334	1,336	1,036	1,062
	Chinese ...	Boys 2 Girls 3 } 5	Boys 2 Girls 3 } 5	75	70	50	60
Grant-in-aid schools	English ...	Boys 3 } Girls 2 } 5	Boys 3 } Girls 2 } 5	551	623	497	558
Total ...		Boys 36 } Girls 5 } 41	Boys 37 } Girls 4 } 41	1,960	2,029	1,583	1,680

These figures show a satisfactory improvement. The attendance has increased from 80.2 per cent. to 82.8 per cent.

GIRLS' SCHOOLS.

18. There are four girls' schools (two Malay and two English)

		Malay.	English.
Average enrolment	...	50	118
Average attendance	...	35	106

ENGLISH SCHOOLS.

19. There are five English schools supported by grants-in-aid, three of which have European teachers.

VICTORIA INSTITUTION.

20. The Victoria Institution, though naturally handicapped by the absence of the Headmaster on leave, has done a good year's work.

The numbers and attendance show a satisfactory annual increase during the last five years, and there are now 423 boys on the register with a daily attendance of 387. The school has an efficient staff of masters and a sound commercial education is provided. The expenditure of the Institution amounted to about \$20,000, or approximately \$50 per head of average attendance.

Towards this sum the Government contributes \$12,000 and the ratepayers \$4,200.

ENGLISH GIRLS' SCHOOLS.

21. The Convent School is in a most efficient condition and reflects the greatest credit on the Sisters. The girls are most carefully taught and there were no failures in any subject.

The other girls' school in the charge of the Wesleyan Methodist Mission has also proved a success.

At the two schools there are now 106 girls in regular attendance receiving a sound education. These figures compare most favourably with the 35 girls at the Government school in 1898. I believe it is not generally known that all sects are welcome, as the question of religion is kept most carefully separate and religious instruction is entirely optional. The Convent authorities have lately moved into new quarters, providing ample accommodation for day pupils and boarders. They have spent a large sum of money and I wish them every success in their undertaking.

ENGLISH SCHOOLS WITH NATIVE TEACHERS.

22. As in Perak, the other English schools are of very little use to a boy who has passed standard III. I was especially disappointed with the work of the English school at Klang and found it necessary to warn the Manager that unless improvement is made during this year it will be impossible to award the full grant for 1901.

GRANTS-IN-AID.

23. The grants-in-aid amounted to \$9,929 as against \$7,123 in 1899.

CHINESE SCHOOLS.

24. The Inspector again reports unfavourably on the two Chinese vernacular schools. As it is a first experiment in this direction in the Native States, it is most unfortunate that it has not been attended with greater success. The present Inspector is a Chinese scholar, and I hope that he will be able to place the schools on a better footing. The want of success is chiefly due to the inexperience of the teachers.

MALAY SCHOOLS. BOYS.

25. There are 1,286 boys enrolled in the 32 Malay schools, with an average attendance of 1,020, showing a slight increase on the figures for last year. The results of the examina-

tions have been satisfactory and show signs of intelligent teaching. Drilling is carefully taught in most of the schools. I was especially pleased with the schools in the Ulu Langat district.

GIRLS.

26. I regret to report that female vernacular education is at a very low ebb. The schools at Kuala Selangor and Kajang have been closed as all the pupils had ceased to attend. A new school has been opened at Kuala Lumpur, with a small attendance, but as the locality, a Chinese shop-house in Batu Road, is most unsuitable, I am afraid that it will not prove a success until it is removed to the Malay Settlement, where a fresh start will have to be made with a new set of pupils. The school at Bandar is in a more satisfactory condition owing to the interest taken in its welfare by His Highness the Sultan.

MALAY TRAINING COLLEGE.

27. Four Selangor boys completed their course of training at the Taiping College. They have been appointed teachers in Selangor schools and have proved most satisfactory.

EXPENDITURE.

28. The expenditure for the year amounted to \$32,769, or .65 per cent. of the revenue, giving a cost of \$19.62 per head of average attendance. Having regard to the fact that there were four changes in the appointment of Inspector of Schools during the year, it may be considered that the result of the year's work has been satisfactory.

III.—NEGRI SEMBILAN.

NUMBER OF SCHOOLS.

29. There are 24 Malay schools and one English school supported by a grant-in-aid. One Malay school, blown down in 1899, has not yet been replaced. The following is a comparative statement showing enrolment and attendance for the last two years:—

	Number of schools.		Average enrolment.		Average attendance.	
	1899.	1900.	1899.	1900.	1899.	1900.
English	1	1	...	49	...	41
Malay	25	24	1,417	1,169	1,010	941
Total ...	26	25	1,417	1,218	1,010	982

30. The percentage of attendance has increased from 71 to over 80, and as the percentage in 1898 was only 61 it will be seen that real progress has been made. This improvement is chiefly due to the enforcement of the provisions of the Education Enactment. It will be observed that there is a very serious falling off in the enrolment, especially noticeable in Kuala Pilah, where there is one less school than in 1899, and in Tampin. The Inspector, who receives no salary, is stationed in Port Dickson, and it is quite impossible for him to exercise the necessary supervision.

31. Travelling in the Negri Sembilan is difficult and expensive and it takes a long time to visit all the schools, even once each. I do not think that the Government would be justified at present in appointing an officer whose whole time would be devoted to the Education Department, as his transport would be heavy and his time could not be fully occupied. The question, however, arises as to whether it would not be advisable to appoint, on a small additional salary, say \$50 per month, some such officer, as the Inspector of Mines or Forest Officer, whose other duties take them all over the State, as the moral effect of continual surprise visits is very great. When the railway is finished it will perhaps be found practicable to combine the appointments of Inspector in Selangor and Negri Sembilan.

32. Many of the School buildings leave very much to be desired, but I understand that steps are being taken to remedy this defect in several districts.

Drilling does not receive so much attention as it deserves, but a pamphlet of instructions will shortly be issued to the various schoolmasters.

GIRLS.

33. There are no Malay girls' schools.

ENGLISH SCHOOL.

34. The English school, under the care of the Roman Catholic Mission, is in a thoroughly satisfactory state. The average enrolment for the year was 49 with an attendance of 41. The school possesses a fine building and the work of the various standards will compare favourably with that of the other English schools in the Native States. I was especially pleased with the progress of the five sons of native chiefs whose education is assisted by a Government allowance.

GRANT-IN-AID.

35. The grant-in-aid takes the form of a fixed allowance of \$900 per annum, and, although this is more liberal than the usual capitation grant, the Government may be well satisfied with the way in which the money is expended.

For the present, it should be the policy of the Government to improve the condition of the existing schools, rather than to open any new schools.

The existing atap sheds, some of which are in a ruinous condition, should be replaced by buildings, similar to those in Perak and Selangor, in all places where it is evident that the school will be a permanent institution.

MALACCA TRAINING COLLEGE.

36. Kuala Pilah has supplied the only two boys from the Native States now being trained at the Malacca Training College. The principal reports that their behaviour both at work and play has been exemplary.

EXPENDITURE.

37. The expenditure amounted to \$9,800, or 1 per cent. of the revenue, giving a cost of \$10.63 per head of average attendance.

IV.—PAHANG.

MALAY SCHOOLS.

38. There are 10 Malay boys' schools having an average enrolment of 431, with an average attendance of 263 or 66 per cent. These schools have been maintained at a cost of \$2,675, or \$10.18 per head of average attendance.

The attendance at the Pekan school, which in 1899 was the largest in the Native States, has fallen from 103 to 59. The chief decrease was in the first part of the year, and the attendance has since risen again to 70.

NEW SCHOOLS.

39. Six new schools are shortly to be built, and wherever possible they should not be built too far from the beaten track. It is an undisputed fact that a school never retains its efficiency unless there are frequent surprise visits. Government Officers and others who would, when passing, take the trouble to go into the school, and merely record the fact of their visit, with a statement as to whether work was proceeding quietly or not, would confer a great service upon the Education Department. It is not in the least necessary for each visitor to hold an elaborate examination.

VISITING TEACHERS.

40. It will shortly be advisable to appoint two visiting teachers to be stationed in Ulu Pahang and Pekan. The work could perhaps be done by a Malay Writer in addition to his own duties for a small additional salary.

V.—GENERAL.

TECHNICAL EDUCATION.

41. The question of technical education has been engaging the attention of the Government for some time past. There are two distinct classes for whom technical industrial education is required—

(i.) Intelligent Native and Eurasian boys, who have passed standard VII. at an English school.

(ii.) Native boys, who have received their education in a Malay school.

42. For the 1st class, instruction in civil, electrical and mechanical engineering and surveying are required. For the 2nd class, instruction in agriculture, metal work, carpentry, and for the girls needle-work, weaving, Malay embroidery, gold thread-work, mat and basket making.

43. For class I. it will be necessary when the time arrives to start a technical college with skilled European instructors.

44. The English schools, from which this school will be recruited have not yet found their proper age level; the first complete generation of scholars has not passed through, and the number of boys who have passed standard VII. and are still young enough to devote further time to their education is very small. At the present time the demand for English-speaking boys as clerks, shop assistants and accountants is so large that every boy is snapped up on a large salary; until this demand has been satisfied, the technical school is out of the question. A small beginning has been made by providing scholarships to enable boys to be apprenticed to the Survey Department and Railway Workshops, but the number of boys ready to avail themselves of this privilege is very small.

45. The same difficulties are not experienced in providing industrial education for class II. For boys, classes are being established for teaching carpentry, silver work, tailoring and rattan work in the Malay Settlement at Kuala Lumpur, and special attention has been paid to these matters in the Taiping and Malacca Training Colleges. At the English girl's schools, special importance is attached to needlework and dressmaking, whilst each of the Malay girls' schools is provided with a hand-loom and instruction is given in embroidery, basket work, etc. It must be admitted that the net results at present are not great, but it is a measure the introduction of which requires great care and cannot be forced.

EDUCATION CODE.

46. The Education Code was brought into force on the 22nd July, 1899. And the recent annual examinations were held for the first time under its provisions.

47. Under the old system, the grant entirely depended on the result of the annual examination, so many dollars for a pass and nothing for a failure. I need hardly say that a system which reduces the boys to grant-earning machines was not satisfactory. It is usually the boys who do not pass who have given the most trouble to the masters and for whom no return was obtained.

48. The new Code based on the English Education Code of 1898, by which grants for elementary and class subjects, discipline and organisation, are calculated upon the average attendance; the amount per head depending upon the general results at the annual examination. In addition, a further grant for individual passes in specific subjects is also given. This is a survival of the old system of payment by results.

49. The Code has proved an undoubted success both for Government and grant-in-aid schools. It has been found necessary to revise the English Code of 1898 and probably a similar revision will be necessary here. The system of payment by results which now only applies to specific subjects should be entirely abolished. Specific subjects are of the greatest importance in a first class school, and it does not appear to be a good policy to encourage the neglect of the more backward pupils.

50. Under the revised English Code the grants for elementary, class and specific subjects, discipline and organisation, are merged in a single principal grant payable at the rate of either 22s. or 21s. for each pupil in average attendance.

The general object of these alterations is to secure by means of a liberal fixed grant a greater financial stability for schools, to allow more freedom in the classification of scholars, to make the curriculum more liberal and practical, and to provide for the varying needs of different types of schools.

51. It is customary in England to exempt certain schools of proved efficiency from the annual examination, and I am of opinion that this provision should be added to our Code. It is by a surprise inspection of a school in its ordinary working garb that the Inspector is best able to judge as to whether the school is entitled to a first or second class grant.

52. The new system of calculating the grant has made very slight difference in the amount. The grant-in-aid for 1900 for the Federated Malay States was \$20,966 or \$23.14 for each of the 902 pupils in average attendance.

Deducting from this amount the sum of \$4,200 which is a special grant to the Victoria Institution, not contemplated by the Code, the grants-in-aid amount to \$16,766, or \$18.59 per head. The corresponding sum in English State-aided schools in 1899 was £1-1-10 $\frac{1}{2}$.

EDUCATIONAL STATISTICS.

53. The following is a statement of the Educational work done in each State during the year 1900:—

	Number of schools.				Number of scholars.				Cost of maintenance.
	English, etc.		Malay.		English, etc.		Malay.		
	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.	₹
Perak	12	4	93	10	707	180	3,374	184	85,315
Selangor	5	2	32	2	575	118	1,286	50	32,769
Negri Sembilan	1	...	24	...	49	...	1,169	...	9,800
Pahang	...	...	10	...	...	...	431	...	2,675
Federal Charges	...	...	...	...	...	...	...	...	8,500
Total	18	6	159	12	1,331	298	6,260	234	139,059
Schools, 195.					Scholars, 8,123.				

Schools, 195.

Scholars, 8,123.

54. The Federated Malay States are now educating 8,123 children at a cost of \$139,059, representing 1.3 per cent. of the estimated expenditure of the States for the past year and a cost of \$17.12 per head. This expenditure is for maintenance only and does not include cost of buildings or repairs.

55. As last year the most gratifying signs of educational advance are to be found in the English schools. The three large English schools show considerable increases in attendance.

The Victoria Institution and Ipoh School have maintained their efficiency and the improvement in the Central School is most marked, while the Seremban School has made a most promising start.

The four girls' schools have more than quadrupled their attendance during the last two years.

56. During the year a number of locally educated boys have found employment under the Government and in local firms. Hitherto the qualification has been only a pass in standard VII., and as the Code only makes provision for VII. standards, there is an impression that a boy has completed his education when he has passed this standard. An attempt should now be made to raise this qualification, as it is only after passing standard VII. that the school teaching gives a boy a practical knowledge of English which will make him an efficient Clerk. Wherever possible employment should not be offered to a boy until he has spent two years at school after passing Standard VII.

ATTENDANCE.

57. The percentage of attendance for the last two years is as under—

	1899.	1900.
Perak	71.5	73
Selangor	80.2	82.8
Negri Sembilan	71	80.5

The attendance in Selangor and Negri Sembilan compares favourably with the English Board School percentage of 81.5.

It is a significant fact that Perak does not possess an Education Enactment under which the parents or guardians are liable to fine if their children do not attend school, whereas such an Enactment exists both in Selangor and Negri Sembilan, though it is not often found necessary to enforce its provisions.

The Enactment has been in force in Selangor since 1891 and was introduced in the Negri Sembilan in May, 1900.

58. The percentage of attendance in the English schools under European management amounts to 90.

SPORTS.

59. It is interesting to note the growing popularity of football and other European sports in Malay schools, especially in the out-districts, a great part of the credit for which is undoubtedly due to the education movement. Certain kinds of discipline, physical endurance and esprit de corps can without doubt be more healthily developed in the playing field than within the four walls of the school.

It has been my experience to find that a well-used playground is a sure sign of a flourishing school.

MALACCA TRAINING COLLEGE.

60. There are now 12 boys at the College being trained as teachers for the Native States.

Unfortunately only two of them are Native States boys; however, 20 more are shortly to be sent, and no difficulty has been experienced in persuading that number of Native States boys to go to the College, and we shall not again have to apply to the colony for recruits. There should shortly be a very material improvement in the class of master at our Malay schools.

CAMBRIDGE LOCAL EXAMINATION.

61. Kuala Lumpur has now been made a centre for the Cambridge University Local Examination, and for the first time candidates were entered for the Senior and Junior as well as for the Preliminary, but the results were not as favourable as had been expected, probably owing to the absence of the Headmaster of the Victoria Institution; out of 30 candidates one obtained honours, three passed in the Junior, and five passed the Preliminary Examination.

F.M.S. SCHOLARSHIP.

62. Provision has been made for a scholarship on the lines of the Queen Scholarship in the Colony, to enable the successful candidate to complete his education at home; no award has yet been made.

PRIVILEGES TO MALAYS.

63. Twenty-two scholarships have been awarded to Malay boys who have passed standard IV. in the district Malay schools, to enable them to continue their education at the Victoria Institution. A special grant has been made to provide a Malay master, and a house has been built in the Malay Settlement for the accommodation of students at the Victoria Institution.

A. B. VOULES,

Acting Inspector of Schools, F.M.S.

REPORT ON A VISIT TO THE RUBANA AND BAGAN DATOH ESTATES WITH THE INDIAN IMMIGRATION AGENT.

RUBANA ESTATE.

We first inspected the hospital which is now under a qualified Medical man.

The change which has taken place on this estate, with regard to the health of the coolies, is remarkable. Formerly there were frequently over 200 under treatment, there was a large amount of dysentery and of malarial fevers, and deaths were frequent.

On the day of our visit there were 42 in hospital; of which 32 were indentured immigrants, 26 being male and six female, there was only one case of malarial fever, and one of dysentery, though there were two convalescent from this disease. The majority of the cases were in for injuries, ulcers or gonorrhœa.

There were 16 in the convalescent gang, ten being women, of whom seven were suffering from gonorrhœa.

There have been 901 admitted into hospital up to date this year.

There have been 23 deaths on the estate, including Chinese and those who have died in Teluk Anson Hospital.

In April there were two deaths out of 193 admitted into hospital; in May, up to the date of our visit, none. Most of the deaths having occurred in January and February.

There were 44 cases of malarial fever admitted in April and ten in May, but with no deaths. The smaller ulcers are now attended to as out-patients, being dressed twice a day, there are none very bad, and the system, though it occupies the time of one dresser, has been most successful.

The water is now taken from the middle of the river, ten feet below the surface, and pumped into tanks, from which the coolies draw it. Water was formerly brought in from Teluk Anson, but I considered it probable that the Perak river water was as good as the Teluk Anson water, and the result has justified my expectation; dysentery, which formerly was a scourge, and of which they usually had a ward full, while I took the worst cases into Teluk Anson Hospital, having practically disappeared. The Manager is going to improve the method of distribution by means of a pipe led along the lines, with stand pipes at intervals.

The diminution in the amount of fevers, which at one time caused an enormous amount of sickness and of death, amounting on some occasions to as many as 40 new cases in a day, whereas on the day of our visit there was only one case in the Hospital, I attribute solely to the way quinine has been used as a prophylactic. I mentioned this in my last report, but I regard it as so interesting that I think it is worthy of repetition. Every coolie on the estate is given two 15-grain doses per week on succeeding days, namely on Saturday and Sunday. It is given in the afternoon, so that any headache may have disappeared by the morning. As most of the Tropical fevers are of the Tetian type, one of these doses will probably effect the organism.

This is quite different from the "systematic or daily employment of 3 to 5 grains" as recommended by Manson; but he is somewhat hesitating in his opinion; and at the last meeting of the British Medical Association the discussion on the prophylactic value of quinine was not very encouraging; whereas the experiment on the Rubana estate, which has been one on a large scale, is most distinctly in favour of it, if given in this way.

There are two main views of the means of combating Malaria, (i) the prevention of mosquito bites, (ii) the prevention of mosquitoes from becoming infected by destroying the organism in man. Probably the employment of both would be best; but it becomes an economic question. Quinine is costing on this estate from \$1,500 to \$1,800 a year; that is, in 10 years there will have been an expenditure of about \$18,000 on quinine. I doubt if this sum would provide for mosquito-proof houses for some 1,500 or 2,000 coolies, and if the effect would be so good.

I would point out that I suggested the trial of a smaller dose; it was done for a short time, the fevers seemed to be increasing, and the 15-grain dose was re-started.

The saving in labour amply repays the cost of the quinine.

There is another interesting point, on which, I think, this estate gives an answer.

There are many who consider that the turning of the soil in a malarious place is sufficient to cause fever without the intervention of the mosquito. I have known Planters of experience, and medical men express this view, and even Manson in his last edition hesitates to say it does not.

On this estate 500 or 600 acres had been opened, coolie lines had been built, drains dug, and many operations had been conducted which involved the turning of the soil; so that an experiment had been made on a large scale. At the end of 8 and 10 months, the Manager congratulated himself that he had hit on a healthy place; there was remarkably little fever. This land was all planted, and anything involving turning of soil was taking place about one or two miles away; but then the fever began; and it became one of the most feverish places I have seen, the explanation being, I believe, the infection of the *Anopheles* by chronic cases among the imported labour; while it is difficult to understand how the turning of the soil can have had anything to do with it.

We inspected the *kadei* and found the food good, the lines have been previously described; many of the coolies are planting vegetables near their huts.

This estate from a medical point of view is now very satisfactory; but it was not some time ago. There was no water, and much dysentery; and had the ordinary well-known sanitary elements being attended to in the first place, many lives might have been saved. This estate is an example of how a few simple things may save a large amount of sickness, and of how the neglect of these may result in many deaths; and in addition shews that the opening of new land is not necessarily attended by loss of life. Amongst indentured coolies, the two causes of death are dysentery and fevers, of which, dysentery easily holds the first place, it is a water borne disease, and I do not think that indentured labour should be allowed anywhere until proof is given that Section 45 (b) of the Indian Immigration Enactment has been carried out. Waiting until compelled by the amount of sickness is very wrong.

There are three things which this hospital wants, and which I advise being done:—

- (i). An incinerator for burning the excrement of patients in the hospital.
- (ii). An improvement in the latrine accommodation.
- (iii). A Wash-house in which hospital clothes can be boiled when necessary.

These are only small things, but would, I think, materially improve the place.

11th May, 1901.

BAGAN DATOH ESTATE.

There are 156 coolies on this Estate, of whom 107 are under agreement.

At the muster they were divided into those who were imported direct, and into two lots who have been sent from the construction work of the railway of the Tapah Road to Sunkai Section.

Of those imported direct there is not much to say; they are healthy.

Of the other two lots those who arrived first have benefitted by the change. Their food is better and more carefully looked after, the Manager, Mr. Symes, seeing to it himself. The advantages of a public kitchen were pointed out to him.

The second lot, who arrived from the railway works only a few weeks ago, look better than they did when I last saw them, but they still show marks of the heavy wear and tear they have been subjected to. Their clothes were bad, they were a weak looking lot, looking incapable of work; and, indeed the Manager informed me that they did not do any. Out of 40, no fewer than 14 had ulcers, some of them being bad ones. I had these 14 sent up to Teluk Anson Hospital, and in two of them I find dysentery. There were only four children among this lot, though when last at Bidor I saw more.

I have no doubt that these coolies will improve as did the first batch, now that they have got to a place where the Manager knows that a healthy coolie is of more value than a sick or dead one; but in the meantime they give the estate an appearance of being unhealthy, which I believe is not the case.

There have been no deaths on the estate this year, except two in children. Of his own importations there have been no deaths, of the first batch of Railway coolies four died.

Water is being got down from Teluk Anson in tanks in a water boat. There is none on the estate, except what can be caught off the roofs.

The coolies are housed in small raised huts. The Manager is not concentrating them in one place, but is scattering them over the estate at various places. I believe that this is a wise plan.

There is no Hospital, the Government having agreed that it is at present unnecessary. As he intends to open at once a considerable amount more, and to import more coolies, I have advised him that he would find a good dresser useful if he can get one.

I think that the coolies on this estate are well looked after, and at present there is nothing to make one think that it will be other than healthy.

11th May, 1901.

J. TERTIUS CLARKE,
District Surgeon, Lower Perak and Batang Padang.

The
Perak Government Gazette.

PUBLISHED BY AUTHORITY.

No. 22.] TAIPING, FRIDAY, JULY 5, 1901. [VOL. XIV.

FEDERAL.

APPOINTMENT.

Mr. Thomas Heslop Hill has been provisionally appointed Protector of Labour under the Labour Code, and Superintendent of Indian Immigrants under the Law for the Protection of Indian Immigrants, for the Federated Malay States, with effect from the 20th June, 1901.

THE following Notifications are, by Command of the Acting Resident, published for general information.

D. G. CAMPBELL,
Acting Secretary to Resident.

APPOINTMENTS.

No. 451.—Mr. Robert Cecil Edmonds, Collector of Land Revenue, Kuala Kangsar, to act as Collector of Land Revenue, Lower Perak, with effect from the 28th June.

No. 452.—Mr. Joseph Barker, Second Class Inspector, to be a First Class Inspector of Police, with effect from the 11th June, 1901.

LEAVE.

No. 453.—Mr. Robert Cecil Edmonds, Collector of Land Revenue, Kuala Kangsar, reported his return from leave of absence and resumed duties on the 28th June.

No. 454.—Mr. George Frederick Bird, District Engineer, Krian, reported his return from leave of absence and resumed duties on the 20th June, 1901.

No. 455.—The leave of absence granted to Mr. Frank Mills, Assistant Engineer, Perak State Railways, has been extended with half salary from the 21st June, 1901, until the arrival of the s.s. *Victoria*.

RESIGNATIONS.

No. 456.—The resignation of Miss Florence Anne Bailey-Rule, Matron, Batu Gajah Hospital, Kinta, has been accepted by Government, with effect from the 17th June, 1901.

No. 457.—The resignation of Mr. Wilfrid Cory Charter, Second Class Inspector, Perak Police, has been accepted by Government, with effect from the 31st May, 1901.

SERVICES DISPENSED WITH.

No. 458.—The services of Mr. Matthew Balavendrum, Travelling Inspector, Indian Immigration Department, have been dispensed with, with effect from the 30th June, 1901.

DISMISSAL.

No. 459.—P. Palanival, Goods Clerk, Railway Department, has been dismissed the service, with effect from the 13th June, 1901.

APPOINTMENT UNDER THE MINING ENACTMENT, 1899.

No. 460.—In pursuance of the powers vested in him by Section 81 (i) of the "Mining Enactment, 1899," the Acting Resident has been pleased to appoint the following officer to carry out the provisions of this Enactment, as hereinafter set forth:—

OVERSEER.

Thong Ah Pin to be Overseer of Mines, Tapah, with effect from the 1st June, 1901, *vice* Cheong Wai Sze, whose services have been dispensed with.

1st July, 1901.

EXEMPTIONS UNDER THE "SOCIETIES ENACTMENT, NO. 9 OF 1900.

No. 461.—It is hereby notified that the "New Club," "Perak Golf Club" and the "Christian Library" of Taiping, are, by order of the Acting Resident, exempted from registration under Section 2, Sub-section (c), of the Societies Enactment, 1900.

1st July, 1901.

EXAMINATION FOR THE SENIOR GRADE OF THE CLERICAL SERVICE.

No. 462.—With reference to the Rules for the Clerical Service of the Federated Malay States published in the *Gazette* of the 7th June, 1901, it is hereby notified that an Examination for the Senior Grade of the Clerical Service, open to all clerks who have had five years service or are in receipt of a salary of \$540 per annum, will be held in Taiping on the 12th August, 1901.

5th July, 1901.

ORDER MADE BY HIS HIGHNESS THE SULTAN UNDER THE "BANISHMENT ENACTMENT, 1900."

No. 463.—Whereas it appears to His Highness the Sultan that the removal from the State of Perak of the persons enumerated in the schedule hereto is necessary for the public safety and welfare;

It is hereby ordered by His Highness the Sultan, with the advice and consent of the Acting Resident, that the said persons so enumerated shall be, and they hereby are, banished from the State, for the period of their natural lives.

SCHEDULE.

Luk Chew. Wong Fuk.

5th July, 1901.

POLICE INSPECTORS' REGULATIONS.

No. 464.—It is hereby notified that the Secretary of State has directed that the words "who elect to come under these Regulations," at the end of paragraph 2 of the Regulations for Inspectors joining the Police Forces in the Federated Malay States, which came into force on the 1st January, 1899, and were published in the *Gazette* of the 27th October, 1899, should be deleted.

14th June, 1901.

FEDERATED MALAY STATES RAILWAYS.

KINTA VALLEY LINE.

No. 465.—Rule made by the Acting Resident of Perak, under Clause 5 of the Railways Enactment No. 11 of 1900.

The charges for Rates and Fares to and from Salak and Padang Rengas are to be based on the authorised mileages stated hereunder, viz:—

	Miles.		Miles.
Salak to Padang Rengas ...	16	Padang Rengas to Kuala Kangsar ...	7
" Kuala Kangsar ...	10	" Enggor ...	12
" Enggor... ...	4	" Salak ...	16
" Sungei Siput ...	5	" Sungei Siput ...	20
" Chemor... ...	13	" Chemor ...	28
" Tanjong Rambutan ...	17	" Tanjong Rambutan ...	33
" Ipoh ...	26	" Ipoh ...	41
" Lahat ...	30	" Lahat ...	45
" Batu Gajah ...	35	" Batu Gajah ...	50
" Kota Bharu ...	40	" Kota Bharu ...	56
" Kampar ...	49	" Kampar ...	64
" Temoh ...	53	" Temoh ...	69
" Tapah Road ...	58	" Tapah Road ...	74
" Chikus ...	66	" Chikus ...	82
" Teluk Anson ...	75	" Teluk Anson ...	91

4th July, 1901.

TENDERS FOR REVENUE FARMS.

No. 466.—Tenders will be received up to noon on Friday, the 13th September, 1901, for renting the following Farms for the period of one year, commencing from the 1st day of January, 1902.

A.—THE UPPER PERAK GENERAL FARMS.

(Including the New Territory.)

The Farmer will be required to import monthly into Janing not less than 280 gantangs of rice, and to sell the same at a price not exceeding \$7 per bag.

B.—THE LOWER PERAK ATAP FARM.

Tenders for renting the Lower Perak Atap Farm are invited.

CONDITIONS.

1.—Sealed tenders, which must be marked on the outside with the name of the Farm tendered for, should be addressed to the Secretary to the Resident, Taiping, and may be for one or both of the Farms.

2.—The Government does not bind itself to accept the highest or any tender, and reserves to itself the right of making any arrangement it may deem advisable in regard to the letting of the Farms.

3.—Security will be required in the shape of a cash deposit equal to three months' rent of the Farm, or a mortgage of approved land or house property to the value of not less than four months' rent.

4.—Each tender must specify the full names, residences and occupations of the persons tendering. In the case of Firms, the name and address of each partner and the name and chop of the firm *must be specified*.

Copies of the regulations which govern the Farms can be obtained from the Secretary to the High Commissioner, Singapore; the Perak Government Agent, Penang; the District Magistrates, and the Secretary to the Resident, Taiping, to the latter of whom application should be made should any further information be required.

24th June, 1901.

DECLARATIONS UNDER SECTION 75 OF THE LAND ENACTMENT, No. 17 OF 1897.

ACQUISITION OF LAND FOR PUBLIC PURPOSES.

No. 467.—It is hereby notified that whereas certain portion of the land in the mukim of Gunong Semanggol, in the Larut District, set forth and described in the schedule hereto, is required for a public purpose, *viz.*, for extending the Rest-house ground, it is the intention of Government to resume the same under Part VII of the Land Enactment, No. 17 of 1897.

Plan of the land described below, shewing the portion to be resumed, may be seen at the Land Office, Larut, during the usual hours, on application to the Collector of Land Revenue.

SCHEDULE.

Mukim—Gunong Semanggol. *Lot No.*—491. *Area*—3 acres, 2 roods and 20 poles. *Title*—Extract Mukim Register No. 223. *Owner or Claimant*—Neoh Ah Win. *Area to be Resumed*—Half acre.

This Declaration is made under Section 75 of the Land Enactment, No. 17 of 1897, to all whom it may concern.

Dated at Taiping, this 21st day of June, 1901.

D. G. CAMPBELL,
Acting Secretary to Resident.

No. 468.—It is hereby notified that whereas the whole or certain portions of those lands in the mukim of Ulu Kinta, in the District of Kinta, set forth and described in the schedule hereto, are required for the public purpose of making a road, it is the intention of the Government to take possession of the same under Part VII of the Land Enactment, No. 17 of 1897, after the publication of this notice in the *Gazette*.

Plans of the lands described below, shewing the portions to be resumed, may be seen at the Land Office, Batu Gajah, during the usual hours, on application to the Collector of Land Revenue.

SCHEDULE.

Mukim.	Situation.	Plan No.	Area.	TITLE.		Owner or Claimant.	Extent of resump- tion.

This Declaration is made under Section 75 of the Land Enactment, No. 17 of 1897, to all whom it may concern.

Dated at Taiping, this 2nd day of July, 1901.

D. G. CAMPBELL,
Acting Secretary to Resident.

NOTIFICATION UNDER SECTION 6 OF THE
LAND ENACTMENT, 1897.

RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 396.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims that parcel of land situated at Ipoh, described in the schedule hereto, and delineated upon Revenue Survey Plan Nos. 4,731, 5,988 and 5,874, deposited in the office of the District Surveyor, Kinta, to be a reserve for the purpose of interment and burning corpses, to be maintained by Lai Chahn Shang of Ipoh.

SCHEDULE.

District—Kinta. *Mukim*—Ulu Kinta. *Plan Nos.*—4,731, 5,988 and 5,874. *Lot Nos.*—1,526, 2,136 and 2,083. *Area*—51 acres, 2 roods and 27 poles. *Boundaries*—North, State Land, Lot No. 1,527 and Road; East, State Land; South, State Land and Lot Nos. 271 and 272; West, Lot No. 1,565 and State Land.

This Notification is made under Section 6 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 14th day of June, 1901.

D. G. CAMPBELL,
Acting Secretary to Resident.

NOTIFICATION UNDER SECTION 7 OF THE
LAND ENACTMENT, 1897.

REVOCATION OF RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 397.—Whereas by Notification No. 623 published in the *Gazette*, dated the 9th October, 1896, the British Resident reserved a piece of land situated at Tupai, in the district of Taiping, for the free and exclusive use and occupation thereof by all denominations of the Tamil community of the district, for the sole purpose of conducting their religious ceremonies, and whereas the terms on which the said land was so reserved have not been faithfully observed in respect of a certain portion of the same, which portion is described in the schedule hereto, and delineated upon Revenue Survey Plan No. 16-14, deposited in the office of the Superintendent of Revenue Surveys, the Acting Resident, in exercise of the powers vested in him by Section 7 of the Land Enactment, 1897, is hereby pleased to revoke the said reservation in respect of the portion so described.

SCHEDULE.

District—Larut. *Mukim*—Kamunting. *Plan No.*—16-14. *Lot No.*—158. *Area*—1 acre and 32 poles. *Boundaries*—North, Lot No. 159; South, Forest Reserve; East, Lot No. 131; West, Waterfall Road.

This Notification is made under Section 7 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 10th day of June, 1901.

D. G. CAMPBELL,
Acting Secretary to Resident.

MATANG.

No. 408.—Application having been made to the Collector of Land Revenue at Matang, by Leby Muhammad Arsat bin Long Panji and Che Selamah binti Ain of Simpang, for a new document of title for land situated at Simpang, in the district of Matang, on the ground that Leby Muhammad Arsat bin Long Panji and Che Selamah binti Ain are the registered owners thereof, and that the original Agreement for Agricultural Lease No. 564 has been lost :

No. 409.—Application having been made to the Collector of Land Revenue at Matang, by Pungat binti Garang of Ayar Terojeng, Sungei Tinggi, for a new document of title for land situated at Sungei Tinggi, in the district of Matang, on the ground that Pungat binti Garang is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 887 has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

C. S. ALEXANDER,

Acting Collector of Land Revenue.

21st June, 1901.

KUALA KANGSAR.

No. 473.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Halimah binti Ngah Abdulrahman, for a new document of title for a piece of land situated at Gapis, in the mukim of Kampong Buai, on the ground that Halimah binti Ngah Abdulrahman is the registered owner thereof, and that the original extract from the mukim Register Entry No. 716 has been lost :

No. 474.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Miur Neyope bin Toh Ismail, for a new document of title for a piece of land situated at Bota, in the mukim of Bota, on the ground that Miur Neyope bin Toh Ismail is the registered owner thereof, and that the original Permit No. 7,448/86, whereby the land was demised to him, has been lost :

No. 475.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Itam Abu bin Haji Muhammad, for new documents of title for two pieces of land situated at Plang, in the mukim of Pulau Kamiri, on the ground that Itam Abu bin Haji Muhammad is the registered owner thereof, and that the original Permits Nos. 450/88 and 451/88, whereby the lands were demised to him, have been lost :

No. 476.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Usah bin Syed Ahmat, for new documents of title for two pieces of land situated at Plus, in the mukim of Pulau Kamiri, on the ground that Syed Usah bin Syed Ahmat is the registered owner thereof, and that the original Permits Nos. 5,113/86 and 5,120/86, whereby the lands were demised to him, have been lost :

No. 477.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Ko Kuay of Kuala Kangsar, for the issue of a Mining Certificate No. 136, on the ground that the said Ko Kuay is the registered owner of Mining Certificate No. 136, and that the original Mining Certificate No. 136 has been lost :

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections, be granted.

5th July, 1901.

F. ROBERTSON,
Acting Collector of Land Revenue.

LOWER PERAK.

No. 478.—Application having been made to the Collector of Land Revenue, at Teluk Anson, by Archibald Alexander Swan of Singapore, for a new document of title for land, situated at Old Rifle Range Road, in the Durien Sabatang mukim of Lower Perak district, on the ground that Archibald Alexander Swan is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 4,889 has been lost :

No. 479.—Application having been made to the Collector of Land Revenue, at Teluk Anson, by Misah binti Shaik Alunad of Penang, attorney for Mahbrok bin Abdullah, for new documents of title for land, situated at Syed Abu Bakar Road, in the Durien Sabatang mukim of Lower Perak district, on the ground that Mahbrok bin Abdullah is the registered owner thereof, and that the original Agreement for Agricultural Lease Nos. 4,986 and 5,204 have been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

5th July, 1901.

ED. J. BREWSTER,
District Magistrate.

No. 239.—Application having been made to the Collector of Land Revenue, at Teluk Anson, by Toh Khay Joo, attorney for Teow Tek Lye, *vide* Power of Attorney No. 1/01, of Bagan Basir, for a new document of title for land, situated at Bernam, in the Utan Melintang mukim, of Lower Perak district, on the ground that Teow Tek Lye is the registered owner thereof and that the original Agreement for Lease No. 3,311 has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application, the new title applied for will, subject to the provisions of the said Section 13, be granted.

12th April, 1901.

No. 240.—Application having been made to the Collector of Land Revenue, at Teluk Anson, by Limah binti Masut, widow of Alang Mat Sah bin Anjang Kurus, of Pasir Salak, for an extract from the register, for land situated at Pasir Salak, in the Pasir Salak mukim, of Lower Perak district, on the ground that Alang Mat Sah bin Anjang Kurus is the registered owner thereof and that the original Extract No. 212 has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application the extract from the register applied for will, subject to the provisions of the said Section 13, be granted.

12th April, 1901.

No. 374.—To the Landholders named in the Schedule hereto :—

Take notice that whereas you have abandoned the lands described hereunder, in the mukim of Teluk Bharu, the said lands are liable to forfeiture under the provisions of Section 28 of the

Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such lands, or unless you enter or re-enter into occupation of such lands by making a *bona fide* commencement to cultivate it, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 7th day of June, 1901.

R. CLAYTON,

Acting Collector of Land Revenue.

KINTA.

No. 481.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Lung Myeok Tez, of Chumor, for a new title to land situated at Lalang Jehut, of the Kinta District, on the ground that the said Lung Myeok Tez is the registered owner thereof, and that the original agreement for Town Lease No. 1,320 has been lost:

No. 482.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Douglas James Berwick, of Gopeng, for a new title to land situated in the mukim of Kampar, of the Kinta District, on the ground that the said Douglas James Berwick is the registered owner thereof, and that the original agreement for Agricultural Lease No. 2,302 has been lost:

No. 447.—Application having been made to the undersigned by Chong Kwi, for an order declaring the applicant to be entitled to $\frac{1}{3}$ share of land, described in Mining Lease No. 1,627, and $\frac{1}{3}$ share of land, described in Mining Lease No. 1,635, both situated in the mukim of Sungei Raia, district of Kinta, and $\frac{1}{4}$ share of land, described in Mining Lease No. 2,022, in the mukim of Ulu Kinta, district of Kinta, and Sub-leases Nos. 18 of 1899 and 167 of 1899, and registered in the name of Chong Pow, deceased, on the ground that the applicant is the guardian of the minor sons and daughter of the said deceased, and that there is no other claimant :

No. 448.—Application having been made to the undersigned by Magat Alang bin Magat Hasan, for an order declaring the applicant to be entitled to a piece of land, described in application for Agricultural Land No. 18 of 1898, situated in the mukim of Teja, district of Kinta, and registered in the name of Magat Hasan, deceased, on the ground that the applicant is the son of the said deceased, and that there is no other claimant :

No. 449.—Application having been made to the undersigned by Jagon Buran bin Japusa, for an order declaring the applicant to be entitled to a piece of land, described in Grant No. 346, and $\frac{1}{3}$ share in a piece of land, described in application for Agricultural Land No. 2 of 1898, both situated in the mukim of Sungei Raia, district of Kinta, and registered in the name of Sheik Ahamad bin Jagumburan, deceased, on the ground that the applicant is the son of the said deceased, and that there is no other claimant :

No. 450.—Application having been made to the undersigned by Chew Koh Seh, for an order declaring the applicant to be entitled to $\frac{1}{4}$ share of land, described in four pieces of Mining Leases Nos. 1,107, 1,236, 1,237 and 1,823, respectively, all situated in the mukim of Ulu Kinta, district of Kinta, and registered in the name of Lim Cheng Ki, deceased, on the ground that the applicant is the father-in-law of the said deceased, and that there is no other claimant :

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the undersigned for refusing the above applications, the orders applied for will be granted, and the titles transferred to the names of the respective claimants.

21st June, 1901.

CECIL WRAY,
District Magistrate, Kinta.

PERAK

ADMINISTRATION REPORT

FOR THE YEAR 1900.

1. The revenue for Perak for the year 1900 amounted to \$7,636,126 REVENUE.
—the highest figure in the annals of the administration—an increase of
\$1,055,820 over the previous year, and \$1,715,269 over the Estimates.

The following were the principal items:—

	1899.	1900.
	\$	\$
Customs	4,016,317	4,644,602
Licences	928,135	932,060
Railways	746,618	1,017,618
Lands	310,843	351,451
Forests	122,616	133,063

As in the previous year the increase under Customs is due to the continued high price of tin throughout the year, from which a revenue of \$3,570,631 was obtained, against \$3,073,440 in 1899; export duty being charged on a sliding scale.

The increase in the Railway receipts is due to extension of open lines; the figures for both years include the receipts from the railway in Province Wellesley.

2. The expenditure amounted to \$6,144,774, against \$5,441,691 in EXPENDITURE.
1899. The estimated expenditure was \$5,993,682.

The following were the principal items:—

	1899.	1900.
	\$	\$
Railways (including Construction)	2,292,632	2,417,990
Public Works	888,801	1,229,295
Establishments	1,043,926	1,023,385

The cost of Establishments, including the Railway Department, represented 16·49 per cent of the revenue.

3. The balances in Banks and Treasuries on 1st January, 1900, BALANCES.
were \$1,581,814; on the 1st January, 1901, were \$1,472,265.

4. On the 1st January, 1900, the excess of assets over liabilities ASSETS AND
amounted to \$406,811. On the 1st January, 1901, \$1,898,164. LIABILITES.

TRADE.

5. The total value of trade amounted to \$43,931,811, an increase of \$6,609,500. The following table gives the comparative returns :—

	1899.	1900.
	\$	\$
Imports	11,615,260	14,741,148
Exports	25,707,051	29,190,663

LEGISLATION.

6. Six meetings of the State Council were held during the year, and the following Enactments were passed :—

I. For the better Regulation and Control of Vehicles.

II. Providing for the Registration of Marriages and Divorces of Muhammadans.

III. Providing for borrowing the sum of £500,000 from the Imperial Treasury of Great Britain and Ireland, and for raising, appropriating and applying the loan, and for the due repayment of the same.

IV. Providing for the surrender to Foreign States of persons accused or convicted of the commission of certain offences within the jurisdiction of such States.

V. Amending the Law relating to the Constitution and Powers of the Civil and Criminal Courts.

VI. Establishing a Code of Criminal Procedure.

VII. Providing for the Grant of Probates of Wills and Letters of Administration to the Estates of deceased Persons.

VIII. Repealing and re-enacting, with an Amendment, the Banishment Enactment, 1899.

IX. Repealing and re-enacting, with an Amendment, the Law relating to the Registration of Societies.

X. Declaring the Law for the Registration and Control of Jinrikishas.

XI. Repealing and re-enacting, with alterations, the Law relating to Railways.

XII. Amending the Law relating to the Registration of Bills of Sale.

XIII. Providing for the Attestation and Registration of Powers of Attorney.

ADMINISTRATION.

7. Mr. W. H. Treacher, c.m.g., British Resident, returned from leave at the beginning of April, and took over his duties from Mr. J. P. Rodger, c.m.g., British Resident, Selangor, who had been acting for him. At the end of April, Mr. Treacher was appointed Acting Resident-General, Federated Malay States, and Lieut.-Col. R. S. F. Walker, c.m.g., Commandant Malay States Guides, acted for him for the rest of the year.

In February, Mr. Cecil Wray was appointed District Magistrate, Kinta, in place of Mr. R. D. Hewett, appointed Federal Accountant and Auditor, and at the same time Mr. R. C. Grey was appointed District Magistrate, Kuala Kangsar, in place of Mr. F. Duberly, promoted for service in another State; Mr. F. St. G. Caulfeild was seconded for service in the Colony of the Straits Settlements, and Mr. John Trump was appointed to act as State Engineer.

In March, the Senior Magistrate, Mr. A. T. D. Berrington, was seconded for service as Legal Adviser, and Mr. A. L. Ingall was appointed to act for him; Mr. E. Burnside being appointed to act as District Magis-

trate, Batang Padang, and Mr. Knaggs as District Magistrate, Matang; Mr. A. B. Stephens, Forest Officer, went on leave and Mr. F. W. Douglas was appointed to act for him.

In May, Mr. M. J. Wright was granted leave and Mr. S. C. G. Fox has since then acted as State Surgeon.

In September, Mr. W. W. Douglas went on leave, his place as Deputy Commissioner of Police being taken by Captain F. W. Lyons.

At the beginning of the year the Orang Kaya Mentri, the Orang Kaya Kaya Sri Adika Raja and Datoh Sri Maharaja Lela were appointed, respectively, Superintendents of Penghulus for Larut, Kuala Kangsar (Ulu) and Kuala Kangsar (Hilir).

Seven Cadets joined the service in November.

8. The total land revenue for the year under review amounted to \$351,451, against \$310,843 in 1899, and \$276,832 in 1898. The estimated revenue was \$305,225. Of the revenue collected, \$129,702 is under the heading of land rents on town and agricultural land. The Land Office expenditure amounted to \$249,780, of which sum \$143,933 is classed under the item of Personal Emoluments; the ratio of the Land Office staff to the revenue collected by it is thus 41 per cent. Two years practical experience of the working of the Land Enactment has brought to light a few points where amendment is desirable, and a draft Land Amendment Enactment has been circulated and will shortly become law. The Registration of Titles Enactment is working more smoothly, and in an appendix will be found a return of the transactions recorded under it.

LAND AND AGRICULTURE.

REGISTRATION OF TITLES.

9. Of late years each year has shewn an increase in the export of sugar from the State, and this increase is for the year under review the more satisfactory on account of the rise in the price of sugar. On the Perak river, below Teluk Anson, the Straits Sugar Company is doing most excellent development work on their new estate. One thousand acres have been opened and the factory is in the course of erection: there is a labour force of 1,200 men. Sickness has been somewhat prevalent, but every attention is given to the well being of the coolies in their lines and in the hospital. In the Matang district the same Company had 1,600 acres under cultivation on the Gedong estate and a labour force of 1,400 men. The factory, which is the largest in the Federated Malay States, was formally opened on the 28th December. The arrangement of the coolie lines and the hospital is excellent. Among applicants registered during the year for large areas in this district are one by Mr. Turner for 1,500 acres adjoining the present estate, and another for 5,500 acres by Tan Lo Heong in the mukim of Selinsing. The sugar companies have been extending their operations with such energy that they have made large purchases from the Malay proprietors of the land held by them for *padi* cultivation. Where these lands fall within the areas defined as "Irrigation Areas" under the Enactment of that name, for the purpose of providing them with water from the Irrigation Works, the Government has now to face a serious difficulty; for the two forms of cultivation, the one requiring a dry soil, and the other a wet one, are incompatible within the same restricted area. At present the Government in the absence of special legislation is unable to interfere; this difficulty of course only refers to land already alienated. It is interesting to know that Mr. John Turner, the Managing Director of the Straits Sugar Company, considers that it is not only the rich alluvial plains of Krian and Matang that are suitable for the cultivation of sugar. Hitherto it has only been this low lying country that has been exploited for this purpose, but in Mr. Turner's opinion the rich land in the interior of the State would give an equally good return.

SUGAR.

PADI.

10. Though good crops are reported in some mukims, on the whole the 1899-1900 crop was a poor one. In the districts on the Perak river it was almost entirely destroyed by the ravages of rats. In this connection, I am glad to hear that Dr. Hamilton Wright, the Director of the Pathological Institute in Kuala Lumpur, is experimenting with the intention of inoculating these vermin with a disease that will decimate or exterminate them. Mice can be got rid of by infecting a few with Loeltee's *typhi murium bacillus*, and setting them loose to infect the healthy animals; a highly infectious disease, whose symptoms are not unlike those of typhoid fever, is soon set up. It is said that it was by creating an epidemic of this nature in Thessaly, where the crops were being destroyed by an enormous number of field mice, that the remainder of the harvest was saved. The disease does not affect other animals: rats will be treated with a pathogenic *cocco-bacillus*, recently discovered by M. Danysz. The success of such an experiment would be a boon to the agricultural Malay.

COCONUTS.

11. Next to the cultivation of sugar that of coconuts at present finds most favour with planters. Where the soil is suitable, either coconuts or para rubber, and sometimes both, are being planted between the rows of coffee on the estates hitherto devoted to coffee alone. Applications covering many acres have been received, more especially in the district of Lower Perak, between the Perak and Bernam rivers, where an extraordinary energy has been displayed. Here 318 applications have been received from natives, chiefly foreign Malays, for small holdings to be devoted to this form of cultivation. In the same part of the district the Straits Plantation Company has planted up between three and four hundred acres of the two thousand owned. The Government is devoting especial attention to opening this country by roads and bridle-paths. I recently visited this part of the State and was struck by the richness of the soil as evinced by the extraordinary growth and strength of the coconuts, many of which were in bearing at four years old.

COFFEE.

12. The prospects of coffee have shewn but little signs of improvement during the year. On the estates that have been maintained in good order the crops have been good, but the present price of coffee, it is feared, prevents its being cultivated with success except in connection with other products such as rubber or coconuts.

RUBBER.

13. Para rubber is now extensively planted on many estates. Where well tended it grows well and the young trees are strong and healthy. In many places, however, white ants, which attack the roots of the trees, are a dangerous enemy, and one against which the planter will have to guard. On no estate have the trees arrived at sufficient maturity to enable them to be tapped.

TAPIOCA.

14. Go Hooi Chew's tapioca estate at Temerloh is well reported on. It is kept in excellent order and coconuts, durians and other valuable trees are planted throughout it at regular intervals; a tram line runs through the estate connecting the outlying fields with the mill.

LAND
SETTLEMENT.

15. With the exception of Krian, where the District Magistrate hopes next year to have all the holdings in the district shewn in the mukim register, the reports of land settlement are not all that I could wish them to be. More than the other departments perhaps, the land offices have been hampered by want of a sufficient staff, and where the staff is unable to cope with the work in every case it has been the settlement work that has suffered.

FORESTRY.

16. A Forest revenue of \$133,063 was collected during the year, being an increase of \$10,446 on the previous year; this is the more satis-

factory in that the issue of wood-cutting licenses to miners free of charge necessitated a considerable loss to the Forest revenue. The expenditure amounted to \$45,012, the charges classed under Personal Emoluments being \$25,132. The ratio of the Forest Staff to the Forest Revenue is thus 1: 5.3.

17. Mr. H. C. Hill, the Conservator of Forests, I. F. S., inspected the Forests of the State in July, and has written a most valuable report.

In accordance with his recommendations, two reserves, one at Pondok Tanjung, comprising 30,380 acres, and one at Gunung Semanggol, comprising 1,330 acres, were notified in the *Gazette*. Further examination and demarcation of the other proposed reserves was considered necessary. A boundary line, five miles long, has been surveyed at the foot of the Larut hills, and 35 miles have been cut round the base of the Klédang hills. Demarcation work is in progress on the Bubu range and at Parit. These reserves are areas that will be permanently maintained under forest; the present growing stock will be allowed to acquire its maximum value, when it will be disposed of in the timber market, and the growth of young trees of the more valuable species will be assisted. In the unreserved areas, which are looked to to provide present demands for timber, certain trees, such as Chengal Kulim, Merbau and Meranti, are declared to be "reserved" and may not be felled if of less than a certain girth.

RESERVES.

Mr. Hill condemned the existing system of charging a commuted royalty, in the form of a fixed sum, for a pass or licence to take timber or jungle produce, and (except in the Mangrove forests, where the pass system is still in force) Mr. Douglas, the Acting Forest Officer, has introduced a system whereby a permit to cut is given free of charge and a royalty is collected on the timber produced at the *kongsi* house. The new system has already proved a success.

18. The Mangrove forests along the coast and on the banks of tidal rivers have been seriously depleted by the firewood cutters, and Mr. Hill reports that systematic treatment under a regular working plan is now necessary. A tree suitable for firewood billets takes from 7 to 15 years to grow, and Mr. Hill recommends cutting up our 80 square miles of mangrove forest into a number of "working circles" between 2,000 and 4,000 acres in extent, and subdividing these working circles, (which will be selected so as to serve one or more of the timber markets) into twenty *coupes* or annual felling areas. A rotation of twenty years is thus obtained, and by leaving a certain number of seed trees to the acre when the felling takes place it is ensured that a mature forest of these prolific and quick growing trees will be ready for the market when the time for felling comes round again. The *coupe* will be sold by auction or tender. By this system the waste that now goes on will cease, for the successful purchaser can be relied on to remove every piece of wood that will bear the cost of carriage. At present the wood-cutters leave all knotty parts of the stems and the whole of the branch wood to rot in the jungle, for these parts of the tree fetch a less price in the market, and men working on monthly passes naturally select the material that pays them best. The demarcation necessary to the preparation of a working plan is now in hand, and 50 miles have been surveyed.

MANGROVE.

19. Up to an elevation of 2,500 feet, taban (*palaquium species*) grows freely on the western side of the Larut hills, and on the eastern slopes of the Klédang range.

TABAN.

Mr. Hill is of opinion that the State has an ample area of Gutta Percha producing forest, and that no recourse is necessary to the estab-

lishment of special plantations outside the limits of its natural growth. A working plan is advocated whereby the *palaquium* forests be divided into a number of areas, which should come under operation at regular intervals of 5 to 10 years; the operation would consist in giving more light and space to each *palaquium* tree, and in transplanting seedlings to blank spaces.

PLANTATIONS.

20. Mr. Hill is not in favour of the introduction of exotics, such as teak, mahogany or lillian, and is of opinion that there is no need to form plantations of the indigenous trees; the scope of the existing plantations at Pondok Tanjong and elsewhere will not therefore be increased.

MINES.

21. The Kuala Kangsar gardens show a profit of \$430; the revenue being \$4,077, and the expenditure \$3,647. More than half of the receipts were derived from the sale of seeds and prepared Para Rubber. The fruit crop was an average one. The cattle herd is in good condition and has proved a success financially; the animals are used for cartage, cultivation and dairy purposes. The nursery is kept stocked with the principal fruit trees and economic plants. Experiments have been made with (amongst many others) cinnamon, coca, vanilla, Mauritius hemp, gingelly and cola nut, and the seedlings are strong enough for permanent planting during the year. Sea Island cotton and the West Indian yellow plantain, which is the main food supply of the West Africans, and is eaten as a vegetable, have been grown with success. The result of a sale in the London market of a parcel of Para Rubber (*Hevea brasiliensis*), was received early in the year. 327 pounds of the best quality rubber fetched 3s. 10d. per pound, and 23 pounds of scrap, i.e., the fragments of rubber picked off the stems of the trees after tapping, were sold at the rate of 2s. 6d. per pound. 82 trees, of an average age of 14 years, were tapped to give this result; the yield is thus a little over four pounds to the tree, but the Superintendent, Mr. Derry, reports that exceptionally heavy rains frequently interrupted the work and threatened, in conjunction with the tapping, to damage the seed crop, and that therefore the tapping was stopped in many cases long before the supply of latex was exhausted. From the 11 best trees over 97 pounds of dry rubber were obtained, one tree yielding 12 pounds and 1½ ounces. A small sample of Gutta Rambong (*Ficus elastica*) was reported on in England as "good clean Java character," and sold at the rate of 3s. 10d. per pound. A tree in the Kuala Kangsar garden yielded 25 pounds at a single tapping: this tree is 19 years old, and about 90 feet high, measured round the aerial roots at 3 feet from the ground, it has a girth of 88 feet. Mr. Derry's report on the preparation of the rubber for the market is most interesting, and a copy of it will be supplied to the Managers of the Plantations in the State.

22. The expenditure on the plantations on the Larut hills amounted to \$6,453, and a revenue of \$1,674 was derived from the sale of milk, vegetables and plants. The gardens benefitted by a drier season than the average, and the production of vegetables shews a considerable increase. The principal failures were with the tomatoes, which were attacked by fungoid growth, and with tree tomatoes. Decorative plants also did well, and there was a succession of flowers throughout the year. In the nursery experiments are being made with the mountain papaw, Japanese camphor, persimmon and Japanese olive.

23. The Taiping gardens were maintained in good order: two avenues, one of casuarina trees, the other of palms, were planted, and groups of shrubs and flowering plants were set out. An extension to the lake has added beauty to the grounds.

24. The total export of metallic tin amounted to 355,589 pikuls (21,166 tons), against 318,526 pikuls (18,960 tons) in 1899. Its value

was \$26,032,000, against \$23,099,506 in 1899. The amount exported is greater than in any year since 1896. The following table may be read with interest:—

		Tons.		Pikuls.		Price.		Value.
						\$		\$
1896	...	22,811	...	883,227	...	82.20	...	12,939,909
1897	...	20,949	...	351,945	...	36.09	...	12,701,695
1898	...	20,061	...	337,025	...	42.96	...	14,177,101
1899	...	18,960	...	818,526	...	72.52	...	23,099,506
1900	...	21,166	...	355,589	...	74.15	...	26,032,000

25. The duty paid was \$3,570,631, against \$3,073,440 in 1899. This satisfactory return is due to the high price of tin that prevailed during the year, which has enabled deserted fields being reopened which were unpayable at previous prices, and to the increased mining population; in every part of the State has activity in the mining industry increased. This very conclusively proves that any check in the mining industry is not due to exhaustion of the mines. The fall in price up to a certain point has had little effect, as whereas the price of tin in July was \$77.73, and output 31,455 pikuls, in November, when the price fell to \$68.25, the output was 35,262 pikuls, and in December, when it further fell to \$65.85, the output was 31,734 pikuls. The number of Chinese working in the mines in the Kinta and Batang Padang districts was 59,728, against 50,176 in 1899, and 44,505 in 1898. In the Northern district, which includes Larut, their number was estimated at 11,235, a considerable increase over the previous year. Of the 355,589 pikuls of tin exported, 160,607 was tin-ore, and 194,982 metallic tin, against 144,366 and 174,259, respectively, in the previous year. The number of licenses issued to tin buyers and smelters was 225, against 226 in 1899. The Straits Trading Company still maintains the lead as the largest buyers of ore, but are likely in the near future to experience competition from the Chinese Miners who contemplate erecting extensive smelting works of their own.

26. The important feature in the year has been the number of applications for hydraulic workings. Of these, there are 16 concessions, and whereas there were five monitors at work in 1899, there were nine at the end of 1900, and this number is likely to be doubled in the near future. Of the popularity of this class of working there can be no doubt, as once the heavy outlay on laying the pipes have been met, the expenditure is less than by any other system—it economises both labour and supervision. The Warden of Mines points out that the two important features that must regulate these workings are the proper proportioning of water and the disposal of the tailings. As regards the former there can be no difficulty under proper supervision, as regards the latter the State Geologist writes as follows:—"Much unnecessary alarm has also been occasioned by the supposed serious damage which this system is credited with causing, and many quite unwarranted restrictions placed on it," and proceeds to shew that though millions of cubic yards have been washed away and discharged down the various rivers, no damage has been caused by it, either to the land or rivers. The State Geologist continues:—"In California, where this method of working has done damage to agricultural lands, the climatic circumstances are so entirely different to those which prevail in Perak that any arguments deduced from it do not hold good here. It is a country with a very small rainfall, and what there is, is confined to a few months in the year. The damage is caused by this uneven distribution of the rainfall, for in the

HYDRAULIC WORKING.

PADI.

10. Though good crops are reported in some mukims, on the whole the 1899-1900 crop was a poor one. In the districts on the Perak river it was almost entirely destroyed by the ravages of rats. In this connection, I am glad to hear that Dr. Hamilton Wright, the Director of the Pathological Institute in Kuala Lumpur, is experimenting with the intention of inoculating these vermin with a disease that will decimate or exterminate them. Mice can be got rid of by infecting a few with Loelteer's *typhi murium bacillus*, and setting them loose to infect the healthy animals; a highly infectious disease, whose symptoms are not unlike those of typhoid fever, is soon set up. It is said that it was by creating an epidemic of this nature in Thessaly, where the crops were being destroyed by an enormous number of field mice, that the remainder of the harvest was saved. The disease does not affect other animals: rats will be treated with a pathogenic *cocco-bacillus*, recently discovered by M. Danysz. The success of such an experiment would be a boon to the agricultural Malay.

COCONUTS.

11. Next to the cultivation of sugar that of coconuts at present finds most favour with planters. Where the soil is suitable, either coconuts or para rubber, and sometimes both, are being planted between the rows of coffee on the estates hitherto devoted to coffee alone. Applications covering many acres have been received, more especially in the district of Lower Perak, between the Perak and Bernam rivers, where an extraordinary energy has been displayed. Here 318 applications have been received from natives, chiefly foreign Malays, for small holdings to be devoted to this form of cultivation. In the same part of the district the Straits Plantation Company has planted up between three and four hundred acres of the two thousand owned. The Government is devoting especial attention to opening this country by roads and bridle-paths. I recently visited this part of the State and was struck by the richness of the soil as evinced by the extraordinary growth and strength of the coconuts, many of which were in bearing at four years old.

COFFEE.

12. The prospects of coffee have shewn but little signs of improvement during the year. On the estates that have been maintained in good order the crops have been good, but the present price of coffee, it is feared, prevents its being cultivated with success except in connection with other products such as rubber or coconuts.

RUBBER.

13. Para rubber is now extensively planted on many estates. Where well tended it grows well and the young trees are strong and healthy. In many places, however, white ants, which attack the roots of the trees, are a dangerous enemy, and one against which the planter will have to guard. On no estate have the trees arrived at sufficient maturity to enable them to be tapped.

TAPIOCA.

14. Go Hooi Chew's tapioca estate at Temerloh is well reported on. It is kept in excellent order and coconuts, durians and other valuable trees are planted throughout it at regular intervals; a tram line runs through the estate connecting the outlying fields with the mill.

LAND
SETTLEMENT.

15. With the exception of Krian, where the District Magistrate hopes next year to have all the holdings in the district shewn in the mukim register, the reports of land settlement are not all that I could wish them to be. More than the other departments perhaps, the land offices have been hampered by want of a sufficient staff, and where the staff is unable to cope with the work in every case it has been the settlement work that has suffered.

FORESTRY.

16. A Forest revenue of \$133,063 was collected during the year, being an increase of \$10,446 on the previous year; this is the more satis-

factory in that the issue of wood-cutting licenses to miners free of charge necessitated a considerable loss to the Forest revenue. The expenditure amounted to \$45,012, the charges classed under Personal Emoluments being \$25,132. The ratio of the Forest Staff to the Forest Revenue is thus 1 : 5.3.

17. Mr. H. C. Hill, the Conservator of Forests, I. F. S., inspected the Forests of the State in July, and has written a most valuable report.

In accordance with his recommendations, two reserves, one at Pondok Tanjong, comprising 30,380 acres, and one at Gunong Semanggol, comprising 1,330 acres, were notified in the *Gazette*. Further examination and demarcation of the other proposed reserves was considered necessary. A boundary line, five miles long, has been surveyed at the foot of the Larut hills, and 35 miles have been cut round the base of the Klédang hills. Demarcation work is in progress on the Bubu range and at Parit. These reserves are areas that will be permanently maintained under forest; the present growing stock will be allowed to acquire its maximum value, when it will be disposed of in the timber market, and the growth of young trees of the more valuable species will be assisted. In the unreserved areas, which are looked to to provide present demands for timber, certain trees, such as Chengal Kulim, Merbau and Meranti, are declared to be "reserved" and may not be felled if of less than a certain girth.

RESERVES.

Mr. Hill condemned the existing system of charging a commuted royalty, in the form of a fixed sum, for a pass or licence to take timber or jungle produce, and (except in the Mangrove forests, where the pass system is still in force) Mr. Douglas, the Acting Forest Officer, has introduced a system whereby a permit to cut is given free of charge and a royalty is collected on the timber produced at the *kongsi* house. The new system has already proved a success.

18. The Mangrove forests along the coast and on the banks of tidal rivers have been seriously depleted by the firewood cutters, and Mr. Hill reports that systematic treatment under a regular working plan is now necessary. A tree suitable for firewood billets takes from 7 to 15 years to grow, and Mr. Hill recommends cutting up our 80 square miles of mangrove forest into a number of "working circles" between 2,000 and 4,000 acres in extent, and subdividing these working circles, (which will be selected so as to serve one or more of the timber markets) into twenty *coupes* or annual felling areas. A rotation of twenty years is thus obtained, and by leaving a certain number of seed trees to the acre when the felling takes place it is ensured that a mature forest of these prolific and quick growing trees will be ready for the market when the time for felling comes round again. The *coupe* will be sold by auction or tender. By this system the waste that now goes on will cease, for the successful purchaser can be relied on to remove every piece of wood that will bear the cost of carriage. At present the wood-cutters leave all knotty parts of the stems and the whole of the branch wood to rot in the jungle, for these parts of the tree fetch a less price in the market, and men working on monthly passes naturally select the material that pays them best. The demarcation necessary to the preparation of a working plan is now in hand, and 50 miles have been surveyed.

MANGROVE.

19. Up to an elevation of 2,500 feet, *taban* (*palaquium species*) grows freely on the western side of the Larut hills, and on the eastern slopes of the Klédang range.

TABAN.

Mr. Hill is of opinion that the State has an ample area of Gutta Percha producing forest, and that no recourse is necessary to the estab-

lishment of special plantations outside the limits of its natural growth. A working plan is advocated whereby the *palaquium* forests be divided into a number of areas, which should come under operation at regular intervals of 5 to 10 years; the operation would consist in giving more light and space to each *palaquium* tree, and in transplanting seedlings to blank spaces.

PLANTATIONS.

20. Mr. Hill is not in favour of the introduction of exotics, such as teak, mahogany or lilian, and is of opinion that there is no need to form plantations of the indigenous trees; the scope of the existing plantations at Pondok Tanjong and elsewhere will not therefore be increased.

23. The Taiping gardens were maintained in good order: two avenues, one of casuarina trees, the other of palms, were planted, and groups of shrubs and flowering plants were set out. An extension to the lake has added beauty to the grounds.

24. The total export of metallic tin amounted to 355,589 pikuls (21,166 tons), against 318,526 pikuls (18,960 tons) in 1899. Its value

was \$26,032,000, against \$23,099,506 in 1899. The amount exported is greater than in any year since 1896. The following table may be read with interest:—

		Tons.		Pikuls.		Price.		Value.
						\$		\$
1896	...	22,811	...	883,227	...	82.20	...	12,339,909
1897	...	20,949	...	351,945	...	36.09	...	12,701,695
1898	...	20,061	...	337,025	...	42.96	...	14,177,101
1899	...	18,960	...	318,526	...	72.52	...	23,099,506
1900	...	21,168	...	355,589	...	74.15	...	26,032,000

25. The duty paid was \$3,570,631, against \$3,073,440 in 1899. This satisfactory return is due to the high price of tin that prevailed during the year, which has enabled deserted fields being reopened which were unpayable at previous prices, and to the increased mining population; in every part of the State has activity in the mining industry increased. This very conclusively proves that any check in the mining industry is not due to exhaustion of the mines. The fall in price up to a certain point has had little effect, as whereas the price of tin in July was \$77.73, and output 31,455 pikuls, in November, when the price fell to \$68.25, the output was 35,262 pikuls, and in December, when it further fell to \$65.85, the output was 31,734 pikuls. The number of Chinese working in the mines in the Kinta and Batang Padang districts was 59,728, against 50,176 in 1899, and 44,505 in 1898. In the Northern district, which includes Larut, their number was estimated at 11,235, a considerable increase over the previous year. Of the 355,589 pikuls of tin exported, 160,607 was tin-ore, and 194,982 metallic tin, against 144,366 and 174,259, respectively, in the previous year. The number of licenses issued to tin buyers and smelters was 225, against 226 in 1899. The Straits Trading Company still maintains the lead as the largest buyers of ore, but are likely in the near future to experience competition from the Chinese Miners who contemplate erecting extensive smelting works of their own.

26. The important feature in the year has been the number of applications for hydraulic workings. Of these, there are 16 concessions, and whereas there were five monitors at work in 1899, there were nine at the end of 1900, and this number is likely to be doubled in the near future. Of the popularity of this class of working there can be no doubt, as once the heavy outlay on laying the pipes have been met, the expenditure is less than by any other system—it economises both labour and supervision. The Warden of Mines points out that the two important features that must regulate these workings are the proper proportioning of water and the disposal of the tailings. As regards the former there can be no difficulty under proper supervision, as regards the latter the State Geologist writes as follows:—"Much unnecessary alarm has also been occasioned by the supposed serious damage which this system is credited with causing, and many quite unwarranted restrictions placed on it," and proceeds to shew that though millions of cubic yards have been washed away and discharged down the various rivers, no damage has been caused by it, either to the land or rivers. The State Geologist continues:—"In California, where this method of working has done damage to agricultural lands, the climatic circumstances are so entirely different to those which prevail in Perak that any arguments deduced from it do not hold good here. It is a country with a very small rainfall, and what there is, is confined to a few months in the year. The damage is caused by this uneven distribution of the rainfall, for in the

**HYDRAULIC
WORKING.**

"dry season the rivers are converted into sandy wastes with here and there a few water holes. In these river beds the tailings from the mines accumulate during the dry season and when the rains come the rivers overflow and carry them far and wide over the agricultural lands. It is perhaps almost needless to say that nothing of this sort could ever happen in the Malay Peninsula." The confinement of tailings within the prescribed dumping ground is merely a question of engineering. It requires strict supervision and when the conditions imposed are not complied with the work is stopped.

LODE TIN.

27. The Warden of Mines reports little progress was made in the concessions working lode tin. Prospecting, however, in a very thorough and practical manner is being carried out at Sorakai, where two shafts have been sunk. It would, however, appear from the State Geologist's report that the Chinese are working many of these deposits in Kinta, and in anything but a satisfactory manner. On this subject he writes:— "When they have got out all they can, either because to sink deeper would mean putting up an engine and pump, or because the ore changes its character and becomes unworkable by the defective methods employed by them, they close up the shafts, and the deposit, which might be a profit to the miners and of revenue to the State, is absolutely lost." This only tends to show the resources of the tin deposits in Perak, and there can be little doubt with the example before them, the Chinese miner will gradually improve his methods and the primitive system of working we have been accustomed to will be a thing of the past. No better illustration of this can be quoted than Mr. Foo Choon's mine at Tronoh which has been referred to in previous Resident's reports. This mine under European management has sunk two shafts, one on an incline, 500 feet, one vertical, 145 feet. The trucks are worked by the usual winding machinery. Owing to the stiffness of the clay in which the tin sand is found, it has to be washed in two "buddles," each of which contains 20 tons of clay, the whole is worked by machinery. The underground workings are timbered in the usual manner. One hundred and fifty men are employed in three shifts of 50, equivalent to 1,000 men were the mine worked as an open mine in the usual manner. One day's working gives the following results: 40 pikuls of tin, \$800; working expenses, \$150; daily profit, \$650. This was the case on the day of my visit.

DREDGING.

28. Another form of mining will necessitate the attention of the Government in the near future, *viz.*, dredging; already applications have been received for this system of working on the rivers, but it is proposed by a Company to deposit a dredger in the swampy low lying land. The dredger with all its mechanical contrivances will work its way about its concession, harmlessly doing its work, returning the soil from where it found it, requiring no restrictive regulations, floating in the swamps it costs other systems such a vast expenditure to drain, and working with the minimum amount of labour. There is much land which would welcome such a system. There were 268 mining engines in the State at the end of 1900, against 185 in 1899. The Inspector of Boilers, who is under the orders of the Warden of Mines, made a searching inspection of all Engines and Drivers' throughout the State, finding defects in many of the former and inefficiency amongst the latter. All this will be remedied. The Inspector of Boilers took up his appointment only in September, 1899, and already has done much good and raised the standard of efficiency of the engine drivers.

ENGINES.

WARDEN'S COURT.

29. The number of cases heard by the Warden was as follows:— Civil, 125; Criminal, 171; a total of 296, against 346 in 1899 and 454 in 1898, indicating a prosperous year, for little trouble is given by the miners when tin is high and water available.

30. The Warden, South, has three Inspectors to assist him. One of these Inspectors is from the School of Mines, a practical capable officer: the other two pick up their experience locally. The professional officer is frequently called upon to report on concessions in other parts of the State other than the one he is attached to. On the question of supervision the Inspector of Mines, Mr. Pearse, reported as follows:—" *Ta Lung* (shaft work) as it is at present worked is a disgrace to the Mines Department. "It is impossible to expect an Inspector, already overworked, to spend many hours standing by and shewing the Chinese how to do this or how to place that." The Warden of Mines writes, "What is wanted is a small increase in the number of Inspectors, but above all some scheme which would ensure the continuance of each Inspector in his office for a number of years." I agree with the Warden of Mines and the matter is under consideration. I have pointed out the necessity of supervision and an efficient mining staff. The present cost of staff of the Mining Department is rather less than three-fourths of a per cent of the direct revenue collected from the mines. Never, after the most prosperous mining year in the annals of Perak, has the Mining Department deserved more of the Government than during the year under review.

STAFF.

SUPERVISION.

31. The Company quarrying marble in the Kinta district completed the erection of extensive and valuable machinery. It seemed busily engaged during the year with orders, the marble is reported plentiful and of good quality. It is earnestly to be hoped the enterprise will succeed.

MARBLE QUARRY.

32. The programme started in 1899 of extending the major triangulation of Perak through Selangor and Negri Sembilan was continued. The major triangulations of the State of Perak was completed, southwards, and closed on the check base line at Tanjong Malim. A topographical party was occupied with the survey of the Bernam and Dedap rivers, and another party, for part of the year, was engaged on triangulation in Upper Perak in connection with the demarcation of the Perak-Reman boundary. In connection with this latter work, a trigonometrical station was erected on Gunong Kendong. In Selangor five new sites were cleared and beaconed, preliminary observations were taken from three stations and final observations from twenty, there now remains only two stations to be observed from to complete the system of major triangulation in this State. In Negri Sembilan six new sites were cleared and beaconed, observations were taken from twenty-three stations, the major triangulation to the west of the dividing range may now be considered finished. A mean tide datum was established at Port Dickson jetty and connected with the triangulation. Stations were erected on Gunong Palas (5,000'), Gunong Raka (1,850'), and Bukit Tujoh (2,550'). The first-named is a spur of Gunong Benon, the second a remarkable lime-stone rock near Bentong, and the last is on the watershed between the Tenom and Kechaw rivers.

SURVEYS.

TRIGONOMETRICAL

*Perak.**Selangor.**Negri Sembilan.**Pahang.*

33. The future programme will include the measurement of the Bernam base line, a check latitude and azimuth to be observed at Bukit Asa, and the major triangulation of Selangor completed. The Staff will then be available for secondary work in Perak, which is much in arrears. The major triangulation of Negri Sembilan will be extended to the east of the dividing range of Gunong Hantu to Mount Ophir. Mr. Brigley, I regret to say, lost his life by drowning in the Perak river, while engaged on extending the triangulation over the newly acquired territory. The new map of Perak, on the scale of four miles to the inch, was all but completed, it is only awaiting the fixing of a few points in the newly acquired territory before publication.

*Future Programme.**Map.*

34. The following return shews the amount of work carried out by the officers in the Revenue Survey Department during 1899 and 1900:—

REVENUE.

	1899.	1900.
Surveyed Town Lots	366	351
„ Agricultural Lands...	12,207 acres	14,184 acres
„ Mining Lands	12,139 „	12,560 „
„ Traverses	431 miles	599 miles
Demarcated Village Lots ...	243	Nil
„ Agricultural Lands	14,689 acres	15,187 acres
Title Maps and Tracings ...	3,584	5,337

35. Continued heavy demands are being made on this Department by applicants for mining land, especially in the Batang Padang district, where the applications amounted to 8,600 acres and the Survey Fees deposited to \$42,939. During the year the Land Office in this District was strengthened and excellent results were obtained. The Superintendent of Revenue Surveys reports that in the Kinta district 3,300 acres of approved mining land and 1,730 acres of agricultural land only await surveying, which represents about six months work. It may, therefore, be confidently hoped that the Kinta Mining Application Book, which has been closed for the last four years, may be re-opened in the near future. The work of this Department is carried out in a most efficient manner by Mr. Harper, the Superintendent, and his staff.

POLICE.

36. The total strength of the Police Force on the 31st December, 1900, was 1 Deputy Commissioner, 1 Assistant Commissioner, 13 Inspectors, 471 Non-commissioned officers and men (Indians), 364 Non-commissioned officers and men (Malays), and 56 detectives. The cost of the whole force on all accounts was \$264,250.93.

CRIME.

37. The return of Crimes committed and discovered show that there were 15,493 cases reported. Of the serious offences, 22 cases of murder are recorded, of which 17 were discovered, against 18 and 13, respectively, in 1899. There were 59 cases of gang robbery, of which 16 were discovered, against 24 reported in the previous year. There were 71 cases of robbery of which 29 were discovered. The Acting Deputy Commissioner of Police advocates special legislation in the form of flogging and compulsory carrying of lights at night against crimes by violence in proclaimed districts. Some such legislation is desirable, owing to the extent of country over which the police have to operate, and the facilities there are for criminals to avoid capture. The Acting Deputy Commissioner of Police reports that Secret Societies shewed no signs of activity during the year.

PRISONS.

38. The total prisoners remaining in all the Prisons in the State on the 1st January, 1900, numbered 539; admitted during 1900, 2,486; total, 3,025. The number of prisoners remaining at the end of the year was 566; of these 282 were detained in the Larut prison, 254 in the Batu Gajah prison, 24 in the Krian prison, and 6 at Batang Padang. Of the 566 remaining at the end of 1900, 28 were in the Civil prison; 6 female prisoners were remaining on the 1st January, 1900, 32 admitted during the year, 4 remaining on the 31st December, 1900. Three executions took place: two at Taiping, one at Batu Gajah. There were six escapes from the Batu Gajah gaol, two recaptured. None from the Larut prison.

FEMALES.

HEALTH.

39. The health of the prisoners in the Larut gaol has been remarkably good, and none of the fears anticipated by the State Surgeon, Dr. Wright, in connection with the enforcement of the prison regulations in their entirety, especially as regards intra-mural labour, were realised. The same satisfactory result cannot, however, be reported in the Batu

Gajah gaol, where the principal form of labour is extra-mural, but where the hospital patients are swelled from the vagrancy class, which infest that district.

40. Intra-mural labour has now been firmly established in the Larut prison, the prisoners being worked together in their respective grades. Carpentering, tailoring, rattan and tin-plate work are found for the higher grades in association, thereby carrying out the important rudiments of gaol administration, by teaching the long-sentence prisoners a trade by which they can, on leaving the gaol, find a ready means of livelihood. The solitary stone-breaking cells provide the necessary hard work for short-sentence prisoners, a form of labour which up till 1900 had been wanting in the gaol, and which, undoubtedly, has acted as a deterrent. The number of prisoners remaining on the 31st January, 1900, in this gaol, being 282, against 349 on the last day of 1899, and 416 on the last day of 1898. The revenue of the Central prison collected during the year, and paid into the Treasury, amounted to \$10,880, an increase of \$2,881 over 1899. I consider this a valuable and satisfactory record, especially considering the large decrease in the number of prisoners as compared with the previous year. Extra-mural work in the Larut gaol is confined to a gang of about 40 prisoners employed at the quarry, which feeds a stone-breaking shed within the precincts of the gaol, from which excellently finished stone-work is produced. The diet of the prisoners, as introduced in 1889, has proved eminently successful, the cost of which in the Larut prison amounted to 8 cents per diem, per convict, and in Batu Gajah 12 cents per diem, per convict.

LABOUR.

REVENUE.

DIET.

41. The mark system is rigidly adhered to and the accounts are kept in a thorough and systematic manner. An execution cell has been constructed in connection with the condemned cells, and on the latest approved methods. All executions are now carried out within it and are therefore unseen.

MARK SYSTEM.

42. The discipline in the gaols, both amongst the prisoners and the staff, has been very good. I endorse the high opinion that the Acting Inspector of Prisons and the Superintendent of the Larut prison has formed of Mr. Kydd, the Gaoler, to whose administrative ability and high sense of duty, I attribute the present efficient state of the Larut prison, and I can speak in the highest terms of the way the staff, both European and Native, perform their duties.

DISCIPLINE.

43. The revenue of the Courts from all sources amounted to \$60,560.76, being \$5,695.95 less than last year. The number of civil cases was 3,925 and of criminal cases 9,681, both a slight increase over the numbers of last year. The civil cases were divided as follows:—Judicial Commissioner's Court, 11; Senior Magistrate's Court, 301; Magistrate's Court, 3,213; on the criminal side:—Judicial Commissioner's Court, 17; Senior Magistrate's Court, 131; other Courts, 9,533. The Judicial Commissioner heard 11 civil appeals, of which 6 were allowed; no criminal appeals. The Senior Magistrate heard 11 criminal and 22 civil appeals, of which 4 and 15 were allowed, respectively. 326 inquests were held during the year. In August the Criminal Procedure Code, the Probate and Administration Enactment, and a New Courts Enactment came into force, the two former were much needed, the latter reduced the powers of Magistrates and threw more Criminal work on to the Senior Magistrate, it likewise necessitated appointing, as Magistrates of the First Class, all Assistant Magistrates in charge of Sub-divisions, which in the opinion of the Acting Chief Magistrate is not altogether desirable. A Civil Procedure Code which, I understand, is being drafted by the Legal Adviser, is an Enactment much required for these States. The organization of the Court Registration

COURTS.

INQUESTS.

REGISTRATION.

work was completed, by providing separate Court Registries for the Northern and Southern divisions of the State, but, I regret to say, the duties of these offices have, through paucity of officers, been carried out by the Magistrates of Taiping and Ipoh, respectively—an unsatisfactory arrangement.

PUBLIC WORKS. 44. The amount spent on Works and Buildings was \$525,557, against \$292,380 in 1899. Though a considerable amount of work was done throughout the State, no buildings of importance were constructed, the re-building of the Gopeng hospital on existing site as a permanent structure being the principal. The most important and extensive work was that in connection with the irrigation of a portion of the Krian district, this was pushed on with the utmost vigour in face of every obstacle, due to want of labour and an exceptionally wet season in a particularly unhealthy and low lying part of the country. On the 1st January, 1900, the coolie roll on this work numbered 184, on the last day of the year it had risen to 1,320. An effort was made to recruit a special class of Indian labourer from the Madras Presidency, but unsuccessfully. Here, as elsewhere, the labour question is a matter of serious importance, but the outlook is more hopeful with reorganization of the depôts at Negapatam. This important work is divided into two sections; the first section, extending from the Spill Wear to the Syphon at Padang Lalang, a distance of 4 miles, is the heavier and more expensive. It consists of a Spill Wear, 1,700 ft. $\times$ 80 ft., construction of which was made the more difficult from the country being incessantly under water, the Canal bank runs through dense forest, the clearing and stumping of which is a work of considerable labour. Much of this has been overcome and a light railway to facilitate the work has been constructed on one of the banks. The second section extends from the Kurau river at Padang Lalang, beyond Bagan Serai, for six miles, the heavy work on this section has been overcome; much of the materials for this work has to be brought from considerable distances, adding to both labour and cost. Extensive buildings, with hospitals for the accommodation of the coolies, have been constructed and the greatest care taken for the welfare of the employees. The total sum expended on this work was \$169,560, and \$50,000 has to be added for pipes and rolling stock. The greatest credit is due to Mr. Anderson, the Engineer in charge, and those under him for the progress made under exceptionally unfavourable circumstances.

**ROADS AND
BRIDGES.**

45. The expenditure on Roads and Bridges amounted to \$676,729. During the year 17 miles of metalled cart-road and 36 miles of bridle-path were completed. The road mileage in the State at the end of the year was 1,234½ miles, of which 482 was metalled and 104 unmetalled cart-roads, 511½ miles of bridle-roads and 137 miles of other paths. \$77,233 was expended on building one large and seven small permanent bridges, and the State Engineer hopes by the introduction of the "Monié" system of construction where applicable, to reduce the cost and increase the durability of many of the bridges. The upkeep of the Main roads is now carried out Departmentally throughout the State satisfactorily.

**SANITARY
BOARDS.**

46. The total revenue collected by the Sanitary Boards amounted to \$181,650. It is impossible to over-estimate the excellent work done by these Boards; with the exception of construction and maintenance of roads and drains within town limits they carry out the duties of a Municipality; many of the officers are unofficals giving their services gratuitously, many of the officials giving their spare time in superintending the improvements and beautifying towns and villages. To these gentlemen the Government are much indebted. The sanitation of all towns is in a very satisfactory state. The important question of disposal of night-soil has been successfully solved by means of incinerators, which likewise dispose of all town refuse. No definite steps have been taken towards

**SANITATION.
INCINERATORS.**

improving the lighting of the principal towns, though schemes are under discussion; a ready market is open to the manufacturers of Acetylene gas and which should encourage the promoters of the scheme who have sought a concession for its manufacture.

47. The total Railways revenue amounted to \$1,017,618, inclusive of \$86,740 earned by the Province Wellesley line, an increase of \$271,000 over 1899, and \$76,118 over the estimated revenue. The expenditure amounted to \$514,108, or 50 per cent of the total receipts; it exceeded the expenditure of 1899 by \$135,013. The profit on working amounted to \$503,510, an increase of \$131,164 compared with 1899. **RAILWAYS.**

48. The total length of open line in Perak and Province Wellesley, at the end of 1900, was 137 miles, against 117½ at the end of 1899; 19½ miles having been opened during the year. Total revenue collected amounted to \$807,842, an increase of \$161,024 over 1899, and \$136,348 over the Estimates. The increase on coaching traffic was \$84,651; on goods traffic \$79,471. 793,794 passengers were carried, 100,976 more than in 1899. The increase in goods traffic was principally in tin, tin-ore, rice and kerosine oil. Working expenses amounted to \$335,729, or \$42,091 more than in 1899, due to greater lengths of line open and increase in traffic. The train mileage was 233,577, against 222,603. The nett profit on working was equivalent to 9.33 per cent against 8½ per cent in 1899. The working expenses to gross receipts was 41½ per cent against 45½ per cent in 1899. **OPEN LINES.**

Port Weld to Pondok Tanjong, and Bagan Serai to Parit Puntar, 29½ miles; total revenue amounted to \$123,030, an increase of \$41,448 compared with 1899, and \$3,030 over the estimated revenue. The Larut lines (20½ miles) claims \$102,265 of the revenue, the Krian line (9 miles) \$20,764; increase principally due to coaching traffic. Working expenses and maintenance amounted to \$95,341, an increase of \$34,565, or 77.44 per cent of gross revenue. On this subject the Resident Engineer for Railways writes:—"The increase in working expenses is accounted for by the fact that the Krian line was worked for the whole year as compared with two months only in 1899, and the section from Ulu Sa'petang to Pondok Tanjong was also worked for the whole year as compared with four months in 1899, the train mileage having increased from 45,345 in 1899 to 70,839 in 1900. The percentage of working expenses to receipts of the lines will remain high until through traffic is established with Penang, and traffic now carried by the local Steamers is brought on to the railway." The capital cost of these sections cannot be determined separately, portions being still under construction. The nett profit earned was \$27,688. **Larut and Krian.**

Prai to Nibong Tebal and Krian River to Parit Buntar, 23 miles; total revenue \$86,740, an increase of \$63,703 over 1899, but \$63,259 less than the estimated revenue. Increase due to opening of the section between Bukit Mertajam and Nibong Tebal, 14 miles, and almost entirely from coaching traffic; 375,684 passengers were carried, 270,980 more than in 1899. Working expenses and maintenance amounted to \$83,037, or 95.73 per cent of the gross receipts. In 1899 they amounted to \$24,681, increase due to greater length of line opened for traffic. The total train mileage was 44,913, or 30,937 more than in 1899. The capital cost of the line cannot be given, works not yet complete. The nett profit earned was \$3,703. **Province Wellesley.**

49. On 1st September the line from Bukit Mertajam to Nibong Tebal (14 miles) was opened, and for the first time passengers were booked through from Perak to the British Settlement of Penang. Unfortunately, owing to the delay in supplying the iron work for the Krian river bridge, a double span of 100 feet each, a ferry service had to be arranged for the convenience of passengers. **GENERAL.**

On the 1st November, Tanjong Malim Station was opened for traffic, thus connecting the Selangor system with the Perak border station.

Working.

The working of the open lines was satisfactorily carried on. The permanent way is in a highly creditable state, and the rolling stock has been well maintained and cared for.

**RAILWAY SERVANTS
BENEFIT FUND.**

50. The amount standing to the credit of this fund on the 31st December, 1900, was \$1,593. Two gratuities were given from it, one to the widow of a Tamil Employee, another to a Native Platelayer who received a permanent injury to his leg.

**SUPERANNUATION
FUND.**

51. The Railway Superannuation Fund is in a prosperous condition. There were 261 members on the roll at the end of the year the assets amounted to \$45,330, \$32,428 of which was invested in Singapore Municipal Bonds.

STAFF.

52. The revenue having risen from \$751,441 to \$1,017,618, and the expenditure from \$379,094 to \$514,108, the staff, which has received no proportionate augmentation, has had to cope with a considerable increase of work. Owing to this and the longer hours Railway officials have to work compared with those in other Departments, loss of usual Government holidays and even Sundays, entitled to no pension except that to which they themselves subscribe, I fear the Railway Department is not as popular as I should wish to see it. During 1900 there were 38 resignations and six of the staff sought and obtained work in other Departments of the Government Service.

SURVEYS.

53. The survey was completed by the final staking out of the line through the Kurau and Merah swamps in the Krian District.

CONSTRUCTION.

54. During the year 28 miles of permanent way was laid, and the total quantity of earthwork amounted to 1,069,277 cubic yards; 7 bridges of 40 feet span and over, 52 bridges and culverts of under 40 feet were completed; 5 of the former, and 42 of the latter were in course of construction; 3 passenger stations, 7 sets of staff quarters, 5 sets of coolie lines, and 22 miles of telegraph (single line) were completed, besides other minor works, such as approach roads, fencing, etc. In August No. 3 Tunnel was completed and lines laid through, much progress was made with No. 2 in the centre of the Pass, and the work on No. 1 is now satisfactory. The Victoria Bridge over the Perak river was completed and opened by the Resident-General, Sir Frank Swettenham, in March. It is a Lattice Girder Bridge, 1,158 feet, over all, including abutments, of seven spans of 150 feet each, it is 41 feet above the bed of the river and 8 feet above the highest known flood level; it took 28 months to build. Its construction was considerably delayed owing to the contractors at home failing to deliver the superstructure by April, 1898, the contract time, the deliveries actually extended from November, 1898 to January, 1900. The erection and rivetting each span in position occupied about one month. The sixth span was completed in 19 days from arrival of materials at site, there are 864 tons of steel in the superstructure. It cost \$454,320. It is by far the greatest work of its kind in the Malay Peninsula and reflects much credit on all concerned.

Tunnelling.

Victoria Bridge.

EXPENDITURE.

55. One million nine hundred and nine thousand eight hundred and seventy-seven dollars, of which \$284,309 was on account of material purchased in England, was expended. In March authority was given to increase the monthly expenditure from \$84,000 to \$130,000. Construction work was interfered with by sickness among the staff, necessitating frequent changes; rinderpest checked the transport of material, with all this the progress was satisfactory and the construction staff are deserving of praise for their efforts under, at times, trying circumstances.

56. The health of the State during 1900 may be considered as good, though many more cases were treated in the hospitals than in 1899, and that cholera and small-pox shewed themselves in isolated districts of the State.

HEALTH.

The following comparative return gives results of all hospital treatment during the last two years :—

		Treated.		Deaths.		Death-rate.
1899	...	22,276	...	2,282	...	10·2 per cent.
1900	...	31,579	...	4,368	...	13·8 „

The daily average of sick in hospitals throughout the State were :—
1899—1,176 or 87 per cent; 1900—1,495 or 87 per cent; an increase of 319 or 48 per cent.

The increase in the death-rate is due to the mortality among the Indians; in many cases their emaciated condition on arrival being suggestive of their having left the Famine districts of India. It is also due to the now incessant inspection of the various mining and agricultural coolie lines, which resulted in serious cases being sent to hospital, which might otherwise have died outside. Of the 4,368 deaths, 1,088 or 25 per cent occurred within 48 hours of their admission, if these cases were excluded and, it is reasonable to suppose, that with earlier treatment some might have recovered, the death-rate is reduced to 10·3 per cent. On the last day of 1900 there were 1,463 patients under treatment in the 11 different hospitals of the State.

57. The prevailing diseases were beri-beri, malarial fevers, dysentery and diarrhoea. The number of cases of beri-beri treated in the hospitals was 6,737, and 25,552 received out-door attention, the death-rate of the former was 14·75 per cent; in 1899, the number of cases was 3,113, with a death-rate of 10·6 per cent. The Acting State Surgeon writes as follows :—

DISEASES. BERI-BERI.

“Attention is being paid to the fact that arsenic may be the cause of the neuritis in beri-beri. Dr. Connolly, District Surgeon, Batu Gajah, writes in his annual report “up to the present, however, a chemical analysis, of a not profound character it is true, has failed to find arsenic in beri-beri patients.” In support of the arsenic theory, “I would point out that 95 per cent of beri-beri cases treated are Chinese, and quite 90 per cent are miners by occupation; when we know that arsenic in combination with other metals is common in the soil, where these Chinese have to stand for hours while searching for tin, we may regard the possibility of arsenic as a cause for beri-beri as being something more than problematic.”

58. The number of cases from malarial fevers treated in the hospitals was as follows :—

MALARIAL FEVERS.

Intermittent 6,329. Death-rate, 2·63 per cent.

Remittent 596 „ 36·58 „

The number of these cases treated in the out-door and travelling dispensaries amounted to 26,469. On these diseases the Acting State Surgeon writes as follows :—

“The malarial fever in this part of the world, although very prevalent, is not of a serious type, and responds to quinine readily, it is mostly of the quotidian type. The search for the pigmented parasite has proved somewhat disappointing. On the other hand the *anopheles* mosquito has been found all over the State, their larvæ are not

MALARIA MOSQUITO.

CITRONELLE OIL.

"limited to small puddles, they are seen as well in large tracks of water, such as lakes and swampy land like paddy fields. Mosquitoes bite most at about sun-set, but their attentions are also very evident during the day-time. It has taken the lay public some little effort to accept the fact that malarial fever is induced by the bite of mosquitoes, had it been some rare insect with some unpronounceable name, the statement would probably have been received much more readily. Speaking generally, not much advantage has been taken of our knowledge as to the cause of malarial fever, there still remains one form of malarial fever to be accounted for, usually of a very severe type. I refer to what natives or Europeans contract when working on or near certain kinds of soil, such as decomposing granite. The statement that as soil is turned over, small puddles are made, and it is here where *anopheles* breed, cannot be accepted, because first of all no puddles are made, and search for the larvæ of *anopheles* has so far been fruitless. The total extinction of mosquitoes is a physical impossibility in these States, where there is such an abundance of pools and puddles from our large rainfall, so that the prevention of malaria on this count is hopeless, but much can be done to reduce the number of breeding places of *anopheles* and also to avoid being bitten by these pests. I consider that those officers who have to live in mosquito infected districts should be provided with verandahs or rooms rendered mosquito proof by covering windows and doors with wire gauze. The objection to this is that it renders the air within stuffy and hot. In citronelle oil we have a cheap commodity at hand, which will keep the mosquitoes in check, it is an oil made locally from the lemon grass, it has been found efficacious in that its effects are more lasting than either kerosine oil or chloroform and not quite so unpleasant. Here, as elsewhere, the children are the greatest victims to malaria. On an estate that is at all malarious, the spleen of nearly every child, especially Tamils, will be found to be very big. In Malay kampongs that are at all feverish, the same condition will be found only not quite so marked. It is recognized that the most efficacious way to reduce the prevalence of malarial fever is by exterminating the malarial germ within the human body through the free use of quinine as well as by destroying the mosquitoes and their larvæ. The two preventatives should go on side by side. In England to-day there are as many *anopheles* mosquitoes as there were years ago when malaria was very rife, and it is considered that by killing the parasite by the use of quinine and by drainage of the soil, the gnat could not obtain fresh organisms, and fever has consequently become almost extinct. No endeavour has yet been made to treat malaria fever as a contagious disease. Provision will I trust be made in next year's budget for making one ward at least in the various Government hospitals mosquito proof."

59. Five thousand one hundred and forty-nine cases were admitted for diarrhoea and dysentery into the various hospitals. The primary cause of this disease is undoubtedly due to the locality at which many coolies are employed, in isolated places, such as the head works of the railway, the irrigation works and the opening of new estates where the water supply is generally bad; the most strenuous efforts are being taken to remedy this as much as possible and the powers given by the Labour Code and the Indian Immigration Enactment for the supply of good drinking water are enforced. On this subject the Acting State Surgeon writes "the toll of death among pioneers of a tropical country is always a heavy one, and the mortality among these coolies cannot be considered to be an exception to this rule."

60. Venereal diseases continue to increase. It is only possible to admit the more serious cases in the hospitals; 2,104 cases were treated in the

hospitals and 6,375 as out-patients. These figures nothing like represent the real extent of these diseases, for which the Acting State Surgeon says legislation is urgently needed to keep them in check.

61. Cholera broke out in July on the Gula Estate, Krian, and but for the vigorous action of the District Surgeon, Dr. Haviland, might have assumed serious proportions, there were 140 cases and 111 deaths, death-rate 79·28 per cent. Suspicious cases 19, deaths 5, death-rate 22·32 per cent. Another outbreak occurred in the Rubana Estate, Lower Perak District, where there were 20 cases with 7 deaths. In both instances the disease was introduced by coolies from India.

CHOLERA.

62. Small-pox appeared in two mukims on the Perak river, the total cases amounted to 79, of which 21 proved fatal. The District Surgeon reports:—"There was no difficulty in exercising supervision over the "infected area and of controlling the epidemic."

SMALL-POX.

63. The number of persons vaccinated was 4,340, the result being perfect in 39 per cent and fair in 4½ per cent, while 13 per cent failed. The remaining cases were not seen again. On this subject the Acting State Surgeon writes as follows:—"The record for 1900 is not such a "good one as for the previous year, but most of the cases vaccinated lived "far away from the beaten track and it took days for the vaccinators to "reach them, and although the actual numbers operated on are less, they "really represent work as hard as for the previous year." No charge is made for vaccination, and no difficulty is now experienced in inducing all classes of Asiatics to avail themselves of this precaution against so dreaded a disease.

VACCINATION.

64. The following details refer to special wards and asylums:—

SPECIAL WARDS.

Lunatic Asylum.—In this asylum 156 cases were treated, against 157 in 1899; 44 or 28·2 per cent were discharged as cured or relieved. There were 31 deaths or 19·87 per cent, against 28·66 per cent of deaths in 1899. Of the 156 cases treated, 82 are under the head of mania, 42 of melancholia. The daily average of lunatics for the year was 76·51 per cent.

Out-door and Travelling Dispensaries.—The following table gives the number of patients who have availed themselves of this form of treatment during the last three years. They have established their popularity and utility:—

				Out-door.	Travelling Dispensaries.
1898	...	...	...	45,293	41,130
1899	...	...	...	40,593	38,696
1900	...	...	...	51,644	62,820

Leper Wards.—Ninety-one patients were treated in the leper asylum at Pulau Jerajak, and there were 19 deaths, or a death-rate of 26·37 per cent. In the Leper Ward at Taiping 114 patients were treated, with 35 deaths, giving a death-rate of 30·70 per cent. In 1899, 52 patients were treated in the asylum at Pulau Jerajak, with 19 deaths; in the Leper Ward at Taiping in 1899, 232 patients were treated, with 49 deaths. The Acting State Surgeon informs me there is nothing to show that leprosy is on the increase. A special Asylum for Malays is under consideration on one of the islands near Pangkor.

Decrepit Ward.—In the Decrepit Ward 62 patients were treated, of whom 23 died; in 1899 the figures were 85 and 16, respectively.

Gaol Infirmaries.—The following comparative return gives the results of treatment in these Infirmaries during the last two years:—

—		Total treated.	Total Deaths.	DAILY AVERAGE.		Percentage of Deaths.
				Sick in Hospital.	Prisoners in Gaol.	
Central Prison, Taiping	{ 1899	499	4	20·67	351·28	·89
	{ 1900	594	1	21·41	327·50	·16
Batu Gajah Gaol	{ 1899	672	12	28·47	209·20	1·78
	{ 1900	659	36	26·38	224·14	5·46

GAOL HOSPITALS.

65. The health in the Taiping gaol is remarkably good; ten years ago the death-rate in the Gaol Hospital was 8·14. The Acting State Surgeon writes, "In my opinion the two chief factors that have brought about this satisfactory state of things are (1) separate cells for each prisoner and (2) a constantly good water supply." The Acting State Surgeon gives three reasons for what he considers the high death-rate in the Batu Gajah gaol hospital. They are (1) want of a good water supply, (2) the admission of diseased vagrants and (3) the want of separate cells for each prisoner. The Public Works Department has No. 1 under consideration; No. 3 has been provided for, and I will refer to No. 2 later on in this report.

VETERINARY.

66. The year 1900 was a trying one for the Veterinary Department. Rinderpest broke out amongst the cattle in four districts of the State, killing 335; foot and mouth disease appeared in Batu Kurau, glanders and influenza visited the horses; rabies in a doubtful form the dogs in Larut; swine fever the pigs at Passir Itam, which killed 203. At the end of the year, however, swine fever was the only contagious animal disease that existed in the State.

RINDERPEST.

Mr. Moir, the Veterinary Surgeon, writes:—"That the rinderpest in the Malay Peninsula is not of so severe a type as the rinderpest that invaded Great Britain in 1865 and 1872, or that which swept the African Continent three years ago. It is neither so infectious nor so rapidly fatal. Rinderpest, with ordinary precautions, is not so difficult to deal with. In the outbreak at Padang Rengas only 25 animals died, in Krian six and in Larut 98; these numbers are very small when we consider the density of the cattle population, and I have seen cattle here exposed to infection, which in England from descriptions would have meant certain death, remain altogether clear of the disease."

INOCULATION.

The Veterinary Surgeon is of opinion that inoculation of cattle within the quarantine boundaries of an infected area would succeed towards stamping out the disease. His attention has been drawn to the report of Dr. Leonard Rogers, Imperial Bacteriologist in India, on the methods of inoculation, and is of opinion that the "Reinoculation" method the more suitable for this State. It is proposed to obtain from India a supply of serum, if the Government of India will be good enough to assist us, and thus elaborate a work which for usefulness it would be impossible to over estimate.

Owing to the constant outbreaks of contagious disease among the cattle, it was impossible for the Veterinary Surgeon to visit the infected districts as frequently as necessary, to ensure proper sanitary conditions of the cattle-sheds. It is manifestly necessary that this department should be strengthened by the appointment of an assistant.

67. There are 111 District Hospitals in the State, the administration of which reflects the greatest credit on the State Surgeon and the seven District Surgeons. During the greater part of the year the department has been under the charge of Dr. Fox; the total expenditure of which in 1900 amounted to \$231,400.

68. The highest temperature recorded in the State was 95° F., in July and August, and the lowest 70° F., the mean annual temperature was 79.5° F. All these records are 1° higher than in 1899. The difference of highest and lowest mean temperature in the shade varies from 19.21 F. for Gopeng to 14.01 F. for Selama. The highest rainfall for the year was recorded in the Taiping district, viz., 167.12 inches; the lowest, 76.46 in the Kuala Kangsar district.

69. Five new schools were opened during the year, making a total of 119 throughout the State, of which 111 are purely Government institutions, while the others were assisted by grants-in-aid, divided as follows: 11 English schools; 103 Malay schools; 5 Anglo-Tamil schools: of these, 14 are for girls, 3 being English, 10 Malay and 1 Tamil; there are eight schools assisted by Grants-in-aid, four supported by the Methodist Episcopal Mission and four by the Roman Catholic Mission, of these four are for boys and four are for girls. The only Government English school of importance is the Central School, Taiping. I find that the British Resident was unable to report favourably on this school for 1899, but I am glad to see that under the new régime very satisfactory progress has been made, with the result that 90 per cent of passes were obtained in the recent Annual Examination. The Grant-in-aid Schools for girls and boys are in a highly efficient state, in almost all cases over 90 per cent of passes being obtained. I am especially pleased with the condition of the English Girls School in Taiping. As usual, the Acting Federal Inspector is unable to report favourably on the English schools under native masters; a notable exception being the Teluk Anson English School under the Methodist Episcopal Mission. Three boys from Ipoh competed for the Cambridge local examination, the result of which is not yet known, a special local centre being appointed for the first time. The average enrolment at the 119 schools amounted to 4,599, with an average attendance of 3,334, or 73 per cent, being 81 per cent in the English schools and 70 per cent in the Malay schools, as against 85 per cent and 69 per cent, respectively, last year; 1,838 scholars were presented at the Annual Examination. In the English schools 93 per cent of passes were obtained against 87 per cent of last year; in the Malay schools 92 per cent against 85 per cent last year, a satisfactory record. 297 teachers were employed in the State.

The Malay Training College, which was opened in June, 1898, for Training Malay Teachers, at which five Perak boys were being taught, was closed at the end of the year. The Inspector reports that the institution was a marked success and the work done by the students satisfactory. The boys have all received appointments as Assistant Masters. Arrangements are being made to send some Perak boys to the Malacca Training College, which has taken the place of our own institution.

The examinations were held for the first time under the new Education Code. Attention has been paid to Technical Education and almost all the girls schools have weaving looms.

The cost to Government, per pupil in average attendance, is \$ 24.66; per pupil in average enrolment is \$18.9; but if the cost be reckoned on the total number of pupils who receive instruction during the year (for many leave annually) the amount would be \$16.90. The total grant-in-aid amounted to \$4,556.

TEMPERATURE AND RAINFALL.

Grants-in-aid.

Government English school.

CAMBRIDGE LOCAL EXAMINATION.

ATTENDANCE.

MALAY TRAINING COLLEGE.

NEW EDUCATION CODE.

EXPENDITURE.

Cost per Pupil.

The revenue for the year was \$2,086, expenditure \$85,315, or $1\frac{1}{2}$ per cent of the revenue of Perak for 1900, giving a nett expenditure of \$83,229.

POST AND TELEGRAPHS.

MAILS.

REGISTRATION.

PARCELS.

MAIL SERVICES.

MONEY ORDERS.

70. The revenue collected by the Post and Telegraph Department amounted to \$89,857, against \$70,345 in 1899, or more than four times that of 1890. The value of Service telegrams during the year is estimated at \$16,850, against \$13,600 in 1899, and the value of Free Service correspondence posted by other Government Departments was \$15,628, against \$8,000 in 1899. It is of interest to note that "Fees on Telegrams" and "Sale of Stamps" in 1890 amounted to \$18,156, while in 1900 the amount realised was \$79,318. The total number of mails received and despatched amounted to 57,911 and 48,274, respectively, against 39,013 under both headings in 1899. They carried postal articles to the number of 4,600,904, against 4,004,586; there were 56,660 articles registered at all offices and 51,718 were delivered; 4,050 parcels were posted, 4,706 delivered, and 3,890 dealt with in transit. As regards "Registration" there is a decrease of some 6,000 compared with 1899, but a slight increase under parcels. The Mail services worked satisfactorily throughout the year.

The following table will give some idea of the progress the Department is making in connection with the "Money Order" Department:—

—				1884.	1890.	1900.
Issues on India	...	...	Rupees	40,755	140,002	427,720 07
			Dollars	...	63,579	287,894
Do. Ceylon	...	...	Rupees	9,030	37,039	68,023 25
			Dollars	...	16,686	45,869
Do. the Straits			"	9,718	24,072	61,682
Do. the Native States			"	...	Nil	5,522
Do. China, etc.			"	...	Nil	23,602
Local Issues (on Perak)			"	805	11,505	157,148
TOTAL DOLLARS ...				...	115,842	581,717

In addition to the above, British Postal Orders to the value of \$8,645 were issued to the public, against \$8,815 in 1899. Money Orders to the number of 5,925, and the value of \$180,617, were paid; in 1899 the figures were 5,859 and \$174,271, respectively. Straits Postal Notes to the value of \$899 were cashed, against \$672 in 1899.

TELEGRAMS.

TELEPHONES.

71. The telegrams forwarded and received amounted to 800,324, against 573,938 in 1899 and 94,052 in 1890. These figures, however, represent the actual amount of work done at all offices, and include counting the same telegram twice or three times as re-transmission necessitates. The actual number of telegrams received, including Service telegrams, was 109,152, number delivered 142,852, against 110,254 and 147,020 for 1899, respectively. The great difference in the number of telegrams dealt with in the office and those received is due to interruptions referred to in paragraph 72. The average time that telegrams took to reach their destination was 41 minutes; the average delay to any single telegram at any office was seven minutes. The climatic conditions during the year were unfavourable to the telegraph service. The system of telephones was still principally under the control of the Police Department, but arrangements have been completed for the establishment of telephone exchanges in Larut and Kinta; 84 miles of new lines were added, making a total of 680 miles of wire and $365\frac{1}{2}$ miles of poles in the State, exclusive of Railway telegraph lines.

72. On the subject of telegraph communications, the Superintendent of Posts and Telegraphs writes as follows:—"Telegraph communication during the year has been greatly affected by the weather, which has been the worst I have known for the past seven years. Not only has the weather been continuously bad, thunderstorms following one another almost daily for months together, and frequently more than one in a day, throughout Perak; but the Colony have been equally unfortunate with their cables between Penang and Province Wellesley which have been interrupted time after time, resulting in very heavy delay and consequent loss of revenue, both for the Colony and the State, as the telegraphing public between Penang and Perak seems to be very largely on the increase. It would certainly seem desirable that something should be done to lessen the number of interruptions of the cables. Even as I write I understand there is but one cable working, and that is quite inadequate to carry with expedition the whole of the work between Penang on the one side and Province Wellesley, the Federated States, and now also Siam on the other, some protection, similar to what I understand is given to the cables between Hongkong and Kowloon, would appear to be what is required."

**TELEGRAPHIC
INTERRUPTIONS.**

73. No further advance is to be reported on the very satisfactory progress recorded for the first eight months working of the Bank, as a Branch of the Post Office, which terminated at the end of 1899. The amount due to depositors on the last day of 1900 is \$3,434.53 in excess of what it was at the end of 1899; due, however, to the addition of the interest for the year. 389 new accounts were opened in 1900, against 284 in 1899; 955 accounts remained open, against 965 in 1899. The amount of deposits in 1900 amounted to \$86,879.99, the amount of withdrawals was \$86,890.95, whereas the withdrawals in 1899 amounted to only \$44,638.51. The nett profit made by the Bank in 1900 amounted to \$456, in 1899 to \$375. The Superintendent of Posts and Telegraphs accounts for the reason of the heavy withdrawals, resulting in an actual decrease in the amount due to depositors, to the fact that a large number of depositors are from India and use the Bank as a safe depository for their money. The \$456 does not represent alone the whole of the profit made during 1900, as a sum nearly as large was paid out of profits as premium on purchase of \$14,115 worth of 1895 Singapore Municipal Bonds, bearing interest at 5 per cent. The Superintendent of the Post and Telegraphs deserves the same mete of praise as he received from the Resident for work done in 1899 in this branch of his Department, and I desire to add that much credit is due to the Superintendent for the indefatigable manner in which he carried out the working of his extensive Department in the face of difficulties due to the sickness amongst his short-handed Staff.

SAVINGS BANK.

74. It would be more satisfactory to quote the figures of the recent Census, taken on the 1st of March, 1901, to the less trustworthy figures compiled at the end of the year. From these returns the population of Perak amounts to 328,801, at the end of 1899 it was 295,000, but these latter figures can only be accepted as approximate. 5,149 births and 14,000 deaths were registered, against 4,886 and 8,756, respectively, in 1899.

POPULATION.

**BIRTHS AND
DEATHS.**

75. The following table gives departures and arrivals of various nationalities during 1900:—

**IMMIGRATION AND
EMIGRATION.**

	Immigrants.		Emigrants.	
Europeans ...	...	1,796	...	1,563
Malays ...	...	10,050	...	9,706
Chinese ...	...	68,672	...	42,310
Indian ...	...	14,210	...	9,325

Indian.

76. There was a considerable increase in the immigration from India, as the following table will show :—

		1899.	1900.
Statute Immigrants		2,268	4,289
Free Coolies		1,031	1,610
		—	—
Total		3,299	5,899
		—	—

In 1897 and 1898 the numbers for Statute Immigrants were 359 and 946, respectively. Satisfactory as this return is, it would have been more so had not cholera broken out in the dépôt at Negapatam at the end of the first quarter, which checked immigration until the following July. The Indian Immigration Agent does not report favourably on the physique of the coolies that arrived at the early part of the year, attributing it to pressure on the Medical dépôt at port of embarkation, where the Medical examination was relaxed, and many coolies arrived who were totally unfit for manual labour. Many too were no doubt victims to the famine that visited Southern India and arrived in an emaciated condition. This has caused the death-rate amongst the immigrants to have risen considerably compared with 1899. Very marked improvement is to be observed in the arrivals during the latter part of the year, due to stricter Medical examination at the dépôt at Negapatam.

FREE COOLIES.

77. It is not possible at present to give a final opinion on the policy of the Indian Government in freeing recruiting from the former restrictions and of the policy of the Federated Malay States in offering reduced passages to free labourers, but, I think, that the result of immigration during the latter months of the year has given rise to the hope that it will be a great success. There is little doubt that the Medical examination should be insisted on; a great deal of trouble has been taken by the Medical Department and officers concerned in inducing employers of labour to provide the coolie on first arrival with the necessary comforts to enable him to acclimatize the quicker, and there seems very little alteration necessary in the legal machinery to ensure the Indian Immigrant a prosperous and successful field for his labour.

78. At the end of the year there were 2,740 Statute Immigrants in the State, distributed as follows :—Estates, 2,334; Public Works Department 279; Perak State Railways, 127; of the 1,610 Free coolies brought into the State by aided passage tickets, 757 were for Estates, 516 for Railways, and 337 for Public Works Department.

**CHINESE PRO-
TECTORATE.****SINKEHS.**

79. The report of the Protector of Chinese shews a good record of work during the year. 3,271 Sinkeh contracts were registered, against 2,076 in 1899 and 1,061 in 1898, by far the greater number being for agricultural work. The total number of arrivals of Chinese, exclusive of children, amounted to 69,073 (62,341 males, 6,732 females), against 55,749 in 1899 and 31,898 in 1898. The number of departures 40,992 (35,805 males, 5,187 females), against 32,144 in 1899 and 30,418 in 1898. The direct immigration scheme, by which it was hoped that Sinkehs would be brought down direct from China in subsidised steamers failed, in the opinion of the Protector of Chinese, for the following reasons :—

- (a). Out-break of bubonic plague in China, and consequent quarantine.
- (b). The war in China.
- (c). Difficulty in chartering suitable steamers.

(d). Restrictions put on direct emigration to the Federated Malay States by the authorities in Southern China.

The immigration depôt that had been organized at Teluk Anson was consequently never used, and those coolies who did arrive preferred the licensed Lodging Houses for the short period of rest to the more comfortable and well appointed Government Depôt.

80. Sixty-six women and children were admitted into the Government Home, of whom nine were transferred to the Federal Home at Kuala Lumpur; during the year, 30 women were received from brothels. The Protector again reports that insufficient powers for the protection of women and girls are provided by the Order of Council of 1895.

HOME.

81. Secret Societies gave no trouble during the year, though the Protector of Chinese says periodical attempts are still made, and will always continue to be made, to start small unlawful organisations. Evidence to ensure prosecution or banishment is difficult to obtain. Incessant vigilance on the part of the Protector and the Police are now sufficient guarantee against any such unlawful organisation. Under the Banishment Enactment, eleven habitual Chinese criminals were banished from the State.

SECRET SOCIETIES.

82. The Protector reports satisfactorily on the condition of the sugar estates in Krian. The Protector writes, "I consider the coolies are well looked after, well fed and housed." No cases of ill-treatment were brought to light during the year. 126 cases were enquired into and settled in the Protector's Court during the year, but there were comparatively few disputes owing to the general prosperity of the State.

KRIAN SUGAR
ESTATES.

83. Several important additions were made to the different branches of the Museum. In the Zoological section was a young *Kambing grun*, which was captured alive on the Larut Hills, at an elevation of 4,000 feet, 34 mammals, birds and reptiles were stuffed and set up by the Taxidermist in a most skilful manner. Several mammals and many reptiles sent home for identification have been named by Dr. Boulenger of the British Museum. Amongst them, the skin of a monkey, which was identified as *Semnopithecus maurus*. The Curator reports that a young specimen of this species was recorded by Cantor some 50 years ago, but it does not appear to have been collected since his time in the Malay Peninsula. Thanks to Dr. G. A. Boulenger all doubtful reptiles in the collection have now been identified. 179 sheets of mounted Herbarium specimens were received from the Royal Botanical Gardens, Calcutta, but it will be many years before the whole of the Herbarium is identified. 160 specimens were added to the Petrological collection, amongst the many additions to the local Mineral collection was a sample of gold in marble, native bismuth and some fine specimens of blue and green carbonate of copper. Many accessions to this section were made and the new block in course of construction will be devoted to this important division of the collection. On this section the Curator, Mr. Wray, writes as follows:—

MUSEUM.
ZOOLOGY.

BOTANY.

GEOLOGY.

MINERAL.

ETHNOLOGY.

"The ever increasing difficulty experienced in obtaining articles of Malayan manufacture and the rapid way in which many of their habits appear to be changing with the introduction of foreign merchandise, customs and modes of thought indicates the importance of endeavouring to procure and preserve, while there is yet time, examples of the fast disappearing manufactures and appliances indicative of a phase of civilisation which it is evident is so shortly to be a thing of the past. A great deal has been done in this direction, but there still remains much to be accomplished."

84. Considerable progress was made with this collection, many interesting platinotype prints having been made and mounted.

COLLECTION OF
PHOTOGRAPHS.

**LIBRARY.
VISITORS.
BORING.**

85. The additions to the library during the year were numerous. 51,047 people visited the Museum, against 37,864 in 1899, which was open on 292 days. The maximum number of visitors on one day was 1,158. The Curator, who is also State Geologist, at the request of the Public Works Department, bored for a water supply at Batu Gajah, which proved highly successful. Boring for tin was begun at Kamunting, results not recorded.

SPACE.

86. Though a large double storied block has been added to the building it will not be sufficient to contain the valuable collection which the Curator has already succeeded in forming, and which he is rapidly adding to, and which is a great credit to the Curator and the State.

PRINTING.

87. The work done during the year was, as usual, most satisfactory; it exceeded that in any previous year to a considerable extent. The output of Form work of various descriptions amounted to 3,603,309 copies; 3,388 books of different sizes were bound. In addition to the ordinary routine work of printing Enactments, *Gazettes*, etc., "The Criminal Procedure Code" was printed and distributed from this office to all the Federated States. The cost of the Establishment for the year was \$36,754, against \$33,159 in 1899, exclusive of compensation allowance. Increase was due to a supplementary vote of \$4,000 for paper. The value of work done was \$47,481, against \$29,448 in 1899; in the latter period, however, the machinery was not available for three months, and the building was under alterations.

**GENERAL.
PERAK-REMAN
BOUNDARY.**

88. In July, 1900, the Commissioners appointed by H. M. the King of Siam and the Perak Government for the limitation of the boundary between Perak and Reman completed their labours. The new territory comprises an area approximately of 720 square miles. It is at present but sparsely populated the recent Census returning 1,598 males and 1,237 females. There are indications of mineral wealth. Since the work of the Commissioners was completed the territory has been under the charge of the Sri Adika Raja; it has been divided into two mukims, Penghulus have been appointed; bridle-paths and temporary public buildings constructed, the slaves freed, and apparently much contentment exists under the new régime.

**NATIVE ADMINIS-
TRATION.**

PENGHULUS.

89. The excellent example set by His Highness the Sultan in matters affecting the interest and development of the State has borne excellent results. Several native chiefs who have been entrusted with magisterial powers have shewn much intelligent interest in their work, and I have received applications from more than one Penghulu to add to his responsibilities; His Highness the Raja Muda has, as usual, ably supported His Highness the Sultan. A word of praise is due to the Penghulus: many of them are old men accustomed to the old régime of the Malay rajas; but the energy and interest these officers display in their multifarious and responsible duties is remarkable. A Penghulu is expected to administer and explain to the Malays in his mukim such intricate laws as the Land and the Mining Enactments, the Procedure Codes and the Forest and the Timber Rules. By no class of officer is the Government better served than by the Penghulus.

**PATHOLOGICAL
INSTITUTE.**

90. The scheme for enlarging the sphere of usefulness of the Pathological Institute will, it is hoped, meet with success. It will entail the appointment of an additional Medical Officer to the staff to enable one being always attached to the Laboratory at Kuala Lumpur for three months. It is a scheme which will generally be appreciated by the Medical service of the State.

COST OF FOOD

91. With the view of meeting the ever vexed question—cost of food stuffs—the market fees were further reduced, in some cases abolished, in

accordance with the views of the Resident expressed in his Annual Report of 1899, and which were initiated by the Resident, Mr. Treacher, in 1898; every possible effort has now been made to enable the necessaries of life to be sold at the lowest possible price; so far, I regret to say, the result has not been a success, and we have to face the continued rise in price of the most ordinary necessaries of life which is out of all proportion to the salaries of officers, and which must be severely felt by the junior branch of the service. Not only is this the case with Europeans and Eurasians, but it is being felt by the Natives, who have to depend on the importation of food stuffs. It is a serious question of interior economy, and one which, while it can be solved so far as the class of Government servants is concerned by giving rates of salary commensurate with their position and their necessities, can only be met in relation to the Native population by direct encouragement in the shape of liberal land laws and extensive irrigation works to cultivate the land.

92. In addition to the extensive irrigation works in course of construction in the Krian district, works on a smaller scale are in preparation in other districts for improving and extending the cultivation of rice, particularly is this the case in the Lower Perak district, where thousands of acres of the best rice land is available as soon as the necessary assistance is provided by irrigation. The Public Works Department have expended both time and money in surveying this portion of Perak with the above object. The District Magistrates will be entrusted with greater responsibilities in connection with these schemes. In the flourishing mining district of Kinta the extensive work undertaken by the Datoh Muda Wahab, at so great an outlay, for the irrigation of rice land has done little good owing to the greater attractions attending mining. A similar work, but on a smaller scale, was undertaken and completed by another native chief, but it also suffers from being located in a rich mining district. There are, however, many places in Perak where this assistance to the native planter will, under the guidance of the District Magistrates, be of the greatest benefit. It is to be regretted that so much rice should be imported into a country which abounds in land suitable for rice cultivation. The difficulty, however, in promoting such cultivation is great in a country rich in minerals, where the natives can easily earn a living without the drudgery of cultivating the soil.

IRRIGATION.

93. Amongst the ever increasing flow of Chinese into Perak the vagrancy class is causing anxiety and demands legislation. At the present moment the Gaols have to receive them—and that means the Gaol infirmaries—for the majority received are in a diseased state, who pollute the air and poison others besides themselves. The matter is receiving careful consideration, from one quarter an establishment was suggested on the workhouse principle. The more practical solution, however, is the establishment of an infirmary under Gaol administration where the diseased vagrant would have an opportunity of recovery without contaminating others. The discipline would be less severe than a gaol, and the man would have the opportunity of learning some easy trade, such as basket work; such is the scheme which is now under consideration. Some poor creatures, several indeed are no more or less than decrepits, and should be drafted to the very excellent institution which receives such classes of the community. It will, however, necessitate considerable enlargement to meet increasing demands for such accommodation.

VAGRANCY.

94. A movement is on foot to encourage and develop some of the Malay Art Industries that are fast dying out. On this subject the Curator writes:—"In Perak, as in any other Eastern country, the contact with European civilisation has had a very serious influence on the Native art manufactures of the State, and several of them have practically ceased to exist. This decay of Malayan Art Work, some of which is very beautiful, is much to be regretted, the more so as undoubtedly

COST OF FOOD

91. With the view of meeting the ever vexed question—cost of food stuffs—the market fees were further reduced, in some cases abolished, in

accordance with the views of the Resident expressed in his Annual Report of 1899, and which were initiated by the Resident, Mr. Treacher, in 1898; every possible effort has now been made to enable the necessaries of life to be sold at the lowest possible price; so far, I regret to say, the result has not been a success, and we have to face the continued rise in price of the most ordinary necessaries of life which is out of all proportion to the salaries of officers, and which must be severely felt by the junior branch of the service. Not only is this the case with Europeans and Eurasians, but it is being felt by the Natives, who have to depend on the importation of food stuffs. It is a serious question of interior economy, and one which, while it can be solved so far as the class of Government servants is concerned by giving rates of salary commensurate with their position and their necessities, can only be met in relation to the Native population by direct encouragement in the shape of liberal land laws and extensive irrigation works to cultivate the land.

92. In addition to the extensive irrigation works in course of construction in the Krian district, works on a smaller scale are in preparation in other districts for improving and extending the cultivation of rice, particularly is this the case in the Lower Perak district, where thousands of acres of the best rice land is available as soon as the necessary assistance is provided by irrigation. The Public Works Department have expended both time and money in surveying this portion of Perak with the above object. The District Magistrates will be entrusted with greater responsibilities in connection with these schemes. In the flourishing mining district of Kinta the extensive work undertaken by the Datoh Muda Wahab, at so great an outlay, for the irrigation of rice land has done little good owing to the greater attractions attending mining. A similar work, but on a smaller scale, was undertaken and completed by another native chief, but it also suffers from being located in a rich mining district. There are, however, many places in Perak where this assistance to the native planter will, under the guidance of the District Magistrates, be of the greatest benefit. It is to be regretted that so much rice should be imported into a country which abounds in land suitable for rice cultivation. The difficulty, however, in promoting such cultivation is great in a country rich in minerals, where the natives can easily earn a living without the drudgery of cultivating the soil.

IRRIGATION.

93. Amongst the ever increasing flow of Chinese into Perak the vagrancy class is causing anxiety and demands legislation. At the present moment the Gaols have to receive them—and that means the Gaol infirmaries—for the majority received are in a diseased state, who pollute the air and poison others besides themselves. The matter is receiving careful consideration, from one quarter an establishment was suggested on the workhouse principle. The more practical solution, however, is the establishment of an infirmary under Gaol administration where the diseased vagrant would have an opportunity of recovery without contaminating others. The discipline would be less severe than a gaol, and the man would have the opportunity of learning some easy trade, such as basket work; such is the scheme which is now under consideration. Some poor creatures, several indeed are no more or less than decrepits, and should be drafted to the very excellent institution which receives such classes of the community. It will, however, necessitate considerable enlargement to meet increasing demands for such accommodation.

VAGRANCY.

94. A movement is on foot to encourage and develop some of the Malay Art Industries that are fast dying out. On this subject the Curator writes:—"In Perak, as in any other Eastern country, the contact with European civilisation has had a very serious influence on the Native art manufactures of the State, and several of them have practically ceased to exist. This decay of Malayan Art Work, some of which is very beautiful, is much to be regretted, the more so as undoubtedly

NATIVE ART
INDUSTRIES.

“it could be carried on at the present time with every prospect of a good living being made out of the work, for there is now more money amongst the Malays to spend on luxuries than there has ever been at any previous time, and also in several classes of work a good market could be found for the products in Europe.” The main features of the scheme are:—

- (a). To procure skilled workers to act as teachers.
- (b). Collect good patterns and specimens of work for guidance.
- (c). To advise as to the most marketable articles for sale outside the State and to non-natives.
- (d). To supply workers with materials needed in their crafts, of the best quality and at cheapest rates.
- (e). To help them to find markets for their produce.
- (f). To establish periodical exhibitions of their work.
- (g). To establish some kind of Art school.

The following are the industries which it is proposed to encourage or introduce, mat work, basket work, art needlework, weaving, pottery, wood carving, ivory, horn, coconut and other carving, gold and silver-smith work, brass and other metal work, blacksmith's work, stone cutting and carving in granite and marble. His Highness the Sultan and all the principal Native Chiefs have interested themselves in the movement; the Sultan presiding over an influential Committee in support of it.

EDUCATION.

95. From the returns of the last five years it is demonstrated that the scholars are fewer than they were, though the expenditure is considerably higher. It is as well that the Acting Inspector of Schools should explain this himself as follows:—

“The expenditure has increased owing to (a) the higher standard of education now required; (b) The greater number of teachers, assistants and monitors now employed; (c) The greater number of grant-in-aid schools; (d) The higher rate of salaries to English Tutors; (e) The greater number of schools to visit, increasing the travelling allowance; (f) The Training College for Malay Teachers; (g) The greater number of koran classes throughout the State.

“(a). The Educational Code now used was approved by Council in July, 1899, and came into force on 1st January, 1900. The school apparatus, books, and other necessities required by this Code are of a much higher standard than in former years. In 1896 only \$1,750 was spent on furniture and books, as against \$3,500 in 1900, with \$3,750 for technical education.

“(b). The increase in the number of schools necessitated an increase in the number of teachers. In 1896 there were 97 schools, and in 1900, 119.

“(c). The grant-in-aid schools earned \$4,630 in 1900; I can find no record of any money being earned in 1896.

“(d). It was necessary to employ a qualified Headmaster and an European Assistant for the Central School, Taiping. These men receive \$200 and \$125 per mensem, with Exchange Compensation, as against \$125 and \$100 per mensem in former years, the wages of the other Assistants have also been increased so as to be able to get better men.

“(e). The travelling allowance has increased from \$1,500 in 1896, to \$4,250 in 1900. The greater number of schools to visit, with an extra Assistant Inspector for Taiping, will account for this.

“(f). The Training College for the training of Teachers cost Government \$2,000 in 1900. This College was started in July, 1898, and was closed in December, 1900.

“(g). Eight thousand dollars in 1900, as against \$672 in 1896, was spent on Koran Teachers, the number of Koran classes have increased, “there being 79 classes, with an attendance of 1,450 scholars.”

It needs only a visit to the many schools in the State to be convinced of the soundness of the organization of the Education Department. The only thing to fear is that the young Native will desert cultivation for the more to him, tempting life of a clerk, where he can drop his old associations and leave his parents to the drudgery of tilling the soil. I was much struck with the impression my words of caution on this point made on the elders when addressing the fine specimens of boyhood during my many visits to the schools during the year.

96. After one of the most prosperous years experienced since Perak came under British Administration it may not be out of place to trace its progress during the last five years which the following tables will explain more eloquently than any pen:—

—	1896.	1897.	1898.	1899.	1900.	Estimated, 1901.

			\$ 421,376,701							

NOTE. — By the census taken on the 5th April, 1891, the population of the State was shown to be 214,254, of whom 156,498 were males and 57,846 females. No previous census had been taken, but in 1879 and 1889 rough approximations were made, and the population was estimated to be 81,084 and 194,801, respectively. These figures, however, are so inexact that it would be misleading to base any rate of increase of population on them. The nationalities are shown in the following abstract: Malays, 96,719; Chinese, 94,346; Tamils, 13,086; A borignia, 6,770; Bengalis, 1,755; Javanes, 1,483; Nationalities not otherwise named, 428; Europeans, 366; Burmans, Jews and Armenians, 203. Total, 214,254. * Exclusive of \$86,740 earned by the Province Wellesly line (Federal Account.)

REPORT ON THE GOVERNMENT PRINTING OFFICE FOR THE YEAR 1900.

The year has been both a very busy and a successful one, the output of work being in excess of former years. This is principally attributable to there being a sufficient supply of paper to carry on the work for the whole year, owing to the arrival of the reserve stock of paper (for which a supplementary vote of \$4,000 was sanctioned in 1900) arriving in May. If it were not for the latter very little could have been done to the Departmental Indents for 1901, whereas now the majority have been supplied.

The output of Form work of various descriptions, varying from $6\frac{3}{4}$ " $\times$ $8\frac{1}{2}$ " and 20 " $\times$ 30 ", was 3,603,309 copies.

Twelve thousand five hundred and eighty counterfoil books of various kinds and varying in size from a single counterfoil to as many as four, with from 100 to 400 leaves, were turned out.

Three thousand three hundred and eighty-eight bound books of different sizes and varying in binding from full cloth to full leather, and 7,309 receiving and forwarding pads were also supplied.

Thirteen Enactments were published during the year, including the Criminal Procedure Code (198 pages), which was also printed at this Office for the States of Selangor, Negri Sembilan and Pahang.

There were 43 issues of the *Government Gazette* and 12 of the *Malay Gazette*.

In addition to the above the following works may be mentioned:—The Federated Malay States General Orders (112 pages); Civil Service List (138 pages); Co-ordinates of Perak Trigonometrical Stations (233 pages); Establishment List (80 pages); Estimates (124 pages), also 527,380 stamps of various denominations were surcharged for the Post Office.

The value of departmental work during the year was \$47,481.88, against \$29,448 the previous year. This is a very large increase, but, it must be remembered, that while the year under review was a very successful one, 1899 was the opposite, owing to the several disadvantages the Office laboured under in that year, such as the engine which drives the machinery breaking down for three months, also the whole of the plant having to be removed to another Office, while alterations were being made to the present building, and the late arrival of the indent of paper from England.

Sale of *Gazettes*, Enactments, etc., brought in \$926.45, against 576.75 in 1899, this increase is due to the large sale of the Laws of Perak.

Private printing and binding produced \$523.10, compared with \$593.16 in 1899.

Miscellaneous amounts to \$69.21, against \$59.75 in 1899.

The expenditure of the year amounted to \$36,754.92, as against \$33,159.69, these figures do not include compensation, etc., which amounted to \$1,068.05, as against \$2,182.24 in 1899. The increase in expenditure is due to the Supplementary Vote of \$4,000 for paper being included, also \$100 for the purchase of three Sunlight Lamps.

Mr. Sabapathy, Second Clerk, was removed to Kinta in May, and Mr. C. Anthony appointed in his stead. Both Mr. Ponniah (First Clerk) and Mr. Anthony have done good work during the year.

I am indebted to the staff for the excellent manner in which they have performed their duties. The compositors, especially, who have been working at a continual pressure the whole year, and who, I consider, turn out the work remarkably well.

Owing to the office getting very dark in the wet weather, a large Sunlight lamp was purchased in 1899 as an experiment, this, proving a success, three additional ones were procured and are a great improvement, but still the light is not what it should be for a Printing Office, where a good light is essential owing to the trying nature of the work on the eyesight. The Public Works Department, I understand, are going to remedy this defect during the current year.

Mr. Williams, Government Printer, went on long leave in May, since when I have been in charge.

B. MAHONY,
Acting Government Printer.

REPORT ON THE GOVERNMENT GARDENS FOR THE YEAR 1900.

KUALA KANGSAR GARDEN.

Revenue.—The revenue collected for this garden amounted to \$4,077.02, and the expenditure \$3,647.44, the excess revenue over expenditure is therefore \$429.58. The actual value of produce despatched amounted to \$4,359, the difference now recovered will appear on revenue returns for the following year. Previous returns are as follows:—

	\$	c.		\$	c.
1896... ..	1,054	27	1898... ..	2,005	45
1897... ..	1,665	40	1899... ..	4,871	19

The principal items of revenue are:—

	\$	c.
Sale of Milk	665	09
Do. Cattle	325	00
Do. Fruit	499	81
Do. Plants and Coconuts	294	66
Do. Seeds, seedlings, and prepared Para rubber	2,168	65
Miscellaneous charges	123	81
	<u>4,077</u>	<u>02</u>

Produce despatched during the year was as follows:—

Para Rubber plants	17,480
Do. seeds	143,480
Miscellaneous fruit trees	1,304
Coconut plants	2,241
Do. ripe	2,202
Prepared rubber (paid in 1900)	350 lbs.

These figures include 9,580 Para seedlings and 1,000 Coconut seedlings, despatched during the year, but paid for in 1899.

CROPS.

There was a good supply of fruit from mangosteens, durian, chiku, duku, pisang, custard-apple, bull's-heart, sour-sop and pine-apples. The larger crops, such as oranges, fruited sparingly, as a result of the exceptional prolific crops of 1899. Pomoloes furnished one fair crop in March, the second crop, September and October, being poor. Limes and lemons fruited well but most of the trees are old and are being renewed. Coconuts fruited well but there is less demand for seedlings. The local market is good for ripe nuts, the average price for the year being from \$2.50 to \$3 per hundred. The crop of Para seeds was less than the previous year, as I also learn was the case in other parts of Perak.

NURSERY WORK.

The nursery has been kept stocked with the principal fruit trees, and such other economic products for which there may be a probability of demand.

Several economic plants, mostly introduced for the first time in 1899, have been cultivated throughout the year and will be strong enough for permanently planting during

the current year. These include the following:—

Pine apple, superior variety; Cinnamon (*Cinnamomum zeylanicum*); Coca (*Erythroxylon coca*); Vanilla (*Vanilla planifolia*); Mauritius hemp (*Furcraea gigantea*); Gingelly oil (*Sesamum indicum*); Coca plum (*Chrysobalanus Icaco*); Calabash (*Crescentia cujete*); Rukum (*Flacourtia rukum*); Jamaica grape fruit (*Citrus sp.*); Cola nut (*Sterculia acuminata*); Japanese oranges (*Citrus nobilis*).

TRANG PEPPER.

About 200 cuttings have been permanently planted under Munkudu trees (*Morinda tinctoria*) specially planted for shade and support.

SEA ISLAND COTTON.

Gossypium herbaceum has grown vigorously and a small sample of cotton collected which seems of good quality. On selected sites this would furnish an excellent cottage industry, or on good soil, a fine catch crop.

WEST INDIAN YELLOW PLANTAIN.

Musa Sapientum-var grown with other varieties of this family, such as Pisang Raja and Pisang Rastali, this variety promises to thrive equally well. Considering how far this supplies an important food for all Africans in the West Indies, the plant is well worthy of attention as a subsidiary food supply here. It is always eaten as a vegetable.

MAINTENANCE.

There has been much difficulty in obtaining labour owing to competition, and the garden rate of pay being less than local rates; still, nearly all the permanent crops have been well manured. Some arrears of fencing and cleaning, owing to pressure of work, will be completed early next year.

PESTS AND LOSSES.

Pigs destroyed a lot of coconut seedlings. Porcupines were troublesome on the pineapple plots. Green beetles, so destructive to the orange family, were constant, but not numerous, as was the case the previous year. A few lime plants were lost through white ants. Three Para rubber trees were cut down when the new bridge was commenced, and seven trees (growing in shallow soil on a gravel bed) were blown down. One of the twin bullocks died.

CATTLE HERD AND DAIRYING.

The cattle herd is in good condition and with the dairying shews an increased and excellent result. Fourteen head of cattle was sold, and 1,164 gallons of milk. The sum collected under this item of revenue amounted to \$990.9 (and \$227 outstanding now recovered), leaving a fair profit in favour of Government after paying expenses, besides providing a large supply of manure, and reserving a pair of young bullocks which will be fit for full work in one year's time, and also another young bull which will replace one of the twin bullocks, there being work for two pairs of bullocks, as apart from ordinary cartage, one pair is almost continually employed for the cartage of water.

To maintain the cattle herd with the same good results a change of blood is needed. This will form the subject of a separate communication. A return of the cattle herd is shewn in appendix A*.

GENERAL.

Para Rubber (*Hevea brasiliensis*). The result of a parcel of this rubber sent to London for sale was received early in the year, all the best quality rubber, 327 lbs., sold at the rate of 3s. 10d. per lb., and the scrap, 33 lbs., at 2s. 6d. The nett proceeds amounted to £61 1s. 6d., or \$617.18. I believe this to have been the largest parcel of Para rubber sent home from the East. It realised 6d. per lb. more than that sent home in 1898, and was reported on as "Para character."

The tapping commenced in March, 1899, and was carried on till July. It was intended to tap a few trees, those which ran most freely with a view of obtaining the maximum amount of latex without injury, and to obtain about 4—5 lbs. from other trees. This much could have been done, but owing to the exceptionally heavy rains which frequently interrupted the work, and in order that the seed crop should not be damaged, tapping was stopped and with several trees long before completed.

* Not printed.

Altogether 82 trees were tapped with the following result:—

No. of Trees Tapped.	Yield per Tree, dry Rubber.		Total weight, dry Rubber.		ft. ins.	
	lbs.	ozs.	lbs.	ozs.		
13	0	10½	8	8½		
7	1	5	9	8		
6	2	0	12	0		
5	2	10	13	2		
12	3	5	39	12		
7	4	0	28	0		
5	4	10	28	2		
9	5	5	47	18		
5	6	0	30	0		
2	6	10	13	4		
3	7	5	21	15	{ 6 9 } { 6 1 } { 6 1 }	Measured 18 months.
2	8	0	16	0	{ 6 1 } { 5 3 }	After tapping.
2	8	10	17	4	{ 5 6 } { 5 2 }	
1	9	5	9	5	7 3	
1	10	0	10	0	7 1	
1	10	10	10	10	7 4	
1	12	1½	12	1½	6 0	
Total ...	82	...	322	00		

NOTE.—These figures are approximate. The weight has been computed from the number of tins of latex obtained from each tree. 322 lbs. dry rubber was obtained from 485 tins of latex, giving an average of $10 \frac{11}{18}$ ozs. per tin when dry. The tins are 6 inches × 4 inches × 2 inches.

Average age of trees 14 years.
Present girth at 3 feet from the ground.

To this should be added 19 lbs. scrap, i.e., rubber collected on the trees, making a total yield of 341 lbs., or an average of four and one-fifth lbs. per tree.

The average age of trees tapped is 14 years, taking the yield at 4 lbs. per tree, and estimating the trees at 100 to the acre, this would give a gross return of £73 6s. 8d. at present prices, or at half the price, £36 13s. 4d., and what other tropical product gives the same return? If the trees were only half this age, say 6—7 years, there would not be much difference in the gross result, as then there would be double the number of trees to the acre.

The following figures on three samples accurately weighed are interesting as shewing the difference in weight between freshly collected latex and dry marketable rubber:—

Sample.	Fresh latex gross.	Tare of Tins.	Dry Rubber.	Difference.
	Ozs.	Ozs.	Ozs.	Ozs.
1 ...	30½	6	13	11½
2 ...	29½	6½	13	9½
3 ...	29	6	11½	11½

HEVEA BRAZILIENSIS IN PERAK.

At Kuala Kangsar there are two well marked varieties of Hevea, (1) the typical tree with large leaves attaining 13 inches long and 5 inches wide and generally branching low down; (2) smaller leaves, tall trunk and smaller rather pointed seeds, an inferior variety. The largest tree at Kuala Kangsar is 18 years old and has a girth of 8 feet 6 inches at 3 feet from the ground, this is larger than any observed by Cross in Brazil.* Some trees planted by myself

* Vide Cross' report 1877 to India office.

3 years ago have now a girth of 1 foot $3\frac{1}{2}$ inches at 3 feet from the ground. Hevea trees have a short resting season, shedding their leaves about the end of February, its new growth commencing with flowers followed by leaves. It is not uncommon, however, to see trees in September, half or many branches dormant, and without a leaf, while other parts are covered with verdant foliage. The seeds from March flowers commence ripening in August, those from September flowers in February, the heavier crop being in August. Here Hevea trees are planted on dry ground and also low swampy ground. I have not observed any difference in yield of latex, but I would not recommend land which is liable to heavy floods.

Tapping.—I consider the latex flows most freely when the new leaves appear, which with most Hevea trees is about March, and the advantage of tapping about that time is not so much a question of actual yield as it is of the amount of bark removed in the operation, which would be less at the best season. There would also be another season commencing in September with those trees then flowering. As with all trees, the ratio of growth is variable at different periods, but taking the girth of Hevea trees here, a 3 year old tree at 3 feet from the ground being 13-15 inches, and an 18 year old tree 100 inches, the annual increment would average nearly 6 inches in circumference and I am sanguine that Hevea trees can be tapped in Malaya when 6 years old, if not earlier, when I estimate the girth at 24-30 inches on good free soil.* Tapping should be commenced at the base of the tree, working upwards to 6 or 8 feet if necessary, and if a tree be operated on in a workmanlike manner three annual tappings could be executed before going over old incisions.

COAGULATION.

Samples of rubber prepared at Kuala Kangsar have been reported on as equal to good Para (Brazilian) and would fetch best Para prices. I have always found the latex to coagulate readily with only the addition of a pinch of alum and by placing immediately in smoke both putrefaction and mould are avoided. If the rubber is sound the market value depends on the state of dryness in which it is received. What has been prepared at Kuala Kangsar has been kept smoked until shipped. A parcel sent to London $3\frac{1}{2}$ years ago was reported to have lost $26\frac{1}{2}$ per cent in washing and the manufacturers thought that if sent home in bulk the loss would reach 30 per cent. This, however, is a question for the planter himself, smoke has a chemical action in the coagulation of latex from Hevea† as well as saving decomposition, and assists in gradually drying. To be as dry as possible depends on the time the rubber has been kept smoked, and I am of opinion that dry marketable rubber could not be prepared under two months. Whether centrifugalization will prove a practical method with Hevea is still in its infancy. I understand that the globules of *caoutchouc* in the latex of Hevea do not separate readily, as is the case with some other latices, and owing to its chemical combination the latex of Hevea will be probably best prepared by the natural method.

TOPPING.

Some correspondence has reached me with reference to the advantages of topping Hevea trees. The only advantage I am aware of, would be the production of a heavy canopy which would assist in keeping down weeds. Otherwise it seems theoretically wrong. It has been proved by experiment and investigation that the latex runs most freely and contains more *caoutchouc* at the base of the tree, and the yield of latex in the branches is small and deficient in the essential properties of *caoutchouc*.‡ The trunk evidently performs its part as a manufacturing agent and should be left intact.

I have observed that trees which are "forked" low down do not yield readily. If not due to injury "forked" trees is caused by planting the seeds too deeply. The seeds should be pressed into the soil of a nursery bed, but never covered, as if so, the seeds germinate with 2 or 3 stems.

SUMMARY.

I have not seen any published accounts on Hevea (excepting Brazilian) where as good results are obtained as in Malaya, either in rate of growth, seed production, dimensions, yield and adaptability.

RAMBONG.

India Rubber (*Ficus elastica*). A sample of $5\frac{1}{2}$ lbs. was sent to London, with the Para parcel, for sale and opinion. It was reported on as "good clean Java character" and valued at 3s. 6d. per lb., but sold for 3s. 10d.

The largest tree at Kuala Kangsar is about 90 feet high, measures 88 feet at 3 feet from the ground, measuring round all the aerial roots, the branches extend to 36 paces, and the largest leaves are 13" x 7", its age, 19 years. The growth of this tree has been remarkable during the last three years, from the time its aerial roots reached the ground.

* In his report to the India office Cross mentioned that Hevea trees of 6—8 inches diameter are tapped in Brazil. † Vide Prof. Biffen's report. ‡ Vide Parkins' Ceylon reports.

Ficus elastica is an indigenous tree, found in Upper Perak. It is naturally an epiphyte, and its growth would be no doubt assisted if planted at the bases of felled trees. Its growth is slow at first but rapid when well established. Considering the enormous dimensions this tree attains, 10 to the acre would be close enough planting, and as perhaps 8 years would have to elapse before the tree could be profitably tapped the intervening spaces could be utilized by some other crop, even Hevea, which would be beneficial to the growth of the *Ficus*.

TAPPING.

As the latex of *Ficus elastica* coagulates on the tree it is best to tap on dry days only. From single incisions, about 4 inches long, and rather more apart, the latex slowly exudes, and in 2 or 3 days afterwards can be collected. At times the latex runs more freely and then some drops to the ground, this can be collected on plantain leaves, but the quality is not so good as that which coagulates on the tree. At Kuala Kangsar, seeds ripen about October, the fruiting season being between July and October, and I should not think these the months for tapping. I consider December, January, and the following months best.

YIELD.

I have not any information as to the age when *Ficus elastica* could be profitably tapped. At Kuala Kangsar there are two trees 12 years old, and two 19 years old, from the latter 25 lbs. of rubber has been obtained from each tree, and the tapping was far short of being exhaustive. The result of the other trees has not yet been ascertained, but I expect good results.

GETAH SINGRET.

Willughlina firma.—A small sample was sent to London with the Para parcel, and reported on as "good strong Borneo character," valued and sold at 2s. 6d. per lb. This is the best of the indigenous creepers, but I doubt very much if it ordinarily reaches the European market in a pure state, being usually used to adulterate getah percha.

GETAH TABAN SUTRA.

Dichopsis gutta var.—There is one example of this tree in the Kuala Kangsar garden which is said to be 17 years old, and fruited for the first time in November, 1900. A few herbarium specimens were obtained, all the other fruits being carried off by squirrels before being ripe. The height of this tree is 25 feet, and girth 2 feet at 3 feet from the ground, a jungle tree growing under heavy canopy would of course be much higher, with less branching habit, and smaller girth.

CENTRAL AMERICAN RUBBER.

Castilloa elastica.—About 150 seedlings of *Castilloa* from Ceylon seeds have been raised. It appears doubtful, however, whether the Ceylon trees are *Castilloa elastica* (true) or only an inferior variety, *Castilloa Markhamiana*. The results of Ceylon trees being far below South American returns.

PUBLIC GARDEN, TAIPING.

This garden has been maintained in good order and fair progress made. The continuation of centre garden road has been planted with an avenue of *Casuarina* trees. Several groups, and an avenue of palms have been planted in the garden, as well as a group of *Eucalypti*. Nearly all the beds of shrubs have been renewed, and the avenue of trees (*Grenillea robusta*) along Residency road is being renewed with *Jacaranda mimosaeifolia*. Some new flower beds have been formed and planted with recent introductions, and many unsightly trees removed where young groups are growing up.

On the lake side as much clearing for planting has been done as time and labour permitted. Early in the New Year I hope to plant up with flowering trees all that is cleared, and extend clearing and planting as much as possible.

LARUT HILL STATION.

Revenue.—The revenue amounted to \$1,674.45 by sale of milk, vegetables, and plants (\$66.35). This is the largest sum yet collected, and is the more significant of the progress made as all the calves have been reserved, and the sum quoted has not been assisted by a cattle sale. The revenue compares with previous returns as follows:—1896, \$1,321.28; 1897, \$1,353.20; 1898, \$1,477.44; 1899, \$1,399.56.

The year under review proved much more favourable for production than the previous year, the rainfall amounting to 154.71 inches against 222.91 inches in 1899, and as a result the output of vegetables shews an increase with nearly every kind, the principal failure being with tree-tomato (*Cyphomandra*) due to the loss of old plants through heavy rains in 1899 and nearly all the existing crop being too young to fruit.

This so-called tree-tomato is really a herbaceous perennial which fruits a few seasons and dies.

Although tomatoes (*Lycopersicum*) shews an increase for the year there was a falling off from September, all the plots failing through a fungoid disease which has proved so destructive to tomato culture in many parts of the world, and it may be necessary to start with new seeds in an isolated spot, but the present crops are fair. These have been planted thickly to allow for loss and immediately a plant shews signs of disease it is carefully removed and burnt.

PESTS AND DISEASES.

After tomato disease the most troublesome pest has been a cabbage moth, which has proved exceptionally destructive. Its life history, both caterpillar and moth, is spent on the plant; of the insecticides used, carbolic soft soap and tobacco water has been useful against the caterpillar, but not with the moth, and kerosine emulsion is now being tried.

ECONOMIC GARDEN.

An economic garden has been commenced and planted with the following products :—

Mountain papaw (*Carica candamarcensis*); Japanese Camphor (*Cinnamomum camphora*); Oranges (*Citrus nobilis-vare*); Japanese Olive (*Eleagnus longipes*); Persimmon (*Diospyros kaki*).

DECORATIVE PLANTS.

There has been a good succession of flowering plants throughout the year. Specimens of *Azalea indica* from Japan flowered very nicely and will, I think, grow permanently at this elevation.

EXCHANGES.

Plants and seeds have been exchanged with the Singapore and Penang gardens. Vegetable and flower seeds, and a collection of roses, purchased from Messrs. Veitch and Sons. Some *Castilleja* seeds were purchased from Ceylon, and some contributed by Mr. W. Meikle, Selangor. Some Hevea seeds were contributed by the Curator of Museum and the Forest Officer.

GETAH PERCHA.

Dichopsis polyantha.—A variety of getah percha which grows from near the foot of Larut hill to 3,000 feet. A mountain form which may prove valuable for planting on high land. None, however, were observed in fruit, and it is probable that with this tree, as with many indigenous trees, a fruiting season only occurs every few years. Seedlings are abundant, but the smallest seem two years old.

WILD RAMBONG.

Ficus sp.—There are two species of *Ficus* fairly common about Maxwell's hill from 2,500 feet and upwards. A little rubber can be obtained but the quality is too hard and brittle to have any commercial value.

CATTLE HERD AND DAIRYING.

There has been an increased supply of milk, the total, including butter, amounted to 1,495 gallons. The increase is due to nearly all the cows calving within the year. To maintain the herd at its present standard, a new bull should be tried. There is a large demand for milk.

Appendices* are attached shewing statements of revenue and expenditure; and returns of produce despatched; cattle-herds and rainfall.

R. DERRY,
Superintendent Government Plantations.

* Not printed.

REPORT ON THE SOUTHERN DIVISION OF THE MINES BRANCH FOR THE YEAR 1900.

REVENUE.

In the year 1900 the revenue collected amounted to \$7,152, as against \$10,422.46 in 1899 and \$5,463.75 in 1898. The revenue of the Mines Department is principally made up of fines.

EXPENDITURE.

The expenditure for the year was \$24,347.63, as against \$23,978.41.

Subtracting the revenue from the expenditure it appears that the nett cost of the Mines Branch, South, is \$17,196.

TRADE.

The subjoined table shews the export of tin from Perak for the past seven years, given in tons and pikuls. The dollar price is the average price in Singapore, except in 1900, when I have taken the Penang price, on which duty is collected.

Year.		Tons.		Pikuls.		Price.		Value.
						\$ c.		\$
1894	...	23,552	...	395,681	...	38 83	...	15,047,748
1895	...	23,866	...	400,956	...	35 5	...	14,853,507
1896	...	22,811	...	383,227	...	32 20	...	12,339,909
1897	...	20,949	...	351,945	...	36 9	...	12,701,695
1898	...	20,061	...	337,025	...	42 96	...	14,177,101
1899	...	18,960	...	318,526	...	72 52	...	23,099,506
1900	...	21,166	...	355,589	...	74 15	...	26,032,000

The price is the resultant of the average prices for each month of the year. The result obtained by dividing the number of pikuls into the value gives an average of \$73.20. At any rate with an enormously increased output, the price has more than been maintained. Indeed seeing that the gold price of the dollar averaged about 1s. 11½d. in 1899 and against about 2s. 0½d. in 1900, the gold price of tin must have increased by about 4 per cent more than the silver price.

The great increase in the output, following as appears below on a great increase in the mining population, must, I think, give a quietus as to the heresy rampant during the last few years, namely that the diminished output was due to a sudden exhaustion of the mines of the State, and not to a general stagnation of the mining industry following on several years of bad prices.

I give the usual return shewing how the output of the State is divided between Perak, South, and Perak, North.

Year.	Perak, South of the River.			Perak, North of the River.		
	Pikuls.	Per-centage of total output of State.		Pikuls.	Per-centage of total output of State.	
1894	...	319,546	...	80.9	...	75,700
1895	...	330,512	...	82.5	...	69,965
1896	...	324,805	...	84.8	...	58,227
1897	...	303,509	...	86.3	...	48,130
1898	...	289,469	...	87.5	...	41,230
1899	...	273,959	...	86.0	...	44,281
1900	...	310,494	...	87.3	...	45,205

Though the output of Perak, North, has largely increased, its per-centage of the total output has fallen back to that of 1898, the year before the rise of price, and Perak, South, has gained in proportion.

ADMINISTRATION.

For the first part of the year Mr. Fincham, Inspector of Mines, Batu Gajah, performed the duties of Inspector of Boilers in addition to his own. In July he was gazetted Inspector of Boilers, and Mr. Pearse became Inspector of Mines, Batu Gajah, Mr. Terry becoming Inspector, Gopeng; for reasons which are known to Government he is no longer in the service and the appointment is now vacant. Mr. Dennys was appointed Inspector, Tapah, at the beginning of the year and resigned at the end. As every one knows an Inspector is of little use until he has thoroughly acquainted himself with the topography of his district which he cannot hope to do under six months at least.

What is wanted is a small increase in the number of Inspectors, but above all some scheme which would insure the continuance of each Inspector in his office for a number of years. In another report I have already submitted such a scheme for the consideration of Government.

MINES.

The principal feature of the year has been the number of applications for hydraulic concessions. In the report above mentioned I have dealt with these in detail. There are at present nine monitors at work in Perak, South, as against five at the beginning of the year, namely three at Gopeng, two at Tanjong Ara, one worked by a Chinaman at Sungei Broyang, two at Chenderiang and one at Slim. It is highly probable that by the end of the year there will be between 20 and 30 at work. Considering how carefully the questions of water and tailings must be considered, it seems certain that the appointment of an Assistant Warden will be necessary in the near future.

Of lode mines little need be said. Prospecting has been continued at Sorakai, where a good deal of money has been spent. Mr. Tait's lode at Salak continues to be worked. A little desultory work has been done at Saiak.

POPULATION.

The Census of the Kinta and Batang Padang Districts, taken at the end of the year, gives a total of 59,728 as against 50,176 in 1899 and 44,505 in 1898. All these totals are probably somewhat under the mark but they will serve for purposes of comparison. The population of Kuala Kangsar, South of the River, is I believe about 2,500.

INSPECTION OF BOILERS.

I send in a report* of Mr. Fincham, Inspector of Boilers, under a separate cover. Considering for how short a time Mr. Fincham has been able to give his undivided attention to this work I consider that great credit is due to him. The examination of engine drivers has not made much progress hitherto, but in any case it must be some time before there is a large class of certificated drivers in the district. Meanwhile it is obvious that the mining engines cannot be stopped for lack of them.

GENERAL.

I have been unable to deal as fully as usual with the mining problems of the year, my time having for the past month been fully occupied with preparations for the decennial census.

E. R. IRVING,
Warden of Mines, South.

* Not printed.

FINANCIAL REPORT FOR THE YEAR 1900.

The Financial Statements* of the State for the year 1900 consist of:—

I.—Statements of Revenue, Expenditure and Balances:—

- (a). Statements of Assets and Liabilities on the 1st January, 1900, and 1st January, 1901.
- (b). Abstract of Revenue and Expenditure and of Receipts and Payments on Personal Accounts, 1900.
- (c). Revenue detailed 1900.
- (d). Expenditure detailed 1900.

II.—Comparative Statements of Revenue and Expenditure:—

- (e). Revenue, 1899 and 1900.
- (f). Expenditure, 1899 and 1900.
- (g). Estimated and Actual Revenue, 1900.
- (h). Estimated and Actual Expenditure, 1900.

III.—Statement showing the per-centage which Personal Emoluments, etc., including Railway salaries, bears to the Revenue of the State.

IV.—Statement of Actual Revenue from 1893 to 1900.

V.—Statement of Actual Expenditure from 1893 to 1900.

The following table shews the transactions for the year 1900:—

	Estimated.	Actual.	Excess.
	\$	\$	\$
Revenue	5,920,857	7,636,127	1,715,270
Expenditure	5,993,682	6,144,774	151,092
Estimated Excess Expenditure ...	72,825	...	...
Actual Revenue in Excess ...	...	1,491,353	...

A small sum of \$283,607 was estimated to be received during the year as a further Railway Advance, but this was not required, instead the whole of the amount borrowed by the Crown Agents for Railway Construction was repaid during the year.

EXCESSES.

The principal excesses occur under the following heads of revenue:—

	\$
Customs	1,541,018
Railway	141,801
Interest	153,922
Land	46,226
Forest	45,712

Every head of revenue shews an excess of actual revenue over the sum estimated, except special receipts, which shews a deficiency caused by the Railway Advance.

The large excess under interests is a paper one only, due to the adjustment of the difference in exchange on Railway Advances.

Tin duty shews an excess of \$1,269,369 over the estimated amount. The average duty for the year was about \$30 per bhara.

* Not printed.

Below is a small table shewing a few particulars about tin and tin-ore.

Year.	Weight.		Average value per pikul.		Average duty per bhara.		Duty Collected.		Estimated.
	Pkls.	kts.	\$	c.	\$	c.	\$	c.	\$
1896	383,226	65	32	35	12	04	1,541,051	50	1,614,600
1897	351,944	53	35	83	11	48	1,346,381	50	1,555,000
1898	330,876	25	42	66	14	52	1,601,310	53	1,384,600
1899	318,526	62	71	96	29	00	3,073,268	93	1,426,600
1900	355,588	65	74	27	30	13	3,570,631	43	2,301,370

Return II. (g.) gives each item of revenue in detail, with the actual and estimated amounts.

As compared with 1899, the revenue for 1900 shows an increase of \$1,055,821, the principal increases occurring under Customs, \$628,286; Railway, \$186,683; and Interest which is again only a paper increase, Return II. (e).

The actual expenditure for 1900 shows an excess of \$151,092 over the estimated amount. Railway expenditure alone shows an excess of \$504,077; large savings have been effected under Personal Emoluments, \$83,687; Federal Charges, \$64,614; Public Works Department, Works and Buildings, and Roads, Streets and Bridges, \$208,124.

As compared with 1899, the expenditure for 1900 shows an increase of \$703,082. Railways shewing an increase of \$125,358; Public Works Department, Works and Buildings, and Roads, Streets and Bridges, \$340,494; Federal Charges, \$51,570; Other Charges, \$161,438.

The cost of Establishment, including Railway salaries, Exchange Compensation and all allowances, gives a per-centage of only 16.49 per cent of the revenue, against 18.76 per cent in 1899.

I append a short abstract of Assets and Liabilities:—

ASSETS.	1ST JANUARY.		LIABILITIES.	1ST JANUARY.	
	1900.	1901.		1900.	1901.
	\$	\$		\$	\$
Cash Balances, Treasuries, Straits Government, and Crown Agents	1,188,370	1,647,652	Deposits	189,214	200,011
Investments	675,600	26,350	GOVERNMENT ACCOUNTS—		
Loans	570,258	408,789	Selangor	...	7,432
Advances	13,003	17,904	Pahang	...	35
GOVERNMENT ACCOUNTS—			Drafts	80,612	33,922
Federal	64,941	21,375	Advances due to Bank of England	1,871,536	...
Selangor	522	...			
Negri Sembilan	1,716	5,114			
Pahang	282	...			
Other Accounts	33,481	12,380	Credit Balance	2,141,362	241,400
				406,811	1,898,164
Total	2,548,173	2,139,564	Total	2,548,173	2,139,564

The Cash Balances, which include Bank Balances and money in the hands of the Colonial Treasurer and Crown Agents, have increased by \$459,282.

The Negri Sembilan Government have reduced their Loan by \$161,000; and we have repaid the sterling advances obtained by the Crown Agents, which on the 1st January, 1900, stood at £177,000.

H. VANE,
State Auditor, Perak.

REPORT ON THE PUBLIC WORKS DEPARTMENT FOR THE YEAR 1900.

EXPENDITURE.

The expenditure on Works and Buildings was \$525,557.17; on Roads and Bridges, \$676,729.65; Other Charges, \$28,731.16; Goods received from Crown Agents but not brought to account, \$49,807.91, and Salaries and Allowances, \$86,189.94. The total expenditure amounting to \$1,367,015.83; Salaries and Allowances being less than $6\frac{1}{2}$ per cent of this sum.

WORKS AND BUILDINGS.

In the following description the more important works have been grouped under their sub-headings.

EDUCATION.

Seven new Schools and five Teachers quarters were built, one School removed and re-built, and one new School with Teacher's quarters commenced during the year.

MEDICAL.

Nearly \$15,000 was spent in re-building the Hospital at Gopeng, it having finally been decided not to remove it, this work is still in hand and progressing rapidly, more than \$16,000 was spent on twelve other items, including two new Wards at Ipoh.

POLICE.

Five new Stations were built and one commenced, and two sets of Married quarters were erected, one at Taiping and one with other quarters at Kuala Kurau.

GAOLS.

The Hospital for the new permanent Gaol at Batu Gajah was almost completed, the Gaol wall was finished and a large range of stone dressing cells and well arranged execution chamber in connection with the condemned cells, added to the existing accommodation at Taiping.

MUNICIPAL.

More than \$18,000 was spent on the construction and extension of brick drains and sewers; six public latrines were erected in Kinta, and two in Krian; incinerators were built at Bagan Serai and Taiping, four new incinerators commenced for different Kinta townships, and the incinerators at Ipoh and Teluk Anson enlarged and improved; markets were built at Kampar, Chanderiang and Bagan Serai; and nine sets of coolie lines and five cattle sheds were built for the accommodation of Municipal coolies and bullocks.

QUARTERS.

Quarters for the Senior Magistrate at Ipoh and Officers Quarters at Ipoh and Teluk Anson were built, but the quarters for the District Magistrate, Kinta, were delayed by the abandonment of the drawing submitted to and approved by the Resident-General and for which a contract was left in the first half of the year, three sets of drawings were made and a contract let on the 8th of November for a semi-permanent building.

WATER SUPPLY AND IRRIGATION.

Considerable progress was made on the Krian Irrigation Works which form the subject of a separate report, and preliminary surveys for the irrigation of certain lands between the Perak and Bernam Rivers were commenced, this work for want of staff being entrusted to a contractor; a small extension of the Ipoh Water Works was carried out, trial borings for wells made at Batu Gajah and sundry other small works attended to.

GENERAL.

The establishment of a Malay Leper Settlement on Pulo Lalang was postponed; considerable progress was made with the laying out and roading of the site for the new town of Bidor, and the Rest-houses at Gopeng and Bagan Serai were re-built and much improved;

extensive additions to the Taiping Museum and Sanitary Board Offices were commenced and a lot of work done on them, but like many other works their completion was delayed by the prevalence of cattle disease.

ROADS, STREETS AND BRIDGES.

The following Statement gives the number of miles of each kind of road open for traffic at the end of the year: metalled cart roads, 482 miles; unmetalled cart roads, 104 miles; bridle roads, 511½ miles; and other paths, 137 miles; making a total of 1,234½ miles, of which 17 miles of metalled cart road and 36 miles of bridle-path were completed during the year. Thirty-five temporary bridges were replaced by pipe culverts at a cost of \$3,198.95; and a sum of \$77,233.32 in building one large and seven small permanent bridges and in completing two large permanent bridges; the State Engineer hopes by the introduction of the "Monéer" system of construction, where applicable, both to reduce the cost and increase the durability of many of these structures.

REVENUE.

The revenue collected by the department amounted to \$13,146.78, the greater part of this coming from the sale of stores and other Government property.

STAFF.

During nine months of the year, the State Engineer was absent in the Colony, acting for the Colonial Engineer; Mr. Caldicott, Acting Personal Assistant, returned to Negri Sembilan; Mr. Dixon, First Assistant Engineer, Headquarter Staff, was obliged to retire from the service; Mr. Nutter, Assistant Engineer, Kinta, resigned his appointment; Mr. Park, Assistant Engineer, Headquarter Staff, did not assume the duties of his appointment being employed exclusively on the Krian Irrigation Works, and Mr. N. T. Gray, District Engineer, Kuala Kangsar, was sent home on long leave on account of severe and repeated attacks of malarial fever acquired in his efforts to push on with the earthwork of the Plus road, and the large amount of jungle work previously done by him in the Batang Padang District.

F. ST. G. CAULFEILD, M.I.C.E.,

State Engineer, Perak.

REPORT ON THE KRIAN IRRIGATION WORKS FOR THE YEAR 1900.

On the 1st of January, 1900, the Coolie roll only numbered 184, some of whom had only arrived the previous day, from which it will be seen that little progress could have been made with the work prior to that date. At the close of the year there were 1,320 coolies on the roll, exclusive of those who died, absconded or had their contracts cancelled.

The attached Statement of Expenditure* shews we have not been able to spend the whole of the \$250,000 provided in the Estimates. This is due to the want of labour, especially during the first half of the year. Though matters have improved we are still short of the required number of coolies. The difficulty of getting suitable labour is still before us. Chinese sinkehs cost now \$14 a head more than at the beginning of the year. On account of the large advances necessary the loss on absconders is considerable, moreover, it is impossible to get overseers who can talk Chinese, and Chinese Manders are only satisfactory in the most straightforward work. A great deal of our work, in swamps especially, requires skilled subordinate supervision, which is unobtainable in the case of Chinese, so that while the men, as a rule, work well there is a lot of mis-directed energy.

We have been most unfortunate with Indian labour and through causes over which we have no control the actual cost of this class of labour has made our work very expensive.

STAFF.

During the year we were short-handed indoors and out. An active Assistant Engineer for setting out works has been required for months and we have had great difficulties from the want of good overseers. The latter, apparently, are not obtainable in Perak, two were imported from India, it is too soon yet to say with what success. For the first few months of the year the office was without the services of a chief clerk, whose duties I had to perform myself, causing delay in opening up contracts on the second section of the work. We have, however, been very satisfactorily suited since. Throughout the year the second draughtsman

* Not printed.

of the Public Works Department has acted as draughtsman here. Advertisements locally failed to find any suitable candidates, even when the salary was materially increased. By advertising in the Indian papers we were more successful and one applicant was selected and communicated with.

Owing to coolies gambling or spending all their money too fast much difficulty has arisen, owing to many having no money to buy food towards the end of the month. Arrangements had therefore to be made with the shops to supply a certain amount of food daily to all coolies, the cost to be recovered out of their pay at the end of the month. This has involved a great increase of labour to the clerks, as chits for one month for 1,400 coolies have to be checked and the money recovered to repay the *Kedai man*.

Formerly the amount of work involved in keeping check rolls for so many and the various tabulated statements and returns necessary, together with the usual office work, was as much as two Clerks could do. With the increased work a 3rd Clerk is required in the office.

WORKS.

The works are divided at present into two Sections. The first from the spill weir and head works at Bukit Berapit to the Syphon at Padang Lalang, a distance of about four miles. In this portion all the heaviest and most expensive work is situated and to enable Mr. Thomas to devote most of his time to this section an atap house was built for him at Bukit Berapit. The second section extends from the Kurau River, at Padang Lalang, past Bagan Serai, and except for the 1st mile past Padang Lalang in the heavy jungle most of the earthwork of this portion has been done by contract.

In the first Section the following work was done in the year:—

Spill Weir.—The site of the spill weir, 1,700 feet $\times$ 80 feet, was stumped and cleared and partially stripped to the clay. This was a difficult piece of work, as the ordinary level of the river is above ground level here and the whole place is usually under water. About 6,000 cubic yards of the bank were put in and rammed in the form of hollow rectangles, so that the water in the middle might be pumped out and a puddle core put in where necessary.

Bund at Kubu Gajah.—The site of the bund was stumped, the puddle core put in, and the earthwork finished all but about 600 cubic yards.

Head and Scouring Sluice.—A jetty was erected here, with a crane for landing material and about 600 cubic yards of earthwork done and the necessary plant for starting concrete work prepared.

Canal Bank.—The first thing necessary was to get a small bank through from Bukit Berapit to Padang Lalang so as to get the railway through to the hill. The total distance is $3\frac{3}{4}$ miles, of which a large portion is swamp and the whole heavily timbered. The stumping for the right bank was completed right through and as much of the bank as possible made from borrow pits. Rails were laid down and trucks run with spoil from both Padang Lalang and Kubu Gajah till the gap was closed on the 7th of November and the Locomotives could run through the whole way. From the 7th of July one Locomotive was employed in drawing spoil from the Padang Lalang end. For the first 60 chains the canal runs along the side of Bukit Berapit so that, except in one or two flat places, there is only the right bank, the left being cutting in the hill. This 60 chains of bank has been completed to its full height, averaging 6 to 7 feet, and a considerable portion of the bed of the canal at the same part excavated and stumped. Trains with the excavated material and with excavation from the hill at Kubu Gajah were meanwhile running with spoil to widen and raise the bank towards Padang Lalang. On the left bank at Padang Lalang work was also started. There not being the same reason for hurrying through the left bank it is being carried up its full width at once, as far as possible, from borrow pits at the side. About 120 chains of the left bank were stumped and partially stripped and about 1,600 cubic yards of material put in the bank.

The timber bridge at Padang Lalang for carrying the railway over the Kurau River was nearly completed.

Quarries were opened at Bukit Berapit Kechil and in the hills towards the Putus, one mile past Kubu Gajah. There is plenty of stone available, but it is a sand stone much fissured, and could not be used for masonry, but will do for rough pitching. Except in a few special places concrete will have to be used instead of masonry in the head and scouring sluices, spill weir and other places, where masonry would have been used had good stone been available. A considerable quantity of stone has been broken for the concrete foundations at the spill weir.

The only sand available is in the bed of the river and two 4 c. ft. Bell's dredgers have been rigged up in a flat bottomed boat and about 400 cubic yards of sand has already been landed.

With a view to bringing stone from the quarry at Kubu Gajah, the branch Canal to Selinsing has been started, as it will pass close to the quarry. Not much has been done on it yet but about 10 chains of jungle have been felled and burnt and the stumping and bank started.

On the second section of the work contracts were let for banks about 3 ft. 6 in. high and 2 to 1 slopes, which is about the estimate quantity of spoil to be got from borrow pits without making them too big. Along these it is proposed to lay rails so that spoil may be brought in trains from the hills. A contract from 240 to 260, for stumping and burning, was left unfinished by a native contractor. From 260 chains to 570 chains was given by contract to Mr. Tate to stump, burn the jungle and throw up the banks from borrow pits along the sides of the Canal. He only completed about 170 chains of the right bank and a few chains of the left bank. Similar contracts were let to Ramalingam, from chainages 570—640, 666—746 and 746—786, the first he completed during the year, about three-quarter of the second was finished, and the third was well started. The indentured coolies given back by Mr. Tate in the meantime threw up the right bank from 641 to 663 and completed the earthwork of the division of Selama road, behind the Rest-house, Bagan Serai. A hospital for 100 patients was built during the year and a dresser sent by the medical department to look after it. The health of the coolies has not been good, though everything possible has been done. As the hospital was not big enough a separate building has since been started, and is in process of erection, for coolies suffering from bowel complaints. dysentery and diarrhoea are the fatal diseases, though there is a considerable amount of fever and a large number of coolies suffer from ulcers. Whatever the cause of the bowel complaints, I think it is fairly certain it is neither the water or the quality of the rice supplied to the coolies, both of which are excellent and great care is taken with the drinking water. Drawing my own conclusions from what I have heard Dr. Haviland say it seems possible that the dysentery may have been imported by our Indian coolies. It is certain that when we had only 100 Chinese at Padang Lalang and the jungle was still standing where there was no supervision of the drinking water and when the food was certainly not so good as it is now that the coolies were healthier, there was less dysentery and the death-rate smaller.

There has been a large preliminary outlay in lines, quarters for Engine drivers, overseers, dresser, etc. A house had also to be built for the Chief Clerk in Bagan Serai. This item will be much smaller in future and as a good deal of the most expensive part of the earthwork has been done I hope and believe the progress for 1901 will not only be more rapid but the work will be done at a cheaper rate.

R. O. N. ANDERSON,
Irrigation Engineer, Bagan Serai.

REPORT ON THE REVENUE SURVEY DEPARTMENT FOR THE YEAR 1900.

STAFF.

The Superintendent, Revenue Surveys, Mr. J. P. Harper, had charge of the department during the whole of the year.

Mr. E. J. Kemplen performed the duties of Office Assistant; he was chiefly engaged in the supervision of drafting work, and the mining and agricultural surveys of Larut district.

District Surveyors.—Mr. A. F. Harper was in charge of Kuala Kangsar all the year. Mr. H. R. Shaw was in charge of Kinta until the end of March, when he was appointed Superintendent, Revenue Surveys, Selangor. From April to June the Kinta Surveys were in charge of Mr. A. J. Brigley, but he was transferred to the Trigonometrical Survey Department, sent to Upper Perak, and in the month of September met with a sad end by drowning, at Janing. For the latter half of the year the district of Kinta has been in charge of Mr. E. G. Wood. Assistant District Surveyors, Messrs. Clare and Jansen, also worked in Kinta all the year. Mr. Hodges had charge of the Surveys of the Northern portion of the State, including the districts of Krian, Selama and Upper Perak. Mr. Kent was stationed at Matang till the close of the year, when he was transferred, on the retirement of Mr. Van Kuylenburg, to Batang Padang. The District Surveyor of Batang Padang, Mr. W. H. MacKenzie, went home on long leave in June. Mr. Koch was in charge of Lower Perak District all the year.

Assistant Surveyors.—Messrs. Van Kuylenburg and Moungh Chow were stationed at Batang Padang, Moungh Tha Nyo in Larut and Mr. Fernando in Kuala Kangsar. Two new assistants, Messrs. Vardon and Chandra Segre, were engaged late in the year for the districts of Lower Perak and Batang Padang, respectively.

Demarcators.—Thirty demarcators, stationed from Upper Perak to Tanjong Malim, under District Surveyors, worked, some for long, others for short, periods during the year.

Drafting Staff and Probationers.—23 draftsmen and 10 probationers worked in the Taiping drafting office, where all the mapping, except for Kinta, is performed. In the Kinta branch drafting office four draftsmen and eight probationers were engaged. The probationers are youths paid from open votes at rates varying up to \$40 per month. Mr. J. R. Bell, appointed Chief Draftsman, Larut Office, in February, resigned the post in November, and Mr. J. C. Keesing, Chief Computer, (just out from New Zealand) took his place.

Tracers in District Offices.—The Lower Perak district tracer was given six months leave and a probationer from Headquarters was sent to act; in other districts no changes occurred.

Clerks.—No changes took place. It gives me pleasure to record that Mr. Ariacuddy and his Assistant, Mr. Chelliah, both did very good work in the Department, but, unfortunately, they are now under order for transfer to other offices.

DISTRICTS.

The following order is observed in the resumé of work performed in the Districts:—Upper Perak, Selama, Krian, Larut, Matang, Kuala Kangsar, Kinta, Lower Perak and Batang Padang.

Upper Perak.—During the year 23 miles of traverses were run, about 10 miles along the Ulu Temelong bridle-path, the rest for circuit work. Three mining lots, comprising an area of 487 acres, were surveyed, also 175 agricultural holdings, comprising an area of 622 acres, demarcated. Demarcator, Mat Tahir, was engaged on the above work in addition to other miscellaneous surveys required in the district.

Selama.—One demarcator is kept constantly employed in this district, he has been working chiefly in the mukim of Ijok, also at Pantei Besar, Sungei Seggar, Titi Ijok, Sungei Dendang and Tebbing Tinggi; 29 miles of traverses were surveyed by the District Surveyor, 225 lots, comprising an area of 1,086 acres, demarcated, also eight mining lots, comprising an area of 221 acres, surveyed. There are a lot of mining applications of recent date entered for survey in this district which will be taken up as soon as the lands are granted. A sum of \$1,857 is on deposit as survey fees in the District Treasury for this work.

Krian.—Mr. Hodges and his demarcators surveyed $9\frac{1}{2}$ miles of traverses, 198 lots, comprising an area of 581 acres, demarcated, also 2,323 acres of agricultural land surveyed, the

latter was chiefly land at Bagan Serai, Malay holdings bought up and which the present owners wished surveyed in one block so as to be able to hold one title instead of numerous Mukim Extracts. Many large land owners who have bought up small holdings in the Districts are now following this excellent plan.

The Survey Staff has performed many other miscellaneous field duties, the marking of reservations, both for Railway and Irrigation works, occupied a great deal of time. Both the Survey and Demarcation fees estimated were practically doubled.

Larut.—Most of the demarcation work of the District was carried out under the supervision of Mr. Kent in Bukit Gantang, 619 lots, comprising an area of 2,569 acres, were dealt with, practically completing the Mukim.

Mr. E. J. Kemplen and Assistants carried out the Surveys, altogether 122 miles of road surveys and other traverses were run, 20 lots of agricultural land, with an area of 2,646 acres, and 32 mining lots, comprising an area of 1,559 acres, and 10 town lots were surveyed. The Mining Concession of 5,000 acres granted to Captain Ah Kwi in Assam Kumbang was demarcated and Boundary Stones fixed. Although the Survey fees credited to Government are considerably less than last year they are \$481.75 above the Estimates and the demarcation estimate was exceeded by \$764, so may be considered satisfactory, there are no great arrears of work, and the mapping is fairly well up to date. No Settlement Officer was attached to Larut for a considerable part of the year which was found very inconvenient at times.

Matang.—Mr. Kent had charge of this district for 11 months. The field staff demarcated 106 lots of 713 acres, surveyed 22 miles of traverses and three large estates comprising an area of about 3,000 acres. The estates were for Goh Hooi Choo at Temerloh, Mr. Sperling's land at Jebong, and some land taken up by the Perak Sugar Cultivation Company at Sungei Gedong. The agricultural lands demarcated are scattered all over the district, which fact in a measure accounts for the small return. The survey fees collected and credited to Government fall short of the estimate by \$1.55 and the demarcation fees are short by \$206.

Kuala Kangsar.—The field staff with Mr. A. F. Harper, District Surveyor, completed 103 miles of road surveys and traverses, 65 mining lots of 1,224 acres, and three agricultural holdings of 38 acres, beside the demarcation of 882 native holdings, comprising an area of 2,591 acres. The traverses were made to connect demarcations in the following Mukims:—Blanja, Chiga Gala, Pulau Kamiri and Senggang, also in the survey of the Blanja Bruas bridle-road as far as the boundary of the Dindings Territory.

The agricultural and mining surveys were carried out in the following mukims:—

MINING AND AGRICULTURAL LANDS SURVEYED FOR 1900.

No.	Mukim.	No. Mining Lots.	Acres.	No. Agricultural Lots.	Acres.
1 ...	Pulau Kamiri	45	978	...	...
2 ...	Senggang	1	25	...	...
3 ...	Kota Lama Kiri	2	40	3	38
4 ...	Kota Lama Kanan	16	171	...	...
5 ...	Saiong	1	10	...	...
Total		65	1,224	3	38

DEMARCATION WORK COMPLETED DURING 1900.

No.	Mukim.	No. Lots.	Area Demarcated.
1 ...	Blanja	479	1,549
2 ...	Pulau Kamiri	376	944
3 ...	Senggang	13	28
4 ...	Kota Lama Kiri	13	56
5 ...	Saiony	1	14
Total		882	2,591

The Land Office collected and credited \$734.92 over the estimate in survey fees, and \$517.96 over the estimate on demarcation, but a great deal more might, with staff available, have been credited, as the fees recoverable on drafting work sent to the district more than doubled the amount estimated for survey and demarcation.

Kinta.—The appointment of District Surveyor has been held by no less than three different officers during the year. The present occupant, Mr. E. G. Wood, took over charge last July. Mr. Wood is a surveyor of great and varied experience and soon fell into the routine and requirements of the district, and it is to be hoped, in the interest of the work, that his stay in Kinta will be a more permanent one than that of his predecessors.

At the beginning of the year the assistant field staff was composed of the following Surveyors and Demarcators:—Government Surveyors, Messrs. Clare and Jansen; Licensed Surveyors, Messrs. Philips and Palmer; Demarcators (Acting Sub-Surveyor) Niaz Khan and Motee Ahmad.

Mr. Palmer worked for two months only, when he left the State. Mr. Philips' work was confined to the mukims of Kampar, Teja and Sungei Raia. The Government staff worked the other mukims of the district.

The office staff consisted of Messrs. Betts, Ferdinando, Goh Keat Leong and John Liew, as principal draftsmen and junior assistants. As in previous years Mr. Betts personally superintended the charting during the contract survey period, his services have been of considerable value. Mr. Ferdinando has also had great experience now in Kinta Surveys and is exceptionally useful in matters connected with the general routine of the office. The other draftsmen and assistants the District Surveyor reports worked well, a return of the chief item of work performed will be found in appendix *D** attached to this report.

The Government field staff surveyed 49 miles of traverse, 246 agricultural lots, comprising an area of 1,840 acres, 120 mining lots, comprising an area of 3,047 acres, and 234 town lots.

The following work carried out by Licensed Surveyors was passed during the year, 10 miles of traverse, 90 agricultural lots, comprising 2,030 acres, 73 mining lots, comprising 3,628, acres, and 57 town lots.

The total for Kinta Survey Staff, as compared with the 1899 return, show a very favourable increase, the figures are as follows:—

Surveyed.	1899.	1900.
Traverses	23 miles	59 miles
Agricultural Lands ...	1,016 acres	3,870 acres
Mining Lands	4,494 „	6,675 „
Town Lots	171	291

The estimate for Survey was \$15,000. The Land Office collected and credited to Government \$6,554.81 on work done by Staff Surveyors, the value of work performed by Licensed Surveyors amounted to \$5,760.75, so that these two totals would have fallen short of the estimate by \$2,684.44. The deficit is accounted for by the fact that it was intended to increase the Government staff, but Surveyors could not be obtained. The District Surveyor reports that he has only 3,300 acres of approved mining land and 1,730 acres of agricultural land awaiting survey in his books that, compared with the above statement, represents about six months work; there is a cash deposit of \$36,500 for surveys in the District Treasury.

At the end of the year 1899 the District Surveyor's books shewed 4,000 acres of mining land to be dealt with; 6,675 acres were surveyed, yet at the close of 1900 the District Surveyor has 3,300 in the survey books. Mr. Philips, the Licensed Surveyor, says that he is rapidly wiping off arrears in his part of the district, and that now he is more anxious to survey than the applicants appear to be in getting their land surveyed, and frequently when he is ready applicants have asked him to postpone surveys.

Seven hundred acres of small agricultural Native holdings were surveyed (under instructions issued before Mr. Wood took charge of the district) which should have been demarcated only, and on my last visit to Kinta, I arranged with him and the Collector of Land Revenue that the ordinary mukim extract form of title be prepared for this work, so it can now be said that a commencement has been made in the matter of dealing with Native holdings. A considerable portion of the Staff Surveyors' time has been spent in investigating and correcting mistakes and overlaps in the former surveys, again rapid progress is hindered by the fact that lots are small and scattered, some of the mining lots in Ulu Kinta necessitating journeys of ten miles to the eastward of Tanjong Rambutan over hilly jungle tracks, and to carry stores, boundary marks and survey gear elephants have had to be used.

* Not printed.

Lower Perak.—Mr. Koch and his staff surveyed 112 miles of circuit work, chiefly to tie up lands demarcated, of which 1,020 lots, comprising an area of 6,013 acres, were dealt with in the following mukims:—

Mukim.				Lots.			Acres.
Batak Rabbit	...	...	...	42	...		171
Teluk Bharu	...	...	...	20	...		183
Bagan Datoh	...	...	...	405	...		2,955
Rungkup	...	...	...	524	...		2,614
Likir	...	...	...	29	...		140
				1,020			6,013

This is an increase of 1,364 acres on last year's output. Twenty-two town lots were surveyed.

The land applied for by Mr. Aylesbury at Bagan Datoh, comprising an area of 1,300 acres, was surveyed, also the new village site, and a reserve of 2,000 acres, also at Bagan Datoh, was demarcated.

Two 500 acre blocks were surveyed and two reserves of 5,000 were demarcated for Mr. Turner by Mr. Licensed Surveyor Philips. Although this work was completed in June, owing to subsequent settlement, the Land Office have not been able to complete the verification of boundaries, the consequence is delay in the drafting of title and settlement of areas and the fees due to Licence Surveyor. No mining land was dealt with during the year beyond a visit to the ground by the Surveyor and Collector, the area applied for in 1899, amounting to 275 acres, remains the same, and the survey fees on deposit in the District Treasury are \$582.50. Both the survey and demarcation fees estimated for were exceeded by \$60.70 and \$468, respectively.

Batang Padang.—This district has had three officers in charge of surveys during the year. District Surveyor Mr. W. H. Mackenzie went on leave in June, he was succeeded by Mr. Van Kuylenburg, who resigned in December, and now Mr. Kent has charge. These Surveyors and staff of Assistants surveyed 77 miles of traverses, 1,432 acres of mining land, 80 acres of agricultural, and demarcated 310 native holdings, comprising an area of 1,012 acres. A considerable amount of time was spent by the staff locating old mining lots, some demarcated but unconnected, others held under temporary titles or ancestral Mining Leases, these ancestral lands are scattered all over the District and have to be identified to avoid overlaps.

The survey staff not being strong enough to cope with the great demand for mining land, the services of Mr. Goodyear, a Licensed Surveyor, were obtained early in the year, unfortunately, chiefly through illness, this gentleman has not been able to devote all his time to the work, but the following surveys received has been passed, 49 miles of traverses and connections with 962 acres in 58 lots of mining land.

The returns show about the same as last year, 8,600 acres of mining applications in the Land Office books, on which survey fees of \$42,939 have been deposited, awaiting approval, settlement and survey. The survey fees estimated were exceeded in the collections by \$1,568.86.

GENERAL.

I have visited all the districts during the year, except Upper Perak, and have kept in touch with the surveys in progress and held consultations with District Magistrates and Land Officers for the advancement of the work generally. In the districts of Kinta and Batang Padang personal inspections by the Resident, Colonel Walker, have been made. I have satisfied myself that, with the staff at my disposal, better progress could not have been made, all officers having worked in a very satisfactory manner.

J. P. HARPER,

Superintendent, Revenue Surveys, Perak.

REPORT ON THE TRIGONOMETRICAL SURVEY DEPARTMENT FOR THE YEAR 1900.

GENERAL.

The programme started in 1899, of extending the major triangulation of Perak through Selangor and Negri Sembilan, was continued and all the staff were engaged upon it, except one topographical party which was occupied with the survey of the Bernam and Dedap rivers in Lower Perak and another party which was engaged for part of the year on triangulation in Upper Perak in connection with the demarcation of the Perak—Raman boundary.

PERAK.

In Perak the two stations remaining at the end of 1899 were observed from and the major triangulation of the State thereby completed southwards and closed on the check base line at Tanjong Malim. The latter has not yet been rigorously measured, arrangements have been made to do so in March, 1901, but from the result of two careful preliminary measurements with a 10 chain band corrected for temperature and under constant tension, I anticipate that a very satisfactory closure will result in due course. In connection with the Perak to Raman boundary triangulation a trig station was erected on Gunong Kendrong and the old stations on Gunong Besar and Bukit Kla were restored, and at the end of the year a party was on its way to restore the old station on Gunong Bintang. The Bernam river was surveyed from Utan Melintang to its mouth, a distance of 11 miles, and also from Tanjong Si Langgar to Kampong Toh Khalipah, a distance of 14 miles. The Dedap river, with its tributaries the Kangkok and the Krang, was surveyed for about 20 miles.

SELANGOR.

In Selangor five new sites were cleared and beaconed and new beacons were erected on five old sites. Preliminary observations were taken from three stations and final observations from 20. There remain only two stations to be observed from Gunong Ulu Kali and Gunong Besar, to complete the system of major triangulation in this State. The former commands a few points in Pahang and the latter a few points in Pahang and Negri Sembilan, so they were kept for the last in order that the stations in these States might be ready. In addition five secondary points on the Selangor bank of the Bernam river, to which the traverse survey is connected, were observed from and connected with the major triangulation.

NEGRI SEMBILAN.

In Negri Sembilan six new sites were selected, cleared and beaconed, and a new beacon was erected on one old site. Observations were taken from 23 stations in all and it may be considered that the major triangulation to the west of the dividing range is finished. It was found necessary to establish stations on two extra points in the main range, Gunong Telapa Burok (or Resam) and Gunong Remban, in order to get a favourable basis for extending eastwards. The ridges in this State are so long and flat that it is not generally possible to get sites on their highest points equally suitable for viewing the country eastwards and westwards. The extension of the major triangulation proper was delayed at the request of the Resident of Negri Sembilan, who wished a few secondary points to be established in the Remban District at once for revenue purposes. A mean tide datum was established at Port Dickson Jetty and connected with the triangulation.

PAHANG.

A small sum having been voted by the Pahang Government for the purchase and erection of a few beacons to be established on points visible from the Perak and Selangor stations on the main range, the services of an experienced mandor, Che Musah, were lent by the Department to carry out this work. He left for Pahang in June and by December had cleared and erected stations on Gunong Pallas, (5,000 feet); Gunong Raka, (1,850 feet); and Bukit Tujoh, (2,550 feet). The first-named is a spur of Gunong Benom, the second is a remarkable limestone rock near Bentong, and the last is on the watershed between the Tenom and Kechan rivers. The work was under the charge of Mr. G. M. Stafford, Superintendent of Revenue Surveys, and was greatly assisted by Mr. W. S. Barnes, Warden of Mines, who visited both Gunong Pallas and Gunong Raka with the survey party.

PROGRAMME FOR 1901.

It is expected that by the middle of 1901 the Bernam Base Line will have been measured, a check latitude and azimuth have been observed at Bukit Asa and the major triangulation of Selangor have been completed. The staff hitherto engaged on this work will then be available for secondary work in Perak, which is now much in arrears. The major triangulation of Negri Sembilan will be extended through the districts to the east of the dividing range from Gunong Hantu to Mount Ophir.

THE FIELD STAFF.

Mr. F. W. Irby and Muhammad Kahar.—Mr. F. W. Irby returned from long leave on 20th February. On 26th he left for Teluk Anson in order to visit parties working on the Perak and Bernam rivers and at Sungei Nipah, Selangor, under the control of Mr. Jayesuria, who had fallen sick. Returning to Taiping on 15th March, he left again on 20th for Seremban in order to take charge of the operations in Negri Sembilan, previously under Mr. J. Rochfort, who had resigned. He has visited and observed from the following stations:—South Hummock, (837 feet); Port Dickson, (9 feet); Gun Hill, (402 feet); Bukit Sembilan, (491 feet); Bukit Putus, (400 feet); Bukit Tambun Tulong, (398 feet); Bukit Tunggul, (533 feet); Cape Rachado Light House, (376 feet); Pulau Arang, (50 feet); Kuala Pilah, (579 feet); Gunong Telapa Burok, (3,914 feet); Gunong Berimbun, (3,295 feet); Bukit Galla, (2,014 feet); Bukit Ulu Beranang, (2,654 feet); Gunong Angsi, (2,659 feet). South Hummock, Putus, Sembilan, Telapa Burok, and Gunong Remban were cleared and beacons and Kuala Pilah was re-cleared and re-beacons during the year. Muhammad Kahar was employed in this State the whole year, generally in charge of a separate hill clearing party. A few preliminary observations were also taken at Kuala Klawang. An extract from Mr. Irby's report* describing difficulties in labour, transport, etc., is attached.

Mr. J. Rochfort.—Mr. Rochfort was engaged during January in making a marine survey at Port Dickson in connection with the proposed extension of the pier. At the same time he observed a mean sea level and connected it with Pulau Arang Δ . He arranged for the clearing of South Hummock, and also cleared, beacons and observed a few angles from Bukit Tambun Tulong. He resigned his appointment at the end of February.

Mr. J. N. Sheffield.—Mr. Sheffield was engaged during January, February and March on a visit to Gunong Ulu Lyang, (6,335 feet). He arrived at the summit on 26th January and experiencing bad weather did not leave till 22nd March. This station is a most important point commanding a view of 100 miles in Perak, Pahang and Selangor, and observations were secured to 43 Trig. stations besides over 1,300 bearings to topographical features with a very fine panoramic view of the surrounding country. As this point is close to the Bernam Base Line it was desirable to observe a check bearing to some point near the Larut Base. Hermitage Δ appeared most suitable for the purpose and as the distance between the two, 80.5 miles, was too great for the ordinary beacons to be clearly visible, heliographs were used. The Chief Surveyor visited Hermitage on three different occasions for the purpose of observing the Lyang heliograph but did not succeed in doing so owing to continuous hazy weather. A man was left to work the heliograph at Hermitage daily so long as Mr. Sheffield remained at Lyang, and after several days of fruitless waiting it was at length observed one fairly clear morning, and a very accordant series of 10 arcs obtained on it. The heliograph observed had a mirror of only 5 inches diameter, and the Surveyor-General of India states that it was fortunate to see the flash from it at such a distance. The difference between the observed bearing from Gunong Lyang to Hermitage and that computed from the adjusted triangulation is only 2.5 inches, which may be considered very satisfactory. Mr. Sheffield on his return from Lyang went on 5 months leave to Europe, leaving on 22nd April, and returning on 22nd September. He almost at once proceeded to Janing to settle up the affairs of the late Mr. A. J. Brigly, but while returning to Taiping, previous to assuming charge of the operations in Upper Perak, experienced a bicycle accident which delayed his return to Janing till 12th November. He has since renewed the Trig. Station on Bukit Kla, and was on his way to Gunong Bintang, (6,103 feet), at the end of the year.

Mr. F. Chapman.—Mr. Chapman accompanied Mr. Sheffield up Gunong Lyang, and when the latter went on leave took over his duties. The station on Lyang having been found in a dilapidated condition and off centre it was necessary to re-visit a few stations in its vicinity in order to re-observe the new station. Mr. Chapman accordingly re-visited Bukit Bharu, Chondong, Asa and Sekamat for this purpose. He completed the observations at Bukit Srigala (936 feet), the last remaining major point in Perak, and then entered Selangor, where he observed from Bukit Tunggul, (1,144 feet); Prabong, (1,215 feet); Layong, (1,880 feet); Unyang, (2,400 feet); Gunong Bunga Buah, (4,650 feet), and Gunong Ulu Semangko, (4,550 feet). He also observed from the following secondary points, Changkat Slim, McKenzie's base line (Slim) and Behrang. In December, Mr. Chapman made two preli-

* Not printed.

minary measurements of the Bernam base line with a 10 chain band under constant tension and corrected for temperature. The results are as follows:—

	Links.
First Measurement	16,669·96
Second do.	16,669·46
Mean do.	16,669·71
Computed from Larut Base	16,668·50
Difference	57 = about $4\frac{1}{2}$ inches in two miles.

I anticipate from this a satisfactory closure when the rigorous measurement has been made. Mr. Chapman left the State on 22nd December on three weeks leave.

Mr. H. Sheaffe.—Mr. Sheaffe left for Selangor on 26th January, and between that date and the end of the year has cleared and erected trigs on two new sites, Bukit Lada at Sepang and Kuala Selangor Fort. He has re-beaconed four old sites, viz., Bukit Tunggu, Sungei Besi, Kuala Lumpur, and North Hummock, and has observed final angles from the following stations:—Kuala Lumpur, Sungei Besi, (965 feet); Bukit Jeloh, (445 feet); Bukit Tunggu, (917 feet); Bukit Lipat Kajang, (200 feet); Bukit Lada, Parcellar Hill, (776 feet); North Hummock, (800 feet); Bukit Jeram, (250 feet); Pulau Angsa, (80 feet); Kuala Selangor Fort, (70 feet); and Bukit Rantau Panjang, (200 feet). He has also observed from two secondary points at Kuala Selangor Rest-house. During October he accompanied the Resident of Pahang to Tanjong Guliga to meet the Siamese Commissioners in connection with the Pahang—Trengganu boundary. Mr. K. Ponnampalam assisted in this work from January till June, when his services were dispensed with.

Mr. A. J. Brigly.—Mr. Brigly joined this Department on 1st August, replacing Mr. E. G. Wood, who on his return from leave relieved Mr. Brigly as District Surveyor of Kinta. Mr. Brigly left for Upper Perak on 21st August, for the purpose of extending the triangulation over the newly acquired territory. He had renewed the old beacon on Gunung Besar, (5,725 feet) and was returning to Janing on 15th September, when he was drowned while attempting to swim the Klu Ford. The body was recovered on 27th September, and was buried by Mr. Berkeley, the Acting District Magistrate, at Lenggong. Mr. Brigly was an excellent field assistant and his death was a great loss to the Department.

Mr. H. Bagoos, Second Class Sub-Assistant.—Pending the arrival of Mr. Sheffield to assume charge of Mr. Brigly's operations his gang were sent to clear and erect a beacon on Gunung Kendrong, (4,020 feet), under charge of Mr. H. Bagoos. This proved a difficult task owing to the steepness of the mountain and the scarcity of water on its summit. The work was, however, completed in November, but Mr. Bagoos and several of the coolies contracted a painful and troublesome skin disease (supposed to be caused by a parasite) which incapacitated them for some weeks after their return.

Mr. D. Jayesuria, Mr. G. Jayesuria and Mr. F. dos Remedios.—Mr. Jayesuria was engaged on the Bernam and Dedap river surveys during the whole year, except for a period of 51 days, when he was incapacitated by an attack of jaundice. The Bernam river was triangulated from Utan Melintang towards its mouth, a distance of 11 miles. In this piece of work 6 permanent marks were left on the Perak and 6 on the Selangor side. The triangulation upwards from Tanjong Si Langger, which had been abandoned at the end of 1899, was resumed and carried 6 miles further. The river had now become narrow enough to change the system of survey and from Banting Aceh to Kampong Datoh Khalipah, a distance of 8 miles, a zigzag traverse survey was made, measuring from bank to bank with a light steel band 10 chains long, resulting in a great increase of speed and consequent decrease of cost. Between Banting Aceh and Datoh Khalipah 12 permanent marks were left on the Perak and 12 on the Selangor bank. The Bernam river survey was temporarily abandoned at the last named point and the survey of the Dedap river was then commenced and carried for $12\frac{1}{2}$ miles upwards; in addition two tributaries of the Dedap, the Sungei Krang for $2\frac{1}{2}$ miles, and the Sungei Mengkok for $1\frac{3}{4}$ miles, and a tie line to the Perak river at Sungei Durien, 3 miles long, were surveyed. Fourteen new permanent marks have been left on the banks of these rivers. Mr. Jayesuria was assisted for the whole year by Mr. G. Jayesuria, Apprentice. Mr. F. dos Remedios, Apprentice, went to Port Dickson in January to assist Mr. Rochfort, but returned to Mr. Jayesuria in April and assisted him till the end of the year. The survey launch was used almost continuously, (except for two and a half months when she was under repairs) in this work, being 2,166 hours under steam during the year. The field work was provisionally reduced and plotted in the field by Mr. Jayesuria and his assistants.

Mr. M. C. Baptist, Sub-Assistant, First Class.—Mr. Baptist cleared and erected beacons on Bukit Prabong and Bukit Rantau Panjang, Selangor, observing also preliminary angles.

In addition he re-cleared and repaired the old stations in Bukit Jeram and Gunung Bunga Buah, observing preliminary angles and making hill sketches from the former. At the end of April he returned to Perak, and with headquarters at Teluk Anson was engaged in clearing long lines and observing angles from eight secondary stations on the Bernam river, and one on the Dedap river. He completed this work, which was much delayed by the heavy felling and unfavourable weather he experienced, in December, having observed from Changkat Mentri, Rantau Panjang, Kampong Dato Khalipah, Sungei Sipantas, Kampong Bharu, Utan Melintang, Sungei Tengah, and Tanjong Lumba on the Bernam and Kampong Matang Kuntong on the Dedap river.

Moung Zan, Sub-Assistant, Second Class.—Moung Zan was engaged in clearing a site and erecting a station at Sungei Nipah on the Selangor coast, between Kuala Bernam and Kuala Selangor, during January, February and March. He went on leave in April, and being found medically unfit for further service, owing to defective eyesight, was retired on pension on 17th July.

Mr. A. E. Young, Chief Surveyor.—In May and June the Chief Surveyor visited Messrs. Sheaffe and Chapman in the field. In June and July he visited Upper Perak with the Perak and Siamese Commissioners in connection with the Perak-Raman boundary. The river Rhui was surveyed for about four miles in connection with this duty, and several points were fixed by astronomical and other observations affording useful information for correcting the existing and compiling a new sketch map of this region. He was assisted by Muhammad Tahar of the Revenue Survey Department and Mr. H. Bagoos. In September he visited Negri Sembilan and accompanied Mr. Irby up Gunung Telapa Burok.

Full details of the field work will be found in the appendices * from which the following extract of total instrumental readings is made :—

For Major and Secondary Triangulation	...	...	...	...	24,251
For Hill Sketches	...	...	...	...	10,940
For Tertiary Triangulation	...	...	...	...	3,796
For Astronomical Observations	...	...	...	...	1,502
For Traverse Surveys	...	...	...	...	656

TOTAL ... 41,145 as compared with 29,937 for 1899.

OFFICE STAFF.

The office staff was kept as small as possible for the same reasons as given in para. 22 of my report for 1899; *first*, because there was only one topographical party, *secondly*, because the vacant post of Chief Draftsman has not yet been filled up owing to the Crown Agents not as yet having secured a suitable candidate. The following was the personnel of the staff:—*First Draftsman*, W. van Dort; *Second Draftsman*, E. de Witt; *First Computer*, V. Namasivayam; *Second Computer*, M. Supramanian; *Tracer*, Chang Yiew Chong; *Apprentice*, C. Tharmalingam.

The new 4 mile map of the State, commenced in 1899, was practically completed, and is only waiting the settlement of the Perak-Raman boundary before being sent to England for reproduction. In the meantime, a tracing has been made of it, and several photographs by the ferro-gallie printing process have been issued to other departments and a few to the public. A one mile sketch map of the new territory was also prepared and copies of a similar nature distributed. The printed lists of co-ordinates, referred to in the 1899 report, were received from the Printing Office and copies supplied to the Revenue Survey and other departments. The current triangulation and traverse observations have been reduced by the computers, and the remaining portions of the Perak Major Triangulation rigorously adjusted down to the Bernam Base line. The latter comprised two figures; the first, called the Bernam Figure, embraced Bar Gading, Besout, Narran, Srigala, Mentri, Lyang, Tunggal, Lebah and Asa, and involved the determination of 37 corrections by 27 normal equations (14 angular and 13 side). The average correction found was 2·4 inches, which is the highest of all the figures yet reduced. The reason, I consider, to be due to the fact that in this figure the observations were made by 4 different observers, using 3 different instruments, and at periods differing by in some cases 3 or 4 years. It is known by experience that observations made by the same observer with the same instrument at the same period are much more consistent among themselves than those made by different observers using different instruments at widely different periods. In the second figure, named the Bernam Base Figure, comprising Lyang, Asa, Bharu, Lembah, Sekamat, North Base, Middle Base and South Base the angles were nearly all observed by Mr. Sheffield last year, and only one instrument was used. There were 33 corrections to be determined by 18 normal equations (12 angular and six side) and the average correction was 0·86 inches. The errors of trigonometrical levelling in both these figures were also dispersed

* Not printed.

by the method of Least Squares, the average correction to a difference of height being in the first case 2·87 feet, and in the second 0·38 feet. The high correction found for the Bernam Figure is no doubt due to the length of some of the lines observed over and also to the same causes that affected the closures of the horizontal angles.

METEOROLOGICAL.

Meteorological readings were recorded continuously during the year at Taiping, and the monthly returns published in the *Gazette*. Temperature observations were also made at nearly all the stations visited for triangulation purposes. A synopsis of the former for the year 1900, and also for the seven years, 1894 to 1900, with comparison diagrams of rainfall and temperature are given in the appendices *. The total rainfall registered at the Survey Office during 1900 was 177·93 inches, being 7·25 inches higher than the average of the past seven years. The greatest fall in one day was 4·04 inches on the 18th May. The maximum recorded temperature was 93° on the 8th August, and the minimum recorded 70° on the 21st December. The mean yearly temperature was 81·4°, being 1° higher than the average for the past seven years, and the mean daily range 13·1°, being 0·5° wider than the mean of the past seven years.

FINANCIAL.

The provision in the printed Estimates for 1900 was \$65,518. This was supplemented by an extra vote of \$1,500 for General Expenses (wages of coolies, etc.) bringing up the total provision to \$67,018. The expenditure was \$59,230·17, leaving a balance of \$7,787·83, chiefly due to savings on vacant appointments and salaries of officers on leave. The above total includes the amounts spent in the States of Perak, Selangor and Negri Sembilan, but not in Pahang. The amounts recovered from Selangor and Negri Sembilan, being the amounts due for the year, 1st December, 1899, to 30th November, 1900, were \$24,896·52 and \$10,642·91, respectively. The distribution of the expenditure for 1900, would therefore be approximately as under :—

									\$
Perak	...	...	...	...	...	...	...	...	23,691
Selangor	...	...	...	...	...	...	...	...	24,896
Negri Sembilan	...	...	...	...	...	...	...	...	10,643

The revenue collected from sale of maps, etc., was \$67·50.

ALFRED E. YOUNG, A.M.I.C.E., F.R.A.S.,

Chief Surveyor, Perak.

* Not printed.

REPORT ON THE FOREST DEPARTMENT FOR THE YEAR 1900.

REVENUE.

The total revenue for 1900 amounted to \$133,062.69, being an increase of \$21,841.04 on the year 1899. This was chiefly due to an increased demand for timber and consequent rise in price of the same. This increase, however, would probably have been half as much again, at least, if Government had not decided to issue free passes to miners. The issue of the latter caused the Kinta revenue to drop from an average of \$3,000 per mensem to under \$1,000 in December. The decrease being perfectly regular for each month.

Larut shews an increase of no less than \$4,111, but this is due to the fact that Bruas revenue being collected by the Department in Taiping, is no longer credited to Kuala Kangsar. Further the revenue obtained from timber from Matang and part of Selama, is all included, as it is found more convenient to work the tithes system with one central office. Some \$420 was received from the Railway on account of the contractors.

At the end of the year a sum of \$1,500 was due on account of tithes on timber removed during December. It was all paid up during the first week of January.

Each district shewed an increase in revenue with the exception of Selama. Appendix A* gives the actual figures.

The collection of revenue in Larut and Kinta was handed over to the Land Office at the end of May.

EXPENDITURE.

This amounted to \$45,012.45; cost of staff amounting to \$25,132.45, and Other Charges to \$19,880, being only 34 per cent of the revenue.

ADMINISTRATION.

Mr. A. B. Stephens, the Forest Officer, proceeded on leave on 1st April, and I was appointed to act for him. Mr. Allen was appointed Assistant Forest Officer, Kinta, in succession to Mr. Barnard, promoted to Selangor. Mr. Irving and Mr. Furnivall were promoted successively from Settlement Officer to be Assistant Forest Officer in Larut, but in each case were re-transferred to the Land Department. A clerk, both in Larut and Kinta, was handed over to the Land Office when the latter undertook the collection of Revenue.

The number of men paid from the Foresters vote amounted to 74 on the 31st December. During the year one man died and seven retired and ten were dismissed. Of the latter two were Forest Rangers, one in Larut, the Head Forest Ranger, and the other in S'tiawan, whither he had been transferred from Tapah. Of the eight men in the Batang Padang District, no fewer than five had to be dismissed during the year. One Forester in Kinta was convicted of taking bribes and was sentenced to six months, another was charged with murder, but was discharged.

Mr. Hill, the Inspector General of Forests in India, reported on our system of management.

RESERVES.

Demarcation.—The Pondok Tanjong Reserve, 30,800 acres, having been finally surveyed and demarcated, was duly *Gazetted*.

Gunong Semangol Reserve, 1,240 acres, was surveyed and *Gazetted*. The boundaries of this will have to be considerably widened, a survey line having merely been cut.

The Larut Hills Reserve, five miles and ten chains, was surveyed and demarcated. Only a portion of the Range has been taken up, as Getah does not appear to exist throughout the whole range.

The Bubu Reserve was surveyed and demarcated from the Kuala Kangsar pass to the Northern boundary of the Dindings. Owing to Mr. Hills recommendation, it was not

* Not printed.

Gazetted as he considered that it required further inspection and was of too large an area. I may mention that it is at present of about half the size originally contemplated, as I have given up the whole of the Eastern slopes of these Hills.

The Kledang Reserve was still in process of demarcation. Thirty-five miles of boundary having been cut and a track made along it.

At Parit, 11 miles were demarcated and surveyed. I have given up that portion of the reserve lying to the west of the Temboh river, owing to the strong objection of the District Magistrate, Lower Perak, to the forest at the back of the Malay Kampongs on the Perak river, being closed to the natives. The part in question is not particularly rich in good timber, and further, by crossing the Temboh, we include an extremely rich area of Chengal.

Mangrove Forest.—In accordance with Mr. Hills recommendation it is proposed to make these reserved forests and work them on a systematic plan. The first necessity is a good plan and I accordingly placed Mr. Jansz, the Surveyor of the Department, on this work in October. Fifty miles of the creeks on Pasir Hitam island were surveyed.

Progress is naturally slow as it is exceedingly difficult to keep coolies on this work. I intend putting a demarcator in addition on this work, so that it should be sufficiently far advanced by the end of 1901 to prepare a working plan under the system recommended by Mr. Hill. This latter appears to be a most excellent one. Though we will never again obtain the large trees which were common enough 10 to 15 years ago, yet, they will in 20 years be quite large enough for firewood purposes. At present we are working these forests far above their annual yield and thus, when the new system comes into force and for the 5 years following, there will be a very considerable shortage in the supply of mangrove firewood. So far as Larut is concerned, the situation could be easily met, by a large electrical scheme whereby the water power of the Batu Tugoh river might be made use of.

The expenditure from the Demarcation vote for the year on the reserves is as follows:—Bubu, \$1,697; Larut Hills, \$1,361; Gunong Semangol, \$471; Pondok Tanjong, \$384; Mangrove, \$1,034; Kinta, \$4,175; Various, \$830.

EXPLOITATION OF RESERVES.

Only two reserves are being worked for timber, *viz.*, Pondok Tanjong and Bubu reserves.

Pondok Tanjong.—Mr. Challencin was given the right to cut within a certain area and has turned out a considerable quantity of timber.

A steam saw bench has been erected capable of cutting 7,000 lineal feet of planking per diem, and also a large amount of hardwood has been cut. The figures being 280 tons hardwood; 380 tons planking; 5,421 sleepers for the railway. The duty received amounting to \$1,812, exclusive of \$70 received on account of rotan.

I endeavoured to persuade charcoal burners to come to this reserve at the plantation in order to get the ground cleared cheaply, but was unsuccessful.

Bubu Reserve.—The Railway contractor commenced to work on the 22nd mile Bruas road, towards the end of the year.

PLANTATIONS.

Pondok Tanjong.—Out of the two votes Planting and two tindals and 40 coolies, the sum of \$5,258.34 has been spent on this plantation during the year. With this money.

(a). One hundred acres have been planted with Merbau and Para, 15 ft. apart, *i.e.*, 81 of each to the acre, cost \$2,500.

(b). Twenty acres have been planted with Para alone, 12 ft. apart, *i.e.*, at 275 to the acre.

(c). One acre of Merbau has been planted, 4 ft. 6 in. apart, cost \$25.

(d). Twenty acres have been felled and cleared and holed ready for planting, cost \$240.

(e). Forty-eight acres have been felled but not yet burnt. The cost of this has, however, been debited to the year 1900.

(f). One hundred acres planted previously have been cleared in the line every other month.

(g). Sixty-eight acres of Rambong have been cleared throughout the lines twice and 156 new plants substituted for those which had died or been eaten. Also in some 20 acres of this, the majority of forest trees between the lines have been ringed in order to let in more light.

With regard to (a) some 20 acres were planted by contract at eight cents per tree by Siamese, together with their *padi*. This of course is wonderfully cheap, being only \$13 per acre.

Of the remaining 80 acres some 50 acres cost probably as much as \$30 per acre to fell and plant, as in one portion a very bad burn was obtained, and in the rest I found a very large number of young merbau trees and accordingly did not burn but had lines merely cut through the jungle already felled.

(b). This was planted in a patch of lalang and the cost per acre was accordingly less.

(c). This is an experiment. I noticed that young merbau, which had been planted in a nursery, 1 foot apart, shot up at double the rate of the trees planted nearly 2 years ago, some of a year old in the nursery at Parit being as much as 4 to 5 feet high. I concluded that close planting had something to do with it and fixed on 4 feet 6 inches, as that is the distance apart at which teak seed is planted in Burma by the Karens. The cost of this year's planting operations therefore amounts to \$2,834 for 121 acres. This works out to \$23 per acre.

The cost of clearing (g) was \$110, and the cost of ringing the trees say another \$50. Contingent expenses, such as cost of tools, purchase and freight on seed, cost of nurseries, may well be put down at \$200, leaving \$1,399 as cost of upkeep, inclusive of supervision of 221 acres. Of the newly planted area 40 acres were finished by the end of April and required cleaning during the year, and that finished by July also required cleaning slightly, so that we may well reckon 140 have been upkept for this sum, *i.e.*, at \$10 per acre. Mr. Hill told me that 50 to 60 rupees, say \$40 per acre, was considered cheap planting in the Indian Forest Department, this sum being inclusive of 3 years upkeep, after which time the plantations are abandoned, and the trees are left to find for themselves. Apparently, we can plant as cheaply here, though of course the ultimate cost, where Para is interplanted, will amount to probably \$70-80 per acre, by which time the rubber should be ready for tapping and return the extra money spent. It is a question whether more than \$30 per acre will be obtained through sale of rubber, before it becomes necessary to fell the Para so as to allow the young hardwood room to grow.

The Rambong is not doing well. The lines are not nearly wide enough to allow the sunlight to reach the trees. The result is that they are all very weak in the stem, and in fact seem to want to grow along the ground. I intend ringing practically every big forest tree within this area. The Rambong in the nurseries is not yet tall enough for planting and no extension can take place for another year at least.

The Bilian seed obtained last year were planted out and are doing well. I made an arrangement at the end of the year whereby the grass cut in clearing the plantation will be sold at a profit of, I hope, \$40 per mensem.

NURSERIES.

The following is the list of young seedlings in the nurseries on 31st December :—

Chengal (<i>Balanocarpus Maximus</i>) one year old	...	...	20,000
Merbau (<i>Azelia Palambenica</i>) do.	...	...	3,000
Bilian (<i>Eusideronylon Schwageri</i>)	...	...	1,284
Rambong (<i>Ficus elastica</i>) 24 bones seed	...	...	990
Para (<i>Hevea Braziliensis</i>) (1900 seed)	...	...	13,220
Do. do. (1899 „)	...	...	6,000

These latter will be planted out alone on the 48 acres already felled.

Taiping.—A total of \$1,224.85 was spent during the year.

(a). Four acres were planted between Swettenham road and the Railway, with Para, Merbau and Rambong trees. These are doing very well.

(b). One and half acres within the reserves were planted with broadleaved Mahogany (*Swietenia Machopylla*), and 1½ acres with Rambong. The former were kindly given by the Curator of the Museum. Unfortunately the trees had been rather long in the nursery and consequently many died owing to removal, and further the soil they are planted in is not too good.

(c). Sixteen acres were planted with Para, Merbau and other trees between the Assam Kumbang Road and the Railway. This has been a failure practically. The trees in the first instance have no chance, as this land is grazed over nightly by buffaloes, which it is impossi-

ble to catch, and further the soil over most of the area is very poor indeed. The land was partially drained and in this respect good has been done.

(d.) In addition to this the ground already planted (20 acres) has been kept clean. One or two Para trees have been attacked by white ants.

Parit.—\$1,022 were spent here. This plantation was commenced this year and the preliminary costs were consequently heavy. The houses, cost of nursery, etc., amounted to no less than \$500. The man who had been placed in charge of it at first was removed at the end of May, as he did not appear to be looking after the work. \$100 was spent on clearing 20 acres of land to be planted in 1901; this consisted of land given out to Malays for *padi*. Leaving \$420 as the actual cost of felling and planting 11 acres, roughly \$37 per acre. The trees here are planted 360 to the acre. I having followed Mr. Hill's suggestion and planted three rows of Para to 20 rows of Merbau.

Ulu Kurau.—The indigenous Rambong trees here were cleared round again. No tapping has taken place, and it would be interesting, in view of the late discussion as to the output of Rambong, to tap some of these trees for the next few years. A certain amount of seed was obtained and sent to Pondok Tanjong.

S'tiawan.—\$53.76 was spent on this Rambong plantation in May. In July, however, the whole plantation was destroyed by fire, and I have since then abandoned it. The fire started near Lumut and took two days to reach this place. The Ranger in charge might well have obtained help in cutting the grass on the road which was specially made to provide against this occurrence. He has since been dismissed for this and other reasons.

General Expenditure.—Which could not be classed to any plantation in particular amounted to \$282.20.

COAST FARM.

Government decided at the end of the year to abolish this farm and to collect the duties themselves. No difficulty will be met with so far as timber is concerned, as the duty can be collected at the same time as the royalty, in Taiping; 20 per cent. instead of 10 per cent being taken. Apart from revenue purposes it was distinctly advisable to abolish the farm. I found one Chinaman at Sungei Hantu paid 2 cents per basket of charcoal exported, where as another at Temerloh—presumably a friend of the Towkay—only paid 1½ cents. There were also varying rates for fish up the coast.

RAILWAY CONTRACTOR.

This man was given every facility to commence work. He has not managed to turn out the full number of sleepers required per mensem under his contract, but his output has increased monthly. His output up to December being 10,255 Sleepers, 1,129 tons of Chengal and Merbau, 115 tons of Kulim, and 1,108 tons of Meranti. I would suggest that the Railway have at least 2 or 3 classes of sleepers, and that they should accept all sleepers offered and pay according to classes. It was interesting to find that when relaying the line to Kamunting, that of Chengal, Merbau, Tembusu and Kulim sleepers, which had been laid down 10 years previously, in blocks of 500 each, a larger proportion of Kulim remained than of the others.

COST OF TIMBER.

Considerable complaint has been raised as to the increased cost of timber, and it has on occasion been attributed to the operations of this Department.

The following is the actual cost price of some sleepers cut at Jelutong and delivered at Pondok Tanjong. I chose one tree which was 3 ft. 5 in. in diameter at point of severance, and was therefore rather above the average size; 140 cubic feet of sawn wood were obtained from this tree, producing 70 sleepers. The preliminary costs amounted to \$12 before the tree was ready for the sawyers, made up as follows:—

							\$
Cost of search for trees	...	...	...	...	...	...	1
Four days cleaning path, 2 men	...	...	...	...	...	...	4
Felling ...	...	...	...	...	...	...	1
Two days, 2 men cutting into length	...	...	...	...	...	...	2
Two days, 4 men putting up struts and placing timber in position	...	...	...	...	...	...	4
							—
						Total	12
							—

Each double sleeper costs 52 cents to saw, and 2 of them are dragged to the roadside for 60 cents, so 4 sleepers cost \$1.72 at the roadside, and the whole 70 sleepers cost \$40.10 to saw and deliver; add \$2 cost of sawing the double sleeper into single, and \$5 cart-hire to Pondok Tanjong Station, and \$7 Royalty at 10 cents per sleeper and the total cost amounts to \$66. The Railway pay \$1.10 per sleeper and the profit remaining is \$11.

This appears good enough, but this kongsi, while lucky in being near a road and the Railway, has to my certain knowledge to pay \$120 per mensem for grass supplied to the buffaloes. This takes off a certain amount of the profit and the loss of one buffalo converts profit into distinct loss.

SUBSTITUTION OF LICENCES FOR PASSES.

When I took over from Mr. Stephens, the pass system was in vogue everywhere, except at Bruas and Pondok Tanjong. At these two places licences were in force and the various kongsis paid on the actual tonnage of timber produced, in accordance with the supplementary timber roll published in *Gazette* Notification No. 66 of February, 1900.

Timber Rule 6 prohibits the issue of passes to timber cutters, except with the express permission of the Resident. After Mr. Hills visit I decided to introduce the licence system. Two courses were open (a) to collect royalty according to the 1st timber roll at so much per tree, (b) to collect it on the amount of sawn timber produced in accordance with the 2nd timber roll as was being done at Bruas. I decided on the latter for the following reasons.

Firstly.—Mr. Hill condemned the former as unworkable.

Secondly.—That by it the Government did not obtain the fair royalty of 10 per cent, e.g., take the tree mentioned in para. 8 of 3 ft. 5 in. diameter. By the 1st timber roll Government would receive \$1.10 Royalty, under the latter we obtained a tithe of the actual market rate for sawn sleepers, i.e., \$7.

Thirdly.—Mr. Hill in his report recommended the adoption of the second system, with further elaboration of paying a fixed sum on each tree, whatever the size, etc. But substantially the second system was the same as his, and if Government decided to adopt his proposals, it would entail the smallest amount of change. I therefore stopped the issue of passes, taking each district separately. This is of course only a step in the right direction. During the ensuing year, the foresters are to learn to measure and mark the trees felled during the month by the kongsi and send in the return to the office. The next step should be to reverse the proceeding and make the foresters mark the tree before it is felled. Once they have learnt this the rangers can soon be taught to leave certain trees for seed purposes.

DISTRIBUTION OF FORESTERS.

The introduction of the above system necessitated a redistribution of the men, a fairly educated man being required to measure timber. On the whole the men chosen have done the work exceedingly well. In time, the men shewing a natural aptitude for this work should be picked out and given higher pay. The minimum, in my opinion, being \$15 per mensem, and as the men learn to do their work, fewer will need to be employed than at present.

The men were distributed as follows :—

	Rangers.	Foresters measuring Timber.	Forest Guards.
Larut, inclusive of Matang, Bruas and part of Selama	2	7	7
Kuala Kangsar	1	2	3
Krian	1	1	5
Batang Padang	1	3	5
Lower Perak	2	2	3
Kinta	2	7	10
* Upper Perak	1	—	3
* New Territory	—	—	2
* Selama	—	—	2
* Matang, Mangrove only	—	—	6

* In these districts the licence system had not yet been introduced.

HOUSES.

The house at Pondok Tanjong, the only one belonging to the department, was kept in good repair. I found considerable difficulty in getting Foresters to go to certain places owing to the high cost of living and house rent.

CASES.

The total number of Forest cases was 350, the number of arrests 621, and the convictions 464, being an average of 80 per cent.

TABAN.

In October, I collected some Taban Puteh and sent it to Kew Gardens. The getah was collected by a Malay in my presence, after he had finished with it, I subjected half of it to further cleaning, and whereas the cleaned portion was declared to be worth 2s. 6d. per lb., the uncleaned portion was declared practically worthless. This is interesting as shewing that when the collection of Getah is undertaken by Government, a second cleaning locally will enhance the price considerably. There is not the slightest doubt that this Getah Percha can be collected by tapping the trees in the same way as rubber. Taban Merah, however, must be treated in some other way. In conclusion, I must thank the various Collectors of Land Revenue for the material assistance given in looking after the Foresters.

F. W. DOUGLAS,
Acting Forest Officer.

REPORT ON THE POST AND TELEGRAPH DEPARTMENT FOR THE YEAR 1900.

In reviewing the work done and the Revenue earned by the Department during the past year, as it is the last year of a decade, it may not be considered uninteresting to mark the progress made by a comparison of the position of the department in all respects now, with what it was in the last year of the previous decade, and when it was first started as an independent department.

REVENUE.

The department first obtained an independent existence, I find, in 1884, previous to which year it was under the control and guidance of the Auditor of the State. I find that in 1880 some Postal and Telegraph Revenue must have been collected as \$75 is estimated for postage and \$95 for telegraph collections. In 1884, however, a revenue of \$3,537.84 was collected and in 1890 this had risen to \$32,760, according to the departmental return, but \$21,890 according to the Treasury and Audit Office returns. The revenue for 1900 collected from the public totals to the sum of \$89,857, or more than four times that of 1890. But to this figure is to be added the not inconsiderable sum of \$16,855, the estimated value of Service telegrams forwarded for other departments, and the sum of \$15,625 representing the value of Free Service correspondence posted by other Government Departments. The total revenue earned, therefore, may be stated in round figures as \$122,000.

Of the above amount collected from the public, \$6,364.81 was for Commission on Money Orders, the corresponding figure for 1890 being \$2,159.80, though in the former case the amount is nett, after deducting dues to the Straits Settlements for Foreign Money Orders, while in the latter case they are included and would amount to about \$400. In 1884 \$240 was collected under this head.

Under the heading of Fees on Bearing Letters there was collected in 1900, \$3,489.46 as compared with \$1,572.70 in 1890, at a rate for foreign postage higher by 50 per cent. These fees are collected mostly on letters from foreign Countries, particularly India.

It is not possible to make a comparison separately of the receipts from Fees on Telegrams, and Sale of Stamps, as the former are now included in the latter, but in 1890 the former amounted to \$4,285.90, and the latter to \$13,873, giving a total of \$18,156 as compared with \$79,318 as the total for both combined for 1900.

EXPENDITURE.

The total expenditure for the past year, exclusive of non-recurrent items, but including the cost of printing, amounts to \$96,000, or less by 20 per cent than the revenue earned. In 1890 I find the expenditure was \$60,461, or over 200 per cent in excess of the revenue, while in 1884 it was over 300 per cent. It is worth noting that in 1890 actually more money was being paid for the carriage of mails than is being paid now, \$23,662.79 being the amount paid in 1890, while during 1900, including the payment to the Straits Settlements for Foreign mails and Bounties, the total is \$18,948. The explanation of this is that in 1890 a large annual subsidy of \$18,000 was being paid for a steamer running between Port Weld and Penang which has now been replaced by the present overland service since 1893.

POSTAL.

Mails.—The total number of mails received and despatched during the past year amounted to 57,911 and 48,274. They carried postal articles to the number of 4,600,904. In 1890, 475,305 and in 1884 160,328 covers passed through the post.

Registration and Parcels.—in the year under report 56,660 articles were registered at all offices and 51,718 registered articles were delivered; 56,984 were dealt with in transit. Parcels were posted to the number of 4,050, delivered 4,706, and dealt with in transit 3,890. I can find no figures for 1890 and 1884 to compare with these.

Money Orders.—Perhaps nothing better indicates the progress the department is making than the figures in connection with this branch as given below :—

		1884.	1890.	1900.
Issues on India ...	... rupees	40,755	140,002	427,720.7
" ...	... dollars	...	63,579	287,894
Issues on Ceylon ...	... rupees	9,030	37,039	68,023.25
" ...	... dollars	...	16,686	45,869
Issues on the Straits ...	... "	9,718	24,072	61,682
" other Native States ...	... "	...	Nil.	5,522
" China, etc. ...	... "	...	Nil.	23,602
Local issues (on Perak) ...	... "	805	11,505	157,148
Total dollars ...	...	...	115,842	581,717

In addition to the above transactions for 1900, British Postal Orders to the value of \$8,645 were issued to the public, Money Orders to the number of 5,925, and the value of \$180,617, were paid, and Straits Postal Notes to the value of \$800 were cashed.

The Savings Bank.—After the very satisfactory progress recorded for the first eight months' working of the Bank, as a branch of the Post Office, it seems curious that for the next twelve months, I should have to report that no further advance has been made at all, but that if anything there is a slight falling off; for though the amount due to Depositors on the 31st December, 1900, is \$3,434.53 in excess of what it was on the same date of 1899, this is merely due to the addition of the interest for the year. In reality, however, the business of the Bank was larger than during any previous year, as a reference to the amount of deposits, the number and the number of new accounts in the figures given below will show. The reason why the withdrawals have been so heavy, resulting in an actual decrease in the amount due to Depositors at the end of the year instead of an increase, is susceptible of explanation. A very large number of Depositors are from India and merely use the Bank as a safe repository for their money, until such time as they either find a satisfactory opportunity of remitting to India, or they are returning thither; during the past year the exchange on India has been more favourable than it has been for a very long time past, and such Depositors taking advantage of this have withdrawn their savings and remitted them.

Notwithstanding the heavy withdrawals the Bank has added to its balance a sum of not less than \$456.5, and this does not represent alone the whole of the profit made, as a sum nearly as large was paid out of profits as the premium on the purchase of \$14,115 worth of 1895 Singapore Municipal Bonds, bearing interest at 5 per cent. As these Bonds are not due till 1925 this premium will be recouped many times over in the extra interest accruing in future years, the usual interest obtainable for the Bank's investments being not more than 4 per cent. The following are the figures shewing the position of the Bank. I regret some clerical errors crept in, in my report for last year, in connection with the number of new accounts, the number closed, and the number remaining open. There are now correctly given below:—

	1900.	Eight months, 1899.
New Accounts opened	389	284
Accounts closed	399	249
Accounts remaining open	955	965
Number of Deposits	2,974	2,017
Amount	\$86,897.99	\$60,702.2
Average amount of each Deposit	\$29.21	\$30.9
Number of withdrawals	774	495
Amount	\$86,890.95	\$44,638.51
Average amount of each withdrawal	\$112.26	\$90.19
Amount credited as interest	3,481.79	2,198.29
Working expenses	1,292.42	763.17
Nett profit made by the Bank	456.5	375.29
Balance to credit of Bank	5,476.86	5,020.3

General.—The mail services have continued satisfactory, except for one accident, when the mail gharry at Bagan Serai, on its way with mails for Penang, was precipitated into the drain and the mails were so saturated with water that they had to be detained at that Office for twenty-four hours to be dried.

Very great inconvenience was caused during the year by the non-receipt of the new Federated Stamps. It was found necessary to seek the assistance of the Straits Settlements Government to supply us temporarily with a stock of stamps to meet the public requirements.

With the kind assistance of the Captains of steamers running between Teluk Anson and Penang, I was enabled, somewhat late in the year, to effect an improvement in communication between Post Offices in the Kinta District and Penang. The Captains consenting to wait for some little time longer after the arrival of the last train at Teluk Anson, and the Railway consenting to the use of a room at the Station in which to deal with the mails, it was found possible, by directing the inland offices to make up direct mails or packets for Penang, Singapore, and Klang, to give the public the convenience of posting for these places up to a considerably later hour. It may be of interest to note that the volume of correspondence posted in our Post Offices for Penang and Singapore, is still largely in excess of that between the Offices themselves, in fact to the extent of almost three times, and it is therefore still necessary to give greater consideration to outside communication than to local communication. The mails from Ipoh are specially heavy and large.

TELEGRAPHS.

Telegraph communication during the year has been greatly affected by the weather, which has been the worst I have known for the past seven years. Not only has the weather

been continuously bad, thunderstorms following one another almost daily for months together, and frequently more than one in a day, throughout Perak; but the Colony have been equally unfortunate with their cables between Penang and Province Wellesley which have been interrupted time after time, resulting in very heavy delay and consequent loss of revenue, both for the Colony and the States, as the telegraphing public between Perak and Penang seems to be very largely on the increase. It would certainly seem desirable that something should be done to lessen the number of interruptions of the cables. Even as I write I understand there is but one cable working, and that is quite inadequate to carry with expedition the whole of the work between Penang on the one side and Province Wellesley, the Federated States and now also Siam on the other. Some protection, similar to what I understand is given to the cables between Hongkong and Kowloon, would appear to be what is required.

In 1884 it is recorded that 21,780 telegrams were dealt with; in 1890 the figure was 94,052, and for 1900 it has reached 800,324. I should again explain, however, that these figures represent the amount of work done at all offices and includes the counting of the same telegram twice or even three times, according as it is required to be taken down and re-transmitted once or oftener. The actual number of telegrams taken over the counter for the year, including Service telegrams, was 109,152, and the number delivered amount to 142,852.

Notwithstanding the bad weather the average time that all telegrams took to reach their destinations during the year has not amounted to more than 41 minutes, and the average delay to any single telegram at any office works out to but 7 minutes.

The following new lines have been added to the mileage during the year:—

	Miles.
Kuala Kangsar to Janing	55
Tapah to Temoh	6
Bidor to Sungkai	11
Gopeng to Kuala Dipang	6
Gopeng to Kampong Kapayang	6

There is now a total of 365½ miles of poles and a total of 680 miles of wire in the State, exclusive of course of railway telegraph lines. I am unable to quote any figures for 1884 and 1890 to compare with these, nor if I could would it serve to give any idea of the amount of work done in connection with the lines during the intervening years, as, in addition to numerous new lines, the whole of the pre-existing lines (with the single exception of that between Parit Buntar and Taiping) have since 1892 undergone complete reconstruction.

GENERAL.

No new offices were opened during the year. At the end of the year there were open 19 Post and Telegraph Offices, seven Railway Stations, where the Station-masters conducted ordinary postal work, and three other places where the work is transacted by other Government officials. Of course, every Railway Station is also a Railway Telegraph Office. In 1890 there were but 10 Post Offices, and in 1884 but five.

The new Post Office building at Sungei Siput was completed during the year and occupied, but that for Menglembu, which was allowed for in the Estimates, could not be proceeded with owing to the difficulty in obtaining a piece of land for the purpose. This was only overcome in the last month of the year and the money for the building has had to be revoted for the ensuing year. A new building for Padang Rengas Post Office was begun but not completed by the end of the year.

In the month of March, the Audit Office descending on the small office of Menglembu for a surprise audit found the Postmaster's cash short by some \$40, which it was represented had been sent to Ipoh for stamps. The Audit clerk proceeding to Ipoh to verify the Postmaster's statement the latter took advantage of the interval to make a bolt and has not been captured up to date.

I regret to record that the health of the Staff has been anything but satisfactory during the year. One after the other men have been off duty for days together on medical certificate, as many as four and five being away at a time for several days. What with this and the fact that three or four were away on long leave it has been with the greatest difficulty that the work of the department has been carried on. On the 31st December, 1900, the staff numbered 63, as compared with 26 in 1890. But the number is still none too large if proper provision is to be made for a certain proportion of the staff being always on short or long leave and though I am thankful that sanction has been given for a considerable addition for 1901, I doubt if I shall not be forced to apply for still further additions for 1902 to meet the annually increasing telegraph requirements, as well as for making the necessary provision mentioned.

P. J. NELSON,
Superintendent Posts and Telegraphs.

REPORT ON THE COURTS DEPARTMENT FOR THE YEAR 1900.

The revenue of the Courts from all sources was \$60,560.76, being \$5,695.95 less than in the preceding year, but \$1,735.76 in excess of the Estimates; \$33,264.56 was collected on the Criminal side and \$27,296.20 on the Civil side.

The number of cases tried on the Civil Courts was 3,525, as against 3,468 in 1899, and the number of persons criminally tried was 9,681, as against 9,612 in 1899, a very slight increase of work on both sides.

The revenue in the Criminal Courts shews a falling off, as compared with 1899, of \$6,449.74, Batu Gajah Court being \$1,150.83, Lower Perak \$3,754.84, less than in the previous year.

The revenue on the Civil side shews an increase of \$753.79.

The number of persons tried criminally in Kinta was 4,253, Ipoh having the largest number, *viz.*, 1,877; while in Taiping, 1,846 persons were tried. On the Civil side, Taiping heads the list with 8,588 cases, Ipoh coming next with 559.

The Civil cases were divided as follows:—Judicial Commissioner's Court, 11; Senior Magistrate's Court, 301; Magistrate's Courts, 3,213, and on the Criminal side, 17 persons were arraigned before the Judicial Commissioner, 131 before the Senior Magistrate, and 9,533 before other Courts.

The Judicial Commissioner heard 11 civil appeals, of which six were allowed, and no criminal appeals. The Senior Magistrate heard 11 criminal appeals and 22 civil appeals, in addition to 279 civil cases in original jurisdiction.

The number of inquests held were 326.

On the 1st August the Criminal Procedure Code, Probate and Administration Enactment and a new Courts Enactment came into force. These were all much needed, especially the two former. The latter reduced the Powers of Magistrates, and more Criminal work has then been thrown on the Senior Magistrate. It has also rendered it necessary to appoint as Magistrates of the First Class, all Assistant Magistrates in charge of sub-divisions, which I am afraid is a mistake in some instances. I am told, however, that this Enactment is shortly to be amended.

I trust that it will not be long before the Civil Procedure Code makes its appearance as it is very badly required.

Mr. R. G. Watson, who was Acting Senior Magistrate, went on leave in March, and I was appointed to act in his place, Mr. W. G. Maxwell, Registrar of Courts, Kinta, was brought into the Secretariat, and Mr. A. W. Just has since carried on the combined duties of Assistant Magistrate, Ipoh, and Registrar of Courts. This has thrown a great deal more work on his shoulders than he can possibly carry out, though he has done his best to cope with it.

The Registrar of Courts, Taiping, Mr. J. A. Hendricks, died at the end of March, and Mr. Clayton was appointed temporarily in his stead, after a little while he was sent to Matang and Mr. H. A. Burgess was brought in to combine the duties of Magistrate and Registrar, Larut, another unsatisfactory arrangement as it is quite impossible for one officer to carry on the whole work of both the Departments.

It is to be hoped that when more officers are available these duties will be again divided.

A. L. INGALL,
Acting Senior Magistrate.

REPORT ON THE EDUCATION DEPARTMENT FOR THE YEAR 1900.

FINANCIAL.

The revenue for the year amounted to \$2,086.23, made up of School Fees, \$1,413.80, and receipts from the Sale of Books and other School Requisites, \$672.43.

The estimated expenditure was \$85,315, or 1.5 per cent of the ordinary estimated revenue of the State for 1900.

NUMBER OF SCHOOLS.

At the close of the past school-year there were in the State 11 English schools, 103 Malay schools and five Anglo-Tamil schools, making a total of 119 schools of all kinds. Of these, three and ten, respectively, are English and Malay girls' schools. There is also a Tamil girl's school at Bagan Serai, Krian.

ENROLMENT AND ATTENDANCE.

The average enrolment and attendance at each of these schools in 1899 and 1900 are given in Appendix A.* The aggregate enrolment of the 119 schools at the end of the year under report was 4,730, or an average of 40 scholars at each school. The average monthly enrolment for the year being 4,599, and the average daily attendance 3,374, or 73 per cent.

The following statement shews the number of schools and the average enrolment and attendance in each district during the year :—

District.	Number of Schools.	Average Enrolment.	Average Attendance.	Per-centage of Attendance.
Larut	19	970	752	77
Matang	12	316	216	69
Kuala Kangsar	17	617	414	67
Upper Perak	5	158	112	71
Kinta	14	577	414	72
Batang Padang	7	213	138	65
Lower Perak	19	766	576	75
Krian	21	804	584	73
Selama	5	178	128	71
Total ...	119	4,599	3,334	73

ANNUAL INSPECTION.

The Malay school at Bota was the only school with sufficient number of days not examined, this was due to prevalence of small-pox in the district and the school had to be closed. The number of schools examined was 116 (107 boys and 9 girls), the work of inspection and examination for Malay schools having taken three months to complete. Appendices B,* C* and D* show the results in detail.

In all, 1,838 scholars were presented for examination, 530 English scholars; 1,208 Malay; 100 Tamil; as against 1,786 scholars presented at the previous inspection. The following statement gives the per-centage of passes in reading, writing and arithmetic at the three classes of schools in the years 1899 and 1900 :—

Schools.	Reading.		Writing.		Arithmetic.	
	1899.	1900.	1899.	1900.	1899.	1900.
English	77	95	77	97	84	96
Malay	86	98	86	96	75	84
Tamil	80	96	76	94	71	92

* Not printed.

ENGLISH SCHOOLS.

Attending the schools at the close of the school year there were 1,071 scholars. The average monthly enrolment was 1,059, and the average daily attendance was 861, or 81 per cent. Each school met on an average 224 days during the course of the school year. There were 530 scholars presented for examination, and 2,693, out of a possible 2,899, passes were obtained, or 93 per cent of the possible number, as against 87 per cent obtained in the 1899 inspection. All the Grant-in-aid schools and the Government English schools were examined by the Federal Inspector, with the exception of St. Michael's, Kuala Kangsar English school, Kamunting and Gula; these were examined by Mr. Vanrenen, the Assistant Inspector and myself.

GRANT-IN-AID ENGLISH SCHOOLS.

The Federal Inspector's minutes on the inspection of the schools examined by him are here given :—

Central School, Taiping.—The annual inspection was held during the month of October, 202 boys, (European 19, Malay 33, Chinese 102, Indian 48) were presented in the various standards, all of whom were examined in every subject. Of 31 boys examined in Standard I, 90 passes were obtained, out of a possible 93 in the three R's, a most satisfactory result. In Standard II there were 7 failures in reading, one in dictation and three in geography, out of 23 boys presented. In Standard III, out of 22 boys examined, there was but one failure in elementary subjects; arithmetic and dictation were especially good. Fifty-nine boys were presented in Standard IV, there were 10 failures in reading, 6 in arithmetic, 12 in English vocabulary, one in composition, five in geography and 21 in English grammar. Dictation good.

The standard of English knowledge in English subjects is much higher. This will account for the greater number of failures as compared with the first three Standards. Standard V presented 29. In this standard a first attempt at composition is made, only six very weak passes were obtained. This subject, of course, presents great difficulties to a class composed entirely of Natives. The extra subjects taught are Science and Hygiene. Standard VI, 18 boys; Standard VII, 11 boys. These standards have had the benefit of two experienced English schoolmasters and the results were very satisfactory. There were six failures in English grammar and analysis, 12 in elementary science, 10 in arithmetic; one boy passed an excellent examination in Euclid and English literature as specific subjects, and another in algebra. Freehand drawing is taught throughout the school.

The attendance during the year averaged 91 per cent of the average number in enrolment (245); the school met 201 days in the course of the year.

At the Taiping Anglo-Tamil school 12 boys were presented in four Standards out of an enrolment of 40. The result of the examination was fairly satisfactory in the lower standards, but, I am afraid, the boys are learning very little English. Apparently the master makes a practice of talking to the boys in Tamil. The average enrolment was 38 and the average daily attendance 30. The school met 217 days. Drill is taught and attention is paid to tidiness and good behaviour in the school-room.

Parit Buntar School.—The annual examination was held on October 28th, I regret that I am not able to report favourably on the year's work. It is a little better than the Tamil school. The boys presented in Standards I-III obtained 52 out of 56 possible passes. The Federal Inspector remarks "with one exception none of the boys passed a creditable examination. It is of little use a boy remaining in this school after he has passed the 2nd Standard." Mr. Driver, who examined this school in 1899, does not refer very favourably to the capabilities of the teacher. Average enrolment 34, average attendance 25.

Convent Girls' School, Taiping.—The general result of the examination was very satisfactory. Good progress has been made and the work is intelligently taught. The best results were shewn in writing and arithmetic all through the school, and in grammar and composition in the higher Standards; 47 were presented in all Standards, except the VII. One hundred and seventy-five passes, out of a possible 184, were obtained. Average enrolment 74, average attendance 66.

Methodist Girls' School, Taiping.—The examination was held on the 25th and 26th of October, 28 were presented in all Standards, except the IV. In the first three standards all passed very well in all subjects. Grammar was somewhat weak in Standards V and VI, one girl was presented in English literature (As you like it) and passed with great credit. Three passes were obtained in drawing as a specific subject. The result of the examination was entirely satisfactory and the school fairly earned the highest grant. The average enrolment for the year was 32, and the average attendance 28. The school met 211 days during the year.

Methodist Boys' and Girls' School, Ipoh.—One hundred and ten boys and five girls were presented in the various standards. The result of the examination was extremely satisfactory. There were no failures in Standards I and II, one in Standard III, and 78 passes out of a possible 84 were obtained in Standard IV. Standards V, VI and VII did exceedingly well. Twenty boys were presented in Algebra, stage I and IV, Euclid, stage II, English literature (As you like it) and drawing. The discipline and tone of the school are good, and Mr. Wood is to be congratulated on the excellent work done during the year. Out of the five girls presented there were failures in two subjects in Standard IV.

St. Michael's School, Taiping.—This school had an average enrolment of 57 and an average attendance of 40, 28 children were presented in Standards I—IV. The weakest subjects were geography and reading, the children were also presented in Tamil reading and writing up to Standard IV, and succeeded very well.

Kuala Kangsar English School.—The average enrolment and attendance at this school for the year were 35 and 27, respectively. The school met 114 days during the year, 13 boys were presented, there was one failure in arithmetic in Standard I and one in English vocabulary in Standard IV. Mr. Vanrenen, who examined this school, remarks that the number of school days is extremely low and some of the boys presented for examination had a very small total of school days to their credit. The school was closed from January to July, 1900, for want of a master.

Kamunting English School.—This school was examined by Mr. F. A. Vanrenen. He reports that 44 out of 44 boys on the register were present and that 23 were presented for examination in the four standards. The result of the examination was most satisfactory, the per-centage of passes being 99. The boys show every indication of being carefully taught and of being kept in very strict order. The pronunciation of the boys is very fair and the teacher is to be congratulated on the high state of efficiency of the school.

MALAY SCHOOLS.

Ninety-three boys' schools had in December an aggregate enrolment of 3,461, or an average of 37 scholars to each school, and the 10 girls' schools an enrolment of 198, or 20 scholars to each school, the average age of boys being nine, and the girls eight years. The average aggregate enrolment at the boys' and girls' schools in the State for the year under report was 3,540, and the daily attendance 2,473, or 70 per cent, as against 69 in 1899. Each school met, on an average, 221 days during the course of the year. This is very satisfactory considering that numbers of scholars keep away during the *padi* planting and harvest seasons. During the year there was also a great deal of sickness and a few schools had to be closed for a short period. The State also was without the services of an Assistant Inspector of Schools at Kinta for the greater part of the year. No fewer than 2,182 scholars left during the year. It has been ascertained that 1,165 of these are now engaged in agricultural work, three as clerks, four as teachers and monitors in Malay schools, 49 are pupils in English schools, 63 as fishermen, 45 as shopkeepers, 124 as coolies, eight as policemen and sailors, 13 as orderlies, 21 as syces, while 479 have migrated to other States and countries, seven have died. This leaves 201 unaccounted for.

ANNUAL INSPECTION.

The total number of scholars present at the annual inspection of the Malay boys' and girls schools was 3,157, or 67 per cent of the number on the register and 1,205 (1,157 boys and 48 girls) were presented for examination, 609 in Standard I, 303 in Standard II, 163 in Standard III and 130 in Standard IV. The passes obtained amounted to 3,935 out of a possible 4,288, or 92 per cent, very favourable results (passes in needle work are included). Four girls were presented in Standard IV (highest). There were 237 passes in Romanised Malay. The number of Koran classes is 79, attended by 1,450 scholars, of whom 104 passed in the Koran during the course of the year. A list of the teachers will be found in appendix E*.

TAMIL SCHOOLS.

Four of the five schools at which Tamil is taught were examined in Tamil, by Mr. Brown, Assistant Magistrate and Indian Immigration Agent, Mr. Ramapillay, Assistant Master, Central school, and Mr. Guanapragasam, teacher, Anglo-Tamil school, Kota. To these gentlemen the thanks of the education department are due: 100 scholars were presented for examination, 275 passes were obtained, or 96 per cent of the number obtainable, a satisfactory result. The schools examined were those of the Roman Catholic Mission in Larut and Krian and the one on the Gula Estate. The attendance also was very satisfactory.

MALAY TRAINING COLLEGE.

The College was opened on June 16th, 1898, and closed on December 31st, 1900. There were 10 students, five from Perak and five from Selangor. Sheik Nasir, the Head-

* Not printed.

master, is to be congratulated on the very able manner in which he carried out his duties. The College has been a great success and the work done by the students has always been satisfactory. The health, discipline and the general behaviour of the students throughout the year were excellent. One student from Selangor, Muhammad Salleh, I am sorry to report, was expelled from the College in June, 1900, just two months before the final examination.

On August 2nd, Mr. Collinge, the Inspector of Schools, aided by myself, held the final examination, except in arithmetic the examination papers show good work, but one or two of the students should give more attention to geography and drawing. The Selangor students left for Selangor after the examination to take up appointments as Assistant Masters there. The five Perak students continued their studies till the 31st December. Care was taken to improve them in their weaker subjects and I am able to report satisfactory progress on their part before they left the College. They have since been appointed as Assistant Masters in Perak.

GENERAL.

The general results here set forth for 1900, compared with those of the previous year, show that substantial progress has been made. It would no doubt be more gratifying to see the schools more numerous and regularly attended, but taking the results as a whole they seem to me as satisfactory as could be expected. The new Education Code came into force at the beginning of the year.

Mr. Stainer was appointed Headmaster of the Central school in April. Since then the school has progressed rapidly and shewed very favourable results at the annual inspection held in October. Thanks are due to him and his able Assistant, Mr. Curtis, for the work they have done. There was a great improvement in the course of the year in Technical Education at the Malay College, and nearly all the Malay Girls' schools have weaving looms, and the work turned out by them is deserving of praise. A considerable sum of money was spent during the year on school apparatus.

Mr. Patrick, the Assistant Inspector of Schools, Kinta, I regret to say, died at Penang in May, after a long illness. Mr. Collinge, the Inspector of Schools, left for England on long leave in August.

Mr. F. A. Vanrenen was appointed Assistant Inspector of Schools, in October, and has been of the greatest assistance to me. The Visiting teachers of the various districts did good work during the year, and I have to acknowledge much valuable help received from District Magistrates and other officers.

W. M. PHILLIPS,
Acting Inspector of Schools, Perak.

THE PERAK MEDICAL REPORT FOR 1900.

DISTRICT HOSPITALS, IN-DOOR DEPARTMENT.

The population of Perak for 1900 is estimated roughly at 317,270.

The number of births during the past year were registered at 5,149, and the number of deaths are returned as 14,000, giving a birth-rate per mille of 16.22, and a death-rate of 44.12.

Owing to the present unsatisfactory manner of registering deaths and births, it is difficult to give anything approaching a correct estimation of the population or of the birth or death-rates. The present manner of registration no doubt answered its purpose 15 years ago, but this State is now sufficiently developed to adopt a more modern system.

Deaths.—The number of deaths for 1900 exceeded any other previous record as the following figures will testify:—1898, 8,198 deaths; 1899, 8,756 deaths; 1900, 14,000 deaths.

In grouping the deaths into the various nationalities we find:—

Year.	Europeans and Eurasians.			Chinese.	Malays.		Indians.		Others.	
1898	...	9	...	4,905	...	2,567	...	647	...	70
1899	...	10	...	5,213	...	2,580	...	871	...	82
1900	...	9	...	8,275	...	2,888	...	2,680	...	148

A further table shewing rates of mortality per thousand for the last 3 years is appended:—

Year.	Europeans and Eurasians.		Chinese.		Malays.		Indians.		Others.	
1898	...	6.98	...	35.00	...	23.88	...	45.68	...	7.39
1899	...	6.65	...	33.09	...	23.61	...	52.50	...	8.69
1900	...	5.13	...	46.96	...	26.06	...	139.66	...	15.84

The most striking fact of these figures is the very high rate of mortality among the Indians. A death-rate of 139.66 per mille requires some explanation. During 1900, 5,899 Indian coolies were brought into the country for Railway Construction, for Irrigation Works, and for the opening up and working of Estates. In many instances large batches arrived from India who ought never to have been sent, their emaciated condition was highly suggestive of their being famine stricken before they emigrated; others were old decrepit men who should never have been allowed through the depôt in India. Can it therefore be a matter of surprise that numbers of these coolies succumbed to bowel complaints, when they were put to work in somewhat unhygienic surroundings, such as rail heads, irrigation works and new estates must be, and where the water supply is generally bad. Instances were, however, not wanting where coolies were not as well looked after as they should have been, and this formed the subject of a special Government enquiry.

The toll of death among pioneers of a tropical country is always a heavy one, and the high mortality among these coolies cannot be considered to be an exception to this rule.

The increased number of deaths has been shared by every hospital in the State as the following tables shews:—

Deaths:—

Hospital.	1899.	1900.	Increase.
Taiping	488	838	350
Kuala Kangsar	110	213	103
Batu Gajah	370	699	329
Gopeng	241	515	274
Ipoh	503	833	330
Kampar	79	196	117
Teluk Anson... ..	48	198	150
Tapah	195	366	171
Parit Buntar	64	81	17
Bagan Serai	103	331	228
Selama	1	6	5
TOTAL ...	2,202	4,276	2,274

Out of 4,276, 1,088 or 25 per cent died within 48 hours of admission. The different District Surgeons are always complaining of the hopeless state many of the patients are in when they seek admission into Hospital. Ipoh hospital seems to be worse off in this respect than any other similar institution.

Deaths within 48 hours of admission:—

Hospital.	1899.	1900.	Increase.	Decrease.
Taiping	131	211	80	...
Kuala Kangsar	40	86	46	...
Batu Gajah	72	116	44	...
Gopeng	47	116	69	...
Ipoh	136	242	106	...
Kampar	52	132	80	...
Teluk Anson	11	28	17	...
Tapah	42	114	72	...
Parit Buntar	17	6	...	11
Bagan Serai	19	37	18	...
Selama	...	...	...	...
TOTAL ...	567	1,088	532	11

HOSPITALS.

There were on the 31st December, 1900, 1,646 patients remaining in the 11 District Hospitals, in the Taiping prison and Batu Gajah gaol, in the Perak Lunatic Asylum and the Leper Asylum, Pulau Jerejak (Perak portion).

Altogether for the year, 31,579 patients were admitted for in-door treatment, an increase of 9,303 when compared with the previous year.

The death-rate is, I regret to say, higher than it has been during the past two years.

Year.	Total treated.	Death-rate.
1898	23,297	10·57
1899	22,276	10·51
1900	31,579	13·83

The subjoined table shews at a glance the large increase of admissions into the various hospitals. In ten years the numbers have trebled themselves.

Patients treated in hospitals from 1890 to 1900 :—

Year.				Total treated.				Total Deaths.	Percentage of Deaths.
1890	...	...	...	11,922	...	...	...	1,624	13·6
1891	...	...	...	12,499	...	...	...	1,622	12·9
1892	...	...	...	17,353	...	...	...	2,035	11·9
1893	...	...	...	20,528	...	...	...	3,168	15·4
1894	...	...	...	20,313	...	...	...	3,440	16·9
1895	...	...	...	20,992	...	...	...	3,001	14·2
1896	...	...	...	24,486	...	...	...	3,369	13·7
1897	...	...	...	23,024	...	...	...	3,075	13·3
1898	...	...	...	23,297	...	...	...	2,376	10·1
1899	...	...	...	22,276	...	...	...	2,282	10·2
1900	...	...	...	31,579	...	...	...	4,368	13·8

Daily Average of Sick :—

Hospital.					1899.	1900.	Increase.	Decrease.
Taiping	...	...	...	...	225·86	254·65	28·79	...
Kuala Kangsar	...	...	...	...	55·15	83·42	28·27	...
Batu Gajah	...	...	...	...	219·87	234·27	14·40	...
Gopeng	...	...	...	...	131·25	159·41	28·16	...
Ipoh	...	...	...	...	225·38	252·14	26·76	...

Parit Buntar	...	...	...	...	67·42	64·39	...	3·03
Bagan Serai	...	...	...	...	98·88	160·90	62·02	...
Selama	...	...	...	...	1·65	3·31	1·66	...
TOTAL					1,176·39	1,495·87	319·48	...

In analysing the different causes of the 4,368 deaths it will be seen that bowel complaints claimed the largest number of victims. Five thousand one hundred and forty-nine were admitted for Diarrhoea and Dysentery into the various hospitals and 1,557 succumbed to this disease, giving a death-rate of 30·23 per cent. Of the 1,557 fatal cases 566 occurred amongst Indians, mostly coolies newly imported into the country for railway construction, and to whose high rate of mortality I have already referred to.

Into the Teluk Anson Hospital 774 Tamil coolies were admitted from the railway works, and the mortality rose from 5·20 per cent in 1899 to 17·23 for 1900. Bagan Serai Hospital admitted 1,554 patients, mostly Indians from the Irrigation Works, of whom 159 died, giving a death-rate equal to 10·23 per cent, and the mortality for 1900 for this Hospital is double the average of the last 2 years.

Death-rate, Bagan Serai Hospital :—

Year.	In-door.			Deaths.			Death-rate.
1898	...	1,728	...	83	...	...	4·80
1899	...	2,154	...	103	...	...	4·78
1900	...	3,259	...	331	...	...	10·15

From experience in this part of the world the returns for bowel complaints show that bad drinking water will cause more deaths and illness than any number of malarial mosquitoes. Of course the fact of diarrhoea in many instances being a terminal disease is recognized, but even allowing for this, the high mortality among Asiatic hospital patients from intestinal lesions is very striking.

Malarial Fevers.—The In-door returns give 6,925 patients who were treated for the different forms of malarial fevers. Intermittent, 6,329, with a death-rate of 2.63 per cent; Remittent Fever, 596, with a death-rate of 36.58 per cent; quite 20 per cent of the Remittent Fever cases are among broken down vagrants, and the returns for the high mortality are not correctly represented by the number of deaths. Malarial Fevers treated in the Out-door Department and Travelling Dispensaries amount to 26,469. The Malarial Fever in this part of the world, although very prevalent, is not of a serious type and responds to quinine readily, it is mostly of the quotidian type. The search for the pigmented parasite has proved somewhat disappointing.

On the other hand the *anopheles* mosquito has been found all over the State, their larvæ are not limited to small puddles, they are seen as well in large tracts of water such as lakes and swampy land like padi fields. Mosquitoes bite most at about sunset, but their attentions are also very evident during the day-time.

It has taken the laï public some little effort to accept the fact that Malarial Fever is induced by the bite of mosquitoes, had it been some rare insect with an unpronounceable name the statement would probably have been received much more readily. Speaking generally not much advantage has been taken of our knowledge as to the cause of Malarial Fever. There still remains one form of Malarial Fever to be accounted for, usually of a very severe type; I refer to what Natives or Europeans contract when working on or near certain kinds of soil, such as decomposing granite. The statement that as soil is turned over small puddles are made, and it is here where *anopheles* breed, cannot be accepted, because first of all no puddles are made, and search for the larvæ of *anopheles* has so far been fruitless. The total extinction of mosquitoes is a physical impossibility in these States where there is such an abundance of pools and puddles from our large rainfall, so that the prevention of malaria on this count is hopeless, but much can be done to reduce the number of breeding places of *anopheles* and also to avoid being bitten by these pests. I consider that those Officers who have to live in mosquito infested districts should be provided with verandahs or rooms rendered mosquito proof by covering all windows and openings with wire gauze, the objection to this is that it renders the air within stuffy and hot.

In citronelle oil we have a cheap commodity at hand which will keep the mosquitoes in check. It is an oil made locally from the lemon grass, it has been found more efficacious in that its effects are more lasting than either kerosine oil or chloroform and not quite so unpleasant. Here, as elsewhere, the children are the greatest victims to malaria, on any estate that is at all malarious the spleen of nearly every child, especially Tamils, will be found to be very big, sometimes nearly filling up half the abdomen. In Malay kampongs that are at all feverish the same condition will be found, only not quite so marked.

With a view of trying to mitigate this condition, especially in Malays living in the interior, far away from any Hospital (Government or otherwise), I wrote a small pamphlet mentioning how to treat a few simple diseases, such as malarial fever, bowel diseases (diarrhœa, dysentery), and how to stop hæmorrhage after injuries, it was translated into the vernacular with a promise that it should be read by the native children in their schools; with the pamphlet were supplied to each native head-man packets of white and red colours, the white containing 5 grains of quinine, the dose for adults, and the red, 1 grain, the quantity for children; it was explained in the pamphlet how and when they were to be taken. The natives have some very good herbs, etc., and are quite capable of treating themselves for the simpler diseases, such as diarrhœa, but they have nothing to take the place of quinine, and it was hoped that the free distribution of these quinine packets would reduce malarial fever and ameliorate the sufferings of the children. For this idea to be a success it must have the co-operation of the different District Magistrates under whose direction the various Penguhs are. It is recognized that the most efficacious way to reduce the prevalence of malarial fever is by exterminating the malarial germ within the human body through the free use of quinine, as well as by destroying the mosquitoes and their larvæ, the two preventatives should go on side by side. In England to-day there are as many *anopheles* mosquitoes as there were years ago when malaria was very rife, and it is considered that by killing the parasite from the use of quinine and by drainage of the soil the gnat could not obtain fresh organisms, and fever has consequently become almost extinct.

No endeavour has yet been made to treat malarial fever as a contagious disease. Provision will I trust be made in next year's budget for making one ward at least in the various Government Hospitals mosquito proof.

Beri-beri.—Beri-beri is the prevailing disease of our Hospitals and Dispensaries, 6,737 received treatment as in-door patients and 25,552 received out-door attention.

The mortality for the cases that were received in the wards was 14.75 per cent, we must go back to 1894, before we can find a higher death-rate, when in that year it reached 18.14. Attention is being paid to the fact that arsenic may be the cause of the neuritis in beri-beri.

Dr. Connolly, District Surgeon, Batu Gajah, writes in his Annual Report "up to the present, however, a chemical analysis, of a not profound character it is true, has failed to find arsenic in the urine of beri-beri patients."

In support of the arsenic theory, I would point out that 95 per cent of beri-beri cases treated are Chinese, and quite 90 per cent are miners by occupation. When we know that arsenic in combination with other metals is common in the soil where these Chinese have to stand for hours while searching for tin, we may regard the possibility of arsenic as a cause for beri-beri as being something more than problematic.

Leprosy.—The Malay Leper Asylum has not yet been established, it was anticipated that by now all would have been completed for the reception of Malay Lepers, but it was found that at certain seasons of the year the Island that had been selected was unapproachable by boats, this drawback necessitated other arrangements being made, and it is believed now that a really suitable Island has been found.

Veneral Diseases.—Owing in many cases to the crowded state of our wards, only the worst forms of venereal diseases were admitted. 2,104 were treated as In-door patients and 6,375 were attended to by the Out-door Department. The whole of these figures nothing like represents the real extent to which these diseases are present among the community, many are ashamed of their complaints and resort to the quacks and irregular practitioners who abound in various parts of the State. Legislation is urgently wanted in these States to keep this preventable disease in check. I understand that in the Colony syphilis is looked upon as a contagious disease and that any woman found to be suffering from this affection is at once isolated and treated. A similar law should be adopted here as soon as possible.

Cholera.—Cholera broke out in July on the Gula Estate; it appears to have been introduced by some coolies who had newly arrived from India. At one time the epidemic assumed rather serious proportions, but thanks to the vigorous action of the District Surgeon Dr. Haviland, it was stamped out, the figures of this manifestation are returned as follows:—

Cholera, 140; deaths, 111; death-rate, 79·28; Suspicious cases, 19; deaths, 5; death-rate, 26·32.

There was also another outbreak in a different part of the State (Rubana Estate), here it was also traced to new coolies just imported from India; in this instance there were 20 cases with 7 deaths.

Small-pox.—There occurred 79 cases of this disease with 21 deaths. The only outbreak worthy of mention is the one that took place in the mukim of Bota and Blanjah on the Perak River, and extended from May to November, and resulted in 15 deaths among 63 patients who were all Malays. Dr. Connolly reports "there was no difficulty in exercising supervision over the infected area and of controlling the epidemic."

Vaccination Return for the State for the year 1900:—

District.	Total Vaccinated.	RESULT.			
		Perfect.	Modified.	Failed.	Not seen.
Larut and Matang	122	91	2	5	24
Kuala Kangsar	1,571	1,182	99	240	50
Kinta	610	414	8	107	81
Lower Perak	1,483	879	46	132	426
Batang Padang	174	111	19	28	16
Krian	373	305	17	45	6
Selama	7	2	...	...	5
TOTAL ...	4,340	2,984	191	557	608

The record for 1900 is not such a good one as for the previous year, but most of the cases vaccinated lived far away from the beaten track and it took days for the Vaccinators to reach them, and although the actual numbers operated on are less, they really represent work as hard as for the previous year.

GENERAL SANITARY CONDITION OF THE STATE.

This varies considerably in the different towns of the State. Taiping may, I think be considered the most advanced from a sanitary point of view, it has an excellent water supply, the removal of night soil in hermetically sealed buckets has been in vogue for 4 years with good results. The burning of night soil and town refuse in the incinerator is not objectionable here as the incinerator is situated far away from any habitations, and the inconvenience of incomplete combustion is not felt. The same cannot be said of other incinerators.

The most pressing want I consider for Kinta is the supply of good drinking water for the Batu Gajah Division; at present the inhabitants, European and otherwise, are dependent for it on shallow surface wells. It seems too that the Government have quite decided that the prison of the district is to be in Batu Gajah, the daily average of prisoners at this Gaol is about 224, and I think that when Government compulsorily detain a number of men they should place them in the most perfect hygienic surroundings possible and a supply of good drinking water should be the first consideration. The high death-rate, 5.46 per cent, of the Batu Gajah Gaol is attributable in a great measure to bad water as well as to other causes; the Taiping Gaol on the other hand with its excellent supply is one of the healthiest institutions of its kind in the Straits.

The pollution of milk by native milk sellers is very generally carried on all over the State, the fines that have been inflicted do not appear to have any deterring effect. The adulteration became so bad and so frequent that it was found necessary to supply all the Government Hospitals with Sterilized Tin Milk (unsweetened) instead of the inferior cow or buffalo milk; so far the change seems to have been attended with satisfactory results. There should not be any difficulty in supplying the Taiping Hospital, especially the European portion, with pure cow's milk from the adjacent hills where there are numbers of cows of good breed (Alderney strain in them), kept at an altitude of 3,000 feet that give probably the best milk in the Straits judging by the cream test. If the number of the cows was increased there would be enough milk for Hospital consumption and there appears to be no reason why the supply should not be made a paying concern, the advantages of pure milk in treatment of disease are too well known for me to make any further comment.

GAOL HOSPITALS.

Hospital.		Total Treated.	Total Deaths.	DAILY AVERAGE.		Per-centage of Deaths.
				Sick in Hospital.	Prisoners in Gaol.	
Central Prison, Taiping	{ 1899...	449	4	20.67	351.28	.89
	{ 1900...	594	1	21.41	327.50	.16
Batu Gajah	{ 1899...	672	12	28.47	209.20	1.78
	{ 1900...	659	36	26.68	224.14	5.46

The death-rate in the Taiping prison is phenomenally low. One death for the whole year. Referring back to the old records of the Hospital ten years ago it was somewhat different, the death-rate was 8.14. In my opinion the two chief factors that have brought about this satisfactory state of things are:—(1) separate cells for each prisoner; (2) a constantly good water supply.

The Batu Gajah Gaol Hospital had a death-rate for 1900 of 5.46 per cent, which I consider high and it may be attributed to 3 chief reasons:—(1) The want of a good water supply; (2) The admission of diseased vagrants; (3) The want of separate cells for each prisoner.

The need of a water supply is sufficiently obvious and I have already referred to it in another part of my report.

The admission of diseased vagrants is a serious defect, I submit that a sick man should be sent to the District and not to the Prison Hospital.

The prevalence of consumption among natives is very great, 696 cases were treated last year in the Hospitals with 357 deaths. It is quite possible that some of these first contracted the disease while in Gaol.

The need of separate cells for each Gaol inmate is a want that is about to receive attention and will I feel sure improve the health of the prisoners.

The prevalence of sickness in the different seasons of the year is fairly well shewn in the diagram* now submitted.

The incidence of disease during certain times is represented by curves of different colours. The red representing the admissions for Intermittent Fevers, Violet for Beri-Beri and Blue for Bowel Complaints.

The curves are all at their highest about the middle of the year when it is also noted that the rainfall is the smallest.

The largest number of admissions, 737, for intermittent fever took place in July, for beri-beri, 693, in June, and from these figures I consider that one is justified in deducing the fact that disease is more prevalent during the dry months of the year, viz., June, July and August, than during other periods.

The highest temperature, 95° in the shade, was recorded at Taiping and Batu Gajah, with Kuala Kangsar, Ipoh, Teluk Anson, Tapah and Parit Buntar in close attendance with 94° F. The difference of highest and lowest mean temperature in the shade varies from 19·21° F for Gopeng to 14·01° for Selama.

Taiping as usual heads the list with the highest rainfall for the year viz., 167·12 inches. Kuala Kangsar has the smallest 76·46 for the twelve months,

LUNATIC WARD.

The Surgeon in charge of the Decrepit Hospital, Dr. Peart, M. B. Edin, also looks after the Lunatic Ward Asylum. In 1900, 156 cases were treated (one less than the previous year), 44 or 28·2 per cent were discharged as cured or relieved. There were 31 deaths, giving a mortality of 19·87 per cent, an improvement compared with 1899 when the death-rate was 28·66.

The largest number treated, 82, are under the head of mania—42 cases were treated for melancholia.

The daily average of lunatics for the year was 76·51.

THE OUT-DOOR DEPARTMENT.

Includes the out-patients treated at the hospitals in the different parts of the State as well as the Travelling Dispensaries.

The returns for these Departments speak for themselves and tell of the large amount of work that was done.

The Travelling Dispensaries visit 33 different villages or mining centres once or twice a week, they are greatly appreciated and supply a much felt want.

The poorer members of the community are able to get European medicines for their various ailments without going far from their work or houses. By this early treatment we are able to check disease and so reduce the admissions into Hospitals.

The subjoined table will give an idea of the number of patients who have received treatment during the past three years. It will be noted that there is a large increase for 1900.

Out-door patients at the district hospitals :—

			New Cases.		Repetitions.		Total Visits.
1898	...	...	29,105	...	16,188	...	45,293
1899	...	...	25,955	...	14,588	...	40,593
1900	...	...	32,475	...	19,169	...	51,644

Travelling Dispensaries :—

* Not printed.

VETERINARY DEPARTMENT.

(In charge of G. Moir, Esq., M.R.C.V.S.)

The year 1900 must be considered as having been a very trying one for the Veterinary Department, it is one long record of Rinderpest, Rabies, Glanders, Influenza, Foot and Mouth disease and Swine Fever.

On the 21st January, 1900, Rinderpest broke out in the Kuala Kangsar District and lasted for 2 months, with 25 deaths. It was found necessary to keep the infected area under quarantine regulations until 20th April. In April, 6 cases of Rinderpest occurred in Krian, but owing to the scarcity of cattle in the District the disease did not spread and the quarantine restrictions were withdrawn on 13th June.

On the 1st June, Rinderpest broke out in Larut and lasted 4 months; 98 cattle succumbed to it.

In August, Rinderpest was discovered in Selama and up to 18th October, there were 211 deaths.

The Veterinary Surgeon considers "that the Rinderpest of the Malay Peninsula is not of so severe a type as the Rinderpest that invaded Great Britain in 1865 and 1872 or that which swept the African Continent 3 years ago. It is neither so infectious nor so rapidly fatal."

Mr. Moir is of opinion that "Rinderpest with ordinary precautions is not so difficult to deal with, he also states that in the outbreak at Padang Rengas only 25 animals died, in Krian 6, and in Larut 98. These numbers are very small when we consider the density of the cattle population, particularly in Larut, and I have seen cattle here exposed to infection, which in England from descriptions it would have meant certain death, remain altogether clear of the disease."

The Veterinary Surgeon complains that in consequence of the constant outbreaks of contagious disease he was unable to visit the out-stations as often as he should have done, and he had not the necessary time to devote to improving the sanitary conditions of cattle sheds. I trust that next year Government will sanction a Veterinary Assistant to be stationed in Kinta. The Veterinary work is now too much to cope with single handed.

The question of separating the Veterinary Department from the Medical was under consideration during the year, and it was decided that the time had not yet arrived for this disjunction, but it was a possibility that would have again to be considered in the near future.

MISCELLANEOUS.

A Medical Congress of the Surgeons of the Federated Malay States service took place in Kuala Lumpur, last November, only two Perak Surgeons could be spared to attend this conference.

The meeting periodically of medical men of one service with a common interest can be conducive of nothing but good. Various questions and suggestions were discussed and many recommendations made, up to the present moment of writing no report has as yet been published. I would suggest that on another occasion of holding a conference the Agenda should be submitted to the Surgeons quite one month before the date of the meeting, I mention this fact as hitherto it has not been the custom to issue an early programme. In R.-G. O. 572/98, I was asked to write a pamphlet for the guidance of newcomers as to how to live in the East, what to eat, how to dress, etc. A work of this nature entailed a considerable amount of labour and had to be accomplished in addition to my regular duties, it is therefore somewhat discouraging that no acknowledgement or use has been made of the work. That such a book is wanted there can be no doubt and it is to be regretted that more interest has not been taken in the matter.

THE STAFF.

Dr. Wright, State Surgeon, has been on leave since 21st May last, and I have been in charge of the Department during his absence. A new post, that of District Surgeon, Batang Padang, has been sanctioned from the 1st January, 1901. A scheme for placing the Dressers in various grades, on lines similar to those in vogue for Government Clerks, received assent and was to come into use from the beginning of 1901. The salaries will be increased and promotion is to be regulated by seniority with qualifying examinations.

During the year the Department has been short of one Surgeon, two Apothecaries, two Dressers and three Assistant Dressers. Advertising in various newspapers of India, Ceylon, Straits and China has not brought many suitable applicants. The year 1900 has been charac-

terised by outbreaks of Cholera, Rabies, Small-pox and Rinderpest. The number of in-patients treated increased by 42 per cent, the out-door departments including the travelling Dispensaries by 44 per cent, when compared with the previous 12 months. All this extra work had to be done by a reduced staff as shewn above.

The record accomplished is, I submit, satisfactory when all the disadvantages are considered. I am glad to have this opportunity of testifying to the loyal co-operation I have received from the different Surgeons, Apothecaries, Dressers, and from my Office Assistant; by their efforts they have made a pleasure, what would otherwise have been a difficult task for me to fulfil.

S. C. G. FOX, M.R.C.S., L.R.C.P., (London).

13th March, 1901.

Acting State Surgeon.

REPORT ON THE POLICE DEPARTMENT FOR THE YEAR 1900.

The total strength on the 31st of December was 906, including Detectives.

DISCIPLINE.

The discipline was satisfactory. Every man who was convicted of a serious offence was dismissed the Force.

DESERTIONS.

There were 21 cases of desertion, of these eight were Bengalis. A batch of Malay recruits deserted soon after joining. Presumably, they found the drill and duties irksome, I have failed to discover that they were badly treated in any way. In the 21 are included 11 who went on leave and did not return.

MUSKETRY.

Seven hundred and twenty-two men were exercised in Musketry and their performance was satisfactory; 135 qualified as Marksmen and 181 as First Class shots.

BUILDINGS.

New Police Stations were built in Chanderiang, Kurau, Tambun and Kuala Dipang.

HEALTH.

The health of the men was fairly good, except at Batu Gajah and Gopeng, where Malarial fever was prevalent. There were six deaths.

BIRTHS AND DEATHS.

The Registration of Births and Deaths records show the total number of Births registered as 5,149, and Deaths 14,000, a great increase on the previous year, (8,756).

DOGS REGISTERED AND DESTROYED.

Two thousand five hundred and seventy-three dogs were registered and 3,136 were destroyed.

RECORD OF FIRES.

There were 32 fires. The property reported as destroyed being valued at \$22,196, considerably less than in 1899.

TRANSFERS.

The changes amongst the Officers of the Force were as follows:—Mr. Douglas went to England on leave in September, when I assumed command of the Force. Mr. Rowley was transferred from Selangor to act as Assistant Commissioner, Kinta. Chief Inspector Buswell and Inspector Stapleton obtained long leave. Three new Inspectors were appointed, viz., L. Apps, H. J. Bailey and P. Pedley. Inspectors J. Barker, D. Wilson and W. Charter were transferred from other States. Inspector Symes retired on pension. Inspector Akers left the State without permission, and his services were dispensed with.

REVENUE.

The revenue collected by the Police amounted to \$16,614.43.

EXPENDITURE.

The cost of the Force was well within the amount voted.

CRIME.

The crime report shews a total of 15,493 offences reported to the Police (1,058 less than in the previous year) of which 7,500 were discovered. Of the offences reported 5,246 were for Criminal Breach of Contract (coolies absconding) and omitting this offence the per-centage of crimes discovered is 66.91.

There were 3,373 cases of theft reported; 23 cases of homicide reported, and 18 discovered, a satisfactory result. There was an increase, I regret to say, of 35 in the number of gang-robberies (59). Twenty-seven persons were convicted of this and 16 of highway robbery. Kinta District is responsible for the increase, as might be expected. Special legislation is required to suppress crimes of violence. Flogging and compulsory carrying of lights at night in proclaimed districts have been suggested and will, I trust, be immediately adopted.

The brutality of these robbers can be testified to by the Hospital authorities from the condition of the victims. The extraordinary apathy of the Chinese as regards giving assistance to their neighbours, or in defending themselves, or even in the less dangerous and more remunerative way of giving information to the Police renders the task of the latter extremely difficult. Recently, I am glad to say, the people in a kongsi resisted the robbers and shot one of them. I must record here the plucky behaviour of Police Constable No. 33, Jayah, who, when the Farm at Sungei Siput, near Kuala Dipang, was attacked by 30 robbers on the 9th December, shot one and wounded two others, thereby dispersing the rest.

SECRET SOCIETIES.

Secret societies have shewn no signs of activity during the year. The association of small bands of robbers cannot be classed as such.

PROTECTION OF WOMEN AND GIRLS.

The protection of women and girls has in Larut devolved upon the Police. This is a duty that should be performed by the Chinese Protectorate.

WEIGHTS AND MEASURES.

In consequence of the Inspector of Weights and Measures having gone on leave, the work of sale and supervision has been thrown upon the Inspectors in charge of districts, as in former times. This is a retrograde step necessitated by the paucity of officers. It would best be remedied, in my opinion, by relegating this department to the Sanitary Boards, provision being made in their Estimates if necessary.

F. W. LYONS, CAPT.,

Actg. Deputy Commissioner of Police, Perak.

REPORT ON THE CENTRAL PRISON, TAIPING, FOR THE YEAR 1900.

NUMBER OF PRISONERS.

The number of prisoners in the Central Prison on the 1st January, 1900, including safe custody debtors, etc., was 323, against 356 of last year. The number of prisoners admitted during the year was 670, compared with 801 of last year, making a total of 993. This being a decrease of 131 prisoners as compared with last year.

The number of prisoners discharged, died, transferred, etc., during the year was 711, as compared with 834 of last year. The number of prisoners on the 31st December was 282; total 993.

The number of long sentence prisoners remaining at the end of the year was 214, as compared with 258 of last year.

FEMALES.

Six female prisoners remaining on the 31st December, 1899—32 admitted during the year and 34 discharged; 4 remaining on the 31st December, 1900.

EXECUTIONS.

One Sikh (Polar Singh) and one Malay (Lah) were executed. One Sikh, condemned to death, was admitted on the 8th November, and remained in Gaol on the 31st December.

ESCAPES.

There were no escapes from the Central Prison during the year.

HEALTH.

Five hundred and ninety-four cases were treated in Gaol Hospital, Taiping, compared with 449 of last year. There were two deaths, this includes one prisoner who was found dead in his cell. An average of .16 per cent, as compared with four deaths last year, and an average of .89 per cent.

PUNISHMENTS.

Five hundred and sixty-six prisoners were punished by the Superintendent of Prisons and Visiting Justices, of these 11 were flogged. The principal offences were (a) idleness, (b) possession of prohibited articles, (c) breaches of prison discipline. As long as extra-mural labour exists there is bound to be a large per-centage of (b).

REVENUE.

The Revenue of the Central Prison collected during the year and paid into the Treasury amounted to \$10,880.61. This shews an increase of \$2,881.55 of last year. I consider this result most satisfactory, especially considering the large decrease in number of prisoners as compared with last year.

EUROPEAN STAFF.

Throughout the year the European Staff has been under strength.

I regret to say that the Chief Warder, Mr. Mason, died on the 14th June. He had performed his duties in a most satisfactory manner. Warder Bartlett resigned on 2nd May; Warder Nutt was transferred to Kuala Lumpur on the 1st July, 1900, but was afterwards re-transferred as Warder to Batu Gajah Gaol. Warder Scott from Batu Gajah was promoted to Chief Warder, Kuala Lumpur, Selangor, *vice* Warder Nutt; Warder Holmes appointed Chief Warder, Taiping, to date 1st July, 1900; Warder Bailey was transferred from Kuala Lumpur to Taiping; Warder Scroby was transferred to Batu Gajah Gaol; Warder Bailey, Batu Gajah, was transferred to Police Department; Warder Palmer acted as Gaoler, Kuala Lipis, during Gaoler Pizer's absence on leave. Three new Warders joined during the year, Warders Mack, Plunkett, Pharoah, and are still on probation. I have every reason to be satisfied with the conduct of the European Staff which has been exemplary, and they have performed their duties to my entire satisfaction. Their health has been good. A new Scheme was sanctioned

by the Secretary of State for the Colonies providing an increase of salary and annual increments to European Officers in the Prisons Department, rising to a maximum of \$130 a month.

NATIVE STAFF.

The Native staff have worked very well throughout the year, and their health has been good. They are regularly drilled, and fire a musketry course once a quarter. They are a smart, well set up, body of men, and have much improved. There have been 64 reports against the Native Warders, most of them of a trivial nature. Three only were dismissed; this compares most favorably with former years.

CLERICAL STAFF.

The office work has been done in a most thorough manner. All records have been well kept and all books posted up to date. There have been constant changes amongst the Clerical staff. As soon as a clerk know his work he is transferred to some other Department.

WORKS AND BUILDINGS.

The new stone-breaking cells were occupied in April. This system of isolating prisoners in the penal stage is an excellent one. This form of labour is cordially detested by all prisoners, and I consider acts as a deterrent.

A new scaffold has been erected connected with the condemned cells. This is a marked improvement on the temporary scaffold. A portion of the Administration Block has been converted into a Civil Prison. A commodious stone-breaking shed has been erected.

In last year's report it was recommended that a heavier section of rail should be laid from the Quarry to the Gaol. No action has been taken, and I would again recommend the immediate urgency of the service.

GENERAL.

Extra-mural work is now discontinued with the exception of work at the quarry (about 40 convicts), and a small party (about five convicts) employed on light labour on the cricket ground; and a party of five convicts grass cutting round Warders quarters.

The intra-mural work consists of Stone-breaking, Carpenter's Shop, Rattan Work, Tailoring, Tinsmith and Blacksmiths. In all of these departments most useful work is done.

Fourteen habitual criminals were banished from the State, *vide* Banishment Enactment, No. 10 of 1899.

I would strongly recommend an addition to the present Reading Room and the purchase of a Billiard Table. There is a large balance in fine and reward fund which might be partially devoted to this purpose and a small monthly rental charged for the Billiard Table.

In conclusion I wish to testify to the great zeal and interest Mr. Kydd, the Gaoler, has taken in his work, and his tact in dealing with the Prison Staff. It is in a great measure due to his efforts that the Gaol is in such a satisfactory state.

A. S. VANRENEN, MAJOR,
Superintendent of Prisons, Larut.

REPORT ON THE PERAK MUSEUM FOR THE YEAR 1900.

BUILDING.

In the early part of the year the addition of a new wing to the Museum was sanctioned and work was begun in May. Owing to various causes, the chief of which was quarantine regulations in consequence of cattle plague, the building was much delayed and it is not likely that it will be finished till the middle of 1901. The block, which will be connected with the Zoological room by a passage of 35 feet by 12 feet, will contain two rooms of 80 feet by 40 feet. The total floor space thus added will be about 6,500 square feet. Both rooms will be lighted from above. The lower one by windows above the tops of the wall cases and the upper by a lantern roof. The whole of the walls will therefore be available for cases, etc.

In the latter part of the year wood was bought and the building of the cases commenced for these new rooms. Some of the case fittings were ordered out from England and others were made locally.

The flat roof of the Porch and front Verandah, which has leaked ever since it was first built, became very bad and a temporary roof was put up over it pending the reconstruction which will be necessary owing to the rotting of the woodwork. There are two other small flat roofs which are also in a very bad state and will have to be altered.

ZOOLOGY.

The most important additions were a young *Kambing Grun*, caught in the early morning by some Public Works Coolies in the wire-netted tennis court at the Cottage, at over 4,000 feet elevation; a fine male tiger shot by a Malay with a spring gun set over a "kill" at the site of the Railway Station at Bukit Gantang; the head of a Sladang, shot by Mr. G. F. W. Curtis near Tapah, and two skulls of Sladang and one of the One-horned Rhinoceros (*Rhinoceros sondaicus*) also from Batang Padang and shot and presented by Mr. G. F. W. Curtis.

The following is a list of the specimens which were stuffed or mounted by or under the direction of Mr. E. Keilich the Taxidermist.

LISTS.

MAMMALS.

1. A young Kambing Grun. (*Nemorhoedus swettenhamii*). Stuffed.
2. A Tiger. (*Felis tigris*). Stuffed.
3. Head of a Sladang. (*Bos gaurus*). Stuffed.
4. A Squirrel. Skin.
- 5, 6 & 7. Three rats. Skins.
8. Elephant. Skull.

BIRDS.

9. A Rodger's Woodpecker. (*Gecinus rodgeri*).
10. A Cotton Teal. (*Nettopus coromandchmeus*).
11. A Bay Screech Owl. (*Phodilus badius*).
12. A Bronze-winged Dove. (*Chalcophaps indica*).
- 13 & 14. Two Malayan Pipits. (*Anthus rufulus malayensis*).
- 15 & 16. Two Black-headed Bulbuls. (*Micropus melanocephalus*).
17. A Blue-whiskered green Bulbul. (*Chloropsis cyanopogon*).
18. A Magpie-Robin. (*Copsychus saularis*).
- 19 & 20. Two Yellow-vented Bulbuls. (*Pycnonotu sanalis*).

- 21 & 22. Two Moore's Olive Bulbuls. (*Pycnonotus simplex*).
23. A Blue-bellied Bulbul. (*Pycnonotus cyaniventris*).
24. A Grey-breasted Spider-hunter. (*Anchnothera modesta*).
25. A Green Pigeon. (*Osmotreron olax*).
26. A Sumatran Yellow-breasted Babbler. (*Miscornis gularis*).
27. A Scarlet-backed Flower-pecker. (*Dicaeum cruentatum*).
28. An Orange-bellied Flower-pecker. (*Dicaeum trigonostigma*).
29. A Crimson-breasted Flower-pecker. (*Prionochilus ignicapillus*).
30. A Blue Fly-catcher. (*Stoparola thalassirioides*).
31. A Great Slaty Wood-pecker. (*Hemilophus pulverulentus*).

REPTILES.

32. A Tuntong. (*Batagur baska*). Stuffed.
33. A young Crocodile. (*Crocodilus porosus*). Stuffed.
34. A Land Tortoise. (*Tesuedo emys*). Skeleton.

As well as the above a Golden Tiger (*Felis temmincki*) was stuffed for the Selangor Museum, and two Tigers' heads, one Tapir's head, two Pigeons, four small Crocodiles and a few other things were done for private persons.

A paper cast of a skate was made, and it is the only specimen which looks in any way like a skate in the collection. These animals are perhaps the most difficult of all to stuff in a satisfactory manner. Casts were also made of some toads and frogs and accessories, in plaster and paper, for a projected group of Batrachians. The foliage in the case of Gibbons, which previously consisted of coloured dried natural leaves, was mostly replaced by foliage modelled in the Mintorn Art Fabric, to the great advantage of the group.

A mounted human skeleton was procured, and this, together with the skeleton of a large tortoise and the skull of an elephant were added to the Osteological collection.

A skin of a monkey, which was sent to the British Museum, was identified as *Semnopithecus maurus*. A young specimen of this species was recorded by Cantor some fifty years ago, but it does not appear to have ever been collected since his time in the Malay Peninsula. One new lizard, one land snake and two sea snakes were described by Dr. G. A. Boulenger, of the British Museum, from specimens sent by the Perak Museum. They have been named respectively, *Lygosoma larutense*, *Amblysephalus vertebralis*, *Distira wrayi* and *Hydrophis rhombifer*. Thanks to the kindness of this gentleman, all the doubtful reptiles in the collection have now been identified. A large number of reptiles were obtained by exchange from Mr. A. L. Butler, the late Curator of the Selangor Museum. Natural History specimens have also been sent to the British Museum, the Leicester Museum and the Tring Museum.

BOTANY.

Two lots of mounted herbarium specimens were received from the Royal Botanical Gardens, Calcutta, during the year. The first containing 107 sheets and the second 72 sheets making 179 sheets in all added to the herbarium. It will be a good many years yet before the whole of the herbarium is identified, but it is necessarily such a large work that it cannot be expected to be completed in a short space of time, and now that the Flora of British India is complete, it is only the materials worked over by Sir George King, for his book "Materials for a Flora of the Malay Peninsula" which are being identified and returned to Perak.

Coloured plaster models were made of the fruits of the Chikus, Mangosteen, Orange, Guava and Jackfruit, and added to the collection of Local fruits.

GEOLOGY.

A series of sixty specimens of rock forming minerals, to serve as an index to the Petrological collection, was purchased; also one hundred fair sized rock specimens to go towards the latter collection. These acquisitions have had to be put temporarily in the Zoological room until the completion of the new block allows of the re-distribution of the case accommodation in the older portions of the building.

Seventy mineral specimens to fill up gaps in the General Mineral Collection were also purchased, besides nine polished ones and out specimens of white and blue Sapphire, Chrysoberyl and Garnet.

Many additions to the Local Mineral Collection were made during the year, of which the most noteworthy were a sample of gold in Marble from Sungei Tui, Ulu Pahang, given by Mr. Cecil Wray; Native bismuth from Sungei Trap, given by Mr. J. P. Rowe, and some fine specimens of blue and green carbonate of copper from Changkat Pari, collected by the Curator.

In the early part of the year prospecting was done at Sungei Siput for the late Sir Graeme Elphinstone. Then at the request of the Public Works Department, boring for a water supply for the town of Batu Gajah was undertaken and after several unsuccessful bore holes had been sunk a very excellent and copious supply was found on the Seputi bridge road, close to the race-course. A 5-inch diameter hole was sunk to a depth of about 50 feet and it yielded water at the rate of 2 gallons per minute with a pump whose suction pipe reached down about 13 feet from the surface. Afterwards a well was sunk to a depth of 20 feet; at this point work had to be stopped as there was so much water that it was impossible to sink lower without a steam engine to do the pumping. Except for about 3 or 4 feet at the top the well was in a fairly hard whitish or reddish shale with some bands of impure graphite in it. This formation underlies the limestone of the Kinta Valley and as a consequence the water obtained from it is soft and not disagreeably hard like that from the limestone. After this, boring for tin was begun at Kamunting for Mr. W. H. Tate.

ETHNOLOGY.

Many accessions to this section were made in 1900, but want of space necessitated the packing away of some of them until they can be put out in the new block, which it is proposed to devote to this very important division of the collection. The accommodation will suffice for the representation, in a limited way, of some of the peoples of the Malayan region and connected races, though it will still be necessary to devote most of the space to the strictly local races.

Of the accessions, mention may be made of a Battak sword and stringed musical instrument given by Mr. J. P. Rodger, c.m.g.; Figian bark-cloth, a woman's dress and mats, given by Mr. Cecil Wray; Dyak carrying baskets, a blowpipe and a shield, several Malay games, walking sticks, and quite a large collection of Religious, Medical and Magical appliances, besides many weapons and domestic articles, and a few pieces of metal work collected or obtained by purchase. Casts of some of the perishable articles were made in plaster of Paris. Casts will have to be made in paper, papier-maché or plaster in a number of cases for the proper representation of various customs and ceremonies in which objects, which it is impossible to preserve, are used.

The ever increasing difficulty experienced in obtaining articles of Malayan manufacture and the rapid way in which many of their habits appear to be changing, with the introduction of foreign merchandize, customs and modes of thought, indicates the importance of endeavouring to procure and preserve, while there is yet time, examples of the fast disappearing manufactures and appliances indicative of a phase of civilisation which it is evident is so shortly to be a thing of the past. A great deal has been done in this direction, but there still remains much to accomplish.

In Perak, as in many another Eastern Country, the contact with European Civilisation has had a very serious influence on the native Art manufactures of the State and several of them have practically ceased to exist. This decay of Malayan Art work, some of which is very beautiful, is much to be regretted, the more so as undoubtedly it could be carried on at the present time with every prospect of a good living being made out of the work, for there is now more money amongst the Malays to spend on luxuries than there has ever been at any previous time and also in several classes of work a good market could be found for the products in Europe. A scheme to encourage and develop some of the Malayan Art Industries has been drawn up for submission to Government, and it is hoped that it may receive favourable consideration and that His Highness the Sultan of Perak will give it his invaluable sympathy and support; for it is only through his influence that the scheme could be carried into effect.

ANTIQUITIES.

One stone axe from Selama, presented by Mr. G. F. W. Curtis; an old boat-shaped slab of tin dug up in making the Railway near Kuala Kangsar, deposited by Mr. G. B. Day; and a wrought iron cannon ball dug up at Padang Rengas, given by Sir Graeme Elphinstone, were the only additions to this section.

COINS AND STAMPS.

The collection of Coins was increased by the addition of nineteen specimens, and the stamp collection by fifty-eight stamps.

RECORD COLLECTION OF PHOTOGRAPHS.

Considerable progress was made with this collection, a number of interesting platinotype prints having been made and mounted. It will soon be necessary to get bindings for the books of a permanent kind, and a special book-case built to hold them.

LIBRARY.

The additions were rather numerous, and a number of volumes were bound or rebound at the Government Printing Office. The Card Catalogue was brought up to date, some 2,000 typewritten cards being added to it. One new book-case of 10 feet long was begun at the latter end of the year, as the older ones were all filled up.

LIST OF DONORS TO THE PERAK MUSEUM DURING THE YEAR 1900.

Mr. J. Addis	Mr. E. Keilich
„ G. Bain	Sir George King
„ J. R. Bell	Mr. A. L. Knaggs
„ Montague Browne	„ Francis Light
„ E. Burnside	„ G. Maxwell
Master Burnside	„ H. B. Middleton
Mr. A. L. Butler	Dr. D. Morris
The California State Mining Bureau	The National Museum, Monte Video
Mr. C. E. Cockram	Mr. P. J. Nelson
The Commissioner, Imperial Department of Agriculture for the West Indies	The Publisher, Perak Pioneer
Mr. C. E. Cumming	The Publisher, Singapore Free Press
„ C. Curtis	Mr. J. P. Rodger, C.M.G.
„ G. F. W. Curtis	Mr. J. P. Rowe
„ G. B. Day	The Royal Botanical Gardens, Calcutta
The Director of the British Museum	The Secretary to Government, Perak
„ Royal Gardens, Kew	The Smithsonian Institution
Mr. E. Dumaresq Thomas	Mr. A. T. Steuart
The Editor of the Louisiana Planter	The Superintendent, Posts and Telegraphs, Perak
Sir Graeme Elphinstone, Bart.	Mr. W. H. Tate
Capt. S. S. Flower	The Trustees of the Indian Museum
The Government of British North Borneo	Mr. Cecil Wray
	„ L. Wray, Jr.
	Dr. M. J. Wright.

VISITORS.

The total number of visitors recorded during the year was 51,047. The Museum was open to the Public on 292 days, so that the daily average attendance was 175. The maximum number of persons admitted in any one day was on March 16th when 1,158 were recorded, and greatest number in a month was in March when 5,296 persons passed the turnstile. The following table gives the details of the admissions:—

Month.	Days Open.	Maximum.	Minimum.	Total.	Daily Average.
January	... 25	1,018	92	4,696	187.84
February	... 21	569	110	4,186	199.33
March ...	... 27	1,158	114	5,296	196.14
April ...	... 20	400	95	3,995	199.75
May ...	... 25	262	118	4,482	179.28

Month.		Days Open.	Maximum.	Minimum.	Total.	Daily Average
June	...	22	758	92	4,816	218.90

STAFF.

The Taxidermist, Mr. E. Keilich, was away for four months during the year on leave. Mr. Yong Fook, the Assistant Taxidermist, acting for him.

The Caretaker, Mr. F. dos Remedios, who was appointed in August, 1899, was transferred to Kuala Kangsar as Sanitary Inspector and Mr. P. E. Jeremiah from the Secretariat took his place. The value of this appointment was reduced from \$44 to \$35 per month.

FINANCIAL.

The Revenue amounted to \$203.50, and a saving was effected on the Estimates of \$1,392.72.

15th February, 1901.

L. WRAY, JUN.,
Curator and State Geologist.

REPORT ON THE CHINESE PROTECTORATE FOR THE YEAR 1900.

STAFF.

A branch department was re-established at Teluk Anson on the 1st June last, with one Chinese Manager and Clerk (Mr. Li Ching) at \$720 per annum, and a Chinese writer and peon at \$240 per annum, for the control of Chinese Immigration, under Section 28 of the Secretary for Chinese Affairs Enactment No. 7 of 1899.

The duties of these two men are to board steamers daily, and to examine the Immigrants as to the payment of their passages or otherwise, as is done in the Colony, and to register local and Straits sinkheh contracts, also to check the lists of Chinese women coming into the State. The lists are subsequently forwarded to me in Ipoh.

The old gaol at Teluk Anson was converted into an Immigration Dépôt at a cost of \$1,200, but I regret to report that the dépôt has, so far, not been used, as no sinkhehs have, as yet, been imported into the State by subsidized steamers.

As regards sinkhehs imported with contracts from the Chinese Protectorate in the Colony, the employers, on arrival at Teluk Anson, prefer to take them for a short rest to any of the three Passenger Lodging Houses.

During the year, 626 Straits and 226 local contracts were registered at Teluk Anson, and the stamp fees paid thereon amounted to \$269.50. Of the 852 sinkhehs, 833 were for Kinta, 11 for Batang Padang and 8 for Lower Perak.

The following is a return of indentured sinkhehs:—

Place of Registration.	No. of Contracts entered into in the Colony, and registered in Perak.		No. of local Contracts.	Fees paid in Revenue Stamps.	
				\$	c.

TOTAL ...	84	24	827	106

HOME FOR WOMEN AND GIRLS.

A sum of \$1,660 was provided for the upkeep of this excellent institution. Of this amount, only \$869.62 was expended, leaving a balance of \$790.38.

The Home affords temporary relief and accommodation to Chinese and other Asiatic women and children, who may be in distress and without lawful and proper guardians, also to those women who are brought down from China under suspicious circumstances. It is merely a receiver and feeder for the large Home at Kuala Lumpur, and is managed by the following Committee:—Protector of Chinese, Perak, *Chairman*: Messrs. Leung Fi, Li Thung Sen, Chiong Ou Sin, Lai Chak Shang, Eu Thong Sen, Fu Chu Chhun, Ten Le Seng, and Shak Yin Fuk. Nine meetings were held last year.

The British Resident, on the 10th September last, passed Rules for the proper management of the Home.

The present matron, Lei Kam, who was appointed on the 18th July last, has given me entire satisfaction. Sixty-six women and children were admitted into the Home last year, of whom nine were transferred to the Federal Home, three were repatriated and the remainder (with the exception of five who were released) were discharged on security for their due protection.

During the year under review, 22 women were rescued from Chinese brothels in Kinta, and eight in Taiping. Security bonds were taken for their due protection. The women reported themselves to the Protector periodically. There were only two defaults last year, in which cases, the bonds amounting to \$400 were estreated.

The total number of security bonds executed last year for the protection of women, under the provisions of Order in Council No. 1 of 1895, was 66, and the stamp fee collected thereon was \$33.

There was only one prosecution for breach of Section 4 (i) of Order in Council No. 1 of 1895, for bringing into the State a girl named Leong A Kau, aged 13, and disposing of her for immoral purposes. The prisoner, a prostitute, was convicted and sentenced to six months rigorous imprisonment, and a fine of \$100; in default, an additional six months rigorous imprisonment.

ADVISORY BOARD.

The Acting British Resident, during his stay in Ipoh, interviewed the Members of the Advisory Board and some Chinese miners, in connection with their representation to Government, *re* the severe restrictions upon *lampan* working, and the use of steam engines. Both matters were satisfactorily settled by him.

There were two meetings of this Board last year. One, to discuss the advisability of establishing a Work-house, and the other, for the purpose of bringing to the notice of Government certain grievances in respect to mining as mentioned above. The Members of Committee appointed under Section 21 of the Secretary for Chinese Affairs Enactment No. 7 of 1899, are:—Secretary for Chinese Affairs, *President*; the Protector of Chinese to act as President in his absence; Lai Chak Shang; En Tong Sen; Lam Kam Thong; An Mu Yi; Leung Fi; Yan Tet Sin; Chiang On Sin; Li Thung Sen; Fu Chu Chhun; Lim Gim Seng; Gim Siang (Penang); Ten Le Seng; Wee Liong; Shak Yin Fuk and Lim Kok Lai.

The following is a return of the Societies registered, and those exempted from registration, since the passing of the Enactment for the Registration of Societies.

District.	Total number of Societies registered.				Total number exempted from registration.

Selama	...	...	...	1	...	...	...	...
				—				—
Total	...	...	...	19				53
				—				—

During the year under review, only one Society, situated at Teluk Anson, was registered, and three in Krian were exempted from registration, under the provisions of the Societies Enactment No. 19 of 1899, which was repealed on the 3rd October, 1900, by the Societies Enactment No. 9 of 1900.

Periodical attempts are still made, and will always be made where Chinese congregate, especially in an important mining country like Perak, to start small unlawful organisations. It is difficult to get sufficient evidence against the headmen, either for a prosecution or for banishment. Incessant vigilance is, however, kept over these men by the Police and myself, with the result that many who have taken an interest in illegal associations have either forsaken their evil ways through being constantly shadowed or left the district.

HABITUAL BAILERS.

There is no doubt that many of the coolies have been deceived into joining Secret Societies on the promise of assistance whenever they are arrested by the Police for any crime. The breaking-down of the influence of these professional bailers (who get a reward of \$5 or \$10 for every time they go bail) will so sicken the coolies that they will either renounce their membership or stop their pugnacious ways with non-members.

The following is a list of habitual Chinese criminals banished from the State during the year:—

No.	Name.							Date of Banishment.
1	...	Lam Yow	...	...	...	...	...	4th October
2	...	Wong Fuk	...	...	...	...	...	3rd August

10	...	Qim Yow	...	...	...	...	...	"
11	...	Kho To	...	...	...	...	...	21st December

Note.—This return does not include the banishment of 3 Malays on the recommendation of the Deputy Commissioner of Police.

The Banishment Enactment was repealed and re-enacted with an amendment on the 3rd October, 1900, and cited as the Banishment Enactment, 1900.

There were no persons banished last year for attempting to form and maintain unlawful Societies in the State.

One hundred and twenty-six cases, as mentioned below, were enquired into and disposed of by me in Ipoh. This, of course, does not include the Magisterial work performed by me, whenever the Magistrate was engaged in the Courts of the Judicial Commissioner and Senior Magistrate, or elsewhere.

I have much pleasure in reporting that I found the sugar estates in Krian in good order during my two thorough inspections in March and December last. I consider the coolies are well-looking after, well-fed and housed. The estates have also been visited by the Inspector of Police.

The Chinese ought to be very grateful to the Government for the paternal care over their sick. Below is a return of the work done by the out-door dispensaries, which information was kindly given to me by the different Surgeons:—

Total number of patients treated during the year.	Place visited.	How often.	Cost of upkeep per annum.
	<i>Ipoh Hospital.</i>		\$ c.
10.453	Chemor, Tanjong Rambutan, Lahat, Menglembu and Tambun	Twice a week ...	559 71

Total ... 849			

I am inclined to think that the death-rate in the Hospitals could be reduced, if the Government would take early steps to control the present indiscriminate practice amongst the Chinese Quack Doctors, who seem to be on the increase in the Kinta District.

The following is a typical case :—

A Chinese coolie was lately admitted into the Ipoh Hospital with a compound fracture of the left leg above the ankle. Amputation was suggested by Dr. Edgar, Acting Senior District Surgeon. The patient consented. The next day when he was to be operated upon, he changed his mind; on enquiry, Dr. Edgar discovered that a Chinese Doctor had visited the patient in Hospital, and assured him that he could cure him without amputation within a month, on payment of a fee of \$50. The patient consequently left the Hospital, but was traced by the Doctor, as his case was very serious. At the request of the Acting Senior District Surgeon, I interviewed the man, and tried to persuade him to go back to the Hospital before acute blood-poisoning had set in. The patient asked to be excused, on the ground that the Chinese Doctor had guaranteed to cure him without amputation. I found his leg bandaged up, and he told me the treatment consisted of a freshly killed chicken pounded up, and applied to the fractured part. I need hardly say that the gangrenous smell in the room was intolerable. This is only one of numerous cases that have come under my notice.

I beg to append a return of the vagrancy cases in Kinta.

Division.	No. of persons charged with vagrancy.	No. of Con- victions.	No. called upon to show cause why they should not find security for good behaviour.
Ipoh ...	264	200	4
Batu Gajah ...	131	120	Nil.
Gopeng ...	135	99	14
	530	419	18

My reason for again bringing this to the notice of Government is with a view to getting an early and favourable decision as to the building of a Work-house, which is very much needed.

GENERAL.

On the 14th August there was a disturbance in Lahat, which originated in a fight between a Bengalee gharry-driver and the employés of chop "Yeng Wa," in consequence of the former blocking up the passage leading to the shop of the latter. A meeting was held in the Chinese temple in Lahat, with a result that all the shops were closed, and a riot was imminent. A strong force of Police arrived on the scene. The District Magistrate and myself subsequently called a meeting of the traders at the same temple, and gave them very strict instructions to re-open their shops at once, which was done within half an hour.

The Chinese community of Kinta observed the anniversary of the birth-day of the Emperor of China on the 23rd July last. The festivities lasted three days. The theatres were thrown open to the public free of charge. Crowds of people came in from the outlying districts to see the theatre and fire-works at night. They behaved in a most orderly manner.

At the request of the Acting British Resident, I submitted a set of draft rules on the 30th July last, for the better sanitation of mining *kongsis*.

WM. COWAN,
Protector of Chinese.

REPORT ON THE TAIPING SANITARY BOARD FOR THE YEAR 1900.

MEETINGS.

Eleven ordinary and six special meetings of the Board were held during the year.

REVENUE AND EXPENDITURE.

The total amount of revenue collected during the year was \$51,120.76, being \$10,570.76 in excess of the Estimates, and \$4,072.89 more than was collected in 1899.

The only items that did not realise the amount estimated were:—Taxes on Vehicles, \$336.33; Sale of Jinrikisha Badges, \$431.50; Licences for Special Trades, \$26; and Kerosine Oil Store, \$16.

The loss of revenue under heads Taxes on Vehicles and Sale of Jinrikisha Badges is entirely due to the fact that for five months of the year the Registrar of Vehicles was unable, for want of authority, to collect any fees for jinrikishas or jinrikisha pullers.

The arrears unrecovered at the end of the year represent a comparatively small sum, *viz.*, \$364.75.

Attached is a comparative Statement of Revenue.*

The total expenditure for the year, including salary of Staff and cost of Municipal Works executed by the Public Works Department, amounted to \$42,517.10, which is \$8,603.66 less than the revenue collected.

VEHICLES.

The number of Vehicles registered and of licences issued during the year, as compared with 1899, was as follows:—

	1900.	1899.
Hack Gharis	237	113
Jinrikishas	692	1,125
Bullock Busses	7	9
Cattle Carts	1,032	1,099
Hand Carts	55	Nil.
Private Carriages	46	Nil.
Hack Ghari Drivers	231	145
Jinrikisha Pullers	55	121

The small number of jinrikishas and jinrikisha pullers registered is, as already stated, due to the non-existence of regulations during five months of the year.

A New Vehicles Enactment was published on 25th May and the Jinrikisha Enactment on the 26th October.

CONSERVANCY.

The expenditure under the head of Scavenging amounted to \$8,774.67, which is somewhat higher than that of former years. This is due, in a great measure, to the mortality among the Board's cattle which necessitated the hiring of bullocks to carry on the work.

The daily average number of coolies employed was 66. 12,002 cart-loads of refuse were removed and deposited in an old mine hole at Tupai.

The incinerator was taken over from the Public Works Department in December, so that the dangerous practice of depositing town refuse in mine holes will, henceforth, cease.

Fifty-two dust bins of granite rubble and cement were constructed at a cost of about \$30 each.

LIGHTING.

The work of lighting the township (Taiping and Kamunting) was very satisfactorily done by contract at a cost of \$3,501.80. The number of lamps lighted daily was 218.

An offer was received for the supply of electricity for lighting and power purposes in Taiping, but not entertained for various reasons.

* Not printed.

TOWN IMPROVEMENTS.

Endeavours have been made during the year to improve, as much as possible, the general appearance of the town and its suburbs by cleaning up the weedy portions of waste lands, planting shade trees, etc.

A fountain, subscribed for by the public, was erected in front of the Court house, and ornamental trees planted in its vicinity.

Young Mahogany trees were planted in vacant spaces along Museum road and nearly the whole length of Assam Kumbang road.

Two pieces of land, one situated to the south of the junction of Residency road and Lake road, and the other at the junction of Museum and Walker roads, were cleared of under-growth and levelled.

A bamboo hedge was planted round the Police married quarters off Walker road.

REMOVAL OF NIGHT-SOIL.

The fees collected from house-holders for this service amounted to \$5,566.75, and the expenditure to \$7,436.45, which is \$1,869.70 more than the revenue. The difference, however, is explained by the fact that the soil is removed from the Barracks, Gaol Hospital, Government Quarters, etc., free of charge.

The board undertook the work of removing night-soil from the District Hospital on the 1st December.

Fees uncollected at the end of the year amounted to \$85.50.

BUILDINGS.

Plans for eight brick houses were passed by the board during the year but only one house was completed, the other seven being in course of construction.

In addition to the above, three plank and attap houses were built at Kota on a plan approved by the board.

An excellent block of stables in Barrack road, to accommodate 24 horses the property of Capitan Ah Kwi, has just been completed. Plan for this building was passed by the board in 1899.

To meet requirements of the poorer section of the community the board decided to allow houses of plank and attap to be built beyond the junction of Main and Kota roads.

Early in the year it was resolved that all new shop houses must be provided with iron girders or brick arches to support the upper floor over the verandah or 5 foot way. This will greatly improve the stability of such buildings.

REST-HOUSE.

The total number of visitors who availed themselves of the Rest-house was 1,826, shewing an average of five daily.

The fees collected during the year amounted to \$1,175.75, while the total expenditure was only \$647.94, shewing a balance of \$527.81 in favour of Government.

MARKETS.

Of the two Markets under the control of the Board only that at Kamunting was farmed out. The Taiping Market was worked departmentally and the revenue derived therefrom amounted to \$13,083.53. The working expenses were \$1,392.

In December instructions were received to abolish all market dues from the 1st January, 1901, with a view to reducing the high price of food stuffs. What result this very liberal act on the part of Government in foregoing a large amount of revenue (Taiping, \$12,000) will have, remains to be seen, but it is somewhat doubtful whether it will have the desired effect.

In consequence of the high prices charged by local butchers for beef and mutton it was suggested, in October last, that the Board should import cattle and sheep, slaughter, and supply meat to the public at a price sufficient only to cover expenses. The matter was immediately taken up by the Board, and, although time has not permitted any definite settlement, it will perhaps be interesting to know that the Scheme is still under consideration, correspondence has been opened with various persons with this view.

SLAUGHTER HOUSES.

A pound for cattle and sheep awaiting slaughter has now been attached to the slaughter house, wherein animals are placed immediately they are passed by the Inspecting Officer (Veterinary Surgeon or Health Officer) and not released until required for slaughter. By this means it is impossible for butchers to substitute other animals for those examined and passed.

STAFF.

Mr. E. H. Wallich was appointed Chairman on the 16th May, *vice* Dr. M. J. Wright, who proceeded on leave to Europe. Mr. D. J. White was appointed Inspector of Vehicles on the 1st May. Mr. Mathyaparanam who proceeded on leave in August, 1899, did not rejoin the Department but retired on pension. Mr. J. A. Mereira of the Medical Department has very satisfactorily performed the duties of Chief Clerk since Mr. Mathyaparanam's departure. Mr. Ho Kim Sung was appointed 2nd Clerk on the 10th July, in place of Mr. Chittambalam transferred to the Public Works Department, and on the 30th October, Mr. Ho Kim Sung was transferred to the Weights and Measures Office, Kinta, being relieved by Mr. Tan Kwan Nam.

PROSECUTIONS.

There were 64 Summonses taken out in the Police Court against parties for infringement of Sanitary Board Bye laws and Vehicles Regulations. The fines inflicted amounted to \$363.50.

GENERAL.

The mortality among cattle during the year was very great, the Board losing no less than 19 head, out of a total of 44, chiefly through Rinderpest.

A great number of the town shade trees were destroyed during the year by insects.

A new Sanitary Boards Enactment and Bye laws are under consideration.

W. SAYERS,
Secretary, Sanitary Board.

REPORT ON THE KUALA KANGSAR SANITARY BOARD FOR THE YEAR 1900.

REVENUE AND EXPENDITURE.

The revenue amounted to \$2,899.70, shewing an increase of \$405.50 on the collection for the previous year, and a deficit of \$125.30 on the estimate for 1900.

The deficit was due chiefly to the fact that no collections were made on account of removal of night-soil, as this work was not carried out by the Board. The collection on account of the market also failed to reach the estimate, owing to the fact that the market was not farmed out during the greater part of the year.

The collections on account of house assessment and lighting amounted to \$1,056.45, shewing an increase of \$380.60 on those of the previous year and of \$256.45 on the estimate.

MEETINGS.

There were five meetings of the Board during the year.

GENERAL.

The only important work was the construction of a brick-drain along the lane known as 'Jalan Kangsar,' in the town of Kuala Kangsar. Strenuous efforts have however been made to improve the state of Padang Rengas and Sungei Siput and provision for brick-drains for the latter place have been included in this year's Estimates.

The expenditure amounted to \$5,016.28. Detailed statements* of revenue and expenditure are attached.

R. C. GREY,
Chairman, Sanitary Board.

*Not printed.

REPORT ON THE KINTA SANITARY BOARD FOR THE YEAR 1900.

The Board met sixteen times during the year, and was, from time to time, constituted as follows:—

District Magistrate and Chairman.—Mr. R. D. Hewett and Mr. C. Wray.

Deputy State Engineer.—Mr. J. Trump.

Senior District Surgeon.—Dr. S. C. G. Fox and Dr. Edgar (Acting).

Assistant Commissioner of Police.—Mr. W. J. Buswell and Mr. T. W. Rowley (Acting).

Assistant District Magistrate, Ipoh.—Mr. A. H. Burgess, Mr. Ellerton and Mr. A. W. Just.

Acting District Magistrate, Gopeng.—Mr. N. Kendall.

District Surgeon, Batu Gajah.—Dr. Connolly.

District Surgeon, Gopeng.—Dr. S. P. Peart.

Mr. H. C. Tatlock; Mr. J. P. Ker; Mr. C. E. Cockram; Toh Amar Sri De Raja; Datoh Imam Prang; Mr. G. M. Donald; Towkay Leong Fi; Towkay Kew Kian Ng and Towkay Lam Yen.

Secretary.—Mr. W. T. Wrench; Mr. C. Goldham (Acting), and Mr. C. S. Robinson.

REVENUE.

Year.	Estimate.	Collection.	Excess on Collection.	Deficit on Estimate.
	\$	\$ c.	\$ c.	\$ c.
1898	70,020	68,791 74	...	1,228 26
1899	62,140	87,482 52	25,342 52	...
1900	91,375	98,273 82	6,898 82	...

The greater part of the large excess on estimate comes under the votes for Removal of Night-soil and Taxes on Vehicles. Night-soil was during the year removed departmentally instead of by contract, as during the greater part of the year 1899.

The chief deficit on estimate comes under Sale of Jinrikisha Badges. This is due to the Jinrikisha Enactment No. 10 of 1900 coming into force so late in the year, in consequence of which all Jinrikishas could not be dealt with.

HOUSE ASSESSMENT.

1898, \$20,114.54; 1899, \$22,546.45; 1900, \$29,028.94; The Register shews nearly a full collection for Batu Gajah and Ipoh. In Gopeng Division a good deal of assessment still has to be collected.

Revenue shews an excess over expenditure of \$53,206.58.

EXPENDITURE.

Year.	Estimate.	Expenditure.	Excess.	Saving.
	\$ c.	\$ c.	\$ c.	\$ c.
1898	26,666 60	24,517 57	...	2,149 03
1899	28,824 00	27,711 29	...	1,112 71
1900	39,610 00	45,067 24	5,457 24	...

Excess (covered by supplementary votes) nearly entirely due to removal of Night-soil being done departmentally. It will be noticed this large excess on estimate under expenditure is more than covered by the excess on estimate under revenue.

SCAVENGING.

This was done departmentally; the monthly average of coolies employed being 73 and carts 16.

The incinerator in Ipoh consumes both refuse and night-soil. Complaints were made during the early part of the year of smells arising from the incinerator, but since alterations were made to prevent these smells complaints have ceased. During the year another furnace has been added to the incinerator.

REMOVAL OF NIGHT-SOIL.

This was done departmentally throughout the year, but owing to insufficient number of coolies being employed, the work was not altogether satisfactorily carried out.

DRAINAGE.

The towns of Gopeng, Kampar and Menglembu, were greatly improved during the year by the laying down of brick drains. In all the towns in the district a great many earth drains still exist which are found very hard to keep in anything like a Sanitary condition.

STREET LIGHTING.

This work was done by contract, and was during the latter part of the year anything but satisfactory. The number of lamps in the district amounted at the end of the year to:—Batu Gajah, 64; Gopeng, 39, and Ipoh, 111.

PROSECUTIONS.

Prosecutions arising from breach of Sanitary Board regulations amounted to in Ipoh, 79 cases; in Batu Gajah, 22, and in Gopeng, 38.

FIRES AND WELLS.

The number of fires in the district during the year amounted to four. Two of these occurred in Papan, 10 houses being destroyed; one occurred in Batu Gajah, one house destroyed; one occurred in Sungei Siput, nine houses destroyed. More fire wells connected with the town drains have been made in some of the larger towns during the year. Some of these are at present useless on account of the poor water supply available.

BUILDINGS.

Plans of houses as follows have been passed by the board during the year:—Ipoh division, 40 houses; Gopeng, 35; Batu Gajah, 13. The majority of the above are for first class houses. A properly qualified official is urgently needed to superintend building operations in the district. It is well known that at present plans passed by the board after careful consideration are not followed by the builders. Sanitary Board officials have neither the time nor the technical knowledge required to properly superintend work of this nature.

REST-HOUSES.

The number of Rest-houses in use in the district is five. During the year a new Rest-house has been built in Gopeng on the site of the old one and will shortly be ready for use.

An experiment was tried for about six months, of leasing out the Rest-houses in Batu Gajah and Ipoh. The management of the houses under this system not being found satisfactory, they were again taken over and managed by the Sanitary Board.

VEHICLES.

The number of licensed vehicles in the district at the end of the year was:—Hack Gharries, 206; Carts, 1,344, and Jinrikishas, 1,157. As before mentioned there was not time after the coming into force of the new Jinrikisha Enactment to deal with all Jinrikishas.

TOWN IMPROVEMENT.

A good deal has been done during the year in improving earth roads and drains and in clearing vacant spaces, etc., in the different townships, at a cost of \$1,990.

Three hundred and twenty-five young trees have been planted in the streets of Ipoh and 40 in Papan.

Of all the townships in the district, Kampar is growing the fastest, and needs a great deal of attention as to sanitation. The Sanitary Inspector of Gopeng division has this township to look after as well as Gopeng and four other small townships. This is too much for one man to do satisfactorily, not only has he to look after the sanitation, but also to collect assessment, the latter taking up a great deal of his time. It is to be hoped that before long Kinta may be, for Sanitary Board purposes, divided into four divisions instead of three as at present, with Kampar as the chief town in the fourth division.

Ipoh and Menglembu are also growing at a fair rate.

STAFF.

At the beginning of July, the Secretary, Sanitary Board, ceased work, the Registrar of Vehicles acting in his place from that time till November 10th, when the present Secretary took up his duties.

From the beginning of July to November 10th the Sanitary Inspector of Ipoh took over the work of Registrar of Vehicles, in addition to his own work.

The present Sanitary Inspector of Gopeng division took up his duties in March.

The Chief Clerk has been absent on leave from 19th July up to present time, since when the Sanitary Board Office has been short of one clerk.

C. S. ROBINSON,
Secretary, Kinta Sanitary Board.

REPORT ON THE TELUK ANSON SANITARY BOARD ; FOR THE YEAR 1900.

MEETINGS.

The Board met five times during the year.

REVENUE.

The total revenue collected during the year was \$9,955, which shews not only an increase of \$3,670 over the Estimate, \$6,285, but \$1,647 in excess of the sum collected during 1899.

VEHICLES.

There being no metalled roads in the District accounts for the fact that there were no gharries or jinrikishas to tax. In and about the town there are a few carts, and the amount collected on them was \$307.

CONSERVANCY.

The average number of coolies employed was 36, with two tindals; over five miles of very wide streets and roads were swept daily, five carts were employed in removing town refuse, and 7,536 cart-loads were removed during the year. All drains were flushed daily, and occasionally disinfected. The expenditure under the head of Scavenging was \$3,498, exclusive of cost of tools.

TOWN IMPROVEMENTS.

All lanes in the town were kept in good order, and several low lying places were raised, open spaces were kept in fair order, over 400 shade trees were planted about the town and existing ones attended to.

REMOVAL OF NIGHT-SOIL.

This most important work was satisfactorily carried out departmentally, the expenditure on this account amounted to \$1,499, and fees collected from householders came to \$1,671.

LIGHTING.

Street lighting was done by contract at a monthly cost of \$116, ninety lamps were lighted every night with Devoe's oil.

REST-HOUSE.

9. This was well looked after, 384 visitors used the house, and \$339 was collected in fees.

INCINERATOR.

The incinerator gave entire satisfaction, consuming daily between 20 and 25 cart-loads of refuse, and over 855 lbs. of night-soil, which represents 357,960 cubic feet, and 1,400 tons of refuse, and over 139 tons of night-soil per annum. There is no offensive smell, all is reduced to a fine powder, it has never been necessary to purchase fuel, and the cost per mensem is \$32 only.

BUILDINGS.

Three first class and two second class buildings were constructed by the public on plans approved by the Board, and a block of 15 old shop houses were repaired, and brick pillars put in, in place of the old wooden supports.

PROSECUTIONS.

Ninety notices were served on the public, and 27 summons were taken out for infringement of the rules.

GENERAL.

New name boards for streets were put up, all lamp posts were repainted and numbered, 8 new hard wood dust bins were purchased, men were provided to look after the cemetery and the grounds surrounding the market, dhoby houses, and the Rest-house.

The town had its usual clean and well cared for appearance, and although cholera appeared in the district and there were two cases in the town, it never spread.

The water supply was well maintained, but the water is sometimes very dirty. I attribute this to there not being a sufficient amount used to cause a scouring of the pipes. Mr. V. R. Sonee, the Sanitary Inspector, has done very good work.

ED. J. BREWSTER,
Chairman, Sanitary Board.

REPORT ON THE TAPAH SANITARY BOARD FOR THE YEAR 1900.

MEETINGS.

Fifteen meetings of the Board were held during the year and the Board was constituted from time to time as follows :—

District Magistrate and Chairman, Mr. A. L. Ingall; Mr. E. Burnside (acting).

Acting Collector of Land Revenue, Mr. G. F. Curtis.

Do. District Engineer, Mr. G. F. Bird.

The Apothecary in charge of District Hospital, Mr. D. B. Perera.

District Inspector of Police, Mr. A. Wilson.

Mr. G. L. Bailey and Mr. G. B. Cerruti.

REVENUE.

The revenue for the year amounted to \$9,113.8, being \$2,763.8 in excess of the Estimates, and \$1,211.52 more than the total collected in 1899. The largest increase is under Taxes on Vehicles, whilst only two heads of revenue show deficiencies, viz., Cattle sheds and Dhobi houses.

EXPENDITURE.

The total expenditure amounted to \$9,197.21, on an estimate, of \$9,584. Of this \$5,077.5 was expended on Scavenging; \$2,905.90 on Town Improvement; \$728.98 on Removal of Night-Soil; \$1,442.17 and \$1,066.90 was spent at Tanjong Malim on Lighting. Scavenging, Town Improvements and upkeep of Public Gardens and Open Spaces.

HOUSE ASSESSMENT.

An annual rate of 5 per cent was imposed upon the houses and buildings within the Sanitary Board limits and an additional rate of 2 per cent was charged at Tapah only from 1st September, 1900, for the Fire Brigade.

The rate book shews a collection of \$852.24, on the assessment of \$861.84.

CONSERVANCY AND SCAVENGING.

This work was done departmentally by a monthly average of 26 coolies and 5 carts, distributed between Tapah, Bidor and Temoh.

Two thousand three hundred and twenty cart loads of town refuse were removed and deposited on vacant ground outside the town.

REMOVAL OF NIGHT-SOIL.

This work was also done departmentally and the night-soil buried outside town limits. 5 acres of land were purchased during the latter part of the year for the use of the Board for this purpose.

FIRE BRIGADE.

The Manual Engine stationed at Tapah, and worked when required by coolies from local shops, was not called out during the year except for practice. There was a fire in Bidor which did little damage consuming one small attap house only.

The water for the engine at Tapah is obtained by damming the town drains, this is found to work admirably.

LIGHTING.

The lighting was done by contract at a cost of \$1.10 per lamp, per month, for Tapah, and \$1.25 for Bidor. The number of lamps lighted per month (45) was insufficient. Additional lamps were purchased and are in course of erection.

BUILDINGS.

Several new shop houses were erected in the town of Tapah and buildings in Bidor of the 3rd Class have increased considerably.

REST-HOUSE.

Two hundred and nineteen persons made use of the Rest-house and fees to the amount of \$230.25 were collected. Several unserviceable articles of furniture, including beds, were condemned and sold and were replaced by new ones of more modern pattern.

VEHICLES.

The increased prosperity of the district has caused a considerable increase in the number of vehicles registered, as is shewn by the following figures:—

	1899.	1900.
Carts	162	218
Gharries	91	123
Jinrikishas	136	146

Private carriages registered in 1899, *nil*; 1900, 5. Hackney carriage driver's licences to the number of 229 were issued and 154 for jinrikisha pullers.

PROSECUTIONS.

There were 23 prosecutions for breaches of By-laws and fines to the sum of \$123.50 were inflicted.

GENERAL.

The Sanitary Inspector, Mr. Gulamohidin, resigned his appointment on 31st October and Mr. Ng Ah Khan was appointed his successor on the 1st December, 1900.

E. BURNSIDE,
Chairman, Sanitary Board.

REPORT ON LARUT LAND OFFICE FOR THE YEAR 1900.

REVENUE.

The revenue, exclusive of Forest revenue, amounted to \$31,444.19, as against an estimate of \$28,875, and an actual collection in 1899 of \$34,078.2. Comparative details are given in Returns A* and B*, which also include a statement of Forest revenue collected by the Land Office, from June to December, 1900.

Premia on Lands show an increase of \$303.95 over the previous year and are \$77.80 under the estimate. Of the sum collected, \$210 was paid for one piece of suburban land within town limits which was sold at public auction. This was the only sale of town land during the year, and the balance of revenue under this heading is accounted for by the sale of lands for arrears of rent, and the re-alienation of cancelled lands on which arrears were due.

Land rents show a decrease as compared with the previous year of \$919.19, and a decrease as compared with the estimate of \$651.47. This, I venture to submit, is not so unsatisfactory as would at first appear. A reference to Return B* will show that the decrease is entirely accounted for by a smaller collection of arrears of rent, which means that the arrears of rent actually recoverable were much smaller than in the previous year. The current rents collected in 1900 were \$41.41 in excess of the current rents collected in 1899, and this in spite of the fact that a single item of \$192 due on Yam Seng estate had to stand over until the beginning of this year. This has since been paid.

From Return E2* enclosed it will be seen that the arrears of rent brought forward on 1st January, 1900, amounted to \$6,449.20 on town and country lands, and that these were reduced on 1st January, 1901, to \$4,742.40, shewing that \$1,706.20 arrears on town and country lands were wiped off during the year. Of these, \$1,177.15 were collected as revenue, and \$529.65 were written off as irrecoverable.

These figures do not, however, represent the total amount of work done during the year in the way of writing off irrecoverable arrears of rent, as a list of abandoned lands with a total rental of \$2,700.50 was *Gazetted* in October, and these could not be removed from the rent roll until the 12th January, 1901, on which date the arrears were reduced to \$2,041.90, a figure which compares favourably with previous years.

Premia on mining leases show an increase on the actual revenue for 1899 of \$96.15, and on the estimate for 1900 of \$405. This item comprises the premium of \$5 an acre charged on all applications for mining land of less than 50 acres, and the increase is accounted for by the continued prosperity in the mining industry.

Rents on mining leases show an equally satisfactory increase which is explained by the same causes.

Mining Licences are \$75 below the estimate and \$190 less than in 1899.

Prospecting Licences amount to \$175, against no estimate for 1900, and an actual revenue of \$50 in 1899. These licences were issued for the most part in Ulu Kurau, and in one case resulted in a concession of 400 acres for hydraulic mining being granted to Mr. J. H. Tatlock of Ipoh.

The preparation and registration of Titles shews an increase of \$59 on the estimate and a decrease of \$20 on the previous year. The registration of Transfers, Charges, etc., is \$585.20 in excess of the estimate, and \$82.75 more than in 1899. These two items represent the total registration work of the office, exclusive of stamp duty.

Survey fees are \$481.75 over the estimate, but \$3,206.30 less than last year. This one item almost entirely accounts for the difference between the revenue for the two past years, and the large decrease as compared with 1899, is to be accounted for principally by the much smaller number of applications for mining land during 1900.

Demarcation fees are \$764 over the estimate, and \$838.75 more than in 1899. This large increase is due to a single item of \$800 paid for the demarcation of Capitan Ah Kwi's mining concession of 5,000 acres at Asam Kumbang.

* Not printed.

SETTLEMENT.

But little progress can be reported in settlement work again this year. During the five months that Mr. Willes was stationed here, he settled about 250 native holdings in Bukit Gantang. I was obliged to make use of Mr. Terrey's services during the time that he was here to assist generally in the office, as the Assistant Collector was transferred to Kuala Kangsar almost immediately after I took charge of the office; and, consequently, Mr. Willes was the only Settlement Officer available for regular mukim settlement work.

The demarcation of native holdings is on the whole well advanced, but the delay in taking over the work on behalf of the Land Office has already been such that a considerable amount of re-clearing of boundaries will be required, and the work will become more difficult as time goes on. With the assistance of Mr. D Butler, who since August has undertaken the duties of Assistant Collector, in addition to those of Inspector of Mines, I have been enabled to bring 256 holdings on the Mukim Register, but the numerous other calls upon my time have made it impossible for me to accomplish nearly as much in this direction as I could have wished.

NEW APPLICATIONS.

Return *F** shews the land alienated during the year as compared with 1899. With reference to the mining applications the acreage in the return represents the lands for which titles were issued during the year. There were considerably fewer applications for mining land than in the previous year. I think that this may be accounted for, partly by the fact that the continued high price of tin enabled owners to work lands which they had already acquired, but had been unable to work at a lower price. The premium of \$5 an acre on holdings of less than 50 acres in extent also probably put a check on reckless and indiscriminate application for new lands. That this falling off in new applications has not meant any diminution in the tin industry can be seen by the returns of tin exported from Larut for the year 1900. These returns show that during 1900, 44,841·85 pikuls of tin were exported from this district, as against 44,281·53 in the previous year.

The agricultural lands alienated during the year were about 738 acres, as against an area of about 3,522 acres in 1899. This difference is chiefly accounted for by two concessions of 2,200 acres and 570 acres alienated in 1899, whereas no large concessions were granted in 1900, although the number of new applications in the two years is nearly identical.

MINES.

I have already alluded to the actual output of tin during the year, and to the applications for mining land. It is hoped that the new cart-road, which is to be constructed this year, towards Ulu Kurau, will do much to improve the mining industry in that part of the district.

The labour force in January, 1900, was estimated at 12,016 men. Two rough censuses of mining coolies were taken in June and December. The June census gave a total of 13,247 men, whereas the December census shewed 11,235 only, a falling off of about 2,000 in the last six months of the year. The whole of this decrease is in the one mukim of Asam Kumbang.

EXPENDITURE.

The expenditure of the Land and Mines Office for the year is shewn in Return *H**. It will be seen that there is a considerable saving on the Transport Vote, and this is due to the absence of Settlement Officers during a great part of the year.

ADMINISTRATION.

I took charge of the Land Office on the 6th February, relieving Mr. L. P. Ebdon. On the 2nd March, Mr. F. Robertson, Assistant Collector of Land Revenue, was transferred to Kuala Kangsar, and no officer was appointed to take his place here. On the 1st March, Mr. J. S. Willes was appointed Settlement Officer, in addition to Mr. W. J. M. Terrey. On the 30th March, Mr. W. R. Scott, Inspector of Mines, retired on pension. On the 16th May, Mr. D. Butler was appointed Inspector of Mines and took up the duties of his appointment at the end of May. On the 10th July, Mr. Terrey was transferred to Kinta, and on the 6th August Mr. Willes was transferred to Matang, leaving this office without Settlement Officers and without an Assistant Collector of Land Revenue. On the 22nd August, Mr. Butler was appointed Acting Assistant Collector of Land Revenue, in addition to his duties as Inspector of Mines. This record of changes speaks for itself and sufficiently explains the small amount of Settlement work accomplished during the year.

E. S. HOSE,

Acting Collector of Land Revenue.

* Not printed.

REPORT ON THE MATANG DISTRICT FOR THE YEAR 1900.

REVENUE.

The revenue collected during the year amounted to \$99,222.69, against an estimate of \$56,500. This increase is chiefly due to Forest Revenue amounting to \$28,612.42, and an increase of \$13,594.02 under Customs.

EXPENDITURE.

The expenditure amounted to \$62,252.31.

LAND.

The total revenue under this heading amounted to \$18,160.37, as against \$17,254.72 collected in 1899; a satisfactory record considering the poorness of the *padi* crop.

Nearly all items show an increase, the most important being Land Rents, \$495.65; Fees of Office, \$310.75; Licences for Temporary Occupation, \$118; Miscellaneous Land Rents, \$152.97, and Sale of Boundary Stones, \$52.50.

The only important failures to reach the estimate are (i) Demarcation, where we are \$206 short, and (ii) Brick and Lime, under which no collection was made; this being due to the fact that all the lime burning in the district was done by the Farmer of sea shells under his contract.

During the year no mining land was alienated.

As regards agricultural land, Sungei Tinggi is the only mukim that shews any noticeable increase of acreage, *viz.*, 95 lots with an area of 611 acres, against 29 lots with an area of 201 acres.

In Selinsing only 133 acres was alienated, as against 420 acres during 1899. This does not look well considering it is the only mukim which can boast of an irrigation area. It is in this district that most of the abandoned land is situated, as the crops appear to have deteriorated year by year.

FORESTS.

The forest revenue for this district amounted to \$28,612.42, as against \$23,371.60 in 1899, an increase of over \$10,000 on the Estimates.

CULTIVATION.

The *padi* harvest was a very poor one, and unfortunately the coming one promises to be even worse.

At one time it looked as if all the *padi* in the Selinsing Mukim would be dried up, but fortunately rain came just in time to save it. On the other hand, the *padi* in Sungei Tinggi Mukim is looking well, and the cultivators expect a heavy crop.

Next to *padi*, sugar is the most important cultivation in this district. The Gudong Estate, the largest in the district, possesses the finest factory in the State. It is lighted throughout by electricity, and the machinery is of the most up-to-date type.

There have been several other applications for land for sugar cultivation, but as most of the land applied for is within the irrigation area, it is probable that they will not be granted.

The coffee in some parts of the district looks well, but, as long as the price remains as low as it is at present, it will not be cultivated extensively.

The coconuts in this district, at least those in places remote from sugar estates, look well and give abundant crops.

Rubber is planted in several parts of the district, and is looking well, in spite of the attacks of white ants.

There is only one Tapioca Estate in this district. This estate belongs to Goh Hooi Chew and is situated in the Sungei Tinggi Mukim. It is interplanted with coconuts and durians and is well looked after.

IMMIGRATION, ETC.

Return H* is a comparative statement of arrivals at and departures from Port Weld during the year. The arrivals numbered 27,492, as against 21,962 departures.

* Not Printed.

TEMPERATURE, ETC.

The usual meteorological return* is attached. The highest temperature registered was 89.90 in April, and the lowest 67.80 in December.

The total rainfall during the year was 99.38 inches. The greatest rainfall in one month was during September, 15.20 inches, and the least 1.96 inches in June.

HEALTH.

The health of the district during the year was good.

The number of cases treated at the Matang outdoor dispensary was 911, as against 700 of the previous year. This increase was probably due to the miserable specimens of humanity imported into the country from India as coolies.

During December, swine fever broke out at Pasir Itam. This port was immediately declared to be infected and export of pigs was prohibited.

POST AND TELEGRAPHS.

The revenue for the year under this heading amounted to \$993.78, against \$1,073.36 last year; a decrease of \$89.58.

PUBLIC WORKS DEPARTMENT.

No important work was done during the year under review beyond the upkeep of existing roads, etc.

LIGHT-HOUSES.

The lights and beacons were upkept and regularly inspected during the year.

The light-house at Tanjong Krang had to be strengthened and propped up, as it shewed signs of sinking and appeared to be unsafe.

EDUCATION.

There are twelve Vernacular Schools in this district with an enrolment of 301.

The number of Scholars in the Matang Girls School is 13, the average attendance is 9 and the per-centage of passes is 100.

ADMINISTRATION.

In March I relieved Mr. Burnside, who proceeded to Tapah, and in September I was transferred to Kuala Kangsar for the remainder of the year, leaving the administration of the district in the hands of Mr. R. B. Clayton, the Acting Collector of Land Revenue. In August Mr. C. E. Donaldson, the Collector of Land Revenue, was transferred to Tanjong Malim, Mr. R. B. Clayton being appointed to act for him. In November Mr. M. M. Kent, the District Surveyor, was transferred to Batang Padang, his duties being carried on by Mr. E. J. Kemplen.

SHIPPING.

During the year 349 steamers, with an aggregate tonnage of 32,812, entered and cleared from the ports in this district, against 308 steamers, aggregating 33,922 tons, during the previous year.

Two thousand and eighty-seven boats were registered, against 2,071 during 1899. Of the boats registered during 1900, 1,155 were fishing boats, 599 cargo boats and 333 passenger boats. The greatest number, viz., 904, were registered at Pasir Itam, against 806 at Port Weld and 377 at Matang.

COURTS.

During the year under review there were 364 police cases, and 161 on the Civil side. One case, that of Loh charged with murder, was sent up to the Judicial Commissioner's Court.

During the year 4 inquests were held.

GENERAL.

During the latter end of the year the Recreation ground was cleared, and football has proved a great attraction to the Malay youth of the District, who now may be seen daily taking healthy exercise instead of loafing about the 5 foot ways and shops as they used to do.

A. L. KNAGGS,
District Magistrate, Matang.

* Not printed.

REPORT ON THE KUALA KANGSAR DISTRICT FOR THE YEAR 1900.

REVENUE.

The total revenue for 1900, collected in Kuala Kangsar, was \$53,071.71, on an estimate of \$35,420. There was a decrease of \$751.32 on the revenue of 1899. In considering the revenue for this district it should always be remembered that the duty on tin exported is no longer credited to Kuala Kangsar and this of course makes a great difference in our returns.

Land and Forest revenue together shewed an increase of \$1,407.05 on the collections of the previous year. Land revenue by itself, though far exceeding the Estimates, shewed a slight falling off from 1899. This is accounted for by a variety of reasons detailed in the Collector of Land Revenue's report. If European owned estates had paid their rents last year the collections for 1899 would have been considerably exceeded.

EXPENDITURE.

The expenditure for 1900 was \$251,807.32, on an estimate of \$292,558. The principal savings were on account of Personal Emoluments, Works and Buildings, and Roads, Streets and Bridges, and the chief reason of the savings on the latter items was that the works estimated for were not carried out.

ADMINISTRATION.

I took over charge of the district from Mr. V. Hill in January, and remained in charge until the end of September, when I was temporarily transferred to Selangor, Mr. A. L. Knaggs took my place here. Mr. Worthington, who had been in charge of the Land Office, was transferred to Lower Perak in February, his place being taken by Mr. F. Robertson. Mr. Clayton, Cadet, attached to the Treasury was sent to Taiping in April, and was succeeded here by Mr. Hopkins. The Datoh Sri Adika Raja, who was in charge of the Plus District, and was also Superintendent of Penghulus, Ulu, was transferred early in May to Upper Perak, where he was sent to settle the new border territory. His absence from this district was very much felt in many ways.

LAND AND MINES.

The Collector of Land Revenue has written a full report* on the work of his department and on the survey and demarcation performed here, which I am forwarding with this, and attached to which are detailed returns of the work done and the revenue collected. I am forwarding also a copy of a report* on the mines in the district sent to me by Mr. Pearse, who was for the greater part of the year attached to Kuala Kangsar as Inspector of Mines. It is probably unnecessary for me to recapitulate the information given by these Officers.

COURTS.

The revenue collected in the Civil and Criminal Courts was \$3,929.64; this was \$1,695.36 less than the amount estimated and \$986.97 less than the collections for 1899. The revenue derived from this source has shewn a steady decrease of late years, but I submit that this is not a matter for regret. Full returns of the work performed have been sent to the Senior Magistrate to be embodied in his report.

Eleven Inquests were held by the Court during the year.

POLICE AND CRIME.

Seven hundred and sixty-one cases of crime were reported during 1900, of which 284 are entered as cases discovered. This shews an increase of 106 cases on the return for the preceding year, but a large proportion is for small offences, such as breach of contract and breach of labour rules.

* Not printed.

No cases of murder were reported and only four of highway robbery. There were, however, 50 cases of house-breaking and 171 of thefts in dwellings.

District Inspector Evans, who had been in charge of the Kuala Kangsar Police, was transferred to Lower Perak in June and was relieved by Inspector Glover. This officer reports that the conduct of the men under his command during the year has been fairly good.

A case of some interest occurred during the year, when Uda Talib, a Malay youth living in Lambor, was convicted of the murder of a girl named Puteh Halmiah towards the close of 1899 and sentenced to death. Subsequent to the trial it was discovered that part of the evidence on which Uda Talib was convicted was false. Four of the witnesses at the murder trial were thereupon tried for perjury and sentenced to three years rigorous imprisonment each, while Uda Talib's sentence was commuted to one of penal servitude for twenty years.

No convicts were detained in Kuala Kangsar during the year under review.

HEALTH.

The general health of the district has been good, but the Medical Officer in charge reports that malarial fever has been prevalent amongst Government officers, railway labourers and mining coolies.

The number of cases treated as indoor patients in Kuala Kangsar has increased by 38.3 per cent. The number of out-door patients also shews a slight increase. The Medical Officer reports that a large number of these cases have been Malays of both sexes, which I think is highly satisfactory.

One thousand five hundred and seventy-one subjects were vaccinated during 1900 in Kuala Kangsar, as compared with 1,197 in Kuala Kangsar and Upper Perak in 1899.

I regret to say that there was a somewhat severe epidemic of small-pox in Bota during the year. This mukim is, however, under the medical supervision of Kinta and I have no detailed information regarding the outbreak.

The highest temperature recorded was 94° Fahrenheit on February 26th, March 31st, April 4th and 7th, July 13th and 14th, August 18th and October 22nd. The lowest temperature registered was 65° Fahrenheit on February 6th.

The heaviest rainfall for one month was 12.16 inches in April, the greatest fall during 24 hours 3.19 inches on the 19th of that month. Throughout the year there was very little rain and for the first time for many years there was no perceptible rise in the river during what is usually known as the rainy season.

EDUCATION.

No new Schools were opened during the year in this district.

PUBLIC WORKS.

Very little was done in this direction during the year, and it has been necessary to provide re-votes for nearly all the works estimated for in 1900; out of an estimate of \$15,000 for "Special Services" only \$5,797.55 was expended.

The length of metalled cart roads in this district at the end of 1900 was 69 miles and 22 chains, that of unmetalled roads 7 miles and 28½ chains. The length of bridle-paths is put at 80 miles and 16 chains.

Mr. N. T. Gray held the post of District Engineer during the year under review. He fell ill in December, and was obliged to proceed to Europe on sick-leave. He was then succeeded by Mr. P. B. McGlashan.

RAILWAY.

The earthwork between Karai and the Larut pass was proceeded with during the year. The Karai bridge over the Perak river was formally opened by Sir Frank Swettenham, the Resident-General, on 21st March. His Highness the Sultan opened the piece of railway line between Kuala Kangsar and Karai on 13th September.

GENERAL.

The rice harvest for the years 1899-1900 was practically a failure, most of the *bendang* having been attacked by hordes of rats which devoured the crops. The effect of this was of

course felt throughout the district, and it was necessary to allow the cultivation of *ladang* or hill *padi* to keep the people from absolute want. I am very pleased to be able to say that the crops in the *bendang* this year are much better. They have indeed suffered from prolonged drought, but there have been no depredations on the part of rats. I attribute this in part to a somewhat stricter observance of the rules for *padi* planting and in part to a more universal use of certain precautions against rats which had formerly been found effective against these vermin in the northern mukims. The fruit crop for 1900 was exceedingly good, the best in fact that there has been for some years, and I trust that these two causes will result in a more general prosperity among the agricultural class in the district during the current year. It will at least be unnecessary to allow any *ladang* cultivation.

I cannot close this report without expressing my deep regret at the lamented death of Sir Graeme Elphinstone which occurred in the month of May. Sir Graeme Elphinstone had been for a great number of years one of the principal planters in this district, and he was respected and esteemed by all classes of the community.

15th February, 1901.

R. C. GREY,
District Magistrate, Kuala Kangsar.

REPORT ON THE UPPER PERAK DISTRICT FOR THE YEAR 1900.

REVENUE.

The revenue collected amounted to \$11,395.82, being \$419.18 under the amount estimated. The reason for this is that a sum of \$2,000 was inserted for Tithes on Jungle Produce, of which only \$17 was collected.

The revenue under Customs was improved by the alteration in the tin duty collected from \$6 per bhara to $\frac{2}{3}$ of the amount charged elsewhere in the State. This change was sanctioned by Government in consequence of the increased means of transport now available.

On the other hand the revenue under Cattle Passes and other licences was reduced owing to their being also issued by the Datoh Sri Adika Raja at Gritt after the month of May.

EXPENDITURE.

The expenditure under review amounted to \$37,459.92, shewing a saving of \$3,836.8 on the amount sanctioned.

TRADE.

The exports from the district include 235 pikuls of tin-ore, 32 pikuls of getah, 762 head of cattle, and 115 head of goats. The imports include 608 head of cattle and 75 head of goats.

ADMINISTRATION.

The only changes were the appointment of a Second Clerk in the District Office and a new Penghulu for the Mukim of Temelong.

LAND.

The Land Revenue collected amounted to \$3,741.32, shewing an increase over the collections of the previous year of \$230.67. At the end of the year there remained \$517.20 outstanding under agricultural and mining rents.

There were 236 acres applied for and 622 acres demarcated for agricultural purposes, and 100 acres were applied for and 487 acres surveyed for mining.

There are now issued 1,241 mukim extracts, 14 agreement for leases, and 426 registered applications for agricultural land, with 78 titles for town lots and 124 licences for temporary occupation, with 16 leases and 8 certificates for mining land.

MINES.

The Temelong Hydraulic Tin Mining Co. have felled some 200 acres of land and laid their pipes and are now proceeding with the scheme for catching their tailings. No new mines of any importance have been started.

POLICE AND CRIME.

The strength of the force on the 31st December was one Indian and one Malay Non-Commissioned Officer, and eight Malay and seven Indian Constables. Their conduct has been good. The crime reported has been all of an unimportant nature.

FORESTS.

The staff of Forest Guards has done its work efficiently and I believe there to be little or no unlicensed cutting.

The Forest Revenue collected amounted to \$11,127.82.

COURTS.

The printed forms *A, B, C, D, E, F, G and H*, sent to the Senior Magistrate, give every information of the Judicial work of the district. There were 121 Police and 101 Civil cases tried, and six Inquests were held.

PUBLIC WORKS.

The main trunk cart road was constructed for two miles, and a trace for further extension to the boundary of this district was felled, and a bridle road over it made for eight miles.

The metalled cart road as far as Sumpitan and the unmetalled portion which extends for another 32 miles was kept in repair, the latter with considerable difficulty, owing to the greatly increased traffic; many bridges were renewed, and 70 miles of bridle path kept in good order.

The irrigation ditch at Padang Jiri was completed and will be of great permanent benefit to the people, and the dam built across the Sop River will supply a good head of water that was greatly wanted.

A slipway for boats was constructed at Janing, all buildings were kept in repair, and some attap roofs replaced by shingles.

A new Penghulus balei was built at Kennering, and the quarters for the Malay Writer at Janing.

BIRTHS, DEATHS AND MARRIAGES.

There were 77 births, 71 deaths and 17 marriages registered, against 85 births, 50 deaths and 31 marriages last year.

EDUCATION.

A new girls' school has been started at Lenggong, and a new boys school at Chipor, making altogether five schools in the district. The attendance in each has been fair.

GENERAL.

The most important event of the year has been the rectification of the northern boundary of the district, whereby Perak gets about one-third Reman, two-thirds of the disputed territory. This arrangement entailed two journeys of upwards of a month each with the Siamese Commissioner, besides others for the manumission of slaves and other business. The survey of the new boundary was commenced in December. This district loses the valley of the Ringat with the assisted settlement, which is now handed over to the new district under the Datoh Sri Adika Raja.

The herd of cattle has thriven, and three pairs of Janing bred bullocks broken to carts have been sold, whilst a fourth pair is now working on the roads here. Two young bulls were sold for stud purposes. It is proved that large profits can be made by stock farming in Perak, when carried out with judgment.

The unfortunate death of Mr. Brigly, who was drowned near Janing, has been reported elsewhere.

The telegraph line to Janing is in course of construction.

H. BERKELEY,
Acting District Magistrate, Upper Perak.

REPORT ON THE KINTA DISTRICT FOR THE YEAR 1900.

FINANCIAL.

Revenue.—The estimated revenue for the year was \$3,350,475, while the revenue actually collected was \$4,515,119.46, exclusive of the Revenue Farms and Post and Telegraph, the whole of which were credited to Larut.

Thus the Estimate was exceeded by \$1,122,130.54, and the actual revenue collected in 1899 was exceeded by \$690,954.94. If Kinta was credited with its share of the Farms, the revenue for the year may fairly be put down at \$5,000,000, a sum equal to five-sixth of the estimated revenue for the whole State for the year.

The actual revenue shewn, however, by the Treasury books, was only \$838,000.09, owing to an order issued early in the year, by which all the Kinta Customs were credited to Lower Perak.

There were increases under nearly every head of revenue, the chief items being Land Revenue, \$17,660.03; Forest, \$33,586.50; Fines, Fees and Forfeitures of Court, \$8,127.88; Fees of Office, \$2,904; and Municipal, \$6,910.82.

The only items which shewed a deficiency, as compared with the Estimates, were Railways, \$161,685.88, and Miscellaneous Receipts, \$891.29.

EXPENDITURE.

The estimated expenditure was \$733,918, of this \$4,000 was transferred to other districts, leaving \$729,918, besides which there were Revotes and Supplementary Votes amounting to \$65,356.84, bringing the estimated expenditure up to \$795,274.84.

Of this \$661,456.85 was spent and \$133,817.99 remained unspent at the end of the year, but of this sum about \$70,000 will have to be revoted, which still leaves about \$64,000 unspent, a sum nearly equal to the Supplementary Votes granted.

The chief supplementary votes were granted under the following Heads of Service:—Salaries and Allowances, Native Chiefs, \$35,000; Public Works Department, Revotes, \$9,319.93; Personal Emoluments, \$2,817.73; and Other Charges, \$13,215. There were also small sums voted for Pensions, Works and Buildings, and Special Payments.

The Departments which contributed most towards the unspent votes were:—Personal Emoluments, \$11,912.80, accounted for by vacancies not filled, and by salaries not fully drawn; Other Charges, \$19,366.48, and Works and Buildings and Roads and Bridges, \$98,385.90, but a great part of this will be revoted.

The chief items which made up the sum under Other Charges were:—Land, \$1,166.37; Survey and Demarcation, \$3,310.68; Hospitals, \$2,354.44; Police, \$1,498.66; Gaol, \$2,389.47; Chinese Protectorate, \$1,002.32; Municipal, \$2,938.53; and District Office, \$3,152.34.

PERSONAL ACCOUNTS.

The amount received at the Treasury under Personal Accounts was \$1,115,862.39, against \$940,283.62 in 1899.

The chief items were:—Post Office and Money Order Deposits, \$254,254; Sundry Deposits, \$35,648.93; Remittances, \$283,779.42; and Drafts, \$474,574.26.

On the payment side the total was \$1,284,358.51, the chief items being Post Office and Money Orders, \$252,401.96; Sundry Deposits, \$41,213.76; Remittances, \$484,295.91; and Drafts, \$489,774.96.

The District Treasurer's report with returns gives full details of the transactions of the Kinta Treasury for the year (Appendix A*).

ADMINISTRATION.

On the 3rd of January I arrived and took over charge of the District from Mr. Hewett, who left on the 4th to take up the appointment of Federal Auditor and Accountant. Mr. Knaggs, Chief Assistant Magistrate, went to Matang, to act as District Magistrate, and on the 4th of May, Mr. C. McCausland arrived from Selangor to act for him. Mr. Ellerton arrived

* Not printed.

on the 12th January, and took up the appointment of Assistant District Magistrate, Ipoh, till the 20th March, when Mr. Just relieved him, Mr. Ellerton going to Selangor. Mr. Kendall, Assistant District Magistrate, Gopeng, returned to Lower Perak, being succeeded by Mr. Noel Walker. In the Land Office, Mr. Allen was appointed Assistant Forest Officer, and was succeeded by Mr. Sugars, who arrived on the 9th February. The District Surveyor, Mr. Redfern Shaw, was transferred to Selangor in April, Mr. Brigly taking his place. In June Mr. Brigly went to the Trigonometrical Survey Department, and Mr. Wood from Pahang became District Surveyor. Dr. Fox, the Senior District Surgeon, went to Taiping to act as State Surgeon, and Dr. Edgar arrived in Ipoh, and took over from him on the 29th May. Dr. Peart, District Surgeon, Gopeng, left, and his place remained unfilled till the end of the year. Mr. Wrench, Secretary of the Sanitary Board, left the service on the 3rd July, his duties being taken over by Mr. Goldham, who continued to act till the 10th November, when he was relieved by Mr. Robinson.

LAND.

The revenue collected was \$150,510.3, against an estimate of \$132,850; the excess being \$17,660.3, and an increase of \$25,854.6 over the revenue collected in 1899.

Land Rents exceeded the estimate by \$3,102.61; Premia on Leases, \$10,745.48; Rents on Leases, \$12,622.31, and nine other sub-heads by smaller amounts. The total excess being \$29,542.72, but several sub-heads of Land Revenue failed to reach the estimate, the total shortage being \$11,882.69; of this, Premia on Grants accounted for \$1,638.50; Survey Fees, \$8,445.19; Demarcation, \$1,162; small sums under Miscellaneous Passes, Mining Licences and Preparation and Registration of Titles, making up the balance.

The expenditure of this Department was estimated at \$66,987, and there were supplementary votes amounting to \$3,288.70, the actual expenditure was \$59,648.66.

The chief savings were under Personal Emoluments, \$4,345.16; Survey and Demarcation, \$3,310.68, and smaller sums under nearly every head of expenditure.

Land Alienated.—The total area of land alienated up to the 31st of December, 1900, was Mining, 76,567 acres, 3 roods and 3 poles; Agricultural, 20,183 acres, no roods and 8 poles, and Town, 12,664,278 square feet.

The land alienated during the year and for which titles were registered was Mining, 182 titles, comprising 4,632 acres, 3 roods and 19 poles; Agricultural Titles 23, area, 146 acres and 32 poles; town lot, 1.

The value of stamps sold during the year was \$3,643.25, representing 2,082 dealings.

MINES.

The Mining industry was in a most flourishing state throughout the year. The tin exported was 25,247.58 pikuls more than in 1899 and the tin-ore exceeded the export of the previous year by 11,894.93 pikuls.

It is satisfactory to see that the Chinese are beginning to realise that many ores of tin are worth working, which until recently would have been considered worthless, formerly any ore containing sulphur was looked upon as unworkable, but now that the value of the calcining furnace has been recognised by them, large quantities of stanniferous iron pyrites and arsenical pyrites are being worked at a profit, and in some cases ferruginous stone, which was formerly thought to be worthless, is now crushed and washed at a profit, in many cases this class of stone yields 10 per cent and more of tin oxide.

One of the most interesting and valuable innovations is the employment of machinery in the working of Mr. Fu Chu Chun's mine at Tronoh.

The tin ore is contained in a stiff clay, from which it could not easily be separated in the usual manner. It is brought up an inclined shaft in trollies, worked by wire ropes, and tipped into large buddles, each holding about 20 tons at a time, it is then broken up by revolving arms, the earthy portion is carried away by the water and the sand and tin is then removed and separated in a washing box. The mine was commenced in 1898 but the machinery was not completed till 1900. The mine has been opened, and the plant and machinery erected, by the Manager, Mr. John Addis.

Several new Hydraulic Mining Companies are preparing to work.

It is, I think, a matter for regret that no attention is paid to other minerals than tin. The district is known to contain the ores of copper, lead, antimony, bismuth, arsenic, etc., and other valuable minerals, such as the jungstates of iron and lime, phosphate of lime, and corundum.

SURVEYS.

The work performed by the Revenue Survey field staff was:—58 miles of traverse; 336 agricultural lots, amounting to 3,870 acres; 193 mining lots, comprising 6,678 acres; 291 town lots, and other miscellaneous surveys.

The work sent into the Land office during the year was:—159 mining lots, equal to 4,853 acres; 96 agricultural lots, comprising 2,252 acres; and 63 town lots.

The principal items of work carried out by the Office staff were as follows:—174 surveys checked, plotted, and plans drawn and examined; 271 leases drafted in duplicate; 138 titles prepared; 108 leases and plans re-drawn; besides a large amount of miscellaneous work.

The amount recoverable on work sent into the Land Office was \$5,102, but the amount actually credited was \$6,554, as some of the previous year's work was included.

Had the work done by the two Licensed Surveyors been done by the staff surveyors the Land Office would have been able to credit \$5,760 more, or a total of \$12,314.

FORESTS.

No sum was estimated for the revenue derived from forests in this district as the whole was placed under Larut, but a sum of \$33,586.50 was collected and paid into the Treasury here; of this, the greater part was for Timber, \$17,079; Charcoal, \$5,388; and Firewood, \$9,206.

CUSTOMS.

The amount of tin exported from Kinta during the year was 150,854.16 pikuls, as compared with 125,606.58 in 1899, an increase of 25,247.58 pikuls.

The tin-ore exported was 141,552.23 pikuls, against 130,157.30 pikuls in 1899, an increase of 11,394.93 pikuls.

The duty received on the tin exported was \$1,518,600.54, and on the ore \$1,416,447.17, making a total of \$2,935,047.71, or \$471,381.90 more than in 1899.

The opium imported for Kinta amounted to 1,546 chests, and the duty to \$741,680.

A small quantity of gutta only was exported on which a sum of \$386.90 was collected, and on rattans, \$5.76 was received.

POLICE.

The strength of the Force at the end of the year was:—one Assistant Commissioner (in command); seven European Inspectors, (one on leave); 26 Indian Non-Commissioned Officers; 211 Indian Police Constables; seven Malay Non-Commissioned Officers; 55 Malay Police Constables; 26 Detectives; and four Clerks; a total Force of 337 men.

Discipline.—The discipline of the Force is said to have been fair, eight men were convicted by the Civil Courts.

Health.—The health has been on the whole good, though there were a good many cases of Fever at Gopeng and Batu Gajah.

Fires and Fire Watchmen.—There were 13 fires reported during the year. The most serious one was at the Mining Village of Ampang, which was entirely destroyed; and one at Sungei Siput, Kampar, by which 9 houses were burnt.

The water supply at Menglembu and Lahat has been much improved.

The fire watchmen, of whom there are 36, besides keeping the fire engines clean and in order, do most of the Police work of the towns and villages where they are stationed, the Police proper being reserved chiefly for patrol duty.

Crime.—The number of cases reported in 1900 was 7,730, or 376 more than in the previous year. The number of cases discovered was 3,266, or 655 more than in 1899. Of the total cases reported 3,248 should be deducted, as they were merely cases of absconding coolies. This reduces the real cases of crime to 4,482 only. Of these 461 cases were serious. They included 12 murders, of which 10 were discovered; gang robbery, 56, of which only 16 were discovered; highway robbery, 40, with 11 discoveries; grievous hurt, 12, all traced; theft, serious, 189, with 35 discoveries, and house-breaking, 152, of which 39 were discovered.

Police Stations.—Two new Police Stations were built during the year, one at Kuala Dipang and one at Tambun. The new barracks at Batu Gajah were altered and occupied, and a new parade ground was formed.

PRISONS.

Admissions and Discharges.—The number of prisoners remaining in the Kinta gaol on the 1st January, 1900, including safe custody prisoners, was 167. The number admitted

during the year was 1,804, making a total of 1,971, of these 254 remained in the gaol on the 31st December, 1900. During the year, 1,598 were discharged, 73 transferred, 36 died in the Gaol Hospital, 2 died in the Wards (sudden deaths); 7 escaped, and one was executed. Of the prisoners transferred to Taiping, 67 were long sentenced men, 5 short sentence, and one awaiting trial. Of the seven men who escaped two were re-captured. The conduct of the prisoners was on the whole good. 259 men were punished by me during the year, but most of the charges were for being in possession of tobacco, etc., and for other minor breaches of discipline. The daily average of prisoners was 224.12, the daily average in hospital was 26.68, the per-centage of deaths was 5.46; of the 38 deaths which occurred 8 were from dysentery, 12 from beri-beri, 7 from phthisis, 3 from syncope. There were only two deaths from fever. The Prison was visited by His Highness the Sultan on the 18th of February. The Acting Inspector of Prisons visited it three times, and the Secretary to Government and the Acting State Surgeon also inspected it.

Health.—There were 659 prisoners treated in the Gaol Hospital, of these 36 died. The high death-rate, 5.46 per cent, was due to the number of vagrants sent into the Gaol, many of whom were in the last stages of disease. Two men died outside the hospital, one in Ward No. 3, and the other in the work shop.

Revenue.—The revenue collected was \$1,069.63, and the value of the prisoners work inside and outside the gaol was, at 15 cents per diem, \$6,850.35.

Expenditure.—The expenditure of this establishment was \$15,388.53, the estimate being \$16,908, supplementary votes to the extent of \$770 were sanctioned, but there was a total saving of \$2,420.47 on the whole.

Staff.—The Gaol Staff, at the end of the year, consisted of one Gaoler, three European Warders, two Clerks, one Senior Native Warder and twenty-three Native Warders. I regret to have to record that the work of the Native Warders, as a whole, left much to be desired. The intelligence of many of the newly recruited men is of a low order, and they seem to take but little interest in their work.

COURTS.

The total revenue estimated for the Courts, including that of the Warden of Mines, was \$23,125, the amount realized was \$31,252.88, or \$8,127.88 more than the estimate.

Of the total the different Courts contributed as follows:—

Divisions.	Criminal.		Civil.	
	\$	c.	\$	c.
Batu Gajah	2,989	78	1,546	55
Ipoh	5,830	48	5,570	75
Gopeng and Kampar	5,218	37	1,445	30
Total ...	14,038	63	8,562	60

Warden of Mines Court, \$5,526.92; Penghulus' Courts, criminal and civil, \$55.35 and \$730.94, respectively.

Fees on Registration of Bills of Sale yielded \$124, and Sale of Confiscated Property, etc. made up the balance.

As compared with 1899, the Criminal Courts show a falling off of revenue to the extent of \$1,420.9, but the Civil Courts show an increase of \$3,376.75.

Though rather less revenue was received by the Criminal Courts, more cases were tried than in the former year, thus:—

	Criminal Cases.		Police Summons.	
1900	3,885	...	595	
1899	2,787	...	835	

being a total of 4,480 cases, against 3,622 in 1899.

The civil cases heard numbered 1,068, divided thus:—

Batu Gajah	303
Ipoh	499
Gopeng	266
Total ...	1,068

In the Penghulus' Courts 886 civil and 59 criminal were heard and \$786.29 was received in fees. The number of probate and administration cases heard by the Batu Gajah Court was 139, involving property to the value of \$21,158.1.

The Inquests held were as follows:—Batu Gajah, 58; Ipoh, 72; and Gopeng and Kampar, 42; making a total of 172.

The detailed Court returns have been forwarded to the Senior Magistrate.

PUBLIC WORKS.

The amount estimated for Works and Buildings was \$193,920, and a sum of \$114,000.68 was spent; Roads and Bridges, \$125,580, of which \$116,814.49 was spent; there were also Revotes to the extent of \$43,819.93, of which \$34,118.86 was disbursed.

Works and Buildings.—The most important buildings taken in hand during the year were:—quarters for dressers, Ipoh; removing and rebuilding the hospital at Gopeng; two wards at Ipoh; an infectious disease ward at Ipoh; two police stations, one at Tambun, and the other at Kuala Dipang; a new gaol hospital was partly completed; incinerators at Gopeng, Batu Gajah, Kampar, and Menglembu, together with cattle sheds and Sanitary Board coolie lines.

Public latrines were built at Ipoh, Batu Gajah, Kampar, Gopeng, Papan and Menglembu; and the market at Kampar was much enlarged. A very fine rest-house was built at Gopeng, and new quarters for the District Magistrate were commenced at Batu Gajah, and Quarters for the Senior Magistrate and two Officers' Quarters were nearly completed at Ipoh.

A large amount of brick drains were constructed at Menglembu and Kampar, and a lesser amount at Ipoh; a number of smaller works were also undertaken.

Roads and Bridges.—A cart-road from Kampong Kapayong to Pulau (Sungei Raia) was nearly completed, and a considerable sum was spent on improving streets in Ipoh. A new iron bridge was constructed over the Kinta River at Ipoh and one at Kampong Kapayong, and a number of wooden bridges were replaced by culverts. The length of metalled cart-roads upkept was 114 miles and 61½ chains; 5 miles and 46½ chains unmetalled cart-roads; 57 miles and 73½ chains, bridle-roads; and 3 miles and 44 chains paths.

SANITARY BOARD.

The Municipal Revenue was estimated at \$91,375, but the actual receipts amounted to \$98,285.82, an excess of \$6,910.82, and \$10,793.30 more than in 1899. The excess was really much more as there were \$7,605 worth of night-soil buckets in hand which had not been disposed of at the end of the year, though the Board had paid for them.

The actual increase over the estimate was \$26,373.87, but this was reduced by \$19,463.5, money not realized. This is accounted thus:—Markets brought in \$9,104 less than was expected owing to change of policy by which they ceased to be a monopoly; night-soil buckets were purchased to the value of \$7,800, which were not sold before the end of the year; \$155 for sale of jinrikisha badges was not realized owing to the delay in bringing out the new Jinrikisha Enactment; \$667.5 was short on Rest-house Fees, owing to two of the Rest-houses having been given out on contract.

There were increases on nearly every other head of revenue. The principal increases being Taxes on Vehicles, \$9,430.81; House Assessment, Lighting, \$4,928.97; Licences, Opium Shops, \$1,188.50; Licences of Slaughter Houses, \$1,820; Licences, Street Stalls, \$1,805; Removal of Night-soil, \$6,983.50; besides small sums on other items.

The estimated expenditure was, Personal Emoluments, including a Supplementary Vote of \$100, \$9,798, of this \$9,538.49 was spent, a sum of \$239.51 remaining unexpended.

The estimate for Other Services, including Supplementary Votes, was \$46,810; of this \$43,871.47 was spent and \$2,938.53 saved; so that the total expenditure on the Municipal Department was \$53,429.96, and the Receipts, \$98,285.82, thus shewing a clear profit of \$44,855.86 to Government.

There are seven towns and villages under the Sanitary Board, scattered over a large area of country, and to look after all these there are only three Sanitary Inspectors, who have also to collect assessment, issue licences, etc.

The Department suffered throughout the year from the smallness of its staff.

The Annual Report of the Secretary of the Board gives full details of the working of the Department.

HEALTH.

The health of the district was good, and there were no outbreaks of epidemic disease in Kinta, though there was a somewhat serious outbreak of small-pox at Parit and Blanja, on the Perak River, in the Kuala Kangsar District, but which is administered from Batu Gajah.

The number of persons treated in the Hospitals was:—Batu Gajah, 5,316; Ipoh, 4,550; Gopeng, 2,682; and Kampar, 1,653; making a total of 14,201 patients, as compared with 9,959 in 1899, an increase of 4,242.

The death-rate was:—Batu Gajah, 13·14; Ipoh, 18·30; Gopeng, 19·20, and Kampar, 11·85 per cent.

Ipoh death-rate, excluding deaths which occurred within 48 hours of admission, was 13·71 per cent. and Gopeng, 15·54 per cent.

The number of out-patients treated was:—Batu Gajah, 3,773; Ipoh, 11,158; Gopeng, 4,882; and Kampar, 3,346, or a total of 23,159, which shews an increase of 8,964 cases as compared with 1899, when the number was 14,195.

The travelling dispensaries attended to 35,369 patients, thus:—Batu Gajah, 12,929; Ipoh, 10,453; Gopeng, 5,869, and Kampar, 6,028. The total for 1899 was 22,390.

In the Gaol hospital, Batu Gajah, 659 patients were treated, being 16 less than in 1899, the deaths numbered 36.

Small-pox and Vaccination.—There were 66 cases of small-pox on the Perak river, the deaths numbered 16. In the Batu Gajah division 53 persons were vaccinated; in Kampar, 31; and 207 in Gopeng.

Glanders.—In June eight or nine cases of glanders occurred. The Health Officer, Ipoh, took immediate steps to prevent the spread of the disease, and it was confined to the stables where it was first observed.

TEMPERATURE AND RAINFALL.

The highest and lowest temperatures registered during the year was as follows:—

				Highest.		Lowest.
Batu Gajah	...	...	...	95°	...	68°
Ipoh	...	...	...	94°	...	69°
Gopeng	...	...	...	93°	...	66°
Kampar	...	...	...	93°	...	68°

The rainfall in inches was:—

				Total for Year.		Greatest in 24 hours.
Batu Gajah	...	...	...	91·63	...	4·60, 31st October.
Ipoh	...	...	...	87·19	...	3·24, 12th November.
Gopeng	...	...	...	97·00	...	2·98, 18th February.
Kampar	...	...	...	136·11	...	6·49, „ „

POPULATION.

Births and Deaths.—The number of births registered by the Police during the year was 794, of these 419 were males and 375 females. The deaths registered numbered being 5,530 males and 484 females.

CHINESE PROTECTORATE.

During the year, 864 Sinkoh contracts were registered in Ipoh, and 833 in Teluk Anson for Kinta.

Women and Girls Home.—The amount spent on this useful institution was only \$869·62. During the year 66 women and children were admitted to the house.

Registration of Societies.—No new societies were registered in Kinta during the year. The number of societies are, registered seven, exempted from registration 30.

A large number of cases concerning Chinese were determined by the Protector of Chinese, and he rendered very valuable assistance, both to myself and to the Assistant Magistrates, in many instances when we had occasion to ask his help.

GENERAL.

The year has been one of the general prosperity and contentment and the people have been very quiet and orderly. When it is considered that in a large district like this, with a population of over 100,000 men, the majority of whom are Chinese miners, we have only a Police Force of 337 men, the small amount of serious crime and the safety of the roads is a matter for congratulation.

His Highness the Sultan paid two visits to the district. The first was at the end of January, he remained till the middle of February, and saw much of the district, which he had not seen since 1897. The second visit was in November, when he stayed about 10 days. The Resident-General, the Acting Resident-General, each visited Kinta once, and the Acting Resident several times.

The mining village of Ampang was destroyed by fire on the 26th of February. 42 shops were burnt, the damage being estimated at about \$15,000. The village was rebuilt almost immediately.

On the 17th of March, Imam Prang of Gopeng formally opened his new dam at Ulu Kampar, celebrating the event with a Malay feast. He hopes, and expects, that it will supply water for the irrigation of several thousand acres of *padi* land.

In June, nine houses were burnt down at Sungei Siput, a small mining village in Kampar, they were of small value.

On the 23rd, 24th, 25th and 26th of July, the Chinese celebrated the 30th Birthday of the Emperor of China. Ipoh and Kampar were thronged with holiday makers, but the people were most orderly and well behaved, and the celebration passed off very well.

On the 14th of August there was a threatened riot at Lahat, owing to a quarrel between the Chinese and Sikhs. The Chinese considered that the police shewed undue consideration to the Sikhs during the quarrel and they closed all the shops, etc., in the town. The Assistant Commissioner of Police went out with some police and met the Protector of Chinese there, and in a short time order was restored and the shops opened again.

CECIL WRAY,
District Magistrate, Kinta.

REPORT ON THE LOWER PERAK DISTRICT FOR THE YEAR 1900.

REVENUE.

Before attempting to compare the revenue as shewn by the Returns with the Estimated Revenue for the year, or with the Actual Revenue for 1899, I consider it necessary to point out that, up to the 30th April, 1900, all the duty on tin, opium, etc., was credited to the Districts which these products came from, or went to, but that from the 1st May it was credited to Lower Perak; and it should be noted also that there was no estimate for Lower Perak under Forest Revenue or Railway Receipts, and, too, that in 1899, Railway Receipts were only credited to this District from 10th March, 1899. If these facts be borne in mind, it becomes easier to account for the apparently enormous differences between the Estimated and Actual Revenue for 1900, and the Actual Revenue for 1899 and 1900.

The revenue for 1900 was \$3,069,311, or \$2,988,906 more than the Estimate. If the amounts paid in under Customs (from 1st May, 1900) and under Forest Revenue and Railway Receipts be excluded, the nett Revenue is \$81,527, an increase of \$1,122 over the Estimate. On the other hand had the Customs Duties been credited to this District from 1st January, 1900, the revenue would have been \$4,292,470.

There is a falling off on the Estimates of \$6,489 under Land Revenue, of \$1,282 under Fees of Office, and \$3,199 under Reimbursements. The deficit under Land Revenue is accounted for by \$1,876 only having been collected under Premia on Grants, against an estimate of \$10,000. Under Fees of Office nothing was collected on account of Admission Fees, Immigration Dépôt (Estimated \$1,500), nor was anything received for Diets, Immigration Dépôt, under Reimbursements (Estimated, \$4,500).

EXPENDITURE.

The expenditure for the year was \$238,196, against an estimate of \$260,761, representing a saving of \$22,564. The expenditure in 1899 was \$156,410, or \$81,786 less than in 1900. The only Heads of Service under which the Estimates were overdrawn were Other Charges, \$949; Salaries and Allowances to Native Chiefs, \$72, and Miscellaneous Services, \$107; making a total of \$1,129.

On the other hand \$26,827 was saved, made up chiefly by \$4,596 under Personal Emoluments; \$3,353 under Works and Buildings (Special Services); \$10,156 under Roads, Streets and Bridges (Special Services), and \$6,288 under Works and Buildings (Revotes). These savings were effected chiefly on the following votes:—

	\$
Batak Rabbit Cart Road, etc.	5,496
Completion of Metalling to Changkat Jong ...	1,674
Malay Leper Settlement, Pulau Lallang ...	6,288

Commander Mills, late R. N., who is Assistant Magistrate and Harbour Master, Lower Perak, did a good deal in connection with the Government Vessels in the way of repairs and additions.

Light-houses.—These gave every satisfaction, there are four on the Lower Perak Coast.

LAND AND AGRICULTURE.

The total Land Revenue for the year amounted to \$25,485, an increase of \$2,650 on the total for 1899. Eight hundred and fifty-five new applications for small areas were made and granted, amounting in all to 2,753 acres, 2 roods, 2 poles; of these 133 were in Bagan Datoh, 102 in Rungkup, and 83 in Utan Melintang, practically all for coconut cultivation. Application for a further concession of 5,000 acres was made by the Straits Sugar Company on terms similar to those governing the issue of the two large blocks, aggregating 11,000 acres, already granted to this Company. The Estate has been opened a little more than a year, over 1,000 acres have been cleared and most of it planted up, machinery valued at \$160,000 has arrived and is in course of erection, and a further \$40,000 worth of plant—including electric lighting apparatus—is shortly expected. Land granted to this Company is of course subject to the Laws of the State, and if not cultivated within a certain period reverts to Government, the Company are liable to an *ad valorem* duty of $2\frac{1}{2}$ per cent on sugar exported, which is practically equivalent to a quit rent of \$6 per acre per annum. The Company estimate their monthly expenditure for this year between \$13,000 and \$15,000.

Estates named "Rebana" and "Nova Scotia" are being opened at both sides of the Perak River. Their labour consists of 618 indentured and 326 free Tamil coolies, 200 free Chinese (drain cutters and jungle fellers), and many Malays employed in house building and jungle felling, there is hospital accommodation and staff with an European Medical man in charge. The whole is under an experienced European Manager, and seven Assistants, and the latter will be considerably increased during this year.

Sickness has been rather prevalent, but not more than is looked for in all new undertakings of this nature, spasmodic outbreaks of cholera occurred, but never became epidemic.

Survey and Demarcation.—1,300 acres of Agricultural land were surveyed by the Land Office surveyors, and 1,000 acres for the Rebana Estate by a contract surveyor, and 10,000 acres which forms their reserve were demarcated by a licensed surveyor for the same Company. 1,020 native holdings were demarcated, comprising 6,013 acres. Compared with the area of new land given out above, this shews excellent progress, but it will be a long time before arrears are worked off. A further 2,000 acres were demarcated for the Straits Plantations Company at Bagan Datoh for coconut cultivation, this Company has done good work during the year, 300 to 400 acres being opened. Small works, such as town lots and village sites, were surveyed by the Land Office surveyors, I consider this a very good record and that Mr. J. G. Koch, the District Surveyor, and his staff are to be congratulated, only those who know the swampy nature of the country can form anything like a correct idea of the difficulties to be overcome and the hardships to be endured.

Collection of Land Revenue.—All arrears of rent outstanding from 1899, amounting to \$306, were wiped off early in the year by means of auction sales under Section 64 of the Land Enactment. At the end of 1900, \$383 remained unpaid (\$263 of this being for abandoned land at S'tiawan,) other Mukims had practically no arrears, one of the largest, viz., Pulau Tiga, was only 75 cents in arrear.

Resumption of land for a Public Purpose.—The acquisition of shop lots in River Street and Denison Road, Teluk Anson, required for the purpose of building a Railway Passenger station was proceeded with during the year, but was extended over a long period for various reasons; amongst them being the many changes of Collectors. On the 31st December there only remained one small claim to be arbitrated on and claims by two owners in respect of four lots to be assessed by the Courts. In all 27 lots were resumed.

Forest Branch.—This work was done by the Land Office and \$12,110 was collected in Forest Revenue.

I have personally been in constant touch with the Land Office and consider it almost miraculous that we are able to show so much good work and progress with so many changes, and I have to thank one and all of these Officers for the keen interest they have taken in their work.

I have not encumbered this report with detailed figures under every head of revenue collected by the Land Department, as all these have been forwarded to the Commissioner of Lands and Mines, Federated Malay States, in the usual Annual Returns.

It is interesting to note the small amount of arrears, and the fact that the rent rolls for the year (1901) were, as before, prepared before the end of the year (1900), without any extra clerical aid.

POLICE AND CRIME.

The District was worse off than last year for men, our Establishment should be 85, but on the 31st December, 1900, we had only 65. There is one European Inspector, one native officer, and only two detectives. Five hundred and sixty-five cases were reported, and 377 discovered, leaving 188 undiscovered. The force must have been much handicapped owing to the fact they had no launch.

The great prosperity of the District, I think, has a good deal to do with so little crime. There was one murder case, a Malay killed his wife, was caught red-handed, confessed, was tried and committed, but was let off by the Jury. The only other serious case was a fight amongst Malay youths and one died from the effects of too hard a blow on the head, and his assailant was sentenced to 5 years Rigorous Imprisonment.

The District Inspector considers the conduct of the men of the force was fair.

Acting Chief Inspector Symes retired on pension during the year. District Inspector Evans then took charge and was relieved by District Inspector Foley in October.

Noxious Animals.—Two hundred and forty-five Crocodiles, measuring 864 feet, and 939 of their eggs were destroyed, two full grown tigers were killed, 76 snakes were destroyed, \$393.55 was paid for the above in rewards.

Dogs.—One hundred and fifty were registered and 301 destroyed.

Births and Deaths.—Four hundred and seventy-two males and 432 females were born, 665 males and 312 females died.

Revenue.—The Department collected in Revenue, \$1,261; \$653 of this being for Hawkers' Licences.

COURTS.

Summary of Court work during the year 1900:—

Police Court.—Police Court cases, including those heard by the Senior Magistrate and Penghulus, 739 cases in 1900, against 929 cases in 1899. Revenue, \$1,671.10 in 1900, against \$5,425.94 in 1899.

Civil Court.—Civil Court cases, including those heard by the Senior Magistrate and Penghulus, 645 cases in 1900, against 582 cases in 1899. Revenue, \$1,535.98 in 1900, against \$1,607.85 in 1899.

Administration Cases.—Administration Cases, including those heard by the Senior Magistrate, 5 cases in 1900, and the amount involved was \$6,499.77, against 5 cases in 1899, involving an amount of \$11,416.24.

Inquests.—Sixteen inquests in 1900, against 14 in 1899, 17 deaths in 1900, against 14 deaths in 1899.

SANITARY BOARD.

The revenue collected during the year was \$9,955, an increase of \$3,670 on the amount estimated, and \$1,677 in excess of the sum collected in 1899.

The work of Sanitation was consistently and thoroughly carried out, 36 coolies with 2 tindals and 5 carts were employed daily, 7,536 cart-loads of refuse were removed, the Incinerator continues to give entire satisfaction, consuming daily $20\frac{1}{2}$ loads of refuse, and over 855 lbs. of night-soil, or altogether 357,960 cubic feet of refuse, (over 1,400 tons), and 139 odd tons of night-soil per annum. There is no offensive smell, all is reduced to a fine powder. It has never been necessary to purchase fuel, and the cost per mensem is \$32 only.

The town was remarkably healthy and always looked clean and well cared for.

PUBLIC WORKS.

Much good work was done by the Department. The metalling of the road from Teluk Anson towards the water works was continued but not finished, it will be completed to the Sungkai Mati river by about March, 1901, at that point there is a tram line about $1\frac{1}{4}$ miles to the Turbine Chamber. A new house for the Collector of Land Revenue was built in Teluk Anson, and a Court House and Jetty at Bagan Datoh.

CHINESE PROTECTORATE.

I am the Chinese Protector, and during the year registered 626 Colonial Contracts and 226 Local Contracts ; \$269.50 was collected in Stamp fees.

HEALTH.

Hospital.—The general health of the District was in my opinion good, but the Hospital death-rate was about three times greater than last year, owing to the class of patient sent from the Batang Padang District, (poor emaciated coolies often in the last stage of dysentery). There were 1,149 patients treated, of whom 198 died. There were 347 dysentery cases of which 120 died, beri-beri cases 56, with 12 deaths, Malays, treated as in-door patients, 54. Death-rate for year 15.17 per cent, as against 4.5 during 1899. Total number of out-door patients 2,887, total number of Malays treated 883. Vaccination 1,483, being 464 more than 1899.

Contagious Diseases.—Cholera, 21 cases, died 7. Small-pox, 1 case, died 1. The former were chiefly from the Rebana Estate, the disease probably came with Tamil coolies, it was never bad nor, I believe, of a really bad type, and it did not become epidemic.

The District Surgeon reports that during the year the work generally has nearly doubled.

Cattle.—Eleven hundred and twenty-six head of cattle were detained by the Medical Department for observation.

Meteorological.—Highest temperature, 94°. Lowest temperature, 67°. Total rainfall, 132.04 inches ; the greatest in one day, 3.72 inches.

EDUCATION.

There are 18 boys and 1 girl's school in the district (all Malays). Number of enrolment, 682 ; per-centage of passes, 76.32 ; average enrolment, 38 ; daily average attendance, 29. There are 25 students on the American Mission School-roll, and 20 is the average daily attendance, they are taught up to the 5th Standard only.

GENERAL.

The total amount paid into the Lower Perak Treasury during 1900 was \$4,412,488, as compared with \$3,758,901 in 1899. Imprests aggregating to \$2,527,500 were despatched. The total number of chests of opium imported was $1,646\frac{1}{6}$, on which duty amounting to \$790,176 was collected. In 1899, 1,479 chests were imported, on which \$703,520 duty was paid. The highest price of tin in 1900 was \$86 per pikul on 6th March, and lowest \$62.50 on December 19th. The average for the 12 months was $\$74.11\frac{1}{2}$, as compared with \$71.62 for 1899. 155,488.77 pikuls of tin and 153,950.6 pikuls of tin-ore passed through the Customs House during the year.

Two pensioners died during 1900 ; Toh Nara on April 8th and Mah Aris on October 7th.

The year generally has been a very prosperous one for Lower Perak, and was passed without any serious troubles to the native agricultural population, such as floods and severe drought.

The Rebana Sugar and the Bagan Datoh coconut estates suffered during the dry season from a rat plague, which seemed to go with the rainy weather. The Sugar Company introduced a number of mongoose from India, and, I understand, intend breeding them in captivity.

The natives are well off, having had a fair rice crop and an abundant fruit season, hundreds of truck loads of Durians going to Kinta by rail and many to the Colony by sea. The demand for atap has been good and prices above the average.

The Farmer, Capitan Ah Kwi, has built a fine block of premises and completed a very extensive distillery, other substantial brick houses have been and are in the course of construction.

His Highness the Raja Mudu (Raja Musa bin Sultan Jaffar) continued to reside in Lower Perak, and his interest in the work of the District in no way diminished. He attends office daily when in Teluk Anson, and has a considerable amount of correspondence with His Highness the Sultan and Native Chiefs on the Malay affairs of the State, I note that many of high and low degree come to him for advice. I have to thank all my officers, including the clerical staff and native head men, for the keenness and interest they have taken in their multifarious duties which has made working with them a pleasure.

ED. J. BREWSTER,
District Magistrate, Lower Perak

REPORT ON THE BATANG PADANG DISTRICT FOR THE YEAR 1900.

REVENUE.

The total actual revenue amounted to \$284,593.49, an excess of \$121,438.49 on the Estimates and an increase of \$18,975 on the previous year. For the sake of comparison I have included under Customs a sum of \$121,827.63 collected at and credited to Lower Perak from the 1st May, 1900.

All heads of revenue contributed to the excess and increase, with the exception of Rents exclusive of Land and Miscellaneous.

EXPENDITURE.

The total expenditure for the year amounted to \$295,359.32, on an estimate of \$308,591. Supplementary warrants in the total sum of \$10,014 were issued.

ADMINISTRATION.

On the 3rd January Mr. C. E. Donaldson, Inspector of Mines, South, was transferred to Matang, and was succeeded by Mr. F. Dennys on 6th February as Inspector of Mines. Mr. G. F. Curtis, appointed a Settlement Officer on 27th January, acted for Mr. Noel Walker as Collector of Land Revenue, on that officer's transfer to Tanjong Malim in March to act for Mr. F. W. Douglas, Assistant District Magistrate, who proceeded to Taiping as Acting Forest Officer, on the 17th March, I took over charge of the District from Mr. A. L. Ingall.

LAND.

This Department collected a total sum of \$41,379.78, on an estimate of \$23,825, exceeding the revenue of last year by \$12,467.71.

The large collections under Premia on Grants is due to the sale of town lots in Chenderiang and Tanjong Malim, the former alone bringing in over \$6,000. Agricultural Land Rents show a small excess of \$108.15, and an increase of \$689.40. The large excess of \$1,980, and increase of \$2,490, on Premia on Mining Leases is the result of the charge of \$5 an acre on areas under 50 acres. Rents on Mining Leases show an excess of \$5,618 on the Estimates, and \$2,765 more than was collected in the previous year. A number of mining certificates were issued during the year and this helped to swell the collections.

The arrears due on the last day of the year on Agricultural Lands were \$1,199.50, and on Mining Lands, \$300. The former will be considerably reduced when action is taken to resume land abandoned over three years.

Survey shews an excess of \$1,568.86 on the estimate, but a falling off of \$1,288.20 on the previous year, owing to the Survey staff not being at its full strength throughout the year and the employment of a Licensed Surveyor whose fees are not credited to revenue.

The deficiency and decrease under demarcation is due to a too sanguine estimate and to the fact that in 1899 fees were credited for works done in the previous year. The only other items calling for remark are rents on Government estates and licences for brick and lime, both shewing "*nil*" collections.

Rents on Government estates are those derived from the letting of durian trees on State land, and these rents collected in 1900 were credited to Miscellaneous. The estimate for brick and lime was made for Mr. Smith's kiln, the only one in the district. This was closed during the year and hence the "*nil*" collection.

There can be little doubt that the closing of the Kinta books was the cause of the great rush to this district for Mining Land. Applications to the number of 370, comprising an area of 9,796 acres, were registered, of which 222 were dealt with. Six prospecting licences were issued, covering an area of 3,300 acres. Several large areas have been acquired to be worked by hydraulic methods.

Three Settlement Officers were appointed during the year to deal with the arrears.

SURVEY.

Agricultural lots to the number of 310, with a total area of 1,011 acres 3 roods 15 poles, were demarcated, at a cost of 78 cents per acre; 9 agricultural applications were surveyed, comprising 79 acres 3 roods 15 poles, at a cost of 70³/₄ cents per acre; and 43 mining applications, with a total area of 1,431 acres 1 rood 38 poles, were surveyed, at a cost of 34¹/₄ cents per acre.

On the 1st January, 1900, there was a balance of \$36,837.43 on the survey fees deposit account. During the year a sum of \$4,568.86 was carried to credit, and at the end of the year there still remained a balance of \$38,990.41. This balance includes deposits on cancelled applications and when withdrawn will considerably reduce the balance.

During the year, 259 agricultural lots, comprising 721 acres 1 rood 34 poles; 121 mining lots, comprising 5,138 acres 2 roods 39 poles, and 30 town lots were alienated. Compared with the previous year there was a decrease in agricultural lots and an increase in mining lots alienated.

The total area alienated for permanent occupation to the end of the year was:—mining lots, 835, area 17,235 acres and 9 poles; agricultural lots, 3,572, area 9,107 acres and 3 roods, and 506 town lots. Transfers to the number of 183 were effected, as against 174 in 1899. Only 4 charges were registered compared with 10 in the previous year.

FOREST.

The collections (\$10,357.88) exceeded the Estimates (\$5,555) by \$5,076.88, the most prominent being under timber.

Tithes on jungle produce were collected at and credited to Lower Perak under Customs. There was no estimate for wood-cutters, the revenue credited in former years under this head being credited in 1900 to timber and firewood, which together show an increase, although the charge of \$1 for firewood for use in mines was abolished.

The new licence system with removal of passes was adopted late in the year and has now been extended throughout the district, except to Tanjong Malim. The collection of Forest Revenue was handed over to the Collector of Land Revenue. There were a very few prosecutions for breach of Timber and Jungle Produce Rules.

CUSTOMS.

Estimated, \$123,000; actual, \$214,886.78. Every item shews an excess, whilst there were decreases on two items only, *viz.*, Gold Royalty and Weighing Fees.

A separate report has been sent in on the decrease on Gold Royalty.

The weight of tin exported during 1900 was 18,577.15 pikuls, against 18,062.52 in 1899. The duty collected shews an increase of \$1,549.92. Tanjong Malim contributed 1,551.39 pikuls and duty \$10,467 (included in above figures), shewing a substantial increase.

COURTS.

The revenue exceeded the estimate by \$3,234. Sale of confiscated property is the only item shewing a decrease on last year.

There were 524 cases on the criminal side and 125 on the civil side, five applications for letters of administration involving the sum of \$1,082.70½. Three applications for appeal, two dismissed and one allowed.

Sixteen Inquests were held, one was on a case of murder at Chenderiang.

POLICE AND CRIME.

As reported by my predecessor in the last year the force has been far below the requirements of the District. It consisted of:—One 1st Class Inspector, 4 Sergeants (one Indian and three Malays), two Corporals (one Indian and one Malay), four Lance-Corporals (two Indian and two Malays), 43 Privates (25 Indian and 18 Malays), three Detectives, one Interpreter and one Orderly; a total of 59, and an addition of 7 men to the force employed last year. Out of a total number of 1,065 cases reported only 536 were discovered. Thefts reported numbered 299 and breach of contract 303; only 77 and 64, respectively, were discovered. These are not very serious cases but go to swell the list of undiscovered cases. There was only one murder, not yet discovered, one gang robbery, not discovered, and eight highway robberies, three of which were discovered. This is not, I regret to say, a very satisfactory record but, with the small force at hand, it is a matter of congratulation that the record is not more serious.

The total number of births registered was 230 and deaths 949, against 243 births and 595 deaths in 1899. The number of Male and Female births was 132 Males and 98 Females, and of deaths, 755 Males and 194 Females.

PUBLIC WORKS DEPARTMENT.

The annual expenditure on Works and Bridges amounted to:—Annual Recurrent, \$7,948.97; Special Services, \$33,099.31; the most important being a Police Station at

Chenderiang; Quarters for married men, Temoh; Markets at Tanjong Malim and Chenderiang; Penghulus' Balei, Bidor; Rest-house, Tanjong Malim, not yet completed, owing to difficulty in obtaining bricks; Halting Bungalows at Sungkai and Trollah and removing Headquarters to Bidor. This last work has made some progress, clearing for the proposed site is well advanced and the earthwork of approach road completed and land resumed, for which compensation in the sum of \$2,125 has been paid.

ROADS, STREETS AND BRIDGES.

The expenditure under this service amounted to:— Annual Recurrent, \$77,409.90; Special Services, \$33,099.31. A supplementary vote of \$5,000 was granted under the former.

There are now 78 miles 71 chains of metal cart-roads in the District, 6 miles 16 chains unmetalled cart-roads, 68 miles 30 chains bridle-path and 41 miles of paths; in addition to the above the Brusch Mining Company has completed about three miles of earthwork for a cart-road between the Company's mine and Bidor village, following the old bridle-path. I understand the upkeep has always been a difficult matter in this District, owing to the difficulty in securing labour. The roads, however, have been much improved during the year.

HEALTH.

The general health of the District has not been as satisfactory as in the past year. The number of Government officers ill was 54, against 34 in 1899, and Malarial cases show an increase by two.

The wards have been very much overcrowded, the number of cases admitted being the largest on record, *viz.*, 3,419, and so was the number of deaths, *viz.*, 366. The new temporary ward was erected to alleviate the crowding and was occupied on 19th September, 1900. The daily average of in-door patients numbered 179.46, against 88.63 in 1899. The total number being 3,544, against 1,862 in the previous year.

One case of small-pox was discovered in the bakery in the town, and proved fatal. The disease was contracted in Penang, and was duly stamped out. The most prevalent diseases were malarial fever, dysentery and beri-beri.

The highest temperature recorded in the shade was 94°, and the lowest 65°. The wettest month was November, with a rainfall of 17.62 inches, and the driest was August, with 1.78 inches. The total rainfall for the year was 123.05 inches, against 143.93 inches in the previous year.

EDUCATION.

There are seven schools in this district. The average enrolment amounted to 213; the average attendance to 138 and per-centage of attendances to 65.

No new schools were opened during the year, and it is proposed to close the school at Slim until a better attendance can be secured. Bidor school shews the highest per-centage of passes, whilst no return is given for Tanjong Malim and Slim schools, which are left to the Federal Inspector to examine.

GENERAL.

The Acting British Resident visited the district several times during the year, and settled several important questions.

The year 1899 was reported to be by far the most successful this district had ever experienced and it is gratifying to note that this prosperity has continued and even increased during the year under review.

Land revenue has nearly doubled that of the previous year, the same may be said of Customs, whilst other Departments show a marked increase.

In October the completion of the railway bridge over the Bernam river connected the two States of Perak and Selangor by rail, the service from Klang to Tanjong Malim now being an accomplished fact.

It is interesting to note that the Census taken on the night of the 1st March, 1901, returned the population of the district at double that taken 10 years ago, the rough total being 22,425. This also shews the great advancement the district has made, and it will be no wonder if in a few years it bids fair to compete with Kinta, the most flourishing district of the State.

E. BURNSIDE,

Acting District Magistrate, Batang Padang.

REPORT ON THE KRIAN DISTRICT FOR THE YEAR 1900.

REVENUE.

I attach Statement *A** shewing the amount of revenue collected during 1900, and the excess over, or deficiency under, the Estimates, and Statement *B**, comparing the revenue collected in 1899 and 1900.

The revenue for the year amounted to \$140,138.96, being \$36,813.96 in excess of that estimated, and \$6,073.18 more than was collected in 1899.

Land Revenue.—Estimated, \$42,100; actual, \$47,058.23; excess over the estimate, \$4,957.93, and \$1,293.8 more than was collected in 1899. Land Rents amounting to \$35,952.93 were collected, being a decrease on 1899 of \$182.67. Premia on Grants produced \$1,123.80 (an increase on 1899 of \$862.70); Licences for Temporary Occupation, \$281 (an increase of \$33); Registration of Transfers, Charges, etc., \$2,122 (an increase of \$424.50); Search, \$540 (an increase of \$522); Survey, \$1,445.30 (a decrease of \$1,680.15); Water Rate, \$557.55; Demarcation, \$3,581 (an increase of \$512.50); Fees of Office, \$1,057 (a decrease of \$42.50); Miscellaneous, \$248.15 (an increase of \$235.65).

Forest Revenue.—The amount estimated is not shewn, a total estimate for the whole State having been made. This revenue is collected by the Land Department. The total amount collected was \$3,639.53, being \$1,010.53 more than was collected in 1899. Licences, \$279 (an increase on 1899 of \$279); Passes for Firewood, \$927 (increase of \$543); Passes for Rattans, \$768 (increase of \$170); Passes for Woodcutters, \$1,389 (increase of \$57); Passes for Jungle produce, \$157 (increase of \$82.40).

Rents, exclusive of Land.—Estimated, \$250; actual, \$1,369.24; excess over the Estimates, \$1,119.24, and \$22.80 more than was collected in 1899. Ferries, \$1,332 (an increase on 1899 of \$20).

Licences.—Estimated, \$4,525; actual, \$5,442.45; excess over the estimate, \$917.45, and \$1,665 less than was collected in 1899. Boat Licences, \$746.95 (decrease on 1899 of \$1,274.70); Fishing Stake and Fishermen's Licences, \$4,658 (decrease of \$337.70). The decrease in the former case was due to the reduced charge for Boat Licences in Enactment No. 21 of 1899, which came into force at the beginning of 1900, and the decrease in the latter case to the fact that a considerable number of fishermen have left the place owing to the enhanced charge for fishing licences under the Enactment above referred to. Formerly fishermen from Province Wellesley and Penang used to come to fish in our waters owing to the low rates charged for licences, but since the Enactment came into force they have given up coming.

Customs.—Estimated, \$36,375; actual, \$59,589.97; excess over the estimate, \$23,241.97; and an increase on 1899 of \$12,101.84. Duty on Sugar produced \$13,087.79 (an increase of \$133.69 compared with 1899); Opium, \$46,080 (an increase of \$12,160); Sugar Cane, \$216.40 (an increase of \$198.63).

Port and Harbour Dues.—Estimated, nil; actual, \$718.07; excess, \$718.07.

Fines, Fees and Forfeitures of Court.—Estimated, \$5,575; actual, \$4,416.87; deficiency on the estimate, \$1,158.13, and \$3,180.04 less than was collected in 1899. Criminal Court, \$2,591.68 (decrease on 1899 of \$1,459.67). Civil Court, \$1,764.44 (decrease of \$1,436.57).

Fees of Office.—Estimated, \$1,200; actual, \$1,121.65; deficiency on the estimate, \$78.35, and \$370.66 less than was collected in 1899. Fees of Pounds, \$181.65 (decrease on 1899 of \$235.66); Processions and Wayangs, \$152 (decrease of \$205.80); Passes to Pedlars and River Hawkers, \$495 (increase of \$51); Registration of Dogs, \$184.75 (decrease of \$58.25); Survey of Boilers, \$84 (increase of \$84).

Reimbursements.—Estimated, \$2,925; actual, \$5,088.79; excess over estimate of \$2,163.79, and \$4,258.91 more than was collected in 1899. This increase is chiefly due to the fact that the amount of upkeep of the Krian Boundary Road and Ditch, contributed by the Colony, is credited to this account. Hospital Fees and Sale of Medicines, \$44.27 (decrease on 1899 of \$203.68); Upkeep of Krian Boundary Road and Ditch, \$4,627.68 (increase of \$4,627.68); Miscellaneous, \$22.97 (decrease of \$151.39); Sale of Weights and Measures, \$251.05 (decrease of \$103.35).

Miscellaneous Receipts.—Estimated, \$2,250; actual, \$3,417.90; excess over estimate, \$1,167.90; Duty on Pulau Kra metal, \$3,358.23.

* Not printed.

Municipal.—Estimated, \$8,100; actual, \$8,246.06; excess over estimate, \$146.06, and \$1,012.22 less than was collected in 1899. Markets, \$2,424 (increase on 1899 of \$108); Taxes on Vehicles, \$3,362.11 (decrease of \$818.96). This decrease is due to the opening of the railway. House Assessment and Lighting, \$962.09 (increase of \$5.22); Fire and Water Rates, \$513.40 (increase of \$69.76); Kerosine Oil stores, \$152.40 (increase of \$56.40); Rest House fees, \$259.25 (decrease of \$116.05); Removal of Night soil, \$351.50 (decrease of \$70.80).

EXPENDITURE.

The Attached Statement, marked C*, shows the amount estimated under each head of expenditure during the year, the supplementary votes, and the amount expended as compared with the Estimates.

The total expenditure for the year amounted to \$383,071.10, against an estimate (including supplementary votes) of \$474,935.

ADMINISTRATION.

The following were the chief appointments made during the year:—Mr. H. A. Burgess to be Acting Collector of Land Revenue, January 13th, *vice* Mr. G. F. Curtis, promoted; Mr. F. A. S. McClelland, Cadet, to be Acting Collector of Land Revenue, August 17th, *vice* Mr. Burgess, transferred to Taiping; Mr. R. D. Acton, Cadet, to be Collector of Land Revenue, June 15th, (Mr. Acton has never taken up the appointment); Mr. J. Ward, Assistant Engineer, Taiping, to be Acting District Engineer, February 9th *vice* Mr. G. F. Bird, transferred to Batang Padang; Mr. C. S. Robinson to be Settlement Officer, February 5th, *vice* Mr. G. F. Curtis, promoted; Mr. C. D. Cardew resumed duty as Financial Assistant, July 11th, *vice* Mr. A. V. Brown, who had for some time performed the duties in addition to those of his own appointment of Assistant District Magistrate and Indian Immigration Agent; Mr. J. McKeon, from Head-quarters, Taiping, to be District Inspector, October 15th, *vice* Mr. W. J. Foley, transferred to Lower Perak; Mr. H. Furnivall, to be Settlement Officer, October 10th, *vice* Mr. J. S. Robinson, promoted; Mr. R. Nettell, to be Acting Financial Assistant, January 1st, *vice* Mr. J. W. Kriekenbeck, promoted to be Auditor, Pahang; Mr. Nettell resigned the Service in June. There were a considerable number of other appointments amongst the subordinate staff.

LAND.

Mr. F. A. S. McClelland, Acting Collector of Land Revenue, reports as below:—

It is satisfactory to be again able to chronicle a substantial increase in the total revenue, \$47,058.23, both as compared with the Estimates, \$42,125, and with last year's collections, \$45,765.15, which have been exceeded by \$4,933.23 and \$1,293.08, respectively.

The increases are general, but most marked under the heading "Fees."

Premia on Grants. Under this item \$1,096.80 was realized, chiefly through sales for arrears of rent.

Registration of Transfers, Charges, etc., produced \$2,635, as against an estimate of \$1,500.

Survey and Demarcation Fees.—With totals of \$1,443.80 and \$3,606 almost doubled the Estimates.

The following are the Land Revenue Collections for the past five years:—

1896.	1897.	1898.	1899.	1900.
\$52,015.76	... \$30,190.71	... \$47,756.37	... \$45,765.15	... \$47,058.23
Estimated for 1901, \$41,825.				

Expenditure.—\$9,414.4 was spent of the \$10,590 provided in the Estimates. Of this, \$7,795.18 was for Personal Emoluments; \$1,312.14, or an excess of \$412.14 over the Estimates, was expended on Travelling and Personal Allowance. This excess is accounted for by the fact that the travelling expenses of officers on transfer to appointments in this office are charged to the vote. It will be seen that the revenue collected by this Department exceeds the expenditure by \$37,644.19.

Land Rents.—Under this head, \$36,504.48 was collected. Of this amount, \$5,056.80 was for arrears; the balance, \$31,447.68, being annual quit-rent, shews a steady increase as compared with the collections of annual rent in previous years:—

1896.	1897.	1898.	1899.	1900.
\$24,222.37	... \$18,148.52	... \$27,546.82	... \$30,280.60	... \$31,447.68

* Not printed.

The beginning of the year 1900 saw the very large amount of \$12,552.22 brought forward as arrears in the rent rolls. Of this a very considerable proportion is due on very old titles upon which no current rent is paid, and which should not really appear in the Rent Rolls at all. I am taking steps to resume the lands for abandonment and wipe out from the records all these confusing and useless titles. It was found to be impossible to sell these lands for arrears of rent, as in the majority of cases the lands which the titles described had been alienated under later titles to other people, and the sale price had to be refunded to the purchasers.

Survey fees to the amount of \$1,443.80 were collected during the year. I expect to be able to collect a larger amount during 1901, in respect of the surveys of sugar estates formed by the aggregation of small holdings, as it is obviously to the interest of all concerned that an estate should be held under one title rather than under a number.

Demarcation fees realized \$3,606, an increase of \$530 over the previous year's collections.

There are still a great number of old titles on the Rent Rolls, but energetic settlement work during the present year should see all the lands in the district brought on the Mukim Registers by the end of the year.

The bringing under the operation of the Land Enactment of all the lands in Krian should effectually put a period to all the difficulties which have so perplexed those to whose hands the land administration of Krian was entrusted during 1900.

Administration.—The following Officers were in charge of the Land Office during the year:—Mr. G. F. Curtis, from 1st to 12th January; Mr. H. A. Burgess, from 13th January to 16th August; and Mr. F. A. S. McClelland, from 17th August to the end of year.

Settlement.—Messrs. Robinson and Furnivall were employed in land settlement during the year, the former from 5th February to 9th October, the latter from 10th October to end of the year.

Land alienated.—Three thousand four hundred and thirty-four acres and 36 poles were alienated during the year as compared with 3,451 acres, 3 roods, 9 poles during 1899. Nine hundred and forty-four Extracts from the Mukim Register were issued, 17 Certificates of Title, and 18 Grants.

Sugar Lands.—Sugar planters have not appreciably ceased endeavouring to extend the boundaries of their estates by the purchase of neighbouring *padi* lands; and even within the proclaimed irrigation areas the process of buying out the small agriculturalists continues. It is, however, but seldom that really good *padi* land is sold to sugar planters.

The lands in the vicinity of Bandjer Road, although within the irrigation area and regarded as *padi* land, have not been successfully cultivated for years, and have practically passed *en bloc* into the hands of sugar planters.

The introduction of the quickly maturing *padi* from the irrigated districts of Southern India might be tried as an experiment and an object lesson. I do not think this has ever been done, and I have no doubt it would succeed better than the Rangoon varieties which were not a great success, I believe, when tried in Krian.

There is no present intention, at any rate on the part of native or foreign Malays, to raise two crops per annum, but I am confident that it would be politic to stimulate such a desire by public experiment.

I have lately had numerous applications for *padi* land in the Bria Division of Alor Pongsu and have no doubt that another year, when the Railway is opened to that neighbourhood, there will be a much greater influx to that part of the district, where the lands are good and where there is a sufficiency, indeed often a superabundance, of water.

The export of sugar from the Krian District during the year, although not much in excess of previous years in quantity, is greater as a factor in the revenue by reason of the increased price of sugar. During 1900, 278,156 piculs were exported, their value amounting to \$1,315,974, as against 276,689 piculs, valued at \$282,237, in 1899, and 274,720 piculs, valued at \$1,201,812, in 1898.

Eight thousand seven hundred and sixty-three koyans of *padi* were exported and 412 koyans of rice.

It would appear therefore that agriculture was well rewarded during the year and this circumstance in great measure accounts for the successful Land Revenue collections, it being noteworthy that good harvests ensure a good return in rents and arrears.

The value of sugar exported amounted to about double that of the *padi* sent out of the country, which in a good season is probably rather more than half the crop. It is usually calculated that the customs dues collected on sugar exported amount to about \$5 or \$6 per acre for the land under cultivation ; and it is thus evident that merely as a revenue-producing commodity sugar has pride of place as against rice.

Registration work.—The registration work accomplished during the year was largely in excess of any previous years record.

	1898.	1899.	1900.
Transfers	534	601	1,019
Charges	269	71	108

Two hundred and sixty-four discharges of charges were registered during the year.

The total value of stamps used during the year, \$1,241.25, is considerably higher than last year, when the value reached \$861.25.

POLICE AND CRIME.

There has been but little crime of a serious nature during the year. One thousand five hundred and fifty-four cases were reported, of which 753 were discovered, as compared with 1,873 cases reported and 877 discovered in 1899. There were three murders committed during the year (discovered), against none in 1899 ; 59 cases of house breaking and theft (five discovered), against 92 cases with 18 discoveries in 1899 ; 16 cases of theft in dwelling, serious, (five discovered), against 19 cases with seven discoveries in 1899, and four cases of theft, serious, (undiscovered), against one case (undiscovered) in 1899. Of the 1,554 reports, 770 were cases of criminal breach of contract, of which only 182 were discovered. If these cases were eliminated the reports would only amount to 784, the discoveries 571, and undiscovered 213.

The Police force consisted on 31st December, 1900, of 85 of all ranks, *viz* :— One Inspector and 84 Non-Commissioned Officers and men, distributed amongst seven stations. The general work and conduct of the Police has been good.

PRISONS.

On the 1st January, 1900, there were 44 prisoners in the gaol. During the year, 284 were admitted and 304 were discharged. There were 24 remaining on 31st December, 1900. There was a decrease of 99 prisoners on the admission side during the year. The number of prisoners employed during the year was 7,191, and the value of their labour, at 15 cents per man, was \$1,078.65.

The health of the prisoners has been very satisfactory. Only 11 were under treatment in the District Hospital during the year, and one death. The medical officer visited the prison daily and dispensed medicine where required, and treated several trivial cases within the prison. The conduct of the prisoners and of the Warders has been satisfactory. Twenty-two cases were brought before the District Magistrate and Visiting Justices and dealt with. The daily average of prisoners was 27.14, and of sick .03.

The estimated expenditure, including supplementary votes, was \$2,525 ; amount actually expended was \$1,134.86 ; shewing a saving on the vote of \$1,390.14. This is exclusive of the Establishment, which was :— Gaoler, \$299.80 ; Clerk, \$396 ; Exchange Compensation Allowance, \$74.39 ; Warders, \$1,056 ; Rice Allowance, \$54. Total, \$1,880.19.

The gaol buildings are all in good repair.

The Inspector of Prisons (the Acting Resident, Colonel Walker, c.m.g.) inspected the prison on 14th May, and the Acting Inspector of Prisons, (Major Vanreunen) on 17th December, and reported the gaol as being in a satisfactory state.

The revenue amounted to \$24.37, of which \$21.49 was proceeds of prison labour, and \$2.88 subsistence money of debtors.

COURTS.

Subjoined is a comparative statement of the number of cases disposed of during the years 1899 and 1900.

Year.	Police Court (Magistrate's).	Court of Requests (Magistrate's).
1899 ...	1,312	533
1900 ...	1,027	287
Decrease ...	285	246

There was one Probate case exceeding \$500, and 32 Administration cases exceeding \$500, (Senior Magistrate's Court). There were 20 Administration cases not exceeding \$500 (First Class Magistrate's cases). The total amount involved under these two headings was \$10,941.69. There were 33 Inquests held during the year.

PUBLIC WORKS.

The total expenditure of this Department for the district was \$303,514, on an estimate of \$397,447, shewing a saving of \$93,933. This saving was chiefly under the Krian Irrigation Scheme, for which \$250,000 was sanctioned (being the second vote, on total estimate of \$785,000) of which \$89,037.21 remained unexpended at the end of the year, owing to want of labour and other causes.

Works and Buildings.—\$202,766.22 was spent, on an estimate of \$297,780. The annually recurrent expenditure was \$22,961.53. The most important works were the Krian Irrigation Scheme, \$159,078.72; New Police Stations, \$3,400; Quarters for married men (Police), Kuala Kurau, \$2,750; Incinerator, Bagan Serai, \$2,255.37; New Rest-house, Bagan Serai, \$2,000; School-house with quarters, Jalan Bahru, \$948.50; Additional Water-gates, \$914.30.

Roads, Streets and Bridges.—\$87,138.78 was spent, on an estimate of \$84,750. The annually recurrent expenditure was \$55,925.16; Upkeep of Cart-roads, \$48,975.01; Upkeep of Bridle-paths, \$2,654.62; Rent of Pulau Kra Quarries, \$2,100; Metalling Sungei Siakap road to Bagan Serai, \$12,299.66; Metalling Boundary road, Simpang Ampat, to Sungei Bakau ($\frac{1}{2}$ cost), \$9,065.23; Replacing temporary by permanent bridges, \$6,999.56.

On the 31st December, 1900, there were 61 miles and 73 $\frac{1}{2}$ chains of metalled cart-roads in the district, an increase of 8 miles 44 chains over 1899; 11 miles, 38 chains of unmetalled cart-roads, 32 miles 69 chains of bridle-paths, and 6 miles 20 chains of paths.

HARBOUR DEPARTMENT.

Trade Exports.—The accompanying Statement *D** places the total value of exports from the ports of the district for 1900-at \$2,221,318, being an increase, compared with 1899, of \$117,975.

The chief increase, compared with 1899, were *Padi*, \$106,638; Sugar (white), \$88,792; Betelnut, \$7,274; Tin, \$789; Spirits (rum), \$3,980; Specie, \$29,951; Cattle, \$5,760; Firewood, \$3,040; Fresh fish, \$8,838; Pumpkins, \$6,386; Coffin planks, \$2,987.

The chief decreases were Tapioca flour, \$1,269; Sugar (brown), \$55,055; Ataps, \$2,534; Planks, \$1,062; Blachan, \$26,987; Salt fish, \$4,718; Fish manure, \$14,891; Rice, \$47,416; Tin ore, \$2,497.

Imports.—The accompanying Statement *E** places the total value of imports at \$1,219,566, being an increase, compared with 1899, of \$305,944.

The chief increases, compared with 1899, were Planks, \$8,797; Timber, sawn and unsawn, \$2,480; Salted fish, \$3,460; Fruits, \$2,501; Firewood, \$49,183; Guano, \$10,868; Beer and Stout, \$9,383; Cocconut-oil, \$4,983; Kerosine, \$7,052; Cocconuts, \$8,347; Biscuits, \$7,052; Flour, \$5,023; Lard, \$13,377; Salt, \$18,726; Rice, \$5,808; Specie, \$122,526; Machinery, \$55,650.

The chief decreases, compared with 1899, were Hardware, \$15,043; Buffaloes, \$27,171; Bulls and bullocks, \$9,830; Fish manure, \$4,760; Provisions (various), \$37,381; Spirits (samsu), \$4,254.

The total value of the export and import trade for the district was \$3,440,884.

Registration of Boats.—Attached Statement *F** shows the number of boats registered and numbered during the year, compared with 1899. The total for 1900 was 1,788, against 2,047 in 1899.

HEALTH.

The general health of the district has been fairly good. There have, however, been three places where the sickness and death-rate have been above the average, viz:—

- (i). The Irrigation works.
- (ii). The Straits Sugar Company's Estate at Sungei Gedong.
- (iii). The Perak Sugar Company's Estate at Gula.

* Not printed.

The sickness and death-rate on (i) and (ii) may be put down to the fact that the localities are newly opened and are still in the process of being opened, and that the coolies employed are new arrivals in the country and that their physique, as a general rule, has not been all that could be desired.

The increased sickness and death-rate on Gula Estate, as compared with that of former years, must be ascribed to the outbreak of cholera, which commenced on 15th July, and was not finally stamped out until 20th November. In all there were 159 cases of the disease on the Estate, with 116 deaths, giving a death-rate of 72·95 per cent. The epidemic was distinctly traced to an Immigrant coolie from Penang. Two cases also occurred in September amongst the railway coolies at Simpang Lima; these cases were traced to Gula, where a woman and her child had spent some days at a Hindu festival. They both died.

Small-pox.—Six cases only occurred in the District, with one death.

Rinderpest.—The District was quarantined against Province Wellesley and Kedah on account of this disease from October, 1899 to November, 1900. Not more than six deaths occurred amongst the cattle in this District in the months of April and May, and it was certainly owing to our strict quarantine that we escaped an epidemic.

There were no cases of Rabies during the year.

HOSPITALS.

Parit Buntar Hospital. Indoor:—Total treated, 1,070, and there were 81 deaths, or 7·57 per cent. Deaths within 48 hours of admission, 6. Daily average number of sick, 64·39. The number of outdoor patients treated was 3,161.

Bagan Serai Hospital. Indoor:—Total treated, 3,259, and there were 329 deaths, or 10·9 per cent. Deaths within 48 hours of admission, 37. Daily average number of sick, 160·90. 3,937 outdoor patients were treated.

Padang Lallang Hospital.—This hospital was opened on 31st July, 1900, for the coolies on the Irrigation Works, and the total treated was 976. There were 44 deaths, or 4·50 per cent.

Gula Estate. Indoor:—Total treated, 1,768, and there were 338 deaths, or 19·11 per cent.

Jin Heng Estate. Indoor:—Total treated, 2,097, and there were 20 deaths, or ·95 per cent.

Sungei Gedong Estate. Indoor:—Total treated, 1,940, and there were 123 deaths, or 5·35 per cent.

Cases from Jin Heng and Sungei Gedong Estates are transferred to Bagan Serai Hospital if the patients are very seriously ill or require special treatment.

Travelling Dispensaries.—The number treated at the Travelling Dispensary was as under:—Bagan Tiang, 487 new cases; Simpang Lima, 188; Kuala Kurau, 653; total, 1,328, or, including repetitions, 1,736. The number of Malays who attended the Travelling Dispensaries was 532.

Vaccination.—The total number vaccinated in the District was 373, with 305 “perfects” and 45 “failures”. Table shewing Nationalities treated in Parit Buntar and Bagan Serai Hospitals together:—

		Chinese.		Tamils.		Bengalis.		Malays.		Total.
Parit Buntar	...	538	...	430	...	70	...	32	...	1,070
Bagan Serai	...	1,470	...	1,385	...	397	...	7	...	3,259
Total	...	2,008		1,815		467		39		4,329

Table shewing the number of patients, indoor and outdoor, treated at Parit Buntar and Bagan Serai hospitals, during the last five years:—

PARIT BUNTAR.									
			Indoor.		Deaths.		Death-rate.		Outdoor.
1896	...	...	2,282	...	114	...	4·99	...	2,914
1897	...	...	1,088	...	62	...	5·69	...	3,528
1898	...	...	1,124	...	69	...	6·13	...	4,044
1899	...	...	1,113	...	64	...	5·75	...	2,218
1900	...	...	1,070	...	81	...	7·59	...	2,088

BAGAN SERAI.

			Indoor.		Deaths.		Death-rate.		Outdoor
1896	...	...	936	...	76	...	8.12	...	2,290
1897	...	...	1,740	...	90	...	5.17	...	2,837

1899	...	...	2,154	...	103	...	4.78	...	2,925
1900	...	...	3,259	...	329	...	10.09	...	2,901

Meteorology.—The maximum temperature registered at Parit Buntar at 9 a.m. was 91.33° in April, and the minimum, 73.22° in December; At Bagan Serai, maximum, 89.86° in April, minimum, 72.48° in January; 98.07 inches of rain fell at Parit Buntar, the greatest rainfall in 24 hours being 3.10 inches on the 22nd September. At Bagan Serai, 86.45 inches of rain fell, the greatest rainfall in 24 hours being 4.28 inches on the 23rd August.

EDUCATION.

There are 20 schools in the district. The average enrolment at each is 38.2, or a total of 764. The attendance was about 75 per cent, which may be considered good. The number of days during which school was opened during the year averaged 203. The Sungei Star Girl's school opened in June. This school did very well at the Annual inspection. The per-centage of passes gained in the past school year were higher than those gained for 1899. Bagan Serai, Simpang Lima, Sungei Siakap (Boys and Girls), Sungei Star (Girls), and Tanjong Piandang (Girls) did exceedingly well; all these schools gained 100 per cent of passes.

The Acting Inspector of Schools says that there are only ten Malay girls' schools in the State and of these four are within the Krian district, and, with the exception of Bander and Lenggong, are the best attended girls' schools in the State. Weaving, strawplaiting, cookery, etc., are taught. There is an English boy's school and an Anglo-Tamil school at Parit Buntar; they were examined by the Federal Inspector with very good results.

The expenditure on the Krian schools in 1900 was about \$6,000 (for maintenance only), or less than \$10 per head of the scholars in average enrolment, a small sum for such good results.

SANITARY BOARD.

Eleven ordinary meetings and one special meeting of the Board were held during the year. The amount of revenue collected was \$8,345.06, on an estimate of \$8,100, being an excess of \$245.6. The expenditure was \$10,309.35, against an estimate of \$11,549, leaving a balance of \$1,239.62.

Scavenging.—The daily average number of coolies employed was 21. The town roads and streets were swept daily, and about 12 cart-loads of street refuse were removed daily, or about 4,400 loads for the year. At Parit Buntar this refuse is consumed in the incinerator. The removal of night-soil was satisfactorily carried out. All drains are flushed and cleaned daily, and disinfected twice a week. Besides Parit Buntar the Board has charge of the townships of the Bagan Serai and Kuala Kurau. The number of street lamps lighted daily was 72, at a cost of \$87.80 per month. Great assistance has been rendered to the Board by the District Surgeon, Dr. Haviland, who has made quarterly inspections of the towns and house to house inspections, and by the Acting District Engineer, Mr. Ward. The Sanitary Inspector has carried out his duties satisfactorily.

Four new brick buildings were erected at Kuala Kurau, and eight more were in course of construction at Bagan Serai.

IMMIGRATION.

One thousand three hundred and seventy-eight Chinese Sinkheh contracts were registered during the year, the fees on which amounted to \$345.25. The number registered in 1899 was 782. 2,737 Indian indentured coolies arrived in the district, against 1,376 in 1899.

PRINTING.

The cost of printed forms and printing for this district for 1900 amounted to \$1,807.2.

GENERAL.

The *padi* harvest gathered in 1900 was a very good one as a whole, and the best land yielded about 850 gantangs per acre.

The export of *Padi* and Rice for 1899 and 1900, i.e., the surplus after providing for the wants of the population, was as under:—

Year.	<i>Padi</i> Koyans.	Value. \$	Rice. Koyans.	Value. \$	<i>Padi</i> and Rice. Koyans.	Value. \$
1899 ...	6,763 ...	369,529 ...	678 ...	109,653 ...	7,441 ...	479,182
1900 ...	8,762 ...	961,167 ...	412 ...	62,237 ...	9,174 ...	1,023,404
Increase ...	1,999 ...	591,638 ...	...	...	1,733 ...	544,222
Decrease ...	...	...	266 ...	47,416 ...	...	...

A Koyan = 40 Pikuls = 2 tons, 7 cwt., 2 qrs. 800 gantangs goes to the Koyan.

The area of the district is 126,000 acres, of which 83,527 acres has been alienated. exclusive of Nipah land, of which 1,116 talis has been given out.

Railway.—At the beginning of 1900 some nine miles of line, remaining to be finished between Bukit Merah and the crossing at the Krian River (Nibong Tebal), were completed during the year, and the line opened to traffic between those two points on 1st September, thus completing a stretch of open line between Prai and Bagan Serai. Pending the completion of the Krian bridge, a ferry was established at Krian River, and traffic from Penang booked through. The principal works completed during the year were the iron bridges over the Tasek, Junjong, and Jijawi rivers. The large bridge over the Krian river at Nibong Tebal, the design for which had been lengthened by the addition of two extra spans, was still under construction. From Prai to Nibong Tebal is $20\frac{1}{2}$ miles, and from Nibong Tebal to Bagan Serai, 11 miles; total open line, $31\frac{1}{2}$ miles.

One thousand three hundred and twelve births and 1,686 deaths were registered during the year, against 1,232 births and 1,080 deaths in 1899.

Ninty-three crocodiles were killed, of a total length of 644 feet, and rewards paid for the same at the rate of 25 cents per foot; 142 crocodile's eggs were also brought in and paid for at 10 cents each; total paid for these rewards, \$175.24.

Two hundred and seventy-nine dogs were destroyed, and 198 were registered.

One tiger and nine poisonous snakes were killed, and rewards paid for the same.

Ninty-seven firearms were registered during the year.

Three hundred and twenty-eight passports were issued to Malays visiting the Dutch Colonies, chiefly to Banjerese returning to Sumatra or Borneo on short visits; the fees collected, paid in stamps, amounted to \$82.

A. T. DEW,
District Magistrate, Krian.

REPORT ON THE SELAMA DISTRICT FOR THE YEAR 1900.

REVENUE.

The revenue collected in Selama during the year 1900 amounted to \$6,055.75, being an increase over the Estimates of \$180.75, and a decrease of \$98.96 as compared with the revenue collected in 1899. The principal increases are under the headings Land Revenue, Customs, Port and Harbour Dues, Fines and Fees of Court, Miscellaneous Receipts, aggregating \$1,104.59, while the deficiencies amount in all to \$925.32.

EXPENDITURE.

The total expenditure for the year amounted to \$22,128.14, against an estimate of \$26,946, shewing a saving of \$4,817.86. This has been effected by strict economy and judicious expenditure, whilst everything necessary has been done, buildings kept in order and roads in good repair, supplementary votes only being required in two cases, one under Travelling and Personal Allowances and the other under Destruction to Noxious Animals.

TRADE.

The trade of Selama has, I believe, somewhat increased, as 179 boats have brought goods and provisions to Selama against 174 in 1899. Import and Export returns are kept at the Port of Parit Buntar and are therefore entered in the records of the Krian District.

ADMINISTRATION.

Ahmad Jaffar, 2nd Clerk, was dismissed from the service in July, for absenting himself without leave or reasonable cause, and Abdullah Pahet, from Tanjong Malim, succeeded him.

LANDS.

The Land Revenue collected amounted to \$4,065.16, exceeding the Estimates by \$590.16, and the collections of 1899 by \$581.05.

Agricultural Land Rents realized \$3,200.71, against \$2,994.86 in 1899, and Mining, \$11, against \$59 in the previous year. The rents appearing as due on 1st January, 1901, were \$3,141.68 current, and \$110.70 arrears.

The following figures show the revenue collected during the last four years:—

	Actual.	Estimated.
1897	\$2,535.72	\$3,775
1898	\$3,812.77	\$3,145
1899	\$3,484.11	\$3,475
1900	\$4,062.16	\$3,475

Four hundred and forty acres of agricultural land, bearing a rent of \$506.85, reverted to Government during the year; the land in a majority of cases being valueless and abandoned.

Up to 31st December, 403 entries were made in the Mukim Registers, but only 23 Extracts were issued.

AGRICULTURE.

My special attention has been paid to agriculture, which is advancing slowly but surely.

Ninety-seven lots of agricultural land were alienated, the area of which amounted to 274 acres, against 95 lots, with an area of 563 acres, granted in the previous year.

The *padi* crop has been fairly good and the *raiats* have been satisfied with it. The Malay coffee gardens continue to flourish. The hybrid tea plants and pepper planted near the Magistrate's quarters are doing well.

Tobacco, on a small scale, has been grown; the cultivators not understanding the proper method have not been successful; nutmegs are also to be found flourishing. It is to be

regretted that owing to the annual floods Mr. F. S. B. Lamb has had to surrender his agricultural concession at Lembah Kluang.

For the same reason the Banjermassin *padi* planters at Tebing Tinggi have abandoned their land and have left the district, but I am glad to report that some twenty families of Kelantan Malays have been induced to settle at Changkat Lobak, near the Krian—Selama boundary, and a large tract of land has been cleared. More of these settlers are expected to arrive soon and I hope to be successful in bringing a good deal of land under cultivation this year.

SURVEY AND DEMARCATION.

Demarcation has been carried on steadily throughout the year and has made as much progress as was possible with one demarcator. Two hundred and twenty-five lots, comprising 1,086 acres, were demarcated, against 316 lots, containing 1,435 acres, in the preceding year. The District Surveyor surveyed 29 miles of circuit traverses, against 27½ miles in the previous year; 221 acres of mining land, in small blocks, were also demarcated. It is satisfactory to note that the re-demarcation of the holdings in this district has been completed during the year and a large number of applications has been dealt with in the mukims of Ijok and Selama. Settlement work was also done in the mukim of Ijok.

MINES.

There has been a marked impetus in this direction. Four prospecting licences were issued during the year with the result that a thousand acres of land for hydraulic mining have been applied for by and granted to Mr. W. Smith, and it is to be hoped that the venture will prove a success. Mining, properly so called, does not exist, the workings being small and shallow, the tin lying only a few feet below the surface. The land given out to some Malays at Ulu Ijok is reported to be rich in tin but it has been subsequently found that it cannot be profitably worked by any other method than "liris" and as the land is close to the Ijok River, that is of course out of the question.

The weight of tin exported during the year was 26 pikuls, of which 6½ pikuls were in slabs, and the amount of revenue collected was \$146.86.

FORESTS.

Of the \$1,700 estimated only \$859.11 was received, but it must be remembered that a sum of \$604.47 was collected as royalty under the Licence system and credited to Taiping, so that taking this into account the deficit only amounts to \$236.42, and this amount would have been realized had it not been for the outbreak of rinderpest during the latter part of the year necessitating the establishment of quarantine and the consequent stoppage of the wood-cutting Kongsies employing buffaloes.

POLICE AND CRIME.

The Police Force of the district consists of one Non-Commissioned Officer, four Sepoys and five Malays, one of the latter being stationed at Ulu Selama. With the exception of a few members, the conduct of the Police has been good and several transfers were made during the year. Eighty-seven crimes were reported at the Station and only 12 brought before the Court. In 1899, 57 crimes were reported and 11 were discovered. The greater number of the reports are for thefts from dwellings.

During the year one murder was committed, but has as yet remained undiscovered.

During the year five tigers and seven poisonous snakes of various lengths were killed, for which rewards were paid. The Police destroyed 74 dogs.

PRISONS.

All prisoners sentenced to periods exceeding three months are sent to Larut, those for shorter terms are kept in the district lock-up. Ten were admitted during the year against 21 in 1899; one was transferred to the Central Prison, Taiping, one escaped and eight discharged, none remaining at the end of the year.

The prisoners were employed on out-door labour, and work to the value of \$40 was done by them. The total expenditure on Prisons amounted to \$64.20, exclusive of Warders' wages. No cases of sickness, other than fever, have occurred within the lock-up.

COURTS.

Forty-seven criminal and nine civil cases were dealt with during the year, against 44 and 7, respectively, in 1899.

The Penghulus disposed of 17 petty police cases and 9 small civil cases, against 14 and 11, respectively, in the previous year. The actual revenue received by the Courts was \$333.25, and the Penghulus' Courts brought in a revenue of \$41.49.

There were five inquests. There were no administration cases. The number of applicants registered under Succession Duties Order in Council No. 3 of 1893 were eight, and orders were made in twelve. No cases were committed for trial to higher Courts.

PUBLIC WORKS.

The expenditure on Works and Buildings amounted to \$1,724.29. The principal works carried out were one School-house and two Teachers' quarters at Ulu Selama, at a cost of \$700, while all other Government buildings were kept in thorough repair.

Roads, Streets and Bridges.—The amount expended on Roads, Streets and Bridges was \$6,529.30. Seventy-nine miles of bridle-path were upkept and improved at a cost of \$2,972.45, and the upkeep and erection of bridges cost \$1,486.20. Five miles of bridle-paths were constructed between Ulu Ijok and Ulu Temelong to meet the path from Sumpitan, at a cost of \$970. This path establishes direct communication between Upper Perak and Selama and gives access to a large extent of tin land.

The upkeep of village, streets and drains and suburban roads absorbed \$1,100.65.

The upkeep of the paths in this district is given in small sections to the natives living in the Kampongs through which the road passes. This arrangement assists the *raiats* in enabling them to earn money without leaving their Kampongs and, as they are always on the spot, it ensures the paths being kept in better repair than they would be by a contractor living elsewhere.

HEALTH.

The district has been free of epidemics; beri-beri, fever, ulcers and dysentery being the chief causes of sickness. The number of patients treated in hospital was 79; 31 more than the previous year; of these 70 were discharged, one absconded and two remained under treatment at the end of the year. There were six deaths against one in 1899; this is due to the fact that patients are often admitted in a moribund state and past medical assistance. The out-door patients, inclusive of repetitions, numbered 940, an increase of 166 on the preceding year.

Rinderpest broke out in the mukims of Selama and Kampong Selama during the latter part of the year and 253 deaths occurred from it.

TEMPERATURE AND RAINFALL.

The total rainfall during the year was 138.46 inches, against 162.70 inches in 1899. The greatest rainfall in 24 hours was 4.68 inches, a half an inch less than the greatest fall in 1899. The highest temperature was 92°, and the lowest 69°. The greatest rainfall in one month was 25.27 inches in September, against 26.39 inches in the month of October in the previous year.

EDUCATION.

There are four boys' schools and one for girls in this district. The number of scholars on the roll on 31st December, 1900, was 185, the average enrolment for the year being 174, the per-centage of attendance 73, two less than the previous year. Since my appointment I have taken great interest in the schools and have by every legitimate means tried to induce parents to send their children, but I have been but partially successful.

In December the yearly examinations were held by the Assistant Visiting Teacher the results, I am informed, being very good.

POPULATION.

The following return of births and deaths reported shews births 111, two less than in 1899; and deaths 75, an increase of 28 on the previous year.

Nationality.	Births.				Deaths.			
Malays	...	...	...	109	...	...	...	61
Chinese	...	...	...	2	...	...	...	8
Tamils	...	...	...	...	...	...	...	6
				111				75

GENERAL.

The export of *pinangs* has increased from 832 pikuls in 1899 to 1,465 pikuls in 1900.

Of coffee 16 pikuls were exported; *damar*, 42 pikuls, against $47\frac{1}{2}$ pikuls exported in the previous year, while *rattans* to the value of \$6,891, \$2,000 more than the preceding year, were sent down river.

During the year, 718 buffaloes, 130 head of cattle and 233 goats passed through Selama from Kedah, against 1,120, 142 and 313, respectively, in 1899.

The rice crop, 1900-1901, is not expected to be a good one owing to the recent drought, and unless a sufficient amount of rain falls soon the harvest will I fear be a failure.

I am glad to say that the Government has approved of telegraphic communication being established between Taiping and Selama. The importance of this cannot be over-rated.

The extension of the Ulu Ijok path is a great convenience and ought to assist the development of the district considerably.

During the year a preliminary trace for a path was made between Ulu Selama and Ijok. The path, when constructed, would bring Ijok within about 13 miles of Ulu Selama, at present those wishing to go from the one mukim to the other, unless going over the jungle track, have to pass through Selama, the distance being 25 miles. It would also give access to land which could be converted into *bendang*, at the same time open up a country crowded with fine timber and reported to be tin bearing.

There are in this district large tracts of land suitable for planting coconuts, rubber and ramir, and it would be to the advantage of Government to advise planters coming to look for land to turn their steps towards Selama; transport is being made easier by the fact of there being a good cart-road and 12 miles of Railway between this and Taiping, and the lower part of the District is connected with Parit Buntar by a well cleared river, also by a cart-road as far as Alor Pongsu, the rest of the distance by a bridle-path which, I understand, it is the intention of Government to convert into a cart-road at no distant date.

With one or two exceptions the Penghulus in this district have worked well and have been of great assistance to me.

RAJA CHULAN,
Assistant District Magistrate, Selama.

REPORT ON THE PERAK STATE RAILWAYS FOR THE YEAR 1900.

OPEN LINES.

The total length of open line in Perak and Province Wellesley at the end of 1900 was 137 miles, of which $19\frac{1}{2}$ miles were opened during the year.

The total receipts amounted to \$1,017,618.90, being an increase of \$266,177.26 over the revenue of 1899, and \$76,118.90 more than the estimated revenue.

The expenditure on maintenance and working was \$514,108.3, or 50.5 per cent of the total receipts; it exceeded the total expenditure in 1899 by \$135,013.11.

The profit on working amounted to \$503,510.87, or \$131,164.15 more than in the preceding year.

KINTA VALLEY LINE.

Teluk Anson to Kuala Kangsar, $84\frac{1}{2}$ miles. The total revenue collected was \$807,848.33, an increase of \$161,024.97 over the previous year, and \$136,348.33 more than the estimated amount.

The increase on coaching traffic was \$84,651.35; that on goods traffic, \$79,471.30. There was a decrease of \$3,097.68 in the amount paid for carriage of construction material.

The total number of passengers carried during the year was 793,794, an increase of 100,976 over the numbers carried in 1899. The increase in goods traffic was principally in tin, tin-ore, rice and kerosine oil.

Working expenses and maintenance absorbed \$335,729.48 of the gross receipts, or \$42,091.94 more in the preceding year. This increase is accounted for by the greater length of line open and the general increase in traffic. The cost was 41.56 per cent of the total revenue. The train mileage was 233,567, as compared with 222,603 in 1899.

The capital cost of this line on 31st December, 1900, was \$5,061,054.8, or \$59,894 per mile; the profit on working amounted to \$472,118.85, equal to a dividend of 9.33 per cent.

LARUT AND KRIAN LINES.

Port Weld to Pondok Tanjong and Bagan Serai to Parit Buntar, $29\frac{1}{2}$ miles. The total revenue amounted to \$123,030.14, being \$41,448.96 more than in 1899 and \$3,030.14 in excess of the estimated revenue. Of the total revenue, \$102,265.79 was from the Larut Line ($20\frac{1}{2}$ miles) and \$20,764.35 from the Krian Line (9 miles), and the increase was principally due to coaching traffic.

The total number of passengers carried was 306,948, an increase of 112,942 over the previous year.

The chief items of increase in goods traffic were rice and tin-ore.

Working expenses and maintenance cost \$95,341.29 (an increase of \$34,565.58 over the previous year) or 77.49 per cent of the gross revenue. The increase in working expenses is accounted for by the fact that the Krian Line was worked for the whole year, as compared with two months only in 1899, and the section from Ulu Sapetang to Pondok Tanjong was also worked for the whole year, as compared with four months in 1899, the train mileage having increased from 45,345 in 1899 to 70,839 in 1900. The per-centage of working expenses to receipts of the lines will remain high until through traffic is established with Penang and traffic now carried by the local steamers is brought on to the Railway.

The capital cost of these sections cannot be determined separately, the line between Pondok Tanjong and Bagan Serai being still under construction. The nett profit earned was \$27,688.85.

PROVINCE WELLESLEY LINE.

Prai to Nibong Tebal and Krian River to Parit Buntar, 23 miles. The total revenue amounted to \$86,740.43, an increase of \$63,703.33 over the preceding year, but \$63,259.57 less than the estimated revenue. The increase is due to the opening of the section between Bukit Mertajam and Nibong Tebal (14 miles) in September, 1900, and is almost entirely from coaching traffic.

The total number of passengers carried was 375,684, an increase of 270,980 over the preceding year.

The cost of working expenses and maintenance was 95.73 per cent of the gross receipts and amounted to \$83,037.26, as compared with \$24,681.67 in 1899, the increase being accounted for by the greater length of the line opened for traffic in 1900. The total train mileage was 44,913 miles, or 30,937 more than in the previous year.

The capital cost of the line cannot yet be given as the works are not yet completed. The nett profit earned on the year's working was \$3,703.17.

GENERAL.

The usual statistical appendices* are enclosed together with reports from the District Railway Engineer, the Traffic Superintendent and the Locomotive Engineer, and a separate report from the officer in charge of the maintenance of the Larut Line.

The Victoria Bridge over the Perak river was formally opened by Sir F. A. Swettenham, K.C.M.G., on the 21st March, and the section from Enggor to Kuala Kangsar (5½ miles) was opened for traffic on 15th September.

On 1st September the line from Bukit Mertajam to Nibong Tebal (14 miles) was opened, and for the first time passengers were booked through from Perak to Penang: the bridge over the Krian river not being completed, a ferry service was arranged there, and from Prai to Penang passengers were conveyed in the Railway Ferry Steamers.

On 1st November Tanjong Malim station was opened for traffic, and arrangements concluded with the Selangor Government to run trains across the Selangor boundary to the Perak border station. It is to be regretted that up to the date of this report the Selangor Government has only been in a position to run one train daily in each direction.

The amount standing to the credit of the Railway Servants Benefit Fund, which is derived from fines imposed, was \$1,598.53 on 31st December. Two gratuities were given from this Fund during the year, viz., \$50 to the widow of a Tamil gateman and \$50 to a platelayer who received a permanent injury to his leg.

The sum of \$14,005 is now deposited in the Savings Bank as cash security of 121 officers, and at the end of the year 85 officers were still current depositors.

The Superannuation Fund continues in a prosperous condition; on the 31st December, 1900, there were 261 members on the roll, and the Assets amounted to \$45,330.30, of which \$32,428.50 was invested in Singapore Municipal Bonds.

The Audit and Account Branch of the Railway, under the supervision of Mr. S. M. Gregory was, in spite of the large increase of work, ably administered; 584 audit visits were paid to out-stations during the year, of which 40 were in the nature of surprise audits.

There has been a general increase in traffic during the past year which is shewn by the revenue having risen from \$751,441 to \$1,017,618 and the expenditure from \$379,094 to \$514,108; the increase of work in dealing with this large additional expenditure and revenue has been cheerfully borne by all members of the staff.

Staff.—In my annual report for 1899, I drew attention to the large number of resignations which had taken place during that year and I regret I am again compelled to refer to the same subject. During the year under review there were no less than 38 resignations and six of the staff sought and obtained work in other departments of the Government service. As the annual profit from the Government Railway has now reached over half a million dollars and is certain to increase, some steps should be taken to make the Railway service more attractive; the hours of work are much longer than in any other Government Department and the usual Government holidays and even Sundays are denied to many of the staff, while none are entitled to pension except that to which they themselves subscribe. The position and salaries of Apprentices, Junior and Senior Clerks has recently been placed on a better footing and what is now required is a general increase to Station-masters, Guards and special appointments, and I trust that this matter will receive due consideration when the 1902 Estimates are before the Government. An even more pressing matter is the case of the senior Officers, whose work has been greatly increased by the opening of extensions and the rapid development of traffic, the total receipts having risen from \$117,677 in 1893 to \$1,017,618 in 1900, and on this subject I have addressed a special letter to Government.

Twelve Officers were absent during the whole or part of the year, one died, one absconded, and the services of eight were dispensed with.

* Not printed.

The District Railway Engineer in charge of the Kinta Valley Line was absent on leave for eight months, the Traffic Superintendent for six months and Assistant Accountant for 11 months.

It is desirable that a Provident Fund of some description should be introduced into the Railway Department to enable the Officers to make some provision for their wives and families.

SURVEYS.

The final staking out of the line through the Kurau and Merah swamps was completed ; centre line and level pegs for a length of 5 miles 42 chains were put in.

CONSTRUCTION.

Enggor to Kuala Kangsar.—This section which was commenced in April, 1899, was practically completed during the year. The only work remaining being the completion of Enggor Station and a little ballasting and packing of the permanent way. The section was opened for traffic on 15th September, but, owing to heavy rains and continuous wet weather which occurred during that month, causing settlement in the new embankments, traffic had to be suspended for a few days. Two miles, 22 chains of formation were completed during the year, representing 92,276 cubic yards of earthwork ; and 5 miles 17 chains of permanent way were laid and ballasted. Twelve bridges and culverts were completed during the year, including the Victoria Bridge (seven spans of 150 feet) over the Perak river at Enggor, which was formally opened by Sir F. A. Swettenham, K.C.M.G., in March.

Kuala Kangsar-Taiping (19 miles 13 chains).—4 miles 13 chains of formation was completed during the year, making the total length of completed line 11 miles 33 chains, 304,251 cubic yards of earth and rockwork were done. Eight bridges and culverts were completed and 37 were still in progress at the end of the year. The total length of permanent way laid is 7 miles 42 chains, of which 3 miles 9 chains were laid during the year. Tunnel No. 3 was completed, and Nos. 1 and 2 were in progress ; 224 lineal yards of heading were driven, and 188 lineal yards of full section were completed, of which 78 yards were lined with brickwork in cement, and 110 yards were in solid rock.

Taiping-Parit Buntar (28 miles 52 chains).—8 miles 59 chains of formation were completed during the year, making the total length of completed formation 25 miles 74 chains. 186,723 cubic yards of earthwork were executed during the year. Six bridges and culverts were completed, and two were in progress at the end of the year. Six miles 48 chains of permanent way were laid, making the total of permanent way laid 18 miles 69 chains.

Parit Buntar-Kuala Prai (23 miles 7 chains).—61 chains of earthwork were completed during the year, making the total length of completed formation 22 miles 78 chains, the remaining 9 chains were in progress at the end of the year. 153,640 cubic yards of earthwork were done ; 15 bridges and culverts were completed during the year, and one (the Krian River Bridge) was under construction at the end of the year. Nine miles 30 chains of permanent way were laid, making the total length of completed line 22 miles 34 chains. The section from Bukit Mertajam to Nibong Tebal, 14 miles in length, was opened for traffic on 1st September.

Tapah Road-Tanjong Malim (43 miles 77 chains).—5 miles 3 chains of earthwork were completed during the year, making the total length of completed formation 20 miles 38 chains. 332,387 cubic yards of earthwork were done ; 18 bridges and culverts were completed and 5 were in progress at the close of the year. Three miles 70 chains of permanent way were laid during the year, making a total length of 14 miles 3 chains of permanent way laid. The short section from the Selangor boundary to Tanjong Malim Station was opened for traffic on 1st November, arrangements having been made with the Selangor Government to run trains through from Kalumpang Station.

Summary of work done during the year.—Twenty miles 78 chains of formation completed ; 1,069,277 cubic yards of earthwork ; seven bridges of 40-feet span and over completed and 5 in progress ; 52 bridges and culverts of under 40-feet span completed and 42 in progress ; 28 miles 14 chains of permanent way laid ; 3 passenger station buildings, 7 sets of staff quarters, 5 sets of coolie lines and 22 miles of telegraph (single line) were completed during the year, besides various other works, such as approach roads, signals, level crossings, station platforms, fencing, etc.

The total expenditure on construction during the year was \$1,909,877.39, of which \$284,309.23 was on account of Crown Agents bills for the purchase of English materials.

GENERAL.

Detailed statement * of works done are enclosed also statement of expenditure on the different sections of lines.

* Not printed.

Seven hundred and thirty-one coolies were imported during the year for work in the Railway, of whom 490 were "free" coolies and the remainder under agreement for one year.

My principal assistant, Mr. G. W. Fryer, was absent the whole year in Selangor and as he has now been granted long leave, it is improbable that Perak will have the benefit of his services till 1902. Two Assistant Engineers resigned on the termination of their agreements and one who was invalided home was retired.

In March authority was received to increase the monthly expenditure from \$84,000 to \$130,000, which enabled better progress to be made; but work was much interfered with by sickness among the staff necessitating frequent changes, and for the greater part of the year every member of the staff had extra work thrown upon him, and supervision was consequently difficult. The Construction Staff now consists of two Divisional Engineers and seven Assistant Engineers, one of whom is acting for the District Railway Engineer on the Kinta Valley Open Line.

C. R. HANSON,
Resident Engineer for Railways, Perak.

REPORT ON THE WORK DONE IN THE SULTAN'S OFFICE.

In the year 1896 I was appointed by the Government to be the Malay Secretary to His Highness the Sultan. I carried this work out to the best of my ability, and I introduced a new system of registering and dealing with the minute papers in the same manner as papers are kept in the Government offices. In the first year I held this appointment (1896) there were 126 minute papers registered, the second year (1897) 149 papers, the third year (1898) 174 papers, the fourth year (1899) 341 papers and the fifth year (1900) 375 papers. From which you will please see that every year the number of papers has substantially increased. Some of the minute papers dealt with the administration of the State, some dealt with the Sharah Law and some dealt with the private business of His Highness the Sultan.

In the year 1898 the Government appointed the Datoh Stia Bijaya Di Raja to be the Assistant Malay Secretary to His Highness the Sultan. The Datoh is a most attentive, diligent, industrious and trustworthy officer.

Since my nomination as a member of the Council of State, I have been present at every meeting held, either at Kuala Kangsar or at other places, and expressed my opinion on every matter discussed. I was also appointed a Magistrate of the Second Class in and for the State of Perak, a Visiting Justice and a member of the Kuala Kangsar Sanitary Board. I have carried out the duties connected with the above enumerated appointments to the best of my knowledge and power.

The present staff employed in the Sultan's office is (i.) myself; (ii.) The Orang Kaia Kaia Stia Bijaya Di Raja; (iii.) H. Velge; (iv.) Ahmad, first Malay Clerk; (v.) Megah Ahmad, second Malay Clerk, and two messengers.

The duty of reading and writing English letters is entrusted by His Highness the Sultan and myself to H. Velge and he has carried it out to the entire satisfaction of both His Highness the Sultan and myself. It is very hard to replace him as he understands the customs and language of the Court very well.

At the time of the appointment of the Orang Kaya Kaya Stia Bijaya Di Raja, in 1898, to his present position, Ahmad was taken from the Resident-General's Office to replace the Datoh in his clerical capacity. I relied on him to write Malay letters, to register and to index the minute papers under my supervision. He gave His Highness the Sultan and myself every satisfaction in the duties entrusted to him (as he has been accustomed to see and to do such work in the different Government Offices.)

Megat Ahmad is an old hand in this office, having joined it when His Highness the Sultan was the Raja Muda. During the tenure of his office, he has done his work satisfactorily and in an efficient manner.

On the installation of the Raja Di Bongsu, Bentara Dalam to a post of Orang Besar de Lapan, the post vacated by his promotion remained vacant, and it was carried out by His Highness the Sultan's followers in turn. At present there are only 2 Bentaras to His Highness the Sultan, viz., the Sri Nara Di Raja and the Paduka Sa Indra, and they have done their work satisfactorily and in an efficient manner.

Since I was appointed a Magistrate I have on two occasions visited outlying places of the Kuala Kangsar District. I accompanied Mr. W. H. Treacher, the then British Resident, and Mr. Berkeley to visit Bruas division, and again I accompanied Mr. Knaggs, the then Acting District Magistrate, Kuala Kangsar, to inspect the Kuala Kangsar and Lower Perak boundary and we then visited Bruas.

During the time I held the appointment of Malay Secretary there were three occasions when great assemblies took place in the Astana Kastan Zurian. The first was when the Durbar meeting was first held, which was attended by His Honour the late High Commissioner, the Resident-General, Federated Malay States, and the Sultans of the Federated States, together with their Native chiefs. The second one was when I was installed as Raja Di Hilio with two other great chiefs, and the third occasion was the installation of His Highness Raja Muda and many other Native chiefs. Besides these there were two other ceremonial festivities, viz.:—The marriage of Raja Chulan with Raja Putih Kamariah binti Sultan Idris and the marriage of Raja Ngah Abubakar with Raja Puteh binti Sultan Idris.

ABDUL JALIL BIN IDRIS,
Malay Secretary to His Highness the Sultan of Perak.

REPORT ON THE DECREPIT WARD FUND FOR 1900.

Three meetings were held during 1900. The Dresser's salary was increased by \$10 per mensem, a dhobie was engaged to do the patient's washing. The Government was approached on the subject of the increase to the Funds by allowing $\frac{2}{3}$ of the weighing fees on the tin and tin-ore exported from Perak, instead of a $\frac{1}{3}$ as at present. A further sum of \$2,000 was invested in the Chartered Bank at 4 per cent, bringing the total investments up to \$27,040. The Government was also asked to build two new wards and out-houses, including a kitchen; the latter in order that the decrepits might do their own cooking. The decrepits were allowed to keep their own earnings from industrial work. Part of the industrial shed is being made into a store-room, which is badly needed to keep patients property and also clothing and bedding, etc., belonging to the institution. During the course of the year visits were made to the institution by the Acting Resident (Mr. J. P. Rodger), the Acting Resident-General (Mr. W. H. Treacher), the Protector of Chinese (Mr. W. Cowan), the Secretary for Chinese Affairs (Mr. G. Hare), the Acting Resident (Col. Walker), and the Chairman, D. W. F. (Mr. A. R. Venning.)

The total Revenue for 1900 was \$5,801.51, made up as follows:—

	\$	c.
Balance on 1st January, 1900	...	...
Tin weighing fees	1,061	57
Industrial work	3,562	72
Interest on investments	17	22
	1,160	00
Total	5,801	51

The total Expenditure was \$3,671.93, made up as follows:—

	\$	c.
Diets	...	...
Salaries	1,629	50
Tancoe	1,436	00
Miscellaneous	161	42
Milk	134	07
Coffins	96	04
Clothing and Bedding	21	90
	193	00
Total	3,671	93

The cost per head treated per annum, excluding salaries, amounted to \$23.52. This is higher than what it was the year before owing to the higher prices of almost everything.

The assets of the Fund amount to \$27,040, made up as follows:—\$23,040 at 4 per cent at Chartered Bank; \$3,000 at 6 per cent, Penang Municipal Bonds; \$1,000 at 6 per cent, New Club, Taiping. The balance remaining over on the 31st December, 1900, was \$955.87, to which, if the January receipts (\$1,202.32) be added, amounts to \$2,158.19 and, if January payment (\$28.61) be deducted from this, the actual balance remains of \$2,129.58. Of this sum \$2,000 was invested at 4 per cent in the Chartered Bank.

There remained on the 31st December, 1899, the total of 53 patients and there were admitted 42 patients. Of the total treated (93 patients) nine were discharged, one absconded and 23 patients died, making a death-rate of 24.21 per cent, which is 5.39 per cent higher than it was in 1899, and 4.66 per cent higher than 1898. The deaths were due to diarrhoea, dysentery, fever and phthisis, and in subjects already debilitate by other diseases and old age. The increased death-rate corresponded to the increased death-rate in the District Hospital. There remained over on the 31st December, 1900, 62 patients. There are no women nor children among the decrepits. One man committed suicide by hanging. This case was investigated by the Coroner, the man was found to have had his mind unhinged shortly before he committed the deed.

The staff consists of a dresser, who also acts as clerk and storekeeper, two attendants, one cook, one toty, one barber, and one dhobie.

The dresser and clerk has done his duties well, but his books are not kept as they should have been and I introduced a system so as to correspond with that in the District Hospital.

S. P. PEART,
Secretary, Decrepit Ward Fund.

REPORT ON THE KUALA KANGSAR DISTRICT FOR THE MONTH OF MAY, 1901.

REVENUE.

The revenue for the month was \$5,071.28, which brings the total revenue for the first five months to \$20,953.09, on a proportionate estimate of \$17,497.92. Land Revenue for May was \$3,786.44.

His Highness the Sultan of Perak returned from his visit to Singapore, where he had been to attend the reception of Their Royal Highnesses the Duke and Duchess of York, on the 4th, His Highness was received at Kuala Kangsar with a guard of honour and the usual Salute, a large number of Malays being present to welcome the Sultan back.

His Excellency the Acting Governor passed through Kuala Kangsar on Tuesday 7th. He broke his journey through the State here in order to visit the Sultan at the Astana Nagara.

On Friday 10th I drove with Mr. Elford, the Acting District Engineer, to Lawin, and walked down the bridle-path as far as Ara Panjang. We had sent our boats down river, intending to perform the journey to Parit on foot. Raja Mahdi, the Penghulu of Senggang, met us at Lawin, as the first part of this path lies almost entirely through his mukim.

Raja Mahdi pointed out various places where he has opened new *padi* fields and others where he intends to open them. He has effected a very great deal since taking over the charge of this mukim in 1895, and has thoroughly justified the good opinion which I and other European Officers had formed of him, on seeing his work at Bota, Raja Mahdi is quite one of the best Native Officers the Government has. The population of his mukim has largely increased of late years, and the area under permanent *padi* cultivation is also increasing annually, he is tireless in his efforts in this direction and I think his work deserves every encouragement.

I have already addressed you separately on the subject of Government assistance in the irrigation of the Ketior *padi* fields which are situated in this mukim.

We spent the night of the 10th at Ara Panjang and next morning, having sent our boats on to Parit, walked over the bridle-path to that place. Our journey was diverted at one or two spots to inspect other localities where Raja Mahdi is anxious to open *ben-lang*, but which, being within the area sometimes referred to as the Sultan's shooting reserve, he had been unwilling to give out until they had been inspected. I had already approached His Highness on this subject and the Sultan had told me that it was not by any means his desire to prevent the opening up of this part of the district. I therefore told Raja Mahdi that there was no objection to his giving out any land along the path or within a reasonable distance of land already under cultivation.

At the boundary of the Senggang and Blanja mukims we took leave of Raja Mahdi. Here we were met by Leoakang, the Penghulu of Blanja, who walked with us to Parit. The Lawin Parit bridle-path is, taking it altogether, in fairly good condition, with the exception of the bridges. These are for the most part in bad repair, some indeed not having been touched since the 1897 flood. The Acting District Engineer has let a contract for the repair of all of them. The Malays of Senggang have in former years found some difficulty in irrigating their *padi* fields owing to the fact that, in certain parts, their operations flooded the bridle-path and to this the Public Works Department objected. I represented this to the Acting District Engineer, pointing out that the path was intended as an assistance to the people and not as an obstacle to their means of livelihood, Mr. Elford agreed with me and we told Raja Mahdi that he need have no hesitation in bringing in water where ever he could. Where necessary the path would be raised and pipes put in for the flow of water.

On Sunday, the 12th, we left Parit at about 10 a.m., and travelled by Elephant to Bruas, arriving there about 6 p.m. On the following day we walked back over the bridle-path to Parit and before leaving Bruas I visited the land taken up some years ago by the Datoh Panglima Besar for *padi* planting. I was very much pleased to see the extent which this

Chief has brought under cultivation, as it so often happens that when a Chief in the position of the Panglima Besar undertakes a scheme of this description the outcome is disappointing. The Datoh has addressed to me a letter on the subject of his work at Bruas which I am forwarding under separate cover for the Resident's information.

I regret to say that the path from Bruas to Parit is very unsatisfactory and there seems reason to suppose that there has been systematic fraud in the upkeep of it. The Acting District Engineer is, however, taking steps to remedy this in future.

On the 13th I left Parit for Bota, the District Engineer returning to Kuala Kangsar, through Kinta. At Bota I interviewed the Penghulu Toh Sa'Indra Bongsu, whose unsatisfactory work has for a long time been the cause of retrogression in this mukim. I have sent you a separate letter on the subject of this Penghulu.

On the morning of the 14th a coconut tree on the bank of the river fell on my boat which was moored near by. Nobody was hurt, but the boat was completely swamped and when it had been bailed out it was discovered that a leak had been sprung in the bows and I was compelled to cut short my visit, hire a small boat and make the best of my way down stream.

I called at Lambor to settle one or two outstanding census accounts, reached Teluk Anson at midday on the 16th and returned to Kuala Kangsar on the following day.

On Monday, the 20th, I left Kuala Kangsar by the morning train in company with the Collector of Land Revenue, and walked from Sungei Siput to the Sungei Krodah estate, owned by Mr. Gordon Brown. This estate is situated on the road which has been for some years under construction from Sungei Siput to Lentang in the Plus district. Mr. Brown has planted up, roughly, 250 acres with para rubber from which he hopes to obtain a crop in three years time.

On the following day we walked on over the trace of the road to Lentang, and were accompanied by Mr. Brown and Mr. Nicholls who has lately been prospecting in this direction on behalf of Mr. Swan. The road from Sungei Siput to Lentang has now been under construction for about five years, and when it is said that it is passable in some places that is all that can be stated in its favour. In other places the final trace appears to have only quite recently been decided upon. I do not know what the total cost has been but I should imagine that the work done is not commensurate with it and it is to be sincerely hoped that the completion of the road will not take another five years. In saying this I do not wish to reflect on any officer or any department, as only Public Works Officers realise the difficulties with which they have to contend, but the road was undertaken chiefly, I believe, on a recommendation made by me, when I was here in 1894, and it is of course disappointing to find so little achieved.

We crossed the river near Lentang and walked some way into the jungle on the other side to visit some old tin mines. There has been some idea of placing this part of the country under forest reserve and, as we have received several applications for mining land here, I wished to inspect the place myself before forwarding them. I am addressing you separately on the subject.

We walked back to Lasah and went down stream by boat to Lentang, walking back to Sungei Krodah estate that evening. On the following day the Collector of Land Revenue and I returned to Kuala Kangsar.

I went to Taiping on Friday 24th and remained there for the Whitsuntide holidays, returning to Kuala Kangsar on the 29th.

On the 30th I took over the Treasury from Mr. David who had obtained leave to visit Europe on a medical certificate.

The usual statement of revenue* is attached.

R. C. GREY,
District Magistrate, Kuala Kangsar.

REPORT ON THE WORK OF THE LEGAL ADVISER'S OFFICE DURING THE YEAR 1900.

The work of advising the Resident-General, the Federal Officers, the Residents of the four States and their officers, and that of drafting Enactments and legal instruments has fully occupied the time of the Legal Adviser during the year under report.

2. The Enactments passed in 1900, practically all of which were prepared in this office, were as follows:—

Enactments passed in similar terms in each of the States :—

- The Courts Enactment, 1900 ;
- The Criminal Procedure Code, 1900 ;
- The Probate and Administration Enactment, 1900 ;
- The Extradition Enactment, 1900 ;
- The Imperial Loans Enactment, 1900 ;
- The Muhammadan Marriage and Divorce Registration Enactment, 1900 ;
- The Societies Enactment, 1900 ;
- The Bills of Sale Enactment, 1900.

Enactments passed in similar terms in Perak, Selangor and Negri Sembilan only :—

- The Banishment Enactment, 1900 ;
- The Railways Enactment, 1900 ;
- The Powers of Attorney Enactment, 1900.

Enactment passed in similar terms in Perak and Selangor only :—

- The Jinrickisha Enactment, 1900.

Enactments passed in similar terms in Selangor and Negri Sembilan only :—

- The Pedlars' Enactment, 1900 ;
- The Census Enactment, 1900 ;
- The Mineral Ores Enactment, 1900.

Enactment passed in similar terms in Perak and Pahang only :—

- The Vehicles Enactment, 1900.

Enactment passed in similar terms in Selangor and Pahang only :—

- The Frontier Police Enactment, 1900.

Enactments passed in Selangor only :—

- The Criminal Procedure Code Amendment Enactment, 1900 ;
- The Ferries Enactment, 1900.

Enactments passed in Negri Sembilan only :—

- The Salt Monopoly Enactment, 1900 ;
- The School Attendance Enactment, 1900 ;
- The Salt Monopoly Amendment Enactment, 1900 ;
- The Opium Duties Enactment, 1900.

Enactments passed in Pahang only :—

- The Contract Enactment, 1900 ;
- The Labourers' Wages Priority Enactment, 1900 ;
- The Legal Tender Enactment, 1900 ;
- The Pensions Enactment, 1900 ;
- The Federal Officers' Pensions Enactment, 1900 ;
- The Lights and Registration of Small Shipping Registration Enactment, 1900.

3. As each of these Enactments has been the subject of a separate report to the Secretary of State, it is unnecessary to report specially upon any of them here; I should, however, add that although this classification appears to show considerable divergence from the principle of uniform legislation for all the States, there are really only a few of the Enactments mentioned above, which have not their counterparts in each State. The Enactments, for instance, which are shewn in the last list as having been passed in Pahang only, have all been passed in similar terms in each of the other States. Most of them became law in Perak, Selangor and Negri Sembilan in 1899, but as the Pahang State Council did not meet at the end of that year, they did not become law in that State until 1900.

4. The Criminal Procedure Code was the most important piece of legislation of the year. It had been badly wanted for years, and though some points in it have already been noted for future amendment, it appears likely to work well on the whole.

5. The alteration made by the Courts Enactment (which I opposed at the time as strongly as I could), excluding a large number of the most trivial cases from the jurisdiction of the lower Courts, has already been the cause of much inconvenience, and I anticipate that another Enactment on the subject will be required shortly.

6. The Draft Civil Procedure Code, prepared by Mr. Kershaw, a considerably larger undertaking than the Criminal Procedure Code, has been the subject of discussion and revision during the year under report, and may, I think, be expected to be ready for introduction shortly.

KUALA LUMPUR,
30th January, 1901.

A. BERRINGTON,
Acting Legal Adviser, F. M. S.

The
Perak Government Gazette.

FEDERAL.

APPOINTMENTS AND PROMOTIONS.

The following appointments and promotions in the Public Works Department of the Federated Malay States have been approved with effect from the 1st January, 1901 :—

To be State Engineers of the Second Grade, Negri Sembilan and Pahang, respectively, Mr. H. Caldicott and Mr. E. R. Stokoe.

To be First Grade Executive Engineers: Mr. H. F. Bellamy and Mr. H. Spearing.

To be Second Grade Executive Engineers: Mr. E. H. Wallich, Mr. A. C. Norman, Mr. R. O. N. Anderson and Mr. N. T. Gray.

To be Third Grade Executive Engineers: Mr. W. W. Acton and Mr. T. Groves.

To be Fourth Grade Executive Engineers: Mr. J. Ward, Mr. J. F. Ward and Mr. W. N. Cosgrave.

To be Fifth Grade Executive Engineers: Mr. T. J. McGregor, Mr. H. O. Robinson and Mr. L. Tod.

APPOINTMENTS.

Colonel R. S. F. Walker, C.M.G., resumed the duties of his appointment as Commandant, Malay States Guides, on the 13th July, 1901.

Major A. S. Vanrenen resumed the duties of his appointment as Second-in-Command, Malay States Guides, on the 13th July, 1901.

Captain H. S. Ainslie resumed the duties of his appointment as Wing Commander, Malay States Guides, on the 13th July, 1901.

Mr. L. E. P. Wolferstan, of the Straits Settlements Civil Service, has been appointed to act as Secretary to the High Commissioner, Federated Malay States, with effect from the 1st June, 1901.

The following appointment in the Public Works Department, Federated Malay States, has been approved, with effect from the 1st July, 1901 :—

Mr. A. B. Hubback to be Architectural Assistant, 3rd Grade Executive Engineer, to be attached to the Office of the Director of Public Works, Federated Malay States.

HINDUSTANI EXAMINATION.

Lieutenant P. L. Ingpen, Wing Officer, Malay States Guides, has passed the Final Examination in Hindustani held at Kuala Lumpur on the 7th June, 1901.

R.-G.O. CIRCULAR No. 19—1901.

SCHEME FOR GRADING THE OFFICERS OF THE PUBLIC WORKS DEPARTMENT, FEDERATED MALAY STATES.

1. The Public Works Departments of Perak, Selangor, Negri Sembilan and Pahang are combined in one Public Works Department under a Director of Public Works, F.M.S.

2. The Department will be eventually graded as under :—

One Director of Public Works, F.M.S.	...	...	\$*	} Pensionable.
Two State Engineers, 1st Grade	...	...	6,000	
Two " 2nd "	...	...	5,400	
Two Executive Engineers, 1st "	...	...	4,800	
Four " " 2nd "	...	...	4,200	
Five " " 3rd "	...	...	3,600	
Three " " 4th "	...	...	3,000	
Six " " 5th "	...	...	2,700	} Non-Pensionable.
Nine Assistant Engineers,	...	...	2,400	

3. Assistant Engineers will be engaged on agreement for a period of three years, with free passage to their destinations. On the termination of that period they will, subject to the recommendation of the State Engineer and of the Director of Public Works, and to the provisions of Paragraph 4, be offered either the next vacancy in the 5th Grade of Executive Engineers, or an extension of their agreement for a further period of three years, with a bonus of six months' full salary on the satisfactory completion of the extended period, and a free return passage. Failing the necessary recommendation of the State Engineer and the Director of Public Works the retirement of the Assistant Engineer is understood to be a matter of course.

4. Assistant Engineers will be required to pass a colloquial examination in Tamil or Malay, preferably the former, before they can become eligible for promotion to the 5th Grade.

5. Increases of salary beyond the maximum provided for any grade can only be obtained by promotion to the next higher grade on the occurrence of a vacancy.

* Salary not yet determined.

6. The following are the rates of salary sanctioned for the present:—

1	2	3	4
Grade.	To be drawn.	Maximum.	Name.
Pensionable.			
State Engineer, 1st Grade, Perak	5,400	6,000	Mr. J. Trump

„ 3rd „ }			
„ 4th „ }	2,700	3,000	Mr. J. F. Ward
„ 4th „ }			Mr. W. N. Cosgrave
„ 4th „ }			Mr. J. Ward
„ 5th „ }	2,400	2,700	Mr. T. J. McGregor
„ 5th „ }			Mr. H. O. Robinson
„ 5th „ }			Mr. L. Tod
„ 5th „ }			
„ 5th „ }			
„ 5th „ }			
Non-pensionable.			
Assistant Engineer }	2,400		Mr. S. R. Smith
„ }			Mr. H. R. Moullin
„ }			Mr. J. E. Jackson
„ }			Mr. W. R. Sanguinetti
„ }			Mr. A. J. Oborn
„ }			Mr. S. K. Sibbald
„ }			

The salary specified to be drawn by Mr. Trump and Mr. McGlashan will take effect as from 15th May ultimo. In the remaining cases the salaries specified will be drawn as from 1st January, 1901, or in the case of officers on agreement on the dates mentioned in their agreements.

When an officer on the Fixed Establishment has completed five years' approved service on the rate specified in column 2 he will be entitled to draw the maximum rate specified in column 3 of the above list.

None of the officers mentioned in the above list are entitled to count the value of their quarters for pension.

By command,

F. J. WELD,

RESIDENT-GENERAL'S OFFICE,

Ag. Secretary to Resident-General, F.M.S.

SELANGOR, 25th June, 1901.

COUNCIL OF STATE, KUALA KANGSAR.

MONDAY, 13TH MAY, 1901.

PRESENT :

HIS HIGHNESS IDRIS MERSID-EL-AĀZAM SHAH, G.C.M.G., Sultan of Perak,
President.

The Acting British Resident, COL. R. S. F. WALKER, C.M.G.

The Raja di Hilir, RAJA ABDUL JALIL.

The Orang Kaya Temenggong, WAN HASSAN.

The Orang Kaya Mentri, WAN MUHAMMAD ISA.

The Orang Kaya Kaya Laksamana, HUSSEIN.

The Orang Kaya Kaya Panglima Kinta, USUF.

The Datoh Sri Maharaja Lela, ABUBAKAR.

LEONG FI.

ABSENT :

His Highness Raja Muda, RAJA MUSA.

The Acting Secretary to Government, D. G. CAMPBELL, Esq.

The Datoh Sri Adika Raja, WAN MUHAMMAD SALEH.

The Datoh Muda, ABDUL WAHAB.

CHUNG THYE PHIN.

HIAH SWEE LEE.

The Council meets at 11 a.m.

1. The Acting Resident addresses the Council and on behalf of the other Members congratulates His Highness the Sultan, who was recently invested by H. R. H. the Duke of Cornwall and York with the Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, upon the high honour conferred upon him by His Majesty the King.

2. The Acting Resident reads the notes of evidence taken in the cases of (1). Government of Perak *versus* Palaniandy; (2). Government of Perak *versus* Velayan; in both of which cases the prisoners were charged with and convicted of murder. The Council confirms the sentence of death passed by the Judicial Commissioner on Palaniandy (execution to take effect, 3rd June), and in accordance with a recommendation of the Judge, commutes the sentence of death passed on Velayan to one of ten years rigorous imprisonment.

3. The Acting Resident reads a letter from the Acting Colonial Secretary, Straits Settlements, requesting him to inform the State Council of Perak that its message of sympathy for His Majesty the King in his bereavement has been laid before His Majesty by the Right Honorable the Secretary of State for the Colonies, and that His Majesty has commanded that the assurance of his deep gratitude should be conveyed to the Council.

4. A Draft Enactment to amend the Bills of Sale Enactment, 1900, was read and passed, becoming No. 3 of 1901.

5. A draft Enactment to prevent the Propagation of Plague is read and passed, becoming No. 4 of 1901.

6. The Council recommends an increase of \$5 a month to the pension now drawn by Haji Rahmah, who has been drawing \$10 a month since 1883.

7. The issue of mining titles to the lands at present held on agricultural title are approved on the terms below specified and subject to the surrender of the agricultural title.

Mukim.	Agricultural Title.	Plan No.	Acres.	Premium on Conversion. per Acre.

16th May, 1901.

RAJA MANSUR,
for Clerk of Council.

No. 485.—The following Enactments were passed at a Meeting of the Council of State held on the 13th May, 1901:—

FEDERATED MALAY STATES.

STATE OF PERAK.

ENACTMENT NO. 3 OF 1901.

An Enactment to amend the "Bills of Sale Enactment, 1900."

[13th May, 1901.]

COL. R. S. F. WALKER, C.M.G., *Acting British Resident.*

IT IS HEREBY enacted by His Highness the Sultan in Council as follows:—

1. This Enactment shall come into force upon the publication thereof in the *Gazette*. Commence-
ment.

2. This Enactment may be cited as "The Bills of Sale Enactment, 1900, Amendment Enactment, 1901," and shall be read and construed as one with the "Bills of Sale Enactment, 1900," (hereinafter called the principal Enactment), and any copy of the principal Enactment printed after the commencement of this Enactment may be printed with the amendments and additions made by this Enactment. Short title,
and construction.

3. The following new Section, to be numbered 18, shall be inserted after Section 17 of the principal Enactment: Amendment of
principal
Enactment.

18. "Nothing in this Enactment shall apply to any debentures issued by any mortgage, loan, or other incorporated company, and secured upon the capital, stock or goods, chattels and effects of such company."

FEDERATED MALAY STATES.

STATE OF PERAK.

ENACTMENT No. 4 OF 1901.

An Enactment to prevent the propagation of Plague.

[13th May, 1901.]

COL. R. S. F. WALKER, C.M.G., *Acting British Resident.*

Preamble.

WHEREAS by an International Convention held at Venice in the year 1897, certain general Sanitary Regulations were agreed upon for preventing the invasion and propagation of plague, and it is expedient that the Government of this State should have power to put in force within the State the provisions of the said Convention with regard to persons leaving infected places and the exportation of merchandise therefrom :

IT IS HEREBY enacted by His Highness the Sultan in Council, as follows :—

Short title.

1. This Enactment may be cited as "The Plague Enactment, 1901," and shall come into force upon the publication thereof in the *Gazette*.

State or district proclaimed infected.

2. Whenever plague has broken out or exists in the State or in any district thereof, it shall be lawful for the Resident to notify by proclamation that the State or the district thereof in which plague has broken out or exists is an area infected with plague and by the same or any subsequent proclamation to order that all or any of the provisions of this Enactment shall apply to such area.

Passenger leaving infected area.

3. (i). In every infected area every person taking a passage on board any vessel to any place beyond such area shall be examined by a medical officer appointed by the Resident for that purpose.

(ii). Such examination shall be by daylight on land and immediately before the time of embarkation.

(iii). The Consular representative (if there be such a representative in the State) of the nation to which the vessel belongs may be present at the examination.

(iv). No person who in the opinion of the medical officer is suffering from plague shall be permitted to embark.

Susceptible articles.

4. The following are deemed to be susceptible articles within the meaning of this Enactment :—

(a). Wearing apparel, whether in wear or not ; bedding, bed linen, blankets and all things of a like nature ;

(b). Rags, whether compressed or not compressed, and shoddy ;

(c). Bags and sacks which have been used for any purpose ;

PLAGUE.

(d). Used carpets, curtains, rugs, embroideries, table linen, table covers and ornamental textures of any kind ;

(e). Raw hides, fresh and untanned skins ;

(f). Hoofs, horns, claws, hair, peltry, raw silk, wool and all other unmanufactured animal products and human hair.

5. (i). It shall be lawful for the Resident at any time to prohibit by order the exportation from an infected area of any class of susceptible goods named in such order.

Power to prohibit exportation any class of susceptible goods.

(ii). Such prohibition shall not apply to goods in transit through the infected area, packed or stowed in such manner that they cannot come in contact with any person or thing.

6. No susceptible articles shall be exported without the permission of the Health Officer.

Permission of Health Officer to export.

7. All susceptible articles forming part of any passenger's baggage and any susceptible article intended for exportation as merchandise from the infected area which may be considered by the Health Officer to be contaminated or suspected, shall be disinfected on shore before exportation under the inspection of the Health Officer in such manner as the Resident shall from time to time by any rule direct.

Disinfection of susceptible articles.

8. It shall be lawful for the Resident, with the approval of the Resident-General, from time to time to make rules prescribing the method of disinfection to be applied in respect of each class of susceptible goods ; the places and times at which, and the periods during which, such methods are to be applied, and generally for effectually carrying out the provisions of this Enactment.

Power to make rules.

9. Every person shall be guilty of an offence and shall be liable to imprisonment for any term not exceeding twelve months or to a fine not exceeding \$2,000 or to both such punishments who, in any area proclaimed as infected under this Enactment—

Penalties.

(a). Embarks or attempts to embark on a voyage to any place out of the area without the permission of the Health Officer ;

(b). Avoids or attempts to avoid the examination prescribed by Section 2 ;

(c). Exports or attempts to export any goods prohibited under Section 4 ;

(d). Exports or attempts to export any susceptible goods as passenger's baggage or otherwise without the permission of the Health Officer ;

(e). Is guilty of any contravention of any rule made by the Resident, with the approval of the Resident-General, under the provisions of this Enactment.

10. Whenever it appears to the Resident that an area proclaimed under this Enactment has ceased to be infected with plague, he shall by proclamation notify that such area is no longer infected with plague and thereupon the provisions of this Enactment shall no longer be in force therein.

Procedure when area ceases to be infected.

THE following Notifications are, by Command of the Acting Resident, published for general information.

D. G. CAMPBELL,
Acting Secretary to Resident.

APPOINTMENTS.

No. 486.—Mr. William Walter Acton, Second Assistant Engineer, Headquarters Staff, Public Works Department, to be First Assistant Engineer, Headquarters Staff, Public Works Department, with effect from the 1st January, 1901.

No. 487.—Mr. Arthur Tomkyns Dew, District Magistrate, Krian, to act as District Magistrate, Lower Perak, with effect from the 27th July, 1901.

No. 488.—Mr. Albert Leay Knaggs, Chief Assistant Magistrate, Kinta, to act as District Magistrate, Krian, with effect from the 27th July, 1901.

No. 489.—Raja Chulan bin ex-Sultan Abdullah, Assistant District Magistrate, Selama, to act as District Magistrate, Matang, with effect from the 27th July, 1901.

No. 490.—Mr. Bertram Walter Elles, Cadet, to act as Assistant District Magistrate, Selama, with effect from the 27th July, 1901.

No. 491.—Mr. Robert Walter, Cadet, to act as Assistant Commissioner of Police, Kinta, with effect from the 9th May, 1901.

No. 492.—Mr. Arthur Herbert Noyes, Settlement Officer, Kuala Langat, Selangor, to be Inspector of Mines, Gopeng and Kinta, with effect from the 12th June, 1901.

LEAVE.

No. 493.—Mr. J. P. Rodger, c.m.g., British Resident, Selangor, reported his return from leave of absence on the 13th July, 1901, and assumed duties as Acting British Resident, Perak, on the same date.

No. 494.—Mr. Ewen Charles Davidson, Assistant Superintendent, Posts and Telegraph Department, has been granted three months vacation leave, to be followed by twelve months' leave with half salary, with effect from the 21st July, 1901.

No. 495.—Mr. Edward John Brewster, District Magistrate, Lower Perak, has been granted three months vacation leave, to be followed by eleven months and twenty-four days leave with half salary, with effect from the 27th July, 1901.

RETIREMENT.

No. 496.—Mr. Mannargudi Abram Coopooosamy Row, Second Clerk and Tamil Interpreter, Taiping Court, has been permitted to retire from the service of the State, with effect from the 19th January, 1901.

SERVICES DISPENSED WITH.

No. 497.—The services of Cheon Chuan Beng, Customs Clerk, Parit Buntar, Krian, have been dispensed with, with effect from the 27th June, 1901.

ADDITION TO GENERAL ORDERS.

Over 7 lbs. but not over 11 lbs.	2	00

Such parcels must bear the superscription in large letters "*via* Brindisi."

19th July, 1901.

PUBLIC HOLIDAY.

No. 502.—It is hereby notified that Monday, the 5th August, will be observed as a Public holiday throughout the State.

17th July, 1901.

FOREST RESERVES.

No. 503.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims the parcels of land situated at Parit, described in the schedule hereto, as Forest Reserves, to be maintained and controlled by the Forest Department.

SCHEDULE.

PARIT RESERVE.

Boundaries.—North: A $\frac{1}{4}$ of a mile south of the cart-road from Parit to Siputeh, from Kampong Parit to a bridge near the 4th mile, marked with Forest Reserve iron boundary posts. East: From a bridge near the 4th mile on the Siputeh and Parit road, where the Kuala Kangsar and Kinta District boundary crosses, following the district boundary as follows, due south for about 4 miles; thence due east for about $1\frac{1}{2}$ miles to the south-western corner of (Kinta) Plan No. 5,302; thence south to the north corner of Plan No. 7,081; thence along the western and southern boundaries of Plan Nos. 7,081, 7,082 and 7,083; thence along the Sungei Anak Ayer Buah to the junction of that stream with the Sungei Tumboh; thence along the Sungei Tumboh, south, to the Lower Perak boundary, *vide* Notification No. 896 of 1900. South: The district boundary between Lower Perak and Kuala Kangsar from the last mentioned point to the boundary pillar on the east bank of the Perak river. *vide* Notification No. 421 of 1900. West: The eastern boundary of all alienated lands abutting on the Perak river, and excluding all alienated lands near these, from the boundary pillar above-mentioned, north, as far as Kampong Parit, the point of commencement.

16th July, 1901.

DESPATCH FROM THE RIGHT HONOURABLE THE
SECRETARY OF STATE FOR THE COLONIES.

No. 504.—(*Circular.*)

DOWNING STREET, 8th May, 1901.

SIR,

I have the honour to inform you that, with a view to enabling Medical Officers of the various Colonies and Protectorates to study, while on leave of absence in England, the practical working of the Röntgen Ray system, I have approved of the Crown Agents for the Colonies accepting an offer which has been made to them by the Society of Apothecaries of London to place gratuitously at their disposal an apparatus which the Society has installed with all necessary appliances for practical demonstration. The Society further state that they will endeavour to keep the apparatus up to date, and to render every facility they can in the matter of instruction to Medical Officers.

2. I request that this arrangement may be brought to the notice of all Medical Officers in the Public Service of the Colony, and, as it is desirable that Officers should make themselves fully conversant with the working of the Röntgen Ray apparatus in all its details, I trust that, unless

they have already done so, they will avail themselves as opportunity offers of the facilities which the Society of Apothecaries have undertaken to afford.

I have the honour to be,

Sir,

Your most obedient, humble Servant,

THE OFFICER ADMINISTERING THE

J. CHAMBERLAIN.

GOVERNMENT OF THE STRAITS SETTLEMENTS.

DESPATCH FROM HIS EXCELLENCY THE HIGH COMMISSIONER.

No. 505.—The following letter is published for general information.

(Copy)

HIGH COMMISSIONER'S OFFICE,

SINGAPORE, 14th May, 1901.

S. of S. 301/1901.

SIR,

I am directed by the High Commissioner to request that you will be good enough to inform the General Community of Perak that their message of sympathy for His Majesty the King in his bereavement has been laid before His Majesty by the Right Honourable the Secretary of State for the Colonies, and that His Majesty has commanded that the assurance of his deep gratitude should be conveyed to them.

I have, etc.,

(Signed) H. C. SELLS,

Acting Secretary to High Commissioner, F. M. S.

THE ACTING BRITISH RESIDENT, PERAK.

AMENDMENT TO LAND RULES.

No. 506.—Under the powers conferred by Section 14 of the Land Enactment, 1897, the Resident, with the approval of the Resident-General, has been pleased to vary Rule 27 of the Rules previously made under the provisions of the above-mentioned section and published in the *Gazette* of the 24th day of February, 1899, as follows:—

In Rule 27 the Survey Fees specified in Table III thereof are rescinded, and the following are substituted therefor:—

TABLE III.

SURVEY FEES (INCLUDING COST OF PLAN AND TRACING).

<i>Town Lands, Buildings and Village Lots.</i>					\$	c.

Through heavy jungle only	80 "

Fees for meridian observations, \$10 for each set if specially asked for. This fee includes the calculations.

16th July, 1901.

RULES FOR LICENSED SURVEYORS.

No. 507.—The following Rules for Licensed Surveyors and for the Guidance of Staff Surveyors and Draftsmen are published for general information :

1. *Issue of Instructions.*—All surveys entrusted to Licensed Surveyors shall be performed under the following regulations upon written instructions from the Superintendent, Revenue Surveys, or from other officers duly authorised by him, and to the satisfaction of the Superintendent, Revenue Surveys. (*See Appendix A.*)

2. *Transmission of Plans.*—A Licensed Surveyor is employed under the supervision of and subject to instructions from the Superintendent, Revenue Surveys, upon whose certificate payment on account of surveys is authorised, and all official correspondence, reports and plans shall be transmitted through the District Surveyor, if so arranged, to the Superintendent, Revenue Surveys. In the absence of the Superintendent, Revenue Surveys, the Chief Draftsman will, as a rule, have general charge and authority in the Head Office and will attend to all correspondence, sign papers and approve plans.

GENERAL.

3. *Instruments and Equipment.*—A Licensed Surveyor shall supply himself with surveying instruments and with the necessary equipment and labour; with copies of plans of lands adjacent to those which he may be instructed to measure; with such copies of the State regulations as he may require in connection with the duties entrusted to him, and with all information requisite for carrying out his instructions.

4. *Payment to be made by Fees.*—A Licensed Surveyor will be paid for surveys which he may be instructed to perform the amount shewn in the scale of fees hereinafter set out (*vide Appendix B*), payment to be made after the work shall have been accepted by the Superintendent, Revenue Surveys, or other officer duly authorised by him, but an advance not exceeding 50 per cent of the total fees may be made by the Superintendent, in his discretion, upon receipt of the work. It shall be competent for the Superintendent, Revenue Surveys, subject to the Resident's approval, to let under a special contract, at an increase or a discount upon such scale of fees, surveys such as the subdivision of areas, laying out roads, marking reserves, marking other boundaries and topographical surveys. To meet difficult circumstances of survey, in order to provide adequate remuneration, a local increase to fees may be allowed by the Resident's authority.

5. *Stoppage or Forfeiture of Fees.*—All instructions shall be promptly acted upon. Neglect in this particular may lead to stoppage of payment of advances on account, forfeiture of instructions already issued, or other arrangements being made to ensure the instructions being acted upon with despatch. All surveys shall be effected as far as possible in due order of sequence.

6. *Survey by Deputy not Allowed.*—Survey by deputy, signing declaration of plan on account in cases where the survey or amendment to survey has not been performed by the Surveyor himself, taking fees from private persons interested in any survey carried out under instructions from the Superintendent, Revenue Surveys, or his deputy, are strictly prohibited; any breach of this rule proved to the satisfaction of the

Superintendent, Revenue Surveys, will lead to the immediate cancellation of the Surveyor's licence; and such cancellation will be notified in the *Government Gazette*.

7. *Means of Survey*.—All surveys shall be effected by means of the 5" theodolite and steel band chains, except when written authority is given to the contrary.

8. *Progress Reports*.—The Licensed Surveyor shall compile for each month a return or progress report in the form appended (Appendix D) and in accordance with directions thereon, and shall transmit the same to the Superintendent, Revenue Surveys, on or before the fifth day of the following month.

9. *Absence from Field Work to be Reported*.—When a Licensed Surveyor is absent from his field work he shall inform the Superintendent, Revenue Surveys, in writing; and also when he intends to return to work he shall report the date on which he returns. If, in the opinion of the Superintendent, Revenue Surveys, the Government interests or the interests of the public service are likely to suffer through the absence of a Surveyor from illness or any other cause from his work, the Superintendent, Revenue Surveys, may call upon the Licensed Surveyor for the return of all instructions held by him, and may re-issue them to another Surveyor. It may be taken as a general rule that absence from work for a period of more than three weeks at any one time or of more than six weeks in any one year will render a Licensed Surveyor liable to be called upon to return all incomplete instructions, and the question of issue of any further instructions will be specially considered.

10. *Erroneous Surveys*.—Surveys discovered to be erroneous, or surveys in contravention of the Land Regulations, or surveys not in accordance with the practice of the department, may be rejected by the Superintendent, Revenue Surveys, and the fees charged for the same may be disallowed; or, if such fees have been paid, the amount may be surcharged against any balances of accounts which may be due or become due to the Surveyor; or, if another Surveyor be employed to amend or re-measure, then the cost of his services at the authorised rates (but not exceeding the fee for the original survey) may be surcharged to the account of the Surveyor who made the original erroneous survey.

11. *Effacement of Marking or Rejected Surveys, etc.*—When a survey is rejected the marking of the same shall be effected by the Licensed Surveyor, or at his cost. Any plan rejected, whether on account of erroneous survey or otherwise, which may have been registered, shall not be returned to the Licensed Surveyor. Neither shall payment for the same be allowed under certain circumstances—such as where there has been failure to complete surveys according to the conditions herein specified, or where plans have been badly or inaccurately drawn, or areas have been incorrectly computed—and when it may not be expedient or desirable to reject the survey, a discount, which shall not exceed 25 per cent on the authorised fee, may be imposed as a compensation for additional professional labour involved in examination and amendment, or as a fine; or, in event of the account for such imperfect survey having been paid, such discount as a fine may be surcharged against any balances or accounts which may be due or may become due for service rendered.

12. *Immediate Reply to Memoranda Required*.—Memoranda relating to omissions on plans or other deficiency must meet with immediate reply by

the Licensed Surveyor; otherwise, as surveys and accounts cannot be kept in abeyance, the fees for the items in question will necessarily be struck out of account.

13. *Amendment of Erroneous Surveys, Memoranda concerning which have not been replied to.*—Should such memoranda be neglected for a period of one month it shall be competent for the Superintendent, Revenue Surveys, to cancel or amend the survey, or to cause inspection, the cost of which may be surcharged against the Licensed Surveyor.

14. *Connections.*—Connections will be paid for in addition to the cost of survey if such work be necessary and is approved by the Superintendent, Revenue Surveys. Instructions issued will, where necessary, contain special reference to the connections that may be required for purposes of description or charting. Boundary marks (iron pipes or stones, as may be directed) in pairs, are to be sunk in the ground every half mile or so on all new traverses. Fees, *see* Appendix B. In the survey of several portions measured contemporaneously, and separated by a road or river from others previously measured, connections shall be made near the commencement and the termination of the survey, or at intervals of about half a mile. Whenever a portion is measured within a few chains of any previously defined area, road reserve, or any marked boundary lines, a connection shall be made to some defined points thereof. All traverse connections, which for special reasons cannot at the time be closed, *must be chained twice* and the bearings checked by means of *azimuth observations* every three miles. Both measurements must be shewn in the field book. The observations will be paid for at the rates laid down in the Table of Fees, but no extra payment will be allowed for the double chainage.

15. *Close of Surveys.*—The accuracy of the survey of each portion should be determined by latitude and departure. The limit of allowable error, in links, will be that set out in Appendix C.

16. *Transmission of Plans.*—On completion of a survey the Surveyor must forward a plan and a tracing on linen shewing the work carried out under the instruction issued. The instruction must be returned with plan (and field book if called for) and accompanied by a letter in the form of Appendix E.

17. *Plans.*—Plans must be drawn on good drawing paper (size not less than 13" × 9" or to a size fixed by the Superintendent, Revenue Surveys), and all tracings prepared on linen; tracings on paper will not be accepted. The conventional signs in Appendix G are to be used in drafting, and the number of field books is to be given on each plan. It shall be optional for the department to supply printed plan forms and tracings, making a small charge for them, as it may be advisable to keep plans of a uniform size.

North Point.—Unless there is sufficient reason to the contrary, plans should be plotted and should read with the north point upwards.

Scale—The scale should be written in a conspicuous place on each plan. Scale to be used shall be that authorised by the custom of the department.

Plans of town allotments are usually to be plotted to a scale of 100 links to 1 inch, when not built upon. A larger scale is, or may be, necessary where buildings exist.

The scale generally to be used for portions outside town limits is 4 chains to 1 inch; but where circumstances render it desirable the plans may, with the sanction of the Superintendent, Revenue Surveys, be drawn to any other scale.

Boundaries of portions and allotments shall be shewn by black lines, and the bearings and lengths of all boundary lines should be distinctly written along them in black. All bearings should read from zero to 360°.

All plans furnished by Licensed Surveyors must bear a certificate of accuracy signed by them.

Original field plans and records are open to inspection by Licensed Surveyors under the supervision of the officer having charge of such plans.

All plans deposited with any staff Surveyor by a Licensed Surveyor become the property of the Government and must be returned if sent back for correction.

Traverse Lines Shewn in Blue.—Traverse lines of survey which are not also boundaries are to be numbered and drawn in blue colour, and the bearings and lengths are to be stated in a tabular form on the plan.

Colours not to be used by Surveyors or Draftsmen.—Except for edging or tinting portions measured, or indicating a boundary-stone, red, lake, or carmine is not to be used by Surveyors or Draftsmen on their plans, as these colours are used in the office for corrections and additions.

Bearings in Blue Dotted Lines.—Bearings to distant and remarkable points, and to opposite sides of rivers, etc., and direct bearings by calculation, are to be delineated in blue dotted lines, and the particulars are to be written in like colour.

Direct Bearings and Distances to be Calculated by Surveyor.—All direct bearings and lengths required for describing the relative positions of measured portions shall be calculated by the Surveyor and written on the plan, and the area of each portion, unless otherwise ordered, is to be calculated without using scale measurement, and is to be written within the portion; and where a reserve for road is provided the area shall be stated as exclusive of such reserve.

Features, how shown.—Lines of coasts, rivers, creeks, etc., are to be shown, when the position is determined with precision, by black lines, and, where otherwise, by broken black lines; both sides of rivers are to be shown, with an arrow to show the direction of the current. Referring marks or trig. stations are to be correctly shown when they are upon or adjacent to portions represented on a plan.

Hills and undulations of the ground are to be carefully represented with the brush or the pen either in the vertical or horizontal style, they are not to be confined to the lands measured but are to be represented on either side of the lines of survey so far as they can be sketched approximately.

Features and Improvements.—The limits of swamps, jungle, plains, lands liable to inundation, etc., are to be represented and the position and extent of improvements, such as buildings, fences, clearing, etc., on or adjacent to lands measured are to be clearly shown.

Traverse for Feature Survey.—The direct bearing and distance of traverse for feature surveys shall be calculated at convenient intervals by the Surveyor in order to test the plotting of the plan, and shall be delineated by a blue dotted line with particulars written in the same colour.

Boundaries of Territorial Division—such as State, district, mukim, etc.,—shall be represented as defined by the table of distinguishing boundaries in Appendix G.

Reserve for Roads.—Reserve for roads through portions are to be represented on the plan by black lines, the traversed side being indicated by a firm line, and the opposite side by a broken line. The width should be written along the course of the road, thus:—reserve for road, 1 chain (or 50 links) wide.

All known names of rivers, creeks, hills, lakes, localities, etc., should be written on the plan.

18. *Field Notes.*—Field notes must be kept in ink in an intelligible manner in Government field books, and forwarded to the Superintendent, Revenue Surveys, as the books become filled or are no longer required by the Surveyor, or at any time that the District Surveyor may demand them. Blank field books will be provided by Government and no others will be accepted.

The contents of all field books must be carefully indexed, so that each survey can readily be found.

19. *Access Roads.*—In the measurement of all portions, care should be taken to leave reserves for roads at convenient and regular intervals to provide access to unalienated lands.

20. *Initial Line of Survey.*—Each survey shall show on plan and field book the initial line of survey.

Closing Error.—The angular closing error shall be shown clearly in the field book and on plan.

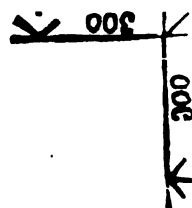

Adjoining Surveys.—The azimuth of lines of adjoining survey shall be shown, and attention called to any error or discrepancy which may appear. (If a former survey is adopted as a common boundary it is the Surveyor's duty to ascertain on the ground that the lines conform to the recorded bearings and dimensions of that survey.)

Bearings should be carefully taken to trigonometrical stations whenever visible, and particulars shown on plan.

21. *Clearing of Lines.*—All boundary lines where the country is not open are to be cleared to a width of not less than three feet, by the removal of all scrub and trees of a diameter less than eight inches. (Fruit trees are not to be cut down without special authority.)

22. *Alignment of Boundaries.*—In alignment of boundaries, boundary marks of prescribed dimensions and material (*see* Appendix F) shall be inserted in pairs at intervals of about 20 chains.

In Marking Corners.—Unless otherwise ordered by the Superintendent, suitable marks are to be used for each corner of holdings, except where the corner is in swamp, when long hard-wood stakes may be substituted. The mark at the corner shall be sunk, leaving not more than three inches projecting if a stone, 6 inches in an iron pipe, above

the natural surface of the ground, the other two marks standing a foot out of the ground on the boundary line at such distance from the corner as may be most convenient for future reference. At each corner of a town lot a stone, with the number of the section painted on it in black, shall be sunk in the ground, leaving not more than three inches of the stone above the natural surface of the ground. This rule of marking corners will, however, be governed by departmental custom of which due notice will be given.

23. *Boundary Marks*.—All stone survey marks used for the Government shall bear inscribed centre marks and the broad arrow.

The description of all boundary marks must be shown on plans, thus—Red denotes stone; black denotes pipe; blue denotes peg.

Corner Trees.—In cases where surveys are carried out in heavily wooded country the nearest large tree within a radius of 100 links from each corner shall be marked as follows:—The bark removed from a suitable portion of the tree, and on the surface exposed a broad arrow shall be cut, with the numbers of the block also cut below. The depth of the cut must not be less than three-fourths of an inch into the wood. The particulars of bearing and distance from tree to corner mark shall be noted in field book and on plan.

24. *Accounts*.—Survey fees will be collected by the Survey Office or Land Department, and the forms for the preparation of accounts will be kept by the Collector, but no work shall be paid for till accepted by the Superintendent, Revenue Surveys. (See Appendix H.)

25. *Interests of the State to be Conserved*.—Licensed Surveyors working on fees will be expected, as though they were salaried Surveyors, to conserve the interests of the State against those of the individual; and if in carrying out private work any facts as to erroneous surveys, wrongful occupation of land, etc., come under their notice, an immediate report of the same without remuneration will be looked for.

26. *General Conduct*.—Any misconduct on the part of a Licensed Surveyor, apart from professional or official work, which in the opinion of the Resident may be harmful to the good of Government employes, will lead to recall of instructions and cessation of employment.

27. *Instructions Recalled to be Returned*.—Instructions recalled must be immediately returned to the Superintendent, Revenue Surveys.

28. All questions arising in connection with the established practice of the department not provided for in these Rules shall be determined by the Resident.

CLOSE OF SURVEY FOR BUILDING LOTS.

Rules as to limit of error allowable in survey of sections sub-divided into building allotments.

1. The main surround of town work should close to $\frac{1}{10}$ link in 5 chains.
2. After main surround has been closed suitable sub-closes should be worked out, and from a line in each (taken as a basis) the interior calculated distances and bearings worked out on those given in by the Surveyor checked.
3. A calculated line within one of these sub-closes *must not* be taken as a basis for working out another calculated distance and bearing.

AGREEMENT.

I acknowledge that I have this day received a copy of the foregoing Regulations, and I agree with the Superintendent, Revenue Surveys, on behalf of the Government of _____, and declare that all my work at any time hereafter done by me for the said Government, under instruction from the Revenue Survey Department, shall and will be done and performed under and in accordance in all things with the said Regulations and of the instruction forwarded to me; that payment for such work is to be made to me at the rates, and at the times, and in the manner mentioned in the said Regulations, whether the said Regulations are or are not referred to in the instruction from time to time forwarded to me; that in respect of all work done by me I shall not have any claim or demand in respect of any matter or thing not provided for in the said Regulations; and that the acceptance by the Superintendent, Revenue Surveys, or officer duly authorised for that purpose, of any work done by me as before mentioned shall be a condition precedent to my having any claim or right of action for any money said to be due to me for work done under the said Regulations.

Dated the _____ day of _____ A. D. 190 .

Witness to Signature.

TENDERS FOR REVENUE FARMS.

No. 466.—Tenders will be received up to noon on Friday, the 13th September, 1901, for renting the following Farms for the period of one year, commencing from the 1st day of January, 1902.

A.—THE UPPER PERAK GENERAL FARMS.

(Including the New Territory.)

The Farmer will be required to import monthly into Janing not less than 280 gantangs of rice, and to sell the same at a price not exceeding \$7 per bag.

B.—THE LOWER PERAK ATAP FARM.

Tenders for renting the Lower Perak Atap Farm are invited.

CONDITIONS.

1.—Sealed tenders, which must be marked on the outside with the name of the Farm tendered for, should be addressed to the Secretary to the Resident, Taiping, and may be for one or both of the Farms.

2.—The Government does not bind itself to accept the highest or any tender, and reserves to itself the right of making any arrangement it may deem advisable in regard to the letting of the Farms.

3.—Security will be required in the shape of a cash deposit equal to three months' rent of the Farm, or a mortgage of approved land or house property to the value of not less than four months' rent.

4.—Each tender must specify the full names, residences and occupations of the persons tendering. In the case of Firms, the name and address of each partner and the name and chop of the firm *must be specified*.

. Copies of the regulations which govern the Farms can be obtained from the Secretary to the High Commissioner, Singapore; the Perak Government

Agent, Penang; the District Magistrates, and the Secretary to the Resident, Taiping, to the latter of whom application should be made should any further information be required.

24th June, 1901.

GOVERNMENT OF NEGRI SEMBILAN.

TENDER FOR GAOL.

No. 508.—Tenders are invited for the construction of a New Gaol, Seremban. The building comprise a Block of 102 cells, Hospital, Administration block, Warder's quarters, Work-sheds and stone breaking cells, Kitchen and latrines and Boundary wall.

R. CLAYTON,

Acting Collector of Land Revenue.

LOWER PERAK.

No. 478.—Application having been made to the Collector of Land Revenue, at Teluk Anson, by Archibald Alexander Swan of Singapore, for a new document of title for land, situated at Old Rifle Range Road, in the Durien Sabatang mukim of Lower Perak district, on the ground that Archibald Alexander Swan is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 4,889 has been lost:

No. 479.—Application having been made to the Collector of Land Revenue, at Teluk Anson, by Misah binti Shaik Ahmad of Penang, attorney for Mahbrok bin Abdullah, for new documents of title for land, situated at Syed Abu Bakar Road, in the Durien Sabatang mukim of Lower Perak district, on the ground that Mahbrok bin Abdullah is the registered owner thereof, and that the original Agreement for Agricultural Lease Nos. 4,986 and 5,244 have been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

ED. J. BREWSTER,

District Magistrate.

5th July, 1901.

No. 374.—To the Landholders named in the Schedule hereto :—

Take notice that whereas you have abandoned the lands described hereunder, in the mukim of Teluk Bharu, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such lands, or unless you enter or re-enter into occupation of such lands by making a *bonâ fide* commencement to cultivate it, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 7th day of June, 1901.

SCHEDULE.

No. 343.—To E. A. B. Brown, Esq., Attorney of John Chambre Budd, Prye Estate, Province Wellesley.

Take notice that whereas you have abandoned the land described hereunder, in the mukim of Durien Sabatang, held under Entry No. 516, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bonâ fide* commencement to cultivate it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 24th day of May, 1901.

SCHEDULE.

Mukim—Durien Sabatang. Nature of Title—Entry in Mukim Register No. 516. Name of Holder—John Chambre Budd. Area—7 acres, 3 roods and 26 poles.

N. KENDALL.
Collector of Land Revenue.

UPPER PERAK.

No. 370.—Take notice that whereas you have abandoned the land described hereunder, in the mukim of Lenggong, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bonâ fide* commencement to build on it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

F. A. S. McCLELLAND,
Collector of Land Revenue.

NOTICE UNDER SECTION 28 OF THE LAND ENACTMENT, 1897.

No. 410.—To the Landholders named below :—

Take notice that whereas you have abandoned the lands described hereunder, in the mukims of Bagan Serai and Tanjong Piandang, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such lands, or unless you enter or re-enter into occupation of such lands by making a *bona fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 21st day of June, 1901.

No. 449.—Application having been made to the undersigned by Jagon Buran bin Japusa, for an order declaring the applicant to be entitled to a piece of land, described in Grant No. 346, and $\frac{1}{3}$ share in a piece of land, described in application for Agricultural Land No. 2 of 1898, both situated in the mukim of Sungei Raia, district of Kinta, and registered in the name of Sheik Ahamad bin Jagumburan, deceased, on the ground that the applicant is the son of the said deceased, and that there is no other claimant:

No. 450.—Application having been made to the undersigned by Chew Koh Seh, for an order declaring the applicant to be entitled to $\frac{1}{3}$ share of land, described in four pieces of Mining Leases Nos. 1,107, 1,236, 1,237 and 1,823, respectively, all situated in the mukim of Ulu Kinta, district of Kinta, and registered in the name of Lim Cheng Ki, deceased, on the ground that the applicant is the father-in-law of the said deceased, and that there is no other claimant:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the undersigned for refusing the above applications, the orders applied for will be granted, and the titles transferred to the names of the respective claimants.

21st June, 1901.

CECIL WRAY,
District Magistrate, Kinta.

CIRCULAR LETTER No. $\frac{3135}{1901}$

1. The Government of the Federated Malay States wishes to call attention to a research Institute that it has recently established. The Institute is situated in Kuala Lumpur, the capital of the Federated Malay States, and is open to all workers irrespective of nationality.

2. The Medical Department is fully equipped for special and general pathological work, for the scientific study of clinical medicine, experimental physiology and bacteriology. A modern mortuary with a refrigerator chamber is a feature.

3. A Chemistry Department is in order for both organic and inorganic research. There is in addition a well-equipped Photographic Department, facilities for Biological research and a good working library.

4. The Institute and its resources are open to all irrespective of nationality under the conditions that usually obtain in such establishments.

5. To the members of scientific commissions who visit the Malay Peninsula and neighbouring islands, the Institute affords an excellent opportunity for working up and preparing collected material.

6. To students of tropical medicine the field for work is large. Beri-beri, especially, exists under unique conditions. Malaria exists in at least four distinct types.

7. The Institute is at present under the direction of Hamilton Wright, M.D. (McGill), and any communications in reference to the Institute addressed to him will be welcome.

By command,

F. J. WELD,

Ag. Secretary to Resident-General, F.M.S.

RESIDENT-GENERAL'S OFFICE,

Selangor, 10th July, 1901.

GOVERNMENT ANALYST'S OFFICE,
Singapore, 12th April, 1901.

REPORT ON THREE SAMPLES OF WATER AND A PIECE OF ZINC
GUTTER, SENT FOR ANALYSES BY THE RESIDENT SURGEON OF
PAHANG.

The samples were labelled as follow :—A, B, C, D, E and F.

Of these A, B, C, D and E were samples of water, in soldered tins. Sample B was a duplicate of A, and sample E a duplicate of D.

Samples of water A, B, D and E were taken from the storage tanks, and sample C was taken direct from the roof.

Sample F was a wooden box containing a piece of zinc gutter pipe.

EXPERIMENTAL RESULTS.

A preliminary determination of the quality of the samples of drinking water was made with the results as given in the attached Report I.

From these results it is shown that the water C is organically a dirty water and unfit for domestic purposes, while A B and D E are fit for drinking.

These results, however, cannot be taken as true indications of the quality of the waters, on account of the time that had elapsed during the transit of the samples from the place of collection to this laboratory.

The results obtained by the Resident Surgeon of Pahang—namely, that zinc was present in the water—were then qualitatively confirmed, and an estimation of the amount of the metal was made. These results are given in Report II.

The water held the zinc in solution as the acid carbonate, and boiling the water in an open dish led to the precipitation of zinc as the normal carbonate of zinc.

The presence of zinc in this case is, in fact, precisely analogous to the frequent and harmless presence of calcium carbonate in waters which are technically termed "temporarily hard."

An examination of the zinc gutter F showed that a considerable amount of dust and fine sediment had accumulated in the gutter. When this superficial deposit was removed, round patches of a white powder were found closely adherent to the zinc surface.

Portions of this powder were collected and analysed, and it proved to contain :—

Zinc	...	...	...	...	...	...	...	...	52.1 %
Carbon dioxide	...	...	...	...	...	...	...	...	20.2 %

This percentage corresponds to approximately a basic zinc carbonate, and the practical difficulty in obtaining the white powder free from surrounding dust would naturally lead to results showing low percentage of zinc and carbon dioxide.

An analysis of the loose dust, in the gutter, was then made, and, it was found to consist of approximately :—

Matter, insoluble in strong acids	...	...	...	...	...	...	...	70 %
Zinc carbonate	...	...	...	...	...	...	...	5 "
Ferric oxide	...	...	...	...	...	...	...	9 "
Moisture and other soluble matter were present.								

Only an approximate analysis of this dust was made because the composition varied with the mode of removing it from the gutter.

The results, however, are sufficient to show that the dust contained considerable quantities of zinc salt.

CONCLUSIONS.

There can, from the foregoing results, be no doubt that the water under examination is contaminated with zinc, and the amount is sufficient to cause zinc poisoning by long and continued use of the water.

The zinc is in actual solution in the water, and filtration would not be efficient in removing the zinc. This is shown by the quantitative results obtained on filtered and unfiltered samples of the water. (*Vide* Report II.).

The source of the zinc has undoubtedly been the zinc surface over which the water has run during the collection, and the water has been enabled to hold the zinc in solution by being impregnated with carbonic acid.

As this carbonic acid is expelled from the water the zinc is thrown out of solution, and it is to this partial purification of the water by standing, and loss thereby of carbon dioxide, that I attribute the amount of zinc in waters A B and D E being smaller than it is in sample C, which was taken direct from the zinc roof.

I am inclined to believe that, provided the surfaces of the roof and gutters were clean, there would be no danger of zinc pollution of the water, and that the immediate sources from which the zinc is derived are the small patches of zinc carbonate which are found in the gutter, and which I suspect would also be found scattered over the galvanised iron roof.

These patches of zinc carbonate are formed by the action of the decomposition products of organic matter which may have collected, and have remained lying in the gutters and on the roof.

I have, etc.,

(Sd.) P. J. BURGESS, M.A.,

Government Analyst, S.S.

GOVERNMENT ANALYST'S OFFICE,

Singapore, 12th April, 1901.

[COPY.]

PERAK MUSEUM,
Taiping, 5th March, 1901.

SIR,

I have the honour to inform you that, at the request of the Acting Resident-General, I have made an examination of the water from the "Box" with the following results:—

2. The sample of water was sent me by the Acting British Resident and was contained in four bottles, one from each of the four tanks.

3. The water was bright and clear without any sediment. On evaporation it became brownish and left a brown residue. This residue, which represented the total solids held in solution, weighed after drying on the water-bath at the rate of 1.338 grains per gallon of water.

4. It was most organic matter, but contained certain amount of iron, which I roughly estimated at 3/10ths of a grain per gallon.

5. The presence of zinc being indicated by qualitative tests its separation was effected and it was found to be equivalent to 0.2306 grain of metallic zinc per gallon of water.

6. I am not in a position to say whether drinking water containing this amount of zinc in solution, which only equals approximately one part in a quarter of a million, would be injurious or not, but doubtless Dr. Hamilton Wright would be able to give a definite opinion.

7. I have not seen the water supply at the "Box," so cannot say for certain what is the cause of the contamination of the water; but, speaking generally, it may be stated that zinc or galvanized iron covers to water tanks should not be used, as pure water, such as that which is condensed on a sheet of cold metal, rapidly corrodes zinc. A few minutes is sufficient to dull a polished surface of zinc and give it a coat of white oxide, and I have seen the sheet zinc which is used for roofing purposes eaten into holes in the space of three months by condensed water acting on its under surface.

I have, etc.,

(Sd.) L. WRAY, JR.,
Curator and State Geologist, Perak.

THE SECRETARY TO GOVERNMENT,
TAIPING.

The Perak Government Gazette.

PUBLISHED BY AUTHORITY.

No. 24.] TAIPING, FRIDAY, AUGUST 2, 1901. [Vol. XIV.

RAJA MANSUR,
for Clerk of Council.

No. 526.—The following Enactments were passed at a Meeting of the Council of State held on the 1st July, 1901:—

FEDERATED MALAY STATES.

STATE OF PERAK.

ENACTMENT No 5 OF 1901.

Seal of
Resident-General,
F.M.S.

W. H. TREACHER, C.M.G.

Acting Resident-General, F.M.S.

An Enactment to repeal and re-enact with an amendment the "Imperial Loans Enactment, 1900," being an Enactment to make provisions for borrowing the sum of £500,000 from the Imperial Treasury of Great Britain and Ireland, and for raising, appropriating and applying the loan, and for the due repayment of the same as provided by the "Colonial Loans Act, 1899," of the Imperial Parliament of Great Britain and Ireland.

[1st July, 1901.]

J. P. RODGER, C.M.G., *Acting British Resident.*

IT IS HEREBY enacted by His Highness the Sultan in Council as follows:—

1. In this Enactment unless the context otherwise requires—

Interpretation.

The expression "Treasury" means the Commissioners of His Majesty's Treasury;

The expression "Sultan" means the person for the time being administering the Government of the State of Perak;

The expression "Crown Agents" means the person or persons for the time being acting as Crown Agents for the Colonies in England.

2. (i). This Enactment may be cited as "The Imperial Loans Enactment, 1901," and shall come into force upon the publication thereof in the *Gazette*.

Short title, commencement and repeal.

(ii). Upon the coming into force of this Enactment the Enactment specified in the schedule hereto shall be repealed to the extent mentioned in the third column of such schedule.

3. The Sultan may in conjunction with the Sultans of Selangor and Pahang and the Yang di Pertuan and Chiefs of the Negri Sembilan, borrow from the Treasury on the joint and several security of the revenue of all the Federated Malay States a sum not exceeding £500,000, bearing interest from the date on which the loan is made at such rate as shall at the time of borrowing be in force for local loans in the United Kingdom, and repayable in 30 (thirty) years from that date by means of an annuity of principal and interest combined at such rate per annum for every £100 borrowed as may be necessary to pay off the whole of such principal and interest in the said number of years.

Sultan may borrow £500,000.

IMPERIAL LOANS.

Application
of loan.

4. The money to be borrowed under the authority of this Enactment shall be appropriated and applied to the construction and equipment of railways from Kuala Kubu to Tapah Road and from Ipoh to Taiping, and from Taiping to Prai and from Seremban to Kajang.

Security for
loan.

5. The principal money to be borrowed under this Enactment and the interest thereon are hereby charged upon, and shall be payable out of, the general revenue and assets of the State of Perak with priority over any charges thereon not existing at the time of such borrowing.

Payment of
instalments.

6. The Resident-General shall in each year remit to the Crown Agents out of the general revenues of the State the amount of the aforesaid annuity and shall make this remittance on such dates as will enable the Crown Agents to pay over the amount to the Treasury on the date on which it falls due.

Provided that the sum remitted as aforesaid shall be reduced by such an amount as shall be remitted for the aforesaid purpose by any of the other Federated Malay States.

Interest on
overdue
instalments.

7. In the event of any such payment not being made at the date on which it falls due, interest on such payment shall be charged and payable at the rate of interest payable under Section 3 of this Enactment.

Crown
Agents may
act for State.

8. The Crown Agents are hereby authorised to receive the money so borrowed from the Treasury and to give such an acknowledgment on behalf of the State for the same as the Treasury may require and as may not be inconsistent with the terms of this Enactment.

Balance may
be repaid
after five
years.

9. It shall be lawful for the Sultan with the consent of the Treasury at any time after the expiration of five years from the date on which any moneys shall have been advanced by the Treasury in respect of any loan under the provisions of this Enactment to repay to the Treasury the amount of such loan then outstanding on giving six months' notice of his intention to do so.

Effect of this
Enactment
upon Enact-
ment No. 3 of
1899.

10. If any loan shall be raised under the provisions of this Enactment the provisions of Enactment No. 3 of 1899 shall thereupon be deemed to be inoperative in respect of the amount of such loan, but if the Sultan shall at any time exercise his option under Section 9 hereof of repaying to the Treasury the then outstanding amount of any such loan, the provisions of that Enactment shall be deemed to revive and to be in force as from the date of such repayment: provided that nothing herein contained shall be deemed to invalidate anything duly done under the provisions of that Enactment prior to the raising of such loan.

THE SCHEDULE.

ENACTMENT REPEALED.

Number.	Short Title.	Extent of Repeal.
Enactment No. 3 of 1900 ...	Imperial Loans Enactment, 1900 ...	The whole.

FEDERATED MALAY STATES.

STATE OF PERAK.

ENACTMENT No. 6 OF 1901.

An Enactment to repeal and re-enact with amendments the "Extradition Enactment, 1900."

[1st July, 1901.]

R. S. F. WALKER, C.M.G., COL., *Acting British Resident.*

IT IS HEREBY enacted by His Highness the Sultan in Council as follows:—

Short title, commencement, repeal and interpretation.

1. (i). This Enactment may be cited as "The Extradition Enactment, 1901," and shall come into force upon the publication thereof in the *Gazette*.

(ii). Upon the coming into force of this Enactment, the Enactment specified in the First Schedule hereto shall be repealed to the extent mentioned in the third column of such schedule.

(iii). In this Enactment—

"The Federated Malay States" means the States of Perak, Selangor, Pahang and Negri Sembilan.

"Fugitive criminal" means any person accused or convicted of any offence committed either before or after the date of this Enactment, which, if committed in the State or within the jurisdiction of the State, would be one of the offences described in the Second Schedule to this Enactment, or of having abetted any such offence as aforesaid.

"Fugitive criminal of a State" means a person accused or convicted of any such offence as aforesaid, or of having abetted any such offence as aforesaid, within the jurisdiction of that State.

With reference to the Colony, "fugitive criminal" and "fugitive criminal of State" include any person accused or convicted of a breach of contract of service to be performed within the jurisdiction of the Colony, committed either before or after the date of this Enactment within the jurisdiction of the Colony, which, if it had been committed in the State, and the contract broken had been a contract to be performed in the State, would have been punishable under the law of the State with imprisonment or with fine, and with imprisonment in default of payment of such fine.

"Offence" includes any such breach of contract, as aforesaid, committed within the jurisdiction of the Colony.

"Charge" includes "conviction."

"The offence charged" includes the offence of which the fugitive criminal is alleged to have been convicted.

"Conviction" and "convicted" do not include or refer to a conviction which, under foreign law, is a conviction for contumacy, but the term "accused" includes a person convicted for contumacy.

No. 6 of 1901.

Dependencies,
etc., to be
deemed part
of Foreign State.

2. For the purpose of this Enactment every Dependency, and constituent part of a Foreign State shall be deemed to be within the jurisdiction of such Foreign State.

Procedure on
requisition to
Resident.

3. If requisition be made to the Resident by any Foreign State or by any person recognised by him as an authorised Minister or Officer, Consul or Vice-Consul of such State, for the surrender of a fugitive criminal of such State, who is or is suspected of being in any part of the State, the Resident may issue an order under his hand and seal to any Magistrate or Magistrates of the State, directing him or them or any of them to enquire into the truth of the charge.

Discretion of
Resident.

4. The Resident shall not be bound to comply with a requisition for the surrender of a fugitive criminal under this Enactment, but may, at his absolute discretion, either comply with any such requisition in accordance with the provisions of this Enactment with or without conditions, or refuse to comply therewith.

Contents of
order for
enquiry.

5. Every such order for enquiry shall signify that the requisition for surrender has been made, shall state the nature of the offence charged, the name or designation (if the name be not known), and any other description that may be thought necessary of the fugitive criminal, and shall require the Magistrate or Magistrates to whom it shall be directed, or any of them, to enquire into the truth of the charge, and proceed in pursuance of this Enactment.

Effect of
order for
enquiry.

6. The order for enquiry shall be sufficient proof of the requisition having been made, and a sufficient justification for all acts done in pursuance thereof, and upon production thereof to any Magistrate to whom it is directed, he shall have the same powers as if the offence charged had been committed within his jurisdiction.

Warrant on
production of
order for
enquiry.

7. If the evidence adduced shall be such as would, in the opinion of the Magistrate, have justified the apprehension of the fugitive criminal named or designated in the order, if the offence charged had been committed within his jurisdiction, he shall issue his warrant for the apprehension of the fugitive criminal.

Warrant
without pro-
duction of
order for
enquiry.

8. Any Magistrate of the State may issue his warrant for the apprehension of a fugitive criminal, without the production of any such order for enquiry as aforesaid on such information or complaint, and on such evidence, or after such proceedings as would, in his opinion, have justified the issue of such warrant, if the offence charged had been committed within his jurisdiction.

Provided that a Magistrate issuing a warrant under this Enactment without an order for enquiry shall forthwith send a report of the fact of such issue, together with the evidence and information or complaint, or certified copies thereof, to the Resident, who may, if he thinks fit, order the warrant to be cancelled, and the person apprehended on such warrant to be discharged.

Manner in
which war-
rant to be
issued.

9. Every warrant for the apprehension of a fugitive criminal issued under this Enactment shall be issued in the same manner as if the offence charged had been committed within the jurisdiction of the Magistrate issuing it and shall contain a memorandum stating that it is issued under this Enactment.

EXTRADITION.

10. A fugitive criminal apprehended on a warrant issued under this Enactment shall be forthwith brought before a Magistrate within whose jurisdiction he shall be apprehended, and such Magistrate shall, subject to the provisions of this Enactment, deal with the case in the same manner as if the fugitive criminal were charged with an offence committed within his jurisdiction and triable in the Court of the Senior Magistrate.

Manner in which case should be dealt with.

11. A fugitive criminal apprehended on a warrant issued under this Enactment without an order for enquiry shall be committed by the Magistrate before whom he is brought to some prison in the State for detention until an order shall be made with respect to him by the Resident either for enquiry or for his discharge: but such fugitive criminal shall be discharged by the said Magistrate, unless such Magistrate within such time as with reference to the circumstances of the case he deems reasonable, receives from the Resident an order for enquiry with respect to such fugitive criminal.

Procedure in case of fugitive criminal apprehended on warrant without order for enquiry.

Upon the receipt of such order for enquiry the Magistrate shall proceed in the same manner as if the order for enquiry had preceded the issue of the warrant for the apprehension of the fugitive criminal.

12. If a fugitive criminal shall, in pursuance of this Enactment, be brought before a Magistrate other than the Magistrate who issued the warrant for his apprehension, the depositions and documents upon which the warrant was issued, or copies thereof certified under the hand of the Magistrate by whom the warrant was issued, shall, upon the requisition of the Magistrate before whom the fugitive criminal shall be brought, be forwarded to such last-mentioned Magistrate.

Depositions and documents to be forwarded to Magistrate who hears the case.

13. Depositions, statements on oath, or affirmations taken in a Foreign State and copies of such original depositions or statements or affirmations and foreign certificates of, or judicial documents stating the fact of a conviction, may, if duly authenticated, be received in evidence in proceedings under this Enactment. Such depositions, statements, or affirmations, and copies thereof, and such certificates or judicial documents shall be deemed to be duly authenticated for the purposes of this Enactment, as follows:—

How depositions may be authenticated.

(a). If the depositions or statements or affirmations purport to be certified under the hand of a Judge, Magistrate, or Officer of the Foreign State where the same were taken to be the original depositions, statements, or affirmations, or to be true copies thereof, as the case may require;

(b). If the certificates or judicial documents purport to be certified by a Judge, Magistrate, or Officer of the Foreign State where the conviction took place; and

(c). If in every case the depositions, statements, affirmations, copies, certificates, and judicial documents (as the case may be) are authenticated by the oath of some witness, or by being sealed with the official seal of some Minister of State; and all Courts of Justice and Magistrates in the State shall take judicial notice of such official seal.

14. The Magistrate before whom a fugitive criminal accused of an offence shall be brought in pursuance of this Enactment shall, if such evidence is produced as would, according to the law of the State

How Magistrate shall deal with case.

No. 6 of 1901.

justify the trial of the fugitive criminal if the offence of which he is accused had been committed in the State, commit him to prison in the State, but otherwise shall order him to be discharged.

Case of fugitive criminal accused of breach of contract.

15. The Magistrate before whom a fugitive criminal of the Colony accused of any such breach of contract as aforesaid shall be brought in pursuance of this Enactment shall, if such evidence is produced as (subject to the provisions of this Enactment) would, according to the law of the State have justified the trial of the fugitive criminal if the breach of contract of which he is accused had been committed in the State, commit him to some prison in the State, but otherwise shall order him to be discharged.

Case of prisoner alleged to have been convicted.

16. The Magistrate before whom a fugitive criminal alleged to have been convicted of an offence is brought in pursuance of this Enactment shall, if such evidence is produced as subject to the provisions of this Enactment would, according to the law of the State, prove that the prisoner was so convicted, commit him to prison, but otherwise shall order him to be discharged.

Information to be given by Magistrate on committal.

17. Whenever a Magistrate commits a fugitive criminal to prison in pursuance of either the 14th, 15th or 16th Sections of this Enactment, he shall inform such fugitive criminal that he will not be surrendered until after the expiration of fifteen days, and that during such fifteen days he may appeal to the Senior Magistrate's Court.

Appeal to Senior Magistrate's Court.

18. Any person who is committed to prison under the 14th, 15th or 16th Sections of this Enactment may, within fifteen days from the date of such committal, appeal against such committal to the Senior Magistrate's Court and such Court shall, upon hearing such appeal, either affirm the order of committal or order the appellant to be discharged from prison, in which latter case no order shall be made for his surrender to the Foreign State from which the requisition for his surrender proceeded.

Report by Magistrate to Resident.

19. Every Magistrate who shall commit a fugitive criminal to prison under this Enactment shall forthwith report the result of his proceedings to the Resident, together with any remarks which he may deem it necessary or proper to make upon the case, and together with a copy of all depositions and documents used before him.

Order by Resident for surrender subject to certain provisions.

20. Upon receipt of a Magistrate's report of the committal of a fugitive criminal under the provisions of this Enactment, the Resident may, after the expiration of fifteen days from the date of committal, or after the affirmation of the order of committal by the Senior Magistrate, as the case may be, or after such further period as may be allowed in either case, by the Resident by warrant under his hand and seal, order the fugitive criminal to be surrendered to such person as may, in his opinion, be duly authorised to receive the fugitive criminal by the Foreign State from which the requisition for his surrender proceeded, and such fugitive criminal shall be surrendered accordingly.

Provided always, that no fugitive criminal shall be surrendered under this Enactment—

(a). If the offence in respect of which his surrender is demanded is of a political character, or if it is shewn to the satisfaction of the Resident that the requisition for his surrender has been made with a view to try or punish him for an offence of a political character; nor,

EXTRADITION.

(b). If he is a subject of a Foreign State other than that from which the requisition for his surrender proceeds; unless it is shewn, to the satisfaction of the Resident, that Treaty engagements exist between the Foreign State of which such fugitive criminal is a subject and the Foreign State from which the requisition for his surrender proceeds, which authorise the surrender of subjects of the former State to the Government of the latter State; nor,

(c). Unless provision is made by the law of the Foreign State from which the requisition for his surrender proceeds or by arrangement, that he shall not, until he has been restored to the State of Perak be detained or tried in such Foreign State for any offence committed before his surrender other than the offence in respect of which he is surrendered.

21. It shall be lawful for the person to whom a fugitive criminal shall be so ordered to be surrendered to receive, hold in custody, and convey within the jurisdiction of the Foreign State from which the requisition for his surrender came, such fugitive criminal, and if such fugitive criminal escapes out of the custody of such person it shall be lawful to retake him in the same manner as any person accused of any offence against the laws of the State may be retaken upon an escape from lawful custody.

Powers to receive, remove and retake fugitive criminal.

22. If any fugitive criminal committed to prison under this Enactment shall not be surrendered and conveyed out of the State within two calendar months after his committal, it shall be lawful for the Senior Magistrate's Court, upon application by or on behalf of the fugitive criminal, and upon proof that notice in writing of the application has been given to the Resident, not less than fourteen days before the hearing of the application, to order the fugitive criminal to be discharged out of custody, unless sufficient cause is shewn to the contrary.

Case of fugitive not surrendered and removed within two months.

23. For the purposes of this Enactment the Colonial Secretary of the Colony, the Resident Councillor of Penang and the Resident Councillor of Malacca shall be deemed to be Ministers of State.

Certain officers to be deemed to be Ministers of State.

24. The Resident may, from time to time, by notification in the *Gazette*, exclude any Foreign State from the provisions of this Enactment, and may in like manner revoke such exclusion.

Power to Resident to exclude certain Foreign States.

25. Nothing in this Enactment shall apply to the surrender of a fugitive criminal by the State to any other of the Federated Malay States.

Limitation of provisions of Enactment.

EXTRADITABLE OFFENCES.

Explanatory Note.—The terms in which the several offences are described below are not intended as definitions of such offences, but merely as indicating the class of offence referred to.

Murder and attempt to murder ;
 Culpable homicide not amounting to murder ;
 Causing grievous hurt ;
 Causing hurt, if the circumstances are such as to constitute an offence punishable with three years' imprisonment, or more ;
 Rape and attempt to commit rape ;
 Causing miscarriage ;
 Kidnapping ;
 Abduction ;
 Gang robbery ;
 Robbery ;
 Piracy by the law of nations ;
 Housebreaking and housebreaking by night ;
 Mischief by fire ;
 Mischief by injury to property if the circumstances are such as to constitute an offence punishable with three years' imprisonment, or more ;
 Extortion and attempt at extortion ;
 Theft ;
 Receiving stolen property ;
 Criminal breach of trust and misappropriation ;
 Cheating to induce delivery of property ;
 Forgery and uttering what is forged ;
 Counterfeiting or altering money and uttering counterfeited or altered money ;
 Giving, fabricating or using false evidence.

FEDERATED MALAY STATES.

STATE OF PERAK.

ENACTMENT NO. 7 OF 1901.

An Enactment to enable the Resident to constitute a Farm or Farms of the exclusive right to issue licences to collect Jungle Produce, and to provide for the licensing of buyers of Jungle Produce.

[1st July, 1901.]

R. S. F. WALKER, C.M.G., COL., *Acting British Resident.*

IT IS HEREBY enacted by His Highness the Sultan in Council as follows:—

Short title
and com-
mencement.

1. This Enactment may be cited as "The Jungle Produce Enactment, 1901," and shall come into force on the expiration of three months after the publication thereof in the *Gazette*.

JUNGLE PRODUCE.

2. Upon the coming into force of this Enactment, the Enactment specified in the First Schedule hereto shall be repealed to the extent mentioned in the third column of such schedule. Repeal.

3. It shall be lawful for the Resident, by notification in the *Gazette*, to constitute a farm or farms of the exclusive right to issue licences to collect in the State any or all of the kinds of jungle produce specified in the Second Schedule hereto, and from time to time to vest the said farm or farms in such person or persons as he may licence as farmer or farmers either by private or public sale of such farm or farms: Provided that nothing herein contained shall be deemed to authorise the infringement of any of the customary rights of any Malay land-holder to take jungle produce within prescribed limits for his own use, or for the common use of the land-holders of his mukim. Power to Resident to constitute farms.

4. Any farm constituted under the provisions of the last preceding section may be for the whole State or may be limited to any particular district or districts of the State. Extent of farms.

5. It shall be lawful for the Resident, with the approval of the Resident-General, to make rules not inconsistent with the provisions of this Enactment for the following purposes or any of them—that is to say:— Rules.

(a). For prescribing the form of contract to be entered into by the farmer with the Government;

(b). For prescribing the nature of the security (if any) to be given by the farmer;

(c). For securing the due payment of the rent or revenue for the farm;

(d). For the disposal of fines and forfeitures received under this Enactment or under any rules made thereunder;

(e). For the management of the farm, the appointment and control of revenue officers, and the protection of the farmer's rights and privileges;

(f). For fixing the penalties for breaches of any rules made under this section;

(g). For any matters, whether similar or not to those above mentioned, as to which it may, in the opinion of the Resident, be necessary or desirable to make rules, in order fully to carry out the provisions of Sections 3 and 4 of this Enactment.

6. (i). Any person infringing or attempting to infringe any of the rights and privileges conferred on the farmer by the Resident under this Enactment shall be liable, on conviction, to fine not exceeding \$200, or to imprisonment of either description for any period not exceeding three months, or to both; and for a second or any subsequent offence to fine not exceeding \$500, or to imprisonment of either description for any period not exceeding six months, or to both. Penalties.

(ii). Any person offending against the provisions of any rules made under Section 5 shall, unless any penalty is specially provided for such offence by the said rules, be liable, on conviction, to fine which may amount to \$50, or to imprisonment of either description for any period not exceeding one month, or to both.

No. 7 of 1901.

(iii). Any articles in respect of which any offence shall have been committed against the provisions of this section or against the provisions of any rules made under Section 5 may, by order of a Magistrate, be forfeited.

Revenue
officers.

7. Every revenue officer appointed under the provisions of rules made under this Enactment shall be deemed to be a public servant within the meaning of the Penal Code.

Provisions as to
licensing buyers
of jungle
produce.

8. (i). After the commencement of this Enactment it shall not be lawful for any person, unless duly licensed in that behalf—

(a). To buy any of the kinds of jungle produce specified in the Second Schedule hereto from any collector thereof or dealer therein otherwise than in small quantities for the use of himself and his family ;

(b). To keep any house, store, shop, ship, boat, vessel, or place, for the purpose of buying any of the kinds of jungle produce specified in the Second Schedule hereto, or of storing such jungle produce therein.

(ii). No person licensed under the provisions of this section shall buy or receive for storing any of the kinds of jungle produce specified in the Second Schedule hereto from any person other than the holder of a licence to collect jungle produce issued in accordance with rules made under the Land Enactment, 1897.

Form and
conditions of
licence.

9. A licence under Section 8 may be issued by an officer to be appointed for that purpose by the Resident by notification in the *Gazette* (which officer is hereinafter called "the Collector"), upon application and payment of a fee of \$1, and shall be subject to the following conditions:—

(a). That the licence shall expire on the 31st day of December of the year in respect of which it is issued ;

(b). That the licence shall be valid only for the place and purposes specified therein ;

(c). That the licensee shall purchase only from persons holding licences to collect ;

Powers of
Collector as to
licences.

10. (i). It shall be lawful for the Collector—

(a). To refuse to issue or renew a licence ;

(b). To cancel any licence, at any time, upon conviction of the licensee for any offence under this Enactment ; or on any charge involving fraudulent dealing ; or for infringement of any of the conditions under which the licence is issued.

(ii). Any person dissatisfied with anything done by the Collector under this section may appeal to the Resident, who may, at his discretion and without reasons stated, confirm, vary, or reverse the action of the Collector.

Duties of
licensee.

11. Every person licensed under Section 8, Sub-section (i) (a) shall carry his licence with him wherever he goes and produce the same whenever lawfully required, and every person licensed under Section 8, Sub-section (i) (b) shall—

JUNGLE PRODUCE.

(i). Keep his licence posted in a conspicuous position in the house, store, shop, ship, boat, vessel or place licensed.

(ii). Keep books of account, in which shall be daily entered the following particulars concerning all purchases or receipts of jungle produce—namely,

(a). The date of purchase or receipt.

(b). The seller's or depositor's name and address and the number of his licence.

(c). The nature and quantity of jungle produce purchased or received for storing.

(d). The price paid (if any).

(iii). Allow at all times the inspection of such books, and of the house, store, shop, ship, boat, vessel or place licensed, by the Collector, or a Magistrate, or any police officer not below the rank of Inspector

12. Any person who shall commit any offence against the provisions of Section 8 or Section 11, or who shall make default in complying with any obligation imposed on him by either of the said sections, shall be liable, on conviction, to fine not exceeding \$250. Penalty.

13. (i). The Resident, with the approval of the Resident-General, may make such rules, not inconsistent with the provisions of this Enactment, as he may deem necessary for providing forms of licence to be used under this Enactment and for further securing the effectual control of the sale and purchase of any of the kinds of jungle produce specified in the Second Schedule hereto, and the prevention of fraud in connection therewith, and such rules shall, upon publication in the *Gazette*, have the force of law. Rules.

(ii). Any person who shall commit any breach of the provisions of any such rule shall be liable, on conviction, to fine not exceeding \$50, and when the breach is a continuing one, to a further fine of \$5 for every day during which such breach shall continue.

14. It shall be lawful for all police officers, and for all revenue officers, penghulus and forest rangers, within their respective jurisdictions, to arrest without warrant and take before a Magistrate any person whom they shall find committing any offence punishable under this Enactment. Arrest without warrant.

15. (i). No action shall be brought against any person for anything done or *bonâ fide* intended to be done in the exercise or supposed exercise of the powers given by this Enactment, or by any rules made thereunder— Protection of officers.

(a). Without giving to such person one month's previous notice, in writing, of the intended action, and of the cause thereof;

(b). After the expiration of three months from the date of the accrual of the cause of action;

(c). After tender of sufficient amends.

No. 7 OF 1901.

(ii). In every action so brought it shall be expressly alleged that the defendant acted either maliciously or negligently and without reasonable or probable cause, and if, at the trial, the plaintiff shall fail to prove such allegation, judgment shall be given for the defendant.

(iii). Though judgment shall be given for the plaintiff in any such action, such plaintiff shall not have costs against the defendant unless the Magistrate before whom the action is tried shall certify his approbation of the action.

POWERS CONFERRED ON THE PROTECTOR OF CHINESE
UNDER "THE SECRETARY FOR CHINESE AFFAIRS
ENACTMENT, 1899."

No. 540.—Under Section 32 of the Secretary for Chinese Affairs Enactment, 1899, the Secretary for Chinese Affairs, Federated Malay States, with the sanction of the Resident-General, Federated Malay States, delegates his power as follows to Mr. W. Cowan, Protector of Chinese, Perak :—

"Power to take action under Section 4, Sub-section (a) and Sub-section (b) in cases of the banishment of—

- (a) Headmen of Secret and Unlawful Societies;
- (b) Habitual Criminals from the State gaols;
- (c) Dangerous Criminals."

The Secretary for Chinese Affairs may, when present in the State, exercise the power delegated in manner aforesaid.

It is hereby notified that Perak Government Notification No. 318 of 25th of May, 1900, is cancelled and the above Notification is substituted instead.

28th July, 1901.

DRESS AND ACCOUTREMENTS FEDERATED MALAY
STATES POLICE FORCE.

No. 541.—With reference to the "Regulations for the Dress and Accoutrements of the Officers, Non-Commissioned Officers and men of the Federated Malay States Police Forces" published in the *Gazette* of the 27th January, 1899, it is hereby notified that under the heading "Accoutrements" the words "Assistant Commissioner," after the words "Officers above rank of," should be deleted and the words "Chief Inspector" substituted therefor.

31st July, 1901.

EXEMPTION UNDER THE "SOCIETIES ENACTMENT,
NO. 9 OF 1900."

No. 542.—It is hereby notified that the "Taiping United Club" is, by order of the Acting Resident, exempted from registration under Section 2, Sub-section (c), of the Societies Enactment, 1900.

27th July, 1901.

No. 543.—The rate of exchange for the adjustment of accounts with the Crown Agents has been fixed at 1s. 11½d. to the dollar for the third quarter of the current year.

27th July, 1901.

NOTIFICATIONS

UNDER ORDER IN COUNCIL NO. 2 OF 1896.

No. 544.—It is hereby notified that under the provisions of Order in Council No. 2 of 1896, intituled "Inventions Order in Council, 1896," the specification of Mr. W. R. Richardson of Ipoh, Perak, of his invention for improvements in apparatus for disintegrating and washing gravel or any material bearing tin-ore except uncrushed rock, has been accepted.

The petition and specification are open for inspection at the Perak Museum, Taiping.

The petition for a grant of exclusive privilege of this invention will be considered by His Highness the Sultan in Council, at Kuala Kangsar, at 11 a.m. on Monday the 23rd September, 1901, and any person interested in opposing the prayer of the petition may serve on the Secretary to the Resident a notice, on a paper bearing a stamp of the value of \$1, of his intention to oppose, and every person so serving a notice will be heard by His Highness the Sultan in Council in opposition to the prayer of the said petition at the place and time hereinbefore mentioned.

17th July, 1901.

No. 545.—It is hereby notified that under the provisions of Order in Council No. 2 of 1896, intituled "Inventions Order in Council, 1896," the specification of Mr. E. M. Bradford, of his invention for a process for the recovery of tin from slag hardhead or other bye-products of the smelting of tin-ore or manufacture of tin, has been accepted.

The petition and specification are open for inspection at the Perak Museum, Taiping.

The petition for a grant of exclusive privilege of this invention will be considered by His Highness the Sultan in Council, at Kuala Kangsar, at 11 a.m. on Monday the 23rd September, 1901, and any person interested in opposing the prayer of the petition may serve on the Secretary to the Resident a notice, on a paper bearing a stamp of the value of \$1, of his intention to oppose, and any person so serving a notice will be heard by His Highness the Sultan in Council in opposition to the prayer of the said petition at the place and time hereinbefore mentioned.

23rd July, 1901.

FOREST RESERVES.

No. 503.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims the parcels of land situated at Parit, described in the schedule hereto, as Forest Reserves, to be maintained and controlled by the Forest Department.

SCHEDULE.

PARIT RESERVE.

Boundaries.—North: A $\frac{1}{4}$ of a mile south of the cart-road from Parit to Siputeh, from Kampong Parit to a bridge near the 4th mile, marked with Forest Reserve iron boundary posts. East: From a bridge near the 4th mile on the Siputeh and Parit road, where the Kuala Kangsar and Kinta District boundary crosses, following the district boundary as follows, due south for about 4 miles; thence due east for about $1\frac{1}{2}$ miles to the south-western corner of (Kinta) Plan No. 5,302; thence south to the north corner of Plan No. 7,081; thence along the western and southern boundaries of Plan Nos. 7,081, 7,082 and 7,083; thence along the Sungei Anak Ayer Buah to the junction of that stream with the Sungei Tumboh; thence along the Sungei Tumboh, south, to the Lower Perak boundary, *vide* Notification No. 896 of 1900. South: The district boundary between Lower Perak and Kuala Kangsar from the last mentioned point to the boundary pillar on the east bank of the Perak river. *vide* Notification No. 421 of 1900. West: The eastern boundary of all alienated lands abutting on the Perak river, and excluding all alienated lands near these, from the boundary pillar above-mentioned, north, as far as Kampong Parit, the point of commencement.

16th July, 1901.

TENDERS FOR REVENUE FARMS.

No. 466.—Tenders will be received up to noon on Friday, the 13th September, 1901, for renting the following Farms for the period of one year, commencing from the 1st day of January, 1902.

A.—THE UPPER PERAK GENERAL FARMS.

(Including the New Territory.)

The Farmer will be required to import monthly into Janing not less than 280 gantangs of rice, and to sell the same at a price not exceeding \$7 per bag.

B.—THE LOWER PERAK ATAP FARM.

Tenders for renting the Lower Perak Atap Farm are invited.

CONDITIONS.

1.—Sealed tenders, which must be marked on the outside with the name of the Farm tendered for, should be addressed to the Secretary to the Resident, Taiping, and may be for one or both of the Farms.

2.—The Government does not bind itself to accept the highest or any tender, and reserves to itself the right of making any arrangement it may deem advisable in regard to the letting of the Farms.

3.—Security will be required in the shape of a cash deposit equal to three months' rent of the Farm, or a mortgage of approved land or house property to the value of not less than four months' rent.

4.—Each tender must specify the full names, residences and occupations of the persons tendering. In the case of Firms, the name and address of each partner and the name and chop of the firm *must be specified*.

Copies of the regulations which govern the Farms can be obtained from the Secretary to the High Commissioner, Singapore; the Perak Government Agent, Penang; the District Magistrates, and the Secretary to the Resident, Taiping, to the latter of whom application should be made should any further information be required.

24th June, 1901.

NOTIFICATION UNDER SECTION 72 OF THE LAND ENACTMENT, 1897.

ACQUISITION OF LAND FOR PUBLIC PURPOSES.

No. 546.—Whereas it appears to the Acting Resident that the land described below, situated at Tapah Road, in the mukim of Batang Padang, in the District of Batang Padang, is likely to be required for the public purpose of a Railway Reserve.

It is hereby notified that the Resident Engineer for Railways, and any officers or workmen duly employed under him, are authorised to enter upon and survey and take levels of the above mentioned land proposed to be taken, and to mark such levels and boundaries by placing marks and cutting trenches, and where otherwise the survey cannot be completed, the levels taken, or the boundaries or line of the work marked, to cut down and clear away any standing crop, fence or jungle.

SCHEDULE.

Nature of Title—Agricultural Application. *Title No.*—3. *Survey No.*—950. *Name of Lessees or Applicants*—G. C. Spica. *Area*—29 acres, 3 roods, 10 poles. *Mukim*—Batang Padang.

This Notification is made under Section 72 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 27th day of July, 1901.

D. G. CAMPBELL,
Acting Secretary to Resident.

LAND OFFICE NOTICES.

LARUT.

No. 551.—Application having been made to the Collector of Land Revenue, Larut at Taiping, by Muhammad Khan bin Jabar Khan of Kota, for a document of title for land situated at Madersah Road, in the township of Taiping, on the ground that Muhammad Khan bin Jabar Khan is the registered owner thereof, and that the original Town Agreement No. 874 has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the document of title applied for will, subject to the provisions of the said Section 13, be granted.

2nd August, 1901.

No. 514.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Wan Muhammad Ali bin Wan Soh, of Bukit Gantang, for a document of title for land situated at Kubu, in the mukim of Bukit Gantang, on the ground that Wan Muhammad Ali bin Wan Soh is the registered owner thereof, and that the original Extract No. 45 from the Mukim Register has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application, the Extract from Mukim Register applied for will, subject to the provisions of the said Section 13, be granted.

GEORGE MAXWELL,

19th July, 1901.

Collector of Land Revenue.

MATANG.

No. 408.—Application having been made to the Collector of Land Revenue at Matang, by Leby Muhammad Arsat bin Long Panji and Che Selamah binti Ain of Simpang, for a new document of title for land situated at Simpang, in the district of Matang, on the ground that Leby Muhammad Arsat bin Long Panji and Che Selamah binti Ain are the registered owners thereof, and that the original Agreement for Agricultural Lease No. 564 has been lost :

No. 409.—Application having been made to the Collector of Land Revenue at Matang by Pungat binti Garang of Ayar Terojeng, Sungei Tinggi, for a new document of title for land situated at Sungei Tinggi, in the district of Matang, on the ground that Pungat binti Garang is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 887 has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

C. S. ALEXANDER,

21st June, 1901.

Acting Collector of Land Revenue.

KUALA KANGSAR.

No. 473.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Halimah binti Ngah Abdulrahman, for a new document of title for a piece of land situated at Gapis, in the mukim of Kampong Buaia, on the ground that Halimah binti Ngah Abdulrahman is the registered owner thereof, and that the original extract from the mukim Register Entry No. 716 has been lost :

No. 474.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Miur Neyope bin Toh Ismail, for a new document of title for a piece of land situated at Bota, in the mukim of Bota, on the ground that Miur Neyope bin Toh Ismail is the registered owner thereof, and that the original Permit No. 7,448/86, whereby the land was demised to him, has been lost :

No. 475.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Itam Abu bin Haji Muhammad, for new documents of title for two pieces of land situated at Plang, in the mukim of Pulau Kamiri, on the ground that Itam Abu bin Haji Muhammad is the registered owner thereof, and that the original Permits Nos. 450/88 and 451/88, whereby the lands were demised to him, have been lost :

No. 476.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Usoh bin Syed Ahmat, for new documents of title for two pieces of land situated at Plus, in the mukim of Pulau Kamiri, on the ground that Syed Usoh bin Syed Ahmat is the registered owner thereof, and that the original Permits Nos. 5,113/86 and 5,120/86, whereby the lands were demised to him, have been lost :

No. 477.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Ko Kuay of Kuala Kangsar, for the issue of a Mining Certificate No. 136, on the ground that the said Ko Kuay is the registered owner of Mining Certificate No. 136, and that the original Mining Certificate No. 136 has been lost :

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections, be granted.

F. ROBERTSON,

5th July, 1901.

Acting Collector of Land Revenue.

UPPER PERAK.

No. 370.—Take notice that whereas you have abandoned the land described hereunder, in the mukim of Lenggong, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bona fide* commencement to build on it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

H. BERKELEY,
Collector of Land Revenue.

LOWER PERAK.

No. 478.—Application having been made to the Collector of Land Revenue, at Teluk Anson, by Archibald Alexander Swan of Singapore, for a new document of title for land, situated at Old Rifle Range Road, in the Durien Sabatang mukim of Lower Perak district, on the ground that Archibald Alexander Swan is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 4,889 has been lost:

No. 479.—Application having been made to the Collector of Land Revenue, at Teluk Anson, by Misah binti Shaik Ahmad of Penang, attorney for Mahbrok bin Abdullah, for new documents of title for land, situated at Syed Abu Bakar Road, in the Durien Sabatang

mukim of Lower Perak district, on the ground that Mahbrok bin Abdullah is the registered owner thereof, and that the original Agreement for Agricultural Lease Nos. 4,986 and 5,204 have been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

5th July, 1901.

ED. J. BREWSTER,
District Magistrate.

No. 374.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder, in the mukim of Teluk Bharu, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such lands, or unless you enter or re-enter into occupation of such lands by making a *bonâ fide* commencement to cultivate it, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 7th day of June, 1901.

Sungkai.	Agricultural Application.									

R. CLAYTON,

Acting Collector of Land Revenue.

KINTA.

No. 515.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Chan Seng Wun, executor of the estate of the late Chan Chew Fun, for two new Mining Leases of land situated in the mukim of Sungei Raia, of the Kinta District, on the ground that Chan Chew Fun is the registered owner thereof, and that the Original Mining Lease Nos. 2,325 and 2,326 have been lost:

19th July, 1901.

No. 481.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Lung Myeok Tez, of Chumor, for a new title to land situated at Lalang

Jehut, of the Kinta District, on the ground that the said Lung Myeok Tez is the registered owner thereof, and that the original agreement for Town Lease No. 1,320 has been lost:

No. 482.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Douglas James Berwick, of Gopeng, for a new title to land situated in the mukim of Kampar, of the Kinta District, on the ground that the said Douglas James Berwick is the registered owner thereof, and that the original agreement for Agricultural Lease No. 2,302 has been lost:

No. 483.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Li Fon Yin and Lye Piang Seng, of Lahat, for a Mining Lease of land situated in the mukim of Ulu Kinta, of the Kinta District, on the ground that the said Li Fon Yin and Lye Piang Seng are the registered owners thereof, and that the original agreement for Mining Lease No. 308 has been lost: .

5th July, 1901.

No. 341.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Luk Weng Cheong of Kampar, for a new Mining Lease of land situated in the Kampar mukim, of the Kinta District, on the ground that the said Luk Wong Cheong is the registered owner thereof, and that the Original Mining Lease No. 671 has been lost:

No. 342.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Selaman bin Pandak Akat of Batu Gajah, for a Mining Lease of land situated in the Sungei Trap mukim, of the Kinta District, on the ground that the said Selaman bin Pandak Akat is the registered owner thereof, and that the Original Agreement for Mining Lease No. 313 has been lost:

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Government Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections be granted.

24th May, 1901.

F. BELFIELD,
Collector of Land Revenue.

No. 553.—SALE OF LANDS FOR RECOVERY OF RENTS.—Notice is hereby given that the lands described hereunder will be offered for sale by Public Auction at 10 a.m. on Monday, the 19th August, 1901, at the Land Office, Batu Gajah, for the recovery of arrears of rent and costs:—

27th July, 1901.

D. P. HOPKINS,
for Collector of Land Revenue.

ADMINISTRATION NOTICES.

No. 517.—Notice is hereby given that an application has this day been made to the Court of First Class Magistrate, Kinta, holden at Batu Gajah, for Letters of Administration to all and singular the goods and chattels, rights, credits and effects which were of Jaffar bin Haji

Abdul Raof, late of Kuala Depang, in the district of Kinta, deceased, to be granted to Ng Sin on the ground that the applicant is the creditor of the said deceased :

Unless within one month from the date of publication of the above notice in the *Gazette* sufficient cause to the contrary be shewn to this Court, the letters applied for will be granted.

19th July, 1901.

CECIL WRAY,
District Magistrate, Kinta.

REGISTRATION OFFICE NOTICES.

No. 518.—Application having been made to the Registrar of Titles, South, at Batu Gajah, by Archibald Alexander Swan of Singapore, for five provisional certificates of title for land situated in the township of Teluk Anson, of the Lower Perak district, on the ground that the said Archibald Alexander Swan is the registered owner thereof, and that the original Town Lease Nos. 235, 236, 237, 312 and 313 have been lost :

No. 519.—Application having been made to the Registrar of Titles, Perak, South, at Batu Gajah, by Lena Singh and Lab Singh, for a provisional certificate of title for land situated in the mukim of Sungei Trap, of the Kinta district, on the ground that Lena Singh, son of Jaint Singh, and Lab Singh, son of Khan Singh, are the registered owners thereof, and that the original Agricultural Lease No. 612 has been lost :

In accordance with the provisions of Section 81 of the Registration of Titles Enactment, 1897, notice is hereby given that unless within one month from the date of publication of these notices, good cause be shewn to the Registrar of Titles, South, for refusing these applications the provisional certificates applied for will, subject to the provisions of the said Section 81, be granted.

19th July, 1901.

F. BELFIELD,
Registrar of Titles, South.

NOTICES UNDER SUCCESSION DUTIES AMENDMENT ORDER IN COUNCIL, No. 3 OF 1893.

MATANG.

No. 520.—Application having been made to the undersigned by Anjang bin Samat, for an order declaring the applicant to be entitled to a piece of land described in Mukim Register No. 274, situated in the mukim of Jebong, district of Matang, and registered in the name of Bahaudin bin Basoh, deceased, on the ground that the applicant is the lawful wife of the said deceased, and that there is no other claimant :

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, as amended by Order in Council No. 12 of 1894, notice is hereby given that unless within one month from the date of publication of this notice in the *Gazette*, good cause be shewn to the undersigned, for refusing the above application, the orders applied for will be granted and the title transferred to the names of the respective claimants.

19th July, 1901.

A. L. KNAGGS,
District Magistrate, Matang.

KINTA.

No. 521.—Application having been made to the undersigned by Tay Lap Noe, for an order declaring the applicant to be entitled to one-fourth share in a piece of land, described in Agreement for Mining Lease No. 684, situated in the mukim of Sungei Trap, district of Kinta, and registered in the name of Tan Fuk Long, deceased, on the ground that the applicant is the mother of the said deceased, and that there is no other claimant :

No. 522.—Application having been made to the undersigned by Chew Koh Seh, for an order declaring the applicant to be entitled to a piece of land, described in Town Lease No. 304, situated at Gopeng, district of Kinta, and registered in the name of Chew Seng Hin, deceased, on the ground that the applicant is the father of the said deceased, and that there is no other claimant:

No. 523.—Application having been made to the undersigned by Sikin binti Yahaya, for an order declaring the applicant to be entitled to a piece of land, described in Agricultural Lease No. 2,276, situated in the mukim of Sungei Trap, district of Kinta, and registered in the name of Hawa binti Dorahman, deceased, on the ground that the applicant is the daughter of the said deceased and that there is no other claimant:

No. 524.—Application having been made to the undersigned by Ahmad bin Uda Lahab, for an order declaring the applicant to be entitled to a piece of land, described in Mining Lease No. 1,517, and a piece of land described in Agricultural Lease No. 2,460, both situated in the mukim of Ulu Kinta, district of Kinta, and registered in the name of Uda Lahab bin Jemadin, deceased, on the ground that the applicant is the son of the said deceased, and that there is no other claimant:

No. 525.—Application having been made to the undersigned by Alang Kulah, Piaâh and Teha, for an order declaring the applicants to be entitled to a piece of land, described in Agreement for Agricultural Lease No. 1,942, half share of land, described in Agricultural Lease No. 1,122, and one-fifth share of land, described in Agricultural Lease No. 1,970, all situated in the mukim of Kampar, district of Kinta, and registered in the name of Prang bin Taib, *alias* Ngah Prang bin Taib, deceased, on the ground that the applicants are the son and daughters of the said deceased, and that there are no other claimants:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the undersigned for refusing the above applications, the orders applied for will be granted, and the titles transferred to the names of the respective claimants.

19th July, 1901.

CECIL WRAY,
District Magistrate, Kinta.

SELAMA.

No. 554.—Application having been made to the undersigned by Seolai bin Haji Mat Ali, for an order declaring the applicant to be entitled to two pieces of land described in Mukim Register Nos. 94 and 74, situated in the mukim of Kampong Selama, district of Selama, and registered in the name of Haji Mat Ali, deceased, on the ground that the applicant is the son of the said deceased, and that there is no other claimant:

No. 555.—Application having been made to the undersigned by Mat Aris bin Saleh, for an order declaring the applicant to be entitled to a piece of land described in Old Application No. 63, situated in the mukim of Kampong Selama, district of Selama, and registered in the name of Lebei Alang bin Long Maccan, deceased, on the ground that the applicant is the great-grandson of the said deceased, and that there is no other claimant:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the undersigned for refusing the above applications, the orders applied for will be granted and the titles transferred to the names of the respective claimants.

2nd August, 1901.

B. W. ELLES,
Acting Assistant District Magistrate.

C. R. HANSON.
Resident Engineer for Railways.

TAIPING, 16th July, 1901.

The
Perak Government Gazette.

PUBLISHED BY AUTHORITY.

No. 25.] TAIPING, FRIDAY, AUGUST 16, 1901. [VOL. XIV.

FEDERAL.

APPOINTMENT.

Mr. George Frederick Neal has been appointed Assistant Armourer, Malay States Guides, with effect from the 7th June, 1901.

LEAVE.

Lieutenant Percy Leigh Ingpen, Wing Officer, Malay States Guides, has been granted one month and twenty-eight days' vacation leave, with effect from the 1st August, 1901, to be followed by retirement from the service of the Federated Malay States.

THE following Notifications are, by Command of the Acting Resident, published for general information.

D. G. CAMPBELL,
Acting Secretary to Resident.

APPOINTMENTS.

No. 556.—Mr. Frederick Theodore Velge to be a Settlement Officer, with effect from the 24th July, 1901.

No. 557.—Mr. Lewis Chalmers Mackay to be Locomotive Foreman, Federated Malay States Railways, with effect from the 21st June, 1901.

Mr. Mackay reported his arrival on the 29th July, 1901.

No. 558.—Mr. Harold Edward Byrne to be a Surveyor, Trigonometrical Survey Department, with effect from the 27th June, 1901.

Mr. Byrne reported his arrival on the 8th July, 1901.

LEAVE.

No. 559.—The leave of absence granted to Mr. Edward Charles John Tranchell, Magistrate, Larut, has been extended, with half salary, for three months, from the 9th October, 1901.

No. 560.—The leave of absence granted to Dr. Martensz James Wright, State Surgeon, has been extended, with half salary, from the 20th August, 1901, to the 6th October, 1901.

No. 561.—Dr. Henry Alfred Haviland, District Surgeon, Krian, reported his return from leave of absence and resumed duties on the 12th August, 1901.

No. 562.—Mr. Stuart Edward Williams, Government Printer, reported his return from leave of absence and resumed duties on the 1st August, 1901.

RESIGNATION.

No. 563.—The resignation of Mr. Charles Edward Paterson, Bridge Erector, Perak State Railways, has been accepted by Government, with effect from the 31st August, 1901.

ERRATUM.

No. 564.—With reference to Notification No. 452 of the 5th July, 1901, Mr. Joseph Barker's appointment as First Class Inspector of Police, should date from the 1st instead of the 11th June, 1901.

6th August, 1901.

ORDER MADE BY HIS HIGHNESS THE SULTAN UNDER THE "BANISHMENT ENACTMENT, 1900."

No. 565.—Whereas it appears to His Highness the Sultan that the removal from the State of Perak of the persons enumerated in the schedule hereto is necessary for the public safety and welfare:

It is hereby ordered by His Highness the Sultan, with the advice and consent of the Acting Resident, that the said persons so enumerated shall be, and they hereby are, banished from the State, for the period of their natural lives.

SCHEDULE.

In Hoat, Tan A Lok, Li Cheng, Li Sun, Pong Seong, Low Chan.

12th August, 1901.

AMENDMENTS TO CLERICAL SERVICE RULES.

No. 566.—By direction of the Acting Resident-General, the following amendments are made to the "Rules for the Clerical Service," issued under date 25th May, 1901, and published as a supplement to the *Gazette* of 7th June, 1901:—

Paragraph 2, line 3.—After "Standard" omit "VI or."

Line 9.—After "languages" add "Preference will, when possible, be given to boys who have remained at school for at least two years after passing Standard VII."

Paragraph 8, line 3.—For "\$900" substitute "\$1,200."

12th August, 1901.

LOTTERIES.

No. 567.—Notification made by the Resident under the "Lotteries Order in Council, 1891," and published in the *Gazette* of the 16th day of August, 1901.

By virtue of the powers conferred upon him by Section 1 of the "Lotteries Order in Council, 1891," the Resident hereby orders that—subject to any rights which may from time to time be vested in the holder of the Gambling Farm, under the "Constitution of Revenue Farms Order in Council, 1891,"—all public lotteries shall be prohibited within the State as from the first day of September, 1901.

13th August, 1901.

EXEMPTION UNDER THE "SOCIETIES ENACTMENT,
NO. 9 OF 1900."

No. 568.—It is hereby notified that the Rhilman Football Club of Bukit Chandan is, by order of the Acting Resident, exempted from registration under Section 2, Sub-section (c), of the Societies Enactment, 1900.

3rd August, 1901.

TENDERS FOR REVENUE FARMS.

No. 466.—Tenders will be received up to noon on Friday, the 13th September, 1901, for renting the following Farms for the period of one year, commencing from the 1st day of January, 1902.

A.—THE UPPER PERAK GENERAL FARMS.

(Including the New Territory.)

The Farmer will be required to import monthly into Janing not less than 280 gantangs of rice, and to sell the same at a price not exceeding \$7 per bag.

B.—THE LOWER PERAK ATAP FARM.

Tenders for renting the Lower Perak Atap Farm are invited.

CONDITIONS.

1.—Sealed tenders, which must be marked on the outside with the name of the Farm tendered for, should be addressed to the Secretary to the Resident, Taiping, and may be for one or both of the Farms.

2.—The Government does not bind itself to accept the highest or any tender, and reserves to itself the right of making any arrangement it may deem advisable in regard to the letting of the Farms.

3.—Security will be required in the shape of a cash deposit equal to three months' rent of the Farm, or a mortgage of approved land or house property to the value of not less than four months' rent.

4.—Each tender must specify the full names, residences and occupations of the persons tendering. In the case of Firms, the name and address of each partner and the name and chop of the firm *must be specified*.

Copies of the regulations which govern the Farms can be obtained from the Secretary to the High Commissioner, Singapore; the Perak Government Agent, Penang; the District Magistrates, and the Secretary to the Resident, Taiping, to the latter of whom application should be made should any further information be required.

24th June, 1901.

NOTIFICATION UNDER SECTION 6 OF THE LAND ENACTMENT, 1897.

RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 569.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims that parcel of land situated at Waterfall Road, in the mukim of Tupai, described in the schedule hereto, and delineated upon Revenue Survey Plan No. 16-14, deposited in the office of the Superintendent of Revenue Surveys, to be a reserve for religious purposes, to be maintained by the Chetty community of Taiping.

SCHEDULE.

District—Larut. *Mukim*—Kamunting. *Plan No.*—16-14. *Lot No.*—158. *Area*—1 acre and 32 poles. *Boundaries*—North, Waterfall Road; East, Lot No. 131; South, Forest Reserve; West, State Land.

This Notification is made under Section 6 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 5th day of August, 1901.

D. G. CAMPBELL,
Acting Secretary to Resident.

NOTIFICATION UNDER SECTION 72 OF THE LAND ENACTMENT, 1897.

ACQUISITION OF LAND FOR PUBLIC PURPOSES.

No. 546.—Whereas it appears to the Acting Resident that the land described below, situated at Tapah Road, in the mukim of Batang Padang, in the District of Batang Padang, is likely to be required for the public purpose of a Railway Reserve.

It is hereby notified that the Resident Engineer for Railways, and any officers or workmen duly employed under him, are authorised to enter upon and survey and take levels of the above mentioned land proposed to be taken, and to mark such levels and boundaries by placing marks and cutting trenches, and where otherwise the survey cannot be completed, the levels taken, or the boundaries or line of the work marked, to cut down and clear away any standing crop, fence or jungle.

SCHEDULE.

Nature of Title—Agricultural Application. *Title No.*—3. *Survey No.*—950. *Name of Lessees or Applicants*—G. C. Spica. *Area*—29 acres, 3 roods, 10 poles. *Mukim*—Batang Padang.

This Notification is made under Section 72 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 27th day of July, 1901.

D. G. CAMPBELL,
Acting Secretary to Resident.

SANITARY BOARDS.

LARUT, KUALA KANGSAR AND MATANG.

REGISTRATION OF JINRIKISHAS.

No. 570.—Notice is hereby given that the registration of Jinrikishas in the Districts of Larut, Kuala Kangsar and Matang, for the third period of 1901, will commence on Monday, the 2nd September, 1901.

The colour of the number plates will be dark blue with white characters.

5th August, 1901.

TENDERS.

RENT OF Kerosine Oil Store, KUALA KANGSAR.

No. 571.—Tenders are invited for the rent of kerosine oil store, Kuala Kangsar, for 16 months, from the 30th August, 1901 to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for the Rent of Kerosine Oil Store, Kuala Kangsar," should be addressed to the Chairman, Sanitary Board, Kuala Kangsar, and will be received not later than noon on the 30th August, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$20, otherwise it will not be considered.

Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Further particulars can be obtained on application to the Chairman, Sanitary Board, Kuala Kangsar.

13th August, 1901.

Government does not bind itself to accept the highest or any other tender.

LARUT.

No. 573.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Su Ah Seng of Taiping, for document of titles for land situated at Asam Kumbang, in the mukim of Kamunting, on the ground that Su Ah Seng is the registered owner thereof, and that the original Mining Leases 217 and 218 have been lost :

16th August, 1901.

No. 551.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Muhammad Khan bin Jabar Khan of Kota, for a document of title for land situated at Madersah Road, in the township of Taiping, on the ground that Muhammad Khan bin Jabar Khan is the registered owner thereof, and that the original Town Agreement No. 874 has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the document of title applied for will, subject to the provisions of the said Section 13, be granted.

2nd August, 1901.

No. 514.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Wan Muhammad Ali bin Wan Soh, of Bukit Gantang, for a document of title for land situated at Kubu, in the mukim of Bukit Gantang, on the ground that Wan Muhammad Ali bin Wan Soh is the registered owner thereof, and that the original Extract No. 45 from the Mukim Register has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application, the Extract from Mukim Register applied for will, subject to the provisions of the said Section 13, be granted.

19th July, 1901.

GEORGE MAXWELL,

Collector of Land Revenue.

MATANG.

No. 408.—Application having been made to the Collector of Land Revenue at Matang, by Leby Muhammad Arsat bin Long Panji and Che Selamah binti Ain of Simpang, for a new document of title for land situated at Simpang, in the district of Matang, on the ground that Leby Muhammad Arsat bin Long Panji and Che Selamah binti Ain are the registered owners thereof, and that the original Agreement for Agricultural Lease No. 564 has been lost:

No. 409.—Application having been made to the Collector of Land Revenue at Matang, by Pungat binti Garang of Ayar Terojeng, Sungei Tinggi, for a new document of title for land situated at Sungei Tinggi, in the district of Matang, on the ground that Pungat binti Garang is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 887 has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

21st June, 1901.

C. S. ALEXANDER,
Acting Collector of Land Revenue.

KUALA KANGSAR.

No. 473.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Halimah binti Ngah Abdulrahman, for a new document of title for a piece of land situated at Gapis, in the mukim of Kampong Buai, on the ground that Halimah binti Ngah Abdulrahman is the registered owner thereof, and that the original extract from the mukim Register Entry No. 716 has been lost:

No. 474.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Miur Neyope bin Toh Ismail, for a new document of title for a piece of land situated at Bota, in the mukim of Bota, on the ground that Miur Neyope bin Toh Ismail is the registered owner thereof, and that the original Permit No. 7,448/86, whereby the land was demised to him, has been lost:

No. 475.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Itam Abu bin Haji Muhammad, for new documents of title for two pieces of land situated at Plang, in the mukim of Pulau Kamiri, on the ground that Itam Abu bin Haji Muhammad is the registered owner thereof, and that the original Permits Nos. 450/88 and 451/88, whereby the lands were demised to him, have been lost:

No. 476.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Ush bin Syed Ahmat, for new documents of title for two pieces of land situated at Plus, in the mukim of Pulau Kamiri, on the ground that Syed Ush bin Syed Ahmat is the registered owner thereof, and that the original Permits Nos. 5,113/86 and 5,120/86, whereby the lands were demised to him, have been lost:

No. 477.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Ko Kuay of Kuala Kangsar, for the issue of a Mining Certificate No. 136, on the ground that the said Ko Kuay is the registered owner of Mining Certificate No. 136, and that the original Mining Certificate No. 136 has been lost:

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections, be granted.

5th July, 1901.

F. ROBERTSON,
Acting Collector of Land Revenue.

UPPER PERAK.

No. 370.—Take notice that whereas you have abandoned the land described hereunder, in the mukim of Lenggong, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bond fide* commencement to build on it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

R. CLAYTON,

Acting Collector of Land Revenue.

KRIAN.

No. 552.—To the Landholders named in the Schedule below:—

Take Notice that whereas you have abandoned the lands described hereunder in the mukims of Parit Buntar and Bagan Serai, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such lands or unless you enter or re-enter into occupation of such lands by making a *bonâ fide* commencement to cultivate it, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 2nd day of August, 1901.

21st June, 1901.

F. A. S. McCLELLAND,
Acting Collector of Land Revenue.

NOTICES UNDER SUCCESSION DUTIES AMENDMENT ORDER IN COUNCIL, No. 3 OF 1893.

MATANG.

No. 582.—Application having been made to the undersigned by Long binti Mat Yassin, for an order declaring the applicant to be entitled to a piece of land described in Mukim Register No. 41, situated in the mukim of Simpang, district of Matang, and registered in the name of Sallah bin Abdullah, deceased, on the ground that the applicant is the former wife of the said deceased, and that there is no other claimant:

No. 583.—Application having been made to the undersigned by Bungah binti Dahaman, for an order declaring the applicant to be entitled to two pieces of land described in Mukim Register Nos. 45 and 107, situated in the mukim of Simpang, district of Matang, and registered in the name of Mat Jasin bin Sahak, deceased, on the ground that the applicant is the wife of the said deceased, and that there is no other claimant:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, as amended by Order in Council No. 12 of 1894, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the undersigned for refusing the applications, the orders applied for will be granted and the titles transferred to the names of the respective claimants.

16th August, 1901.

RAJA CHULAN,
District Magistrate.

No. 520.—Application having been made to the undersigned by Anjang bin Samat, for an order declaring the applicant to be entitled to a piece of land described in Mukim Register No. 274, situated in the mukim of Jebong, district of Matang, and registered in the name of Bahaudin bin Basoh, deceased, on the ground that the applicant is the lawful wife of the said deceased, and that there is no other claimant:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, as amended by Order in Council No. 12 of 1894, notice is hereby given that unless within one month from the date of publication of this notice in the *Gazette*, good cause be shewn to the undersigned, for refusing the above application, the orders applied for will be granted and the title transferred to the names of the respective claimants.

19th July, 1901.

A. L. KNAGGS,
District Magistrate, Matang.

KINTA.

No. 521.—Application having been made to the undersigned by Tay Lap Noe, for an order declaring the applicant to be entitled to one-fourth share in a piece of land, described in Agreement for Mining Lease No. 684, situated in the mukim of Sungei Trap, district of Kinta, and registered in the name of Tan Fuk Long, deceased, on the ground that the applicant is the mother of the said deceased, and that there is no other claimant:

No. 522.—Application having been made to the undersigned by Chew Koh Seh, for an order declaring the applicant to be entitled to a piece of land, described in Town Lease No. 304, situated at Gopeng, district of Kinta, and registered in the name of Chew Seng Hin, deceased, on the ground that the applicant is the father of the said deceased, and that there is no other claimant:

No. 523.—Application having been made to the undersigned by Sikin binti Yahaya, for an order declaring the applicant to be entitled to a piece of land, described in Agricultural Lease No. 2,276, situated in the mukim of Sungei Trap, district of Kinta, and registered in the name of Hawa binti Dorahman, deceased, on the ground that the applicant is the daughter of the said deceased and that there is no other claimant:

No. 524.—Application having been made to the undersigned by Ahmad bin Uda Lahab, for an order declaring the applicant to be entitled to a piece of land, described in Mining Lease No. 1,517, and a piece of land described in Agricultural Lease No. 2,460, both situated in the mukim of Ulu Kinta, district of Kinta, and registered in the name of Uda Lahab bin Jemadin, deceased, on the ground that the applicant is the son of the said deceased, and that there is no other claimant:

No. 525.—Application having been made to the undersigned by Alang Kulah, Piaah and Teha, for an order declaring the applicants to be entitled to a piece of land, described in Agreement for Agricultural Lease No. 1,942, half share of land, described in Agricultural Lease No. 1,122, and one-fifth share of land, described in Agricultural Lease No. 1,970, all situated in the mukim of Kampar, district of Kinta, and registered in the name of Prang bin Taib, *alias* Ngah Prang bin Taib, deceased, on the ground that the applicants are the son and daughters of the said deceased, and that there are no other claimants:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the undersigned for refusing the above applications, the orders applied for will be granted, and the titles transferred to the names of the respective claimants.

CECIL WRAY,

District Magistrate, Kinta.

19th July, 1901.

SELAMA.

No. 554.—Application having been made to the undersigned by Seolai bin Haji Mat Ali, for an order declaring the applicant to be entitled to two pieces of land described in Mukim Register Nos. 94 and 74, situated in the mukim of Kampong Selama, district of Selama, and registered in the name of Haji Mat Ali, deceased, on the ground that the applicant is the son of the said deceased, and that there is no other claimant:

No. 555.—Application having been made to the undersigned by Mat Aris bin Saleh, for an order declaring the applicant to be entitled to a piece of land described in Old Application No. 63, situated in the mukim of Kampong Selama, district of Selama, and registered in the name of Lebei Alang bin Long Maccan, deceased, on the ground that the applicant is the great-grandson of the said deceased, and that there is no other claimant:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the undersigned for refusing the above applications, the orders applied for will be granted and the titles transferred to the names of the respective claimants.

B. W. ELLES,

Acting Assistant District Magistrate.

PUBLISHED BY AUTHORITY.

No. 26.] TAIPING, FRIDAY, AUGUST 30, 1901. [VOL. XIV.

APPOINTMENTS.

Lieutenant A. Mc D. Graham, Wing Officer, Malay States Guides, has been promoted to be Captain, with effect from the 1st September, 1901.

Lieutenant H. W. D. Adam, Wing Officer, Malay States Guides, has been promoted to be Captain, with effect from the 1st September, 1901.

THE following Notifications are, by Command of the Acting Resident, published for general information.

D. G. CAMPBELL,
Acting Secretary to Resident.

APPOINTMENTS.

No. 584.—Mr. Edmond John Perkins to be Assistant Engineer, Public Works Department, with effect from the 18th July, 1901.

Mr. Perkins reported his arrival on the 22nd July, 1901.

No. 585.—Mr. James Rigby to be Registrar, Senior Magistrate's Court, with effect from the 31st July, 1901.

LEAVE.

No. 586.—The leave of absence granted to Mr. Alfred Reid Venning, Secretary to Resident, has been extended, with half salary, for two months, from the 15th September, 1901.

No. 587.—The leave of absence granted to Mr. Henry Bernard Collinge, Inspector of Schools, has been extended, with half salary, for one month and seven days, from the 5th August, 1901.

TELEGRAM RECEIVED FROM THE
SECRETARY OF STATE.

No. 588.—The following telegram has been received by the Acting High Commissioner from the Secretary of State for the Colonies in reply to a message sent by His Excellency expressing the sympathy of the Colony and the Federated Malay States at the death of Her Imperial Majesty the Dowager Empress Frederick, Princess Royal of Great Britain and Ireland.

“His Majesty commands me to thank Colony and Federated Malay States for expression of sympathy.”

26th August, 1901.

EXEMPTION UNDER THE "SOCIETIES ENACTMENT,
NO. 9 OF 1900."

No. 589.—It is hereby notified that the "Kampar Club" is, by order of the Acting Resident, exempted from registration under Section 2, Sub-section (c), of the "Societies Enactment, 1900."

26th August, 1901.

VEHICLES ENACTMENT, 1900.

ADDITION TO SCHEDULE III.

No. 590.—Under the powers vested in him by Section 25 of the Vehicles Enactment, 1900, the Acting Resident has been pleased to make the following addition to the Third Schedule of the said Enactment.

"Carts without springs, drawn by two animals, returning empty, per mile or part of a mile, 5 cents."

26th August, 1901.

CUSTOMS DUTIES.

No. 591.—The Resident, with the approval of the Resident-General, is pleased, under the powers vested in him by the Customs Duties Enactment, 1898, hereby to cancel so much of Notification No. 5, published in the *Gazette* of the 5th of January, 1900, as imposed an additional export duty upon tin exported from Batang Padang, and in its place to substitute the following:—

"Tin raised for export from such mines within the District of Batang Padang as may from time to time be certified in writing by the Warden of Mines to be gold-producing mines, an additional duty of 50 cents per pikul."

24th August, 1901.

TENDERS FOR REVENUE FARMS.

No. 466.—Tenders will be received up to noon on Friday, the 13th September, 1901, for renting the following Farms for the period of one year, commencing from the 1st day of January, 1902.

A.—THE UPPER PERAK GENERAL FARMS.

(Including the New Territory.)

The Farmer will be required to import monthly into Janing not less than 280 gantangs of rice, and to sell the same at a price not exceeding \$7 per bag.

B.—THE LOWER PERAK ATAP FARM.

Tenders for renting the Lower Perak Atap Farm are invited.

CONDITIONS.

1.—Sealed tenders, which must be marked on the outside with the name of the Farm tendered for, should be addressed to the Secretary to the Resident, Taiping, and may be for one or both of the Farms.

2.—The Government does not bind itself to accept the highest or any tender, and reserves to itself the right of making any arrangement it may deem advisable in regard to the letting of the Farms.

3.—Security will be required in the shape of a cash deposit equal to three months' rent of the Farm, or a mortgage of approved land or house property to the value of not less than four months' rent.

4.—Each tender must specify the full names, residences and occupations of the persons tendering. In the case of Firms, the name and address of each partner and the name and chop of the firm *must be specified*.

Copies of the regulations which govern the Farms can be obtained from the Secretary to the High Commissioner, Singapore; the Perak Government Agent, Penang; the District Magistrates, and the Secretary to the Resident, Taiping, to the latter of whom application should be made should any further information be required.

24th June, 1901.

NOTIFICATION UNDER SECTION 6 OF THE LAND ENACTMENT, 1897.

RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 569.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims that parcel of land situated at Waterfall Road, in the mukim of Tupai, described in the schedule hereto, and delineated upon Revenue Survey Plan No. 16-14, deposited in the office of the Superintendent of Revenue Surveys, to be a reserve for religious purposes, to be maintained by the Chetty community of Taiping.

SCHEDULE.

District—Larut. *Mukim*—Kamunting. *Plan No.*—16-14. *Lot No.*—158. *Area*—1 acre and 32 poles. *Boundaries*—North, Waterfall Road; East, Lot No. 131; South, Forest Reserve; West, State Land.

This Notification is made under Section 6 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 5th day of August, 1901.

D. G. CAMPBELL,
Acting Secretary to Resident.

SANITARY BOARDS.

BATANG PADANG.

REGISTRATION OF JINRIKISHAS.

No. 593.—Notice is hereby given that the registration of all Jinrikishas, in the district of Batang Padang, for the third period of 1901, will commence on Monday, the 16th September, 1901.

The colour of the number plates will be white with blue characters. The figure 3 in blue will be upon each plate to shew that the jinrikisha has been duly licensed for the third period.

20th August, 1901.

KINTA.

No. 594.—Under the provisions of Enactment No. 11 of 1897, the Acting Resident has been pleased to appoint Mr. D. J. Berwick to be a member of the Sanitary Board, Kinta.

26th August, 1901.

TENDERS.

TAIPING SCHOOL.

No. 595.—Tenders are invited for the construction of temporary extension to the Central School, Taiping.

Sealed tenders, marked on the outside "Tender for Taiping School," will be received at the office of the Secretary to Resident, Taiping, not later than noon on Thursday, the 5th September, 1901.

Plans and specifications can be seen at the District Engineer's office, in Taiping.

23rd August, 1901.

CONVEYANCE OF MAILS.

No. 596.—Tenders are invited for the following mail cart services in Perak, from 1st January to 31st December, 1902.

(a). Between Taiping and Padang Rengas, $15\frac{1}{2}$ miles, once daily, each way at such times as may be fixed in conjunction with the arrival and departure of trains, the journey to be accomplished in two hours and a half.

(b). Between Ipoh and Gopeng, 12 miles, once daily, each way in two hours, at such times as may be fixed upon.

(c). Between Gopeng and Kampar, 13 miles, once daily, each way in two hours, at such times as may be fixed upon.

(d). Between Lahat and Batu Gajah, nine miles, once daily, each way in one hour and a half, at such times as may be fixed upon.

(e). Between Tapah and Temoh Railway Station, seven miles, twice daily, each way in one hour, at such times as may be fixed upon.

(f). Between Kuala Kurau and Bagan Serai, seven miles, once daily in one hour, at such times as may be fixed upon.

On Sunday one mail will be despatched from Taiping to Padang Rengas (for Ipoh), from Ipoh to Gopeng and to and from Tapah and Temoh Railway Station, also from Padang Rengas to Taiping; otherwise no mails will require to be carried on Sundays except when the Outward Mail from Europe happens to be received on that day at any office for further despatch.

The Contractor will be liable to a fine of \$2 for every hour or part of an hour that the mails are delayed beyond the specified time.

In event of loss or damage to the mails while under his charge the Contractor will be liable, in addition to a fine of \$50, to the full extent of any established claims made by the public.

Tenders may be for all or any one of the above services but in the former case it must be stated what amount is apportioned for each service. Tenders should be addressed to the Secretary to the Resident, sealed, and the cover superscribed "Tender for the Conveyance of Mails," and should be sent in before noon on the 1st October.

29th August, 1901.

BUILDINGS, GOPENG HOSPITAL.

No. 597.—Tenders are invited for the construction at the Gopeng Hospital of—(1) Cart-shed; (2) Latrine; (3) Bath-house.

Sealed tenders, marked on the outside "Tender for Buildings, Gopeng Hospital," will be received at the office of the Secretary to Resident, Taiping, not later than noon on Thursday, the 5th September, 1901.

Plans and specifications can be seen at the Executive Engineer's office in Batu Gajah.

23rd August, 1901.

HOSPITAL BUILDINGS, TANJONG MALIM.

No. 598.—Tenders are invited for the construction of the following Hospital Buildings at Tanjong Malim, *viz.* :—

(1) One Hospital Ward; (2) One Dispensary and Apothecary's Quarters; (3) One Dresser's Quarters; (4) One Kitchen; (5) One Bath-house; (6) One Latrine; (7) One Set of Attendants' Quarters (four rooms); (8) One Dead-house.

These should be addressed to the Secretary to Resident, sealed and marked on the outside "Tender for Hospital Buildings, Tanjong Malim," and will be received at his office up to noon on Saturday, the 21st September.

Plans and specifications can be seen in the Executive Engineer's Office at Tapah and the State Engineer's Office at Taiping, or in the Assistant Magistrate's Office at Tanjong Malim.

29th August, 1901.

J. LYONS, CAPT.,

Deputy Commissioner of Police.

12th August, 1901.

IMPORTANT POSTAL NOTICE.

No. 600.—From the 1st to the 28th September special statistics require to be taken by Post Offices of correspondence posted in Perak for foreign countries, with a view to the settlement of accounts with the Colony in connection therewith.

As a great deal of work is involved and time taken up in compiling these statistics, the public (particularly in Kinta and Batang Padang) are requested during this period to post all correspondence for places beyond the Straits Settlements earlier by at least one mail than is usually done. It will not be possible to deal with and forward such correspondence by the last down train to Teluk Anson.

6th August, 1901.

LAND OFFICE NOTICES.

LARUT.

No. 573.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Su Ah Seng of Taiping, for document of titles for land situated at Asam Kumbang, in the mukim of Kamunting, on the ground that Su Ah Seng is the registered owner thereof, and that the original Mining Leases 217 and 218 have been lost:

16th August, 1901.

No. 551.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Muhammad Khan bin Jabar Khan of Kota, for a document of title for land situated at Madersah Road, in the township of Taiping, on the ground that Muhammad Khan bin Jabar Khan is the registered owner thereof, and that the original Town Agreement No. 874 has been lost.

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the documents of title applied for will, subject to the provisions of the said Section 13, be granted.

2nd August, 1901.

No. 511.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Wan Muhammad Ali bin Wan Soh, of Bukit Gantang, for a document of title for land situated at Kubu, in the mukim of Bukit Gantang, on the ground that Wan Muhammad Ali bin Wan Soh is the registered owner thereof, and that the original Extract No. 45 from the Mukim Register has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application, the Extract from Mukim Register applied for will, subject to the provisions of the said Section 13, be granted.

19th July, 1901.

GEORGE MAXWELL,

Collector of Land Revenue.

MATANG.

No. 408.—Application having been made to the Collector of Land Revenue at Matang, by Leby Muhammad Arsat bin Long Panji and Che Selamah binti Ain of Simpang, for a new document of title for land situated at Simpang, in the district of Matang, on the ground that Leby Muhammad Arsat bin Long Panji and Che Selamah binti Ain are the registered owners thereof, and that the original Agreement for Agricultural Lease No. 564 has been lost:

No. 409.—Application having been made to the Collector of Land Revenue at Matang, by Pungat binti Garang of Ayar Terojeng, Sungei Tinggi, for a new document of title for land situated at Sungei Tinggi, in the district of Matang, on the ground that Pungat binti Garang is the registered owner thereof, and that the original Agreement for Agricultural Lease No. 887 has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

21st June, 1901.

C. S. ALEXANDER,

Acting Collector of Land Revenue.

KUALA KANGSAR.

No. 601.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder in the mukims of Senggang, Kota Lama Kiri, Chigar Galah, Pulau Kamiri, Durian Pipit, Kota Lama Kanan and Saiong, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such lands or unless you enter or re-enter into occupation of such lands by making a *bona fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

30th August, 1901.

No. 602.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Mat Aris bin Ngah Jurdeh of Blanja, for a new document of title for land situated in the mukim of Blanja, on the ground that Kulup Mat Aris bin Ngah Jurdeh is the registered owner thereof, and that the original Permit No. 1,226 of 1888 has been lost :

No. 603.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Wahab bin Ngah Bedin of Kota Lama Kanan, for a new document of title for land situated in the mukim of Saiong, on the ground that Kulup Wahab bin Ngah Bedin is the registered owner thereof, and that the original Permit No. 7,193 of 1886 has been lost :

No. 604.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Petri Jelehah binti Megat Ngah of Semunta, Senggang, for a new document of title for land situated in the mukim of Senggang, on the ground that Petri Jelehah binti Megat Ngah is the registered owner thereof, and that the original Permit No. 618 of 1886 has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications the new titles applied for will, subject to the provisions of the said Section 13, be granted.

30th August, 1901.

F. ROBERTSON,
Acting Collector of Land Revenue.

No. 473.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Halimah binti Ngah Abdulrahman, for a new document of title for a piece of land situated at Gapis, in the mukim of Kampong Buaia, on the ground that Halimah binti Ngah Abdulrahman is the registered owner thereof, and that the original extract from the mukim Register Entry No. 716 has been lost :

No. 474.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Miur Neyope bin Toh Ismail, for a new document of title for a piece of land situated at Bota, in the mukim of Bota, on the ground that Miur Neyope bin Toh Ismail is the registered owner thereof, and that the original Permit No. 7,448/86, whereby the land was demised to him, has been lost :

No. 475.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Itam Abu bin Haji Muhammad, for new documents of title for two pieces of land situated at Plang, in the mukim of Pulau Kamiri, on the ground that Itam Abu bin Haji Muhammad is the registered owner thereof, and that the original Permits Nos. 450/88 and 451/88, whereby the lands were demised to him, have been lost :

No. 476.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Usah bin Syed Ahmat, for new documents of title for two pieces of land situated at Plus, in the mukim of Pulau Kamiri, on the ground that Syed Usah bin Syed Ahmat is the registered owner thereof, and that the original Permits Nos. 5,113/86 and 5,120/86, whereby the lands were demised to him, have been lost :

No. 477.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Ko Kuay of Kuala Kangsar, for the issue of a Mining Certificate No. 136, on the ground that the said Ko Kuay is the registered owner of Mining Certificate No. 136, and that the original Mining Certificate No. 136 has been lost :

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections, be granted.

5th July, 1901.

F. ROBERTSON,
Acting Collector of Land Revenue.

UPPER PERAK.

No. 370.—Take notice that whereas you have abandoned the land described hereunder, in the mukim of Lenggong, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to show, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bona fide* commencement to build on it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

NOTE.—This service is under postal contract, fortnightly only, from Penang to Madras and Negapatam to Penang. Should the English mails for Penang have previously arrived, the mail steamer will be despatched from Negapatam on Monday evening, or if the mails have not reached Negapatam by Tuesday morning steamer may be detained 24 hours. The dates in bold type represent optional sailings which may be discontinued in terms of arrangements with the Straits Government.

"The information given in this table is intended for the Company's use only, and the Company does not bind itself to maintain any of the services herein detailed or to carry passengers or cargo, or to provide accommodation by any of its steamers or at the rates given in this table unless under a specific engagement made with passengers or shippers."

ANNUAL REPORT FOR THE YEAR 1900
ON THE
FEDERATED MALAY STATES,
BY THE
ACTING RESIDENT-GENERAL
(W. H. TREACHER, C.M.G.).

~~~~~

RESIDENTS'  
ANNUAL  
REPORTS.

The Administration Reports of the British Residents for the past year are transmitted herewith, and afford the usual detailed information in regard to each of the States of the Federation.

RÉSUMÉ, SINCE  
DATE OF  
BRITISH  
PROTECTION.

2. The year 1900, the close of a century, completes the 26th year since British Protection was extended to certain of the Malay Peninsular States, and four and a half years of the Federation of the States of Perak, Selangor, Negri Sembilan and Pahang.

A short *résumé* of what has happened during these periods may be both interesting and instructive.

APPOINTMENT  
OF BRITISH  
ADVISERS.

3. A British Resident was appointed to Perak in October, 1874, to Sungei Ujong in the same year, and to Selangor in January, 1875. In 1886 a British Collector and Magistrate, subordinate to the Resident of Sungei Ujong, was posted in Jelevu, and in 1887 the group of small States to the north of Malacca, known as the Negri Sembilan, accepted a British Superintendent. By an agreement made in 1895, Sungei Ujong, Jelevu and the Negri Sembilan were constituted into a Confederation of States known as the Negri Sembilan, and three years later the Yam Tuan, or Ruler of Sri Menanti, was installed as the Yang-di-per-Tuan Besar of the Confederated Negri Sembilan or Nine States.

British Protection was formally extended to Pahang and a British Resident appointed in October, 1888.

AGREEMENT FOR  
FEDERATION.

4. A new era opened for the States on the execution, in July, 1895, of an agreement between the Governor of the Straits Settlements, acting on behalf of the Government of Her Majesty the Queen, Empress of India, and the Rulers of Perak, Selangor, Pahang and the Negri Sembilan, whereby the said Rulers agreed to constitute their countries a Federation to be administered under the advice of the British Government, to accept a British Officer (additional to the already appointed Residents), to be styled the Resident-General, to render one another such assistance in men, money, or other respects, as the British Government may advise, and to send a body of armed and equipped Indian troops for service in the Straits Settlements, should war break out between Her Majesty's Government and that of any other Power.

GENERAL POLICY.

5. The general policy of the British advisers has been to interfere as little as possible with the manners, customs, methods and prejudices of the different nationalities composing the population of the States; to interfere not at all in matters touching the Muhammadan religion—the religion of the

Malays; to attract capital—European, Chinese and other; to encourage the immigration of Chinese, Indian and other labourers; to assist the development of the mineral and agricultural resources of the States by making roads wherever the necessity for them was apparent, by constructing railways, by works of drainage and irrigation; by establishing security for life and property, by constituting Courts of Justice, by opening free hospitals and schools, by giving good titles to land and by abolishing import duties (except on opium and spirits) and all restraints on trade, commerce and industry.

**SOME RESULTS  
OF THE POLICY.**

6. The success of the policy may be gathered from the following facts and figures:—

**REVENUE AND  
EXPENDITURE.**

The combined revenue of the three States under British Protection in 1875 was \$409,394 and the expenditure \$436,872.

In 1889 Pahang had joined the other States and the combined revenue amounted to \$5,013,000 (Pahang contributing \$30,390 only) and the expenditure to \$4,091,078 (Pahang being responsible for \$142,620).

**FEDERATION IN  
OPERATION.**

“Federation” came into operation on the 1st July, 1896. The total revenue for 1896 was \$8,434,083 and the expenditure \$8,598,147.

For the year under review, 1900, the total revenue of the Federation reached \$15,609,807 and the expenditure \$12,728,930.

**COMPARISON  
WITH CROWN  
COLONIES.**

The revenue of the Federated Malay States is now, therefore, larger than that of any of the British Crown Colonies with the exception of Ceylon, which it approximates.

|                                        | Area:<br>square miles. | Population. | Revenue.<br>£ | Expenditure.<br>£ |
|----------------------------------------|------------------------|-------------|---------------|-------------------|
| Federated Malay States for 1900 ... .. | 26,300                 | 676,138     | 1,561,000     | 1,273,000         |
| Straits Settlements for 1900 ... ..    | 1,542                  | 572,249     | 538,684       | 601,645           |
| Ceylon for 1899 ... ..                 | 25,365                 | 3,391,443   | 1,727,000     | 1,663,000         |

**NATURAL  
RESOURCES.  
TIN.**

The fortunate possession of extraordinarily large alluvial deposits of tin-ore, easily worked by Chinese miners, whose luxuries and vices are taxable, has been the basis of the financial prosperity of the States, and the development of this source of wealth has been rendered possible by British methods of administration. To take, as an instance, the case of Perak, the most important and, at present, the wealthiest of the four States, the amount of duty collected on tin exported in 1877 was \$140,292, while during the past year the collections amounted to \$3,570,631.

**AGRICULTURE.**

From the first days of protection the Government has kept in view the desirability, or rather the necessity, of encouraging agriculture, and slow but steady progress has been and is being made in this direction.

**TRADE.**

7. The first year for which reliable figures of trade values (imports and exports) for Perak, Selangor and Negri Sembilan are available is 1882. The value of imports and exports for that year was \$11,207,719. For 1900 the figures for the four States are—

|                         |     |     |     |                     |
|-------------------------|-----|-----|-----|---------------------|
| Imports                 | ... | ... | ... | \$38,402,581        |
| Exports                 | ... | ... | ... | 60,361,045          |
| <b>Total trade 1900</b> | ... | ... | ... | <b>\$98,763,626</b> |

## ROADS.

8. No cart roads and no railways were in existence in the States in 1875; at the close of 1900 the actual cart road mileages were as follows —

|                       | Cart Roads.<br>Miles. |
|-----------------------|-----------------------|
| Perak ... ..          | 586                   |
| Selangor ... ..       | 408                   |
| Negri Sembilan ... .. | 249                   |
| Pahang ... ..         | 90                    |
| Total ...             | <u>1,333</u>          |

in addition to some hundreds of miles of bridle and foot tracks.

## RAILWAYS.

9. The construction of railways was first undertaken in Perak, where a short Government metre-gauge line of railway, eight miles in length, from the capital to the port, was opened for traffic in 1885. In September, 1886, a metre-gauge line, 22 miles in length, was completed by Government in Selangor, and a line connecting Port Dickson with Seremban, Negri Sembilan,  $24\frac{1}{2}$  miles long, was completed by a guaranteed company in 1891: total mileage up to 1891,  $54\frac{1}{2}$  miles. The total railway mileage open for traffic at the close of 1900 was:—

|                       | Miles.                                          |
|-----------------------|-------------------------------------------------|
| Perak ... ..          | 114                                             |
| Selangor ... ..       | $97\frac{1}{4}$                                 |
| Negri Sembilan ... .. | $24\frac{1}{2}$ <small>Private Company.</small> |
| Total ...             | <u><math>235\frac{3}{4}</math></u>              |

to which may be added 23 miles in colonial territory, constructed and worked by the Federated Malay States.

It is expected that by 1902 the completed mileage will be:—

|                                                                                                                                                                 |                                      |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|
| Prai harbour, (opposite Penang, Province Wellesley),<br>through Perak to Selangor boundary, with<br>branch lines to Port Weld and to Telok Anson<br>port ... .. | $213\frac{3}{4}$ miles               |
| From the Selangor boundary to Seremban (Negri<br>Sembilan) with branch line to Kuala Klang ... ..                                                               | 126 „                                |
| From Seremban to Port Dickson (Sungei Ujong<br>Railway Company) ... ..                                                                                          | $24\frac{1}{2}$ „                    |
| Probable total railway mileage, Federated<br>Malay States and Province Wellesley,<br>1902... ..                                                                 | <u><math>364\frac{1}{4}</math> „</u> |

## POSTS.

10. Posts and telegraphs were likewise non-existent before the advent of British Protection. The Post Office receipts during 1900 were:—

|                       |                  |
|-----------------------|------------------|
| Perak ... ..          | \$88,781         |
| Selangor ... ..       | 67,938           |
| Negri Sembilan ... .. | 25,303           |
| Pahang ... ..         | 9,503            |
| Total ...             | <u>\$191,525</u> |

The value of money orders issued at the post offices during the year amounted to:—

|                |     |     |     |     |           |
|----------------|-----|-----|-----|-----|-----------|
| Perak          | ... | ... | ... | ... | \$581,717 |
| Selangor       | ... | ... | ... | ... | 256,079   |
| Negri Sembilan | ... | ... | ... | ... | 96,002    |
| Pahang         | ... | ... | ... | ... | 39,054    |
| Total          |     |     |     |     | \$972,852 |

## SAVINGS BANKS.

11. In connection with the Postal Departments, Savings Banks have been instituted and are gaining way among the people.

TELEGRAPHS AND  
TELEPHONES.

12. The length of telegraph wires under the charge of the Postal Departments is:—

|                |     |     |     |     |           |
|----------------|-----|-----|-----|-----|-----------|
| Perak          | ... | ... | ... | ... | 680 miles |
| Selangor       | ... | ... | ... | ... | 515 „     |
| Negri Sembilan | ... | ... | ... | ... | 141½ „    |
| Pahang         | ... | ... | ... | ... | 53 „      |
| Total          |     |     |     |     | 1,389½ „  |

Most of the police stations are connected by telephones, and Government telephone exchanges have been introduced and are being extended.

## EDUCATION.

13. Education in former days was confined to learning to read the Koran by rote, and few of the common people could read or write. There are now 193 vernacular and State-aided schools in the Federated Malay States, with 8,092 scholars. To most of the vernacular schools a special teacher is attached to give instruction in the Koran.

## HOSPITALS.

14. Hospitals, again, were formerly unknown institutions. There are now Government free hospitals throughout the States, exclusive of Government Hospitals and Lunatic Asylums. The Government Medical Staff includes fourteen European qualified Surgeons, a Pathologist, eight European Nurses, and two European Veterinary Surgeons.

## POLICE.

15. A regular Police Force was likewise an unknown quantity. The Police Force at present is composed of:—

|       |                                                                 |     |                       |
|-------|-----------------------------------------------------------------|-----|-----------------------|
| 1     | Federal Commissioner                                            | ... | Europeans             |
| 3     | Deputy                                                          | „   |                       |
| 4     | Assistant                                                       | „   |                       |
| 2     | Chief Inspectors                                                | ... |                       |
| 29    | Inspectors                                                      | ... |                       |
| 2     | Native Officers                                                 | ... | Malays and<br>Indians |
| 14    | Sergeant-Majors                                                 | ... |                       |
| 85    | Sergeants                                                       | ... |                       |
| 102   | Corporals                                                       | ... |                       |
| 107   | Lance-Corporals                                                 | ... |                       |
| 595   | 1st Class Constables                                            | ... |                       |
| 641   | 2nd                                                             | „   |                       |
| 385   | 3rd                                                             | „   |                       |
| 1,970 | besides Buglers, Drill Instructors, Detectives and 14 Troopers. |     |                       |

16. The principal industry, that of mining, being practically controlled by the Chinese and a few Europeans, it has been asked what has British Protection done for the Native peasantry, "the real Malay." The reply is that it has given him security for life and property, unknown before to the common people, when wives, daughters, and orchards were at the mercy of the aristocracy; it has given him a permanent title to his land; it has established for him means of communication by road and rail; it has opened for him a local market for his labour and his produce; it offers him free education for his children, free hospital treatment and medicines, when sick, and banks where he can deposit at interest his small earnings; it has abolished slavery and piracy; it has practically put an end to the scourges of small-pox and cholera; it has established the reign of law and equity throughout the land—it has made the raiat equal to his rajah before the law; it helps him to drain and irrigate his padi fields; it contributes to the cost of the erection of his mosque; it has opened to him offices under Government to which fixed salaries and pensions are attached, and it has freed him from arbitrary taxation and forced levies and the system of *kra* or compulsory labour. In return, the only contribution he makes to the Government revenue is a very small annual quit-rent, if he is a landowner—for he is not, and should not be, by the law of Mohamet, an opium or spirit consumer—and his tobacco, articles of attire, and so forth, are not taxed and there is no export duty levied on his exportation of padi. The only complaint he can make is that the British advisers have not *forced* him to become industrious by making him work after the manner of the Dutch with their natives in the East Indies.

17. I should explain that I can write impersonally on these matters, because my connection with the States, as one of the British Residents, dates only from 1893.

The men to whom the credit of carrying through the policy outlined is mainly directly due are Sir Hugh Low, appointed British Resident, Perak, in 1877, now retired, and Sir Frank Swettenham, at one time Secretary for Native Affairs in Singapore, appointed British Resident, Selangor, in 1882, at present Resident-General of the Federated Malay States and acting as High Commissioner and as Governor of the Straits Settlements, and in a less degree the late Sir William Maxwell, whose connection with the States was of shorter duration.

18. The full strength of the Regiment of Malay States Guides is 12 European Officers and 632 Native Officers, non-commissioned officers and men. The returns show the following nationalities:—Sikhs, 531; Pathans, 35; Punjabi Muhammadans, 49. The average age was 26 years 8 months, and the average height 5 feet 9½ inches. Three hundred and fifty-six natives of the Punjab arrived in the States during the year and offered themselves for enlistment, of whom 47 had previously served in the Indian Army. As the Acting Commandant remarks, "with such competition it is easy to maintain the already existing high standard."

The discipline of the Regiment is reported to have been "excellent." An exception must be made in the case of E Company, stationed at Kuala Lumpur, regarding which a separate report has been made to the High Commissioner.

The Artillery Establishment was complete and the Gunners maintained their high standard of efficiency.

## MUSKETRY.

The figure of merit of the Regiment for 1900 was  $\frac{97}{56}$  individual firing. as compared with  $\frac{92}{47}$  in the previous year. The Gunners won the Warren Shield, open to competition by all troops in the Straits Settlements, the 2nd, 3rd, 4th, 5th, 7th, and 8th places being also taken by Companies of the Guides.

It was not found possible to hold any manœuvres, owing to the paucity of officers during a great part of the year and to the fact that there was no mobilisation of troops in Singapore. Two of the European officers died during the year, one, Lieutenant Payne, while seconded for active service with the Gold Coast Constabulary. One officer resigned.

A scheme for Colonial rank received the approval of the Secretary of State, and commissions signed by the High Commissioner were granted to some of the officers.

The total expenditure amounted to:—

|                     |     |     |           |
|---------------------|-----|-----|-----------|
| Personal Emoluments | ... | ... | \$158,548 |
| Other Charges       | ... | ... | 55,420    |
|                     |     |     | <hr/>     |
|                     |     |     | \$213,968 |

The Regiment volunteered for service in China, but the authorities were unable to accept the offer.

## POLICE.

19. The strength of the Force has been shown in paragraph 15. Service in the Police has little attraction for our native Malays, who are averse to strict discipline and regular work. The majority of the Malay Contingents is recruited from outside the States. The emoluments of the Malay members of the Force were improved by the addition of certain non-pensionable allowances, as in the neighbouring Colony.

The Force is to be re-armed with the Martini-Enfield .303 artillery carbine with sword bayonet; a commencement is being made with the Pahang Contingent.

Discipline, on the whole, shows improvement, but the detective body is in need of re-organisation.

I have little doubt that efficiency would be increased and correspondence be lightened were the Police Forces of the States constituted into one Federal Police Establishment.

Captain Talbot, the Commissioner, volunteered to place himself and a body of Police at the disposal of the authorities for any service for which they might be considered useful in China, and received the thanks of the High Commissioner.

VOLUNTEER  
CORPS.

20. Colonel Walker raised the question of the formation of a Volunteer Corps; sanction has been given, and it appears probable that a sufficient number of members will be forthcoming from Perak and Selangor.

## PRISONS.

21. The Prisons' Report for the year has been furnished by Major Vanrenen, who acted as Commandant, Malay States Guides, and Federal Inspector of Prisons, from 29th April, *vice* Colonel Walker, C.M.G., appointed to act as British Resident, Perak. There are now three gaols in Perak, one in Selangor, one in Negri Sembilan and two in Pahang. The total number of prisoners remaining in the civil and criminal prisons on the last day of the year was 1,123—as compared with 1,073 for 1899—a small increase,

considering the recent large additions to the Chinese population of the States. When the price of tin is high the gaol returns are generally comparatively low. The comparative figures for criminal prisons separately are 1,067 and 1,037. There were 7 executions against 15 in the previous year; there were 18 escapes (3 recovered) against 21. The Inspector records that "the discipline throughout the gaols has been most satisfactory." The number of floggings, I am glad to be able to report, have come down from 345 in 1899 to 35 in 1900; this is ascribed to the Superintendents being deprived of the power of awarding this description of punishment. Punishment by "crank" has recently been sanctioned.

The Prisons' staff is commended by the Inspector. A satisfactory scheme for European Warders' pay was approved during the year.

The number of re-convictions in 1899 was 724 and in 1900, 760. There was a decrease in the number of re-convictions in Perak, but an increase in Selangor, which the Inspector ascribes to the enforcement of stone-breaking in isolation in the former State which it has not been possible to adopt in the latter.

The estimated value of prison labour is put at \$48,605. The actual receipts were \$13,546 or \$1,886 more than that of the previous year.

With the exception of the Batu Gajah Gaol, where a considerable number of vagrants, in a wretched condition of health on entry, are confined, and of the Kuala Lumpur Gaol, where there was an outbreak of beri-beri, the health of the prisoners was good.

#### LAND AND MINES.

22. The total Land Revenue, exclusive of "Forest" receipts, for the Federated Malay States was \$712,898 as compared with \$639,899 in 1899.

|                                             | 1899.   |     | 1900.   |
|---------------------------------------------|---------|-----|---------|
|                                             | \$      |     | \$      |
| Land rents other than mines contributed ... | 263,256 | ... | 280,717 |
| Premia on grants exclusive of mines ...     | 27,785  | ... | 41,271  |
| The rents for mining lands amounted to ...  | 136,444 | ... | 164,115 |
| Premia on mining leases gave ...            | 57,401  | ... | 89,358  |

#### RICE HARVEST.

23. The rice harvest, on the whole, was a poor one, the causes variously assigned being drought, rinderpest, rats. The former cause will gradually be eliminated by Government irrigation schemes; Dr. Braddon, State Surgeon, Negri Sembilan, is investigating rinderpest and his labours are approaching completion; Dr. Hamilton Wright, Federal Pathologist, is in communication with the Pasteur Institute, Saigon, and hopes soon to be able to cope with the rat plague by a process of inoculation which has proved successful elsewhere.

I have furnished to the High Commissioner an interesting report on rice cultivation in Pahang written by Mr. D. H. Wise.

It may be hardly necessary to point out that padi cultivation is in the hands of Malays; the Chinese—the comparatively few who are interested in agriculture—devote themselves mainly to sugar and tapioca.

#### SUGAR.

24. The cultivation of sugar cane is only practised to any extent in Perak, to which it has spread from the adjoining Colony. It is rapidly becoming an important and successful industry and it is to be hoped will, in time, extend to the other States or portions of them. A considerable amount of European and Chinese capital has been invested and machinery of the latest type is employed.

The export of sugar from Perak for the last three years is given as:—

|      |     | Quantity.<br>Pikuls. |     | Value.<br>\$          |
|------|-----|----------------------|-----|-----------------------|
| 1898 | ... | 274,720              | ... | 1,214,701             |
| 1899 | ... | 276,689              | ... | 1,282,237             |
| 1900 | ... | 278,156              | ... | 1,315,974             |
|      |     | <hr/> 829,565 <hr/>  | ... | <hr/> 3,812,912 <hr/> |

COFFEE  
(LIBERIAN).

25. Owing to the continued large supplies of coffee from South America, the price for this product runs so low in the European markets that none but the best situated and best cultivated estates can even earn sufficient to cover working expenses.

The following extract from the Report of the United Planters' Association Annual Report for 1900, taken from the "Malay Mail" newspaper, throws light on the situation. I take this opportunity of bearing testimony to the good work done by this Association, and to the zeal, energy and ability of its Chairman, Mr. E. V. Carey, who has always been ready to place his experience at the disposal of Government.

In an interesting Report the Selangor Planters' Association show that in the principal European countries and the United States of America, the consumption of coffee during approximately the last 10 years has increased from 1,101,146,000 lbs. to 1,495,296,000 lbs. and that the rate of consumption per head of the total population of the same countries has risen from 2.83 lbs. to 3.59 lbs. These figures are obtained from a return supplied to the House of Commons dated 3rd August, 1900, and may therefore be regarded as absolutely reliable. It is explained that accurate returns of production were not obtainable, owing to the ignorance of "statistical science" on the part of producers, principally in the Central and South American States, so that it is to the London Brokers' Reports that we have to refer for statistics regarding the balance of production over consumption; in other words, for the world's stocks; and these we find by latest advices to amount to 1,449,000 bags (a bag being approximately a pikul) as against 659,000 bags a year ago.

The Director of the San Paulo Agricultural Institute has compiled a valuable report upon the existing condition of the estates in Brazil and their future prospects, and, without quoting from it at any length, it is sufficient to say that most estates are burdened with heavy mortgages, that they require much greater attention, especially as regards manuring, than they are receiving, whilst the rise in the value of the milrei from 8.13 32d. to 11.19 32d. in the last year (Rucker and Bencraft's Circular of 21st March) cannot exert other than an extremely deterrent effect upon that industry. The Brazils (Rio and Santos) produce such an enormous percentage of the world's supply, that an even partial collapse in that country would undoubtedly result in greatly improved values. The date of the San Paulo Report is not known, but when it was written the milrei was 6½d., and we find it stated that "with exchange at 6½d. and coffee at \$15 in Singapore [*ie.*, Mexican dollar value] 3½ per cent. interest should be paid on the capital"; again, "if the Brazilian planter had to pay his labourer in gold he would have been ruined long ago," but he *sells his coffee in gold* which he reconverts into milreis, and the consequent effect of a rise of 3.3 16d. in one year and of 5.3 32d. since that report was written, must be disastrous in the extreme. There is no denying, however, that the world's stock of coffee has increased over 100 per cent. in the last year, and the only conclusion to be drawn is that mortgagees have foreclosed and resold to a large extent, and that estates, at consequently a much lower capital value in other hands, are still capable of being worked at a profit. Your committee have endeavoured to obtain statistics of coffee exported from Selangor, Negri Sembilan and Perak, the following figures have resulted from their efforts:—

|                |     |     | 1898.<br>pkls.     |     | 1899.<br>pkls.     |     | 1900.<br>pkls.     |
|----------------|-----|-----|--------------------|-----|--------------------|-----|--------------------|
| Selangor       | ... | ... | 22,948             | ... | 26,407             | ... | 34,295             |
| Negri Sembilan | ... | ... | 3,163              | ... | 4,541              | ... | 6,199              |
| Perak          | ... | ... | 2,837              | ... | 932                | ... | 4,269              |
| Total          | ... | ... | <hr/> 28,948 <hr/> | ... | <hr/> 31,880 <hr/> | ... | <hr/> 44,763 <hr/> |

That we have not been idle in endeavouring to get our coffee, straight from the plantations, brought prominently before the public will be seen from reference to the subject elsewhere in this report, but it must be admitted that we are far from being satisfied with our curing, though year by year no doubt the quality improves. There is a growing feeling that possibly a more acceptable coffee may be produced by sun-drying the cherry, and your 1901-1902 report will undoubtedly supply you with the result of several systematic experiments which are now being undertaken.— *Extract from U.P.A. Annual Report for 1900.*

The European planters, with the pluck and determination which characterised the planters of Ceylon in former days, under somewhat similar adverse circumstances, have manfully turned to other forms of cultivation, Rubber (Para and Ficus Elasticus) and coconuts being most in favour, while still maintaining, in the greater number of cases, the upkeep of their coffee estates and waiting for better times.

OTHER PRODUCTS.

PARA RUBBER.

A large area has been planted with Para rubber, which thrives well. Three years hence we should know what will be the result.

The climate and rainfall of the Federated Malay States is all that can be desired for tropical agriculture, Indian labour is becoming cheap, fairly abundant and good, and the policy of the Government in investing its large mining receipts in the construction of roads and railways has afforded facilities to planters which probably are not to be found in most tropical Colonies.

An expert in the subject of gutta percha and rubber has been obtained from Kew, and his knowledge will doubtless prove of great value to the planters. Amongst other things he will superintend a Government experimental garden.

RAMIE.

I regret to find that Mr. Belfield reports that the Selangor Ramie Estate has practically discontinued cultivating that product for the present on account of want of demand for the fibre. Ramie is indigenous in the Peninsula.

IRRIGATION.

26. The subject of irrigation has received attention during the past year. It has been found advisable, owing to the small number of the possible rice cultivators, not to indulge in heroic schemes as a rule, but to assist or undertake smaller ones where circumstances demand.

The very important scheme sanctioned for the Krian district, Perak, is being ably carried out by Mr. R. O. N. Anderson, the Engineer in charge, who has had to contend with great difficulties caused by the unhealthy nature of the work in the swamps. The revised estimates show a probable expenditure of over \$900,000, the area benefited will be about 60,000 acres and the date of completion is put at December, 1903.

An irrigation work of considerable magnitude is under consideration for the district of Lower Perak.

Five hundred acres of land are being made available for padi cultivation, by a system of sluices and channels, in the Ulu Selangor district.

LABOUR.

27. As closely connected with the subject of agriculture, I may here mention that communications have passed between the Government of the Straits Settlements and the Government of India, with the result that "free"\* Indian labour, recruited either by kanganies or professional recruiters, is coming in much more freely, while the demand for indentured labour continues to be satisfied. It is hopeless to expect advantage to be

\* "Free," that is to say as distinguished from coolies under indenture. They are free to quit on giving a month's notice.

taken of offers of free passages unless a Government Agent is appointed in India to explain matters to villagers and furnish them with the means of defraying the cost of their journeys to the port of embarkation and a small advance of cash. For such an appointment there is no immediate urgency. The recently appointed Superintendent of the Negapatam Dépôt is cordially assisting our employers of labour and is able to say that the coolies recruited by planters' kanganies are among the best class of labour that come before him.

Useful and practical information on the subject of Indian labour has been gathered from the report of a Commission of official and unofficial gentlemen which sat during the year in Kuala Lumpur.

The next step is to arrange, if possible, for direct steamer communication between Indian and Malayan ports, and information to this end is being collected.

There must be a considerable Indian population in the States, but, unfortunately, the detailed figures of the Census taken on the night of the 31st March last are not yet available.

The value of Indian money orders issued during the year was for—

|                       |           |
|-----------------------|-----------|
| Perak ... ..          | \$287,894 |
| Selangor ... ..       | 147,152   |
| Negri Sembilan ... .. | 26,394    |
|                       | <hr/>     |
|                       | \$461,440 |

The total amount contributed by the Government and people of the Federated Malay States to Indian Famine Relief during 1900 was \$42,418.

#### MINES.

28. The output of tin \* for the year and its value and the amount of duty collected are shown below :—

| State.                | Pikuls. | Tons.  | Value.     | Duty.     |
|-----------------------|---------|--------|------------|-----------|
|                       |         |        | \$         | \$        |
| Perak ... ..          | 355,589 | 21,166 | 26,032,000 | 3,570,631 |
| Selangor ... ..       | 269,490 | 16,041 | 19,434,562 | 2,695,828 |
| Negri Sembilan ... .. | 72,251  | 4,300  | 5,338,424  | 692,519   |
| Pahang ... ..         | 15,728  | 935    | 1,163,872  | 91,494    |
| Grand total ...       | 713,058 | 42,442 | 51,968,858 | 7,050,382 |

The gross sterling value of the tin exported (without deductions for cost of local smelting, transport, etc.), may be put at over £5,500,000.

In Appendix B will be found three charts, showing (i.) the output of tin and tin-ore from the States for the last twelve years and the annual average price in dollars and sterling; (ii.) the output for the same period with the value thereof in dollars and sterling; (iii.) comparative return of output from each State for the last twelve years. For these charts I am indebted to Mr. F. J. B. Dykes, Warden of Mines, Negri Sembilan; they will be found of great interest to those who care to study them. It is, perhaps, to be regretted that Mr. Dykes has not been able to incorporate figures showing the strength of the labour force in each year. The working miners are foreigners (Chinese) who leave the country—or, at any rate, the mines—in large numbers when the price of tin keeps low for any length of time. Fresh labour cannot be imported from China immediately the price improves, and this fact, to some extent, accounts for a decreasing output with an

\* The weight of tin-ore is reduced to 68 per cent. of the gross weight.

increasing value of the metal in some years. There are, however, other reasons, and seeing that in the last twelve years alone some 7,748,000 pikuls of tin (461,191 tons), valued at £39,326,227, have been taken out of the country, there is possibly foundation for the impression that our more easily worked alluvial tin deposits are feeling the strain that has been placed upon them, that the output per miner is decreasing,\* and that if the price of tin fell to, say, \$40 a pikul (the present general high cost of living continuing), a considerable number of mines would shut down, and the labour force would begin again to leave the mines—with all that that implies.

The average price of tin duty during the last twelve years has been :—

| Year.    |     |     | Dollars per pikul. |     | Sterling per ton. |
|----------|-----|-----|--------------------|-----|-------------------|
| 1889     | ... | ... | \$35.00            | ... | £ 93              |
| 1890     | ... | ... | 32.00              | ... | 94                |
| 1891     | ... | ... | 32.50              | ... | 91                |
| 1892     | ... | ... | 37.50              | ... | 94                |
| 1893     | ... | ... | 37.60              | ... | 86                |
| † { 1894 | ... | ... | 37.40              | ... | 69                |
| 1895     | ... | ... | 34.00              | ... | 64                |
| 1896     | ... | ... | 32.00              | ... | 61                |
| 1897     | ... | ... | 36.00              | ... | 62                |
| 1898     | ... | ... | 43.00              | ... | 71                |
| 1899     | ... | ... | 71.70              | ... | 126               |
| 1900     | ... | ... | 74.00              | ... | 130               |

It must, I think, be accepted that the price of tin is affected by the quantity of the output from the Federated Malay States, though there are other causes to be reckoned with, and we may expect that the price will keep up for some time longer.

There are important questions requiring, in my opinion, discussion, relating to the system of alienating mining land, regulating the working of open cast, underground and ground-sluicing mines, dredging and other matters. After consulting with the Residents, it has been decided to hold a Mining Conference, from which I hope valuable information will be obtained.

There is nothing new to report as to lode mining. The output of gold from Pahang for the last five years has been :—

| Year. |     |     |     |     | Output : ounces. |
|-------|-----|-----|-----|-----|------------------|
| 1896  | ... | ... | ... | ... | 21,300           |
| 1897  | ... | ... | ... | ... | 26,420           |
| 1898  | ... | ... | ... | ... | 22,200           |
| 1899  | ... | ... | ... | ... | 18,507           |
| 1900  | ... | ... | ... | ... | 17,048           |

The duty collected in 1899 was \$35,812 and in 1900 \$29,106.

I will not attempt to prophesy as to the mining outlook of Pahang. It seems almost certain that it is not very rich in alluvial tin, and therefore will not, like the western States, attract a large number of Chinese miners. It also seems highly probable that the northern portion of the State is rich in reefs carrying gold and tin and that their development will depend on the introduction of European capital and machinery, which would be

\* NOTE.—1897 output 712,496 pikuls, miners 116,300.

1900 „ 713,058 „ „ 168,000.

† The largest recorded output was in 1895, then follow 1896 and 1894.

encouraged by improved facilities of communication, by road, rail and water. The question of a railway policy for Pahang is not yet so advanced as to be ripe for discussion in this Report.

LABOUR FOR  
MINES.

The price of tin having been good for the last two or three years, there has been a large influx of Chinese labour; but unfortunately, owing to the opposition experienced or anticipated in Canton, the direct steam communication between Klang and that port, the chief centre from which all mining labour comes, for which arrangements had been nearly completed, has been deferred.

FORESTS.

29. Mr. H. C. Hill, now Inspector-General of Forests, British India, made an extended tour in the States and has furnished an invaluable and exhaustive report suggesting the lines on which our vast forest resources should be worked in future. Perhaps the most important recommendations in the report are:—

- (a) The appointment of a professionally trained Chief Forest Officer. Mr. Hill writes:—"It is quite unreasonable to expect a technical department to be properly administered and utilised to the best advantage without professional supervision and direction, and I propose that a specially trained and experienced Forest Officer should be employed, partly in the Colony and partly in the Federated Malay States." Application has been made to the Government of India for a suitable officer on three years' deputation from Burma.
- (b) The extraction of rubber and gutta by Government agency only.
- (c) The systematic exploitation of mangrove forests, with "working circles," each sub-divided into twenty coupes.
- (d) In addition to "reserved forest," the protection of the more valuable trees in unreserved areas from wasteful use or extermination, by declaring them "reserved" or "Royal" trees, as in Burma.
- (e) The abolition of the system of collecting the royalty on timber by means of "passes" issued to the fellers and the substitution therefor of a system of "licences."

The appointment of a Chief Forest Officer as recommended by Mr. Hill and the systematic exploitation of our forest resources on correct lines will doubtless result in a considerable and annually increasing addition to the revenues of the States. Forest receipts amounted to \$212,730 in 1899 and to \$242,936 in 1900.

It is proposed, on the introduction of the system, to work the forests on a "Federal" basis.

RAILWAYS.

30. The large increase in the revenues of the States has rendered them independent of the Railway Loan it was at one time proposed to raise in England, has placed sufficient funds at the disposal of the Railway Departments and consequently improved the rate of progress of construction. It is anticipated that the sanctioned extensions will all be completed by the end of 1902, and be paid for out of the States' revenues.\*

\* In anticipation of the floating of a loan in England the Crown Agents made some advances. These have now been repaid.

The increased cost of labour and of all iron work and materials generally has caused a considerable increase on the original estimates. By a return made in December last the total estimate was placed at \$16,472,982. In that return the average cost per mile of the extensions in Perak is estimated at \$93,152, and in Selangor and Negri Sembilan at \$88,092. In Perak there occur eight miles of very heavy work and tunneling on the Kuala Kangsar-Taiping section.

The total mileage of the extensions is put at about 180 miles.

The large, important and well-constructed lattice girder bridge, 1,158 feet, over the Perak river was declared open to traffic by His Highness Sultan Idris and Sir Frank Swettenham in March, 1900.

I have referred to railway construction in para. 9 of this Report. Further details will be found in the Reports of the Residents, Perak and Selangor.

Future possible extensions are from Seremban *via* Kuala Pilah through Johore to connect with the Singapore Railway and from Kuala Pilah to a central point on the Pahang river.

OPEN LINES.

31. The total receipts of the Government Railways during the year amounted to \$2,092,420 \* as compared with \$1,600,944 in 1899.

The receipts of the Sungei Ujong Railway Company, Negri Sembilan, reached \$162,322, and for the first year in its history the company did not come upon the Government for its guarantee.

The working expenses in Perak amounted to 41½% of the gross receipts, and in Selangor, where a large expenditure was incurred on special maintenance work, the proportion was 50.31%. The corresponding figure for the Sungei Ujong Railway Company is 54.85%. The profit on capital expenditure in Perak is returned at 9.33%, and in Selangor at 8.32%.

A Commission, presided over by the Judicial Commissioner, Mr. Lawrence Jackson, K.C., determined uniform passenger and freight rates.

The permanent officials of the Railway Departments will in future be placed on the Pensionable List, and the Superannuation Funds will be abolished.

It has been ordained that the central workshops for the Federated Malay States Railway shall be situated at Kuala Lumpur.

PUBLIC WORKS  
AND ROADS.

32. There is nothing of special interest to relate. The chief work in Perak was that on the Krian irrigation scheme, to which reference has already been made. I regret to say that the completion of the portion of the main trunk road in the Batang Padang district has not yet been reported.

In Selangor some progress was made with the Istana for the Sultan and the extensions to the Courts of Law approached completion.

The prolongation of the road from Kuala Lumpur towards the Ginting Bidai Pass, on the Pahang boundary, was proceeded with. The object of this road is to open up land in Selangor, not to afford access to Pahang, for which the nature of the country is unsuitable.

---

\* Inclusive of \$86,740 earned by the Province Wellesley section.

In Negri Sembilan some important cart roads are under construction, but progress, partly on account of labour difficulties, was not satisfactory during the year.

The Government of Pahang took over the Tras-Bentong road from the miner who constructed it and also commenced a 19-mile cart road from Raub to Ulu Lipis.

A Motor Car Company has recently been formed, and in anticipation of its operations iron bridges are being substituted for wooden bridges on many sections of the roads of the Federated Malay States. It is anticipated that the operations of the Company will greatly facilitate communication with the northern portion of Pahang, cars, in connection with the Singapore steamers and the Selangor Railway, running on the trunk road from Kuala Kubu to Raub and to Kuala Lipis, the head-quarters of the Government of Pahang.

The total expenditure of the Public Works Departments during the year amounted to the respectable figure of \$2,801,500 being—

|                           |     |     |            |
|---------------------------|-----|-----|------------|
| Establishments            | ... | ... | \$ 238,513 |
| Works and Buildings       | ... | ... | 858,514    |
| Roads, Street and Bridges | ... | ... | 1,704,473  |

#### EDUCATION.

33. Some statistics are given in a previous paragraph (13). Further information will be found in the Residents' Reports.

In considering the number of scholars in reference to the number of the inhabitants, it must not be forgotten that Chinese form a large portion of the population and that they do not bring with them their wives and families.

An increasing and very creditable and useful share in the work of education in the States is being taken up by the American Methodist-Episcopal Mission and by the French Missions Étrangères. The former propose, if Government assistance is forthcoming, to establish a boarding school, at an elevation of 3,000 feet, on the Larut hills. Such an institution would be of incalculable advantage to the poorer European residents, official and non-official, who cannot afford the cost of education for their children in Europe.

As regards technical education, one of the most important questions for the Federated Malay States, I can add, at present, nothing to the report made to me by the Acting Federal Inspector of Schools, which I subjoin. A separate report on the "Malay Settlement," Selangor, has been furnished to the High Commissioner. Mr. Voules writes:—

The question of technical education has been engaging the attention of the Government for some time past. There are two distinct classes for whom technical industrial education is required—

(I.) Intelligent Native and Eurasian boys, who have passed standard VII at an English School;

(II.) Native boys who have received their education in a Malay school.

For the first class, instruction in civil, electrical and mechanical engineering and surveying are required. For the second class, instruction in agriculture, metal work, carpentry; and for the girls, needlework, weaving, Malay embroidery, gold-thread work, mat and basket making. For class I. it will be necessary, when the time arrives, to start a Technical College with skilled European instructors.

The English schools, from which this school will be recruited, have not yet found the proper age level, the first complete generation of scholars has not passed through, and the

number of boys who have passed standard VII. and are still young enough to devote further time to their education, is very small. At the present time, the demand for English-speaking boys as clerks, shop assistants and accountants is so large, that every boy is snapped up on a large salary; until this demand has been satisfied, the technical school is out of the question. A small beginning has been made by providing scholarships to enable boys to be apprenticed to the Survey Department and Railway Workshops, but the number of boys ready to avail themselves of this privilege is very small.

The same difficulties are not experienced in providing industrial education for class II. For boys, classes are being established for teaching carpentry, silver work, tailoring and rattan work in the Malay Settlement at Kuala Lumpur, and special attention has been paid to these matters in the Taiping and Malacca Colleges. At the English girls' schools special importance is attached to needlework and dressmaking, whilst each of the Malay girls' schools is provided with a hand-loom and instruction is given in embroidery, basket work, etc. It must be admitted that the net results at present are not great, but it is a measure, the introduction of which, requires great care and cannot be forced.

Kuala Lumpur has been made one of the centres for the Cambridge University Local Examinations, a scholarship has been founded, on the lines of the Queen's Scholarships in the Colony, to enable the successful candidate of Federated Malay States origin to complete his education in England; 20 small money scholarships were awarded to Malay boys who had passed standard IV. in the district Malay schools to assist them in continuing their education at the Victoria Institution. As regards that Institution, it is specially gratifying to me to be able to quote from Mr. Voules' report that "the numbers and attendance show a satisfactory annual increase during the last five years, and there are now 423 boys on the register with a daily attendance of 387. The school has an efficient staff of masters and a sound commercial education is provided."

The Institution since its birth has been under the charge of Mr. B. E. Shaw, who was specially selected for the post by the Colonial Office at my request.

Owing to an outbreak of sickness and alterations to the building, the Training College at Malacca, which has taken the place of the one formerly established in Taiping, was not able to give accommodation to all the candidates from the States.

#### HEALTH.

34. The public health is reported to have been "good" in Perak and Pahang, for Selangor and Negri Sembilan the reports are not so satisfactory. In Selangor "the rainfall was exceptionally small and the climate unusually trying in consequence." In Negri Sembilan "the early part of the year was marked by a great deal of fever."

The number of in-patients treated at all Government hospitals was:—

|                |     |     |     |     |                    |
|----------------|-----|-----|-----|-----|--------------------|
| Perak          | ... | ... | ... | ... | 31,579             |
| Selangor       | ... | ... | ... | ... | 17,963             |
| Negri Sembilan | ... | ... | ... | ... | 5,016              |
| Pahang         | ... | ... | ... | ... | 1,218              |
|                |     |     |     |     | <hr/> 55,776 <hr/> |

To these figures have to be added a large number of out-patients who attend hospitals and dispensaries, and Europeans and other residents who occasionally require medical advice for themselves and their families. The strength of the European medical staff has been shown in paragraph 14 *ante*. The staff is not always at full strength owing to sickness and absence on leave. The District Surgeons, in addition to their strictly medical duties,

have to give up a great deal of their time to administration work, accounts, statistics and reports—matters which in large institutions in England are left to a lay staff. Under these circumstances, it is doubtful whether, however zealous and capable they may be, and assisted as they are by Eurasian apothecaries and dressers, they can allow sufficient time for the proper diagnosis and treatment of each of the large number of cases committed to their charge. Increased efficiency and economy, and more especially absolute correctness of statistics, might be anticipated from the appointment of a Federal Director or Superintendent of Hospitals with a sufficiently strong lay clerical staff.

Exclusive of the cost of the Pathological Department, and of the cost of the construction and maintenance of buildings (which appear under Public Works Department expenditure), the Medical Departments expended in 1900 :—

|                                   |     |     |                  |
|-----------------------------------|-----|-----|------------------|
| Personal emoluments               | ... | ... | \$164,691        |
| Drugs and other charges           | ... | ... | \$433,555        |
| Total cost of Medical Departments |     |     | <u>\$598,246</u> |

The prevailing diseases continue to be beri-beri, fever, dysentery and diarrhoea. It would be a waste of time to discuss here the theories put forward in respect of the two former diseases. An exceptionally favourable field for the study of beri-beri has been afforded to the Pathologist in the Kuala Lumpur Gaol, and special arrangements have been made, at his earnest request, for ensuring that he may take the fullest advantage of it.

The principal medical officers met again in conference and the results of their meeting have been made public.

The site acquired for the proposed Malay Leper Asylum proved on further examination to be unsuitable. Another and more extensive island has been leased for the purpose from the Colonial Government.

**PATHOLOGICAL  
DEPARTMENT.**

35. In his Annual Report for the year 1899 the Resident-General wrote :—

... but I hope for even better results from the work of the Pathologist (Dr. Hamilton Wright) who has lately arrived. He will have a very completely equipped laboratory and an unrivalled field for research, and I believe that the Institution over which he will preside is likely to attract workers from distant quarters. Their united efforts, assisted by the independent enquiries of the officers of the Government Medical Staff, may fairly be expected to achieve results valuable to humanity, and especially valuable in the treatment of tropical diseases. These States have prospered exceedingly, and I cannot imagine any better use to which some of our means may be devoted, than a scientific and sustained research into the causes, and if possible the means of preventing and curing, such scourges as beri-beri and all forms of malarial fever.

Dr. Wright assumed duty on the 6th February, 1900, and the greater part of his time during the year was taken up in the organisation of the new department, including the erection of buildings, and in tours of the different States, to acquaint himself with the nature of the country, the habits, and the social and hygienic conditions of those suffering from disease, more especially from beri-beri and malaria.

There has been unfortunate but unavoidable delay in connection with the Pathological Institute building. It was not until February [of the present year] that the Pathologist was able to occupy the Institute, which at

the date of this report is not yet completely finished and equipped. On the 8th March, 1901, however, he was able to report that "the main building is furnished with a modest equipment for doing general medical and biological research and is practically ready for workers."

I fear that "workers from distant quarters" will not come unless steps are taken to advertise the Institution and unless the Federated Malay States are allowed to offer similar advantages and assistance as it appears the Straits Settlements are prepared to render to such workers. I quote from the "British Medical Journal," of 2nd September, 1899:—

We have received from the Royal Society a copy of a memorandum forwarded by the Governor of the Straits Settlements to the Secretary of State for the Colonies. This memorandum states that the Government of the Straits Settlements desires to invite the attention of Radcliffe travelling fellows and of holders of scholarships for medical and physical research, to the study of beri-beri. . . . The Government will be glad to assist any scholar who desires to engage in the scientific investigation of this disease in the Colony by providing him with furnished quarters, rent free, by giving him free access to all the hospitals and facilities for studying the cases therein, by defraying the cost of his passage to the Colony and in any way which may be agreed upon hereafter between the scholar and Mr. J. A. Swettenham, Colonial Secretary, Straits Settlements, Singapore.

In order to obtain the full benefit of the expenditure on the department it is very advisable either that (i.) one or more assistants from Europe be appointed to the Institute, who could be occasionally detached for routine hospital work in exchange for a District Surgeon, or that (ii.) the Government Medical Staff should be increased so as to admit of District Surgeons periodically availing themselves for considerable periods of time of the advantages offered by the Institute.

It is undesirable that the Head of the Institution should be a permanent official—on the contrary, he should be relieved, say, every three years by a man fresh from the Schools of Europe or America. If that view is accepted the argument for the appointment of assistants to preserve continuity in the work of the Institute is emphasised.

One of the objects of the Institute was that subordinate Government Medical Officers, Apothecaries and Dressers, should, on appointment, undergo a short term of training, but the demands on their services has hitherto prevented this desirable object being carried out.

It is needless, in the present day, to refer to the practical value of a scientific institution such as this, engaged in enquiries on the obscure causes of disease with the hope of bringing within reach of curative treatment maladies that have hitherto defied treatment. Such institutions are now considered as a necessary part of ordinary medical administration.

Kuala Lumpur, centrally placed as regards the Federated Malay States and the Straits Settlements, is admirably situated for the purpose, and the new department should in no long time render us independent of the Saigon Institute, a result which might be accelerated by assistance in funds and men from the Colony, which, equally with us, is liable to suffer from such diseases as malaria, beri-beri, small-pox, cholera, plague, rabies, rinderpest and other endemic or sporadic, infectious or contagious diseases, and whose medical staff equally requires guidance in experimental research work, the advantages of a central laboratory and the use of the best appliances for research.

REVENUE AND  
EXPENDITURE.

36. The revenue of the States for 1900 was distributed as follows:—

|                |     |     |     |     |             |
|----------------|-----|-----|-----|-----|-------------|
| Perak          | ... | ... | ... | ... | \$7,636,126 |
| Selangor       | ... | ... | ... | ... | 6,303,165   |
| Negri Sembilan | ... | ... | ... | ... | 1,251,366   |
| Pahang         | ... | ... | ... | ... | 419,150     |

Grand total revenue, 1900... \$15,609,807

and the expenditure:—

|                |     |     |     |     |             |
|----------------|-----|-----|-----|-----|-------------|
| Perak          | ... | ... | ... | ... | \$6,144,774 |
| Selangor       | ... | ... | ... | ... | 4,944,160   |
| Negri Sembilan | ... | ... | ... | ... | 1,009,318   |
| Pahang         | ... | ... | ... | ... | 630,678     |

Grand total expenditure, 1900... \$12,728,930

The figures for previous years are shown in the Special Statement (Appendix A).

Sir Frank Swettenham's forecast (paragraph 15 of the Annual Report for 1898) that it would be safe to anticipate a revenue of \$10,000,000 in 1900, has been more than fulfilled.

The growth of the revenue is mainly attributable to the high price of tin, the operation of the sliding scale of export duty on tin, and the general impetus to business caused by the prosperity of the miners.

The proportion of the cost of establishments to revenue is given at 13.33 per cent.

## ACCOUNTS

37. The appointment of a Federal Accountant and Auditor has effected improvement in the matter of accounts, but it would appear to be advisable to strengthen his staff and assign additional duties to his department, relieving the pressure on the Perak Audit Office and so expediting the closing and rendering of the annual accounts. This Report has been delayed for information required for the annual report of one of the States. The matter is engaging attention.

The Federated States still await the establishment of the "Common Purse" referred to in paragraph 13 of the Resident-General's report for the year 1898.

## LEGISLATION

38. A large number of laws were passed and will be found enumerated in the reports of the Residents. The most important piece of legislation was the Criminal Procedure Code. A Civil Procedure Code has been the subject of revision and discussion during the year and may be ready for introduction shortly. A Courts Enactment was passed and has given rise to much criticism.

The substitution of assessors for juries is reported upon favourably.

I have called the High Commissioner's notice to the fact that Pahang has not yet sufficiently prospered to receive with advantage all the laws and regulations which are found suitable to the more advanced States, which made their first steps towards progress under a less rigid system of administration than that which has now become necessary for them.

## ADMINISTRATION.

39. The Resident-General, Sir Frank Swettenham, proceeded to Wei-Hai-Wei on an important mission in April and thence to England on leave. He is now acting as Governor of the Straits Settlements and High Com-

missioner for the Federated Malay States and Borneo and Sarawak. Mr. W. H. Treacher, Resident, Perak, was appointed to act in his place; Colonel Walker, Commandant, Malay States Guides, to act as Resident, Perak; Major Vanrenen as Commandant, Malay States Guides; Mr. H. C. Belfield, Commissioner of Lands and Mines, F.M.S., as Resident, Selangor, *vice* Mr. J. P. Rodger, on leave; Mr. D. H. Wise as Resident, Negri Sembilan, *vice* Mr. E. W. Birch, on leave; Mr. Duberly as Commissioner of Lands and Mines.

The services of Mr. F. St. George Caulfeild, State Engineer, Perak, were lent to the Colony, and Mr. T. H. Kershaw, Legal Adviser, who had acted as Judicial Commissioner, *vice* Mr. L. Jackson, K.C., on leave, has since been lent to the Straits Settlements as Attorney-General; Mr. A. T. D. Berrington acted and is acting as Legal Adviser *vice* Mr. Kershaw. A large number of other posts were held by "Acting Officers," as will be seen by reference to the Residents' Reports.

CONCLUSION.

I cannot close this Report without referring to the calamity which befell the Empire by the death of the Great Queen and Empress on the 22nd January, 1901. The news of Queen Victoria's death caused the most profound sorrow among all classes of the inhabitants of the Federated Malay States. Mr. D. G. Campbell, who was at the time acting as Resident, Negri Sembilan, has well said:—

The grief which has overtaken the whole Empire, and indeed the whole civilised world, has been felt and realised also in these small States in the heart of the Malay Peninsula. Within but a few hours of the receipt of the news at head-quarters, it had spread from village to village, and even natives, who were unable to judge all it meant, knew that not only the Europeans in their midst but also their own Rulers had sustained a great and grievous loss. The Great White Queen, the number of her children, of her grandchildren, and of her great-grandchildren, have always been subjects about which the people never tired of hearing, and which for many years to come will be told and retold in small hamlets in the depths of the Malayan forests.

The service suffered a severe loss by the death in January of the present year of Mr. Arthur Butler, Resident, Pahang. Mr. Butler was an able official, exceptionally qualified to influence the Malays for their good, and was deservedly one of the most highly esteemed and popular of the Government officers. A promising officer was lost to the service by the death during the year of Mr. H. W. Bathurst, Collector of Land Revenue, Negri Sembilan. It is also my sad duty to record the death of Sir Graeme Elphinstone, Bart., who had long been connected with the State of Perak as an enterprising planter, and whose pure and upright character had gained for him the respect of all with whom he came in contact.

W. H. TREACHER,

*Acting Resident-General,*

KUALA LUMPUR, 30th May, 1901.

F.M.S.

- CENSUS,  
1901.

POSTSCRIPTUM.—Mr. Hare has furnished me with some details of the census taken on the 1st March, 1901. These show a total increase in the population, since the census of 1891, of 257,629, or 61.55 per cent., the figures, as given by Mr. Hare, being, respectively, 418,509 and 676,138.

The most remarkable increase is in the numbers of the Chinese population, which from 163,821 in 1891, have risen to 303,364 in 1901, nearly overtaking those of the Malay population of these Malay States, which numbered 230,090 in 1891, and has now grown to 313,763. In Perak the

Chinese out-number the Malays by 10,000, and in Selangor by 68,000, these being the two great tin-producing States. Mr. Hare remarks, however, that it is satisfactory to record that the increase of the Malays, since the preceding census, has been steady, that there are no counter-balancing decreases, and that their increase is far more uniformly distributed than that of the Chinese and other races.

It is due to the large Chinese element that the disproportion of the sexes is very marked, the grand total number of males being 491,313 and of females only 184,825.

The natives of India, who form an important element in the population and are mainly British subjects, have increased from 20,177 to 52,501, an extremely gratifying result.

Europeans have advanced from 719 to 1,361 and Eurasians from 565 to 1,531.

The inhabitants of the principal towns are returned as follows (subject to revision):—

|                              |                | 1891.  |     | 1901.  |  |
|------------------------------|----------------|--------|-----|--------|--|
| Perak {                      | Taiping ... .. | 13,304 | ... | 13,331 |  |
|                              | Ipoh... ..     | 3,184  | ... | 12,791 |  |
| Selangor, Kuala Lumpur ...   |                | 19,020 | ... | 32,381 |  |
| Negri Sembilan, Seremban ... |                | ?      | ... | 4,765  |  |

### ORDER MADE BY HIS HIGHNESS THE SULTAN UNDER THE "BANISHMENT ENACTMENT, 1899."

No. 641.—Whereas it appears to His Highness the Sultan that the removal from the State of Perak of Raja Haji Abdulrahman is necessary for the public safety and welfare:

It is hereby ordered by His Highness the Sultan, with the advice and consent of the Acting British Resident, that the said Raja Haji Abdulrahman shall be, and he is hereby, banished from the State, for the period of his natural life.

13th September, 1901.

### NOTIFICATION UNDER SECTION 6 OF THE LAND ENACTMENT, 1897.

#### RESERVATION OF LAND FOR PUBLIC PURPOSES.

No. 642.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the British Resident proclaims that parcel of land situated at Bagan Tiang, described in the Schedule hereto, and delineated upon Revenue Survey Plan No. 1-14, deposited in the office of the District Surveyor, Parit Buntar, to be a reserve for the purpose of a Muhammadan Mosque, to be maintained by the Penghulu of the Misjed, or his successor in office.

#### SCHEDULE.

*District*—Krian. *Mukim*—Bagan Tiang. *Plan No.*—1-14. *Lot No.*—578. *Area*—1 rood 3 poles. *Boundaries*—North, Parit Sungei Megat Aris; East, Lot No. 577; South, Lot No. 579; West, Lot No. 579.

This Notification is made under Section 6 of the Land Enactment, No. 17 of 1897.

Dated at Taiping, this 30th day of August, 1901.

D. G. CAMPBELL,  
*Acting Secretary to Resident.*

### TOWN BOUNDARIES.

#### TAIPING.

No. 643.—Under the powers conferred upon him by Section 10 of the Land Enactment, 1897, the Acting Resident has been pleased to amend the description of the boundary of Taiping township, published in Notifications Nos. 487 and 895 of the *Gazette* of 1900, as set forth in the Schedule thereto attached.

## SCHEDULE.

*Description.*—Commencing from the south-west corner of lot No. 487, the boundary runs along the west of that lot, a distance of  $3\frac{1}{4}$  chains, to the south-east corner of the Rifle Range; thence along the southern boundary of the Rifle Range, a distance of 9 chains, to a boundary stone; thence by part of southern boundary of lot No. 160 to the north-east corner of lot No. 161; thence 351 links to the south-east corner of lot No. 161; thence along the north side of Lake road, to the south-west corner of the compound of the Senior Magistrate's quarters; thence 503 links to the south-east corner of the compound of the Senior Magistrate's quarters; thence north-east for a distance of  $5\frac{1}{2}$  chains to a boundary stone marking the south-west corner of lot No. 1,007; thence along the southern boundary of lots Nos. 1,007, 1,008, 1,009, 1,010 and 1,011; thence along the eastern boundary of lot No. 1,011, and crossing the Waterfall road; thence along the southern boundary of lot No. 48, (Roman Catholic Mission land) for a distance of  $7\frac{1}{4}$  chains; thence westwards parallel to the Waterfall road, a distance of 5 chains from the said road, until it strikes the old Kamunting road; thence northwards to the north-east corner of lot No. 1,006; thence westwards, following the northern boundaries of lots Nos. 1,006 and 1,005, to the north-west corner of lot No. 1,005; thence in a straight line to the north-east corner of lot No. 1,004; thence following the northern boundary of the said lot to its north-west corner, continuing in a straight line to the south-east corner of lot No. 250; thence following the south and south-west boundaries of lot No. 250, to its junction with lot No. 140; thence along the south-west boundary of lot No. 140, to its south-west corner; thence along the south-west boundary of lot No. 250, to its junction with lot No. 130; thence along the south-east and south-west boundaries of lot No. 130, to its junction with lot No. 137; thence along the south-west boundary of lot No. 137; thence in a straight line to the south-east corner of lot No. 105; thence along the southern boundary of lot No. 105 to the Kamunting road; thence crossing the road in the same direction to a point 5 chains distant from the road; thence southwards, parallel to, and 5 chains distant from, the Asam Kumbang road, to the north-west corner of lot No. 112; thence along the northern and eastern boundaries of lot No. 112; thence southwards in a straight line to the north-west corner of lot No. 945; thence along the western boundary of lot No. 945; thence southwards to a point 720 feet from the centre of the main road, due west of Kota bridge; thence eastwards to Kota bridge; thence along the north bank of the Kota river to the point where the continuation of the main drain from the Municipal yard enters the Kota river; thence north-eastwards, following the line of the said drain to the south-east corner of the Municipal yard; thence along the south-west and south-east boundaries of the Municipal yard to the Tupai road; thence continuing in the same straight line north-eastwards to a point  $2\frac{1}{2}$  chains distant from the centre of the Lake road; thence southwards and eastwards parallel to, and  $2\frac{1}{2}$  chains distant from, the Lake road, to the south-west corner of lot No. 1,026; thence along the southern boundary of the said lot to its south-east corner; thence in a straight line north-eastwards to the south-west corner of lot No. 487.

9th September, 1901.

## RULES MADE BY THE RESIDENT-GENERAL UNDER THE STRAITS SETTLEMENTS ORDINANCE NO. VI OF 1901

("THE MALAY STATES LEPER ASYLUM ORDINANCE, 1901").

No. 644.—The following rules are published for general information :—

In exercise of the powers conferred by Section 9 of the Straits Settlements Ordinance No. VI. of 1901, the Resident-General has been pleased to make the following rules :—

1. The orders and certificates to be used under the Ordinance shall be respectively in the forms set forth in the schedule hereto subjoined.
2. The Asylum shall be employed for the detention and treatment of persons of Malay nationality only.
3. The Asylum shall be under the management and control of the State Surgeon, Perak, assisted by such resident staff of apothecaries, dressers and attendants as may from time to time be necessary.
4. The District Surgeon, Lower Perak, shall visit the Asylum twice a month, or oftener when it may be necessary. He shall, with the approval of the State Surgeon, make such rules for the internal management of the Asylum as may be required for the guidance of the resident staff in their duties. He shall have entire administrative control over the resident staff of officers and servants, and shall superintend the treatment of patients.

5. The District Surgeon, Lower Perak, shall make monthly reports to the Resident-General with regard to the number of lepers in the Asylum, and their condition, and with regard to the requirements and conditions of the Asylum; such reports to be forwarded through the State Surgeon, Perak. He shall also forward to the State Surgeon, Perak, such departmental reports and returns as may be required of him.

6. The Asylum shall be visited by the State Surgeon, Perak, at his periodical visits of inspection or at any other time, provided that he shall visit the Asylum not less than once in every six months.

7. Lepers in the Asylum may be visited by their relations and friends at such times and under such conditions as the District Surgeon, Lower Perak, with the approval of the State Surgeon, may appoint.

8. Should the husbands or wives (not being themselves lepers) of lepers detained in the Asylum elect to reside in the Asylum with wife or husband, as the case may be, they may be permitted so to reside in the Asylum, together with their children, excepting such as are of the age of seven years or upwards, and shall be maintained at the cost of the Governments of the Federated Malay States on the following conditions:—

(a). They and their children—subject to the provisions of Sub-section (d)—shall not be permitted to leave the Asylum until the death or recovery of the detained leper with whom they have elected to reside, or until after a medical examination by a Government Surgeon, and on his certifying that they are not actually affected with leprosy.

(b). When once they have voluntarily quitted the Asylum, they shall not, except with the permission of the State Surgeon, again be permitted to reside therein (unless they return as lepers).

(c). On the death or recovery of the leper with whom they elected to reside, they shall forthwith be removed from the Asylum after medical examination and on medical certificate that they are not actually affected with leprosy.

(d). Children on attaining the age of seven years shall be forthwith removed from the Asylum if after medical examination it is certified that they are not actually affected with leprosy.

(e). All persons quitting the Asylum as provided by Sub-sections (b) and (d) preceding, and residing within any of the Federated Malay States, shall be brought or report themselves for inspection regularly once in every six months for the period of two years from the date of their quitting the Asylum to the Officer in Charge of the Government hospital nearest to their place of residence, and it shall be the duty of such Officer to report to the Superintendent of the Asylum any case in which leprosy shall have become evident.

9. Mothers of leper children—or, in the case of motherless children, fathers or other guardians—(not being themselves lepers) detained in the Asylum—who may elect to reside in the Asylum with their leper children, may be permitted to do so; provided that where a leper child at the time of admittance to the Asylum is of the age of seven years and upwards permission shall not be accorded, and provided also that:—

(a). They shall not be permitted to leave the Asylum until the death or recovery of their leper children or until after a medical examination by a Government Surgeon it is certified that they are not actually affected with leprosy.

(b). When once they have voluntarily quitted the Asylum they shall not, except with the permission of the State Surgeon, again be permitted to reside therein (unless they return as lepers).

(c). On the death or recovery of their leper children they shall forthwith be removed from the Asylum if after medical examination it is certified that they are not actually affected with leprosy.

#### SCHEDULE.

##### ORDER UNDER SECTION 4.

To the Medical Officer in charge of the Leper Asylum at Pulau Lalang:

Whereas it has been made to appear to me that *C. D.*, who has been found within the district of \_\_\_\_\_ in the State of \_\_\_\_\_ is a leper:

Now this is to authorise and require you to receive the said *C. D.* into your custody, together with this order, and to detain him in the Leper Asylum at Pulau Lalang until his death, or until his removal or discharge from the Asylum in due course of law.

Dated this                      day of                      , 190 .

(Signed)

#### CERTIFICATE OF MEDICAL PRACTITIONER UNDER SECTION 4.

I, *A. B.*, of                      , a qualified Medical Practitioner, do hereby certify that I have examined *C. D.*, of                      , and find that the said *C. D.* is a leper within the meaning of "The Malay States Leper Asylum Ordinance, 1901."

Dated this                      day of                      , 190 .

(Signed)

#### ORDER UNDER SECTION 5.

To the Medical Officer in charge of the Leper Asylum at Pulau Lalang :

Whereas *C. D.*, of                      has, since the                      day of                      , 190 , been detained in the Leper Asylum at Pulau Lalang, under an order made by the                      and dated the                      day of                      190 , and whereas it appears to me proper that the said *C. D.* should now be removed (or discharged) from the said Leper Asylum :

Now I do hereby order that the said *C. D.* be removed (or discharged) from the Leper Asylum at Pulau Lalang upon the                      day of                      , 190 .

Dated this                      day of                      , 190 .

(Signed)

## SANITARY BOARDS.

## TAIPING.

## HOUSE ASSESSMENT.

No. 645.—In accordance with Section 9 of the Sanitary Board Regulations, notice is hereby given to owners and occupiers of houses and buildings in the townships of Taiping and Kamunting, that they are required to furnish at the office of the Sanitary Board, Taiping, not later than the 1st December, 1901, a return of the annual rental of their houses and buildings, together with the names of the streets in which such premises are situated, to enable the Board to arrive at a fair valuation of the assessment to be levied for the year 1902.

The owner or occupier of any house or building knowingly furnishing a false or incorrect return will be liable to a penalty not exceeding \$100.

7th September, 1901.

## TENDERS.

## LIGHT-HOUSE, TANJONG KRANG.

No. 646.—Tenders are invited for the construction of a new Light-house at Tanjong Krang.

These should be addressed to the Secretary to Resident, sealed, and marked on the outside "Tender for Light-house, Tanjong Krang," and will be received at his office up to noon on the 23rd September, 1901.

Plans and specifications can be seen at the Executive Engineer's Office in Taiping.

13th September, 1901.

SUPPLY OF FRESH MILK TO HOSPITALS  
AND PRISONS.

No. 647.—Separate tenders are invited for the supply of fresh cow's milk, at the under-mentioned stations, for the period of twelve months, from 1st January, 1902.

District Hospitals and Prisons at Larut, Batu Gajah and Parit Buntar.

District Hospitals at Kuala Kangsar, Gopeng, Ipoh, Kampar, Teluk Anson, Tapah, Bagan Serai and Selama.

The terms of contract can be ascertained from the State Surgeon, Taiping, or from the Medical Officer of each District.

With each tender a receipt from the local Treasury, shewing a money deposit of \$20, must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned upon the acceptances of tenders having been decided.

Tenders which are sent unaccompanied by a Treasury receipt shewing the money deposit required will not be considered.

Tenders, marked "Fresh Milk Supply, Hospitals and Prisons," or "Fresh Milk Supply, Hospitals," as the case may be, should be addressed, under sealed covers, to the Secretary to Resident, and sent to his office not later than the 31st October, 1901.

13th September, 1901.

#### SUPPLY OF STERILIZED CANNED MILK TO HOSPITALS.

No. 648.—Tenders are invited for the supply of sterilized unsweetened canned milk for the State Hospitals, for the period of twelve months, from 1st January, 1902.

The terms of contract can be ascertained from the State Surgeon, Taiping.

The brands of milk for which tenders will be entertained are the "Sledge," "Highland Cream," "Ideal," and "Viking."

The average monthly consumption is about 100 cases of four dozen one pound tins.

The price tendered should be *c.i.f.* Penang, Port Weld and Teluk Anson.

Full particulars should be given as to gross and nett weight of tins. Samples and all literature regarding the various brands of milk should be sent direct to the State Surgeon.

Tenders, marked on the outside "Tender for Canned Milk," should be addressed to the Secretary to Resident, Taiping, Perak, and sent to his office not later than the 31st October, 1901.

13th September, 1901.

#### HOSPITAL AND PRISON SUPPLIES.

No. 649.—Separate tenders are invited for the supply of hospital and prison requisites, at the under-mentioned stations, for the period of twelve months, from 1st January, 1902.

District Hospitals and Prisons at Larut, Batu Gajah and Parit Buntar.

District Hospitals at Kuala Kangsar, Gopeng, Ipoh, Kampar, Teluk Anson, Tapah, Bagan Serai and Selama.

The terms of the contract can be ascertained from the State Surgeon Taiping, or from the Medical Officer of each district, who will also, on application, provide the necessary schedule forms.

With each tender a receipt from the local Treasury, shewing a money deposit of \$30, must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned upon the acceptances of tenders having been decided.

Tenders which are not made out on the proper forms, or if the "Instructions to Tenderers," which are inserted in the printed schedule forms are disregarded, or if they are sent unaccompanied by a Treasury receipt shewing the money deposit required, will not be considered.

Tenders, marked "Hospital and Prison Supplies," or "Hospital Supplies," as the case may be, should be addressed, under sealed covers, to the Secretary to Resident, and sent to his office not later than the 31st October, 1901.

13th September, 1901.

### COFFINS FOR HOSPITALS.

No. 650.—Separate tenders are invited for the supply of coffins for the under-mentioned hospitals for the period of twelve months, from the 1st January, 1902.

District Hospitals at Larut, Kuala Kangsar, Batu Gajah, Gopeng, Ipoh, Kampar, Teluk Anson, Tapah, Parit Buntar, Bagan Serai and Selama.

The terms of the contract can be ascertained from the State Surgeon, Taiping, or from the Medical Officer in charge of each Hospital.

With each tender a receipt from the local Treasury, shewing a money deposit of \$20, must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned as soon as tenders have been accepted.

Tenders which are sent unaccompanied by a Treasury receipt shewing the money deposit required will not be considered.

Tenders, marked "Coffins, Hospitals," should be addressed, under sealed covers, to the Secretary to Resident, and sent to his office not later than noon on the 31st October, 1901.

13th September, 1901.

### CONVEYANCE OF MAILS.

No. 596.—Tenders are invited for the following mail cart services in Perak, from 1st January to 31st December, 1902.

(a). Between Taiping and Padang Rengas,  $15\frac{1}{2}$  miles, once daily, each way at such times as may be fixed in conjunction with the arrival and departure of trains, the journey to be accomplished in two hours and a half.

(b). Between Ipoh and Gopeng, 12 miles, once daily, each way in two hours, at such times as may be fixed upon.

(c). Between Gopeng and Kampar, 13 miles, once daily, each way in two hours, at such times as may be fixed upon.

(d). Between Lahat and Batu Gajah, nine miles, once daily, each way in one hour and a half, at such times as may be fixed upon.

(e). Between Tapah and Temoh Railway Station, seven miles, twice daily, each way in one hour, at such times as may be fixed upon.

(f). Between Kuala Kurau and Bagan Serai, seven miles, once daily in one hour, at such times as may be fixed upon.

On Sunday one mail will be despatched from Taiping to Padang Rengas (for Ipoh), from Ipoh to Gopeng and to and from Tapah and Temoh Railway Station, also from Padang Rengas to Taiping; otherwise no mails will require to be carried on Sundays except when the Outward Mail from Europe happens to be received on that day at any office for further despatch.

The Contractor will be liable to a fine of \$2 for every hour or part of an hour that the mails are delayed beyond the specified time.

In event of loss or damage to the mails while under his charge the Contractor will be liable, in addition to a fine of \$50, to the full extent of any established claims made by the public.

Tenders may be for all or any one of the above services but in the former case it must be stated what amount is apportioned for each service. Tenders should be addressed to the Secretary to the Resident, sealed, and the cover superscribed "Tender for the Conveyance of Mails," and should be sent in before noon on the 1st October.

29th August, 1901.

#### HOSPITAL BUILDINGS, TANJONG MALIM.

No. 598.—Tenders are invited for the construction of the following Hospital Buildings at Tanjong Malim, *viz.* :—

(1) One Hospital Ward; (2) One Dispensary and Apothecary's Quarters; (3) One Dresser's Quarters; (4) One Kitchen; (5) One Bath-house; (6) One Latrine; (7) One Set of Attendants' Quarters (four rooms); (8) One Dead-house.

These should be addressed to the Secretary to Resident, sealed and marked on the outside "Tender for Hospital Buildings, Tanjong Malim," and will be received at his office up to noon on Saturday, the 21st September.

Plans and specifications can be seen in the Executive Engineer's Office at Tapah and the State Engineer's Office at Taiping, or in the Assistant Magistrate's Office at Tanjong Malim.

29th August, 1901.

Government does not bind itself to accept the lowest or any other tender.

#### DEPARTMENTAL NOTICES.

##### SENIOR MAGISTRATE'S COURT.

No. 651.—Notice is hereby given that an Assize will be held on Monday, 23rd September, at Taiping, in the Senior Magistrate's Court.

9th September, 1901.

## LAND OFFICE NOTICES.

## LARUT.

No. 652.—SALE OF TOWN LAND BY AUCTION.—Notice is hereby given that those portions of land in the township of Taiping, referred to in the schedule hereto, will be sold at public auction, on Thursday the 26th day of September, 1901, at Taiping.

The sale will take place at the office of the Collector of Land Revenue, Larut, where a plan of the land may be inspected and other information obtained.

The purchaser will be required to pay the upset price, together with survey fees and quit-rent for the current year on the fall of the hammer, and the balance of premium, if any, within a fortnight of the date of sale or on completion of grants, which ever shall first occur.

The titles will be Grants under Part II of the Land Enactment, 1897, and will be subject to the following special condition:—

That if the Grantees fail to erect on the land houses in value not less than \$1,000, and in accordance with plans approved by the Sanitary Board of Taiping, within twelve months from the dates of Grant, it shall be lawful for the Resident, acting on behalf of His Highness the Sultan of Perak, to enter on and resume the said land.

## SCHEDULE.

| 1,182   | 00 3 16  |              |                 |              |                                         |              |                                                                                                                             |                                                  |
| 1,183   | 00 3 16  |              |                 |              |                                         |              |                                                                                                                             |                                                  |

13th September, 1901.

No. 573.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Su Ah Seng of Taiping, for document of titles for land situated at Asam Kumbang, in the mukim of Kamunting, on the ground that Su Ah Seng is the registered owner thereof, and that the original Mining Leases, 217 and 218, have been lost:

16th August, 1901.

No. 551.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Muhammad Khan bin Jabar Khan of Kota, for a document of title for land situated at Madersah Road, in the township of Taiping, on the ground that Muhammad Khan bin Jabar Khan is the registered owner thereof, and that the original Town Agreement, No. 874, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the documents of title applied for will, subject to the provisions of the said Section 13, be granted.

2nd August, 1901.

No. 514.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Wan Muhammad Ali bin Wan Soh, of Bukit Gantang, for a document of title for land situated at Kubu, in the mukim of Bukit Gantang, on the ground that Wan Muhammad Ali bin Wan Soh is the registered owner thereof, and that the original Extract from the Mukim Register, No. 45, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application, the Extract from Mukim Register applied for will, subject to the provisions of the said Section 13, be granted.

GEORGE MAXWELL,

19th July, 1901.

Collector of Land Revenue.

#### MATANG.

No. 408.—Application having been made to the Collector of Land Revenue at Matang, by Leby Muhammad Arsat bin Long Panji and Che Selamah binti Ain of Simpang, for a new document of title for land situated at Simpang, in the district of Matang, on the ground that Leby Muhammad Arsat bin Long Panji and Che Selamah binti Ain are the registered owners thereof, and that the original Agreement for Agricultural Lease, No. 564, has been lost:

No. 409.—Application having been made to the Collector of Land Revenue at Matang, by Pungat binti Garang of Ayar Terojeng, Sungei Tinggi, for a new document of title for land situated at Sungei Tinggi, in the district of Matang, on the ground that Pungat binti Garang is the registered owner thereof, and that the original Agreement for Agricultural Lease, No. 887, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, No. 17 of 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette* good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

C. S. ALEXANDER,

21st June, 1901.

Acting Collector of Land Revenue.

#### KUALA KANGSAR.

No. 601.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder in the mukims of Senggang, Kota Lama Kiri, Chigar Galah, Pulau Kamiri, Durian Pipit, Kota Lama Kanan and Saiiong, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such lands or unless you enter or re-enter into occupation of such lands by making a *bond fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

30th August, 1901.

No. 602.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Mat Aris bin Ngah Jurdeh of Blanja, for a new document of title for land situated in the mukim of Blanja, on the ground that Kulup Mat Aris bin Ngah Jur leh is the registered owner thereof, and that the original Permit, No. 1,226 of 1888, has been lost :

No. 603.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Wahab bin Ngah Bedin of Kota Lama Kanan, for a new document of title for land situated in the mukim of Saiong, on the ground that Kulup Wahab bin Ngah Bedin is the registered owner thereof, and that the original Permit, No. 7,193 of 1886, has been lost :

No. 604.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Petri Jelehah binti Megat Ngah of Semunta, Senggang, for a new document of title for land situated in the mukim of Senggang, on the ground that Petri Jelehah binti Megat Ngah is the registered owner thereof, and that the original Permit, No. 618 of 1886, has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications the new titles applied for will, subject to the provisions of the said Section 13, be granted.

30th August, 1901.

No. 473.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Halimah binti Ngah Abdulrahman, for a new document of title for a piece of land situated at Gapis, in the mukim of Kampong Buaia, on the ground that Halimah binti Ngah Abdulrahman is the registered owner thereof, and that the original Extract from the Mukim Register, entry No. 716, has been lost :

No. 474.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Miur Neyope bin Toh Ismail, for a new document of title for a piece of land situated at Bota, in the mukim of Bota, on the ground that Miur Neyope bin Toh Ismail is the registered owner thereof, and that the original Permit, No. 7,448/86, whereby the land was demised to him, has been lost :

No. 475.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Itam Abu bin Haji Muhammad, for new documents of title for two pieces of land situated at Plang, in the mukim of Pulau Kamiri, on the ground that Itam Abu bin Haji Muhammad is the registered owner thereof, and that the original Permits, Nos. 450/88 and 451/88, whereby the lands were demised to him, have been lost :

No. 476.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Syed Usoh bin Syed Ahmat, for new documents of title for two pieces of land situated at Plus, in the mukim of Pulau Kamiri, on the ground that Syed Usoh bin Syed Ahmat is the registered owner thereof, and that the original Permits, Nos. 5,113/86 and 5,120/86, whereby the lands were demised to him, have been lost :

No. 477.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Ko Kuay of Kuala Kangsar, for the issue of a Mining Certificate No. 136, on the ground that the said Ko Kuay is the registered owner of Mining Certificate No. 136, and that the original Mining Certificate No. 136 has been lost :

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said sections, be granted.

5th July, 1901.

F. ROBERTSON,  
*Acting Collector of Land Revenue.*

#### UPPER PERAK.

No. 370.—Take notice that whereas you have abandoned the land described hereunder, in the mukim of Lenggong, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned

such land, or unless you enter or re-enter into occupation of such land by making a *bond fide* commencement to build on it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

| 113     |               |              |                          |              |                               |              |                       |
| 116     |               |              |                          |              |                               |              |                       |
| 119     |               |              |                          |              |                               |              |                       |
| 122     |               |              |                          |              |                               |              |                       |

The title to each lot will be a Grant under Part II of the Land Enactment, 1897, and will be subject to the following condition:—

That if the Grantee fail to erect on the land a house in accordance with the plan approved by the Sanitary Board of Tapah for third class houses within twelve months from the date of Grant, it shall be lawful for the Resident, acting on behalf of His Highness the Sultan of Perak, to enter on and resume the said land.

The conditions of sale and other information can be obtained at the Land Office, Tapah, Batang Padang. Subject to the general conditions of land sales contained in Notification No. 447 of the *Perak Government Gazette* of 1890.

30th August, 1901.

E. BURNSIDE,  
Collector of Land Revenue, Batang Padang.

No. 480.—Application having been made to the Collector of Land Revenue, at Tapah, by Masuka binti Dris of Tapah, for a new document of title for land situated at Tapah, in the district of Batang Padang, on the ground that Pandak Kudai bin Alang Kassim is the registered owner thereof, and that the original agreement for Agricultural Lease No. 108 has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new title applied for will, subject to the provisions of the said Section 13, be granted.

5th July, 1901.

R. CLAYTON,  
Acting Collector of Land Revenue.

#### KRIAN.

#### NOTICES UNDER SECTION 28 OF THE LAND ENACTMENT, 1897.

No. 653.—To the Landowners named in the Schedule below:—

Take Notice that whereas you have abandoned the land described hereunder in the mukims of Bagan Tiang, Kurau and Jalan Bharu, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bond fide* commencement to cultivate it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 13th day of September, 1901.

| " 10    | 2.24                               | 2.55  | " 20     | 8.37                               | 8.58 | " 30     | 5.35                               | 5.56  |

High Water at Port Weld is approximately 3 hours earlier than at Teluk Anson.

MARINE DEPARTMENT,  
TELUK ANSON, 17th August, 1901.

JOHN F. MILLS, Retired Commander, R.N.  
Harbour Master, Teluk Anson.

## Notes.

### PROSPECTUS FOR THE AGRICULTURAL BULLETIN OF THE STRAITS AND FEDERATED MALAY STATES.

Since 1891 a Bulletin dealing with Agri-Horticulture and other cognate subjects has been published by the Gardens Department at irregular intervals. Up to the present some nine numbers have been published and of their utility there can be no doubt: indeed, so much have they been appreciated by the Planters in the Colony, the Federated Malay States and others, that a desire has been expressed that, having regard to the large and increasing number of Agriculturists and others taking an interest in Agriculture, the time has now come when something more than the Bulletin mentioned above is required.

2. It is now proposed to publish a monthly Bulletin, which shall incorporate the old one, and as far as possible enlarge its scope by making it the medium for the exchange and record of Planters' experiences in all that pertains to their interests.

3. The lines on which it will be conducted will follow to a large extent those of similar publications in other Countries, such as the Agricultural Bulletins of Australia and some of the West Indian Islands, especially Jamaica, and it will among other things include:—

- (a). Leading Articles by the Editor and others.
- (b). Articles on Forestry, Labour Supply, Soils, etc., etc.
- (c). Extracts.
- (d). Entomological Notes, Insect and Fungus Pests, etc.
- (e). Reports of Meetings of Planters' Associations and their Annual Reports. Reports on Agricultural Shows in the Colony or Federated Malay States.
- (f). Notes and queries.
- (g). Correspondence.
- (h). Market and Trade Reports.
- (i). Weather Reports.

In fact its pages will be open to the widest possible extent to subjects of interest to the Planter, for whom in the main it is chiefly intended; it therefore cannot be too strongly urged that to make it a success, and of real use to them, each one should make a point of writing something, however small, each month, and thus in a word make it a Planters' Paper for Planters.

4. It is proposed that the Gardens Department shall continue to edit the Bulletin, as they are possibly in the best position for consulting Books of Reference; but I would here emphasise strongly the difference between editing a Paper and writing it. It is of the greatest possible importance that a band of contributors be organized, and this, I think, could best be done in the Federated Malay States by the Chairman of the United Planters' Association; in Penang and Province Wellesley by Mr. Curtis, the Assistant Superintendent, Botanic Gardens, Penang. In Perak by Messrs. Wray and Derry, the Curator of Museums, and the Superintendent of Government Gardens, respectively. In Selangor by Mr. Arden, the Federal Superintendent of Experimental Plantations; and, when appointed, by the Chief Forest Officer of the Colony and Federated Malay States. These gentlemen will, I feel sure, (if asked by the Government) be only too pleased to contribute to its pages and also collect copy in their respective districts and forward it to the Editor in Singapore. It is by this combination only that success can be achieved; and so far as the Gardens Department is concerned, no effort shall be spared to make it so. When possible illustrations will be reproduced.

5. Subscriptions payable in advance will be at the rate of \$3 per annum, or 50 cents for a single copy, and will be received by the Superintendent of the Government Printing Office, Singapore, to whom all orders should be sent. Subscriptions will commence from the 1st of October next, the date on which the first number will be issued.

W. FOX,

*Acting Director, Botanic Gardens.*

SINGAPORE, 1st August, 1901.

AUDIT OFFICER,  
TAIPING, 26th August, 1901.H. VANE,  
State Auditor, Perak.

FEDERATED MALAY STATES.

FINANCIAL REPORT FOR THE YEAR ENDING 31st DECEMBER, 1900.

BY  
THE ACCOUNTANT AND AUDITOR, F.M.S.,  
TO  
THE RESIDENT-GENERAL, F.M.S.

INTRODUCTION. 1. This report, on the financial transactions of the four States of the Federation during the year 1900, cancels my letters, No. 63 of 30th January, 1901, and No. 280 of 29th April, 1901, in which I afforded you such meagre details as were then available. I realise that the information now submitted is late in reaching you, and that its value is diminished accordingly. I, however, offer no apology for that, as, in harmony with the system which the Government favours, the necessary complete details were only placed at my disposal with the State Reports on the 8th July current on my return from Pahang, and on the eve of entering on special duties which required my undivided attention until the 24th instant. I have, nevertheless, endeavoured with the material before me to present an authentic, lucid, and comprehensive record for the year.

RECEIPTS, PAYMENTS AND CASH BALANCES.

REVENUE. 2. The total revenue amounted to \$15,609,808.60, being \$3,648,168.60 more than was estimated, \$876,806.77 in excess of the revenue of the previous twelve months, and 85.08 per cent. increase over the sum collected during the first year of Federation, 1896.

EXPENDITURE. 3. The total expenditure was \$12,728,931.75, \$83,062.25 below the estimate, \$1,206,954.18 in excess of the expenditure of the preceding year, and 48.04 per cent. increase on the disbursement made during the first year of Federation.

PERSONAL ACCOUNTS. 4. The transactions under personal accounts on both sides of the cash books represented \$83,396,818.62, or \$26,512,847.67 beyond the figures of the year 1899, and \$56,280,500.17 in excess of the sum dealt with in the first year of the Federation.

CASH BALANCES. 5. The cash balances (exclusive of \$3,378.43 in the sub-Treasury at Raub) in the Treasuries, and in the Chartered Banks on current Treasury accounts, on 31st December, 1900, amounted to \$1,840,326.89, or \$522,748.53 more than was in hand at the beginning of the year.

TRANSACTIONS TABULATED. 6. I have in the following statement tabulated the figures dealt with in the four preceding paragraphs:—

| State.                | Revenue.   |    | Receipts on personal accounts. |    | Treasury balances on 1st Jan., 1900. |    | Total.     |    |

REVENUE.

GENERAL REVIEW OF ESTIMATED AND ACTUAL REVENUE. 7. Every principal head, except one, of the revenue produced an increase over the amount estimated, the single exception being the \$283,607 estimated by Perak under "Special Receipts" in anticipation of receiving loans for railway construction against which nothing was entered as received. I do not know on what authority this item was estimated as a revenue of the State; I pointed out in para. 5 of my report for 1899, that all sums borrowed from the Crown Agents for railway construction were being dealt with as a personal account.

COMPARISON WITH STATE ESTIMATES. 8. I submit (appendix A) an abstract of the revenue for the year 1900, showing, under every principal head of the estimates, on the classification adopted in the State Estimates, the actual and estimated revenue for each State. To facilitate comparison with the Federal

COMPARISON  
WITH FEDERAL  
SUMMARY.

summary of State Estimates I also submit (appendix B) similar information following the slightly varied classification of sub-heads which was adopted in preparing that summary and also a more detailed statement \*(appendix C i.) showing for each State the actual estimated revenue of every sub-head of the estimates on the classification used for the Federal summary. In view of the information afforded by these appendices it is perhaps unnecessary for me to do more than touch upon the principal items of interest, and in so doing I propose to work on appendices B and C i.

LAND REVENUE.

9. The total excess over the estimates is common to all the States except Negri Sembilan though the proportion is greatest in Selangor.

(ii.) That Negri Sembilan is behind the other States is due to land rents bringing in \$6,361.45 less than was expected. This was also an item in which Pahang and Selangor fell slightly short of the estimate. The monthly statements which were forwarded to me by the land officers (not including Klang, Ulu Langat, Tampin and Ulu Pahang) show that the total amount of quit-rents shown as collectable in the rent-rolls for town, country and mining lands, on 1st January, 1900, was \$441,940.60; this was increased to \$474,727.33 by rents on titles issued during the year. Deducting the amount shown in these statements as actually collected, and rents on cancelled titles, the balance remaining still due to the States on 31st December last was \$62,480.93, or 13.16 per cent. of the total sum represented as collectable in the rent-rolls of the year 1900—a result which can hardly be regarded as quite satisfactory. Perak was responsible for arrears of \$54,774.42, Selangor \$4,248.56, Negri Sembilan \$1,565.05, and Pahang \$1,897.90. The Treasury accounts show that for quit-rents on town, country and mining lands the sum of \$388,502.49 was received from these land offices against \$378,770.47 reported in the statements sent to me by the land officers—a discrepancy which needs explanation. The difference is shown thus :—

| State.                | Shown as due<br>in rent-rolls<br>less amount<br>written off on<br>cancelled<br>titles. | Reported as<br>collected. | Actual amount<br>received by<br>Treasuries. | Difference<br>to be<br>explained |

| Total ...             | 441,251 40                                                                             | 378,770 47                | 388,502 49                                  |                                  |

I furnish in appendix \*C ii. further particulars for each State, and in appendix \*C iii. a summary of the figures of the four States.

(iii.) Registration of transfers and charges realised \$15,676.75 on an estimate of \$10,690, the excess being general in all the States, the proportion being greater in Selangor.

(iv.) Fees of survey produced \$6,094.42 less than was expected, every State contributing to the deficiency.

(v.) Premia for leases on mining lands realised an extraordinary excess of \$50,910.8 on an estimate of \$38,150, the excess being chiefly due to Selangor (\$35,622.17) and Perak (\$15,043.18.)

(vi.) The estimate for rents on mining leases was exceeded by \$22,731.11, Perak contributing an excess of \$18,939.81 and Negri Sembilan \$2,508.10.

(vii.) The land transactions on which fees were paid by means of revenue stamps are reported to represent \$15,519, which stand credited in the Treasury to the postal department as mentioned in para. 18 of this report.

FOREST REVENUE.

10. The estimate of \$162,780 was exceeded by \$79,663.33, Perak being principally responsible for the excess.

(ii.) Charcoal licenses yielded \$19,117.50 on an estimate of \$11,745, all the States exceeding their expectation.

(iii.) Rattan licenses are not credited as such elsewhere than in Perak, and there \$9,193.75 was collected on an estimate of \$4,500.

(iv.) Woodcutters' licenses brought in \$63,832.22 on an estimate of \$41,475, all the States contributing fairly evenly to the excess.

(v.) Nothing was credited for gutta licenses in Negri Sembilan, Selangor and Pahang collected less than was estimated, and in Perak there was a slight excess.

(vi.) Firewood licenses produced \$39,482 on an estimate of \$23,125. Towards this excess Perak gave \$15,128 and Negri Sembilan \$1,229. The other two States did not credit fees to this sub-head of revenue.

\* Not printed.

(vii.) Tithes on gutta produced an excess of \$6,408.95 in Pahang and a deficiency of \$1,263.23 in Perak. Selangor does not show any collection from this source of revenue under "Forests," but \$1,305.04 was collected and credited under "Customs." In Negri Sembilan the account was not kept separately, and whatever was received was credited to "Jungle Produce" under "Customs." The collection and export of getah was prohibited in Selangor from 1st October, 1900, and from Perak and Negri Sembilan from end of the year 1900.

(viii.) Tithes on timber more than doubled on an estimate of \$7,675. Perak collecting \$10,711.43 on an expectation of \$4,600, and Pahang \$5,185.09 on an estimate of \$3,075. Selangor and Negri Sembilan not crediting anything under this head.

#### LICENSES.

11. That the total estimate of \$2,005.214 was exceeded by \$25,125.45 is due to the Pahang Getah Farm realising \$14,000 more than was expected, and to the fishing stakes and fishermen's licenses in Perak exceeding the estimate by \$5,342.10.

#### CUSTOMS.

12. The enormous excess of \$2,929,556.70 on a large estimate of \$6,215,070 is due to tin and opium.

(ii.) **TIN**—The total duty received for tin exported was \$7,050,125.23 on an estimate of \$4,581,070, and against \$6,182,360.75 collected in the previous year.

(iii.) The quantity of smelted tin and tin ore (latter reduced to 68 per cent. on gross weight) exported was pikuls 713,059.62 as against pikuls 643,985.28 in 1899. While the increase in the combined weights was general in the four States, Negri Sembilan alone fell below the figures of 1899 in the weight of smelted tin exported, and Selangor achieved the same distinction in regard to tin ore.

(iv.) Thus while the duty received on tin rose by 14.04 per cent. on the figures of 1899, the quantity of tin exported only increased by 10.73 per cent. The explanation is that the price of tin continued to rule high throughout the twelve months, and that the sliding scale referred to in para. 7 of my report for 1899 operated favourably to Government. The fluctuation in price of the metal ranged from \$60.50 to \$85.50 per pikul the average price quoted by each State being Perak \$74.15, Selangor \$74, Negri Sembilan \$74.19.

(v.) In all the States the revenue derived from this source reached figures which have never before been attained in the history of these States. In Perak the quantity exported was greater than in any year since 1896. It is pointed out that while the Pahang export increased by nearly 17 per cent. over the figures of 1899 the revenue rose by nearly 30 per cent., the disproportionate increase being caused by a great increase in the tin won by ordinary miners who pay a duty of 10 per cent. to Government, and a decrease in the tin won by the Pahang Corporation which pays only 8 per cent. to Government.

(vi.) I give in appendix D i. a statement of the tin and tin ore exported from the Federated Malay States and the duty collected thereon by Government during the years 1899 and 1900, the weights have been taken from figures given by the Residents in the body of their reports and in the appendices, the tin duty figures are those furnished by the State Auditors. In para. 7 of my report for 1899 I stated that the official returns, compiled by the Warden of Mines, Negri Sembilan, containing similar information for the Federation, did not in all cases agree with the figures given by the Residents. I now find that the same unsatisfactory condition is presented by the 1900 figures, and I repeat that in such important statistics complete agreement should appear, and I express a hope that measures may be adopted by you for attaining this desirable end. The figures given by me in appendix D i. of this report will be found to differ in some respects from the Warden's figures for the Federated Malay States, in some respects from the figures quoted by the Residents in their reports for 1900, and in some instances from the figures published for the States in the State *Gazettes*. The weight of, and duty paid on, wolfram exported should be entirely separated from figures which are intended to give information regarding tin only.

(vii.) **OPIMUM**.—The duty collected on opium amounted to \$1,949,662.20 or \$475,262.20 in excess of the estimate, explained as follows:—

|                |     |     |           |           |     |        |                |
|----------------|-----|-----|-----------|-----------|-----|--------|----------------|
| Perak          | ... | ... | Estimated | \$774,400 | ... | Actual | \$1,041,216.00 |
| Selangor       | ... | ... | "         | 650,000   | ... | "      | 845,325.00     |
| Negri Sembilan | ... | ... | "         | 50,000    | ... | "      | 63,121.20      |

(viii.) In these States the Government collected the duty throughout the year. In Perak and Selangor the rate was \$12 per ball, in Negri Sembilan it was \$16 per ball for the Coast districts and \$12 per ball for the inland districts. Wherever Chandu Farms exist they pay the duty to Government just the same as in places where such farms do not exist.

(ix.) In Pahang the General Farm has the sole right to opium duty as it is one of the privileges of the General Farm, but it would be well in future lettings of the farms to separate the opium duty, and for Government to collect it as in the other States.

(x.) Writing in 1898 the Secretary for Chinese Affairs, F.M.S., said that the total opium revenue of the Federated Malay States in this year (? 1898) was barely \$1,250,000. The total revenue of the Federated Malay States was \$9,364,472.27 in 1898, and the proportion which opium duty bore to the total revenue was 7.49, whereas in 1900 the proportion was 8.01.

(xi.) **MISCELLANEOUS DUTY** in Selangor was estimated to yield only \$300, but it was credited with \$10,356.21 for duty collected on exports of blachan, fish, hides, copra, sugar, and

in fact everything dutiable except tin, coffee, gambier and pepper. It is explained that the Selangor *Gazette* notification of 23rd February brought into force the collection of custom export duties on fish and allied produce, but that is hardly a sufficient reason for not classifying the revenue with greater discretion.

(xii.) **GOLD DUTY.**—The duty collected in Pahang on gold exported during the year 1900 was \$29,106.65, or \$6,706.32 less than in 1899: the quantity of gold exported from various parts of the State during these two years was as follows:—

| Company.              | Exported. |        | Increase. |     | Decrease. |     |
|-----------------------|-----------|--------|-----------|-----|-----------|-----|
|                       | 1899.     | 1900.  | Oz.       | Oz. | Oz.       | Oz. |
| Raub...               | 12,798    | 12,477 | —         | —   | 321       | —   |
| Silensing             | 3,481     | 1,009  | —         | —   | 2,472     | —   |
| Punjom                | 2,016     | 193    | —         | —   | 1,823     | —   |
| Kechau                | 50        | 2,472  | 2,422     | —   | —         | —   |
| South Raub            | 162       | 863    | 701       | —   | —         | —   |
| Malaysian             | —         | 27     | 27        | —   | —         | —   |
| Miscellaneous         | —         | 7      | 7         | —   | —         | —   |
|                       | 18,507    | 17,048 | 3,157     | —   | 4,616     | —   |
|                       | 17,048    | —      | —         | —   | 3,157     | —   |
| Nett decrease in 1900 | 1,459     | —      | —         | —   | 1,459     | —   |

In the three previous years the exported gold paid duty in 1898 on 22,200 ounces, in 1897 on 26,420 ounces, and in 1896 on 21,300 ounces.

PORT AND  
HARBOUR DUES.  
COURTS.

13. It is noticeable that on an estimate of \$1,850 for passes for boats, Perak credited only \$165.25.

14. Pahang was the only State which fell short of the estimated revenue, and in the other States the excess revenue has been general under most of the sub-heads.

(ii.) Selangor has recorded that there are reasons which make it not improbable that the full amount of revenue earned by the Civil Courts may not have been so credited as the stock of judicial stamps (the means of ear-marking this revenue from sale of stamps) ran short during the year and it became necessary then to substitute the ordinary revenue stamps. Despite the care taken to keep a separate account of the revenue stamps thus issued for judicial purposes it is not unlikely that the Courts lost legitimate revenue and the Postal and Telegraph Department gained fictitious revenue during this period. Though this feature is not noticed by Perak and Negri Sembilan, it is quite probable that the same may be said of the Civil Court revenue in those States. There was in 1900 a strong inclination on the part of Government to introduce one description of stamp label for judicial, postal, and general revenue purposes, but I am glad to record that this unjustifiable confusion of revenue was finally averted and that now all sales of judicial stamps are credited to the Civil Court revenue.

FEEES OF OFFICE.

(iii.) Pahang has not yet adopted the judicial stamp system in its Civil Courts.

15. The increase of \$11,450.68 over the \$29,130 estimated is due to a general increase under most of the sub-heads in each State, and also to Selangor having credited against "nil" estimate a sum of \$4,890.85 realised for issue of hawkers' licenses under an Enactment which came into force after the 1900 Estimates had been framed. It would, however, have been more correct to have opened a sub-head classed "Passes to Pedlars and Hawkers," as in the other States.

REIMBURSE-  
MENTS.

16. Notwithstanding that substantial improvement on the estimated revenue appears under many of the sub-heads, especially proceeds of prison labour, printing office receipts and miscellaneous, the total received was only \$182,784.62 on an estimate of \$190,672. The deficiency is mainly due to the sale of Public Works stores in Selangor having brought a \$31,784.41 less than was expected, and to Perak not receiving the \$5,000 estimated for Federal contribution to the Lepet Establishment, and to Perak and Selangor not realising anything against the \$8,500 anticipated as recoverable for diets at the immigration depot.

INTEREST.

17. Against an estimate of \$109,200 the revenue accounts were credited with \$368,181.15—the excess being contributed to by all the sub-heads of interest. In Perak the profit on copper and silver coins was \$8,983.16 more than the estimate, and while the interest on the daily balances of that State exceeded expectation by \$9,381.01, the corresponding source of revenue yielded in Selangor \$8,168.17 less than was expected.

(ii.) Under the sub-heads "Miscellaneous," Selangor credited \$27,233.91 received from the Federal account as interest on advances made during 1899, including arrears of interest for 1897 and 1898. Perak credited the sum of \$123,473.83, which included \$122,415.67 for adjustment of exchange on sterling railway advances obtained through the Crown Agents.

(iii.) Selangor received \$72,430.77 as interest on fixed deposits with the Chartered Banks, but I do not understand why nothing was estimated under this sub-head.

(iv.) The sum estimated as interest on Loans by Selangor was exceeded, because Selangor credited to this sub-head the interest (\$68,543.62) due by Pahang up to end of the year, increasing Pahang loan account by this amount.

POSTS, TELE-  
GRAPHS AND  
STAMPS.

18. This department received \$191,526.23 on an estimate of \$152,160, the main source of this increase being the sale of postage and revenue stamps, which realised \$160,383.19 on an estimate of \$130,070. It should, however, be remembered, as represented by me in correspondence, that this increase by no means represents the true growth in the *boni fide* revenue of the combined Postal and Telegraph Department, for it includes the entire receipts for sale of postage and revenue stamps (one label for both), thus crediting the department with considerable revenue which is earned under the Stamp Enactment, especially in connection with transactions which occupy the attention and time of the Land Department, so that no inconsiderable share of the revenue of the Post and Telegraph Department is obtained by merely selling stamps to the public for services which in no other way entails responsibility, labour, or expense on the resources of the Post and Telegraph Department. It is not only in this respect that the identity of the source of revenue is lost, for the accounts of the States thus afford no guide as to the money earned by its postal system as distinguished from that earned by its telegraph system.

(ii.) The sub-head "Fees on Telegrams" includes in Perak a sum of \$3,206.55 due by other administrations to Perak in connection with telegrams passing over the Perak system, the charges for which were collected from the public elsewhere than in Perak.

19. It is time that the important accounts of this department are kept on an uniform system, and, as the Government has approved of that adopted by Mr. Nelson for the Perak offices (introduced into Negri Sembilan since 1st January, 1901), I suggest that Selangor and Pahang should fall into line in this respect.

20. The Pahang office should be separated from the Treasury and placed under the care of an officer who would be able to devote his entire time to improving its working and enlarging its capacity as a revenue-earning and self-supporting department. In this connection it is well to repeat here, what I have already urged elsewhere, that, in my opinion, it would be just for the Federation to make Pahang an annual grant towards the cost of upkeeping the telegraph lines. The ground being that Federal administration benefits to a very considerable extent by a telegraphic system, which Pahang finds, in its present straitened circumstances, a severe tax on its resources.

RAILWAY.

21. The open line railways of Perak and Selangor earned \$2,005,679.98 on an estimate of \$1,616,500, or an excess of \$389,179.98 towards which Perak contributed \$141,801.34 and Selangor \$247,378.64. This is the largest revenue yet earned by the railways of these two States, and is \$410,874.55 beyond the figures of 1899: full details are furnished in the reports which the Resident Engineers have already submitted to Government.

22. The Province Wellesley section of the Federated Malay States Railways earned in addition to above figures the sum of \$86,740.43, but of this only \$74,783.35 were passed into the Treasury accounts of the year 1900, the balance coming into the accounts of current year. The revenues of the Federated Malay States Railways are dealt with in the Federal accounts, and it is therefore likely to lead to confusion if the figures are merged with those of the Perak State Railway as they have been in the Perak Administration Report for the year 1900. Any reference to this section of the Federated Malay States Railways should, in my opinion, be entirely distinct from the reported transactions of the Perak line.

23. During the year instructions were issued defining the responsibility of the State Audit Departments and the Railway Audit Departments in respect of the revenue and expenditure accounts of the railways. In the endeavour to avoid the same work being done twice it has been necessary to place very considerable reliance in the matter of revenue audits on the railway audit staffs, which are under the direct control of the Resident Engineers. I am not altogether satisfied with the arrangement—it is apparently the best possible under existing conditions, but when the Government accepts my proposals in regard to reorganising the financial machinery of the Federation it may be possible to exercise a more satisfactory control over railway revenue audits.

24. It has been reported by the Resident Engineer, Perak, that the audit and account branch of the railway (open line), under the supervision of Mr. S. M. Gregory, was, in spite of the large increase of work, ably administered; 584 audit visits were paid to the out-stations during the year, of which 40 were in the nature of surprise audits.

MISCELLANEOUS  
RECEIPTS.

25. The excess of \$20,110.36 over the sum estimated as derivable from this source is due to Selangor crediting against an estimate of \$2,120 the sum of \$11,956.49, of which \$9,983.17 was for profit on silver and copper coins, an item which would have been more correctly shown under "Interest," and Negri Sembilan crediting \$5,111.27, against an estimate of \$650, the excess being caused by the transfer to revenue of unclaimed deposits in the personal accounts.

MUNICIPAL.

26. Under the heading "Municipal" \$420,265 was estimated, and \$483,166.88 received. The increase being mainly accounted for by taxes on vehicles, fees of street stalls, fees for removal of night-soil; while, on the other hand, the estimate was beyond the amount received for sale of night-soil buckets and rikisha badges.

27. Perak and Selangor are the chief contributors to municipal revenue. Of the \$45,743.76 received from this source in Negri Sembilan, \$14,409 was for taxes on vehicles. In Pahang, the collection of revenue towards this source practically began with the year 1900, \$3,078.92 being received during the twelve months.

28. The statements which have been sent to me monthly by the Sanitary Boards in Perak, Selangor (excepting Ulu Langat), and Negri Sembilan show that the total amount borne on the assessment rolls for the year was \$109,836.96, supplemented by \$1,721.03 received in excess of that sum, and that the actual amount collected was \$103,131.49 leaving an uncollected balance of \$8,426.50, the greater part of which is for vacant and demolished houses and therefore irrecoverable. With the exception of the fact that in Lower Perak, Kuala Pilah and Tampar the collections were in excess of the reported value of the rent-rolls, these returns would be extremely satisfactory if they only agreed more nearly than they do with the amount paid in to the Treasuries during the year for house, lighting, fire and water assessment, which represents a total sum of \$111,660.65, or \$8,529.16 more than the returns show as collected. I tabulate below the figures which produce this result:—

| State.                | Shown as due in assessment rolls plus supplementary amounts. |    | Collections shown in Sanitary Board returns. |    | Actual amount received by Treasuries. |    | Difference to be explained. |    |
|-----------------------|--------------------------------------------------------------|----|----------------------------------------------|----|---------------------------------------|----|-----------------------------|----|
|                       | \$                                                           | c. | \$                                           | c. | \$                                    | c. | \$                          | c. |
| Perak ... ..          | 50,638                                                       | 51 | 48,542                                       | 08 | 49,442                                | 11 |                             |    |
| Selangor ... ..       | 49,410                                                       | 16 | 45,002                                       | 10 | 52,631                                | 23 |                             |    |
| Negri Sembilan ... .. | 11,509                                                       | 32 | 9,587                                        | 31 | 9,587                                 | 31 |                             |    |
| Total ...             | 111,557                                                      | 99 | 103,131                                      | 49 | 111,660                               | 65 | 8,529                       | 16 |

I furnish in appendix \* Dii. fuller particulars for each State.

#### EXPENDITURE.

#### GENERAL REVIEW OF ESTIMATED AND ACTUAL EXPENDITURE.

29. The expenditure provided for the services of the year was \$12,811,994, and of this sum all but \$83,062.25 was spent, the actual and estimated amounts under each principal head of the estimates for each State being given in appendix E i. Of the total expenditure 28.77 per cent. was for personal emoluments and other charges (exclusive of railways) and 37.08 per cent. for State railways. In appendix E ii. will be found a detailed statement of the percentage which the cost of establishments, exchange compensation and other allowances bears to the revenue of each State, and for the Federation during the year.

#### EXPENDITURE WITHIN ESTIMATES.

30. Under the following headings the expenditure was within the provision to extent of the figures stated against each:—

|                                                |              |
|------------------------------------------------|--------------|
| Personal Emoluments ... ..                     | \$199,896.10 |
| Other Charges ... ..                           | 95,100.13    |
| Federal Charges ... ..                         | 76,989.85    |
| Miscellaneous Services ... ..                  | 3,277.74     |
| Land Resumed for Public Purposes ... ..        | 11,324.30    |
| Works and Buildings, Annually Recurrent ... .. | 5,565.87     |
| "    "    Special ... ..                       | 231,327.36   |
| Roads and Bridges, Annually Recurrent ... ..   | 28,157.77    |
| "    "    Special ... ..                       | 156,001.31   |
| Municipal ... ..                               | 2,564.45     |
| Total savings ... ..                           | \$810,204.88 |

#### EXPENDITURE IN EXCESS OF ESTIMATES.

The total amount voted was exceeded for the following services to extent of the figures stated against each:—

|                                               |              |
|-----------------------------------------------|--------------|
| Salaries and Allowances, Native Chiefs ... .. | \$23,757.50  |
| Pensions and Retired Allowances ... ..        | 11,885.77    |
| Transport ... ..                              | 6,800.91     |
| Interest ... ..                               | 1,379.11     |
| Works and Roads Revotes ... ..                | 20,344.95    |
| State Railways ... ..                         | 553,783.46   |
| Total excess over estimates ... ..            | \$617,951.70 |

#### SPECIAL EXPENDITURE UNFORESEEN. NETT SAVINGS ON ESTIMATES.

In addition, \$109,190.93 was disbursed as "Special Expenditure" for which no provision had been made on the annual estimates.

|                                        |              |
|----------------------------------------|--------------|
| Thus:—Total savings ... ..             | \$810,204.88 |
| "    overspent on estimates ... ..     | 617,951.70   |
| Special expenditure unforeseen ... ..  | 192,253.18   |
| Nett saving on annual estimates ... .. | \$109,190.93 |
|                                        | \$83,062.25  |

\* Not printed.

**"PERSONAL  
EMOLUMENTS,"  
"OTHER  
CHARGES,"**

31. In all the States the expenditure under "Emoluments" and "Other Charges" was kept within the total provided.

**SALARIES, ETC.,  
NATIVE CHIEFS.**

32. Salaries and allowances, Native Chiefs, in Perak were exceeded, principally on account of the chabut paid to His Highness the Sultan on Kampar tin exceeding the estimate by \$32,768.

**PENSIONS.**

33. The excess on pensions and retired allowances was chiefly due to Perak having debited to this heading the difference on exchange on pensions paid in England and India - in previous years it was charged to "Interest," and this also accounts for the Perak expenditure under "Interest" being \$10,466.43 short of the sum provided.

**INTEREST.**

34. Perak debited to the main head "Transport" the sum of \$1,794.16 for passages to England of an officer's wife and family, passages of banished prisoners, chaplain's transport, and expenses of Tamil interpreters' examination.

Selangor's increase under this head is due to heavy calls for an unusually large number of passages for officers on first appointment.

**FEDERAL  
CHARGES.**

35. The provision for Federal charges was over-estimated in Perak and Selangor and Pahang, and marvellously well estimated in Negri Sembilan. As this expenditure depends on the total Federal expenditure and on the proportion which it bears to the State revenue the estimate is necessarily only approximate.

**WORKS AND  
BUILDINGS  
SPECIAL.**

36. That "Works and Buildings--Special" did not absorb the full sum provided was due mainly to only \$6,500 being spent of the \$36,500 voted for the new gaol at Batu Gajah; also to the Krian irrigation works having spent only \$163,413.03 against a vote of \$250,000. In Pahang the chiefly causes contributing to the total estimate for that state being exceeded were:--

|                                                   |            |
|---------------------------------------------------|------------|
| Hospital and Dressers' quarters at Bentong ... .. | \$2,560.00 |
| Quarters for Gaoler ... ..                        | 654.50     |
| House for Protector of Chinese ... ..             | 2,555.00   |
| „ Superintendent of Surveys ... ..                | 2,250.00   |
| Repairs to Istana Rupa ... ..                     | 983.85     |

all these items being revotes for which no provision existed in the estimates of the year, and it would have been more correct to show them under the heading of "Revotes" as in Perak and Selangor.

The Raub water supply (\$2,586.63) was also a special service, unforeseen when the estimates were framed.

**ROADS AND  
BRIDGES  
SPECIAL.**

37. "Roads and Bridges--Special" contributed a large saving on the amount voted, mainly due to Selangor having the following unspent balances at close of the year:--

|                                                                                 |             |
|---------------------------------------------------------------------------------|-------------|
| Completion of metalling new Damansara Road to Anak Ayer Batu ... ..             | \$ 3,865.90 |
| Metalling Ginting Bidai Road ... ..                                             | 7,668.55    |
| Jalan Kabun-Damansara Road ... ..                                               | 7,851.86    |
| Water supply, Klang and Kuala Klang ... ..                                      | 101,952.82  |
| Abutments for Cheras Bridge ... ..                                              | 2,879.12    |
| Conversion of bridle-path from Bukit Rotan to Rawang Road into cart road ... .. | 4,000.00    |
| Metalling Bernam Road from 2nd mile to junction with Jalan Rimau Tenggis ... .. | 3,500.00    |
| Road from Kuang railway station to Pengkalan Kundang ... ..                     | 8,769.10    |
| Survey of trace, Gumut to Kuala Kerling ... ..                                  | 3,600.00    |
| Abutments to iron bridge over Bernam River, Tanjong Malim ... ..                | 4,939.44    |

besides \$8,000 being transferred from provision for road from Semenyih to the railway to the annually recurrent expenditure under "Roads and Bridges."

In Perak the combined unspent balances in the districts of Lower Perak and Kuala Kangsar were \$15,672.

Pahang exceeded its allotted sum by spending \$7,205.66 more than had been voted for contribution towards cost of constructing the Tras-Bentong Road, and by disbursing against no provision in the estimates \$10,288.20 for construction of the earth road from Raub to Batu Talam, and \$500 for clearing the Blat River.

**ROADS AND  
WORKS REVOTES.**

38. The excess over estimates in Perak under "Roads and Works Revotes" was principally due to the iron bridges at Ipoh and Kampong Kapayang costing \$11,422 more than was provided. In Selangor the original provision of \$87,250 was increased to \$13,984.08 by supplementary amounts, and of the total \$95,777.98 was spent.

The chief unspent balances being:—

|                                                             |     |     |     |     |     |             |
|-------------------------------------------------------------|-----|-----|-----|-----|-----|-------------|
| Astana, including furniture...                              | ... | ... | ... | ... | ... | \$22,100.93 |
| Rest House and Kitchen, Tanjong Malim                       | ... | ... | ... | ... | ... | 2,500.00    |
| Conversion Ginting Bedai bridle-path—3 miles—into cart road | ... | ... | ... | ... | ... | 1,849.64    |
| Metalling Kapar Tap Road...                                 | ... | ... | ... | ... | ... | 2,162.65    |
| „ Sungei Chau-Ayer Etam Road...                             | ... | ... | ... | ... | ... | 3,658.97    |
| „ Sungei Besi Road                                          | ... | ... | ... | ... | ... | 4,368.33    |

MUNICIPAL.

39. Municipal works in Perak and Pahang were charged under the estimates of the Public Works Department. In Selangor they appeared under the heading “Municipal.”

The unspent balances in Selangor are due to small savings on nearly all the sub-heads.

In Negri Sembilan the sum of \$20,350.57 was spent against a “nil” estimate; there is apparently a portion of the amount which appears in the State Auditor’s abstract under the classification “Other Charges” for which his figures are \$176,389.70 and nothing under “Municipal,” whereas in appendix A of the Resident’s report “Other Charges” are \$156,039.13 and “Municipal” as \$20,350.57.

STATE RAILWAYS.

40. The excess over estimated State Railway expenditure in Perak is accounted for by excesses on construction of new lines and ways and works as follows:—

|                       |     |     |     |     |     |           |
|-----------------------|-----|-----|-----|-----|-----|-----------|
| Prai-Parit Buntar     | ... | ... | ... | ... | ... | \$244.491 |
| Parit Buntar-Taiping  | ... | ... | ... | ... | ... | 60,000    |
| Taiping-Kuala Kangsar | ... | ... | ... | ... | ... | 78.378    |
| Kuala Kangsar-Chemor  | ... | ... | ... | ... | ... | 76.718    |
| Tapah-Tanjong Malim   | ... | ... | ... | ... | ... | 141.669   |

and, on the other hand, there was a saving of \$80,418 under “New Works on Capital Account.”

41. In Selangor the \$2,221,804 provided in the annual estimates was increased to \$2,633,491.09, by supplementary warrants issued during the year—of this total \$2,276,510.27 were spent; the principal unspent balances were for:—

|                                      |     |     |     |     |     |             |
|--------------------------------------|-----|-----|-----|-----|-----|-------------|
| Expenditure on Revenue Account       | ... | ... | ... | ... | ... | \$33,110.12 |
| „ Capital Account:—                  |     |     |     |     |     |             |
| Extension to Fire Shed               | ... | ... | ... | ... | ... | 1,000.00    |
| Bridge 36½ mile North Section        | ... | ... | ... | ... | ... | 4,019.76    |
| Extension of Carriage Washing Shed   | ... | ... | ... | ... | ... | 12,000.00   |
| New Engine Shed                      | ... | ... | ... | ... | ... | 9,400.00    |
| General Stores sidings, etc.         | ... | ... | ... | ... | ... | 20,000.00   |
| Wharves at Kuala Klang (to complete) | ... | ... | ... | ... | ... | 92,950.07   |
| Relaying Klang-Batu Tiga Section     | ... | ... | ... | ... | ... | 42,107.91   |
| Tanjong Malim Extension              | ... | ... | ... | ... | ... | 18,518.21   |
| Seremban Extension (in Selangor)     | ... | ... | ... | ... | ... | 59,334.57   |
| „ „ (in Negri Sembilan)              | ... | ... | ... | ... | ... | 63,858.18   |

42. Negri Sembilan spent all the \$25,000 estimated for repairs to the railway at Port Dickson, but did not make any disbursements against the \$5,000 provided for the Railway 4 per cent. Guarantee.

SPECIAL  
EXPENDITURE.

43. Special expenditure was not estimated for in any of the States, though the total sum of \$109,190.93 was spent.

In appendix F will be found the details. The principal items being:—

|                                                   |     |     |     |     |     |             |
|---------------------------------------------------|-----|-----|-----|-----|-----|-------------|
| Refund of Revenue                                 | ... | ... | ... | ... | ... | \$13,992.95 |
| Contribution to Indian Famine Fund                | ... | ... | ... | ... | ... | 22,000.00   |
| Rice Allowance (Selangor)                         | ... | ... | ... | ... | ... | 19,349.74   |
| Rinderpest Epidemic                               | ... | ... | ... | ... | ... | 6,933.99    |
| Purchase of Steam Launch (Negri Sembilan)         | ... | ... | ... | ... | ... | 10,000.00   |
| Coffee Caterpillar Pest Treatment                 | ... | ... | ... | ... | ... | 4,478.83    |
| H.H. the Sultan and Orang Kaya of Pahang - Punjom |     |     |     |     |     |             |
| Concession                                        | ... | ... | ... | ... | ... | 4,800.00    |
| Perak—Reman Boundary Commission                   | ... | ... | ... | ... | ... | 5,218.00    |

Many of the items comprised in appendix F would have been more appropriately classified under other headings than that of “Special Expenditure.”

FEDERAL EXPENDITURE AND REVENUE.

EXPENDITURE.  
REVENUE.

44. The expenditure recoverable from the four States for cost of the Federal administration during the year 1900 was \$732,634.06 on an estimate of \$813,097. The Federal revenue was \$77,392.42 on an estimate of \$150,000. On the 8th May last I reported (my letter 304/01) on the Federal accounts for 1900, so I will merely say here that the Federal expenditure and revenue will be found in the accounts of the States for the year 1901—apportioned in accordance with the revenue of each State for the year 1900.

FEDERAL  
TREASURY.

45. The make-shift arrangement of past years for keeping the Federal accounts has given way to a change which I introduced from 1st July, 1900, whereby there is now practically a Federal Treasury—with its own complete set of books—under the management of the Treasurer of Selangor.

## ASSETS AND LIABILITIES.

## EXCESS ASSETS.

46. Assets of the Federation in excess of liabilities grew during the year 1900 from \$2,074,914.07 on 1st January to \$4,955,790.92 on 31st December, all the States, except Pahang, sharing in this prosperity.

## STATE PROGRESS.

47. I present the following tabulated statement which briefly explains the change which has occurred in the financial position of each State during the twelve months:—

| State.                | 1st January, 1900. |           | 1st January, 1901. |           |
|-----------------------|--------------------|-----------|--------------------|-----------|
|                       | +                  |           | +                  |           |
|                       | \$                 | c.        | \$                 | c.        |
| Perak ... ..          | 406,811            | 64        | 1,898,164          | 19        |
| Selangor ... ..       | 5,304,312          | 06        | 6,663,316          | 99        |
| Negri Sembilan ... .. | ...                | 281,500   | ...                | 39,452    |
| Pahang ... ..         | ...                | 3,354,709 | ...                | 3,566,237 |
|                       | 5,711,123          | 70        | 8,561,481          | 18        |
|                       | 3,636,209          | 63        | 3,605,690          | 26        |
| Excess Assets ... ..  | 2,074,914          | 07        | 4,955,790          | 92        |

DETAILS FOR  
1900.

48. I further submit a summary (appendix G) compiled from the statements which accompany the Administration Reports of the four States, which will afford fuller details regarding the assets and liabilities of each State.

## CASH BALANCES.

49. In addition to the cash and current bank balances (\$1,840,326.89) mentioned in para. 5 of this report, there was on fixed deposit in the Chartered Banks at close of the year a sum of \$2,035,890.

CROWN AGENTS'  
ADVANCES.

50. I am glad to record that during the year under review Perak and Selangor paid off the sum of \$2,961,416.82 which was (para. 17 of my F.M.S. Financial Report for 1899) a liability on 1st January to the Crown Agents for advances made on account of railway construction.

DISCREPANCIES  
BETWEEN  
STATES.

51. In para. 15 of my F.M.S. Financial Report for the year 1899 I expressed a hope that future statements of assets and liabilities would represent more accurately the amounts which the States claim from and owe each other under Loans or Current Accounts, but I regret to report that the statements showing the assets and liabilities on 1st January, 1901, are not as satisfactory in this respect as the Government has a right to expect them to be. I append below a detailed statement of the position at close of 1900 between State and State.

Assets shown by States:—

| State.             | Description.    | Amount.      | Due from State of. | Corresponding liability shown by the States claimed against. |
|--------------------|-----------------|--------------|--------------------|--------------------------------------------------------------|
|                    |                 | \$ c.        |                    | \$ c.                                                        |
| Perak ... ..       | Loans ... ..    | 49,000 00    | Negri Sembilan ... | 70,000 00                                                    |
| " ... ..           | " ... ..        | 349,434 96   | Pahang ... ..      | 349,434 96                                                   |
| " ... ..           | Current Account | 5,114 17     | Negri Sembilan ... | ...                                                          |
| Selangor ... ..    | Loans ... ..    | 3,041,568 50 | Pahang ... ..      | 3,041,568 50                                                 |
| " ... ..           | Current Account | 7,748 52     | Perak ... ..       | 7,431 84                                                     |
| " ... ..           | Interest ..     | 237,908 12   | Pahang ... ..      | 237,908 12                                                   |
| Negri Sembilan ... | Current ..      | 649 75       | Perak ... ..       | ...                                                          |
| " ... ..           | " ..            | 79,160 88    | Selangor ... ..    | ...                                                          |
| Pahang ... ..      | " ..            | 34 61        | Perak ... ..       | 34 61                                                        |
| Total ... ..       | ...             | 3,770,619 51 | ...                | 3,706,378 03                                                 |

We are thus brought face to face with the fact that while the accounts of the States show on definite items claims against each other for \$3,770,619.51, there is only an acknowledgment in the statement before us of an indebtedness of 3,706,378.03 in respect of those items. In addition to this, Selangor and Pahang show the following liabilities amounting to \$16,359.82 which are not acknowledged under any corresponding account by the States to which the liability was said to exist at close of the year 1900.

## Liabilities other than above shown by States :—

| State.          | Description.    | Amount.   | State due to.   | Corresponding asset shown by the credited State. |
|-----------------|-----------------|-----------|-----------------|--------------------------------------------------|
|                 |                 | \$ c.     |                 |                                                  |
| Selangor ... .. | Current Account | 129 10    | Pahang ... ..   | ...                                              |
| Pahang ... ..   | Interest „      | 14,360 34 | Perak ... ..    | ...                                              |
| „ ... ..        | Current „       | 1,870 38  | Selangor ... .. | ...                                              |
| Total ... ..    | ...             | 16,359 82 | ...             | ...                                              |

and to further emphasise the unreliability of these accounts, I may here mention that recently it has been admitted in Selangor Secretariat correspondence that the \$129.10 shown above as a liability to Pahang is incorrect, and that instead Pahang actually owed Selangor \$120. The amount is small, but the lesson offered by this one instance deserves the consideration of Government.

FEDERAL  
ADJUSTMENTS.

52. The sum of \$678,418.38 shown by Selangor as an asset against the Federal account for 1900, corresponds with the amount shown in the Federal books, and as it includes \$21,374.51 and \$2,675.81 (less \$121.90) shown by Perak and Pahang, respectively, against Federal (Selangor account), those sums were due on close of the year's accounts by the Selangor Government to Perak and Pahang.

COMPARATIVE  
STATEMENT.

## TREASURY TRANSACTIONS OF PREVIOUS YEARS.

53. For purpose of comparison I present herewith a statement \* (appendix H) showing the revenue and expenditure, the receipts and payments on personal accounts, and the Treasury and bank balances of each State of the Federation for the years 1896 to 1900.

54. I also submit a statement \* (appendix J) in which the figures of \*appendix H are as regards revenue and expenditure, arranged so as to show the progress year by year under each principal head of the annual estimates. For this purpose I have adopted for the year 1900 the results obtained by the Federal classification referred to in paragraph 8 of the report.

55. In making the comparisons afforded by the appendices referred to in the preceding paragraphs it should be borne in mind that (as explained in para. 10 of my report for 1899) there was brought in 1899 on to the books of Selangor and Pahang a large outstanding item of \$1,237,793.63, which unduly swelled in that year the revenue figures of Selangor and the expenditure figures of Pahang \* (appendix H), thus also affecting the balances "Reimbursements" and "Roads Special" in \*appendix J.

## CONDITION.

## PAHANG FINANCES.

SUGGESTED  
ASSISTANCE.

56. The financial position of Pahang was slightly worse at the close of the year than has been since the State came under British Protection, and the outlook is not encouraging. I submit, for consideration in connection with the concluding paragraph of the British Resident's Report for 1900, that assistance might fairly be rendered, without any appreciable inconvenience, by Selangor granting preferential rates of freight on goods for Pahang carried over the Selangor Railway from Port Swettenham to Kuala Kubu. One other form of assistance would be for the Federation to contribute a substantial sum annually towards the maintenance and working of the Pahang telegraph system, which, while a drag on the resources of Pahang, is very considerably used for Federal purposes.

ADMINISTRATION  
PERAK AND  
SELANGOR.  
OFFICIAL YEAR.

## SAVINGS BANKS.

57. These institutions are worked in Perak and Selangor as a branch of the Posts and Telegraphs Departments. In Perak the financial year for these accounts ends, as in the case of all Government accounts, on 31st December, but in Selangor it ends on 31st May. It is not, therefore, practicable for me to summarise the working of the two offices side by side for the twelve months ending 31st December, 1900, but uniformity in this respect should be secured for future years by the Selangor Bank closing its books on 31st December next to the seven months June to December, 1901.

## WORKS IN 1900.

The transactions of the Perak Savings Bank during the year 1900 and its position on 31st December, 1900, are given below, and in order to convey some idea of the corresponding operations of the Selangor Savings Bank for the twelve months ending 31st May, 1901, I have added a separate column :—

|                                          | Perak.          | Selangor.   |
|------------------------------------------|-----------------|-------------|
| New accounts opened during year ... ..   | 389 ...         | 383         |
| Accounts closed ... ..                   | 399 ...         | 229         |
| „ remaining open at close of year ... .. | 955 ...         | 787         |
| Number of deposits during year ... ..    | 2,974 ...       | 1,951       |
| Amount ... ..                            | \$86,897.99 ... | \$76,002.03 |
| Average amount of each deposit ... ..    | \$29.21 ...     | \$38.95     |

\* not printed.

|                                            | Perak.          | Selangor.   |
|--------------------------------------------|-----------------|-------------|
| Number of withdrawals during the year ...  | 774 ...         | 611         |
| Amount                                     | \$86,890.95 ... | \$52,442.16 |
| Average amount of each withdrawal          | \$112.26 ...    | \$85.79     |
| Amount credited as interest during year    | \$3,481.79 ...  | \$1,666.56  |
| Working expenses during year               | \$1,292.42 ...  | \$570.00    |
| Nett profit made by Bank in year           | \$456.05 ...    | \$342.83    |
| Balance to credit of Bank at close of year | \$5,476.86 ...  | \$544.07    |

**HEAVY**

58. The heavy withdrawals in Perak are said to be due to depositors taking advantage of the favourable rate of exchange prevailing during the year for remitting money to India.

**WITHDRAWALS.  
NEGRI SEMBILAN.**

59. There is a desire on the part of the Government of the Negri Sembilan to start a Savings Bank in that State, but I have advised that the matter may be allowed to stand over for the present. Reporting on this subject the Superintendent of Posts and Telegraphs, Perak, has recorded the opinion that neither of the two existing Banks (Perak and Selangor) can be said to be exactly on a satisfactory working basis. In my opinion the increased transactions of these Banks do not correctly represent the growth of thrift in the community—the primary object of such institutions. It is rather due to the support which has been received through the transfer from the Treasuries of accounts which in past year were kept, in the Treasury books.

**NATURE OF  
BUSINESS  
CONDUCTED.**

60. The system followed in Perak and Selangor for conducting the work of these Banks are not in uniformity with each other. I have reported (R.-G.O. 4,830/99) fully to Government on the departure which Perak has made from the system previously followed on somewhat similar lines to that now in force in Selangor, and as the Government has approved of the innovations made in Perak based on the Indian system, I suggest that it would be consistent to extend it to Selangor simultaneously with the introduction of the Perak Posts and Telegraphs financial system.

**PERSONAL ACCOUNTS.****THEIR****IMPORTANCE AND  
GROWTH.**

61. I am inclined to think that in the attention which State revenue and State expenditure receive, the growth and importance of the financial transactions under the personal accounts are not sufficiently appreciated. In 1900 the payments alone under this head amounted to \$42,877,473.47, or just over three and a quarter times as much as was disbursed for State expenditure. The increase from year to year, since Federation, is marked by the payments of 1896 having been \$13,502,199.83; of 1897, \$14,802,020.61; of 1898, \$18,685,852.74; and of 1899, \$30,035,322.09.

**WATCHFULNESS  
ENJOINED.**

62. I have continued to impress on Treasurers and Auditors the necessity for close watchfulness over these personal accounts by periodical and systematic balancing. In some cases I observed too much reliance by Treasurers on the Audit Office figures in the matter of balancing. Of course every Treasury should post up its personal account book with the same regularity as the cash book, and at the end of each quarter the balances should be brought forward into a new account: and if balances remain outstanding for six months they should be reported to the Government. In the matter of "remittances" and "drafts" the advice system should be most carefully followed in every detail, and the periodical statement of balances received from the Audit Office for verification with the Treasury figures should have prompt and careful attention. I consider that it should be laid down clearly that at each audit of Treasury accounts, or at least once in every six months, the State Auditor should inspect the personal accounts of the Treasury to satisfy himself that they are being kept up to date, and that he should testify to having done so by attaching his initials and the date to each account.

**AUDITOR SHOULD  
INSPECT.**

63. The Tailoring Department of the Malay States Guides continued under the personal accounts during the year, and the total outstanding advance on 31st December, 1900, was \$23,783.78 (Federal, \$16,808.64; Selangor, \$6,975.14). In my opinion it should be financially administered on the same lines as any other department of the Government—and I am glad to say instructions have been repeated requiring that this be done from 1st January, 1902.

**MALAY STATES  
GUIDES  
TAILORING  
DEPARTMENT.**

64. The Pahang revenue and expenditure and personal accounts as dealt with in this report had not at time of publication in the Resident's Report been completely audited.

**PAHANG  
TREASURY AUDIT  
INCOMPLETE.****DEPARTMENTAL.**

65. I have been periodically furnished with returns showing the dates up to which the respective revenue audits in each State had been brought on 31st December last, and also of the number of surprise surveys held on the Treasuries during the year. The attention of the Government has been invited to such points as called for report.

66. During the year I received reports of defalcations in the Post Office at Kuala Lipis, in the Court Office at Gopeng, and in the Railway Department, Province Wellesley. In the Gopeng case the Clerk bolted and has so far evaded arrest. The main part of the amount embezzled was recovered. In the Kuala Lipis and Province Wellesley cases the offenders were tried and convicted to terms of imprisonment. The embezzled money was recovered, though in the Province Wellesley case the Government had to bear the expenses of a somewhat costly arrest at Hongkong and prosecution in Penang.

67. Instructions have been received from the Secretary of State for the Colonies directing that all subordinate officers from whom security is required should give such security direct to the Government, instead of to the Head of their Department.

**SUBSIDIARY  
SECURITY BONDS.**

GOVERNMENT

IN 1900.

FINANCIAL  
BRANCH  
OF CLERICAL  
SERVICE.

CENTRAL AUDIT  
OFFICE.

FEDERAL  
FINANCIAL  
DEPARTMENT.

68. In recent years there has been a considerable increase in the number of officers' security bonds given by Guarantee Societies—thus marking an improvement on the ordinary bond given by individuals. A proposal is, however, under consideration (R.G.O. 2,597) for starting a Government Guarantee Fund for the mutual benefit of officers and the Government.

69. I do not consider that sufficient weight is given by officers to the importance of G.O. 303, which provides for the safe custody of duplicate keys of safes, chests, and storerooms. I have during the year urged greater care and vigilance in this matter, and so have now been taken which will I trust enable me to report more favourably in future.

70. The regulations (G.O. 13) regarding the issue and custody of counterfoil books are fairly well carried out, but instances have come to my notice of these books being kept in insecure places—it is obvious that unless great care is taken in this respect the precautions imposed by the regulations are in a measure nullified. I am desirous of reducing the number of different kinds of counterfoil books and printed forms in use for financial transactions, but it seems hopeless to make any marked improvement until restrictions are placed upon departments ordering new forms. The Government would be astonished to know how many and how varied are the forms in use throughout the Federation, how great the expense of printing is and how easy it would be to economise by a systematic arrangement of blank spaces which would enable forms to be used in any State—for instance, I may quote the papers: at present four separate lots are printed, whereas by having a blank space for the name of the State to be inserted in manuscript one form would suffice for the four States. This is one of many instances which create a fear that the convenience afforded by the Government Printing Offices is being extravagantly indulged in.

71. In connection with the Survey of Government Stores (G.O. 301v), it has been suggested (R.G.O., 1,495 of 1901) that the interest of Government would be better served if an officer is appointed specially for this duty, to be always one of the two surveyors reported under the G.O. There is no doubt that the interests at stake are very considerable, and that it is desirable to make better provision for checking these stores than is to be expected from officers who have no technical knowledge of the stores, and who are not unnaturally anxious to get the work finished in order that they may get away to attend to the duties of their appointments.

72. It is desirable that more detailed certificates of audit should be inserted in the audited books than is now the practice in Perak and Selangor; to do this would entail very little extra trouble, and it would afford for the information of Heads of Departments and for future reference a definite record of the work performed.

73. The year saw the issue of the first complete set of General Orders for the guidance of officers in the Federated Malay States—hitherto Perak and Selangor had each their own set of General Orders, while the other two States adopted from both sets so much as was considered necessary. I was not satisfied with several parts of the financial portion of the F.M.S. General Orders, as published. Several necessary amendments have been made, and I hope that in the near future a satisfactory and thorough revision will be undertaken and published.

74. I have already reported (my letter No. 307 of 11th May, 1901) the progress made in the organisation and work of my department during the year under review, so it is not necessary to go into details again now, nor will I protract this report by reference here to many of the important matters which have had my attention during the year. I feel, however, that the urgency and importance of two matters require that they should again be brought prominently to notice in this report, so I will deal with them in the next two paragraphs.

75. It has become more and more apparent, as my experience of the financial branch in the Federation has extended, that the establishment of a financial branch of the Civil Service of the Federated Malay States is absolutely necessary as the foundation on which to build improvement in the financial machinery of the Federation. I again commend this proposal to the serious consideration of Government.

76. I also earnestly repeat my advocacy (para. 39 of the F.M.S. Financial Report, 1900) for the separation of the work of revenue audit from that of auditing the Treasury and other accounts, and for the establishment of a Federal Financial Department (paras. 30-33 of the F.M.S. Financial Report, 1899) entrusted with the administration of financial matters generally and giving me direct responsibility for, and control over, the Treasuries and Audit Office of the Federation. The conduct of work under the present system is particularly unsatisfactory to me, and numerous instances have occurred during the year to mark that it is opposed to the best interests of the Government.

I have recently submitted to you a detailed scheme for carrying out both these proposals, and as you have given the matter your cordial support I confidently look forward to the Hon. Commissioner being pleased to open to me the only means by which I can with any confidence encourage the hope that the creation of my appointment which ended its first year with the close of 1900, is likely to secure uniformity of procedure and general improvement in the administration of the financial work of the Federation.

FEDERAL FINANCIAL OFFICE,  
Kuala Lumpur, 29th July, 1901.

R. D. HEWETT,  
Accountant and Auditor, F.M.S.

## FEDERATED MALAY STATES.

## FEDERATED MALAY STATES RAILWAYS.

### OVERTIME, SUNDAY AND NIGHT ALLOWANCES.

The following rules for Overtime, Sunday and Night Allowances have been approved by the General Manager, Federated Malay States Railways, with the sanction of the Acting Resident-General, with effect from the date of publication:—

#### NIGHT ALLOWANCES.

##### ALL DEPARTMENTS.

The following rates may be drawn by railway employes if obliged to sleep away from home at night:—

|                                                |    |  |    |  | For each night. |
|------------------------------------------------|----|--|----|--|-----------------|
|                                                |    |  |    |  | \$ c.           |
| Employes drawing salaries of 2,400 and upwards | \$ |  | \$ |  | 3 00            |
| " " " 1,800 and under 2,400                    |    |  |    |  | 2 00            |
| " " " 1,200 " 1,800                            |    |  |    |  | 1 50            |
| " " " 600 " 1,200                              |    |  |    |  | 1 00            |
| " " " 360 " 600                                |    |  |    |  | 0 75            |
| " " " 240 " 360                                |    |  |    |  | 0 50            |
| " " " 120 " 240                                |    |  |    |  | 0 25            |
| " " " under 120                                |    |  |    |  | 0 15            |

Men on daily wages may be paid night allowance at proportionate rates.

#### OVERTIME ALLOWANCES.

##### LOCOMOTIVE DEPARTMENT.

Drivers and firemen will be paid according to the following scales after 48 hours' work per week, but no driver or fireman will be paid on the higher scale for Sundays unless he has completed 48 hours' work during the preceding six days. Time of two hours and upwards booked off between trains not to be counted. Drivers' time will be counted from 30 minutes before the booked time for starting, and up to 15 minutes after arrival at running shed. Firemen's time will be counted from 45 minutes before the booked time for starting, and up to 30 minutes after arrival at running shed.

| 150             | 72                      | 95              | 46                      | 40              | 19                      |
| 145             | 70                      | 90              | 43                      | 35              | 17                      |
| 140             | 68                      | 85              | 41                      | 30              | 14                      |
| 135             | 65                      | 80              | 39                      | 25              | 12                      |
| 130             | 63                      | 75              | 36                      | 20              | 10                      |

Overtime will be calculated on actual salary not including exchange compensation or any other allowances.

If an employé's salary falls between any two of the authorised rates, he will be paid a the next higher rate.

## SUNDAY ALLOWANCE.

## LOCOMOTIVE DEPARTMENT.

Locomotive Foremen to be paid \$1 an hour for special work on Sundays, when sanctioned by the Resident Engineer for Railways. Not to exceed \$10 in one day. Ordinary Sunday duties will not be paid for.

## WAY AND WORKS DEPARTMENT.

Foremen platelayers to be paid at the rate of \$1 an hour for doing special work on Sundays, such as repairs to bridges, re-laying, working ballast trains, and at slips, but not for ordinary supervision of their districts. Sunday pay not to exceed \$10 in one day.

Platelaying overseers to be paid one half these rates.

NOTE.—Christmas Day and Good Friday are recognised as Sundays.

### SANITARY BOARDS.

#### SUNGEI SIPUT.

##### MUNICIPAL BOUNDARIES.

No. 682.—The Municipal Boundaries of the township of Sungei Siput, in the District of Kuala Kangsar, published in Notification 455 of 1900, are hereby cancelled and the following substituted therefor :—

*North.*—A line running 100 yards from the main road and parallel to it.

*East.*—A line drawn at right angles to the northern boundary intersecting the bridge over the Sungei Bulu to the railway line.

*South.*—Centre of railway line.

*West.*—A line drawn from the railway line intersecting the bridge over the Sungei Siput Besar and joining the Northern boundary at right angles to it.

24th September, 1901.

### TENDERS.

#### HOSPITAL BUILDINGS, TANJONG MALIM.

No. 683.—With reference to the notice calling for Tenders for Hospital Buildings, Tanjong Malim, published in the *Government Gazette* of the 30th August, the date of opening the Tenders has been postponed to noon on Monday the 7th October.

27th September, 1901.

---

**BUILDINGS, KINTA.**

No. 684.—Tenders are invited for the erection of a new Police Station and for the taking down and re-erection upon another site of the Rest-house at Tanjong Toh Allang.

Sealed tenders, marked on the outside "Tender for Buildings, Kinta," will be received at the office of the Secretary to Resident, Taiping, not later than noon on Friday, 4th October, 1901.

Plans and specifications can be seen at the Executive Engineer's Office in Batu Gajah.

27th September, 1901.

---

**SUPPLY OF FRESH MILK TO HOSPITALS  
AND PRISONS.**

No. 647.—Separate tenders are invited for the supply of fresh cow's milk, at the under-mentioned stations, for the period of twelve months, from 1st January, 1902.

District Hospitals and Prisons at Larut, Batu Gajah and Parit Buntar.

District Hospitals at Kuala Kangsar, Gopeng, Ipoh, Kampar, Teluk Anson, Tapah, Bagan Serai and Selama.

The terms of contract can be ascertained from the State Surgeon, Taiping, or from the Medical Officer of each District.

With each tender a receipt from the local Treasury, shewing a money deposit of \$20, must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned upon the acceptances of tenders having been decided.

Tenders which are sent unaccompanied by a Treasury receipt shewing the money deposit required will not be considered.

Tenders, marked "Fresh Milk Supply, Hospitals and Prisons," or "Fresh Milk Supply, Hospitals," as the case may be, should be addressed, under sealed covers, to the Secretary to Resident, and sent to his office not later than the 31st October, 1901.

13th September, 1901.

---

**SUPPLY OF STERILIZED CANNED MILK TO HOSPITALS.**

No. 648.—Tenders are invited for the supply of sterilized unsweetened canned milk for the State Hospitals, for the period of twelve months, from 1st January, 1902.

The terms of contract can be ascertained from the State Surgeon, Taiping.

The brands of milk for which tenders will be entertained are the "Sledge," "Highland Cream," "Ideal," and "Viking."

The average monthly consumption is about 100 cases of four dozen one pound tins.

The price tendered should be *c.i.f.* Penang, Port Weld and Teluk Anson.

Full particulars should be given as to gross and nett weight of tins. Samples and all literature regarding the various brands of milk should be sent direct to the State Surgeon.

Tenders, marked on the outside "Tender for Canned Milk," should be addressed to the Secretary to Resident, Taiping, Perak, and sent to his office not later than the 31st October, 1901.

13th September, 1901.

#### HOSPITAL AND PRISON SUPPLIES.

No. 649.—Separate tenders are invited for the supply of hospital and prison requisites, at the under-mentioned stations, for the period of twelve months, from 1st January, 1902.

District Hospitals and Prisons at Larut, Batu Gajah and Parit Buntar.

District Hospitals at Kuala Kangsar, Gopeng, Ipoh, Kampar, Teluk Anson, Tapah, Bagan Serai and Selama.

The terms of the contract can be ascertained from the State Surgeon Taiping, or from the Medical Officer of each district, who will also, on application, provide the necessary schedule forms.

With each tender a receipt from the local Treasury, shewing a money deposit of \$30, must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned upon the acceptances of tenders having been decided.

Tenders which are not made out on the proper forms, or if the "Instructions to Tenderers," which are inserted in the printed schedule forms are disregarded, or if they are sent unaccompanied by a Treasury receipt shewing the money deposit required, will not be considered.

Tenders, marked "Hospital and Prison Supplies," or "Hospital Supplies," as the case may be, should be addressed, under sealed covers, to the Secretary to Resident, and sent to his office not later than the 31st October, 1901.

13th September, 1901.

#### COFFINS FOR HOSPITALS.

No. 650.—Separate tenders are invited for the supply of coffins for the under-mentioned hospitals for the period of twelve months, from the 1st January, 1902.

District Hospitals at Larut, Kuala Kangsar, Batu Gajah, Gopeng, Ipoh, Kampar, Teluk Anson, Tapah, Parit Buntar, Bagan Serai and Selama.

The terms of the contract can be ascertained from the State Surgeon, Taiping, or from the Medical Officer in charge of each Hospital.

With each tender a receipt from the local Treasury, shewing a money deposit of \$20, must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned as soon as tenders have been accepted.

Tenders which are sent unaccompanied by a Treasury receipt shewing the money deposit required will not be considered.

Tenders, marked "Coffins, Hospitals," should be addressed, under sealed covers, to the Secretary to Resident, and sent to his office not later than noon on the 31st October, 1901.

13th September, 1901.

#### CONVEYANCE OF MAILS.

No. 596.—Tenders are invited for the following mail cart services in Perak, from 1st January to 31st December, 1902.

(a). Between Taiping and Padang Rengas,  $15\frac{1}{2}$  miles, once daily, each way at such times as may be fixed in conjunction with the arrival and departure of trains, the journey to be accomplished in two hours and a half.

(b). Between Ipoh and Gopeng, 12 miles, once daily, each way in two hours, at such times as may be fixed upon.

(c). Between Gopeng and Kampar, 13 miles, once daily, each way in two hours, at such times as may be fixed upon.

(d). Between Lahat and Batu Gajah, nine miles, once daily, each way in one hour and a half, at such times as may be fixed upon.

(e). Between Tapah and Temoh Railway Station, seven miles, twice daily, each way in one hour, at such times as may be fixed upon.

(f). Between Kuala Kurau and Bagan Serai, seven miles, once daily in one hour, at such times as may be fixed upon.

On Sunday one mail will be despatched from Taiping to Padang Rengas (for Ipoh), from Ipoh to Gopeng and to and from Tapah and Temoh Railway Station, also from Padang Rengas to Taiping; otherwise no mails will require to be carried on Sundays except when the Outward Mail from Europe happens to be received on that day at any office for further despatch.

The Contractor will be liable to a fine of \$2 for every hour or part of an hour that the mails are delayed beyond the specified time.

In event of loss or damage to the mails while under his charge the Contractor will be liable, in addition to a fine of \$50, to the full extent of any established claims made by the public.

Tenders may be for all or any one of the above services but in the former case it must be stated what amount is apportioned for each service. Tenders should be addressed to the Secretary to the Resident, sealed, and the cover superscribed "Tender for the Conveyance of Mails," and should be sent in before noon on the 1st October.

29th August, 1901.

Government does not bind itself to accept the lowest or any other tender.

## DEPARTMENTAL NOTICES.

## VERIFICATION OF WEIGHTS AND MEASURES.

No. 685.—Persons desirous of having Weights and Measures tested or verified should bring them to the Police Stations at the following towns between 9 and 12 a.m., and 2 and 4 p.m. on the following dates:—

|                    |                     |              |                       |

## LAND OFFICE NOTICES.

## LARUT.

No. 573.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Su Ah Seng of Taiping, for document of titles for land situated at Asam Kumbang, in the mukim of Kamunting, on the ground that Su Ah Seng is the registered owner thereof, and that the original Mining Leases, 217 and 218, have been lost:

16th August, 1901.

No. 551.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Muhammad Khan bin Jabar Khan of Kota, for a document of title for land situated at Madersah Road, in the township of Taiping, on the ground that Muhammad Khan bin Jabar Khan is the registered owner thereof, and that the original Town Agreement, No. 874, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the documents of title applied for will, subject to the provisions of the said Section 13, be granted.

2nd August, 1901.

No. 514.—Application having been made to the Collector of Land Revenue, Larut, at Taiping, by Wan Muhammad Ali bin Wan Soh, of Bukit Gantang, for a document of title for land situated at Kubu, in the mukim of Bukit Gantang, on the ground that Wan Muhammad Ali bin Wan Soh is the registered owner thereof, and that the original Extract from the Mukim Register, No. 45, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing this application, the Extract from Mukim Register applied for will, subject to the provisions of the said Section 13, be granted.

GEORGE MAXWELL,

19th July, 1901.

Collector of Land Revenue.

## KUALA KANGSAR

No. 686.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder in the mukims of Lambor Kiri, Lambor Kanan, Bota, Blanja, Laiang Laiang and Senggang, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such lands or unless you enter or re-enter into occupation of such lands by making a *bona fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

F. ROBERTSON,

Collector of Land Revenue.

27th September, 1901.

No. 601.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder in the mukims of Senggang, Kota Lama Kiri, Chigar Galah, Pulau Kamiri, Durian Pipit, Kota Lama Kanan and Saiong, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such lands or unless you enter or re-enter into occupation of such lands by making a *bonâ fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

| 102     |               |              |                          |              |                               |              |                       |
| 103     |               |              |                          |              |                               |              |                       |
| 104     |               |              |                          |              |                               |              |                       |
| 107     |               |              |                          |              |                               |              |                       |
| 110     |               |              |                          |              |                               |              |                       |
| 113     |               |              |                          |              |                               |              |                       |
| 116     |               |              |                          |              |                               |              |                       |
| 119     |               |              |                          |              |                               |              |                       |
| 122     |               |              |                          |              |                               |              |                       |

The title to each lot will be a Grant under Part II of the Land Enactment, 1897, and will be subject to the following condition:—

That if the Grantee fail to erect on the land a house in accordance with the plan approved by the Sanitary Board of Tapah for third class houses within twelve months from the date of Grant, it shall be lawful for the Resident, acting on behalf of His Highness the Sultan of Perak, to enter on and resume the said land.

The conditions of sale and other information can be obtained at the Land Office, Tapah, Batang Padang. Subject to the general conditions of land sales contained in Notification No. 447 of the *Perak Government Gazette* of 1890.

E. BURNSIDE,

30th August, 1901.

Collector of Land Revenue, Batang Padang.

#### KRIAN.

No. 654.—Application having been made to the Collector of Land Revenue, at Krian, by Teoh Ah Ngoh of Bagan Serai, for new documents of title for two pieces of land situated at

Bagan Serai, in the mukim of Bagan Serai, on the ground that Teoh Ah Ngoh is the registered owner thereof, and that the original Extracts from the Mukim Register, entries Nos. 1,893 and 2,765, have been lost:

No. 655.—Application having been made to the Collector of Land Revenue, at Krian, by M. M. R. M. Odeyappa Chetty of Bagan Serai, for new documents of title for seven pieces of land situated at Bagan Serai, in the mukim of Bagan Serai, on the ground that M. M. R. M. Odeyappa Chetty is the registered owner thereof, and that the original Extracts from the Mukim Register, entries Nos. 907, 919, 921, 1,883, 1,899, 3,172 and 3,280 have been lost:

No. 656.—Application having been made to the Collector of Land Revenue, at Krian, by Ng Ah Teng of Sungei Gedong, for a new document of title for a piece of land situated at Sungei Gedong, in the mukim of Bagan Serai, on the ground that Ng Ah Teng is the registered owner thereof, and that the original Extract from the Mukim Register, entry No. 3,479, has been lost:

No. 657.—Application having been made to the Collector of Land Revenue, at Krian, by Muhammad bin Drahman, administrator of the estate of Drahman bin Mat of Penang, for a new document of title for a piece of land situated at Bagan Tiang, in the mukim of Bagan Tiang, on the ground that Drahman bin Mat is the registered owner thereof, and that the original Agreement, No. 7,733, has been lost:

No. 658.—Application having been made to the Collector of Land Revenue, at Krian, by Mat Arsath bin Mat Saman of Parit Buntar, for a new document of title for a piece of land situated at Parit Buntar, in the mukim of Parit Buntar, on the ground that Mat Arsath bin Mat Saman and Ibrahim bin Sahid are the registered owners thereof, and that the original Extract from the Mukim Register, entry No. 21, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new document of titles applied for will, subject to the provisions of the said Section 13, be granted.

13th September, 1901.

F. A. S. McCLELLAND,  
Acting Collector of Land Revenue.

#### NOTICES UNDER SECTION 28 OF THE LAND ENACTMENT, 1897.

No. 653.—To the Landowners named in the Schedule below:—

Take Notice that whereas you have abandoned the land described hereunder in the mukims of Bagan Tiang, Kurau and Jalan Bharu, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bonâ fide* commencement to cultivate it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 13th day of September, 1901.

FEDERAL.

APPOINTMENTS.

Mr. A. T. D. Berrington, Senior Magistrate, Perak, and Acting Legal Adviser, Federated Malay States, has been appointed Commissioner of Lands and Mines, Federated Malay States, with effect from the 23rd September, 1901.

Mr. A. T. D. Berrington, Commissioner of Lands and Mines, Federated Malay States, has been appointed to act as Inspector of Schools, Federated Malay States, in addition to his own duties, with effect from 21st September, 1901.

Mr. F. J. Weld, Secretary to High Commissioner, Federated Malay States, Acting Secretary to Resident-General, Federated Malay States has, subject to the approval of the Secretary of State, been appointed Collector of Land Revenue, Seremban, with effect from the 25th September, 1901.

Mr. J. R. O. Aldworth, Collector of Land Revenue, Seremban, has, subject to the approval of the Secretary of State, been appointed Secretary to High Commissioner, Federated Malay States, with effect from the 25th September, 1901.

Mr. J. R. O. Aldworth to act as Secretary to Resident-General, Federated Malay States, with effect from the 25th September, 1901.

Mr. F. Belfield, Collector of Land Revenue and Registrar of Titles, Kinta, to act as Legal Adviser, Federated Malay States, with effect from the 23rd September, 1901.

With reference to the Federal Government Notification of 2nd March, 1900, it is hereby notified that the title of Mr. Hamilton Wright, M.D., Pathologist to the Institute for Pathological Research, Federated Malay States, has been changed to that of Director of the Institute for Medical Research, Federated Malay States.

The Acting Resident-General has been pleased to appoint Mr. W. P. Hume to be Examiner in Malay for the Federated Malay States, *vice* Mr. D. G. Campbell.

## COUNCIL OF STATE, KUALA KANGSAR.

SATURDAY, 7TH SEPTEMBER, 1901.

## PRESENT :

HIS HIGHNESS IDRIS MERISID-EL-AAZAM SHAH, G.C.M.G., Sultan of Perak,  
President.

The Acting British Resident, J. P. RODGER, Esq., C.M.G.

His Highness Raja Muda, RAJA MUSA.

The Raja di Hilir, RAJA ABDUL JALIL.

The Orang Kaya Temenggong, WAN HASSAN.

The Orang Kaya Mentri, WAN MUHAMMAD ISA.

The Orang Kaya Kaya Sri Adika Raja, WAN MUHAMMAD SALEH.

The Orang Kaya Kaya Laksamana, HUSSEIN.

The Orang Kaya Kaya Panglima Kinta, USUF.

The Datoh Sri Maharaja Lela, ABUBAKAR.

CHUNG THYE PHIN.

HIAH SWEE LEE.

## ABSENT :

The Acting Secretary to Resident, D. G. CAMPBELL, Esq.

The Datoh Muda, ABDUL WAHAB.

LEONG FI.

The Council meets at 2 p.m.

1. A draft Enactment to amend "The Plague Enactment, 1901," is read and passed, becoming No. 8 of 1901.

2. A draft Enactment to amend "The Secretary for Chinese Affairs Enactment, 1899," is considered and passed, after discussion, becoming No. 9 of 1901.

3. A draft Enactment to substitute in Enactments the title of "Secretary to the Resident" for the title of "Secretary to Government" is read and passed, becoming No. 10 of 1901.

4. A draft Enactment to enable the Resident to authorise fines by Heads of Departments is considered and passed, becoming No. 11 of 1901.

5. The Acting Resident submits to the Council the notes of evidence taken in a case of gang robbery and murder tried before the Judicial Commissioner with Assessors, in which three Chinese prisoners, Ng Chua; Ng Wai; and Ng Goong were convicted and sentenced to death. Two petitions on behalf of Ng Wai and Ng Goong, with further report from the Judicial Commissioner, are also considered, and the Council decides to confirm the sentence in every case and orders them to be carried out on the 30th instant.

6. The Acting Resident submits to the Council the notes of evidence taken in a case of murder tried before the Judicial Commissioner with Assessors, in which a Malay prisoner, named Uda Umbong, was convicted but sentence deferred on the ground of insanity. The Council orders the prisoner to be detained during the pleasure of His Highness the Sultan.

7. The Council approves of a contribution of \$35,000 (part of a contribution of \$100,000 from the Federated Malay States) from Perak funds towards the proposed Memorial of Her late Majesty Queen Victoria to be erected in London.

8. On the recommendation of the Acting Assistant District Magistrate, Selama, the Council decides to allow Budin, Assistant Penghulu, Ulu Selama, to draw the full salary of his appointment, with effect from the 1st instant.

9. The Council sanctions a grant of \$100 towards the cost of building a mosque at Simpang.

10. The Acting Resident submits to the Council a report from the Acting District Magistrate, Matang, containing charges against Muhammad Bahak, Penghulu of Trong, with the latter's reply. The Council decides that this penghulu be dismissed from the service.

11. A letter from the District Magistrate, Lower Perak, reporting the death of Haji Surie, Assistant Penghulu of Teluk Bharu, is read. The Council appoints Haji Sahir bin Muhammad Saed to succeed him.

12. A letter from the Datoh Sri Adika reporting the death of the Penghulu of Grit is read. The Datoh recommends that the mukim of Grit be amalgamated with that of Kenering; the salary of the Penghulu of Grit (\$180) being divided between the Penghulu of Kenering (\$30) and a new Assistant Penghulu (\$150), and this recommendation is adopted by the Council.

13. The Raja Muda reports to the Council the result of his enquiry into the charges made by the District Magistrate, Kuala Kangsar, against the Penghulu of Bota, Sa' Indra Bongsu, with the latter's reply. The Council decides that this penghulu be dismissed from the service, and that the salary of the Assistant Penghulu of Bota (Uda Mat Isa) be reduced by \$5 a month for a period of one year for his complicity in the irregularities complained of.

14. The Datoh Sri Adika Raja recommends that the *kuasa* of the Assistant Kathi, Ulu Perak, be extended to include the New Territory, and that an allowance of \$5 a month from "Casual Allowances" be granted to him for the current year, to be included in salary in 1902.

15. The Council approves the application from Mr. W. H. Tate for mining rights in respect of certain land in Taiping on the following conditions:—

(a). The ground to be mined and re-levelled within twenty-four months.

(b). A public cart-road to be constructed by lessee from the main road, through the land in question, to the new railway station.

(c). The lessee to deposit \$5,000 as a guarantee for the fulfilment of the above conditions.

16. The following applications for mining rights over agricultural lands are considered and approved on the terms stated in the subjoined Schedule.

The Council adjourns *sine die*.

(Signed) RAJA MANSUR,  
for Clerk of Council.

No. 689.—The following Enactments were passed at a Meeting of the Council of State held on the 7th September, 1901:—

## FEDERATED MALAY STATES.

### STATE OF PERAK.

#### ENACTMENT NO. 8 OF 1901.

An Enactment to amend “The Plague Enactment, 1901.”

[7th September, 1901.]

J. P. RODGER, *Acting British Resident*.

IT IS HEREBY enacted by His Highness the Sultan in Council as follows:—

Short title,  
commencement  
and construc-  
tion.

1. (i). This Enactment may be cited as “The Plague Enactment, 1901, Amendment Enactment, 1901,” and shall come into force upon the publication thereof in the *Gazette*.

(ii). This Enactment shall be read and construed as one with “The Plague Enactment, 1901,” (hereinafter referred to as the principal Enactment), and any copy of the principal Enactment printed after the coming into force of this Enactment may be printed with the amendments made by this Enactment.

Amendment of  
Section 9 of the  
principal  
Enactment.

2. Section 9 of the principal Enactment is amended by omitting the word “two” in the eighth line and inserting in place thereof the word “three,” and by omitting the word “four” in the tenth line and inserting in place thereof the word “five.”

## FEDERATED MALAY STATES.

## STATE OF PERAK.

## ENACTMENT No. 9 OF 1901.

An Enactment to amend "The Secretary for Chinese Affairs Enactment, 1899."

[7th September, 1901.]

J. P. RODGER, *Acting British Resident.*

IT IS HEREBY enacted by His Highness the Sultan in Council as follows:—

1. This Enactment may be cited as "The Secretary for Chinese Affairs Enactment, 1899, Amendment Enactment, 1901," and shall come into force upon the publication thereof in the *Gazette*.

Short title  
and com-  
mencement.

2. "The Secretary for Chinese Affairs Enactment, 1899," is herein after referred to as "the principal Enactment," and any copy of the principal Enactment printed after the commencement of this Enactment may be printed with the amendments, additions and omissions, made and required by this Enactment.

Reference to  
the principal  
Enactment  
and construc-  
tion.

3. Sections 24 and 25 of the principal Enactment are hereby repealed.

Repeal of  
Sections 24 and  
25 of the  
principal  
Enactment.  
Amendment of  
Section 29 of the  
principal  
Enactment.

4. Section 29 of the principal Enactment is hereby repealed, and the following section is substituted therefor:—

"29. The Resident may at any time direct the Secretary to make enquiry and report as to the management, control or working of any of the State Farms: and on such direction being given by the Resident it shall be lawful for the Secretary to call on any of the holders of the State Farms to furnish him with such information as may be required, and to order any of them or their agents to produce for his inspection or transcription, any sub-farm contracts commonly called Yi-Ma-Hop-Thung (二偶合同), any account books, commonly called Siau-Pho (數部), any ledgers, commonly called Tsong-Pho (總部), any cash books, commonly called Chin-Chi-Pho (進支部), any day books, commonly called Jit-Chheng-Pho (日清部), or other financial documents, commonly called Tan Kū (單據), used in the ordinary business of the Farm that may be pertinent to the enquiry and necessary to examine; and thereupon any holder of any such State Farm and his agent or agents shall be legally bound to state the truth to the Secretary, and to produce any such books or documents for inspection or transcription as directed by him: provided always that no holder of any such Farm shall be required under this section to produce any of his banking accounts or those of any partner of his, commonly called Gun-hang-lai-ong-siau (銀行來往數), or any statement of shares, commonly called

## No. 9 of 1901.

Ko-hun-tan (股份單), or any private statement of the profits or losses of such holder or of his partner or partners in the Farm during the whole or any part of its continuance, unless such books or accounts also contain information not otherwise produced to the reasonable satisfaction of the Secretary, relating to the general working of the Farm, to the periodical statements of the profits or losses of the public business of the Farm, or to any other matter pertinent to the enquiry."

Amendment of  
Section 30 of the  
principal  
Enactment.

5. Section 30 of the principal Enactment is amended by the repeal of Sub-sections (ii) and (iii) and the addition of the following Sub-sections:—

"(ii). Any person aggrieved by any order or finding of the Secretary may appeal to the Senior Magistrate.

"(iii). Any person aggrieved by the decision of the Senior Magistrate given on such appeal may appeal to the Judicial Commissioner.

"(iv). Every appeal under Sub-sections (ii) or (iii) shall be brought within thirty days from the date of the order, finding or decision appealed against.

"(v). Nothing in this section shall affect the provisions of Section 12."

Amendment  
of Section 35  
of the prin-  
cipal Enact-  
ment.

6. Sub-section (i) of Section 35 of the principal Enactment is amended by the omission of the words "or in any other place, made public for the occasion, which the Secretary may think fit," and the substitution therefor of the words "or in any other suitable place, to which the public shall have access."

## FEDERATED MALAY STATES.

## STATE OF PERAK.

## ENACTMENT No. 10 of 1901.

An Enactment to substitute in Enactments the title of "Secretary to the Resident" for the title of "Secretary to Government."

[7th September, 1901.]

J. P. RODGER, *Acting British Resident.*

Preamble.

WHEREAS by various Orders in Council, Regulations and Enactments certain powers and duties have been conferred and imposed upon the Secretary to Government, and whereas the title of "Secretary to the Resident" has now been substituted for the title of "Secretary to Government:"

IT IS HEREBY enacted by His Highness the Sultan in Council as follows:—

SECRETARY TO THE RESIDENT.

1. This Enactment may be cited as "The Secretary to the Resident Enactment, 1901," and shall come into force upon the publication thereof in the *Gazette*. Short title and commencement.

2. Whenever in any Order in Council, Regulation or Enactment in force at the commencement of this Enactment, either the expression "Secretary to Government," or the expression "Government Secretary" occurs, the expression "Secretary to the Resident" shall be substituted therefor, and be read instead thereof. "Secretary to Resident" to be read instead of "Secretary to Government."

FEDERATED MALAY STATES.

STATE OF PERAK.

ENACTMENT NO. 11 OF 1901.

An Enactment to enable the Resident to authorise the Heads of Departments to inflict Fines upon Subordinate Officers in certain cases.

[7th September, 1901.]

J. P. RODGER, *Acting British Resident*.

IT IS HEREBY enacted by His Highness the Sultan in Council as follows:—

1. This Enactment may be cited as "The Departmental Fines Enactment, 1901," and shall come into force upon the publication thereof in the *Gazette*. Short title and commencement.

2. After the coming into force of this Enactment it shall be lawful for the Resident, with the approval of the Resident-General, from time to time, by notification in the *Gazette*, to authorise the Head of any Government Department to inflict fines for neglect of duty upon any employé of his Department whose salary does not exceed \$100 per mensem. Such notification shall specify in the case of each Department the offences for which such fines may be inflicted, and shall prescribe the maximum fine which may be inflicted for each such offence. Provided that in no case shall the fines so inflicted in any one month exceed 20 per cent of the salary of the employé fined. Resident may give authority to inflict fines.

3. Fines inflicted under the provisions of this Enactment shall be deducted from the monthly payments of salary due to the employé fined, and shall be paid into the Government Treasury to the credit of the departmental fines funds or otherwise as the Resident may direct. Payment of fines.

4. A monthly return shall be made to the Resident by every Head of Department authorised under this Enactment, shewing what fines, if any, have been inflicted during the previous month in his Department, and the accounts, if any, to which they have been credited. Monthly return of fines.

THE following Notifications are, by Command of the Acting Resident, published for general information.

R. G. WATSON,  
*Acting Secretary to Resident.*

7th October, 1901.

---

ORDER BY THE ACTING BRITISH RESIDENT,  
UNDER "THE SOCIETIES ENACTMENT, 1900."

No. 716.—Whereas it was enacted by Section 12 of "The Societies Enactment, 1900," that the Resident may at any time, if it appears to him necessary for the public safety or welfare, order any society, whether registered or exempted from registration under any of the provisions of this Enactment, to be dissolved, and thereupon the same shall be *ipso facto* dissolved, and shall thenceforth become and be an unlawful society:

And Whereas it appears to the Acting Resident that it is necessary for the public welfare and safety that the "Tak-Shun-Li" Society of Ipoh, in the District of Kinta, be dissolved :

Now it is hereby ordered by the Acting Resident that the said "Tak-Shun-Li" Society shall be dissolved from this date.

9th October, 1901.

J. P. RODGER,  
*Acting British Resident.*

### NOTICE UNDER SECTION 16 OF THE MINING ENACTMENT, 1899.

#### FORFEITURE OF MINING LEASES AND CERTIFICATES.

No. 717.—Whereas the lessees of the lands described in the Schedule hereto, have failed to fulfil the conditions on which the titles of the said lands have been granted to them.

And whereas the said Lessees having been served with notices in accordance with Section 15 of the Mining Enactment, 1899, have failed to shew cause to the satisfaction of the Resident why the said titles should not be forfeited.

In accordance with Section 16 of the above Enactment, notice is hereby given that the said titles have been forfeited and that the lands comprised therein have been reverted to and vested in the Ruler of the State.

#### SCHEDULE.

| District. | Mukim.         | Lot No. | Area. |    |    | Nature and No. of Title. | Name of Lessee.                  |

## SANITARY BOARDS.

### TAPAH.

#### REGISTRATION OF VEHICLES.

No. 718.—Notice is hereby given that Vehicles and Jinrickishas will be registered at the Sanitary Board Office, Tapah, on Wednesdays between 10 a.m. and 3 p.m.

This cancels the second paragraph of Notification No. 399, published in the *Gazette* of the 21st June, 1901.

9th October, 1901.

### TELUK ANSON.

#### HOUSE ASSESSMENT.

No. 719.—In accordance with Section 9 of the Sanitary Board Regulations, notice is hereby given to owners and occupiers of houses and buildings in the township of Teluk Anson, that they are required to furnish at the office of the Sanitary Board, Teluk Anson, not later than the 15th November, 1901, a return of the annual rental of their houses and buildings, together with the names of the streets in which such premises are situated, to enable the Board to arrive at a fair valuation of the assessment to be levied for the year 1902.

The owner or occupier of any house or building knowingly furnishing a false or incorrect return will be liable to a penalty not exceeding \$100.

1st October, 1901.

## TENDERS.

### CATTLE AND GOAT SLAUGHTER-HOUSE, TAIPING.

No. 720.—Tenders are invited for the farming of the Cattle and Goat Slaughter-house, Taiping, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Cattle and Goat Slaughter-house, Taiping," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

9th October, 1901.

---

#### PIG SLAUGHTER-HOUSE, TAIPING.

No. 721.—Tenders are invited for the farming of the Pig Slaughter-house in the township of Taiping, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Pig Slaughter-house, Taiping," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

9th October, 1901.

---

#### BATH-HOUSES, TAIPING.

No. 722.—Tenders are invited for the farming of the Bath-houses, in the town of Taiping, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Bath-houses, Taiping," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

9th October, 1901.

---

#### SLAUGHTER-HOUSES, KINTA.

No. 723.—Separate tenders are invited for the farming of Slaughter-houses in the townships of Ipoh, Tekka Menglembu, Papan, Lahat, Gopeng and Kampar, from 1st January, 1902, to 31st December, 1902.

Tenders should be addressed to the Chairman, Kinta Sanitary Board, Batu Gajah, endorsed on the outside of the cover "Tender for Slaughter-houses," and will be received up to 10 a.m. on the 13th November, 1901.

## SCALE OF CHARGES.

|                                                              |     |     |     | cents. |
|--------------------------------------------------------------|-----|-----|-----|--------|
| For the slaughter of a Buffalo or Bullock                    | ... | ... | ... | 25     |
| Do. " Sheep or Goat                                          | ... | ... | ... | 10     |
| Do. Pig (including the use of boiling water<br>for scalding) | ... | ... | ... | 25     |

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

## KEROSINE OIL STORES, KINTA.

No. 724.—Tenders will be received up to noon, the 13th November, 1901, for the right to use for the storage of petroleum and other oils, under Enactment No. 12 of 1897, for one year from the 1st January, 1902, the Government buildings which are now used as kerosine oil stores in the townships of Papan and Gopeng.

Tenderers should clearly understand that the renting of these buildings from Government will in no way secure any monopoly or right over any private stores which may be hereafter licensed by the Sanitary Board for the storage of these oils, but they may collect a fee for storage, not exceeding two cents a tin, for a period of 14 days and under from those who may wish to use the store.

A separate amount must be tendered for each store.

Tenders should be addressed to the Chairman, Kinta Sanitary Board, and be forwarded in sealed covers, marked on the outside "Tender for Right to Occupy and Use Kerosine Oil Stores," and will be received in his office not later than 10 a.m. on the 13th November, 1901.

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

## KEROSINE OIL STORES, TELUK ANSON.

No. 725.—Tenders will be received up to noon on the 15th November, 1901, for the right to use for the storage of petroleum and other oils, under Enactment No. 12 of 1897, for one year from the 1st January, 1902, the Government building which is now used as a kerosine oil store in the township of Teluk Anson.

With each tender a receipt from the local Treasury for a money deposit of \$20 must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned upon the acceptance of tenders having been decided.

Tenders which are sent unaccompanied by a Treasury receipt for the money deposit required will not be considered.

Tenderers should clearly understand that the renting of this building from Government will in no way secure any monopoly or right over any private stores which may be hereafter licensed by the Sanitary Board for the storage of these oils, but they may collect a fee for storage not exceeding two cents a tin for a period of 14 days and under, and not exceeding five cents a tin per month for any longer period, from those who may wish to use the store.

Tenders should be addressed to the Chairman, Sanitary Board, Teluk Anson, under sealed covers, marked on the outside "Tender for Rental of Oil Store, Teluk Anson."

Further particulars can be obtained from the Sanitary Board Office, Teluk Anson.

9th October, 1901.

#### REST-HOUSE, TRONOH.

No. 726.—Tenders are invited for the renting of the Rest-house in the township of Tronoh, for one year, from 1st January, 1902, to 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Rest-house, Tronoh," should be addressed to the Chairman, Kinta Sanitary Board, Batu Gajah, and will be received up to 10 a.m. on the 13th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. The deposit will be returned to all unsuccessful tenderers on allotment of contract, but will be forfeited by a tenderer declining to take up the contract after he has tendered.

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

Government does not bind itself to accept the highest or any other tender.

#### PRISONERS' RATIONS IN THE STATE OF PERAK.

No. 727.—Tenders are invited for the Supply of Rations to Prisoners in all the lock-ups in Larut, Kinta, Tapah, Krian, Lower Perak and Kuala Kangsar during the year 1902.

The daily diet is as follows:—

Rice 18 tahils, Vegetables 4 tahils, Salt Fish 4 tahils, Kachang Oil 4 tahils, Salt  $\frac{1}{4}$  tahlil.

Particulars as to the average number of prisoners likely to require meals may be obtained at the principal police stations in each District.

The cost of one meal to be half the amount charged for one day's diet.

Tenders may be for the whole State or for Districts, stating what Stations can be supplied with rations.

Tenders marked "Tenders for Prisoners' Rations in Police Lock-ups," should be addressed, under sealed covers, to the Secretary to Resident, Perak, and sent in not later than the 15th November, 1901.

9th October, 1901.

#### SUPPLY OF WOOD FOR CARPENTER'S SHOP, CENTRAL PRISON.

No. 728.—Tenders are invited for the supply of wood for use in the Carpenter's Shop, Central Prison, Taiping, during the year 1902.

Sealed tenders, marked on the outside "Tender for Supply of Wood for Carpenter's Shop, Central Prison," should be addressed to the Secretary to Resident, Taiping, and will be received not later than noon on the 30th November, 1901.

Tenders must state price per foot run of rough Meranti plants, 16 feet long, 8 inches, 9 inches, 10 inches 11, inches and 12 inches wide, and  $\frac{1}{2}$  inch, 1 inch and  $1\frac{1}{2}$  inches thick.

Price must also be stated, per foot super, of Merbau and Chingal planks of widths as ordered, and from 1 inch to 3 inches thick.

Prices for scantlings of both Meranti and hard wood must be stated per cubic foot.

Further particulars can be obtained at the office of the Superintendent of Prisons, Taiping.

9th October, 1901.

#### STREET LIGHTING, TAIPING AND KAMUNTING.

No. 729.—Tenders are invited for lighting the townships of Taiping and Kamunting, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Lighting, Taiping and Kamunting," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$50, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Tenders must state the price per lamp per month; Devoe's American kerosine oil to be used.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

9th October, 1901.

---

**LIGHTING, KINTA TOWNSHIPS.**

No. 730.—Tenders are invited for lighting the townships of Ipoh, Gopeng, Lahat, Menglembu, Tanjong Rambutan, Kampar, Batu Gajah, Papan and Pusing Bharu, from 1st January, 1902, to 31st December, 1902.

Tenders must state the price per lamp per month. The number of lamps at present is 223, but this number is subject to variation to suit the requirements of the Sanitary Board.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. The deposit will be returned to all unsuccessful tenderers on allotment of contract, but will be forfeited by a tenderer declining to take up the contract after he has tendered.

Sealed tenders, marked "Tender for Lighting," addressed to the Chairman, Kinta Sanitary Board, will be received at his office not later than 10 a.m. on the 13th November, 1901.

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

---

**LIGHTING, TELUK ANSON TOWNSHIP.**

No. 731.—Tenders are invited for lighting the township of Teluk Anson, for one year, from the 1st January, 1902.

With each tender a receipt from the local Treasury for a money deposit of \$20 must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State. All deposits will be returned upon the acceptance of tenders having been decided.

Tenders which are sent unaccompanied by the Treasury receipt for the money deposit required will not be considered.

Tenders should be enclosed in sealed covers, addressed to the Chairman, Sanitary Board, Teluk Anson, marked on the outside "Lighting Tender, Township of Teluk Anson," and be sent into his office not later than noon on the 15th November, 1901.

The price per lamp per month must be stated, the number of lamps being subject to variation as may suit the requirements of the Sanitary Board. There are at present 91 lamps.

Further information can be obtained at the Municipal Office, Teluk Anson.

9th October, 1901.

---

**SUPPLY OF CARTS, KINTA TOWNSHIPS.**

No. 732.—Tenders are invited for the supply of carts, bullocks and drivers, for the removal of town refuse in the Kinta townships from 1st January, 1902, to 31st December, 1902.

Tenders must state the hire per day of nine hours for:—

- (i). Each cart, together with a pair of bullocks and a driver.
- (ii). Each cart, together with a single bullock and a driver.

The number of carts at present employed is 23, but this number is subject to variation to suit the requirements of the Kinta Sanitary Board.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. The deposit will be returned to all unsuccessful tenderers on allotment of contract, but will be forfeited by any tenderer who declines to take up the contract if it is offered to him on his tender.

Sealed tenders, marked "Tender for Supply of Carts," addressed to the Chairman, Kinta Sanitary Board, will be received at his office not later than 10 a.m. on the 13th November, 1901.

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

#### COOLIE LINES, TAPAH ROAD—TANJONG MALIM LINE.

No. 733.—Tenders are invited for the construction of five sets of permanent way coolie lines, on sites to be pointed out between Tapah Road and Sungkai.

Sealed tenders, marked on the outside "Tender for Coolie Lines, Tapah Road-Tanjong Malim Line," should be addressed to the General Manager, Railway Department, and will be received not later than noon on the 1st November, 1901.

Tenders must state the time required and security offered for the completion of the works.

Plans and specification may be seen and further particulars obtained on application at the office of the Resident Engineer for Railways, Taiping, and the Assistant Engineer, Bidor.

9th October, 1901.

#### CUSTOMS SHED, TANJONG MALIM.

No. 734.—Tenders are invited for the erection of Customs Shed, Tanjong Malim railway station.

Sealed tenders, marked on the outside "Tender for Customs Shed, Tanjong Malim," should be addressed to the General Manager, Railway Department, Kuala Lumpur, and will be received not later than noon on the 16th October, 1901.

Tenders must state the time required and security offered for the completion of the work. Plan and specification may be seen and further information obtained at the office of the Resident Engineer for Railways, Taiping, and the Assistant Engineer, Tanjong Malim.

9th October, 1901.

#### REST-HOUSE AND STABLES, BIDOR.

No. 735.—Tenders are invited for the construction of a Rest-house and Stables at new Bidor town, Batang Padang.

Tenders should be addressed to the Secretary to Resident, sealed, and marked on the outside "Tender for Rest-house and Stables, Bidor," and will be received at his office up to noon on Saturday the 26th October, 1901.

Plans and specifications can be seen at the Executive Engineer's Office in Tapah or the State Engineer's Office in Taiping.

9th October, 1901.

#### RAILWAY UNIFORMS.

No. 736.—Tenders are invited for the supply of uniforms for the Railway staff in Kinta, Larut, Krian and Province Wellesley during the year 1902.

Sealed tenders, marked on the outside "Tender for Railway Uniforms," will be received at the office of the General Manager for Railways, Kuala Lumpur, up to noon on Friday the 15th November, 1901.

Conditions of contract and full particulars may be obtained at the office of the Resident Engineer for Railways, Taiping, and the Traffic Superintendent, Ipoh.

9th October, 1901.

#### FIREWOOD, KINTA VALLEY, LARUT, KRIAN AND PROVINCE WELLESLEY RAILWAYS, AND FERRY STEAMERS.

No. 737.—Tenders are invited for the supply of firewood for locomotives on the Kinta Valley, Larut, Krian and Province Wellesley Lines, and for ferry steamers at Prai during the year 1902.

The wood is to be bakau, stripped of bark, in billets twenty-four inches long and weighing not less than ten katis each; except those for the ferry steamers, the weight of which is to be five katis each and the length sixteen inches.

The average monthly quantity required will be about 145,000 billets at Teluk Anson, 47,000 billets at Port Weld, 70,000 large size billets and 47,000 small size billets at Prai. The Contractor will be required to bind himself to supply any larger quantity that may be required and to keep a reserve stock of 290,000 billets at Teluk Anson, 94,000 billets at Port Weld, 140,000 large size and 94,000 small size billets at Prai.

Alternative tenders are also invited for the supply of 117,000 large size billets per mensem, delivered (a) at Port Weld, (b) at Nibong Tebal, and (c) at Prai, with the power reserved to Government in each case to require the Contractor to deliver portions of the same, not exceeding 47,000, 29,000 and 41,000 billets at Port Weld, Nibong Tebal and Prai, respectively.

Payment will be made monthly on the actual weight of the wood delivered.

The firewood is to be delivered on river bank at Teluk Anson, Port Weld and Prai, respectively, on sites that will be pointed out, for stacking and counting, and the Contractor will be required to load the firewood into railway trucks at these depôts.

Tenders are to be per 100 pikuls; and should be addressed to the General Manager for Railways, Kuala Lumpur, sealed and marked on the outside "Tender for Railway Firewood, Perak," and will be received at his office up to noon on Friday the 15th November, 1901.

Further particulars and form of tender may be obtained at the office of the Resident Engineer for Railways, Taiping, the Locomotive Engineer, Ipoh, and the Locomotive Foreman, Prai.

9th October, 1901.

#### LUBRICATING OILS, RAILWAY DEPARTMENT.

No. 738.—Tenders are invited for the supply of the under mentioned lubricating oils, required in the Railway Department during the year 1902, *viz* :—

Heavy Engine Oil, gallons 4,000, more or less

Carriage Axle Oil „ 2,500 „

Cylinder Oil „ 600 „

half of which is to be delivered at Teluk Anson and half at Penang.

The oils are to be of the very best quality, delivered monthly in such quantities as may be ordered.

Tenders are to be per Imperial gallon nett.

Sealed tenders, accompanied by samples, and endorsed "Tender for Lubricating Oils," are to be addressed to the General Manager for Railways, Kuala Lumpur, and will be received up to noon on Friday the 15th November, 1901.

9th October, 1901.

#### RAILWAY STORES.

No. 739.—Tenders are invited for the supply of such of the following stores as are required to be purchased locally for the Railway Department, Perak, during the year 1902 :—

Class A—Tools.                      Class C—Paints, etc.

„ B—Hardware.                      „ D—Miscellaneous Stores.

Schedules and further information may be obtained on application to the Resident Engineer for Railways, Taiping.

Sealed tenders, endorsed "Tender for Railway Stores," will be received at the office of the General Manager for Railways, Kuala Lumpur, up to noon on Friday the 15th November, 1901.

9th October, 1901.

#### MANUFACTURE OF MACHINE MADE BRICKS, AYER KUNING.

No. 740.—Tenders are invited for the manufacture of machine made standard size bricks in the Government Brick-works at Ayer Kuning, near Taiping. The Government will provide for the use of the Contractor the brickmaking machinery, plant, sheds and kilns at present comprising the

works; the Contractor is to supply all labour, firewood and stores, etc., and to hand over in good order at the termination of contract all the plant placed at his disposal as above.

Tenders are to be per laksa of finished bricks of standard English size,  $8\frac{3}{4}$  inches by  $4\frac{1}{4}$  inches by  $2\frac{3}{4}$  inches, stacked alongside siding; and a rate per laksa is also to be stated for loading into railway waggons.

Further particulars may be obtained at the office of the Resident Engineer for Railways, Taiping.

Sealed tenders, endorsed "Tender for Brickmaking, Taiping," are to be addressed to the General Manager, Railway Department, Kuala Lumpur, and will be received at his office up to noon on the 31st October, 1901.

9th October, 1901.

---

### SUPPLY OF FRESH MILK TO HOSPITALS AND PRISONS.

No. 647.—Separate tenders are invited for the supply of fresh cow's milk, at the under-mentioned stations, for the period of twelve months, from 1st January, 1902.

District Hospitals and Prisons at Larut, Batu Gajah and Parit Buntar.

District Hospitals at Kuala Kangsar, Gopeng, Ipoh, Kampar, Teluk Anson, Tapah, Bagan Serai and Selama.

The terms of contract can be ascertained from the State Surgeon, Taiping, or from the Medical Officer of each District.

With each tender a receipt from the local Treasury, shewing a money deposit of \$20, must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned upon the acceptances of tenders having been decided.

Tenders which are sent unaccompanied by a Treasury receipt shewing the money deposit required will not be considered.

Tenders, marked "Fresh Milk Supply, Hospitals and Prisons," or "Fresh Milk Supply, Hospitals," as the case may be, should be addressed, under sealed covers, to the Secretary to Resident, and sent to his office not later than the 31st October, 1901.

13th September, 1901.

---

### SUPPLY OF STERILIZED CANNED MILK TO HOSPITALS.

No. 648.—Tenders are invited for the supply of sterilized unsweetened canned milk for the State Hospitals, for the period of twelve months, from 1st January, 1902.

The terms of contract can be ascertained from the State Surgeon, Taiping.

The brands of milk for which tenders will be entertained are the "Sledge," "Highland Cream," "Ideal," and "Viking."

The average monthly consumption is about 100 cases of four dozen one pound tins.

The price tendered should be *c.i.f.* Penang, Port Weld and Teluk Anson.

Full particulars should be given as to gross and nett weight of tins. Samples and all literature regarding the various brands of milk should be sent direct to the State Surgeon.

Tenders, marked on the outside "Tender for Canned Milk," should be addressed to the Secretary to Resident, Taiping, Perak, and sent to his office not later than the 31st October, 1901.

13th September, 1901.

### HOSPITAL AND PRISON SUPPLIES.

No. 649.—Separate tenders are invited for the supply of hospital and prison requisites, at the under-mentioned stations, for the period of twelve months, from 1st January, 1902.

District Hospitals and Prisons at Larut, Batu Gajah and Parit Buntar.

District Hospitals at Kuala Kangsar, Gopeng, Ipoh, Kampar, Teluk Anson, Tapah, Bagan Serai and Selama.

The terms of the contract can be ascertained from the State Surgeon Taiping, or from the Medical Officer of each district, who will also, on application, provide the necessary schedule forms.

With each tender a receipt from the local Treasury, shewing a money deposit of \$30, must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned upon the acceptances of tenders having been decided.

Tenders which are not made out on the proper forms, or if the "Instructions to Tenderers," which are inserted in the printed schedule forms are disregarded, or if they are sent unaccompanied by a Treasury receipt shewing the money deposit required, will not be considered.

Tenders, marked "Hospital and Prison Supplies," or "Hospital Supplies," as the case may be, should be addressed, under sealed covers, to the Secretary to Resident, and sent to his office not later than the 31st October, 1901.

13th September, 1901.

### COFFINS FOR HOSPITALS.

No. 650.—Separate tenders are invited for the supply of coffins for the under-mentioned hospitals for the period of twelve months, from the 1st January, 1902.

District Hospitals at Larut, Kuala Kangsar, Batu Gajah, Gopeng, Ipoh, Kampar, Teluk Anson, Tapah, Parit Buntar, Bagan Serai and Selama.

The terms of the contract can be ascertained from the State Surgeon, Taiping, or from the Medical Officer in charge of each Hospital.

With each tender a receipt from the local Treasury, shewing a money deposit of \$20, must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned as soon as tenders have been accepted.

Tenders which are sent unaccompanied by a Treasury receipt shewing the money deposit required will not be considered.

Tenders, marked "Coffins, Hospitals," should be addressed, under sealed covers, to the Secretary to Resident, and sent to his office not later than noon on the 31st October, 1901.

13th September, 1901.

Government does not bind itself to accept the lowest or any other tender.

## DEPARTMENTAL NOTICES.

### UNCLAIMED ARTICLES.

No. 741.—The under-mentioned articles, which have been lying in the Railway premises for over three months, will be sold by public auction at the Railway Station, Taiping, on Saturday, the 2nd November, 1901 :—

#### LIST OF ARTICLES.

|                                                                                         |                                                                                                                                                              |

No. 745.—Application having been made to the Collector of Land Revenue, at Kuala Kangsar, by Nuteh binti Ngah Kolah and Pandak Pakeh bin Busu Esa, administrator of Itam Sahak, both of Saiong, for a new document of title for land situated at Saiong, in the District of Kuala Kangsar, on the ground that Nuteh binti Ngah Kolah and Itam Sahak are the registered owners thereof, and that the original Permit, No. 546 of 1887, has been lost:

No. 746.—Application having been made to the Collector of Land Revenue, at Kuala Kangsar, by Alang Jemilah binti Uda Samat, (applicant under Order in Council No. 3 of

1893) of Kota Lama, for a new document of title for land situated at Kota Lama Kiri, in the District of Kuala Kangsar, on the ground that Haji Lateh bin Muhammad Nanti is the registered owner thereof, and that the original Extract, No. 1,087, has been lost:

No. 747.—Application having been made to the Collector of Land Revenue, at Kuala Kangsar, by Pandak Abubakar bin Tajudin of Kota Lama Kiri, the attorney of Toh Muda Wahab, for a new document of title for land situated at Kota Lama Kanan, in the District of Kuala Kangsar, on the ground that Toh Muda Wahab is the registered chargee thereof, and that the original Permit, No. 256 of 1892, has been lost:

11th October, 1901.

No. 602.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Mat Aris bin Ngah Jurdeh of Blanja, for a new document of title for land situated in the mukim of Blanja, on the ground that Kulup Mat Aris bin Ngah Jurdeh is the registered owner thereof, and that the original Permit, No. 1,226 of 1888, has been lost:

No. 603.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Kulup Wahab bin Ngah Bedin of Kota Lama Kanan, for a new document of title for land situated in the mukim of Saiong, on the ground that Kulup Wahab bin Ngah Bedin is the registered owner thereof, and that the original Permit, No. 7,193 of 1886, has been lost:

No. 604.—Application having been made to the Collector of Land Revenue, Kuala Kangsar, by Petri Jelehah binti Megat Ngah of Semunta, Senggang, for a new document of title for land situated in the mukim of Senggang, on the ground that Petri Jelehah binti Megat Ngah is the registered owner thereof, and that the original Permit, No. 618 of 1886, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications the new titles applied for will, subject to the provisions of the said Section 13, be granted.

30th August, 1901.

#### NOTICE TO LESSEE UNDER SECTION 15 OF THE MINING ENACTMENT, 1899.

No. 748.—Whereas there is reason to believe that the person enumerated in the Schedule hereto has failed to fulfil the labour conditions of the lease herein shewn, in consequence whereof the said lease has become liable to forfeiture, now with the approval of the Resident, I hereby notify the said person that if, within three months from the date of first publication of this notice in the *Gazette*, the labour conditions of the said lease be not fulfilled, the land will be resumed in the absence of good cause shewn to the contrary.

#### SCHEDULE.

*Name of Lessee*—Fred. Clarkson Langford, for the Perak Tin Syndicate, Limited. *No. of Lease*—62. *Date of Lease*—29th October, 1895. *Situation*—Pulei, Mukim Pulau Kamiri. *Area*—45 acres, 3 roods and 20 poles. *Boundaries*—North, Lot No. 20; East, Lots Nos. 22 and 24; South, State land; West, Lot No. 16.

11th October, 1901.

#### NOTICES UNDER SECTION 28 OF THE LAND ENACTMENT, 1897.

No. 686.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder in the mukims of Lambor Kiri, Lambor Kanan, Bota, Blanja, Laiang Laiang and Senggang, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such lands or unless you enter or re-enter into occupation of such lands by making a *bona fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

F. ROBERTSON,  
*Collector of Land Revenue.*

No. 601.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder in the mukims of Senggang, Kota Lama Kiri, Chigar Galah, Pulau Kamiri, Durian Pipit, Kota Lama Kanan and Saiong, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such lands or unless you enter or re-enter into occupation of such lands by making a *boni fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

F. ROBERTSON,

30th August, 1901.

Acting Collector of Land Revenue.

## KINTA.

No. 605.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Chu Besar bin Uda Rahman of Kampar, administrator of the estate of the late Emaum Groyta, *vide* Letters of Administration No. 4/96, for a new title to land situated in the Kampar mukim of the Kinta District, on the ground that the heirs of Emaum Groyta are the registered owners thereof, and that the original Agreement for Agricultural Lease, No. 2,295, has been lost:

No. 606.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Wong Sung Sin, for a Mining Lease of land situated in the Ulu Kinta mukim of the Kinta District, on the ground that Wong Sung Sin is the registered owner thereof, and that the original Agreement for Mining Lease, No. 856, has been lost:

No. 607.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Vong Yeu, for a new Mining Lease of land situated in the Sungei Trap mukim of the Kinta District, on the ground that Vong Yeu is the registered owner thereof, and that the original Mining Lease, No. 1,303, has been lost:

No. 608.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Chan Lai Lin, attorney for Chan Toun Wing, Power of Attorney No. 97/01, administrator for the estate of the late Chan Mung Tye, Letters of Administration No. 22/01, for a Mining Lease of land situated in the Ulu Kinta mukim of the Kinta District, on the ground that Chan Mung Tye is the registered owner thereof, and that the original Agreement for Mining Lease, No. 657, has been lost:

30th August, 1901.

No. 574.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Li Oh of Ipoh, for a new Mining Lease of land situated in the mukim of Ulu Kinta, of the Kinta District, on the ground that the said Li Oh is the registered owner thereof, and that the original Mining Lease, No. 1,995, has been lost:

No. 575.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Lateb bin Haji Mat Amin and Orang Kaya Muda bin Muhammad Saleh, for a new title to land situated in the mukim of Ulu Kinta, of the Kinta District, on the ground that Si Lateb and Orang Kaya Muda are the registered owners thereof, and that the original Agreement for Agricultural Lease, No. 293, has been lost:

No. 576.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Li Ah Chow, attorney for Liaw Zec Leong, *vide* P/A. No. 30/1896, for a new title to land situated in the mukim of Sungei Trap, of the Kinta District, on the ground that Liaw Zec Leong is the registered owner thereof, and that the original Agreement for Agricultural Lease, No. 1,472, has been lost:

No. 577.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Li Sam, partner with Ho Sui Fu of the late firm of "Shin Bow Loon" of Gopeng, for a Mining Lease of land situated in the mukim of Sungei Raia, of the Kinta District, on the ground that Shin Bow Loon is the registered owner thereof, and that the original Agreement for Mining Lease, No. 256, has been lost:

No. 578.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Itam Harun bin Panjang Seman, Administrator for the estate of the late Panjang Seman, *vide* Letters of Administration No. 18/1901, for a Mining Lease of land situated in the mukim of Ulu Kinta, of the Kinta District, on the ground that Panjang Seman bin Haji Massin is the registered owner thereof, and that the original Agreement for Mining Lease, No. 267, has been lost:

No. 579.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Maidin bin Hashim, Lasam bin Abdul Samat and Limau bin Muhammad Sah, joint owners with Song Yan, for a new Mining Lease of land situated in the mukim of Sungei Trap, of the Kinta District, on the ground that Maidin bin Hashim, Lasam bin Abdul Samat, Liman bin Muhammad Sah and Song Yan are the registered owners thereof, and that the original Mining Lease, No. 1,776, has been lost:

No. 580.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Kok Yin Yong of Gopeng, for two new Mining Leases of land situated in the mukim of Kampar, of the Kinta District, on the ground that Kok Yin Yong is the registered owner thereof, and that the original Mining Leases, Nos. 2,392 and 2,393, have been lost:

16th August, 1901.

No. 515.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Chan Seng Wun, executor of the estate of the late Chan Chew Fun, for two new Mining Leases of land situated in the mukim of Sungei Raia, of the Kinta District on the ground that Chan Chew Fun is the registered owner thereof, and that the Original Mining Leases, Nos. 2,325 and 2,326, have been lost:

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said sections, be granted.

19th July, 1901.

D. P. HOPKINS,  
*for Collector of Land Revenue.*

#### BATANG PADANG.

No. 749.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Raja Zinal Abidin bin Raja Allang Hussein of Temoh, for a new document of title for a piece of land situated at Chanderiang, in the district of Batang Padang, on the ground that Raja Zinal Abidin bin Raja Allang Hussein is the registered owner thereof, and that the original Extract from the Mukim Register, Entry No. 38, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new Document of Title applied for will, subject to the provisions of the said Section 13, be granted.

11th October, 1901.

No. 750.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Francis John Bryant of Ipoh and George Loveridge Bailey of Tapah, for a new mining lease of land situated at Batang Padang mukim, in the District of Batang Padang, on the ground that the original Mining Lease, No. 78, registered in the name of Walter Richard Haighton Chappel, on behalf of the new Bukit Mas (Golden Hill) Mining Company, Limited, has been lost:

In accordance with the provisions of Section 33(d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new title applied for will, subject to the provisions of the said Section 13, be granted.

11th October, 1901.

R. CLAYTON,  
*Acting Collector of Land Revenue.*

## KRIAN.

No. 654.—Application having been made to the Collector of Land Revenue, at Krian, by Teoh Ah Ngoh of Bagan Serai, for new documents of title for two pieces of land situated at Bagan Serai, in the mukim of Bagan Serai, on the ground that Teoh Ah Ngoh is the registered owner thereof, and that the original Extracts from the Mukim Register, entries Nos. 1,893 and 2,765, have been lost:

No. 655.—Application having been made to the Collector of Land Revenue, at Krian, by M. M. R. M. Odeyappa Chetty of Bagan Serai, for new documents of title for seven pieces of land situated at Bagan Serai, in the mukim of Bagan Serai, on the ground that M. M. R. M. Odeyappa Chetty is the registered owner thereof, and that the original Extracts from the Mukim Register, entries Nos. 907, 919, 921, 1,883, 1,899, 3,172 and 3,280 have been lost:

No. 656.—Application having been made to the Collector of Land Revenue, at Krian, by Ng Ah Teng of Sungei Gedong, for a new document of title for a piece of land situated at Sungei Gedong, in the mukim of Bagan Serai, on the ground that Ng Ah Teng is the registered owner thereof, and that the original Extract from the Mukim Register, entry No. 3,479, has been lost:

No. 657.—Application having been made to the Collector of Land Revenue, at Krian, by Muhammad bin Drahman, administrator of the estate of Drahman bin Mat of Penang, for a new document of title for a piece of land situated at Bagan Tiang, in the mukim of Bagan Tiang, on the ground that Drahman bin Mat is the registered owner thereof, and that the original Agreement, No. 7,733, has been lost:

No. 658.—Application having been made to the Collector of Land Revenue, at Krian, by Mat Arsat bin Mat Saman of Parit Buntar, for a new document of title for a piece of land situated at Parit Buntar, in the mukim of Parit Buntar, on the ground that Mat Arsat bin Mat Saman and Brahim bin Sahid are the registered owners thereof, and that the original Extract from the Mukim Register, entry No. 21, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new document of titles applied for will, subject to the provisions of the said Section 13, be granted.

13th September, 1901.

## NOTICES UNDER SECTION 28 OF THE LAND ENACTMENT, 1897.

No. 653.—To the Landowners named in the Schedule below:—

Take Notice that whereas you have abandoned the land described hereunder in the mukims of Bagan Tiang, Kurau and Jalan Bharu, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bonâ fide* commencement to cultivate it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 13th day of September, 1901.

No. 660.—Notice is hereby given that an application has this day been made to the Court of the First Class Magistrate, Kinta, holden at Batu Gajah, for Letters of Administration to all and singular the goods and chattels, rights, credits and effects which were of Wony Lam Sin, late of Gopeng, in the District of Kinta, deceased, to be granted to Tan Tiong, on the ground that the applicant is the creditor of the said deceased:

No. 661.—Notice is hereby given that an application has this day been made to the Court of the First Class Magistrate, Kinta, holden at Batu Gajah, for Probate to all and singular the goods and chattels, rights, credits and effects which were of Ho Sam, late of Batu Gajah, in the District of Kinta, deceased, to be granted to Ho Pang and Ho Man, on the ground that the applicants are the executors mentioned in the last will of the said deceased:

Unless within one month from the date of publication of the above notices in the *Gazette* sufficient cause to the contrary be shewn to this Court, the letters and probate applied for will be granted.

CECIL WRAY,  
*District Magistrate.*

13th September, 1901.

## REGISTRATION OFFICE NOTICES.

UNDER SECTION 81 OF THE REGISTRATION OF TITLES  
ENACTMENT 1897.

No. 668.—Whereas declaration has been made by Lee Chong of Lidin, of loss of title, registered in the name of Chong Kim Su, to wit:—

*Lease for Agricultural Land*—No. 1,852, in the Register of Larut Country Leases. *Lot No. 134. Situation*—in the Mukim of Tupai.

Notice is hereby given that provisional Certificate of Title will issue in respect of the above on the expiration of one month from the date of publication hereof in the absence of proper cause shewn by that time to the contrary.

GEORGE MAXWELL,

27th September, 1901.

Acting Registrar of Titles, North.

No. 662.—Application having been made to the Registrar of Titles, South, at Batu Gajah, by Chang Kin of Batu Gajah, for a provisional certificate of title for land situated in the mukim of Sungei Trap, of the Kinta District, on the ground that the said Chang Kin is the registered owner thereof, and that the original Agricultural Lease, No. 332, has been lost:

No. 663.—Application having been made to the Registrar of Titles, South, at Batu Gajah, by Chang Khin and Chin Tung Lim, for a provisional certificate of title for land situated in the mukim of Ulu Kinta, of the Kinta District, on the ground that the said Chang Khin and Chin Tung Lim are the registered owners thereof, and that the original Agricultural Lease No. 407 has been lost:

In accordance with the provisions of Section 81 of the Registration of Titles Enactment, 1897, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the Registrar of Titles, South, for refusing these applications, the provisional certificates applied for will, subject to the provisions of the said Section 81, be granted.

F. BELFIELD,

13th September, 1901.

Registrar of Titles, South.

STRAITS SETTLEMENTS.

[No. 243.]

DOWNING STREET,

*2nd August, 1901.*

SIR,

I have the honour to acknowledge the receipt of your despatch No. 277 of the 18th of June, enclosing copies of a memorial addressed to me by members of the Government service in the Colony, in which they urge the necessity of an immediate increase to their salaries. In answer to this despatch, and in continuation of the correspondence which has passed on the subject I now propose to convey to you the decision at which I have arrived: and as to which I have already communicated with you by telegraph.

2. As you are aware, and as my despatches No. 353 of the 21st of November and No. 77 of the 1st of March last have indicated, I am prepared to accept the position that the local salaries of Government servants in the Colony and in the Federated Malay States are as a rule inadequate. My despatch of the 1st of March also stated that I was ready to concur in your view that the higher officers of the service should be paid in sterling.

3. In the 5th paragraph of that despatch I wrote "In introducing the new system I am of opinion that all existing members of the services should be given individually the option of either accepting the new sterling rates of salary, which will in most cases be an increase on their present salaries,

accompanied, however, by a possible prospective reduction in leave salary and pension, or of remaining on their present footing without any increase of salary but retaining their present privileges of exchange compensation and special leave and pension rates of exchange."

4. Subsequently to writing that despatch I received from you the report of the Select Committee of the Legislative Council, recommending increases to the salaries of the Government servants of the Colony, and the publication of these recommendations has somewhat complicated the issue. I understand that existing Government servants in the higher grades are not likely to favour any scheme involving a diminution in the rate at which they are now entitled to draw leave pay and pension, and the question therefore really becomes a twofold one, *viz.*, how to deal with officers already in the service, and how to pay future officers.

5. I may premise what I have to say by laying down (1) that any increases given in the Colony must be subject to the vote of the Legislative Council, the Unofficial Members of which have already shewn that they wish to treat the matter with liberality; (2) that while I gladly recognise the claims to consideration which the officers of the Colony and the Federated Malay States undoubtedly possess, they do not need to be reminded that the claims must be measured with reasonable regard to the financial prospects of the future.

6. I take first the question of payment of future officers in the higher grades of the service. You and I are agreed that as matters stand it is advisable that in such cases the Exchange Compensation Allowance, and the artificial rates of leave pay and pension should be abolished, and that officers who would have enjoyed these privileges under existing conditions shall be paid simply so many pounds sterling converted in the Malay Peninsula into dollars "at an annual rate fixed at the time when the Estimates are prepared and based on the average of the preceding twelve months" (I am quoting from the 8th paragraph of my despatch of the 1st of March). This rule should be brought into force at once. All officers engaged in England from the date of this despatch will be engaged on sterling salaries and you should lose no time in submitting for my approval new schedules of the Cadet Service and higher appointments in the Colony and the Federated Malay States paid on a sterling basis.

7. I assume that, in making your suggestions, you will deal with each appointment on its merits. The salaries now paid will no doubt largely guide you in recommending what rates should be paid in future, but it will not be enough simply to translate existing salaries into sterling: and while, on the one hand, I recognise, as I have already said, that existing local salaries are generally inadequate, I am anxious that you should bear in mind that no breach of faith is involved in paying this or that post at a lower rate than it is now paid if you consider that the circumstances justify a reduction. The considerations which should and will no doubt guide you are (1) fair remuneration, having reference to cost of a reasonable standard of living, and the duties and responsibilities of the office; (2) the charge which will be thrown upon the revenue, including especially the charge for ineffective services and the capacity of the revenue to bear it. On the question of increments I need not add to what has been said in previous despatches. It has already been pointed out, and I refer to the matter again below, that in the lower grades of the service, for passed Cadets

and those more immediately above them, the incremental system is a great boon as compensating to some extent for slowness of promotion at those times of stagnation which must be expected in all services.

8. In the 4th paragraph of my despatch of the 1st of March I wrote "I understand that you do not propose to fix the salaries of subordinate officers in sterling and if you consider that all salaries could not be paid in sterling I am prepared to agree that officers drawing say \$1,200 per annum and under should continue to have their salaries paid in dollars. It would, however, be necessary to make an exception in favour of a few specified classes of officers, *e.g.*, European police constables and nurses, who being sent from this country should have their salaries fixed in sterling." This paragraph will, in the main at any rate, hold good. The difficulty which has arisen, and which it is sought to obviate by introducing a sterling basis for the salaries of the higher appointments, has been the constant fluctuation in the exchange value of the dollar and the inconvenience of the remedies which have been devised to meet this fluctuation, *viz.*, Exchange Compensation Allowance and an arbitrary rate for leave pay and pension. It is the European officers who have chiefly felt the changes in the dollars and for whose benefit the remedies have been devised. These remedies therefore—especially Exchange Compensation—have attached rather to persons than to appointments; but in the future it will be simpler either to draw a line between whole branches of the Government services as *e.g.*, between the Cadet Service and the Clerical Service, or to take a limit of salary as proposed in the paragraph quoted above and to have a sterling basis above the limit, a dollar basis below. In either case the limit should be drawn so as to demarcate as nearly as possible appointments which are usually held by Europeans from those which are as a rule filled locally; but all who are above it, whether Europeans or not, should be paid in sterling, whereas below the limit an exception must, as pointed out in my previous despatch, be made in the case of nurses, policemen, prison warders and others who are engaged in this country and who should be paid in sterling not in dollars.

9. I now turn to consider the case of officers who are already in the service. As regards the higher officers, I am not prepared to consent to any scheme whatever which will add to the already abnormal and extravagant charges for leave salary and pension. I had contemplated, as my despatch of the 1st of March shews, giving the officers concerned the alternative of accepting a gain on local salaries coupled with a reduction in leave and pension rates, or of simply remaining on their present footing; but I do not wish to appear to drive a hard bargain with men who have earned liberal treatment, and therefore I propose to withdraw altogether the proposal to pay sterling rates to existing officers, and I am prepared to give to those who now receive Exchange Compensation Allowance on half their salaries the same allowance on the whole salaries, on the distinct understanding that the allowance is computed on salaries alone (including personal but no other allowances).

This will amount to an increase in local salaries of nearly 25 per cent, but there will be no addition to the charges for leave pay or pension. In view of your strong recommendation I am prepared to allow this concession to date back, as the Petitioners ask, to the 1st of January last (if the Legislative Council in the Colony are prepared to take the necessary supplementary vote).

10. The Exchange Compensation Allowance—as I have said—attaches to persons rather than to posts, and there are some few cases of officers in the higher ranks of the service who have been debarred from it by the fact that they have not been domiciled in a gold standard country. On the whole I do not think that they should lose the increase which is now being given to the higher officers whose domicile is in a gold standard country and if you concur I am prepared to approve of a non-pensionable addition of 25 per cent to their salaries, being much the same addition as will be given to European officers in the form of Compensation Allowance.

11. I have referred above to the great and increasing cost of pensions. I am inclined to think that in the case of all who enter the Government service hereafter in the Colony or in the Federated Malay States £1,000 per annum should be made the maximum limit of pension. It is the amount fixed by Imperial Act as a first-class Governor's pension and in my opinion it is a sufficiently liberal retiring allowance on the assumption that officers have been adequately paid while on active service.

12. In connection with the new sterling rates for future officers I will ask you to consider the present schedules of appointments and whether, as has been represented to me, the proportion of higher to lower appointments should be increased. Such changes, if made, must necessarily add to expense, but, within limits, I am prepared to consider such proposals of the kind as will, when combined with increments, give a hope of more steady improvement than at present to the position of the younger officers. There should, in short, be a revision of the grading of the services in the Colony and the Federated Malay States—which revision can come into force at once; and to the grades as revised—for future comers—should be attached new sterling salaries.

13. The higher appointments, outside the Cadet services in the Colony and the Federated Malay States, will be dealt with in the same way. Existing officers will receive non-pensionable increases to their local salaries. Future officers will be paid in sterling.

In regard to the subordinate and clerical services, I am prepared to approve for the Colony the proposals contained in Appendices CC and DD to the report of the Select Committee of the Legislative Council so far as you concur in them; and similar treatment should, as far as possible, be accorded to similar appointments in the Federated Malay States.

In the case of these subordinate appointments which are paid in dollars, the increases which may now be granted will hold for the future, but, inasmuch as Non-European members of the subordinate services occasionally visit Europe, care must be taken to ensure that after the proposed increases have been given leave salary and pension shall be paid only at the current rate of exchange. This proviso might—I am inclined to think—be fairly applied even to existing members of the subordinate services provided that their pensionable dollar salaries are increased.

14. In all cases the increases should date from the first of January last.

I have, etc.,

J. CHAMBERLAIN.

THE following Notifications are, by Command of the Acting Resident, published for general information.

R. G. WATSON,  
*Acting Secretary to Resident.*

### APPOINTMENTS.

No. 760.—Mr. Philip Augustus Reutens, Accountant, Audit Office, to act as Assistant Auditor, Audit Office, with effect from the 28th August, 1901.

---

TENDERS.

---

CATTLE AND GOAT SLAUGHTER-HOUSE, TAIPING.

No. 720.—Tenders are invited for the farming of the Cattle and Goat Slaughter-house, Taiping, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Cattle and Goat Slaughter-house, Taiping," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

9th October, 1901.

---

PIG SLAUGHTER-HOUSE, TAIPING.

No. 721.—Tenders are invited for the farming of the Pig Slaughter-house in the township of Taiping, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Pig Slaughter-house, Taiping," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

9th October, 1901.

## BATH-HOUSES, TAIPING.

No. 722.—Tenders are invited for the farming of the Bath-houses, in the town of Taiping, for one year, from the 1st January to the 31st December, 1902.

Scaled tenders, marked on the outside "Tender for Bath-houses, Taiping," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

9th October, 1901.

## SLAUGHTER-HOUSES, KINTA.

No. 723.—Separate tenders are invited for the farming of Slaughter-houses in the townships of Ipoh, Tekka Menglembu, Papan, Lahat, Gopeng and Kampar, from 1st January, 1902, to 31st December, 1902.

Tenders should be addressed to the Chairman, Kinta Sanitary Board, Batu Gajah, endorsed on the outside of the cover "Tender for Slaughter-houses," and will be received up to 10 a.m. on the 13th November, 1901.

## SCALE OF CHARGES.

|                                           |                                                       |     |     | <i>cents.</i> |
|-------------------------------------------|-------------------------------------------------------|-----|-----|---------------|
| For the slaughter of a Buffalo or Bullock | ...                                                   | ... | ... | 25            |
| Do.                                       | Sheep or Goat                                         | ... | ... | 10            |
| Do.                                       | Pig (including the use of boiling water for scalding) | ... | ... | 25            |

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

## Kerosine Oil Stores, KINTA.

No. 724.—Tenders will be received up to noon, the 13th November, 1901, for the right to use for the storage of petroleum and other oils, under Enactment No. 12 of 1897, for one year from the 1st January, 1902, the Government buildings which are now used as kerosine oil stores in the townships of Papan and Gopeng.

Tenderers should clearly understand that the renting of these buildings from Government will in no way secure any monopoly or right over any private stores which may be hereafter licensed by the Sanitary Board for the storage of these oils, but they may collect a fee for storage, not exceeding two cents a tin, for a period of 14 days and under from those who may wish to use the store.

A separate amount must be tendered for each store.

Tenders should be addressed to the Chairman, Kinta Sanitary Board, and be forwarded in sealed covers, marked on the outside "Tender for Right to Occupy and Use Kerosine Oil Stores," and will be received in his office not later than 10 a.m. on the 13th November, 1901.

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

#### KEROSINE OIL STORES, TELUK ANSON.

No. 725.—Tenders will be received up to noon on the 15th November, 1901, for the right to use for the storage of petroleum and other oils, under Enactment No. 12 of 1897, for one year from the 1st January, 1902, the Government building which is now used as a kerosine oil store in the township of Teluk Anson.

With each tender a receipt from the local Treasury for a money deposit of \$20 must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned upon the acceptance of tenders having been decided.

Tenders which are sent unaccompanied by a Treasury receipt for the money deposit required will not be considered.

Tenderers should clearly understand that the renting of this building from Government will in no way secure any monopoly or right over any private stores which may be hereafter licensed by the Sanitary Board for the storage of these oils, but they may collect a fee for storage not exceeding two cents a tin for a period of 14 days and under, and not exceeding five cents a tin per month for any longer period, from those who may wish to use the store.

Tenders should be addressed to the Chairman, Sanitary Board, Teluk Anson, under sealed covers, marked on the outside "Tender for Rental of Oil Store, Teluk Anson."

Further particulars can be obtained from the Sanitary Board Office, Teluk Anson.

9th October, 1901.

#### REST-HOUSE, TRONOH.

No. 726.—Tenders are invited for the renting of the Rest-house in the township of Tronoh, for one year, from 1st January, 1902, to 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Rest-house, Tronoh," should be addressed to the Chairman, Kinta Sanitary Board, Batu Gajah, and will be received up to 10 a.m. on the 13th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. The deposit will be

returned to all unsuccessful tenderers on allotment of contract, but will be forfeited by a tenderer declining to take up the contract after he has tendered.

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

Government does not bind itself to accept the highest or any other tender.

#### BRICKMAKING, BIDOR.

No. 765.—Tenders are invited for the manufacture of hand-made standard size bricks, in the Government Brick-works at Bidor, from 1st January, 1902. The Government will provide for the use of the Contractor the plant, sheds and kilns at present comprising the works; the Contractor is to supply all labour, firewood, etc., and to hand over in good order at the termination of contract all the plant placed at his disposal as above.

Tenders are to be per laksa of finished bricks of standard English size,  $8\frac{3}{4}$  inches by  $4\frac{1}{2}$  inches by  $2\frac{3}{4}$  inches, stacked alongside road; and a rate per laksa is also to be stated for loading into carts.

Further particulars may be obtained at the office of the Resident Engineer for Railways, Taiping.

Sealed tenders, endorsed "Tender for Brickmaking, Bidor," are to be addressed to the General Manager, Railway Department, Kuala Lumpur, and will be received at his office up to noon on the 1st December, 1901.

21st October, 1901.

#### PRISONERS' RATIONS IN THE STATE OF PERAK.

No. 727.—Tenders are invited for the Supply of Rations to Prisoners in all the lock-ups in Larut, Kinta, Tapah, Krian, Lower Perak and Kuala Kangsar during the year 1902.

The daily diet is as follows:—

Rice 18 tahils, Vegetables 4 tahils, Salt Fish 4 tahils, Kachang Oil 4 tahils, Salt  $\frac{1}{4}$  tahlil.

Particulars as to the average number of prisoners likely to require meals may be obtained at the principal police stations in each District.

The cost of one meal to be half the amount charged for one day's diet.

Tenders may be for the whole State or for Districts, stating what Stations can be supplied with rations.

Tenders marked "Tenders for Prisoners' Rations in Police Lock-ups," should be addressed, under sealed covers, to the Secretary to Resident, Perak, and sent in not later than the 15th November, 1901.

9th October, 1901.

---

**SUPPLY OF WOOD FOR CARPENTER'S SHOP,  
CENTRAL PRISON.**

No. 728.—Tenders are invited for the supply of wood for use in the Carpenter's Shop, Central Prison, Taiping, during the year 1902.

Sealed tenders, marked on the outside "Tender for Supply of Wood for Carpenter's Shop, Central Prison," should be addressed to the Secretary to Resident, Taiping, and will be received not later than noon on the 30th November, 1901.

Tenders must state price per foot run of rough Meranti plants, 16 feet long, 8 inches, 9 inches, 10 inches 11, inches and 12 inches wide, and  $\frac{1}{2}$  inch, 1 inch and  $1\frac{1}{2}$  inches thick.

Price must also be stated, per foot super, of Merbau and Chingal planks of widths as ordered, and from 1 inch to 3 inches thick.

Prices for scantlings of both Meranti and hard wood must be stated per cubic foot.

Further particulars can be obtained at the office of the Superintendent of Prisons, Taiping.

9th October, 1901.

---

**STREET LIGHTING, TAIPING AND KAMUNTING.**

No. 729.—Tenders are invited for lighting the townships of Taiping and Kamunting, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Lighting, Taiping and Kamunting," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$50, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Tenders must state the price per lamp per month; Devoe's American kerosine oil to be used.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

9th October, 1901.

---

**LIGHTING, KINTA TOWNSHIPS.**

No. 730.—Tenders are invited for lighting the townships of Ipoh, Gopeng, Lahat, Menglembu, Tanjong Rambutan, Kampar, Batu Gajah, Papan and Pusing Bharu, from 1st January, 1902, to 31st December, 1902.

Tenders must state the price per lamp per month. The number of lamps at present is 223, but this number is subject to variation to suit the requirements of the Sanitary Board.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. The deposit will be returned to all unsuccessful tenderers on allotment of contract, but will be forfeited by a tenderer declining to take up the contract after he has tendered.

Sealed tenders, marked "Tender for Lighting," addressed to the Chairman, Kinta Sanitary Board, will be received at his office not later than 10 a.m. on the 13th November, 1901.

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

#### LIGHTING, TELUK ANSON TOWNSHIP.

No. 731.—Tenders are invited for lighting the township of Teluk Anson, for one year, from the 1st January, 1902.

With each tender a receipt from the local Treasury for a money deposit of \$20 must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State. All deposits will be returned upon the acceptance of tenders having been decided.

Tenders which are sent unaccompanied by the Treasury receipt for the money deposit required will not be considered.

Tenders should be enclosed in sealed covers, addressed to the Chairman, Sanitary Board, Teluk Anson, marked on the outside "Lighting Tender, Township of Teluk Anson," and be sent into his office not later than noon on the 15th November, 1901.

The price per lamp per month must be stated, the number of lamps being subject to variation as may suit the requirements of the Sanitary Board. There are at present 91 lamps.

Further information can be obtained at the Municipal Office, Teluk Anson.

9th October, 1901.

#### SUPPLY OF CARTS, KINTA TOWNSHIPS.

No. 732.—Tenders are invited for the supply of carts, bullocks and drivers, for the removal of town refuse in the Kinta townships from 1st January, 1902, to 31st December, 1902.

Tenders must state the hire per day of nine hours for :—

- (i). Each cart, together with a pair of bullocks and a driver.
- (ii). Each cart, together with a single bullock and a driver.

The number of carts at present employed is 23, but this number is subject to variation to suit the requirements of the Kinta Sanitary Board.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. The deposit will be returned to all unsuccessful tenderers on allotment of contract, but will be

forfeited by any tenderer who declines to take up the contract if it is offered to him on his tender.

Sealed tenders, marked "Tender for Supply of Carts," addressed to the Chairman, Kinta Sanitary Board, will be received at his office not later than 10 a.m. on the 13th November, 1901.

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

---

#### COOLIE LINES, TAPAH ROAD—TANJONG MALIM LINE.

No. 733.—Tenders are invited for the construction of five sets of permanent way coolie lines, on sites to be pointed out between Tapah Road and Sungkai.

Sealed tenders, marked on the outside "Tender for Coolie Lines, Tapah Road-Tanjong Malim Line," should be addressed to the General Manager, Railway Department, and will be received not later than noon on the 1st November, 1901.

Tenders must state the time required and security offered for the completion of the works.

Plans and specification may be seen and further particulars obtained on application at the office of the Resident Engineer for Railways, Taiping, and the Assistant Engineer, Bidor.

9th October, 1901.

---

#### REST-HOUSE AND STABLES, BIDOR.

No. 735.—Tenders are invited for the construction of a Rest-house and Stables at new Bidor town, Batang Padang.

Tenders should be addressed to the Secretary to Resident, sealed, and marked on the outside "Tender for Rest-house and Stables, Bidor," and will be received at his office up to noon on Saturday the 26th October, 1901.

Plans and specifications can be seen at the Executive Engineer's Office in Tapah or the State Engineer's Office in Taiping.

9th October, 1901.

---

#### RAILWAY UNIFORMS.

No. 736.—Tenders are invited for the supply of uniforms for the Railway staff in Kinta, Larut, Krian and Province Wellesley during the year 1902.

Sealed tenders, marked on the outside "Tender for Railway Uniforms," will be received at the office of the General Manager for Railways, Kuala Lumpur, up to noon on Friday the 15th November, 1901.

Conditions of contract and full particulars may be obtained at the office of the Resident Engineer for Railways, Taiping, and the Traffic Superintendent, Ipoh.

9th October, 1901.

**FIREWOOD, KINTA VALLEY, LARUT, KRIAN AND PROVINCE  
WELLESLEY RAILWAYS, AND FERRY STEAMERS.**

No. 737.—Tenders are invited for the supply of firewood for locomotives on the Kinta Valley, Larut, Krian and Province Wellesley Lines, and for ferry steamers at Prai during the year 1902.

The wood is to be bakau, stripped of bark, in billets twenty-four inches long and weighing not less than ten katis each; except those for the ferry steamers, the weight of which is to be five katis each and the length sixteen inches.

The average monthly quantity required will be about 145,000 billets at Teluk Anson, 47,000 billets at Port Weld, 70,000 large size billets and 47,000 small size billets at Prai. The Contractor will be required to bind himself to supply any larger quantity that may be required and to keep a reserve stock of 290,000 billets at Teluk Anson, 94,000 billets at Port Weld, 140,000 large size and 94,000 small size billets at Prai.

Alternative tenders are also invited for the supply of 117,000 large size billets per mensem, delivered (a) at Port Weld, (t) at Nibong Tebal, and (c) at Prai, with the power reserved to Government in each case to require the Contractor to deliver portions of the same, not exceeding 47,000, 29,000 and 41,000 billets at Port Weld, Nibong Tebal and Prai, respectively.

Payment will be made monthly on the actual weight of the wood delivered.

The firewood is to be delivered on river bank at Teluk Anson, Port Weld and Prai, respectively, on sites that will be pointed out, for stacking and counting, and the Contractor will be required to load the firewood into railway trucks at these depôts.

Tenders are to be per 100 pikuls; and should be addressed to the General Manager for Railways, Kuala Lumpur, sealed and marked on the outside "Tender for Railway Firewood, Perak," and will be received at his office up to noon on Friday the 15th November, 1901.

Further particulars and form of tender may be obtained at the office of the Resident Engineer for Railways, Taiping, the Locomotive Engineer, Ipoh, and the Locomotive Foreman, Prai.

9th October, 1901.

**LUBRICATING OILS, RAILWAY DEPARTMENT.**

No. 738.—Tenders are invited for the supply of the under mentioned lubricating oils, required in the Railway Department during the year 1902, viz:—

|                           |                     |
|---------------------------|---------------------|
| Heavy Engine Oil, gallons | 4,000, more or less |
| Carriage Axle Oil         | „ 2,500 „           |
| Cylinder Oil              | „ 600 „             |

half of which is to be delivered at Teluk Anson and half at Penang.

The oils are to be of the very best quality, delivered monthly in such quantities as may be ordered.

Tenders are to be per Imperial gallon nett.

Sealed tenders, accompanied by samples, and endorsed "Tender for Lubricating Oils," are to be addressed to the General Manager for Railways, Kuala Lumpur, and will be received up to noon on Friday the 15th November, 1901.

9th October, 1901.

#### RAILWAY STORES.

No. 739.—Tenders are invited for the supply of such of the following stores as are required to be purchased locally for the Railway Department, Perak, during the year 1902 :—

Class A—Tools.

Class C—Paints, etc.

„ B—Hardware.

„ D—Miscellaneous Stores.

Schedules and further information may be obtained on application to the Resident Engineer for Railways, Taiping.

Sealed tenders, endorsed "Tender for Railway Stores," will be received at the office of the General Manager for Railways, Kuala Lumpur, up to noon on Friday the 15th November, 1901.

9th October, 1901.

#### MANUFACTURE OF MACHINE MADE BRICKS, AYER KUNING.

No. 740.—Tenders are invited for the manufacture of machine made standard size bricks in the Government Brick-works at Ayer Kuning, near Taiping. The Government will provide for the use of the Contractor the brickmaking machinery, plant, sheds and kilns at present comprising the works; the Contractor is to supply all labour, firewood and stores, etc., and to hand over in good order at the termination of contract all the plant placed at his disposal as above.

Tenders are to be per laksa of finished bricks of standard English size,  $8\frac{3}{4}$  inches by  $4\frac{1}{4}$  inches by  $2\frac{3}{4}$  inches, stacked alongside siding; and a rate per laksa is also to be stated for loading into railway waggon.

Further particulars may be obtained at the office of the Resident Engineer for Railways, Taiping.

Sealed tenders, endorsed "Tender for Brickmaking, Taiping," are to be addressed to the General Manager, Railway Department, Kuala Lumpur, and will be received at his office up to noon on the 31st October, 1901.

9th October, 1901.

#### SUPPLY OF FRESH MILK TO HOSPITALS AND PRISONS.

No. 647.—Separate tenders are invited for the supply of fresh cow's milk, at the under-mentioned stations, for the period of twelve months, from 1st January, 1902.

District Hospitals and Prisons at Larut, Batu Gajah and Parit Buntar.

District Hospitals at Kuala Kangsar, Gopeng, Ipoh, Kampar, Teluk Anson, Tapah, Bagan Serai and Selama.

The terms of contract can be ascertained from the State Surgeon, Taiping, or from the Medical Officer of each District.

With each tender a receipt from the local Treasury, shewing a money deposit of \$20, must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned upon the acceptances of tenders having been decided.

Tenders which are sent unaccompanied by a Treasury receipt shewing the money deposit required will not be considered.

Tenders, marked "Fresh Milk Supply, Hospitals and Prisons," or "Fresh Milk Supply, Hospitals," as the case may be, should be addressed, under sealed covers, to the Secretary to Resident, and sent to his office not later than the 31st October, 1901.

13th September, 1901.

#### SUPPLY OF STERILIZED CANNED MILK TO HOSPITALS.

No. 648.—Tenders are invited for the supply of sterilized unsweetened canned milk for the State Hospitals, for the period of twelve months, from 1st January, 1902.

The terms of contract can be ascertained from the State Surgeon, Taiping.

The brands of milk for which tenders will be entertained are the "Sledge," "Highland Cream," "Ideal," and "Viking."

The average monthly consumption is about 100 cases of four dozen one pound tins.

The price tendered should be *c.i.f.* Penang, Port Weld and Teluk Anson.

Full particulars should be given as to gross and nett weight of tins. Samples and all literature regarding the various brands of milk should be sent direct to the State Surgeon.

Tenders, marked on the outside "Tender for Canned Milk," should be addressed to the Secretary to Resident, Taiping, Perak, and sent to his office not later than the 31st October, 1901.

13th September, 1901.

#### HOSPITAL AND PRISON SUPPLIES.

No. 649.—Separate tenders are invited for the supply of hospital and prison requisites, at the under-mentioned stations, for the period of twelve months, from 1st January, 1902.

District Hospitals and Prisons at Larut, Batu Gajah and Parit Buntar.

District Hospitals at Kuala Kangsar, Gopeng, Ipoh, Kampar, Teluk Anson, Tapah, Bagan Serai and Selama.

The terms of the contract can be ascertained from the State Surgeon Taiping, or from the Medical Officer of each district, who will also, on application, provide the necessary schedule forms.

With each tender a receipt from the local Treasury, shewing a money deposit of \$30, must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned upon the acceptances of tenders having been decided.

Tenders which are not made out on the proper forms, or if the "Instructions to Tenderers," which are inserted in the printed schedule forms are disregarded, or if they are sent unaccompanied by a Treasury receipt shewing the money deposit required, will not be considered.

Tenders, marked "Hospital and Prison Supplies," or "Hospital Supplies," as the case may be, should be addressed, under sealed covers, to the Secretary to Resident, and sent to his office not later than the 31st October, 1901.

13th September, 1901.

---

#### COFFINS FOR HOSPITALS.

No. 650.—Separate tenders are invited for the supply of coffins for the under-mentioned hospitals for the period of twelve months, from the 1st January, 1902.

District Hospitals at Larut, Kuala Kangsar, Batu Gajah, Gopeng, Ipoh, Kampar, Teluk Anson, Tapah, Parit Buntar, Bagan Serai and Selama.

The terms of the contract can be ascertained from the State Surgeon, Taiping, or from the Medical Officer in charge of each Hospital.

With each tender a receipt from the local Treasury, shewing a money deposit of \$20, must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned as soon as tenders have been accepted.

Tenders which are sent unaccompanied by a Treasury receipt shewing the money deposit required will not be considered.

Tenders, marked "Coffins, Hospitals," should be addressed, under sealed covers, to the Secretary to Resident, and sent to his office not later than noon on the 31st October, 1901.

13th September, 1901.

---

Government does not bind itself to accept the lowest or any other tender.

F. ROBERTSON,  
Collector of Land Revenue.

-27th September, 1901.

No. 601.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder in the mukims of Senggang, Kota Lama Kiri, Chigar Galah, Pulau Kamiri, Durian Pipit, Kota Lama Kanan and Saiong, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such lands or unless you enter or re-enter into occupation of such lands by making a *boni fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

## SCHEDULE.

| Mukim.         | Nature of Title.        | Title No. | Name of Holder.                                                      | Area.    |       |       |

No. 606.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Wong Sung Sin, for a Mining Lease of land situated in the Ulu Kinta mukim of the Kinta District, on the ground that Wong Sung Sin is the registered owner thereof, and that the original Agreement for Mining Lease, No. 856, has been lost:

No. 607.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Vong Yeu, for a new Mining Lease of land situated in the Sungei Trap mukim of the Kinta District, on the ground that Vong Yeu is the registered owner thereof, and that the original Mining Lease, No. 1,303, has been lost:

No. 608.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Chan Lai Lin, attorney for Chan Toun Wing, Power of Attorney No. 97/01, administrator for the estate of the late Chan Mung Tye, Letters of Administration No. 22/01, for a Mining Lease of land situated in the Ulu Kinta mukim of the Kinta District, on the ground that Chan Mung Tye is the registered owner thereof, and that the original Agreement for Mining Lease, No. 657, has been lost:

30th August, 1901.

No. 574.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Li Oh of Ipoh, for a new Mining Lease of land situated in the mukim of Ulu Kinta, of the Kinta District, on the ground that the said Li Oh is the registered owner thereof, and that the original Mining Lease, No. 1,995, has been lost:

No. 575.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Lateh bin Haji Mat Amin and Orang Kaya Muda bin Muhammad Saleh, for a new title to land situated in the mukim of Ulu Kinta, of the Kinta District, on the ground that Si Lateh and Orang Kaya Muda are the registered owners thereof, and that the original Agreement for Agricultural Lease, No. 293, has been lost:

No. 576.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Li Ah Chow, attorney for Liaw Zec Leong, *vide* P/A. No. 30/1896, for a new title to land situated in the mukim of Sungei Trap, of the Kinta District, on the ground that Liaw Zec Leong is the registered owner thereof, and that the original Agreement for Agricultural Lease, No. 1,472, has been lost:

No. 577.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Li Sam, partner with Ho Sui Fu of the late firm of "Shin Bow Loon" of Gopeng, for a Mining Lease of land situated in the mukim of Sungei Raia, of the Kinta District, on the ground that Shin Bow Loon is the registered owner thereof, and that the original Agreement for Mining Lease, No. 256, has been lost:

No. 578.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Itam Harun bin Panjang Seman, Administrator for the estate of the late Panjang Seman, *vide* Letters of Administration No. 18/1901, for a Mining Lease of land situated in the mukim of Ulu Kinta, of the Kinta District, on the ground that Panjang Seman bin Haji Massin is the registered owner thereof, and that the original Agreement for Mining Lease, No. 267, has been lost:

No. 579.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Maidin bin Hashim, Lasam bin Abdul Samat and Limau bin Muhammad Sah, joint owners with Song Yan, for a new Mining Lease of land situated in the mukim of Sungei Trap, of the Kinta District, on the ground that Maidin bin Hashim, Lasam bin Abdul Samat, Liman bin Muhammad Sah and Song Yan are the registered owners thereof, and that the original Mining Lease, No. 1,776, has been lost:

No. 580.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Kok Yin Yong of Gopeng, for two new Mining Leases of land situated in the mukim of Kampar, of the Kinta District, on the ground that Kok Yin Yong is the registered owner thereof, and that the original Mining Leases, Nos. 2,392 and 2,393, have been lost:

In accordance with the provisions of Section 33 (*d*) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said sections, be granted.

D. P. HOPKINS,  
*for Collector of Land Revenue.*

16th August, 1901.

#### BATANG PADANG.

No. 768.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Haji Sedik Panjong bin Raja Kamala of Tanjong Malim, for a new document of title for a piece of mining land situated in the mukim of Ulu Bernam, in the District of Batang Padang, on the ground that Haji Sedik Panjong bin Raja Kamala is the registered owner thereof and that the original Mining Lease, No. 124, has been lost:

No. 769.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Haji Mustapha bin Raja Kemala of Tanjong Malim, for two new documents of title for land situated in the mukim of Ulu Bernam, in the District of Batang Padang, on the ground that Haji Mustapha bin Raja Kemala is the registered owner thereof and that the original Mining Leases, Nos. 141 and 262, have been lost:

In accordance with the provisions of Section 33 (*d*) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said sections, be granted.

25th October, 1901.

No. 770.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Minah binti Abdul Kahar of Tanjong Malim, for a new document of title for a piece of town land situated at Tanjong Malim, in the mukim of Ulu Bernam, on the ground that Minah binti Abdul Kahar is the registered owner thereof and that the original Mukim Extract, No. 136, has been lost:

No. 771.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Haji Muhammad Rawi bin Haji Abdulrawi of Tanjong Malim, for a new document of title for a piece of town land situated at Tanjong Malim, in the District of Batang Padang, on the ground that Haji Muhammad Rawi bin Haji Abdulrawi is the registered owner thereof and that the original Mukim Extract, No. 139, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

C. D. CARDEW,

*For Collector of Land Revenue.*

25th October, 1901.

No. 749.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Raja Zinal Abidin bin Raja Allang Hussein of Temoh, for a new document of title for a piece of land situated at Chanderiang, in the district of Batang Padang, on the ground that Raja Zinal Abidin bin Raja Allang Hussein is the registered owner thereof, and that the original Extract from the Mukim Register, Entry No. 38, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new Document of Title applied for will, subject to the provisions of the said Section 13, be granted.

11th October, 1901.

No. 750.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Francis John Bryant of Ipoh and George Loveridge Bailey of Tapah, for a new mining lease of land situated at Batang Padang mukim, in the District of Batang Padang, on the ground that the original Mining Lease, No. 78, registered in the name of Walter Richard Haighton Chappel, on behalf of the new Bukit Mas (Golden Hill) Mining Company, Limited, has been lost:

In accordance with the provisions of Section 33(d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new title applied for will, subject to the provisions of the said Section 13, be granted.

R. CLAYTON,

*Acting Collector of Land Revenue.*

11th October, 1901.

#### KRIAN.

No. 654.—Application having been made to the Collector of Land Revenue, at Krian, by Teoh Ah Ngoh of Bagan Serai, for new documents of title for two pieces of land situated at Bagan Serai, in the mukim of Bagan Serai, on the ground that Teoh Ah Ngoh is the registered owner thereof, and that the original Extracts from the Mukim Register, entries Nos. 1,893 and 2,765, have been lost:

No. 655.—Application having been made to the Collector of Land Revenue, at Krian, by M. M. R. M. Odeyappa Chetty of Bagan Serai, for new documents of title for seven pieces of land situated at Bagan Serai, in the mukim of Bagan Serai, on the ground that M. M. R. M. Odeyappa Chetty is the registered owner thereof, and that the original Extracts from the Mukim Register, entries Nos. 907, 919, 921, 1,883, 1,899, 3,172 and 3,280 have been lost:

No. 656.—Application having been made to the Collector of Land Revenue, at Krian, by Ng Ah Teng of Sungei Gedong, for a new document of title for a piece of land situated at Sungei Gedong, in the mukim of Bagan Serai, on the ground that Ng Ah Teng is the registered owner thereof, and that the original Extract from the Mukim Register, entry No. 3,479, has been lost:

No. 657.—Application having been made to the Collector of Land Revenue, at Krian, by Muhammad bin Drahman, administrator of the estate of Drahman bin Mat of Penang, for a new document of title for a piece of land situated at Bagan Tiang, in the mukim of Bagan Tiang, on the ground that Drahman bin Mat is the registered owner thereof, and that the original Agreement, No. 7,733, has been lost:

No. 658.—Application having been made to the Collector of Land Revenue, at Krian, by Mat Arsath bin Mat Saman of Parit Buntar, for a new document of title for a piece of land situated at Parit Buntar, in the mukim of Parit Buntar, on the ground that Mat Arsath bin Mat Saman and Ibrahim bin Sabid are the registered owners thereof, and that the original Extract from the Mukim Register, entry No. 21, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new document of titles applied for will, subject to the provisions of the said Section 13, be granted.

13th September, 1901.

#### NOTICES UNDER SECTION 28 OF THE LAND ENACTMENT, 1897.

No. 653.—To the Landowners named in the Schedule below:—

Take Notice that whereas you have abandoned the land described hereunder in the mukims of Bagan Tiang, Kurau and Jalan Bharu, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bonâ fide* commencement to cultivate it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 13th day of September, 1901.

#### SCHEDULE.

F. A. S. McCLELLAND,  
Collector of Land Revenue.

## SELAMA.

No. 772.—Application having been made to the Collector of Land Revenue, at Selama, by Dramat bin Che Loh of Ulu Selama, for a new document of title for a piece of land situated at Tapah, in the mukim of Ulu Selama, on the ground that Dramat bin Che Loh is the registered owner thereof, and that the original Extract from the Mukim Register, Entry No. 72, has been lost:

25th October, 1901.

No. 610.—Application having been made to the Collector of Land Revenue, at Selama, by Sadi bin Singo Kramah of Selama, for a new document of title for a piece of land situated at Gudang, in the mukim of Selama, on the ground that Sadi bin Singa Kramah is the registered owner thereof, and that the original Extract from the Mukim Register, entry No. 155, has been lost.

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

30th August, 1901.

B. W. ELLES,  
Collector of Land Revenue.

## REGISTRATION OFFICE NOTICE.

UNDER SECTION 81 OF THE REGISTRATION OF TITLES  
ENACTMENT 1897.

No. 773.—Application having been made to the Acting Registrar of Titles, North, at Taiping, by Mr. John Turner, of Caledonia Estate, for a provisional certificate of title for land situated in the mukim of Selinsing, of the Matang District, on the ground that Sir John William Ramsden is the registered owner thereof, and that the original Certificate of Title, No. 104, has been lost:

25th October, 1901.

No. 688.—Whereas declaration has been made by Lee Chong of Lidin, of loss of title registered in the name of Chong Kim Su, to wit:—

*Lease for Agricultural Land*—No. 1,852, in the Register of Larut Country Leases. *Lot* No. 134. *Situation*—in the Mukim of Tupai.

Notice is hereby given that provisional Certificate of Title will issue in respect of the above on the expiration of one month from the date of publication hereof in the absence of proper cause shewn by that time to the contrary.

27th September, 1901.

GEORGE MAXWELL,  
Acting Registrar of Titles, North

NOTICES UNDER  
SUCCESSION DUTIES AMENDMENT ORDER IN  
COUNCIL, No. 3 OF 1893.

## MATANG.

No. 752.—Application having been made to the undersigned by Che Ah binti Rampah, for an order declaring the applicant to be entitled to a piece of land described in Town Lease No. 1,000, situated in the mukim of Matang, District of Matang, and registered in the name of Haji Salam bin Hadia, deceased, on the ground that the applicant is the wife of the said deceased, and that there is no any other claimant:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, as amended by Order in Council No. 12 of 1894, notice is hereby given that unless within one month from the date of publication of this notice in the *Gazette*, good cause be shewn to the undersigned for refusing the application, the order applied for will be granted and the title transferred to the name of the respective claimant.

11th October, 1901.

RAJA CHULAN,  
*District Magistrate.*

#### KRIAN.

No. 753.—Application having been made to the undersigned by Murther Muttoo, for an order declaring the applicant to be entitled to a piece of land described in Mukim Register No. 42, situated in the mukim of Bagan Serai, District of Krian, and registered in the name of Dorasamy, deceased, on the ground that the applicant is the younger brother of the said deceased, and that there is no other claimant:

No. 754.—Application having been made to the undersigned by Piah bin Haji Osman, for an order declaring the applicant to be entitled to a piece of land described in Mukim Register No. 1,237, situated in the mukim of Kuala Kurau, District of Krian, and registered in the name of Haji Osman bin Abdul Karim, deceased, on the ground that the applicant is the son of the said deceased and that there is no other claimant:

No. 755.—Application having been made to the undersigned by Hamidah binti Sahat, for an order declaring the applicant to be entitled to half share of land described in Mukim Register No. 137, situated in the mukim of Bagan Tiang, District of Krian, and registered in the name of Taib bin Long Kechil, deceased, on the ground that the applicant is the wife of the said deceased and that there is no other claimant:

No. 756.—Application having been made to the undersigned by Jingah binti Mat Dayang, for an order declaring the applicant to be entitled to a piece of land described in Mukim Register No. 848, situated in the mukim of Bagan Tiang, District of Krian, and registered in the name of Mat Dayang, deceased, on the ground that the applicant is the daughter of the said deceased and that there is no other claimant:

No. 757.—Application having been made to the undersigned by Mat Salleh bin Hatip Ahmat, for an order declaring the applicant to be entitled to a piece of land described in Mukim Register No. 959, situated in the mukim of Bagan Tiang, District of Krian, and registered in the name of Hatip Ahmat, deceased, on the ground that the applicant is the son of the said deceased and that there is no other claimant:

No. 758.—Application having been made to the undersigned by Haji Himinah binti Pandak, for an order declaring the applicant to be entitled to a piece of land described in Mukim Register No. 722, situated in the mukim of Tanjang Piandang, District of Krian, and registered in the name of Pandak bin Toh Ribut, deceased, on the ground that the applicant is the daughter of the said deceased and that there is no other claimant:

In accordance with the provisions of Section 5 of Order in Council No. 3 of 1893, as amended by Order in Council No. 12 of 1894, notice is hereby given that unless within one month from the date of publication of these notices in the *Gazette*, good cause be shewn to the undersigned for refusing the above applications, the orders applied for will be granted and the titles transferred to the names of the respective claimants.

11th October, 1901.

A. L. KNAGGS,  
*Acting District Magistrate.*

NOTE.—All previous Time-tables are hereby cancelled. Singapore time will be observed at all stations.

Passenger accommodation on trains marked \* is limited to 10 First Class and 64 Third Class passengers.

Railway Administration does not guarantee the arrival and departure of the steamers and trains at the times specified in the tables, nor will it be responsible for any loss, inconvenience or injury that may arise from delay or detention; but it will, as far as possible, to ensure punctuality.

The Railway Administration will not be responsible for the loss of or damage to passengers' luggage, unless it has been signed received by a Railway clerk or agent. This applies to all luggage, whether carried free or charged for.

5. First and Second Class Return Tickets are available for 7 days, inclusive of date of issue.

Third Class Return Tickets are available for 3 days, inclusive of date of issue.

RESIDENT ENGINEER'S OFFICE,  
TAIPING, 1st July, 1901.

C. R. HANSON,  
Resident Engineer for Railways.

FEDERATED MALAY STATES.

[ No. 244. ]

GOVERNMENT HOUSE,

Singapore, 1st July, 1901.

SIR, - I have the honour to enclose, for your information, copies of the Annual Reports of the Resident-General and the British Residents in the four Federated Malay States.

2. These very interesting reports, especially that of the Acting Resident-General, Mr. W. H. Treacher, give full details of the administration and other matters of public interest during 1900, and I only propose to invite your attention to a few points which appear to be specially noteworthy.

3. The last year of the century proved to be one of great prosperity, even for the Malay States which possess a record of such remarkable and continuous progress ever since they invited the advice and protection of the British Government in the year 1874. The revenue of the four Federated States—Perak, Selangor, Negri Sembilan and Pahang—amounted to over 15½ million dollars, exceeding the collections of the previous year by over two million dollars, and giving a surplus of nearly three million dollars over the year's expenditure.

4. The value of trade for the year 1900 reached nearly a hundred million dollars or ten millions sterling, an increase of ten million dollars over the value of trade in the previous year. The fact that the value of exports exceeded that of the imports by over ten million dollars is very satisfactory, and shows that the country has still a large margin of purchasing power. The full meaning of these figures will be realised if it is borne in mind that the exports are the real produce of the country, while the imports are purchased for local consumption. There is no passing trade.

5. As usual the principal source of revenue was the duty on tin, which realised seven million dollars, but the railway receipts amounted to over two million dollars, while the land revenue showed a very satisfactory increase with over seven hundred thousand dollars, the posts and telegraphs giving nearly two hundred thousand dollars, a considerable increase over the revenue of the previous year.

6. In the twenty-six years during which the Malay States have had the advantage of British advice and protection, the revenue has grown from about £100,000 to over £1,500,000. Over 250 miles of railway, 1,300 miles of cart-road and 1,400 miles of telegraph have been constructed. Waterworks, wharves, hospitals, prisons, schools, and many other public buildings have been constructed, while, at this moment, the Government of Perak is engaged upon an important scheme of irrigation which will benefit about 60,000 acres of land and cost about a million dollars.

7. The four States under British protection were federated in 1896, their total revenue for that year being a little over eight million dollars. As some proof of the success of this step it is not a little remarkable that in 1900 the revenue should have almost doubled, thus securing in less than five years as large a measure of increase as had been gained in the previous twenty years.

8. The principal sources of revenue and prosperity are the alluvial tin deposits which, at the present price of the metal, can be worked at considerable profit. It is being constantly stated (not always by those who know best) that the Malayan tin deposits are being worked out, and that the Federated States must shortly look to agriculture as the principal means of employment for their people and revenue for their Government. I do not share these views; except in so far as I agree that about 500,000 tons of tin, worth over £40,000,000 sterling, have been exported during the last fifteen years. The supply has been unquestionably reduced by that amount; but, just as it is certain that tin has been worked in the Malay Peninsula for centuries, so I believe it will still be produced there centuries hence. No doubt the industry has grown of recent years to very large proportions, but it would take a long time to work out the alluvial deposits in the lands already alienated, and these comprise but a fraction of the unexplored lands which still remain, where there is every reason to believe the mineral will be found in payable quantities. This only applies to alluvial deposits. No one can guess what are the reserves of ore in underground rock formations, as at Kuantan in Pahang, Slim in Perak and Jelebu in the Negri Sembilan.

Right Honourable

CHAMBERLAIN, M.P.,

&c.,

&c.,

&c.,

Colonial Office.

9. The Government has not, however, overlooked the fact that in the export of tin its capital was being reduced, and it has made an effort to supply another and more useful investment by the construction of railways, with part at least of the revenue raised from the royalty on tin. Since British protection the royalty on tin has yielded a total of \$47,000,000, and the Federated States have in the same time expended \$23,000,000 in the construction of railways, to which will be added another \$6,000,000 before the close of next year, when they will own 360 miles of fully equipped railways constructed without the assistance of any borrowed money. Since the first section of railway was opened for traffic the receipts, up till the end of last year, amounted to  $12\frac{1}{2}$  million dollars and the profits, after the payment of maintenance and working expenses, give a return of over 8 per cent. on the capital expended. However valuable the tin may be as a reserve, while lying in the ground, it is probably of greater public advantage to have a railway system which helps the country—miners, planters and traders alike—whilst yielding a considerable amount of revenue and affording employment to a large number of people of various races.

10. The direct interests of planters have never been neglected by the Residents of the Malay States, and, while the Government expended large sums, years ago, in experiments with Arabian coffee, Indian tea, cinchona, pepper and South American rubbers, it is now, as already explained, constructing great works for the irrigation of 60,000 acres of rice land, and last year appointed an officer to superintend an experimental plantation and specially to advise on the cultivation of various kinds of rubber and its extraction from the tree. I believe that the European planters, who have hitherto gained but poor reward for their determined efforts in the Malay States, fully recognise that they have the warm sympathy of the Government, which will continue to afford them all reasonable assistance. The planting of sugar, originally introduced by Chinese, promises great developments with European capital under European management.

11. It is satisfactory to be able to report that, with the assistance of the Viceroy and the Government of India, there has been recently a large increase in the immigration of Indian labourers, while, for various reasons, the influx of Chinese, which for several years almost ceased, has again resumed its normal state and even shows an increase. It would still be advisable to establish direct steam communication between Canton and the Federated Malay States, and it is now considered that similar arrangements should be made to carry Indian immigrants to the ports of the Malay States.

12. In accordance with your suggestion Mr. H. C. Hill, of the Indian Forest Department, visited the Federated Malay States and compiled a report, giving the result of his inspection and enquiries with recommendations for the future conduct of forest conservancy, both in the Malay States and the Straits Settlements. When you first proposed Mr. Hill's visit I doubted whether the time at his disposal would be sufficient to enable him to come to any definite conclusion as to the best means of dealing with the forest question, but I frankly recognise the value of Mr. Hill's report and the obligation which the Native States are under to you for proposing the visit and pressing it on the local Governments. Mr. Hill, who is now the Inspector-General of the Indian Forest Department, has made many valuable suggestions, which I take this opportunity to cordially acknowledge, but if the only result of his visit were the appointment of an able and experienced Forest Officer from the Indian Establishment to initiate a Forest Department in the Malay States, it would still be a gain of great importance. If the Malay States, with your assistance, now obtain the services of such an officer, he can, with Mr. Hill's report and the local information and experience we possess, do what is required to organise on the best lines a department which may develop into one of the most important establishments in the Federated Malay States. I have a great belief in the present and prospective value of Malay forest products, and have for years desired to see the formation of a Government department to conserve and exploit them, but we have hitherto been unable to command the services of officers having the technical skill and training, without which neither well-intentioned exertions, nor the expenditure of large sums of money, are likely to achieve any valuable practical result.

13. It is satisfactory to be able to inform you that the major triangulation of the three Western States is almost completed, and a very useful map of Perak has just gone to be lithographed; similar maps of Selangor and the Negri Sembilan will be prepared as soon as possible. This simple statement gives no idea of the large sums of money, the trouble and the skill, which have been expended to secure this result, but I think I am right in saying that the important Colony of the Straits Settlements has not, up to the present time, undertaken a trigonometrical survey, though its total area is comparatively small. In dealing with territories so extensive as the Malay States, with mining operations going on in widely

separated centres, and cultivation in the remotest districts, a trigonometrical survey was practically a necessity, and the cost of it belongs mainly to the land settlement. The basis of a correct and satisfactory land settlement is the revenue survey, and that, in a country like the Malay States, is only possible with a trigonometrical survey to fix the main positions.

The question of carrying out a system of minor triangulation is now under consideration, but it is doubtful whether so costly a work is yet absolutely necessary. It is certain that the revenue survey staffs in several of the States must be immediately strengthened in order to overtake arrears and deal more promptly with current applications for agricultural and mining land. Under these circumstances the carrying out of the minor triangulation should, if possible, be postponed.

14. I have already sent you the main figures of the census held this year. The result, as compared with the census of 1891, is very encouraging. The present population of the Federated Malay States amounts to 676,138 against 418,509 ten years ago; that is to say, an increase of 61.55 per cent. The most satisfactory features of the recent returns are that the increase is not confined to any one State, or even to any district of a State, but it practically extends, more or less evenly, throughout every part of the Federated States. The other interesting and satisfactory feature is that the number of Malays has risen from 230,090, in 1891, to 313,763 on the 1st March last. I account for this increase by the improved conditions under which Malays now live. They are more prosperous, have more money to spend, live better, lead happier and more healthy lives; while the diseases which used to decimate their numbers—cholera and small-pox—are practically unknown. These circumstances have no doubt led to a large increase in the resident Malay population, but they have also attracted immigrants from the neighbouring Malay States, which are not under British protection, and also from Sumatra and the islands of the Malay Archipelago.

The Chinese have, of course, increased enormously; but this section of the population shows unfortunately a vast disparity between the sexes—so great, in fact, that, of the total figures already given, there are 491,313 males, of all races, to only 184,825 females. It is very satisfactory to find that in the last decade the natives of India have increased from 20,177 to 52,501. They form a very useful and important section of the population. Finally, it should be noted, that the population of Kuala Lumpur, the chief town in the Federated Malay States, has risen from 19,020 to 32,381.

15. Knowing your great interest in matters affecting the health of dwellers or Government servants in any of His Majesty's Colonies, I may be pardoned for inviting your attention to the fact that the Federated Malay States spent, last year, on Government hospitals and Government surgeons, a sum of \$600,000. Beyond this, they built and equipped a Laboratory and Institution for Pathological Research, and, to conduct the necessary researches, you selected a highly qualified specialist. I hope great things from this Institute; but it appears that, though the Government has spared no expense to make it thoroughly efficient, with all the latest appliances, I now understand that it is necessary to give the Pathologist the assistance of two or three surgeons with a special training in, or aptitude for, pathological research. When you first approved of my proposal to found this Institute I understood that the opportunities offered, under the direction of a skilled specialist, would attract medical students, from distant quarters, to work in such a fruitful field, for the advancement of science, the benefit of humanity and their own ultimate distinction and profit. It appears, however, that I was mistaken, and that only those are likely to come whose services are retained by Government in the usual way. I have therefore asked you, should you consent to this expansion of the original idea, to engage two or three qualified medical officers to assist Dr. Hamilton Wright in his researches.

16. It will be readily understood that, in the rapid development of the Malay States, Government officers have had a much larger share than is the case in old-established Colonies. The introduction of capital and labour had first to be secured, and then directed into profitable channels, while means of communication were opened to connect mining centres, and other lands capable of profitable development, with the nearest ports. For many years the pioneers of all industrial enterprise were Chinese, and even now the European settlers are comparatively few, and for the most part they are engaged in agriculture. Under these circumstances it is satisfactory to know that you have consented to an improvement in the position and prospects of the members of the Government service, and I trust that their salaries will now be put on a scale more in accord with the importance of their duties and responsibilities. At present the cost of the Civil Establishment is only 14 per cent. of the revenue, a much lower proportion than can, I believe, be found in any of His Majesty's Colonies, in India, or in Egypt.

17. The recent visit of Their Royal Highnesses the Duke and Duchess of Cornwall and York to Singapore, afforded the Rajas of the Federated Malay States and their Chiefs an unexpected opportunity of meeting the Heir to the Throne and His Royal Consort. Nothing could have been more fortunate than this event, for it gave the happiest means of strengthening the link which binds His Majesty's Malay Dependencies to the Power which has done so much for the *raja's*, and little less for the Rajas of Federated Malaya. His Royal Highness conferred on Sultan Idris of Perak the dignity of an Honorary Knight Grand Cross of Saint Michael and Saint George, an honour very deeply appreciated by His Highness, whose evident satisfaction was, I believe, shared not only by his own people but by his friends from the other States. Not less than five hundred Malays came to Singapore, in attendance on the four Sultans, and I am certain that they will never forget the fact that they have seen the Duke and Duchess face to face, while those of them who had the honour of being presented will treasure the memory of their good fortune, and carry to remote places in the Peninsula the story of all they saw and heard, laying special stress upon the infinite consideration of Their Royal Highnesses for all those who came under Their notice.

I have the honour to be,

Sir,

Your most obedient, humble servant,

FRANK SWETTENHAM,  
*Acting High Commissioner.*

PROCLAMATION

UNDER THE QUARANTINE AND PREVENTION OF DISEASE  
ORDER IN COUNCIL, NO. 15 OF 1891.

No. 774.—Whereas information has been received of an out-break of  
a Contagious and Infectious Disease, *viz.*, Rinderpest, in the District of  
Kuala Kangsar ;

It is hereby notified that until further orders all cattle within the  
boundaries described below, except those actually working in carts, must be  
confined to their owners' premises, and no cattle will be allowed to enter or  
leave that area.

*North.*—A straight line from a mile east of the Perak River, passing  
due west through Pasir Sudu to the District Boundary.

*West.*—The District Boundary.

*South.*—A line parallel to, and a mile distant from, the south side of the  
Taiping-Kuala Kangsar road.

*East.*—The Perak River from the Southern Boundary to Enggor,  
from there the Enggor—Sungei Siput road for a distance of one mile, and  
from that point a line parallel to the Perak River to the Northern  
Boundary.

FEDERAL.

RESIGNATION.

The resignation of Mr. H. Phillips, Dresser, Malay States Guides, has been accepted with effect from the 10th October, 1901.

---

THE following Notifications are, by Command of the Acting Resident, published for general information.

R. G. WATSON,  
*Acting Secretary to Resident.*

APPOINTMENTS.

No. 775.—Mr. Harry Astell Burgess, Assistant District Magistrate, Bruas, to act as Collector of Land Revenue, Registrar of Titles and Warden of Mines, North, with effect from the 15th November, 1901.

No. 776.—Mr. William Peter Thorpe, District Treasurer, Kinta, has been transferred for service in another State, with effect from the 10th September, 1901.

No. 777.—Mr. Wilfrid Clement Ephraums, Financial Assistant, Batang Padang, to be District Treasurer, Kinta, subject to confirmation by the Secretary of State, with effect from the 10th September, 1901.

No. 778.—Mr. Morris Anthony Vermont Allen, Assistant Forest Officer, Kinta, to be an Inspector of Mines, Kinta District, with effect from the 11th July, 1901.

No. 779.—Mr. Charles Shuldham Alexander, Cadet, to act as Collector of Land Revenue, Matang, with effect from the 22nd October, 1901.

LEAVE.

No. 780.—Mr. William George Maxwell, Registrar, Courts, Kinta, has been granted two months and fourteen days vacation leave, to be followed by four months leave with half salary, with effect from the 15th November, 1901.

No. 781.—Mr. Wesley Everett Curtis, Assistant Master, Central School, Taiping, has been granted three months and twenty-two days leave with half salary, with effect from the 12th August, 1901.

No. 782.—The leave of absence granted to Mr. Alfred Reid Venning, Secretary to Resident, has been extended, with half salary, from the 15th November, 1901, until the arrival of the *s.s. "Chusan."*

No. 783.—The leave of absence granted to Mr. Dobrée Butler, Inspector of Mines, Larut, has been extended by the Secretary of State for one month, with half salary, with effect from the 5th November, 1901.

No. 784.—The leave of absence granted to Mr. A. C. Valpy, Supervisor, Perak State Railway, has been extended by the Secretary of State, with half salary, for three days, from the 19th October, 1901.

---

#### APPOINTMENT OF PROTECTORS.

No. 785.—The Assistant Commissioner of Police, Larut, is appointed to be an Assistant Protector under the provisions of the following Orders in Council:—

Order in Council No. 1 of 1895, "Protection of Women and Girls,"  
Order in Council, No. 4 of 1895, "Labour Code," with effect from the 20th August, 1901.

8th November, 1901.

---

#### APPOINTMENTS UNDER THE MINING ENACTMENT, 1899.

No. 786.—In pursuance of the powers vested in him by Section 81 (i). of the Mining Enactment, 1899, the Acting British Resident has been pleased to appoint the following Officers to carry out the provisions of this Enactment, as hereinafter set forth:—

##### WARDEN OF MINES, KUALA KANGSAR.

The District Magistrate.

##### INSPECTOR.

Mr. Morris Anthony Vermont Allen, with effect from the 11th July, 1901.

8th November, 1901.

---

#### BOARD OF EXAMINERS.

No. 787.—The Acting British Resident has been pleased to appoint the following gentlemen to be Members of the Board of Examiners in the following subject:—

##### CHINESE.

Messrs. William Cowan and Robert Walter.

8th November, 1901.

---

#### RATE OF EXCHANGE.

No. 788.—The rate of exchange for the adjustment of accounts with the Crown Agents has been fixed at 1s. 11 $\frac{1}{4}$ d. to the dollar for the fourth quarter of the current year.

1st November, 1901.

## PUBLIC HOLIDAY.

No. 789.—Monday, the 11th November, 1901, will be observed as a Public Holiday throughout the State, in honour of the anniversary of the Birthday of His Majesty the King-Emperor, in substitution for Saturday, the 9th November, 1901.

1st November, 1901.

## CHINESE INTERPRETERS' EXAMINATION.

No. 790.—An examination in Chinese will be held in Ipoh on Monday and Tuesday, 9th and 10th December. Officers who propose to present themselves for examination should notify the Secretary to Resident before the 25th November, 1901, through the Head of their Department.

8th November, 1901.

## ORDER MADE BY HIS HIGHNESS THE SULTAN UNDER THE "BANISHMENT ENACTMENT, 1900."

No. 791.—Whereas it appears to His Highness the Sultan that the removal from the State of Perak, of the persons enumerated in the Schedule hereto, is necessary for the public safety and welfare:

It is hereby ordered by His Highness the Sultan, with the advice and consent of the British Resident, that the said persons so enumerated shall be, and are hereby, banished from the State, for the period of their natural lives.

## SCHEDULE.

Chan Nin; Liong Hin *alias* Liong Fuk Hin; Li Sheng *alias* Sam Pan Sheng; Tan Tong; Chan Nga; Chhin Fai *alias* Gi La Fai; Li Pong; Che Kang *alias* A Tsai Kang; Wan Man *alias* Ko Lo Man; Lam Chan *alias* Lam Sing; Ng Seang *alias* Ng Tek *alias* Wong Tek.

29th October, 1901.

## PROCLAMATION

UNDER THE QUARANTINE AND PREVENTION OF DISEASE  
ORDER IN COUNCIL, NO. 15 OF 1890.

No. 792.—Whereas information has been received of an outbreak of a Contagious and Infectious Disease, *viz.*, Rinderpest, in the District of Kinta;

It is hereby notified that until further orders all cattle within the said District, except those actually working in carts, must be confined to their owners' premises, and no cattle will be allowed to enter or leave that area.

7th November, 1901.

## BOUNDARIES.

No. 793.—In exercise of the powers conferred upon him by Section 10 of the Land Enactment, No. 17 of 1897, the Acting Resident has been pleased to define the boundaries of the townships of Chenderiang, Tanjong Malim and Tapah, and the village of Cheroh, as follows:—

## CHENDERIANG TOWNSHIP.

*Northern.*—From a stone at the north-eastern corner of Mining Lot 88, to a stone at the north-western corner of Mining Lot 271.

*Eastern.*—From a stone at the north-western corner of Mining Lot 271, along the western boundaries of Mining Lot 271, State Land, and Agricultural Lots 529 and 527, to a stone at the south-western corner of Agricultural Lot 527.

*Southern.*—From a stone at the south-western corner of Agricultural Lot 527 to a stone at the north-eastern corner of Agricultural Lot 6; thence along the northern boundary of Agricultural Lot 6, crossing the Tapah-Chenderiang old cart-road; thence along the northern boundaries of Agricultural Lots 5, 2 and 202, to a stone at the north-western corner of Agricultural Lot 202.

*Western.*—From a stone at the north-western corner of Agricultural Lot 202, along the western boundaries of Agricultural Lots 203 and 518, to a stone at the north-western corner of Agricultural Lot 518; thence along the left bank of the Chenderiang river up to its junction with Tapah-Chenderiang cart-road; thence along the cart-road in an easterly direction to a stone at the south-eastern corner of Mining Lot 88; thence along the eastern boundary of Mining Lot 88 to a stone at the north-eastern corner of Mining Lot 88.

#### TANJONG MALIM TOWNSHIP.

*Northern.*—From a stone at the north-western corner of Agricultural Lot 90, along the northern boundaries of Agricultural Lot 90 and 89 to a stone at the north-eastern corner of Agricultural Lot 89.

*Eastern.*—From a stone at the north-eastern corner of Agricultural Lot 89, along the eastern boundary of Lot 89; thence along the eastern boundary of Lot 91 for a distance of 306 links; thence a straight line, in a south-easterly direction, across the Tanjong Malim-Slim cart-road to a stone at north-western corner of a piece of State land; thence in a south-easterly direction to a stone at north-eastern corner of Agricultural Lot 96; thence in a north-eastern direction to a stone at north-western corner of Agricultural Lot 45; thence along the western boundary of Agricultural Lot 45 to a stone at south-western corner of Agricultural Lot 45, on the right bank of the Bernam river.

*Southern.*—From a stone at south-western corner of Agricultural Lot 45, on the right bank of the Bernam river, following the said river to a stone on the right bank of the said river, at the south-western corner of Agricultural Lot 109.

*Western.*—From a stone at the south-western corner of Agricultural Lot 109, on the right bank of the Bernam river, along the western boundaries of Agricultural Lots 109 and 105 to a stone at north-western corner of Agricultural Lot 105; thence in a north-eastern direction across the railway line, following the southern boundary of Agricultural Lot 192 to a stone at south-eastern corner of Agricultural Lot 192; thence across the Tanjong Malim-Slim bridle-path, in a straight line, until it touches the western boundary of Agricultural Lot 90; thence along the western boundary of Agricultural Lot 90 to a stone at north-western corner of Agricultural Lot 90.

#### TAPAH TOWNSHIP.

*North, East, South and West.*—The boundaries of the Sanitary Board limits as notified in Notification 589 published in the *Government Gazette*, 1898 (page 652).

#### CHEROH VILLAGE.

*Northern.*—From the Selinsing river, in a south-easterly direction, crossing the Tapah-Kampar cart-road to the north-western corner of Cheroh village lots, thence in a south-easterly direction following the northern boundary of village lots to the Cheroh river.

*Eastern.*—The Cheroh river.

*Southern.*—The Cheroh river up to its junction with the Selinsing river.

*Western.*—The Selinsing river from its junction with the Cheroh river up to starting point of northern boundary.

6th November, 1901.

### FEDERATED MALAY STATES.

#### STATE OF PERAK.

##### "JUNGLE PRODUCE ENACTMENT, 1901."

No. 794.—Rules made by the Resident, with the approval of the Resident-General, under the provisions of "The Jungle Produce Enactment, 1901," and published in the *Gazette* on the 8th day of November, 1901.

## Rules under Section 5 (d).—

All fines received under "The Jungle Produce Enactment, 1901," shall be paid into the State Treasury; provided that it shall be lawful for the Court before which any conviction under the said Enactment is had to direct that any portion, not exceeding one half, of any fine inflicted and recovered on such conviction, shall be paid to any person or persons, not being in Government employ, through whose instrumentality such conviction was obtained.

## Rules under Section 13 (i).—

1. The form of licence to buy jungle produce required under the provisions of Section 8 (i). (a). of "The Jungle Produce Enactment, 1901," shall be as follows :—

|                       |                                                                                                                              |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------|
|                       | STATE OF PERAK.                                                                                                              |
|                       | "Jungle Produce Enactment, 1901." (Section 8.)                                                                               |
| Name                  | LICENCE TO BUY JUNGLE PRODUCE.                                                                                               |
|                       | of                                                                                                                           |
| Locality              | is hereby licensed to buy jungle produce other than getah from any person duly licensed to collect the same within the of in |
| Expiration of Licence | accordance with the provisions of the above-mentioned Enactment.                                                             |
| Fee \$1               | This licence will expire on the 31st day of December, 190 .                                                                  |
|                       | Fee paid \$1.                                                                                                                |
| Date of Licence       | This day of 190 .                                                                                                            |

Collector.

2. The form of licence to keep premises for the purchase and storage of jungle produce required under the provisions of Section 8 (i). (b). of "The Jungle Produce Enactment, 1901," shall be as follows :—

|                       |                                                                                                                                            |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
|                       | STATE OF PERAK.                                                                                                                            |
|                       | "Jungle Produce Enactment, 1901." (Section 8.)                                                                                             |
| Name                  | LICENCE TO KEEP PREMISES FOR THE PURCHASE AND                                                                                              |
|                       | STORING OF JUNGLE PRODUCE.                                                                                                                 |
|                       | of                                                                                                                                         |
| Premises              | is hereby licensed to keep                                                                                                                 |
|                       | for the purpose of purchasing and storing jungle produce other than getah supplied by persons duly licensed to collect the same within the |
| Locality              | of in accordance with the provisions                                                                                                       |
| Expiration of Licence | of the above-mentioned Enactment.                                                                                                          |
| Fee \$1               | This licence will expire on the 31st day of December, 190 .                                                                                |
|                       | Fee paid \$1.                                                                                                                              |
| Date of Licence       | This day of 190 .                                                                                                                          |

## SANITARY BOARDS.

### BIDOR AND TAPAH.

#### HOUSE ASSESSMENT.

No. 797.—In accordance with Section 9 of the Sanitary Board Regulations, notice is hereby given to owners and occupiers of houses in the townships of Bidor and Tapah, that they are required to furnish at the Municipal Office, Tapah, not later than the 30th November, 1901, the return of the annual rental of their houses, together with the names of the streets in which such premises are situated, for the purpose of valuation on assessment to be levied by the Government for the year 1902. Any person knowingly giving a false or incorrect return will be liable to a penalty of a fine not exceeding \$100.

23rd October, 1901.

## TENDERS.

### COOLIE LABOUR, TAIPING.

No. 798.—Tenders are invited for the supply of coolies for the work of removing night-soil from the township of Taiping, for one year from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Coolie Labour," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 7th December, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$20, otherwise it will not be considered.

Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

The rate of wages per man must be stated.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

8th November, 1901.

#### PHOTOGRAPHING PRISONERS, TAIPING.

No. 799.—Tenders are invited for the photographing of prisoners in the Central Prison, Taiping, for one year, from the 1st January to 31st December, 1902.

Sealed tenders marked outside, "Tender for Photographing Prisoners, Taiping," should be addressed to the Secretary to Resident not later than the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$20, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted, such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

The size of each photo should be  $3\frac{1}{2}'' \times 2\frac{1}{4}''$ .

Tenders must state the price per copy of mounted and unmounted photos.

8th November, 1901.

#### REMOVAL OF NIGHT-SOIL, MATANG AND PORT WELD.

No. 800.—Tenders are invited for the removal of night-soil in the townships of Matang and Port Weld, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Removal of Night-soil in the Townships of Matang and Port Weld," should be addressed to the Chairman, Sanitary Board, Matang, and will be received not later than noon on the 2nd December, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$20, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Further particulars can be obtained on application to the Chairman, Sanitary Board, Matang.

8th November, 1901.

### LIGHTING, MATANG TOWNSHIP.

No. 801.—Tenders are invited for the lighting of Matang township, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Lighting, Matang Township," should be addressed to the Chairman, Sanitary Board, Matang, and will be received not later than noon on the 2nd December, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$20, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

The price per lamp per month must be stated in the tender, the number of lamps at present is thirty, but this number is subject to variation to suit the requirements of the Sanitary Board.

Further particulars can be obtained on application to the Chairman, Sanitary Board, Matang.

8th November, 1901.

---

### BRIDLE-PATH, PANTEI BESAR.

No. 802.—Tenders are invited for the construction of five miles (more or less) of bridle-path between Klian Besar and Pantei Besar.

Tenders should be addressed to the Secretary to Resident, sealed, and marked on the outside "Tender for Bridle-path to Pantei Besar," and will be received at his office up to noon on the 15th November, 1901.

Plans and specifications can be seen at the Executive Engineer's Office in Taiping.

8th November, 1901.

---

### BUILDINGS, PANGKOR LAUT.

No. 803.—Tenders are invited for the construction of a store room and dispensary and five dwelling-houses at Pangkor Laut proposed leper settlement.

Sealed tenders, marked on the outside "Tender for Buildings at Pangkor Laut," will be received at the office of the Secretary to Resident, Taiping, not later than 18th November, 1901.

Plans and specifications can be seen at the Executive Engineer's Office in Teluk Anson.

5th November, 1901.

---

### SUPPLY OF STERILIZED CANNED MILK TO HOSPITALS.

No. 804.—With reference to Notification 648 of 1901, the date for the opening of the tenders has been extended to the 30th November, 1901.

4th November, 1901.

## RAILWAY STAFF QUARTERS, BUKIT MERTAJAM.

No. 805.—Tenders are invited for the erection of one set of staff quarters at Bukit Mertajam.

Sealed tenders, marked on the outside "Tenders for Staff Quarters, Bukit Mertajam," should be addressed to the General Manager, Federated Malay States Railways, Kuala Lumpur, and will be received not later than noon on the 13th November, 1901.

Tenders must state the time required and the security offered for the completion of the work.

Plan and specification may be seen and further particulars obtained on application at the offices of the Resident Engineer for Railways, Taiping, and the Divisional Engineer, Parit Buntar.

8th November, 1901.

## BRICKMAKING, BIDOR.

No. 765.—Tenders are invited for the manufacture of hand-made standard size bricks, in the Government Brick-works at Bidor, from 1st January, 1902. The Government will provide for the use of the Contractor the plant, sheds and kilns at present comprising the works; the Contractor is to supply all labour, firewood, etc., and to hand over in good order at the termination of contract all the plant placed at his disposal as above.

Tenders are to be per laksa of finished bricks of standard English size,  $8\frac{3}{4}$  inches by  $4\frac{1}{2}$  inches by  $2\frac{3}{4}$  inches, stacked alongside road; and a rate per laksa is also to be stated for loading into carts.

Further particulars may be obtained at the office of the Resident Engineer for Railways, Taiping.

Sealed tenders, endorsed "Tender for Brickmaking, Bidor," are to be addressed to the General Manager, Railway Department, Kuala Lumpur, and will be received at his office up to noon on the 1st December, 1901.

21st October 1901.

## PRISONERS' RATIONS IN THE STATE OF PERAK.

No. 727.—Tenders are invited for the Supply of Rations to Prisoners in all the lock-ups in Larut, Kinta, Tapah, Krian, Lower Perak and Kuala Kangsar during the year 1902.

The daily diet is as follows:—

Rice 18 tahils, Vegetables 4 tahils, Salt Fish 4 tahils, Kachang Oil 4 tahils, Salt  $\frac{1}{4}$  tahlil.

Particulars as to the average number of prisoners likely to require meals may be obtained at the principal police stations in each District.

The cost of one meal to be half the amount charged for one day's diet.

Tenders may be for the whole State or for Districts, stating what Stations can be supplied with rations.

Tenders marked "Tenders for Prisoners' Rations in Police Lock-ups," should be addressed, under sealed covers, to the Secretary to Resident, Perak, and sent in not later than the 15th November, 1901.

9th October, 1901.

### SUPPLY OF WOOD FOR CARPENTER'S SHOP, CENTRAL PRISON.

No. 728.—Tenders are invited for the supply of wood for use in the Carpenter's Shop, Central Prison, Taiping, during the year 1902.

Sealed tenders, marked on the outside "Tender for Supply of Wood for Carpenter's Shop, Central Prison," should be addressed to the Secretary to Resident, Taiping, and will be received not later than noon on the 30th November, 1901.

Tenders must state price per foot run of rough Meranti plants, 16 feet long, 8 inches, 9 inches, 10 inches 11, inches and 12 inches wide, and  $\frac{1}{2}$  inch, 1 inch and  $1\frac{1}{2}$  inches thick.

Price must also be stated, per foot super, of Merbau and Chingal planks of widths as ordered, and from 1 inch to 3 inches thick.

Prices for scantlings of both Meranti and hard wood must be stated per cubic foot.

Further particulars can be obtained at the office of the Superintendent of Prisons, Taiping.

9th October, 1901.

### STREET LIGHTING, TAIPING AND KAMUNTING.

No. 729.—Tenders are invited for lighting the townships of Taiping and Kamunting, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Lighting, Taiping and Kamunting," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$50, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Tenders must state the price per lamp per month; Devoe's American kerosine oil to be used.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

9th October, 1901.

### LIGHTING, KINTA TOWNSHIPS.

No. 730.—Tenders are invited for lighting the townships of Ipoh, Gopeng, Lahat, Menglembu, Tanjong Rambutan, Kampar, Batu Gajah, Papan and Pusing Bharu, from 1st January, 1902, to 31st December, 1902.

Tenders must state the price per lamp per month. The number of lamps at present is 223, but this number is subject to variation to suit the requirements of the Sanitary Board.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. The deposit will be returned to all unsuccessful tenderers on allotment of contract, but will be forfeited by a tenderer declining to take up the contract after he has tendered.

Sealed tenders, marked "Tender for Lighting," addressed to the Chairman, Kinta Sanitary Board, will be received at his office not later than 10 a.m. on the 13th November, 1901.

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

#### LIGHTING, TELUK ANSON TOWNSHIP.

No. 731.—Tenders are invited for lighting the township of Teluk Anson, for one year, from the 1st January, 1902.

With each tender a receipt from the local Treasury for a money deposit of \$20 must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State. All deposits will be returned upon the acceptance of tenders having been decided.

Tenders which are sent unaccompanied by the Treasury receipt for the money deposit required will not be considered.

Tenders should be enclosed in sealed covers, addressed to the Chairman, Sanitary Board, Teluk Anson, marked on the outside "Lighting Tender, Township of Teluk Anson," and be sent into his office not later than noon on the 15th November, 1901.

The price per lamp per month must be stated, the number of lamps being subject to variation as may suit the requirements of the Sanitary Board. There are at present 91 lamps.

Further information can be obtained at the Municipal Office, Teluk Anson.

9th October, 1901.

#### SUPPLY OF CARTS, KINTA TOWNSHIPS.

No. 732.—Tenders are invited for the supply of carts, bullocks and drivers, for the removal of town refuse in the Kinta townships from 1st January, 1902, to 31st December, 1902.

Tenders must state the hire per day of nine hours for :—

- (i). Each cart, together with a pair of bullocks and a driver.
- (ii). Each cart, together with a single bullock and a driver.

The number of carts at present employed is 23, but this number is subject to variation to suit the requirements of the Kinta Sanitary Board.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. The deposit will be returned to all unsuccessful tenderers on allotment of contract, but will be

forfeited by any tenderer who declines to take up the contract if it is offered to him on his tender.

Sealed tenders, marked "Tender for Supply of Carts," addressed to the Chairman, Kinta Sanitary Board, will be received at his office not later than 10 a.m. on the 13th November, 1901.

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

#### RAILWAY UNIFORMS.

No. 736.—Tenders are invited for the supply of uniforms for the Railway staff in Kinta, Larut, Krian and Province Wellesley during the year 1902.

Sealed tenders, marked on the outside "Tender for Railway Uniforms," will be received at the office of the General Manager for Railways, Kuala Lumpur, up to noon on Friday the 15th November, 1901.

Conditions of contract and full particulars may be obtained at the office of the Resident Engineer for Railways, Taiping, and the Traffic Superintendent, Ipoh.

9th October, 1901.

#### FIREWOOD, KINTA VALLEY, LARUT, KRIAN AND PROVINCE WELLESLEY RAILWAYS, AND FERRY STEAMERS.

No. 737.—Tenders are invited for the supply of firewood for locomotives on the Kinta Valley, Larut, Krian and Province Wellesley Lines, and for ferry steamers at Prai during the year 1902.

The wood is to be bakau, stripped of bark, in billets twenty-four inches long and weighing not less than ten katis each; except those for the ferry steamers, the weight of which is to be five katis each and the length sixteen inches.

The average monthly quantity required will be about 145,000 billets at Teluk Anson, 47,000 billets at Port Weld, 70,000 large size billets and 47,000 small size billets at Prai. The Contractor will be required to bind himself to supply any larger quantity that may be required and to keep a reserve stock of 290,000 billets at Teluk Anson, 94,000 billets at Port Weld, 140,000 large size and 94,000 small size billets at Prai.

Alternative tenders are also invited for the supply of 117,000 large size billets per mensem, delivered (a) at Port Weld, (t) at Nibong Tebal, and (c) at Prai, with the power reserved to Government in each case to require the Contractor to deliver portions of the same, not exceeding 47,000, 29,000 and 41,000 billets at Port Weld, Nibong Tebal and Prai, respectively.

Payment will be made monthly on the actual weight of the wood delivered.

The firewood is to be delivered on river bank at Teluk Anson, Port Weld and Prai, respectively, on sites that will be pointed out, for stacking and counting, and the Contractor will be required to load the firewood into railway trucks at these depôts.

Tenders are to be per 100 pikuls; and should be addressed to the General Manager for Railways, Kuala Lumpur, sealed and marked on the outside "Tender for Railway Firewood, Perak," and will be received at his office up to noon on Friday the 15th November, 1901.

Further particulars and form of tender may be obtained at the office of the Resident Engineer for Railways, Taiping, the Locomotive Engineer, Ipoh, and the Locomotive Foreman, Prai.

9th October, 1901.

#### LUBRICATING OILS, RAILWAY DEPARTMENT.

No. 738.—Tenders are invited for the supply of the under mentioned lubricating oils, required in the Railway Department during the year 1902, viz:—

|                           |                     |
|---------------------------|---------------------|
| Heavy Engine Oil, gallons | 4,000, more or less |
| Carriage Axle Oil         | „ 2,500 „           |
| Cylinder Oil              | „ 600 „             |

half of which is to be delivered at Teluk Anson and half at Penang.

The oils are to be of the very best quality, delivered monthly in such quantities as may be ordered.

Tenders are to be per Imperial gallon nett.

Sealed tenders, accompanied by samples, and endorsed "Tender for Lubricating Oils," are to be addressed to the General Manager for Railways, Kuala Lumpur, and will be received up to noon on Friday the 15th November, 1901.

9th October, 1901.

#### RAILWAY STORES.

No. 739.—Tenders are invited for the supply of such of the following stores as are required to be purchased locally for the Railway Department, Perak, during the year 1902:—

|                |                           |
|----------------|---------------------------|
| Class A—Tools. | Class C—Paints, etc.      |
| „ B—Hardware.  | „ D—Miscellaneous Stores. |

Schedules and further information may be obtained on application to the Resident Engineer for Railways, Taiping.

Sealed tenders, endorsed "Tender for Railway Stores," will be received at the office of the General Manager for Railways, Kuala Lumpur, up to noon on Friday the 15th November, 1901.

9th October, 1901.

Government does not bind itself to accept the lowest or any other tender.

**FARM OF THE Kerosine Oil Store, Matang.**

No. 806.—Tenders are invited for the right to use the Sanitary Board kerosine oil store in the township of Matang, for the storage of petroleum and other oils, under Enactment No. 12 of 1897, for one year, from 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Matang Kerosine Oil Store," should be addressed to the Chairman, Sanitary Board, Matang, and will be received not later than noon on the 2nd December, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$20, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Tenderers should clearly understand that the renting of this building from Government will in no way secure any monopoly or right over any private stores which may hereafter be licensed by the Sanitary Board for the storage of these oils, but they may collect a fee for storage, not exceeding two cents a tin for a period of fourteen days and under, five cents per tin per month for any longer period.

Further particulars can be obtained on application to the Chairman, Sanitary Board, Matang.

8th November, 1901.

---

**FARM OF PIG SLAUGHTER-HOUSE, MATANG.**

No. 807.—Tenders are invited for the farm of the pig slaughter-house in the township of Matang, for one year, from 1st January to 31st December, 1902.

Sealed tenders, marked on the outside "Farm of Pig Slaughter-house, Matang," should be addressed to the Chairman, Sanitary Board, Matang, and will be received not later than noon on the 2nd December, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$20, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Further particulars can be obtained on application to the Chairman, Sanitary Board, Matang.

8th November, 1901.

---

**CATTLE AND GOAT SLAUGHTER-HOUSE, TAIPING.**

No. 720.—Tenders are invited for the farming of the Cattle and Goat Slaughter-house, Taiping, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Cattle and Goat Slaughter-house, Taiping," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

9th October, 1901.

---

#### PIG SLAUGHTER-HOUSE, TAIPING.

No. 721.—Tenders are invited for the farming of the Pig Slaughter-house in the township of Taiping, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Pig Slaughter-house, Taiping," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

9th October, 1901.

---

#### BATH-HOUSES, TAIPING.

No. 722.—Tenders are invited for the farming of the Bath-houses, in the town of Taiping, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Bath-houses, Taiping," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 30th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Further particulars can be obtained on application to the Secretary, Sanitary Board, Taiping.

9th October, 1901.

---

#### SLAUGHTER-HOUSES, KINTA.

No. 723.—Separate tenders are invited for the farming of Slaughter-houses in the townships of Ipoh, Tekka Menglembu, Papan, Lahat, Gopeng and Kampar, from 1st January, 1902, to 31st December, 1902.

Tenders should be addressed to the Chairman, Kinta Sanitary Board, Batu Gajah, endorsed on the outside of the cover "Tender for Slaughter-houses," and will be received up to 10 a.m. on the 13th November, 1901.

#### SCALE OF CHARGES.

|                                           |                                                       |     |     | <i>cents.</i> |
|-------------------------------------------|-------------------------------------------------------|-----|-----|---------------|
| For the slaughter of a Buffalo or Bullock | ...                                                   | ... | ... | 25            |
| Do.                                       | Sheep or Goat                                         | ... | ... | 10            |
| Do.                                       | Pig (including the use of boiling water for scalding) | ... | ... | 25            |

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

#### KEROSINE OIL STORES, KINTA.

No. 724.—Tenders will be received up to noon, the 13th November, 1901, for the right to use for the storage of petroleum and other oils, under Enactment No. 12 of 1897, for one year from the 1st January, 1902, the Government buildings which are now used as kerosine oil stores in the townships of Papan and Gopeng.

Tenderers should clearly understand that the renting of these buildings from Government will in no way secure any monopoly or right over any private stores which may be hereafter licensed by the Sanitary Board for the storage of these oils, but they may collect a fee for storage, not exceeding two cents a tin, for a period of 14 days and under from those who may wish to use the store.

A separate amount must be tendered for each store.

Tenders should be addressed to the Chairman, Kinta Sanitary Board, and be forwarded in sealed covers, marked on the outside "Tender for Right to Occupy and Use Kerosine Oil Stores," and will be received in his office not later than 10 a.m. on the 13th November, 1901.

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

#### KEROSINE OIL STORES, TELUK ANSON.

No. 725.—Tenders will be received up to noon on the 15th November, 1901, for the right to use for the storage of petroleum and other oils, under Enactment No. 12 of 1897, for one year from the 1st January, 1902, the Government building which is now used as a kerosine oil store in the township of Teluk Anson.

With each tender a receipt from the local Treasury for a money deposit of \$20 must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned upon the acceptance of tenders having been decided.

Tenders which are sent unaccompanied by a Treasury receipt for the money deposit required will not be considered.

Tenderers should clearly understand that the renting of this building from Government will in no way secure any monopoly or right over any private stores which may be hereafter licensed by the Sanitary Board for the storage of these oils, but they may collect a fee for storage not exceeding two cents a tin for a period of 14 days and under, and not exceeding five cents a tin per month for any longer period, from those who may wish to use the store.

Tenders should be addressed to the Chairman, Sanitary Board, Teluk Anson, under sealed covers, marked on the outside "Tender for Rental of Oil Store, Teluk Anson."

Further particulars can be obtained from the Sanitary Board Office, Teluk Anson.

9th October, 1901.

#### REST-HOUSE, TRONOH.

No. 726.—Tenders are invited for the renting of the Rest-house in the township of Tronoh, for one year, from 1st January, 1902, to 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Rest-house, Tronoh," should be addressed to the Chairman, Kinta Sanitary Board, Batu Gajah, and will be received up to 10 a.m. on the 13th November, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. The deposit will be returned to all unsuccessful tenderers on allotment of contract, but will be forfeited by a tenderer declining to take up the contract after he has tendered.

Further particulars may be obtained at the Sanitary Board Office, Batu Gajah.

9th October, 1901.

Government does not bind itself to accept the highest or any other tender.

#### TENDERS ACCEPTED.

No. 808.—The following tender has been accepted by Government:—

Conveyance of Mails ... .. Messrs. Burhan & Co.

8th November, 1901.

F. ROBERTSON,

Collector of Land Revenue.

27th September, 1901.

No. 601.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder in the mukims of Senggang, Kota Lama Kiri, Chigar Galah, Pulau Kamiri, Durian Pipit, Kota Lama Kanan and Saiong, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such lands or unless you enter or re-enter into occupation of such lands by making a *bona fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

## SCHEDULE.

R. CLAYTON,  
*Acting Collector of Land Revenue.*

## NOTICE UNDER SECTION 28 OF THE LAND ENACTMENT.

No. 816.—To the Landholders named in Schedule hereto:

Take notice that whereas you have abandoned the lands referred to in Schedule hereto in the mukim of Slim, Batang Padang, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the the Resident, that you have not abandoned such lands, or unless you enter or re-enter into occupation of such lands by making a *bona fide* commencement to cultivate them the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 23rd day of October, 1901.

No. 817.—Application having been made to the Collector of Land Revenue, Tapah, at Patang Padang, by Ho Kye Cheong of Tapah, for a new document of title for a piece of land situated at Chenderiang, in the District of Batang Padang, on the ground that Ho Khye Cheong is the registered owner thereof, and that the original Mining Certificate, No. 23/96, has been lost:

No. 818.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Chia Choon of Kampar, for a new document of title for a piece of land situated at Chenderiang, in the District of Batang Padang, on the ground that Chia Choon is the registered owner thereof, and that the original Mining Certificate, No. 155/98, has been last:

8th November, 1901.

No. 750.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Francis John Bryant of Ipoh and George Loveridge Bailey of Tapah, for a new mining lease of land situated at Batang Padang mukim, in the District of Batang Padang, on the ground that the original Mining Lease, No. 78, registered in the name of Walter Richard Haighton Chappel, on behalf of the new Bukit Mas (Golden Hill) Mining Company, Limited, has been lost:

In accordance with the provisions of Section 33(d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new title applied for will, subject to the provisions of the said Section 13, be granted.

11th October, 1901.

No. 749.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Raja Zinal Abidin bin Raja Allang Hussein of Temoh, for a new document of title for a piece of land situated at Chenderiang, in the district of Batang Padang, on the

ground that Raja Zinal Abdin bin Raja Allang Hussein is the registered owner thereof, and that the original Extract from the Mukim Register, Entry No. 38, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new Document of Title applied for will, subject to the provisions of the said Section 13, be granted.

11th October, 1901.

R. CLAYTON,  
*Acting Collector of Land Revenue.*

No. 768.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Haji Sedik Panjong bin Raja Kamala of Tanjong Malim, for a new document of title for a piece of mining land situated in the mukim of Ulu Bernam, in the District of Batang Padang, on the ground that Haji Sedik Panjong bin Raja Kamala is the registered owner thereof and that the original Mining Lease, No. 124, has been lost:

No. 769.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Haji Mustapha bin Raja Kemala of Tanjong Malim, for two new documents of title for land situated in the mukim of Ulu Bernam, in the District of Batang Padang, on the ground that Haji Mustapha bin Raja Kemala is the registered owner thereof and that the original Mining Leases, Nos. 141 and 262, have been lost:

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said sections, be granted.

No. 770.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Minah binti Abdul Kahar of Tanjong Malim, for a new document of title for a piece of town land situated at Tanjong Malim, in the mukim of Ulu Bernam, on the ground that Minah binti Abdul Kahar is the registered owner thereof and that the original Mukim Extract, No. 136, has been lost:

No. 771.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Haji Muhammad Rawi bin Haji Abdulrawi of Tanjong Malim, for a new document of title for a piece of town land situated at Tanjong Malim, in the District of Batang Padang, on the ground that Haji Muhammad Rawi bin Haji Abdulrawi is the registered owner thereof and that the original Mukim Extract, No. 139, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13 be granted.

25th October, 1901.

**PERAK CENSUS REPORT.**

No. 847.—The Perak Census Report for the year 1901, is published as a supplement to this *Gazette*.

21st November, 1901.

### OFFICERS ENTITLED TO COUNT THE VALUE OF QUARTERS FOR PENSION PURPOSES.

No. 848.—The following R.-G.O. Circular, No. 35 of 1901, is published for general information:—

*H.C. 5,533/1901.*

1. R.-G.O. Circular No. 19 of 1900 is hereby cancelled.
2. The officers whose names are included in the following list may count for pension purposes the value of the Government quarters they occupy, but will lose that privilege when they receive at one time an increase of at least one-sixth of the salaries entered on this list.
3. Under no circumstances will the privilege be extended to any officer whose name is not included in this list.
4. The rule regulating the valuation of quarters for pension purposes is as follows:—  
Seven per cent shall be regarded as the rent value of the quarters, calculated on cost when constructed, provided that no allowance on this account for purposes of pension shall exceed one-sixth of the retiring officer's salary.\*
5. Officers on the following list are warned that the recent grant of full Exchange Compensation, which is equivalent to an increase of one quarter on the salaries entered in the list, may cancel the privilege of counting the value of quarters for pension. This question is under consideration.

By Command,

J. R. O. ALDWORTH,

RESIDENT-GENERAL'S OFFICE,  
SELANGOR, 19th October, 1901.Acting Secretary to Resident-General,  
Federated Malay States.

## FEDERATED MALAY STATES.

## STATE OF PERAK.

THE QUARANTINE AND PREVENTION OF DISEASE  
ORDER IN COUNCIL, 1890.

No. 849.—Additional Rules under Section 3 of the above-named Order in Council, made by the Acting Resident, with the approval of the Resident-General, on the 13th day of November, 1901, and published in the *Gazette* of the 22nd day of November, 1901.

48a. Whenever it appears to the Resident, after such enquiry as he shall deem necessary, that any contagious or infectious disease exists amongst any animals in any district, it shall be lawful for the Resident to issue an order to regulate the movement of any animals within such limits as may be fixed by him for the purpose within the district where such disease exists, and to prohibit the movement of any animals into or to any place outside such limits.

48b. Whenever information is received that any contagious or infectious disease exists amongst any animals at any place without the State, it shall be lawful for the Resident to issue an order prohibiting, either absolutely or conditionally, the importation into the State of any animals from such place.

48c. Every order made under Rule 48a or Rule 48b hereof, shall be published in the *Government Gazette*, but shall come into operation and may be enforced immediately upon the making of the order, and every person acting in contravention of any order made under Rule 48a or Rule 48b hereof, after the date of the publication of such order in the *Government Gazette*, shall be liable, on conviction before a Magistrate, to a fine not exceeding \$250, and all animals in contravention of such order shall be liable to be forfeited.

## ORDERS

UNDER RULE 48b OF RULES MADE BY THE RESIDENT UNDER THE  
QUARANTINE AND PREVENTION OF DISEASE ORDER IN  
COUNCIL NO. 15 OF 1890.

No. 850.—Whereas information has been received of an out-break of a Contagious and Infectious Disease, viz., Rinderpest, at Batu Kurau, in the District of Larut;

It is hereby notified that until further orders all cattle within a radius of six miles from Batu Kurau Police Station must be confined to their owners' premises, except those actually working in carts, and no cattle will be allowed to enter or leave that area.

22nd November, 1901.

No. 851.—Whereas information has been received of an out-break of a Contagious and Infectious Disease, *viz.*, Rinderpest, in the District of Kuala Kangsar;

It is hereby notified that until further orders all cattle within the boundaries described below, except those actually working in carts, must be confined to their owners' premises, and no cattle will be allowed to enter or leave that area.

*North.*—A straight line from a mile east of the Perak River, passing due west through Pasir Sudu to the District Boundary.

*West.*—The District Boundary.

*South.*—A line parallel to, and a mile distant from, the south side of the Taiping-Kuala Kangsar road.

*East.*—The Perak River from the Southern Boundary to Enggor, from there the Enggor-Sungei Siput road for a distance of one mile, and from that point a line parallel to the Perak River to the Northern Boundary.

22nd November, 1901.

No. 852.—Whereas information has been received of an out-break of a Contagious and Infectious Disease, *viz.*, Rinderpest, in the District of Kinta;

It is hereby notified that until further orders all cattle within the said District, except those actually working in carts, must be confined to their owners' premises, and no cattle will be allowed to enter or leave that area.

22nd November, 1901.

#### “OUSELEY” SCHOLARSHIPS.

SIR FREDERICK ABEL (*Acting Chairman*).

SIR M. M. BHOWNAGGREE, M.P.

PROFESSOR J. F. BLUMHARDT.

PROFESSOR R. K. DOUGLAS.

SIR FREDERIC GOLDSMID.

SIR PHILIP MAGNUS.

PROFESSOR J. W. NEILL.

DR. ROBERTSON.

LIEUT.-COLONEL C. M. WATSON.

SIR CHARLES WILSON.

---

Classes are held in Arabic, Bengali, Burmese, Chinese, Greek (Modern), Gujarati, Hindi, Hindustani, Japanese, Malay, Marathi, Pali, Persian, Punjabi, Russian, Sanskrit, Swahili, Tamil, Telugu and Turkish.

---

“OUSELEY” SCHOLARSHIPS.

1. The “Ouseley” Scholarships of the above-named School and the expenses connected with their administration are provided for by the annual produce of £5,000 stock and £100 cash, which amounts were vested in the names of the Duke of Fife, K.T., Lord Rosebery and Lord Herschell, as Trustees, by the Misses Ouseley, in memory of their father, the late Colonel Jasper W. J. Ouseley.

2. The Scholarships are to be given for proficiency in Arabic, Persian, Hindustani and other Oriental Languages, or in some or one of such languages. No person will be admitted to competition for a Scholarship in a language which is his own mother tongue, nor for a Scholarship in a language allied to his mother tongue.

3. The value of each Scholarship is £50 per annum, and payments will be made half-yearly.

4. The examinations will be held in July of each year. In 1902 the Scholarship is to be given for Persian. Due announcement will be made of the subjects selected for subsequent years.

5. The Scholarships are tenable for two years provided that the conduct of the Scholar is considered to be satisfactory by the Trustees, and power is given to the Trustees to extend the tenure to three years in special cases.

6. Candidates must either have been Students of the Imperial Institute School of Oriental Studies or they must become Students therein if elected, under arrangements sanctioned by the Committee of Management, and in no case for less than one year.

7. The ages of Candidates are to be above 17 years and under 25 years on the 1st of January of the year of examination.

8. Candidates must give notice of their intention to compete on or before the 1st of July in each year.

9. Successful Competitors must produce evidence, satisfactory to the Committee of the School, that they are pursuing their studies, by furnishing written reports, not less than once in every six months, from the Professors or Teachers with whom they are continuing their studies.

10. The Committee of the School may abstain from awarding any Scholarship if, in the judgment of the Examiners, sufficient merit be not shewn.

F. A. ABEL,

*Hon. Secretary and Director of the Imperial Institute.*

“Ouseley” Scholarships have been awarded as follows:—

| YEAR. | SUBJECT.     | EXAMINERS.                                            | AWARDED TO.              |

#### “OUSELEY” SCHOLARSHIPS, 1902.

The 1902 examination in connection with the “Ouseley” Scholarships for proficiency in Oriental Languages will take place as follows:—

| SUBJECT.    | EXAMINER.                | PLACE.                        | DATE.                   |
|-------------|--------------------------|-------------------------------|-------------------------|
| Persian ... | Professor John T. Platts | University College, London... | Probably early in July. |

Candidates should give notice of intention to compete as soon as possible.

The following is an outline of the character of the examination:—

#### PERSIAN.

*Examiner*:—PROFESSOR JOHN T. PLATTS.

1. To translate, in writing, from Persian into English:—

(a). A passage from the Shāh-nāma of Firdausī (Episode of Zāl and Rūdāba).

- (b). An ode of Hāfiz (letter *dāl*).
- (c). A passage from the Gulistān of Sa'di (Books I—IV, inclusive).
2. To read and interpret *vivâ voce* an ordinary Persian letter :—
3. To translate, in writing from English into Persian :—
- (a). From 12 to 15 lines of a modern history or book of travels.
- (b). Short sentences specially prepared to test acquaintance with idiom and Grammar (at the most ten).
4. To converse briefly in Persian, answering questions on particular words or idioms which may suggest themselves to the Examiners.

THE LEITNER PRIZE FOR ARABIC AT KING'S COLLEGE.

A prize of £5 in books is given annually for the encouragement of the Study of Arabic by Mrs. E. T. Amery in memory of the late Dr. G. W. Leitner, formerly Professor of Arabic at King's College, and Dean of the Oriental Section.

The prize is awarded to the student who has most distinguished himself in Arabic during the Academical year.

Should there be no candidate eligible to receive the prize in any year, the money will be added to that given in the following year, to be used partly for the purpose of awarding a Prize in books and partly in payment of a portion of the fees of a student in Arabic who may be considered by the Principal of King's College to be deserving of such assistance.

## NOTIFICATION UNDER SECTION 72 OF THE LAND ENACTMENT, 1897.

### ACQUISITION OF LAND FOR PUBLIC PURPOSES.

No. 854.—Whereas it appears to the Acting Resident that the lands described in the schedule hereto attached, situated at Gunong Semanggol, in the mukim of Gunong Semanggol, in the District of Larut, are likely to be required for the public purpose of making an irrigation canal.

It is hereby notified that the Irrigation Engineer, and any officers or workmen duly employed under him, are authorised to enter upon, survey and take levels of the above mentioned land proposed to be taken, and to mark such levels and boundaries by placing marks and cutting trenches, and where otherwise the survey cannot be completed, the levels taken, or the boundaries or line of the work marked, to cut down and clear away any standing crop, fence or jungle.

No. 857.—Notice is hereby given that the books containing the valuation of, and rates imposed, for the year 1902, on all houses and

buildings in the townships of Kinta, within the jurisdiction of the Kinta Sanitary Board, are open to the inspection of the public at the Sanitary Board Office, Batu Gajah, daily, (Sundays and Saturdays excepted) between the hours of 10 a.m. and 4 p.m.

And further, notice is hereby given that the Kinta Sanitary Board will hear appeals against the valuation and rates aforesaid, at the said Office, on or before the 11th December, 1901, after which date the books will be closed.

18th November, 1901.

---

### KRIAN.

#### HOUSE ASSESSMENT.

No. 858.—In accordance with Section 9 of the Sanitary Board Regulations, notice is hereby given to owners and occupiers of houses and buildings in the townships of Parit Buntar, Bagan Serai and Kuala Kurau, that they are required to furnish at the office of the Sanitary Board, Krian, not later than the 1st December, 1901, a return of the annual rental of their houses and buildings, together with the names of the streets in which such premises are situated, to enable the Board to arrive at a fair valuation of the assessment to be levied for the year 1902.

The owner or occupier of any house or building knowingly furnishing a false or incorrect return will be liable to a penalty not exceeding \$100.

22nd November, 1901.

---

### TAPAH.

#### HOUSE ASSESSMENT.

No. 859.—In accordance with Section 9 of the Sanitary Board Regulations, notice is hereby given to owners and occupiers of houses in the township of Chenderiang, that they are required to furnish at the Municipal Office, Tapah, not later than the 30th November, 1901, the return of the annual rental of their houses, together with the names of the streets in which such premises are situated, for the purpose of valuation, on assessment to be levied by the Government for the year 1902.

Any person knowingly giving a false or incorrect return will be liable to a penalty of a fine not exceeding \$100.

22nd November, 1901.

---

### TENDERS.

#### SANITARY BOARD SUPPLIES, TAIPING.

No. 860.—Tenders are invited for the supply of Sanitary Board requisites, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Sanitary Board Supplies," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 9th December, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

The terms of the contract can be ascertained from the Secretary, Sanitary Board, Taiping, who will also, on application, provide the necessary schedule form.

16th November, 1901.

### SUPPLY AND CARTAGE OF METAL, ETC., LARUT AND MATANG DISTRICTS.

No. 861.—Tenders are invited for the supply and cartage of metal for the upkeep of cart roads for each of the following divisions of the Larut and Matang Districts, separately, for one or three years, 1902, or 1902 to 1904.

- (i). Taiping Division.
- (ii). Matang Division.
- (iii). South Larut or Trong Division.
- (iv). North Larut and Selama Divisions.

Tenders must state :—

- (i). Price per cubic yard for 1 inch, 1½ inch and 2 inch metal.
- (ii). Cartage of metal per mile.
- (iii). Hire of cart per day, week and month, with bullocks and driver.
- (iv). Supply of mining metal, sand and red earth, per cubic yard, and cartage.

Sealed tenders, marked on the outside “Tender for Supply and Cartage of Metal, Etc., for Upkeep of Cart Roads in Larut and Matang Districts,” will be received at the office of the Secretary to Resident, Taiping, not later than noon on the 9th December, 1901.

All information regarding quarries, etc., may be obtained at the office of the Executive Engineer, Larut and Matang, in Taiping.

18th November, 1901,

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$20, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

Tenderers should clearly understand that the renting of this building from Government will in no way secure any monopoly or right over any private stores which may hereafter be licensed by the Sanitary Board for the storage of these oils, but they may collect a fee for storage, not exceeding two cents a tin for a period of fourteen days and under, five cents per tin per month for any longer period.

Further particulars can be obtained on application to the Chairman, Sanitary Board, Matang.

8th November, 1901.

---

### FARM OF PIG SLAUGHTER-HOUSE, MATANG.

No. 807.—Tenders are invited for the farm of the pig slaughter-house in the township of Matang, for one year, from 1st January to 31st December, 1902.

F. ROBERTSON,

Collector of Land Revenue.

27th September, 1901.

No. 601.—To the Landholders named in the Schedule hereto:—

Take notice that whereas you have abandoned the lands described hereunder in the mukims of Senggang, Kota Lama Kiri, Chigar Galah, Pulau Kamiri, Durian Pipit, Kota Lama Kanan and Saiong, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such lands or unless you enter or re-enter into occupation of such lands by making a *bond fide* commencement to cultivate them, the said lands will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

SCHEDULE.

R. CLAYTON,

Acting Collector of Land Revenue.

## KRIAN.

## NOTICE UNDER SECTION 28 OF THE LAND ENACTMENT, 1897.

No. 819.—To the Landowners mentioned below :

Take notice that whereas you have abandoned the land described hereunder in the mukim of Bagan Serai in the Krian District, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bonâ fide* commencement to cultivate it, the said land will, at the expiration of the time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 14th day of October, 1901.

## SCHEDULE.

A. L. KNAGGS,

Collector of Land Revenue.

No. 653.—To the Landowners named in the Schedule below :—

Take Notice that whereas you have abandoned the land described hereunder in the mukims of Bagan Tiang, Kurau and Jalan Bharu, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident,

that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bonâ fide* commencement to cultivate it, the said land will, at the expiration of that time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 13th day of September, 1901.

High Water at Port Weld is approximately 3 hours earlier than at Teluk Anson.

MARINE DEPARTMENT,  
TELUK ANSON, 18th November, 1901.

JOHN F. MILLS, Retired Commander, R.N.  
Harbour Master, Teluk Anson.

# CENSUS REPORT, 1901.

## GOVERNMENT OF PERAK.

1. The total population of the State in 1891 and at the present Census is as follows:— Total population of the State.

| Population.    | 1891.   | 1901.   |
|----------------|---------|---------|
| Males ... ..   | 156,408 | 239,556 |
| Females ... .. | 57,846  | 90,109  |
| Total ... ..   | 214,254 | 329,665 |

2. The total increase since 1891, is 115,411, or 53·86 per cent. The increase in Males is 83,148, or 53·16 per cent, and in Females 32,263, or 55·77 per cent. Increase.

3. The total increases amongst Europeans, Americans and other nationalities are as follows:— Increases amongst Europeans, Americans and other nationalities.

|                                                |        |
|------------------------------------------------|--------|
| Europeans and Americans ... ..                 | 306    |
| Malays and other Natives of the Archipelago... | 38,176 |
| Chinese ... ..                                 | 55,894 |
| Tamils and other Natives of India ... ..       | 19,875 |
| Eurasians...                                   | 302    |
| Other Nationalities ... ..                     | 858    |

4. The following table gives the figures of comparison with the Census of 1891:—

| Race.                                           | 1891.   | 1901.   | Increase per cent. |
|-------------------------------------------------|---------|---------|--------------------|
| Europeans and Americans ... ..                  | 366     | 672     | 83·60              |
| Malays and other Natives of the Archipelago ... | 103,992 | 142,168 | 36·71              |
| Chinese ... ..                                  | 94,345  | 150,239 | 59·24              |
| Tamils and other Natives of India ... ..        | 14,885  | 34,760  | 133·52             |
| Eurasians ... ..                                | 289     | 591     | 106·49             |
| Other Nationalities ... ..                      | 377     | 1,235   | 227·58             |

It will be seen from the above figures that all nationalities contribute to the total increase, the greatest increase, among the main races, being shewn by the Chinese, and the highest percentage of increase by the Tamils and other Natives of India.

Remarks as to increases among the principal nationalities.

The large increase in the Chinese population, who now lead the Malays and other Natives of the Archipelago by 8,071, was almost a foregone conclusion and calls for little comment. It is, in a sense, at once the cause and the result of the general progress of the country and of the development of the great mining industry on which that progress so largely depends.

The increases in the leading Chinese tribes are as follows, viz., Cantonese have increased by 30,385, or 82·68 per cent; Hokkiens by 7,830, or 42·15 per cent; Hailam by 775, or 43·88 per cent; Khehs by 10,394, or 41·15 per cent; Teo-Chews by 3,352; or 31·56 per cent, and Straits-born by 2,030, or, 147·63 per cent.

It may be doubted whether the increase among Straits-born is really quite so large as it appears, since many were probably included with other tribes at the last Census, the tribe being almost always stated in the Schedule.

To the total Chinese population the Cantonese now contribute 44·68 per cent, the Khehs 23·73 per cent, the Hokkien 17·57 per cent, the Teo-Chews 9·29 per cent, and the Straits-born 2·26 per cent.

The increase among the *Malays and other Natives of the Archipelago*, while not so marked as that of the Chinese population, may perhaps be regarded as even more satisfactory when the natural differences between (what is mainly) a native and settled, and an immigrant and fluctuating population, are taken into the reckoning. Assuming the permanence of favourable agricultural conditions there seems every reason to believe that the Malay will hold his own without difficulty in the future.

In this group the Malays number 131,470, or 92·47 per cent of the total. The increases among the separate races are as follows, *viz* :—

The Malays have increased by 34,751, or 35·93 per cent, Javanese by 1,012, or 85·47 per cent, and Jawi-Pekans by 208, or 177·77 per cent.

The Aborigines too, somewhat contrary to expectation, shew a slight increase, quite apart from the 1,731 aborigines enumerated in the New Territory. The inclusion of these latter brings the increase up to 2,203, or 38·12 per cent. The greatest care was taken to secure correct returns, but, judging by District Reports, their actual numbers appear to be somewhat above those now quoted.

The welcome increase in the *Tamils and other Natives of India*, who now contribute 10½ per cent of the total population as against some 6 per cent in 1891, is mainly due to the efforts of the various recruiting agencies directed by the Government and by individual employers of labour, the rapid expansion of public and private enterprises during recent years having created an ever-increasing demand for fresh supplies of labour, which has been met, though not yet completely, by the greater facilities now afforded to immigration.

The Tamils, who number 31,026, have increased by 17,940, or 137·09 per cent, and the Bengalis and all other Natives of India, who also number 3,734, by 1,935, or 107·55 per cent.

*Europeans*, of whom 602, or 89·58 per cent, are British and only two Americans, have of course increased largely; and the *Eurasians* shew an even greater increase.

The miscellaneous group of races classed as "*Other Nationalities*," among which Siamese are first with a total of 446, has not in reality increased so largely as appears above, since at least one race now belonging to this group was almost certainly included elsewhere in the 1891 returns.

The proportions of the main races in every 10,000 of the total population are now as follows, *viz* :—

Europeans 20, Eurasians 17, Malays and other Natives of the Archipelago 43½, Chinese 4,557, Indians 1,054, Other Nationalities 37.

The proportion of Malays is 3,987, and that of Tamils is 941.

5. The population is distributed as shewn in the following table :—

Description  
of the popu-  
lation.

| DISTRICTS.      | 1891.  |         |        | 1901    |         |         | Total.                |                       |

| New Territory   | ...    | ...     | ...    | 1,597   | 1,240   | 2,837   | ...                   | ...                   |

Explanation  
of increase  
or decrease  
in particular  
districts.

That the greatest increase would again be shewn by Kinta, the premier district in the State, was naturally to be expected from its increased out-put of tin, in the production of which nearly half the population is engaged.

It may be noted that almost three-fifths of the total Chinese population are to be found in this district.

The highest per-centage of increase is, however, reached in Batang Padang, where the mining industry has of late years been making rapid progress.

Krian, which in point of total increase is second only to Kinta, numbers many foreign Malays, and not quite a third of the Indians, in its population. The increase here is mainly due to the great attention given to the development of its abundant agricultural resources and to the resulting influx of foreign agriculturalists.

The considerable increases in Kuala Kangsar, Lower Perak, Matang and Upper Perak are in the main such as were to be looked for in a settled agricultural population not greatly influenced by accessions from outside.

The decreases in Larut and Selama do not imply a diminution, but a changed distribution of a part of the population. The Chinese miners lost to Larut, on the partial cessation of its mining activity, now help to swell the population of Kinta or Batang Padang.

By the recent acquisition of the New Territory a large number of Sakei and some Malays have been added to the population.

6. In the following table is shewn the proportions of Males and Females in every 1,000 of the adult population:—

| NATIONALITY.                                    | 1891. |         | 1901. |         |
|-------------------------------------------------|-------|---------|-------|---------|
|                                                 | Male. | Female. | Male. | Female. |
| Europeans and Americans ... ..                  | 774   | 226     | 743   | 257     |
| Eurasians... ..                                 | 646   | 354     | 613   | 387     |
| Chinese ... ..                                  | 951   | 49      | 930   | 70      |
| Malays and other Natives of the Archipelago ... | 549   | 451     | 550   | 450     |
| Tamils and other Natives of India ... ..        | 833   | 167     | 789   | 211     |
| Other Nationalities ... ..                      | 663   | 337     | 574   | 426     |

Proportions of  
Males and  
Females.

The proportions among Malays are 544 males and 456 females, and among Tamils 770 males and 230 females. The proportions among Cantonese are 902 males and 98 females; among Hokkiens 961 males and 39 females; and among Khehs 946 males and 54 females.

Explanation of  
high propor-  
tions of Males to  
Females.

The disproportion between the sexes is naturally most marked in those races that may be regarded as being mainly immigrants or temporary settlers, namely the Chinese and the Indians. In fact, it is seen in all races other than the Malays, who alone shew a fairly equal proportion. The inclusion of children would slightly modify these proportions.

The growth of towns and the gradual additions to the wealthier and more settled classes are already tending to increase the number of the female population. In Kinta, where the growth of towns is most marked, the increase in males is 107·90 per cent and in females 118·32 per cent.

The relative increases in males and females among the main races are as follows, viz., Malay males 35·60 per cent, and Malay females 37·98 per cent; Chinese males 54·35 per cent, and Chinese females 132·46 per cent; Indian males 124·20 per cent, and Indian females 166·85 per cent. European males have increased by 77·30 per cent, and European females by 99·05 per cent; and Eurasian males by 88·75 per cent, and Eurasian females by 126·66 per cent.

7. The proportions of Adults\* and Children in every 1,000 of the population are as follows:—

Proportions of  
Adults and  
Children.

| NATIONALITIES.                              | 1891.   |           | 1901.   |           |
|---------------------------------------------|---------|-----------|---------|-----------|
|                                             | Adults. | Children. | Adults. | Children. |
| Europeans and Americans ... ..              | 773     | 227       | 769     | 231       |
| Eurasians ... ..                            | 605     | 395       | 516     | 484       |
| Chinese ... ..                              | 967     | 33        | 935     | 65        |
| Malays and other Natives of the Archipelago | 585     | 415       | 580     | 420       |
| Tamils and other Natives of India ... ..    | 790     | 210       | 815     | 185       |
| Other Nationalities ... ..                  | 796     | 204       | 749     | 251       |

\* An adult is taken as a person over twenty years of age.

For the total population the proportions are 3·3 adults to one child, or 768 adults and 232 children in every 1,000. The proportions among Malays are 572 adults and 428 children; and among Tamils 803 adults and 197 children. The proportions among Cantonese are 945 adults and 55 children; among Hokkiens 944 adults and 56 children; and among Khehs 949 adults and 51 children.

The following table, which gives the totals under the main columns of age, shews that the male children outnumber the female children by 3,393, the figures being 39,965 for males and 36,572 for females.

| RACE.        | MALES.  |        |       |       |         |         | FEMALES. |        |       |       |         |        |
|--------------|---------|--------|-------|-------|---------|---------|----------|--------|-------|-------|---------|--------|
|              | Under 5 | 5-10   | 10-15 | 15-20 | Adults. | Total.  | Under 5  | 5-10   | 10-15 | 15-20 | Adults. | Total. |

|             | Occupied. | Unoccupied. | Total. | Occupied. | Unoccupied. | Total. |
| Town ...    | ...       | ...         | ...    | 9,289     | 976         | 10,265 |
| Country ... | ...       | ...         | ...    | 42,354    | 8,656       | 51,010 |
| Total ...   | 30,840    | ...         | 30,840 | 51,643    | 9,632       | 61,275 |

The average number of persons to each occupied house is 6·35, as against 6·94 in 1891. The average is of course considerably greater in the towns than in the country; thus Taiping and Kamunting townships shew an average of 8·41 persons to each occupied house, as against an average of 7·50 in the rest of the Larut District.

The number of unoccupied houses was not given in 1891, nor were the occupied houses shewn separately for town and country.

In the country, where the work of numbering the houses was as a rule directed by the penghulus and their *kranis*, who often returned out-houses and temporary structures as separate houses, the returns require a certain deduction, but in any case the number of houses has largely increased.

Owing to the absence of adequate data for 1891 the proportionate increase in town and country houses could not be definitely ascertained.

Density of the population.

9. Taking the area of the State at 6,550 square miles the density of the population (exclusive of the floating population) is at the present Census 50·12 per square mile, as against 27·64 in 1891.

The density of the population in each district is shewn in the following table:—

| Districts.    |     |     |     |     |     |     |     | Population. | Area. | Population per Square mile. |
|---------------|-----|-----|-----|-----|-----|-----|-----|-------------|-------|-----------------------------|
| Larut         | ... | ... | ... | ... | ... | ... | ... | 42,474      | 330   | 128·70                      |
| Matang        | ... | ... | ... | ... | ... | ... | ... | 14,380      | 300   | 47·93                       |
| Selama        | ... | ... | ... | ... | ... | ... | ... | 3,615       | 289   | 12·91                       |
| Kinta         | ... | ... | ... | ... | ... | ... | ... | 122,737     | 710   | 172·86                      |
| Krian         | ... | ... | ... | ... | ... | ... | ... | 48,196      | 200   | 240·98                      |
| Kuala Kangsar | ... | ... | ... | ... | ... | ... | ... | 37,112      | 1,550 | 23·94                       |
| Lower Perak   | ... | ... | ... | ... | ... | ... | ... | 30,117      | 1,080 | 27·88                       |
| Batang Padang | ... | ... | ... | ... | ... | ... | ... | 22,906      | 1,030 | 22·23                       |
| Upper Perak   | ... | ... | ... | ... | ... | ... | ... | 3,921       | 390   | 10·05                       |
| New Territory | ... | ... | ... | ... | ... | ... | ... | 2,837       | 680   | 4·17                        |
| Total         |     |     |     |     |     |     |     | 328,295     | 6,550 | 50·12                       |

In 1891 the area was taken at 7,751 square miles and the density then shewn should be increased by five. Remarks.

10. The table given below shews the total populations of the principal towns and villages in the State:— Population of the principal towns and villages.

| Districts.    |     |     |     | Towns and Villages. | Malays. | Chinese. | Indians. | Europeans and Others. | Total. |
|---------------|-----|-----|-----|---------------------|---------|----------|----------|-----------------------|--------|
| Larut         | ... | ... | ... | Taiping             | 781     | 7,972    | 3,874    | 704                   | 13,331 |
| Kuala Kangsar | ... | ... | ... | Kuala Kangsar       | 167     | 514      | 441      | 35                    | 1,157  |
| Kinta         | ... | {   | ... | Ipoh                | 1,359   | 9,067    | 1,917    | 448                   | 12,791 |
|               |     |     |     | Kampar              | 378     | 5,056    | 411      | 62                    | 5,907  |
|               |     |     |     | Batu Gajah          | 690     | 1,700    | 705      | 166                   | 3,261  |
|               |     |     |     | Menglembu           | 10      | 3,105    | 67       | 11                    | 3,193  |
|               |     |     |     | Lahat               | 27      | 2,397    | 99       | 7                     | 2,530  |
| Lower Perak   | ... | {   | ... | Gopeng              | 522     | 1,983    | 597      | 55                    | 3,157  |
|               |     |     |     | Teluk Anson         | 744     | 1,618    | 679      | 93                    | 3,134  |
| Batang Padang | ... | ... | ... | Tapah               | 446     | 897      | 838      | 63                    | 2,244  |
| Krian         | ... | {   | ... | Bagan Serai         | 386     | 652      | 884      | 20                    | 1,942  |
|               |     |     |     | Parit Buntar        | 175     | 630      | 691      | 70                    | 1,566  |

On comparing these figures with the totals returned at the last Census a large general increase will be noted, and more particularly in Kinta, where the remarkable increase in the population of Ipoh—an increase of 9,607, or 301·72 per cent—has been accompanied by only less striking increases in the other towns. Kampar and Menglembu, which in 1891 were not shewn in a list of villages which included Pasir Hitam and Relau, have now a population of 5,907 and 3,193, respectively; while such old established townships as Batu Gajah and Gopeng can still shew increases of 1,126, or 52·74 per cent, and of 287, or 10 per cent, respectively.

In other districts we also find several towns that have practically sprung up in the last ten years, such as Bagan Serai with a population of 1,942, and Temoh with a population of 806; while, among the rest, Parit Buntar has increased its population from 881 to 1,566, Tapah from 1,630 to 2,244, and Kuala Kangsar from 952 to 1,157.

Taiping, which apparently remains stationary, has in reality increased its population considerably, the inclusion of mines then existing just outside its present limits helping to swell the former total.

In contrast with the general increase we find that the population of Kamunting has fallen from 2,608 to 728, and that of Matang from 1,289 to 613. Teluk Anson, too, shews a slight decrease in its population.

While the general growth of towns may be confidently predicted, it will in all probability be marked by similar fluctuations in the population of individual townships, the real centre of gravity, in nearly every instance, being the all powerful attraction of some new mining centre opened up in its turn.

The following table shews how the population of the towns compares with the population outside them in each district.

| DISTRICTS.        | TOWN.  |         | COUNTRY. |         | FLOATING. |         | WAYFARERS, ETC. |         | TOTAL POPULATION. |         |
|-------------------|--------|---------|----------|---------|-----------|---------|-----------------|---------|-------------------|---------|
|                   | Male.  | Female. | Male.    | Female. | Male.     | Female. | Male.           | Female. | Male.             | Female. |
| Larut ... ..      | 10,521 | 3,528   | 21,852   | 6,359   | ...       | ...     | 173             | 41      | 32,546            | 9,928   |
| Matang ... ..     | 798    | 339     | 8,811    | 4,304   | 364       | 3       | 124             | 4       | 10,097            | 4,650   |
| Kuala Kangsar     | 1,685  | 471     | 19,920   | 14,745  | ...       | ...     | 273             | 18      | 21,878            | 15,234  |
| Upper Perak ...   | 129    | 33      | 2,054    | 1,705   | ...       | ...     | ...             | ...     | 2,183             | 1,738   |
| Kinta ... ..      | 31,019 | 8,838   | 71,907   | 10,662  | ...       | ...     | 308             | 3       | 103,234           | 19,503  |
| Lower perak ...   | 2,344  | 790     | 14,891   | 11,920  | 486       | 17      | 168             | 4       | 17,889            | 12,731  |
| Batang Padang     | 3,650  | 998     | 13,714   | 4,494   | ...       | ...     | 45              | 5       | 17,409            | 5,497   |
| Krian ... ..      | 3,268  | 1,234   | 26,958   | 16,592  | 488       | 12      | 119             | 25      | 30,833            | 17,863  |
| Selama ... ..     | ...    | ...     | 1,890    | 1,725   | ...       | ...     | ...             | ...     | 1,890             | 1,725   |
| New Territory ... | ...    | ...     | 1,597    | 1,240   | ...       | ...     | ...             | ...     | 1,597             | 1,240   |
|                   | 53,414 | 16,231  | 183,594  | 73,746  | 1,338     | 32      | 1,210           | 100     | 239,556           | 90,109  |
|                   | 69,645 |         | 257,340  |         | 1,370     |         | 1,310           |         | 329,665           |         |

The Floating Population comprises (i) travellers on board passing steamers or other boats at the ports of the State, and (ii) all persons enumerated in boats or vessels off the coasts of Lower Perak, Matang and Krian, and in the *kualas* of the rivers on which the ports are situated.

The instructions limiting this return to the first named were received too late to allow of District Officers altering the arrangements previously made by them in the belief that a return of the Floating Population, in its wider sense, was intended.

While it was possible to separate the Floating Population as defined above from the population enumerated on the roads and on inland rivers, which was also described as "floating," but is shewn under the heading of Wayfarers, etc., it could not be limited more nearly without returning the schedules, and this would have greatly delayed the work.

**Total number of house schedules.** 11. The total number of house schedules examined was 61,398. The number of schedules supplied to the districts was 104,500 and the number returned to this office, inclusive of empty schedules, was 63,028.

The average number of names to each schedule was therefore about five, which agrees with the average shewn at the last Census, and is somewhat less than the average number of persons to each occupied house.

**Occupations.** 12. The following table shews the Returns of Occupations:—

|                    |     |     |     |     |     |     |     |         |
|--------------------|-----|-----|-----|-----|-----|-----|-----|---------|
| Professional Class | ... | ... | ... | ... | ... | ... | ... | 10,055  |
| Domestic           | "   | ... | ... | ... | ... | ... | ... | 81,864  |
| Commercial         | "   | ... | ... | ... | ... | ... | ... | 12,279  |
| Agricultural       | "   | ... | ... | ... | ... | ... | ... | 75,777  |
| Industrial         | "   | ... | ... | ... | ... | ... | ... | 143,744 |
| Unclassified       | "   | ... | ... | ... | ... | ... | ... | 5,946   |
| Total              | ... | ... | ... | ... | ... | ... | ... | 329,665 |

In the Professional class 1,653 are Government Servants and 917 Police.

Remarks.

In the Commercial class 10,027, out of a total of 12,279, are Chinese, 1,295 are Malays and 11 Europeans.

The number of Shop-keepers is 2,613, and the number of Charcoal Burners is 606.

The total Agricultural class is returned at 45,773 Males and 30,004 Females.

The *Padi* Cultivators number 52,759, Gardeners, Gambier and Pepper Planters 7,102.

In the Industrial class, Tin Miners, nearly all Chinese, contribute 77,868.

The total number of Fishermen is 3,182—2269 Chinese and 902 Malays: and the total number of Wood-cutters is 3,229.

Among the Unclassified are 88 Lunatics, 661 Prisoners, and 1,520 Prostitutes and Brothel Keepers.

The Industrial class absorbs 43·60 per cent of the population, the Agricultural 22·98 per cent and the Commercial only 3·72 per cent. It may be noted that the Miners now exceed the Agriculturalists by 2,091, and that while the Malay Agriculturalists, with whom the majority of Malay labourers should properly be classed, contribute 65,217, or 19·78 per cent, the Chinese Miners contribute 75,998, or 23·05 per cent, to the total population.

In the Agricultural class the majority of Chinese are returned as Vegetable Gardeners, the Sugar-cane planters only amounting to 2,555, or 3·37 per cent of the total.

In the Domestic class are included all women and children not stating a definite occupation.

#### GENERAL.

13. In November last the following Committee was appointed by the Resident to make the preliminary arrangements for taking the Census. Census Committee.

#### CENTRAL COMMITTEE.

A. R. Venning, Secretary to Government, (*Chairman*).

E. S. Hose, Acting Collector of Land Revenue, Larut.

Captain F. W. Lyons, Acting Deputy Commissioner of Police.

J. P. Harper, Superintendent, Revenue Survey.

L. Wray, Curator and State Geologist.

Mr. G. J. Amery was appointed Secretary.

Secretary.

Mr. Venning left Perak on leave at the end of April and Mr. Hose left early in March, and their places on the Committee were then taken by their successors in office, Mr. D. G. Campbell and Mr. G. Maxwell.

Six meetings of the Committee were held.

Meetings.

At these meetings the Committee organised the work of the Larut Census, in the conduct of which many of the members took an active part, as appears from the report on that district. At the same time it controlled the action of all the District Committees, which were called upon to furnish estimates of expenditure, reports on progress and the like; such estimates and reports being then carefully considered and a definite provision, approved by the Resident, being made in each case. Work of the Committee.

Large scale maps were prepared under the direction of the Superintendent of Revenue Surveys, and supplied to all districts except Kinta; various difficulties in regard to transport and particular local conditions were disposed of; and economy was enforced by a careful audit of district expenditure.

The number of Supervisors engaged was 129. The number of Enumerators engaged was 903. In many cases Supervisors also acted as Enumerators.

Number of Supervisors and Enumerators engaged.

Besides these, there were the usual unpaid or *ex-officio* Enumerators for public buildings, estates, mining kongsis, etc. A case of refusal to act in this capacity occurred in Matang, and though no other case was reported, the Committee considered that it would be advisable to extend the provisions of Order in Council No. 1 of 1891 under which no penalty could now be enforced.

The work of the Supervisors, with some five or six exceptions, was very favourably reported on by the District Committees, and nearly all their returns reached this office in good order with statements of contents attached. Report on their work.

A certain inequality was, indeed, observed in the numbers enumerated in the different divisions of a district, but was usually found to correspond to marked differences in local conditions.

The work of the Enumerators shewed that they had been carefully instructed in their duties and had, on the whole, performed them satisfactorily.

It was noticed that want of clearness or incorrect filling in of schedules chiefly occurred in those cases where Enumerators of any one nationality had been given a district in which the greater part of the inhabitants belonged to another nationality.

A few Enumerators also allowed half educated persons to fill in the schedules themselves, but in a greater number of cases all schedules were personally filled in by the Enumerator, and these were among the best received.

The schedules of the Police Enumerators were in some cases included among those of other Enumerators, instead of being returned separately, and this caused considerable difficulty in one part of the work. Where Police Enumerators made use of a form, generally similar to the schedule but ruled on an ordinary sheet of paper, such confusion could not occur. Schedules of a different form or colour might, on a future occasion, be used for special returns such as those of the Floating Population, Wayfarers, Prisoners, etc.

Situation of  
Census Office.

The Census Office was centrally situated in the Public Offices, but the quarters assigned it were scarcely large enough for the convenient arrangement of the staff and the disposal of continually accumulating material.

Tabulation of  
the Returns  
by Secretary  
and Staff.

Work was commenced with a staff of three clerks on the 4th March. Progress was at first very slow as the completion of the Larut Census engaged a considerable part of my time and as one and all were new to the work. As the staff increased in numbers and improved methods of working were developed more rapid progress was made, till in June, with the full staff at work, the average number of persons tabulated daily amounted to nearly 5,000.

The staff was then composed as follows :—3 Chinese Clerks ; 7 Tamil Clerks ; 1 Malay Clerk.

The entire staff was engaged from outside the Government Service, as Government Clerks could not be spared from any Department during office hours and as none of those that could be spared, even partially, was competent to act as a Chief Clerk. The men thus engaged differed considerably in their qualifications, but for the most part learnt their work in a short time and came to take a real interest in it. During the whole period of four months, work was suspended for only three days, apart from Sundays.

On the 29th June the examination of all Returns was completed, and the main figures were then totalled. The remaining days were given to the completion of the various forms required for the final Report on the State. The editing of the District Reports is still in progress, a few clerks being retained for this purpose.

Nearly the whole time of the Malay Clerk and of one of the Chinese Clerks was given up to the translation of schedules, a very small percentage of the schedules being written in English and many more in various Indian characters, and a few in Siamese. The necessity for calling in outside assistance here caused considerable delay.

The forms provided for the purpose of compilation proved sufficiently workable when supplemented with rough work of various kinds.

Instructions modifying certain points of detail were received after the compilation had proceeded for some time, and the required changes could not always be effected in the work already dealt with.

In the final preparation of this Report some difficulty was caused by the necessity of extracting the requisite data for comparison with the last Census from the returns of the separate districts in the 1891 Report. The facts could not be directly ascertained from the general report, as the returns attached to it proved somewhat scanty and also differed in form, e.g., no abstract in the form of Return No. I was made out for the whole State, adults were taken as persons over 15 years of age instead of over 20, etc. In the District Returns, too, the tribes of the Chinese classed under the heading of Floating Population were not shown so that a distribution proportionate to their numbers in the Resident Population had to be made in the first Return attached to this report.

#### GENERAL REMARKS.

14. A Proclamation explaining the objects of the Census was published in the *Government Gazette* of 14th September, 1900.

A Circular on the subject, addressed to the Resident of each State, was issued by the Resident-General on the 15th October last, and the Central Committee and District Com-

mittees were then appointed. The work was carried out on the lines laid down in the above Circular, such slight modifications as were in any case introduced, being introduced for the sake of economy.

In the New Territory, where it was found impracticable to take the Census in a single night, the greatest care was taken to secure correct returns of the population.

15. No serious difficulties were experienced in taking the Census of the native population, though the more ignorant among the Chinese occasionally shewed some disposition to evade it, vague apprehensions of intended taxation seeming still to exist among them.

16. On a general review of the facts, the work of the District Magistrates and their Committees appears to have been most carefully planned and most successfully carried out in Kuala Kangsar, Lower Perak and Krian among the larger districts, and in Matang among the smaller districts.

In no case was it unsatisfactory, and in the few instances where Supervisors had failed to discharge their duties adequately, care was taken to acquaint me with, and, where possible, to remedy their omissions before the returns were examined. From start to finish the District Magistrates spared no pains to ensure the success of the undertaking.

17. I regret that the system of compiling all returns in the Central Office has not in this instance resulted in the "saving of time and expense" anticipated in 1891. It appears to me to possess a real advantage as ensuring a more complete uniformity of method and a greater accuracy in detail than could otherwise be obtained, but, though there were special circumstances tending to prolong the work and to increase the expenses on this occasion, it may be doubted whether it could in any case combine all the advantage claimed for it at the last Census. At the same time there seems still to be some room for improvements in method, and the suggestions thrown out in paragraphs 13, 18 and 23 might be considered in this connection. Census Officers, too, should know from the outset exactly what returns will subsequently be required, so that they could prepare a detailed scheme of compilation well in advance of the work, if such scheme were not already provided for their guidance.

System of  
compiling all  
returns  
centrally.

18. The Return of Occupations should, I think, be regarded as an important part of the Census, but to secure a return of any real value, full and definite instructions should in future be issued to the Enumerators, and it should be part of their duty to insist on a clear statement in every case instead of simply accepting those schedules that appeared to have been more or less correctly filled in by the head of the house.

Return of  
Occupations.

19. The rate of remuneration for Enumerators might be raised from \$10 to \$15, as qualified men cannot easily be obtained for less and as the present rate of payment is not quite proportionate to the Supervisor's remuneration, which appears to be sufficiently liberal. Both Supervisors and Enumerators should, so far as possible, be drawn from the Government Service, as their work can then be more easily directed and the incentives to good work are as a rule greater.

Remunera-  
tion of Super-  
visors and  
Enumerators.

20. With regard to transport, the repayment of actual necessary expenditure, if not quite so convenient as fixed allowances when other than Government Officials are employed, seems yet to be an equally economical method in the case of Supervisors, and decidedly more economical in the case of Enumerators. Comparison of the number of Supervisors and Enumerators employed, with the total cost of transport, given in Return XV shews that, if the fixed allowances had been generally adopted, the expenditure under this head would have been greatly increased.

Transport.

21. In his report on the Census of the Colony in 1891 Mr. Mereweather, Superintendent of the Census, advised the general abolition of Census Committees and the substitution of District Census Officers directly responsible to the Superintendent of the Census.

The results of the present Census, the successful conduct of which may fairly be placed to the credit of the various District Committees, do not, in my opinion, point to the adoption of a similar change of methods in Perak.

Successful  
working of  
District  
Committees.

22. The position of the Central Census Committee is, however, somewhat more open to criticism. Owing to its two-fold task of general supervision and control, and of local organisation and management, the permanency of members for the long term of their functions is even more desirable, as it is less assured, than in the case of a District Committee; while, in virtue of its superior status, it will mainly be composed of Senior Officers whose duties leave them little time to attend frequent meetings to discuss each difficulty as it arises. To ensure the successful working of the Committee under these circumstances, such wide discretionary powers may have to be given to, and accepted by, its permanent official the Secretary to the Committee, as would practically amount to a transfer of responsibility.

Central  
Census  
Committee to  
be abolished.

Owing to the perfect agreement among all members of the Committee, the system worked well on this occasion, but these relations might not always be equally satisfactory.

A Census Officer to be appointed.

23. I would therefore advise that the Central Census Committee be abolished and a Census Officer, responsible to the Superintendent of the Census for the general conduct of the work, but guided by the Resident or the Secretary to the Resident in matters outside it, should be substituted in future. Such officer should be nominated as soon as the main scheme of the Census has been defined and should be expected to at once acquaint himself with the work and the special requirements of each district, so that all the necessary arrangements may be made in good time. If allowed the assistance of a Cadet his duties in this connection need not withdraw him from his post for more than a few weeks in the whole period, and part of this time might profitably be given to a tour of inspection through the State. Uniformity and completeness of organisation would thus be ensured, while the information personally acquired by the Census Officer would greatly facilitate and hasten the subsequent work of compilation.

24. In conclusion I trust that such omissions or defects as may have resulted from the necessity for haste in the final stages of the work may not materially detract from the utility of the report now submitted.

Return of Expenditure.

25. The following is the Return of Expenditure incurred :—

|                                                                 |     |     |     |     |     |     | \$     | c. |
|-----------------------------------------------------------------|-----|-----|-----|-----|-----|-----|--------|----|
| Preliminary Work and Remuneration                               | ... | ... | ... | ... | ... | ... | 1,361  | 4  |
| Remuneration to Supervisors                                     | ... | ... | ... | ... | ... | ... | 5,955  | 00 |
| Do. Enumerators                                                 | ... | ... | ... | ... | ... | ... | 9,286  | 00 |
| Transport                                                       | ... | ... | ... | ... | ... | ... | 4,869  | 26 |
| Stationery                                                      | ... | ... | ... | ... | ... | ... | 1,292  | 42 |
| Maps                                                            | ... | ... | ... | ... | ... | ... | 574    | 77 |
| * Honorary to District Officers and Secretary, Census Committee | ... | ... | ... | ... | ... | ... | 1,476  | 00 |
| Clerical Assistance for Compiling Returns                       | ... | ... | ... | ... | ... | ... | 2,333  | 84 |
| Miscellaneous Expenses                                          | ... | ... | ... | ... | ... | ... | 334    | 13 |
| Total                                                           | ... | ... | ... | ... | ... | ... | 27,482 | 46 |

A detailed Return, shewing the expenditure in each District, is appended. The total expenditure here amounted to \$23,645.89.

The Central expenditure amounted to \$3,836.57, and included the following items:—

|                               |     |     |     |     |     |     | \$    | c. |
|-------------------------------|-----|-----|-----|-----|-----|-----|-------|----|
| Census Office Establishments  | ... | ... | ... | ... | ... | ... | 2,288 | 84 |
| Cost of Printing Census Forms | ... | ... | ... | ... | ... | ... | 1,000 | 00 |
| Stationery                    | ... | ... | ... | ... | ... | ... | 91    | 22 |
| Transport, etc.               | ... | ... | ... | ... | ... | ... | 41    | 51 |
| † Maps                        | ... | ... | ... | ... | ... | ... | 400   | 00 |
| Furniture                     | ... | ... | ... | ... | ... | ... | 15    | 00 |
| Total                         | ... | ... | ... | ... | ... | ... | 3,836 | 57 |

The cost per head of the population enumerated is 8.33 cents, as against 6.52 at the last Census when, however, the return of expenditure was not quite complete.

\* This includes a contribution of \$426 towards the remuneration of the Superintendent. Federated Malay States.

† Vide paragraph 13.

26. The following returns accompany this Report :—

- (I). Abstract of the Population of the State, 1891—1901.
- (II). Population of each District in the State, 1891—1901.
- (III). Europeans and Americans, Resident Population.
- (IV). Do. Floating do.
- (V). Floating Population: Other Nationalities.
- (VI). Ages of the Europeans and Americans, Resident Population.
- (VII). Ages of the Chinese Population.
- (VIII). Ages of other Nationalities.
- (IX). Prisoners' Abstract of Nationalities.
- (X). The number of Houses in each District in the State.
- (XI). Occupations for the whole State.
- (XII). Number of Aborigines for the whole State.
- (XIII). Population of Chief Towns and Villages.
- (XIV). The distribution of the Principal Nationalities in the State.
- (XV). Return of Expenditure of the State.

13th July, 1901.

G. J. AMERY,  
*Secretary, Census Committee.*

## CENSUS FOR THE STATE OF PERAK.

1891.

---

LEAVE.

No. 885.—Mr. Arthur John Dishman, Chief Clerk, Treasury, Lower Perak, has been granted three months vacation leave, to be followed by twelve months' leave with half salary, with effect from the 9th December, 1901.

---

## MEMORIAL TO HER LATE MAJESTY QUEEN VICTORIA.

No. 886.—The following letter has been received from the Right Honourable the Secretary of State for the Colonies relating to the contribution of the Federated Malay States to the above memorial.

## STRAITS SETTLEMENTS.

[No. 306.]

DOWNING STREET,

*27th September, 1901.*

SIR,

I have the honour to acknowledge the receipt of your telegram of the 25th instant, informing me that the Federated Malay States would contribute £10,000 and the Straits Settlements £1,000 to the Memorial to Her late Majesty Queen Victoria, and to confirm my telegram in reply of the same date.

2. Your telegram was laid before His Majesty the King who has graciously expressed himself as exceedingly touched and gratified at the magnificent gift of the Federated Malay States and at the liberal contribution of the Straits Settlements.

I have, etc.,

THE OFFICER ADMINISTERING THE  
GOVERNMENT OF THE STRAITS SETTLEMENTS.

J. CHAMBERLAIN.

5th December, 1901.

---

**FOREST RESERVE.**

No. 897.—In exercise of the powers vested in him by Section 6 of the Land Enactment, 1897, the Acting Resident proclaims the parcel of land, situated at Kledang, described in the schedule hereto, as a Forest Reserve, to be maintained and controlled by the Forest Department.

**SCHEDULE.**

All that land situate on the Kledang hills, in the District of Kinta and Kuala Kangsar, containing 3,470 acres, from about and above 1,200 feet sea level, demarcated by a Forest path and further marked on the ground by Forest Reserve iron boundary posts—exclusive of the Kledang Hill Bungalow road and gardens—as shewn on plans deposited with the Forest Officer, Taiping, and Assistant Forest Officer, Kinta.

5th December, 1901.

---

**PUBLIC WORKS DEPARTMENT SUBORDINATE ESTABLISHMENTS.****SCHEME FOR INCREASES OF SALARY, PROMOTIONS AND NEW APPOINTMENTS.**

No. 898.—The following scheme for increases of salary, promotions and new appointments in the subordinate staff of the Public Works Department has been sanctioned with effect from the 1st January, 1901.

**CLASSIFICATION.****SENIOR SUBORDINATE OR FIRST CLASS.**

1. Salary \$1,380, rising by biennial increments of \$120 to \$1,980.  
*Officers.*—Clerks of Works and Chief Draftsmen.

**JUNIOR SUBORDINATE OR SECOND CLASS.**

Salary \$708, rising by biennial increments of \$96 to \$1,284.

*Officers.*—Overseers and Draftsmen (\$996 to \$1,284), Assistant Overseers and Assistant Draftsmen (\$708 to \$900.)

## SUB-JUNIOR SUBORDINATE OR THIRD CLASS.

Salary \$408, rising by biennial increments of \$60 to \$648.

*Officers.*—Sub-Assistant Overseers and Tracers.

2. *Promotions.*—Promotions to the First and Second Classes can take place only as vacancies occur. Only such Officers as now hold fixed appointments in them, or as may hereafter come in by examination, shall be on the Fixed Establishment.

All future appointments in the Third Class shall be on the Provisional and Temporary Establishment.

3. *Fixed Establishment.*—All Officers now on the Fixed Establishment of the Department may be required to pass the examination prescribed for their class before receiving further increases of salary and, unless specially exempted, must do so before promotion to a higher class.

4. *Provisional and Temporary Establishment.*—Those on the Provisional and Temporary Establishment may, subject to the approval of Government, be taken on to the Fixed Establishment should vacancies occur, on their shewing all the necessary qualifications.

5. *Apprentices.*—Every Apprentice shall be required to sign indentures for three years, but during the first year he shall be on probation; and if he hold out no promise of becoming an efficient Officer his services will, at the end of that time, be dispensed with. He shall be on the Provisional and Temporary Establishment until he has passed the qualifying examination for Officers of the Second Class, when he will become eligible for an appointment at \$708 on the Fixed Establishment. His pay shall commence at \$300, and be increased by \$60 annually up to \$480. If at the end of the third year he fail to qualify, his services shall cease, or he may be classed as a Third Grade Officer and be given further opportunities of doing so. No Apprentice shall, whether he has passed the examination or not, have any claim on the Government for employment should his services not be required on the termination of his indentures, or should his good character, zeal, or aptitude for practical work be open to doubt.

6. *Tracers.*—Tracers may be engaged for the Drawing Office as vacancies occur, or improvers may be taken on at \$180, who will become eligible for appointments in the Third Class, commencing at \$408. These men may also qualify for the higher appointments as in the case of those Officers now in the Department.

7. *Quarters.*—No claim to free quarters shall be admitted except for Officers now in the Department who are already entitled to them. Those who are stationed where houses cannot be rented may, however, have temporary quarters provided for their accommodation; and, if it is found convenient or necessary that any Officer should reside in any particular place on account of the nature of his work, he may also temporarily have quarters allotted to him.

8. *Increments.*—An Officer on the subordinate staff shall, after each two years' service in any grade without promotion, and on the recommendation of the State Engineer, receive an increase of salary not exceeding \$120 per annum nor the maximum of his grade.

9. *Conditions of Increments.*—Increments of salary to Officers on all Establishments are not to be given merely on account of length of service, but only on recommendation by the State Engineer, in each case on account of diligence, zeal and ability.

10. *Engineer Establishment.*—An Officer of the Senior Subordinate Class, possessing the necessary qualifications, may be recommended for advancement to the Engineer Establishment on the occasion of any vacancy occurring therein.

11. *Senior Subordinate Establishment.*—Appointments to the Senior Subordinate Establishment will be made entirely by selection from Junior Subordinate Establishment on the recommendation of the State Engineer.

12. *Promotions Generally.*—Promotions will in all cases be made by selecting the individual who, from his good conduct, superior management, and the possession of a higher degree of professional knowledge, shall appear to be the most deserving of advancement.

13. *Promotion to Senior Subordinate Establishment.*—Officers of the Junior Subordinate Establishment, before they can be promoted to the Senior Establishment, must pass the examination prescribed. An Officer desirous of undergoing this examination will apply to the State Engineer; and in forwarding this application, the Local Head will attach a special report upon those points of qualification which cannot be tested by examination, especially in regard to his physical energy and efficiency in practical work, and capacity to manage those under his authority. These reports shall always be considered preliminary to the examination, and the Officer shall not be entitled to be examined until they have been received and found satisfactory by the State Engineer.

14. *Nature of Examination.*—The examination will be such as to shew that he has a general practical knowledge of the various subjects included in the syllabus, and with the modes of construction in use in the Straits Settlements.

15. *Examination Papers.*—The examination papers will be set by the State Engineer. No theoretical points such as would in ordinary practice be met by a resort to books of reference will be introduced.

16. *Outside Appointment.*—If it is ascertained that no Officer of this grade has passed the requisite examination, and is in all other respects properly qualified for the Senior Subordinate Grade, any vacancy therein shall be filled by application to the Crown Agents, by advertisement, or in such manner as may be thought most advisable.

17. *Junior Subordinate Establishment.*—In like manner vacancies in the Junior Subordinate Establishment will be filled, if possible, by the best qualified Apprentice, or by advertisement if no Apprentice be so qualified.

18. *Qualifications of Overseers.*—All Overseers, however, are required to have a good knowledge of Arithmetic, Mensuration, Account Keeping, and of Elementary Practical Geometry; to be able to prepare simple working drawings; to lay out and construct a building from drawings and specifications; to prepare a simple estimate on being furnished with a design and the rate of work; to measure work; also to survey with chain and compass, and level accurately; and to have a practical knowledge of building in its several branches.

19. *Examinations in Special Cases.*—The Government may, on the advice of the State Engineer, in special cases dispense with any examination for any grade.

20. *Confidential Reports.*—To assist the State Engineer in dealing with the promotion of Officers of the Public Works Department, Local Heads will submit, during the month of January each year, a confidential return of the Officers serving under their orders, with any remarks they may think fit, as to their character, ability, zeal, general aptitude and professional qualifications.

21. *Inefficiency, Etc., to be Reported.*—Local Heads will be responsible that any inefficiency, inattention to duty, or unbecoming conduct is immediately reported.

22. *Promotion by Selection.*—In the selection of Officers for permanent promotion it should be understood that seniority is not in itself sufficient ground on which to base a claim, and will not be allowed to interfere with advancement of junior officers who have proved themselves better qualified. No one will be brought forward who is not considered decidedly deserving of promotion on the ground of good service, the convenience of the public service being paramount to all other considerations.

9th July, 1900.

## NOTIFICATIONS UNDER SECTION 6 OF THE LAND ENACTMENT, 1897.

### RESERVATION OF LAND FOR PUBLIC PURPOSES.

This Notification is made under Section 6 of the Land Enactment, 1897.

Dated at Taiping, this 3rd day of December, 1901.

A. R. VENNING,  
*Secretary to Resident.*

## NOTIFICATION UNDER SECTION 72 OF THE LAND ENACTMENT, 1897.

### ACQUISITION OF LAND FOR PUBLIC PURPOSES.

No. 854.—Whereas it appears to the Acting Resident that the lands described in the schedule hereto attached, situated at Gunong Semanggol, in the mukim of Gunong Semanggol, in the District of Larut, are likely to be required for the public purpose of making an irrigation canal.

It is hereby notified that the Irrigation Engineer, and any officers or workmen duly employed under him, are authorised to enter upon, survey and take levels of the above mentioned land proposed to be taken, and to mark such levels and boundaries by placing marks and cutting trenches, and where otherwise the survey cannot be completed, the levels taken, or the boundaries or line of the work marked, to cut down and clear away any standing crop, fence or jungle.

### SCHEDULE.

*Secretary to Resident.*

## DECLARATION UNDER SECTION 75 OF THE LAND ENACTMENT, 1897.

### ACQUISITION OF LAND FOR PUBLIC PURPOSES.

No. 902.—It is hereby notified that whereas certain portions of land in the township of Teluk Anson, in the District of Lower Perak, set forth and described in the schedule hereto, are required for a public purpose, viz:

extension of the Teluk Anson railway station, it is the intention of Government to resume the same under Part VII of the Land Enactment, No. 17 of 1897, after the publication of this notice in the *Gazette*.

Plan of the land described below, shewing the portion to be resumed, may be seen at the Land Office, Teluk Anson, during the usual hours, on application to the Collector of Land Revenue.

| Township.   | Lot. No. | Area.   | TITLE.               |     | Owner or Claimant.                          | Area to be Re-summed. |

**TENDERS.**

---

**SUPPLY OF METAL, BATANG PADANG DISTRICT.**

No. 907.—Tenders are invited for the supply of metal for the upkeep of cart-roads in the Batang Padang District, for the year 1902.

These should be addressed to the Secretary to Resident, sealed, and marked on the outside "Tender for Supply of Metal for the Batang Padang District for the Year 1902," and will be received at his office up to noon, on the 27th December, 1902.

Forms and specifications can be seen, and further information concerning quarries to be obtained from the Executive Engineer's Office in Tapah.

5th December, 1901.

#### RIGHT TO OCCUPY AND USE KEROSENE OIL STORES, KRIAN.

No. 908.—Tenders will be received up to noon on the 16th December, 1901, for the right to use for the storage of petroleum and other oils, under Enactment No. 12 of 1897, for one year from the 1st January, 1902, the Government buildings which are now used as Kerosene Oil Stores in the townships of Parit Buntar, Bagan Serai and Kuala Kurau.

With each tender a receipt from the local Treasury for a money deposit of \$20 must be sent. Should any person decline to enter into the contract after he has tendered such deposit will be forfeited to the State.

All deposits will be returned upon the acceptance of tenders having been decided.

Tenders which are sent unaccompanied by a Treasury receipt for the money deposit required will not be considered.

Tenderers should clearly understand that the renting of these buildings from Government will in no way secure any monopoly or right over any private stores which may be hereafter licensed by the Sanitary Board, but they may collect a fee for storage, not exceeding two cents a tin for a period of fourteen days and under, and not exceeding five cents a tin per month for any longer period, from those who may wish to use the stores.

Tenders should be addressed to the Chairman, Sanitary Board, Krian, under sealed covers, marked on the outside "Tender for Rental of Oil Stores, Krian."

Further particulars can be obtained from the Sanitary Board Office, Krian.

7th December, 1901.

#### LIGHTING, KRIAN DISTRICT.

No. 909.—Tenders are invited for lighting the townships of Parit Buntar, Kuala Kurau and Bagan Serai, for one year, from the 1st January, to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Lighting, Krian District," addressed to the Chairman, Sanitary Board, and will be received not later than noon on the 16th December, 1901.

Each tender must be accompanied by a Treasury Receipt for a cash deposit of \$20, otherwise it will not be considered.

Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

The price per lamp per month must be stated, the number of lamps being subject to variation as may suit the requirements of the Sanitary Board.

There are at present 72 lamps.

Further particulars can be obtained on application to the Sanitary Board, Krian.

5th December, 1901.

---

#### SCAVENGING, KRIAN DISTRICT.

No. 910.—Tenders are invited for the removal of town refuse of Parit Buntar, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Scavenging, Krian District," should be addressed to the Chairman, Sanitary Board, and will be received not later than noon on the 16th December, 1901.

Each tender must be accompanied by a Treasury Receipt for a cash deposit of \$20, otherwise it will not be considered.

Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

The price per cart per month must be stated.

Three carts are required at present.

Further particulars can be obtained on application to the Sanitary Board, Krian.

5th December, 1901.

---

#### REPAIRS AND CONSTRUCTION OF BRIDGES, BATANG PADANG DISTRICT.

No. 911.—Tenders are invited for repairs to and construction of wooden bridges in the Batang Padang District, between the Kinta boundary and Trollah, for the year 1902.

These should be addressed to the Secretary to Resident, sealed, and marked on the outside "Tender for Repairs and Construction of Wooden Bridges, Batang Padang," and will be received at his office up to noon, on the 27th December, 1901.

Specifications and all details in connection with bridge timbers can be seen at the Executive Engineer's Office, Tapah.

5th December, 1901.

---

#### CARTAGE OF MATERIALS, BATANG PADANG DISTRICT.

No. 912.—Tenders are invited for the cartage of stone, sand and materials for the upkeep of roads in Batang Padang District, for the year 1902.

These should be addressed to the Secretary to Resident, sealed, and marked on the outside "Tender for Cartage of Materials for Upkeep of Roads, Batang Padang, 1902," and will be received at his office up to noon, on the 27th December, 1901.

Forms and specifications can be seen at the Executive Engineer's Office in Tapah.

5th December, 1901.

### SUPPLY OF METAL, ETC., KUALA KANGSAR AND UPPER PERAK DISTRICTS.

Batu Berdinding, Limestone; Lenggong, Limestone; Gua Badah, Limestone.

Separate prices should be given for :

- (a). Granite gauge,  $1\frac{1}{2}$  inch, and 4 to 6 inch metal.
- (b). Limestone gauge,  $2\frac{1}{2}$  inch, and 4 to 6 inch metal.
- (c). Transport of metal per cubic yard, including loading, unloading, measuring and stacking on the road side, within one mile of the quarry.
- (d). „ „ extra per mile for each mile beyond the first.
- (e). Hire of bullocks per pair for each day of eight hours, with driver, and with or without carts.

Sealed tenders in accordance with the form attached to the specification and marked on the outside "Tenders for Supply of Metal, Etc., for Upkeep of Cart-roads in Kuala Kangsar and Upper Perak Districts," will be received at the Office of the Secretary to Resident, Taiping, not later than noon on the 27th December, 1901.

All information regarding quarries, form of tenders, specifications, etc., may be seen at the Office of the Executive Engineer, Kuala Kangsar.

Government does not bind itself to accept the lowest or any tender, or to give any monopoly of work in any part of the District.

5th December, 1901.

### SANITARY BOARD SUPPLIES, TAIPING.

No. 860.—Tenders are invited for the supply of Sanitary Board requisites, for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Sanitary Board Supplies," should be addressed to the Chairman, Sanitary Board, Taiping, and will be received not later than noon on the 9th December, 1901.

Each tender must be accompanied by a Treasury receipt for a cash deposit of \$25, otherwise it will not be considered. Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

The deposits of unsuccessful tenderers will be returned.

The terms of the contract can be ascertained from the Secretary, Sanitary Board, Taiping, who will also, on application, provide the necessary schedule form.

16th November, 1901.

#### SUPPLY AND CARTAGE OF METAL, ETC., LARUT AND MATANG DISTRICTS.

No. 861.—Tenders are invited for the supply and cartage of metal for the upkeep of cart roads for each of the following divisions of the Larut and Matang Districts, separately, for one or three years, 1902, or 1902 to 1904.

- (i). Taiping Division.
- (ii). Matang Division.
- (iii). South Larut or Trong Division.
- (iv). North Larut and Selama Divisions.

Tenders must state :—

- (i). Price per cubic yard for 1 inch, 1½ inch and 2 inch metal.
- (ii). Cartage of metal per mile.
- (iii). Hire of cart per day, week and month, with bullocks and driver.
- (iv). Supply of mining metal, sand and red earth, per cubic yard, and cartage.

Sealed tenders, marked on the outside "Tender for Supply and Cartage of Metal, Etc., for Upkeep of Cart Roads in Larut and Matang Districts," will be received at the office of the Secretary to Resident, Taiping, not later than noon on the 9th December, 1901.

All information regarding quarries, etc., may be obtained at the office of the Executive Engineer, Larut and Matang, in Taiping.

18th November, 1901,

#### LIGHTING, KRIAN DISTRICT.

No. 865.—Tenders are invited for lighting the townships of Parit Buntar, Kuala Kurau and Bagan Serai, for one year, from the 1st January to the 31st December, 1902.

Title will be a Mining Lease for each lot under the Mining Enactment of 1899.

The conditions of sale and other information can be obtained at the Land Office, Tapah Batang Padang.

Subject to the general conditions of land sales contained in Notification No. 447 of the *Perak Government Gazette* of 1890.

R. CLAYTON.

6th December, 1901.

Collector of Land Revenue

No. 768.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Haji Sedik Panjong bin Raja Kamala of Tanjong Malim, for a new document of title for a piece of mining land situated in the mukim of Ulu Bernam, in the District of Batang Padang, on the ground that Haji Sedik Panjong bin Raja Kamala is the registered owner thereof and that the original Mining Lease, No. 124, has been lost:

No. 769.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Haji Mustapha bin Raja Kamala of Tanjong Malim, for two new documents of title for land situated in the mukim of Ulu Bernam, in the District of Batang Padang, on the ground that Haji Mustapha bin Raja Kamala is the registered owner thereof and that the original Mining Leases, Nos. 141 and 262, have been lost:

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said sections, be granted.

No. 770.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Minah binti Abdul Kahar of Tanjong Malim, for a new document of title for a piece of town land situated at Tanjong Malim, in the mukim of Ulu Bernam, on the ground that Minah binti Abdul Kahar is the registered owner thereof and that the original Mukim Extract, No. 136, has been lost:

No. 771.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Haji Muhammad Rawi bin Haji Abdulrawi of Tanjong Malim, for a new document of title for a piece of town land situated at Tanjong Malim, in the District of Batang Padang, on the ground that Haji Muhammad Rawi bin Haji Abdulrawi is the registered owner thereof and that the original Mukim Extract, No. 139, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

25th October, 1901.

C. D. CARDEW,  
for Collector of Land Revenue.

No. 817.—Application having been made to the Collector of Land Revenue, Tapah, at Patang Padang, by Ho Kye Cheong of Tapah, for a new document of title for a piece of land situated at Chenderiang, in the District of Batang Padang, on the ground that Ho Khye Cheong is the registered owner thereof, and that the original Mining Certificate, No. 23/96, has been lost:

No. 818.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Chia Choon of Kampar, for a new document of title for a piece of land situated at Chenderiang, in the District of Batang Padang, on the ground that Chia Choon is the registered owner thereof, and that the original Mining Certificate, No. 155/98, has been lost:

8th November, 1901.

No. 750.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Francis John Bryant of Ipoh and George Loveridge Bailey of Tapah, for a new mining lease of land situated at Batang Padang mukim, in the District of Batang Padang, on the ground that the original Mining Lease, No. 78, registered in the name of Walter Richard Haighton Chappel, on behalf of the new Bukit Mas (Golden Hill) Mining Company, Limited, has been lost:

In accordance with the provisions of Section 33(d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

11th October, 1901.

No. 749.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Raja Zinal Abidin bin Raja Allang Hussein of Temoh, for a new document of title for a piece of land situated at Chanderiang, in the district of Batang Padang, on the ground that Raja Zinal Abidin bin Raja Allang Hussein is the registered owner thereof, and that the original Extract from the Mukim Register, Entry No. 38, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new Document of Title applied for will, subject to the provisions of the said Section 13, be granted.

11th October, 1901.

#### NOTICE UNDER SECTION 28 OF THE LAND ENACTMENT.

No. 816.—To the Landholders named in Schedule hereto:

Take notice that whereas you have abandoned the lands referred to in Schedule hereto in the mukim of Slim, Batang Padang, the said lands are liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the the Resident, that you have

F. ROBERTSON.  
*Collector of Land Revenue.*

KINTA.

No. 925.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Allang Jenal bin Loh Baluka of Dusun Panjang, for two new titles for land situated in the mukim of Kampar, of the Kinta District, on the ground that Allang Jenal bin Loh Baluka is the registered owner thereof, and that the original Agreements for Agricultural Lease, Nos. 2,010 and 2,011, have been lost :

No. 926.—Application having been made to the Collector of Land Revenue, Kinta, by Haji Ma Arip bin Haji Durahman of Kuala Teja, for a new title for land situated in the mukim of Teja, of the Kinta District, on the ground that Haji Ma Arip bin Haji Durahman is the registered owner thereof, and that the original Agreement for Agricultural Lease, No. 2377, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the above-mentioned titles will be cancelled and the new titles applied for will, subject to the provisions of the said Section 13, be granted.

C. E., M. DESBOROUGH.

6th December, 1901.

*Acting Collector of Land Revenue.*

No. 809.—Application having been made to the Collector of Land Revenue, Kinta at Batu Gajah, by Alang Taib bin Pandak Lisah of Kampar, for a new document of title to land situated in the mukim of Kampar of the Kinta District, on the ground that Alang Taib bin Pandak Lisah is the registered owner thereof, and that the original Agreement for Agricultural Lease, No. 2,003, has been lost:

No. 810.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Itam Lasid bin Uda Chentek of Batu Karang, for two new documents of title to land situated in the mukim of Kampar of the Kinta District, on the ground that Itam Lasid bin Uda Chentek is the registered owner thereof, and that the original Agreements for Agricultural Lease, Nos. 2,125 and 2,230, have been lost:

No. 811.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Nga Jurah binti Allang Kareem of Kuala Dipang, for a new document of title to land situated in the mukim of Kampar of the Kinta District, on the ground that Nga Jurah binti Allang Kareem is the registered owner thereof, and that the original Agreement for Agricultural Lease, No. 1,820, has been lost:

No. 812.—Application having been made to the Collector of Land Revenue, Kinta, at Batu Gajah, by Wong Siong, for a Mining Lease of land situated in the mukim of Blanja of the Kinta District, on the ground that Wong Siong is the registered owner thereof, and that the original Agreement for Mining Lease, No. 973, has been lost:

In accordance with the provisions of Section 33 (d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications the new titles applied for will, subject to the provisions of the said Section 13, be granted.

8th November, 1901.

1. Offices closing to the public at 4 p.m. will open out again at 5.50 p.m. for the receipt and delivery of telegrams that may have been awaiting transmission at other offices, and for ten minutes only after 5.50 p.m. post-office will be prepared to accept over the counter any telegrams that the public may wish to hand in.

2. The hours for the closing of mails will be notified locally by each Post Office.

3. No money order business will be transacted on Saturday, except in Taiping, between the hours of 9 a.m. and 11 a.m.

4. On Sundays and holidays, offices will only be opened from 8 to 10 a.m. and 4 to 5 p.m. for the acceptance over the counter and delivery of telegrams, sale of stamps and the delivery of any mails received. No other post business will be transacted.

A mail will be despatched from Taiping for Penang on Sunday evening.

## CONDITIONS OF WINDOW DELIVERY.

## PRIVATE BOX HOLDERS.

1. Window Delivery Tickets are issued on the following conditions:—

(a). A Ticket entitles the holder to a delivery of correspondence over the counter to the bearer of the ticket at any time during the day while a Post Office is open for the transaction of postal business generally, but on Sundays and holidays only at the limited time of half an hour after the receipt of a mail.

(b). On arrival of a mail, the correspondence for all ticket-holders will have special attention, so that such correspondence may be delivered over the counter within as short a time after receipt of mails as possible.

(c). Holders of tickets must provide locked receptacles with duplicate keys, one of which will be kept in the Post Office, and the Post Office authorities will then see that the correspondence is duly placed in the receptacle, which will be locked and handed to the bearer. Bags with Yale locks may be obtained from the Taiping Post Office, Large \$5.15, Small \$3.00.

(d). In order to facilitate sorting in the Post Office ticket-holders are advised to request their correspondents to address all correspondence that may be required to be delivered through the medium of the box and ticket in accordance with the superscription on the ticket. No correspondence as a rule will be sorted into a box unless it bears an address in accordance with that given on the ticket. Articles addressed by means of a name and post town only will not be sorted into boxes, but a special ticket and box is taken for *that name* but will be sent out for delivery by postmen. Correspondence sorted into boxes will not on any account be delivered to postmen but will be kept till called for.

(e). After delivery of correspondence to the bearer of a ticket the responsibility of the Post Office ceases.

(f). The foregoing rules apply to ordinary correspondence only. Registered correspondence and parcels cannot be delivered at the same time as ordinary correspondence, and must be delivered to the addressees personally, as their receipts are required.

(g). The fee is \$6 per annum.

## GENERAL WINDOW DELIVERY.

2. The following persons may have their correspondence delivered over the counter free of charge:—

(a). All Heads of Government Departments, by presentation of an official ticket, to be authorised by the Secretary Resident, under the conditions above stated.

(b). Persons residing outside the limit of delivery.

(c). Persons applying for letters addressed to the care of the Post Office, or for letters to be kept till called for, unless such persons reside within the limit of the delivery and make it a practice to have their letters so addressed; in which case the letters will be sent out for delivery.

3. No person residing within the limits of delivery, unless he rent a private box, can claim to have his correspondence delivered at the Post Office.

## RATES FOR TELEGRAMS FROM PERAK.

To Penang, Province Wellesley, Malacca and the Federated Malay States:—

First seven words or under ... .. 21 cents  
For every additional word ... .. 3 "

To Singapore, via Malacca:—Thirteen cents per word.

To Singapore, via Penang:—Twenty-eight cents per word.

To any other part of the World:—The Eastern Extension Telegraph Company's rates plus three cents per word.

In all cases the address is counted.

FEDERAL.

LEAVE.

Mr. W. Field, Armourer, Malay States Guides, has been granted twelve months leave of absence on half salary, with effect from the 15th November, 1901.

---

COUNCIL OF STATE, KUALA KANGSAR.

SATURDAY, 9TH NOVEMBER, 1901.

PRESENT :

HIS HIGHNESS IDRIS MERSID-EL-AAZAM SHAH, G.O.M.G., Sultan of Perak,  
President.

The Acting British Resident, J. P. RODGER, Esq., C.M.G.

His Highness Raja Muda, RAJA MUSA.

The Raja di Hilir, RAJA ABDUL JALIL.

The Orang Kaya Temenggong, WAN HASSAN.

The Orang Kaya Mentri, WAN MUHAMMAD ISA.

The Orang Kaya Kaya Sri Adika Raja, WAN MUHAMMAD SALEH.

The Orang Kaya Kaya Laksamana, HUSSEIN.

The Orang Kaya Kaya Panglima Kinta, USUF.

The Datoh Sri Maharaja Lela, ABUBAKAR.

The Datoh Muda, ABDUL WAHAB.

LEONG FI.

HIAH SWEE LEE.

ABSENT :

The Acting Secretary to Resident, R. G. WATSON, Esq.

CHUNG THYE PHIN.

The Council meets at 11.15 a.m.

1. A draft Enactment to repeal "The Federal Officers Pensions Enactment, 1899," and "The Railway Superannuation Fund Enactment, 1899," and to amend "The Pensions Order in Council of 1895," is read and passed, becoming No. 12 of 1901.

2. A draft Enactment entitled "The Dogs Enactment, 1901," is considered and passed, becoming No. 13 of 1901.

3. A petition from Mr. W. W. Richardson of Ipoh, for a grant of exclusive privileges in respect of his invention for improvements in apparatus for disintegrating and washing gravel or any material bearing tin-ore except uncrushed rock, is considered by the Council and approved.

4. A similar petition from Mr. E. M. Bradford of Wales, for a grant of exclusive privileges for a process for the recovery of tin from slag, hard-head or other by products of the smelting of tin-ore or manufacture of tin, is also considered by the Council and approved.

5. With reference to the death sentences on Ng Wai and Ng Goong, confirmed by the Council on the 7th September, but of which the execution was deferred by order of His Highness the Sultan for further enquiry, the Acting Resident submits a report by the Protector of Chinese. The Council, after consideration of this report, orders the sentences to be carried out on the 30th instant.

6. The Acting Resident submits to the Council the notes of evidence taken in a case of murder, tried before the Judicial Commissioner, with Assessors, in which a Tamil named Kollimallai was convicted and sentenced to death. The Council confirms the sentence and orders it to be carried out on the 30th instant.

7. The Acting Resident submits to the Council the notes of evidence taken in a case of murder, tried before the Judicial Commissioner, with Assessors, in which a Chinese named Chong Pow was convicted and sentenced to death. A report by a Medical Commission, consisting of the Acting Senior District Surgeon and the District Surgeon of Batu Gajah, on the mental condition of the prisoner is also considered, and the Council orders the prisoner to be detained during the pleasure of His Highness the Sultan, on the ground of insanity.

8. The Acting Resident also submits to the Council the notes of evidence taken in a case of murder tried before the Judicial Commissioner, with Assessors, in which a Malay named Mat Amin was convicted and sentenced to death. The Council confirms the sentence passed by the Judicial Commissioner, and orders it to be carried out on the 30th instant.

9. A letter from the Acting District Magistrate, Lower Perak, reporting the death of Haji Abdul Raof, Penghulu of Kota S'tia, and making certain recommendations for filling the vacant appointment, is read. His Highness the Raja Muda is strongly in favour of the Acting District Magistrate's suggestions, and the Council sanctions the following appointments, with effect from dates of assuming duties :—

(i). Muhammad Nurdin, Penghulu of Utan Melintang, to be Penghulu of Kota S'tia.

(ii). Haji Mat Nasir, Penghulu of Teluk Bharu, to be Penghulu of Utan Melintang.

(iii). Abdullah Ali, Penghulu of Sungei Durian, to be Penghulu of Teluk Bharu.

(iv). Haji Abdul Rafor, Penghulu of Bagan Datoh, to be Penghulu of Sungei Durian.

(v). Zabedi, Assistant Penghulu of Rungkup, to be Penghulu of Bagan Datoh.

(vi). Kulup Samat, Assistant Penghulu, Teluk Anson, to be Assistant Penghulu of Bagan Datoh.

(vii). Tahir bin Hamid to be Assistant Penghulu of Teluk Anson.

(viii). Haji Ismail, Assistant Penghulu of Bagan Datoh, to be Assistant Penghulu of Rungkup, *vice* Zabedi.

10. The Council approves of the promotion of Mat Nurdin, Penghulu of Ulu Selama, to be Penghulu of Trong, on a salary of \$25 a month, without 10 per cent allowance; Raja Shabudin, Assistant Penghulu of Simpang, to succeed Mat Nurdin, on the salary provided in the Annual Estimates, with effect from dates of assuming duties of new appointments. His Highness the Sultan will select a candidate for the vacancy at Simpang.

11. The question of filling the appointment of Penghulu to the Bota mukim, rendered vacant by the dismissal of To' Sa' Indra Bongsu, is raised by His Highness the Sultan. The Council considers that the present Assistant Penghulu, Uda Mat Isa, should carry on the duties of Penghulu without increase of salary, for a period of 12 months from the date of last meeting of Council (7th September, 1901), when the question will be further considered and finally settled.

12. On the recommendation of the Acting Collector of Land Revenue, Larut, the Council approves of the appointment of Jahya bin Pakan as Assistant Penghulu of Gunong Semanggol, on a salary of \$15 a month, *vice* Assistant Penghulu Jalil, deceased, with effect from date of assuming duties.

13. The following applications for mining rights over agricultural lands are considered and approved on the terms stated in the subjoined Schedule.

| Mukim.      | Name.                                | Title.                                 | Area.                    | Premium per Acre. |

The Council adjourns *sine die*.

(Signed) RAJA MANSUR,  
for Clerk of Council.

No. 932.—The following Enactments were passed at a Meeting of the Council of State held on the 9th November, 1901.

## FEDERATED MALAY STATES.

### STATE OF PERAK.

#### ENACTMENT No. 12 OF 1901.

An Enactment to repeal "The Federal Officers' Pensions Enactment, 1899," and The Railway Superannuation Fund Enactment, 1899, and to amend The Pensions Order in Council of 1895.

[9th November, 1901.]

J. P. RODGER, *Acting British Resident*.

IT IS HEREBY enacted by His Highness the Sultan in Council as follows:—

1. (i). This Enactment may be cited as "The Pensions Order in Council Amendment Enactment, 1901," and shall come into force upon the publication thereof in the *Gazette*. Short title, commencement, etc.

(ii). The Pensions Order in Council of 1895 is hereinafter referred to as "the Principal Enactment."

(iii). Any copy of the principal Enactment printed after the coming into force of this Enactment may be printed with the amendments and alterations made by this Enactment.

## No. 12 OF 1901.

**Repeal.**

2. Upon the coming into force of this Enactment the Enactments specified in the schedule hereto shall be repealed to the extent mentioned in the third column of such schedule.

**Amendment of Section 2 of the principal Enactment.**

3. Section 2 of the principal Enactment is amended—

(a). By the omission therefrom of the words “His Highness the Sultan in Council with the advice of”;

(b). By the insertion therein after the words “The British Resident” of the words “with the approval of the Resident-General”; and

(c). By the addition at the end thereof of the words “provided that until such regulations are made, the regulations already made under this Order in Council shall remain in force.”

**Addition of new section to the principal Enactment.**

4. The following Section, to be numbered 15, is added to the principal Enactment:—

“For the purposes of this Order in Council, persons who have served in any of the Federal Establishments of the Federated Malay States shall be considered to have been during the period of such service in the public service of the State. Provided that, the amount of any pension, gratuity or other allowance granted to any such person which is chargeable to the revenues of the State, shall be reduced by such amount as the Resident-General may direct shall be paid in respect of such pension, gratuity or allowance out of the revenues of the other Federated Malay States.”

**THE SCHEDULE.****ENACTMENTS REPEALED.**

| XII of 1899   | Railway Superannuation Fund Enactment, 1899 ... .. |                  |

**FEDERATED MALAY STATES,****STATE OF PERAK.****ENACTMENT No. 13 OF 1901.**

[9th November, 1901.]

J. P. RODGER, *Acting British Resident.*

**IT IS HEREBY** enacted by His Highness the Sultan in Council as follows:—

**Short title and commencement.**

1. This Enactment may be cited as “The Dogs Enactment, 1901.” and shall come into force upon the publication thereof in the *Gazette*.

## DOGS ENACTMENT.

2. The Enactments mentioned in the schedule hereto are repealed to the extent specified in the third column of the schedule. Repeal.

3. (i). No dog shall be brought into the State by sea except by way of the Ports of Teluk Anson or Port Weld. Importation of dogs.

(ii). Every dog landed at any such port shall be immediately placed in quarantine in such place as the Health Officer shall direct and shall be detained in quarantine at the expense and risk of its owner for such period, not exceeding six months, as shall be considered sufficient in the opinion of the Health Officer. The owner of such dog may be required to deposit in the Treasury a sufficient sum of money to cover the expenses of quarantine.

(iii). A dog in respect of which the deposit is not paid may be sold or destroyed.

(iv). A dog not claimed within ten days after the expiration of the period of quarantine may be sold or destroyed, provided that due notice, by advertisement or otherwise, has been given to the owner.

4. The master of every ship which shall bring a dog to any of the ports specified in Section 3 from any place outside the State shall forthwith, on arrival of the ship, report the fact to the Port Officer. Captain of vessel bringing in dogs to report the same.

5. The owner of any dog over three months old shall register the same in manner hereinafter provided, and each such registration shall remain in force for the current year only. Registration.

6. A registration fee shall be charged for each dog registered of such amount as the Resident shall from time to time impose by notification in the *Gazette*; and, on payment of such fee at the chief police station of the district, the dog shall be registered by entering a description thereof, with the name and address of the owner, in a book to be kept for that purpose and the owner shall be supplied with a metal number and with a printed receipt signed by the registering officer. The owner of every registered dog shall provide a collar to which such metal number shall be securely fixed, and such collar and number shall be continually worn by such registered dog. Any dog found at large without such collar and number may be destroyed by any person authorised by the Resident in that behalf. How effected.

7. Every person who shall buy or otherwise acquire possession of any registered dog shall furnish information of the fact to the chief police station of the district, and the name of such person shall thereupon be substituted for the name of the last owner of the dog, and a fee of 50 cents shall be charged for such substitution. Information to be furnished.

8. Should there be any doubt regarding the ownership of any dog, any person found in possession of such dog or the occupier of the premises frequented by it shall be deemed to be the owner thereof until the contrary is proved. Person in possession of dog to be deemed owner.

9. Every person who shall commit any breach of the provisions of Sections 3 or 4 shall, on conviction, be liable to a fine not exceeding \$100, or, in default of payment, to simple imprisonment for a term not exceeding three months. Penalties.

No. 13 of 1901.

10. Every person who shall commit any breach of the provisions of Sections 5 or 7 shall, on conviction, be liable to a fine not exceeding \$25, or, in default of payment, to simple imprisonment for a term not exceeding one month.

Confinement  
or muzzling  
of dogs.

11. Should rabies appear in any district, the Senior Magistrate or District Officer may issue a proclamation ordering either that all dogs within such district be tied up or otherwise confined for such period as is stated in such proclamation, or that all such dogs be muzzled for such stated period, and any dog found at large or unmuzzled (as the case may be) during such stated period will be liable to be destroyed and the owner or person in charge of such dog shall be liable, on conviction, to a fine not exceeding \$200, or to imprisonment of either description for a period not exceeding six months, or to both.

12. Should rabies appear in any district it shall be lawful for the Resident, by proclamation specifying the period for which such order shall remain in force, to order the destruction of all dogs within such district, or any defined part thereof, and to appoint persons to carry out such order.

## THE SCHEDULE.

| Number and Date.                    | Short Title or Description.             | Extent of Repeal.                                      |
|-------------------------------------|-----------------------------------------|--------------------------------------------------------|
| Order in Council,<br>No. 15 of 1890 | Quarantine and Prevention<br>of Disease | Section 4 (x) and<br>Rules 38 to 48<br>made thereunder |

THE following Notifications are, by Command of the Acting Resident, published for general information.

A. R. VENNING,  
*Secretary to Resident.*

20th December, 1901.

GOVERNMENT NURSES.

No. 952.—The following are the terms on which Nurses, engaged through the Colonial Nursing Association for service in the Federated Malay States, are available for attending cases of illness amongst the families of officials and residents generally, subject to a first claim on their services by Government in the event of the occurrence of an epidemic.

The fees for private nursing, payable to Government, are as follows:—

|             |     |     |     |     | Ordinary Cases. | Infectious Cases. |     |  |
|-------------|-----|-----|-----|-----|-----------------|-------------------|-----|--|
|             |     |     |     |     | \$              | \$                |     |  |
| Per day     | ... | ... | ... | ... | 4               | ...               | 5   |  |
| „ week      | ... | ... | ... | ... | 25              | ...               | 35  |  |
| „ fortnight | ... | ... | ... | ... | 50              | ...               | 70  |  |
| „ month     | ... | ... | ... | ... | 100             | ...               | 125 |  |

In addition the person engaging the Nurse will be responsible for the cost of her transport and will be required to board her. The State Surgeon is empowered, at his discretion, to recommend to Government a lower rate of fees in the cases of such residents as cannot afford to pay the established rates.

Persons desiring the services of one of the Nurses are required to communicate in writing, either directly or through their medical attendant, with the State Surgeon. A guarantee for payment of fees, in attached form, will be required in each case.

In consideration of the services of a Nursing sister being placed at the disposal of \_\_\_\_\_, I, the undersigned, resident in \_\_\_\_\_, undertake to pay the fees and transport expenses to become payable to the Government in respect of such services; and I hereby agree to pay the same at the office of the Government hospital immediately after the receipt of an account shewing the amount due.

To

THE STATE SURGEON,

PERAK.

16th December, 1901.

#### LICENSED PETITION WRITER.

No. 953.—C. Duraisamy Naidoo has been granted a licence as a Petition Writer for the District of Lower Perak, for six months, with effect from the 4th December, 1901.

20th December, 1901.

#### CUSTOMS DUTIES.

No. 954.—The Acting Resident, with the approval of the Resident-General, has been pleased under the powers vested in him by the Customs Duties Enactment, 1898, to amend Notification No. 574 of the 12th September, 1900, by the addition of the following clause:—

“The 10 per cent export duty on salt and dried fish may be commuted for a monthly payment of 30 cents in respect of each person employed in fishing, or \$1.40 for each Pukat Lengkong.”

13th December, 1901.

#### BOUNDARIES OF TEMOH TOWNSHIP.

No. 955.—In exercise of the powers conferred upon him by Section 10 of the Land Enactment, No. 17 of 1897, the Acting Resident has been pleased to define the boundaries of the township of Temoh as follows:—

##### TEMOH.

*North.*—From a stone at the north-west corner of 10-foot path in Agricultural Lot No. 499, along the said path, in an easterly direction, crossing the Tapah-Kampar main road to a stone at north-east corner of 10-foot path in Agricultural Lot No. 219A.

*East.*—Thence in a southerly direction following the western boundaries of Agricultural Lot 219A, Mining Lots 641 and 270, to a stone at the south-east corner of 20-foot path in Mining Lot No. 270.

*South.*—Thence along the said path, in a south-westerly direction, crossing the Tapah-Kampar main road to the south-west corner of 20-foot path.

*West.*—Thence along the 10-foot path crossing two town roads to a stone at south-east corner of Agricultural Lot 484; thence along the southern boundaries of Agricultural

Lots 484 and 506; thence south along the eastern boundary of Agricultural Lot 279 to a stone at south-east corner of the said lot; thence along the southern boundaries of Agricultural Lots 279 and 280 to a stone at south-west corner of Agricultural Lot 280; thence north along the western boundary of Agricultural Lot 280, crossing the Temoh-Temoh railway station road, and along the western boundary of Agricultural Lot 342, to a stone at north-west corner of the said lot; thence east along the northern boundaries of Agricultural Lots 342 and 341 to a stone at north-east corner of Agricultural Lot 341; thence north along a portion of western boundary of Agricultural Lot 482 to a stone at north-west corner of the said lot, thence east along the northern boundaries of Agricultural Lots 482, 483 and 484 to a stone at north-east corner of Agricultural Lot 485; thence along the eastern boundary of Agricultural Lot 499 to a stone at north-west corner of 10-foot path, the point of commencement.

12th December, 1901.

### ORDER MADE BY HIS HIGHNESS THE SULTAN UNDER THE "BANISHMENT ENACTMENT, 1900."

No. 956.—Whereas it appears to His Highness the Sultan that the removal from the State of Perak, of the persons enumerated in the schedule hereto, is necessary for the public safety and welfare:

It is hereby ordered by His Highness the Sultan, with the advice and consent of the Acting British Resident, that the said persons so enumerated shall be, and are hereby, banished from the State for the period of their natural lives.

#### SCHEDULE.

Yan-A-Yan *alias* Li Yan; Li Fuk; Awang.

20th December, 1901.

### NOTICE TO INDIAN COOLIES.

No. 957.—All *bonâ fide* coolies travelling to Penang, Perak, Klang, Selangor, Port Dickson, Malacca or Singapore can obtain Government aided passage steamer tickets on application to the Superintendent of the Emigration Depôt, Negapatam, at the following rates:—

|   |                     |     |     |     | Rs |
|---|---------------------|-----|-----|-----|----|
| • | Negapatam to Penang | ... | ... | ... | 11 |
|   | „ Singapore         | ... | ... | ... | 16 |

Coolies can, if they so desire, be conveyed from the shore to the steamer at Negapatam in boats belonging to the Emigration Depôt, at a charge of only three annas each.

These tickets are available for free coolies and entail no obligations or disabilities upon the coolies to whom they are supplied.

19th December, 1901.

This Notification is made under Section 6 of the Land Enactment, 1897.

Dated at Taiping, this 3rd day of December, 1901.

A. R. VENNING,  
*Secretary to Resident.*

## DECLARATIONS UNDER SECTION 75 OF THE LAND ENACTMENT, 1897.

### ACQUISITION OF LAND FOR PUBLIC PURPOSES.

No. 961.—It is hereby notified that whereas the whole or certain portions of that land in the mukim of Bagan Serai, in the District of Krian, set forth and described in the schedule hereto, are required for the public purpose of irrigation, it is the intention of the Government to take possession of the same under Part VII of the Land Enactment, No. 17 of 1897, after the publication of this notice in the *Gazette*.

Plans of the lands described below, shewing the portions to be resumed, may be seen at the Land Office, Parit Buntar, during the usual hours, on application to the Collector of Land Revenue.

### SCHEDULE.

*Mukim*—Bagan Serai. *Situation*—Bagan Serai. *Lot No.*—894 *Area*—23 acres, 2 roods, 2 poles. *Nature of Title*—Mukim Extract No. 3,120. *Owner or Claimant*—Allang-aram, son of Marian Sowri. *Extent of Resumption*—2 poles.

This Declaration is made under Section 75 of the Land Enactment, No. 17 of 1897, to all whom it may concern.

Dated at Taiping, this 18th day of December, 1901.

A. R. VENNING,  
*Secretary to Resident.*

No. 902.—It is hereby notified that whereas certain portions of land in the township of Teluk Anson, in the District of Lower Perak, set forth and described in the schedule hereto, are required for a public purpose, viz: extension of the Teluk Anson railway station, it is the intention of Government to resume the same under Part VII of the Land Enactment, No. 17 of 1897, after the publication of this notice in the *Gazette*.

Plan of the land described below, shewing the portion to be resumed, may be seen at the Land Office, Teluk Anson, during the usual hours, on application to the Collector of Land Revenue.

No. 964.—Notice is hereby given that the Registration of Vehicles and Jinrikishas in the Batang Padang District, for the first period of 1902, will commence on Thursday, the 2nd January, 1902. Registration hours will be from 10 a.m. to 4 p.m. on Tuesdays and Thursdays, at the Sanitary Board Office.

The colour of the number plates will be red figures on a white ground.

17th December, 1901.

---

## TENDERS.

---

### GHARI SHELTER, PADANG RENGAS.

No. 965.—Tenders are invited for the farm of the ghari shelter in Padang Rengas for one year, from the 1st January to the 31st December, 1902.

Sealed tenders, marked on the outside "Tender for Ghari Shelter, Padang Rengas," should be addressed to the Chairman, Sanitary Board, Kuala Kangsar, and will be received not later than noon on Friday, the 27th December, 1901.

Each tender must be accompanied by a Treasury Receipt for a cash deposit of \$20, otherwise it will not be considered.

Should any person decline to enter into a contract after his tender has been accepted such deposit will be forfeited to the State.

Further particulars can be obtained on application to the Chairman, Sanitary Board, Kuala Kangsar.

14th December, 1901.

---

#### SUPPLY OF METAL AND SAND, KRIAN DISTRICT.

No. 966.—Tenders are invited for the supply of metal and sand for the upkeep of roads in the Krian District for the year 1902.

Tenders should be made in accordance with the form given in the specifications.

Sealed tenders, marked on the outside "Tender for Supply of Metal and Sand for the Krian District," will be received at the office of the Secretary to Resident, Taiping, not later than 12 noon, on 27th December, 1901.

Plans and specifications can be seen at the State and Executive Engineer's offices in Taiping and Parit Buntar.

14th December, 1901.

---

#### CARTAGE AND ROLLING OF METAL, KRIAN.

No. 967.—Tenders are invited for the cartage of road material and hire of bullocks and drivers for rolling metal in the Krian District for the year 1902.

Tenders should be made in accordance with the forms given in the specifications.

Sealed tenders, marked on the outside "Tender for Cartage and Rolling of Metal, Krian," will be received at the office of the Secretary to Resident, Taiping, not later than 12 noon, on 27th December, 1901.

Plans and specifications can be seen at the State and Executive Engineer's offices in Taiping and Parit Buntar. The tenders for cartage must be entirely separate from the tenders for rolling as the Government reserves the right to keep this or take it over at any time from the Contractors.

14th December, 1901.

---

#### UPKEEP OF ROADS, LOWER PERAK DISTRICT.

No. 968.—Tenders are invited for the upkeep of the under-mentioned roads in the Lower Perak District, for twelve months, from the 1st January, 1902.

No. 817.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Ho Kye Cheong of Tapah, for a new document of title for a piece of land situated at Chenderiang, in the District of Batang Padang, on the ground that Ho Khye Cheong is the registered owner thereof, and that the original Mining Certificate, No. 23/96, has been lost:

No. 818.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Chia Choon of Kampar, for a new document of title for a piece of land situated at Chenderiang, in the District of Batang Padang, on the ground that Chia Choon is the registered owner thereof, and that the original Mining Certificate, No. 155/98, has been lost:

8th November, 1901.

No. 750.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Francis John Bryant of Ipoh and George Loveridge Bailey of Tapah, for a new mining lease of land situated at Batang Padang mukim, in the District of Batang Padang, on the ground that the original Mining Lease, No. 78, registered in the name of Walter Richard Haighton Chappel, on behalf of the new Bukit Mas (Golden Hill) Mining Company, Limited, has been lost:

In accordance with the provisions of Section 33(d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

11th October, 1901.

No. 749.—Application having been made to the Collector of Land Revenue, Tapah, at Batang Padang, by Raja Zinal Abidin bin Raja Allang Hussein of Temoh, for a new document of title for a piece of land situated at Chenderiang, in the district of Batang Padang, on the ground that Raja Zinal Abidin bin Raja Allang Hussein is the registered owner thereof, and that the original Extract from the Mukim Register, Entry No. 38, has been lost:

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of this notice in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing this application, the new Document of Title applied for will, subject to the provisions of the said Section 13, be granted.

R. CLAYTON,

11th October, 1901.

*Acting Collector of Land Revenue.*

No. 768.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Haji Sedik Panjong bin Raja Kamala of Tanjong Malim, for a new document of title for a piece of mining land situated in the mukim of Ulu Bernam, in the District of Batang Padang, on the ground that Haji Sedik Panjong bin Raja Kamala is the registered owner thereof and that the original Mining Lease, No. 124, has been lost:

No. 769.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Haji Mustapha bin Raja Kemala of Tanjong Malim, for two new documents of title for land situated in the mukim of Ulu Bernam, in the District of Batang Padang, on the ground that Haji Mustapha bin Raja Kemala is the registered owner thereof and that the original Mining Leases, Nos. 141 and 262, have been lost:

In accordance with the provisions of Section 33(d) of the Mining Enactment, 1899, and Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue for refusing these applications, the new titles applied for will, subject to the provisions of the said sections, be granted.

25th October, 1901.

No. 770.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Minah binti Abdul Kahar of Tanjong Malim, for a new document of title for a piece of town land situated at Tanjong Malim, in the mukim of Ulu Bernam, on the ground that Minah binti Abdul Kahar is the registered owner thereof and that the original Mukim Extract, No. 136, has been lost:

No. 771.—Application having been made to the Collector of Land Revenue, Tanjong Malim, by Haji Muhammad Rawi bin Haji Abdulrawi of Tanjong Malim, for a new document of title for a piece of town land situated at Tanjong Malim, in the District of Batang Padang, on the ground that Haji Muhammad Rawi bin Haji Abdulrawi is the registered owner thereof and that the original Mukim Extract, No. 139, has been lost :

In accordance with the provisions of Section 13 of the Land Enactment, 1897, notice is hereby given that unless within three months from the date of publication of these notices in the *Gazette*, good cause be shewn to the Collector of Land Revenue, for refusing these applications, the new titles applied for will, subject to the provisions of the said Section 13, be granted.

25th October, 1901.

C. D. CARDEW,  
for Collector of Land Revenue.

#### KRIAN.

#### NOTICE UNDER SECTION 28 OF THE LAND ENACTMENT, 1897.

No. 819.—To the Landowners mentioned below :

Take notice that whereas you have abandoned the land described hereunder in the mukim of Bagan Serai in the Krian District, the said land is liable to forfeiture under the provisions of Section 28 of the Land Enactment, 1897, and that unless within three months from the date of this notice you are able to shew, to the satisfaction of the Resident, that you have not abandoned such land, or unless you enter or re-enter into occupation of such land by making a *bonâ fide* commencement to cultivate it, the said land will, at the expiration of the time, be forfeited and resumed by me on behalf of the Ruler of the State.

Dated this 14th day of October, 1901.

W. COWAN,  
Protector of Chinese, Perak.

## RETURN OF METEOROLOGICAL OBSERVATIONS.

Taken at the Trig. Survey Office, Taiping, in Lat. 4° 51' N. and Long. 100° 45' E. during the Month of *NOVEMBER*, 1901.

[Height of Barometer Cistern, 85 feet above Mean Sea Level.] \*

Note.—The mean temperature is computed from the results of maximum and minimum temperature. In the reduction of the hygrometrical observations, Mr. H. M. Blandford's "Tables for the Reduction of Meteorological Observations in India" were used.

ALFRED E. YOUNG,  
Chief Surveyor.

18th December, 1901.

## ABSTRACT OF METEOROLOGICAL READINGS

In the various Districts of the State for the Month of *NOVEMBER*, 1901.

| DISTRICT.             | Mean Temperature of Air. | Maximum Temperature recorded in Shade. | Minimum Temperature recorded in Shade. | Mean Temperature of Radiation. | Maximum Temperature recorded in Sun. | Mean Temperature of Evaporation. | Total Rainfall. | Greatest Rainfall during 24 hours. |

1. Offices closing to the public at 4 p.m. will open out again at 5.50 p.m. for the receipt and delivery of any telegrams that may have been awaiting transmission at other offices, and for ten minutes only after 5.50 p.m. postmasters will be prepared to accept over the counter any telegrams that the public may wish to hand in.

2. The hours for the closing of mails will be notified locally by each Post Office.

3. No money order business will be transacted on Saturday, except in Taiping, between the hours of 9 a.m. and 11 a.m.

4. On Sundays and holidays, offices will only be opened from 8 to 10 a.m. and 4 to 5 p.m. for the acceptance over the counter and delivery of telegrams, sale of stamps and the delivery of any mails received. No other postal business will be transacted.

A mail will be despatched from Taiping for Penang on Sunday evening.

## CONDITIONS OF WINDOW DELIVERY.

## PRIVATE BOX HOLDERS.

1. Window Delivery Tickets are issued on the following conditions:—

(a). A Ticket entitles the holder to a delivery of correspondence over the counter to the bearer of the ticket at any time during the day while a Post Office is open for the transaction of postal business generally, but on Sundays and holidays only for the limited time of half an hour after the receipt of a mail.

(b). On arrival of a mail, the correspondence for all ticket-holders will have special attention, so that such correspondence may be delivered over the counter within as short a time after receipt of mails as possible.

(c). Holders of tickets must provide locked receptacles with duplicate keys, one of which will be kept in the Post Office and the Post Office authorities will then see that the correspondence is duly placed in the receptacle, which will be locked and handed to the bearer. Bags with Yale locks may be obtained from the Taiping Post Office, Large \$5.15, Small \$3.60.

(d). In order to facilitate sorting in the Post Office ticket-holders are advised to request their correspondents to address all correspondence that may be required to be delivered through the medium of the box and ticket in accordance with the superscription on the ticket. No correspondence as a rule will be sorted into a box unless it bears an address in accordance with that given on the ticket. Articles addressed by means of a name and post town only will not be sorted into boxes unless a special ticket and box is taken for *that name* but will be sent out for delivery by postmen. Correspondence sorted into boxes will not on any account be delivered to postmen but will be kept till called for.

(e). After delivery of correspondence to the bearer of a ticket the responsibility of the Post Office ceases.

(f). The foregoing rules apply to ordinary correspondence only. Registered correspondence and parcels cannot be delivered at the same time as ordinary correspondence, and must be delivered to the addressees personally, as their receipts are required.

(g). The fee is \$6 per annum.

## GENERAL WINDOW DELIVERY.

2. The following persons may have their correspondence delivered over the counter free of charge:—

(a). All Heads of Government Departments, by presentation of an official ticket, to be authorised by the Secretary Resident, under the conditions above stated.

(b). Persons residing outside the limit of delivery.

(c). Persons applying for letters addressed to the care of the Post Office, or for letters to be kept till called for, unless such persons reside within the limit of the delivery and make it a practice to have their letters so addressed; in which case the letters will be sent out for delivery.

3. No person residing within the limits of delivery, unless he rent a private box, can claim to have his correspondence delivered at the Post Office.

## RATES FOR TELEGRAMS FROM PERAK.

To Penang, Province Wellesley, Malacca and the Federated Malay States:—

First seven words or under ... 21 cents  
For every additional word ... 3 "

To Singapore, via Malacca:—Thirteen cents per word.

To Singapore, via Penang:—Twenty-eight cents per word.

To any other part of the World:—The Eastern Extension Telegraph Company's rates plus three cents per word.

In all cases the address is counted.
